Dear Dr. Saslaw:

I would like to thank you again for meeting with Doug Horne and me in our offices on April 25, 1996, to discuss the AFIP lunchroom conversation that you overheard in November of 1963.

In order to document formally your observations, we have prepared a draft affidavit recording the substance of the experience that you recounted to us. We would very much appreciate it if you would examine the draft and make any corrections, emendations, or additions that you believe would more accurately reflect your observations. Once you have reviewed the draft, please call either Doug or myself and let us know of any revisions that you believe should be made. At that point we will send you a corrected version for your signature.

Thank you again for your continuing helpfulness.

Sincerely yours,

Timothy A. Wray
Chief Analyst for Military Records
