EXECUTIVE: SESSION

Thursday, October 10, 1975

United States Senate.

Select Committee to Study Governmental

Operations With Respect to

Intelligence Activities,

Washington, D. C.

The Committee met, pursuant to notice, at 11:25 o'clock a.m. in Room 407, The Capitol, the Honorable Richard Schweiker presiding.

Present: Senator Schweiker (presiding).

Also present: Frederick Baron and Rhett Dawson, Profes-15 ' sional Staff Members.

### TOP SECKET

#### PROCEEDINGS

Senator Schweiker. Would-you'raise your right hand?

Do you solemnly swear that the testimony you are about to give is the truth, the whole truth, and nothing but the truth, so help you God?

Mr. Twosdy. I do.

1

2

3

.

5

1:

1€

15

Senator Schweiker. It has been nice meeting you.

Mr. Tweedy. Thank you very much.

(Whereupon, Senator Schweiker left the hearing room.)

(Discussion off the record.)

Mr. Baron. Mr. Tweedy, you have just received the oath from Senator Schweiker, who has now left the room, and you are under no obligation to continue to testify in his absence, but obviously the Committee would appreciate it greatly if you would continue to testify.

Are you willing to continue to testify in the Senator's absence?

Mr. Tweedy. I plan to testify fully.

Mr. Baron. You are willing to testify to the truth as best as you can do it?

Mr. "Weedy. I will indeed.

Mr. Baron. Are you aware that you have the right to counsel?

Mr. Tweedy. I am.

Mr. Baron. You are appearing here voluntarily without

1 2 counsel?

 $1^{C}$ 

k:

Mr. Tweedy. I am.

Mr. Baron. Are you also aware that you may cease answering questions at any point if you wish to consult with counsel?

Mr. Tweedy. I am.

Mr. Baron. Finally, are you aware that all of your Constitutional rights are intact, including your Fifth Amendment rights to remain silent?

Mr. Tweedy. I am.

Mr. Baron. All right, then.

Let us proceed to review a set of documents which were not available to us in your first examination. The attempt here today is not to go over a lot of old ground that we covered in your first examination but to focus our concerns on a few 11 h main events in the alleged story of an assassination plot against Lumumba, and to refresh your recollection by review of these documents.

Let me introduce as Exhibit 1 a cable from Allen Dulles to the Leopoldville Station, marked for Robert Guthman on October 26th, 1960.

> (The document referred to was marked Tweedy Exhibit No. 1 for identification.)

#### TESTIMONY OF BRONSON TWEEDY

1

2

]::

14

1.1

11

Mr. Baron. We discussed this cable in your previous appearance, did we not?

Mr. Tweedy. August 26th.

May I correct the date? It is August 26th.

Mr. Baron. Certainly.

Mr. Tweedy. It is rather important.

Mr. Baron. It is August 26th.

Mr. Tweedy. Yes, we did indeed discuss it the last time.

Mr. Baron. After you took another look at this cable this morning before we went on the record, you made a remark to the effect that this cable was a source of authority as far as you were concerned at the time.

Is that your impression now?

Mr. Tweedy, Yes.

Let me just add to that a bit. The cable per se I did not remember, but it is perfectly obvious the cable is the authority. When I first talked to Mr. Bissell about this, he certainly implied the only reason the subject was being raised is because it had been of national policy level concern. I do not think it could be more clear-cut than that. This was basically, this was the formal expression of that by the Director himself.

I cannot remember which came first, did I see this cable first, or did I talk to Mr. Bissell first. I suspect that I talked to Mr. Bissell first. It must have been absolutely in

1 2

Ţ.,

٦.

1.7

the same time period.

This merely confirmed what I think I probably heard from Mr. Bissell first.

Mr. Baron. In this discussion with Mr. Bissell, you are referring to the subject of getting access to Lumumba for the purpose of assassination.

Mr. Tweedy. I think it probably came up in the sense that the thrust of the American position was that there was no solution in the Congo without the fall from power of Mr. Lumumba, and no measure should be overlooked to achieve this -- constitutional revolutionary and indeed, executive action, if you want to call it that.

Mr. Baron. Meaning assassination?

Mr. Tweedy. Yes.

But none of these possible measures were excluded, and the main point was that everybody agreed that Lumumba had to go or we were in for very serious trouble in the Congo.

Mr. Baron. You were referring a moment ago in discussing this cable from Allen Dulles to the fact that when you first discussed the possibility of assassinating Lumumba as one means of removing him from power with Richard Bissell, Bissell referred to this cable.

Mr. Tweedy. No, I would have seen this cable when it went out. I am afraid you cannot pin me down on this, because I cannot remember the sequence of events. It would have been a

perfectly natural follow-up to my discussion with Bissell. It is conceivable that this went out before I talked to Bissell. I do not exclude that, but the two were totally in tandem.

Mr. Baron. Having taken a look at all of the documents that we are about to introduce into the record today, before we begin taking your testimony on the record, are you table to pinpoint with any more precision your initial discussion with Mr. Bissell of the prospect of assassinating Lumumba?

