Dear Mr. Weisberg:

Thank you for your letter of April 15, 1996. We appreciate your offer to assist us in our work regarding medical evidence and I am very interested in Howard Roffman's study regarding potential disparities between the autopsy notes and the final protocol. We read pages 255-6 of your book Post Mortem, as you recommended, and noted that Mr. Roffman's report consisted of 15 single-spaced typewritten pages of analysis and information. If you would send that report to us, we will carefully consider it in our work.

Thank you, again, for your interest and offer of assistance. I hope that you are feeling better.

Sincerely yours,

T. Jeremy Gunn
General Counsel
