

EVIDENCE TRACKING FORM

I. Item/description-Paper bag/ paper sack

A. Origin--discovered near the southeast corner window of the 6th floor in the TSBD.

B. Relevance to Assassination-believed to be the package in which the disassembled rifle was transported to the TSBD.

II. Identifiers-- CE 142

III. Chain of Custody--Taken from TSBD by Det. Montgomery (?) to DPD.

Released to Agent Vince Drain, FBI, 11:45 pm, 11/22/63. HSCA Report 180-10083-10092

IV. Tests

Fingerprinting--Silver nitrate latent print development

A. Location of Test--FBI Laboratory

B. Person Involved in Test--Sebastian Latona

C. Location/Disposition of Test documentation--

Latent palm print taken from closed end of paper wrapping deemed to be the right palm print of LHO.

Fiber Test/Spectrographic analysis to test fibers from blanket which held rifle in Paine garage.

A. Location of Test--FBI Laboratory

B. Person Involved in Test--Paul Stombaugh

C. Location/Disposition of Test documentation

Fibers were consistent with some found in the blanket but not all types of fiber found in the blanket were found in the bag, therefore the FBI lab could not positively identify the fibers.

Comparison of paper wrapping/tape with materials found at TSBD

A. Location of Test--FBI Laboratory

B. Person Involved in Test--James C. Cadigan, questioned documents expert

C. Location/Disposition of Test documentation

Materials were found to be identical to the materials from the TSBD

V. Archives

A. In Archives

B. RIF Number

VI. Authenticity--Frazier was unable to positively identify sack as the same one LHO carried the morning of 11/22/63. Frazier remembered it being thinner and lighter in color. HSCA report

180-10108-10146.

VII. Sources of Evidence

A.WC--R. 131-134, 591

B. HSCA--Vol 8, 248

VIII. Notes/Contacts--Locations
