Re: DOD Review of HSCA Documents (3)

Dear Mr. Aly:

Thank you for your January 30 response and your continuing assistance.

Enclosed for your review are 38 unclassified documents from the files of the House Select Committee on Assassinations (HSCA). Most of these documents have never been made public; a few others have been previously released only in redacted form. For the latter we ask that you review the previously-withheld portions to assess whether they can now be released without redactions.

As before, should you recommend that a document not be released, either in part or in its entirety, please explain your reasons in full for the Board's consideration. We expect to include these documents on the Board's agenda for its meeting on March 18-19, and so would appreciate a response not later than March 8, 1996. Again, I am attaching a form to facilitate your response. Please direct any questions or concerns to Colonel (ret.) Timothy A. Wray, our Chief Analyst for Military Records.

Sincerely yours,

David G. Marwell
Executive Director

[Enclosures listed on attached endorsement.]
