Fourth, the HSCA compiled a significant number of records related to David Ferrie, an alleged associate of Lee Harvey Oswald's in New Orleans and a former Eastern Airlines pilot who was fired for allegedly molesting young boys in the early 1960's. Ferrie was also a focus of New Orleans District Attorney Jim Garrison's assassination investigation in the late 1960's. Many of the HSCA documents relate to Eastern's firing of Ferrie and include the names of young men who Ferrie allegedly sexually molested. Because the alleged victims were between the ages of 15 - 17 years-old when the incidents occurred approximately 30 years ago, we can assume that many of them are still alive. Ferrie has been the subject of much attention in connection with the assassination and any records related to him are of interest to researchers.
