*Dear Mr. Foregger:*

*Thank you for your letter of June 26, 1995 regarding the previous correspondence you had written containing information about specific assassination records.*

*As I am sure you are aware, we have received a large volume of information about specific records from members of the public. This information is being carefully reviewed and organized in a useful manner to pursue appropriate action. I tracked your previous letter and it is in our database. The staff member responsible for HSCA records is organizing information relevant to this part of our work.*

*At the time of your previous letter, the Review Board was not staffed. In the last few months, we have added new staff members and are more effectively able to process the requests and leads regarding records which we*

*have received.*

*Thank you for your patience and for taking the time to write again. We will keep you apprised of information on your specific requests as it becomes available.*

*Sincerely,*

*Thomas E. Samoluk, Esq.  
Associate Director of Communications*
