Dear Dr. Kirschner:

As we discussed on the telephone, the Assassination Records Review Board (ARRB) is currently undertaking a review of the medical evidence in the assassination of President Kennedy. In this connection, we believe it would be prudent for us to make use of your valuable experience and we very much appreciate your willingness to help. As I mentioned to you by phone, we are not seeking your opinion or conclusions on any of the medical issues in the case. We principally are interested in receiving your insights as to appropriate issues that should be raised and addressed as we attempt to clarify the autopsy records.

I am enclosing your round trip plane ticket for April 11, 1996. I am also enclosing the following documents to assist you in your preparation:
