3. The purpose of [redacted] trip to [redacted] was to discuss the 1970 work plan for the Embassy with the Charge, [redacted]. She also talked with the various Embassy officials, most probably to familiarize herself with their duties and to see if they had any problems. She pitched in and helped with the backlogged work of [redacted] and also helped with the cultural activities. For instance, she sent two cables to MINREX - one regarding the forwarding of movie posters for a March exhibit and another regarding the forwarding of a Cuban stamp exhibition by end March.

4. In their discussion of the 1970 work plan [redacted] told [redacted] that they were going to plan the February, March, and April quarter. She showed him "an agenda for the control of planned and unplanned activities" and the general directives of the plan which included scientific information and political information, with specific directives (requirements) for [redacted] has to prepare for Havans a monthly report, then a quarterly summary, of the activities accomplished. Based on these reports the activities of the following quarter will be planned.

a. In line with the plan of scientific information, [redacted] and [redacted] discussed the pros and cons of a Comite Cientifico-Tecnico which is to be set up in [redacted] was of the opinion that the local [redacted] Communist Party would try to infiltrate it and this would bring problems to the Embassy. [redacted] pointed out the successes encountered in Switzerland and Sweden with such a committee even though at first there were problems which were later overcome.

b. [redacted] showed [redacted] a commercial project which she planned to take to Portugal and asked him to read it because it was also of interest to the Cuban mission in [redacted]

c. [redacted] mentioned that the Plan of Information was still to be completed especially in the priority categories of livestock and economy.

d. They turned next to the topic of the budget. [redacted] said that the budget for each mission had to be submitted before the end of April (every year) and no additional expenditures could be submitted for approval during the course of the year. Spain, Canada, and France, however, would be treated individually. Their special needs, such as acquisition of more office space, raises in cost of living allowances, etc., would be taken into consideration at any time.

<p>5. During their various discussions [redacted] aired his complaint about the Visa Department in Havana saying that the department was practically worthless and that last year 76 cables regarding visas remained unanswered. [redacted] defended the Ministry saying that it had a lot of work to do, but [redacted] replied that they wanted to work only 8 hours a day. They also discussed the scholarship situation. It seems that during an interview between P R I E T O (Probably Jose P R I E T O Renitez, Director of Foreign Relations of the DAP) and the Minister of Public Works, PRIETO was asked to provide a list of scholarship candidates to be considered and he had none. [redacted] mentioned that in Belgium they also lost four scholarships because of this same reason.</p> <p>6. According to QUTINID [redacted] is married to one Miguel (LNU) and has a daughter named Iliana. [redacted] mother is still living although appeared to be very ill at the time [redacted] left for her trip to [redacted] because [redacted] cabled at least twice to Havana inquiring about the status of her mother's health. [redacted] reported that [redacted] home phone number in Havana is [redacted] Perhaps Headquarters can determine the full name of her husband by checking the reverse telephone listings. [redacted] is attractive, intelligent, serious-minded and reserved. The last time she visited [redacted] she stayed with [redacted] and was on the same type of mission as the present one - to discuss the [redacted] Embassy's work plan. She also visited the [redacted] Consulate and the Cuban Embassy in [redacted]</p> <p style="text-align: center;">Helen B. NOTHDURFT</p>
