

Assassination Records Review Board

600 E Street NW ▪ 2nd Floor ▪ Washington, DC 20530

(7) PAGE FAX, INCLUDING THIS PAGE, TO MARY VILLANI

May 1, 1995

Ms. Mary Villani
Teacher, Biological Sciences Department
The Bronx High School of Science

Dear Ms. Villani:

Per our telephone conversation today, I am faxing you a three page fact sheet on the Assassination Records Review Board. This will give you more information about the responsibilities of the Review Board.

As I mentioned on the telephone, the Act which created the Review Board specifically excluded from the definition of "assassination records" the autopsy records. For your information, I have enclosed an excerpt from the law where it states that the autopsy records are to be excluded from the Kennedy Assassination Records Collection. In addition, I have enclosed an excerpt from the Senate Report on the law where the exclusion of the autopsy records from the collection of records is discussed.

Based on our telephone conversation, I am assuming that you still want David Marwell, Executive Director, to make a short presentation to your students. As I mentioned, Steve Tilley from the National Archives is prepared to allow fifteen minutes for the presentation sometime between 10:30 and 12:00 noon on Wednesday, May 24th, at the National Archives.

My understanding is that this is the time that you had previously arranged with Mr. Tilley.

After reviewing the attached information, please call me at (202) 724-0088, ext. 227, to confirm that you would like Mr. Marwell to make a presentation about the Review Board on May 24th. Thank you for your interest and I look forward to hearing from you.

Sincerely,

Thomas E. Samoluk