Mr. Twesdy. Pinpoint it in terms of time?

Mr. Baron. Yes.

5

1.4

Mr. Tweedy. No, not in terms of time. I can only assume --

Mr. Baron. It would have taken place shortly before this Allen Dulles cable?

Mr. Tweedy. Either shortly before, or shortly after, because the next series of cables obviously get the show, as it were, on the road.

May I comment just generally on those cables as a group?

There are no surprises in them as far as I am concerned, in terms of detail. Much of it, even to this day, I still do not remember.

One aspect emerges very clearly for me, that we were very careful about examining this on the possibilities of doing anything against Lumumba. Pasically, this whole period was a series of exchanges with the field who were seaking, as you can see from that cable traffic, various measures that might perform

or achieve the goal, including, indeed assassination, but not to by any means limited to that, that we were in trouble finding means which appeared secure, particularly means which kept the U.S. hand hidden. It is the to and from, and the atmosphere of it which is very familiar to me; the details of it, much of it even on reading them, is rather unfamiliar to me. I found

no surprises in it.

В

 $\mathbf{g}$ 

1:

14

1.7

Mr. Baron. Having refreshed your recollection by reviewing these cables, can you add any greater specificity to the record about the substance of your conversations with Richard Bissell on the possibility of assassinating Lumumba?

Mr. Twasdy. I think what we used to do, as I remember it.

when it came to the technical exchange with the Station on one
asset versus another, the possible security weakness of this
man versus the possible strengths of another, Bissell left this
largely to me. I do not mean to say that we did not from time
to time review it. He did not debate with me on whether

was somebody who was worth dealing with or not, because

Mr. Baron. You are saving he would have left the operational details to you?

the had Belgian connections, for example.

Mr. Tweedy. The operational details of trying to come unwith some solution that looked as if it made sense, and had a promise of success. I do not recall that we would discuss this type of a cable in detail. As you can see, he released quite

a number of them, because he wanted to remain familiar with them.

(Discussion off the record.)

2

14

15

Mr. Baron. Back on the record on this subject.

Mr. Tweedy. No, I do not have any further recollection of detailed discussions with Bissell on this. On the other hand, it was perfectly clear that he remained actively interested in it. I am sure that he was the one that had the idea of Justin O'Donnell, for example, I think he undoubtedly came up with that idea. As you recall, I had forgotten entirely that Justin O'Dornell had ever played a role in this. I am sure when he fixed on O'Donnell the possibility to assist the Thief of Statics he must have discussed this with him. I can almost say I remember it, but hardly.

Mr. Baron. Do you have any recollection of what Bissell said to you in the series of discussions on the prospect of assassinating Lumumba about the level at which the exploration of this prospect had been authorized?

Mr. Tweedy. No. That is the aspect I was never clear on except that it was perfectly clear to me that he was quite confident that this was -- I am now talking about the elimination of Lumumba by whatever means. I am not talking necessarily about assassination: I want to be quite clear on that.

I was quite clear in my mind that the policy levels of Washington were agreed that Lumumba must go. I cannot go any

further than that. I cannot say, for example, that Bissell said I think as an Agency we should consider assassination on this or that this had been discussed with the policy levels of government. I do not know, and it was never made clear to me nor:does this cable make clear, but it was perfectly clear that Mr. Dulles felt quite quiet in his mind about discussing any of these aspects with the State Department or the Ambassador.

Mr. Baron. Off the record.

1: :

14:

2.

00.

(Whereupon, a brief recess was taken.)

Mr. Baron. We are back on the record now.

When we stopped, we were discussing your account of your meetings with Richard Bissell where the subject of assassinating Lumumba had arisen among other means that had been considered in disposing of Lumumba, Did Richard Bissell ever indicate directly or indirectly to you that he had the authority of the President of the United States for moving forward with an operation which might include assassinating Lumumba?

Mr. Tweedy. Let me make it quite clear, he certainly never mentioned the President at all.

Mr. Baron. By name?

Mr. Tweedy. By name, or even by any indication. It was marely my impression reinforced, certainly, either before or after, of this cable of Allen Dulles that this was a policy level decision, but the extent to which the Executive had assassination discussed with him at all, I cannot comment on.

10

## TOP SECRET

It is perfectly obvious that the Agency felt that it had the support of the Executive in efforts to sliminate Lumumba. It was at least my impression throughout this whole period that if it ever came down to the point where somebody said, I think we can do it, and we decided upon the means, that someone would have said, well, before we do, obviously there has to be final approval. I would not have known where the final approval would have come from. I would not expect that my correspondence with the Chief of Station in Leopoldville would result in the assassination of Mr. Lumumba without further reference.

Mr. Baron. You were under the impression that whatever steps you were involved in toward eliminating Lumumba, as you put it, were fully authorized at the highest level of the government?

Mr. Tweedy. Yes, I was.

1

2

5

6

7

14

] :>

17

1:

Mr. Baron. That would include the President?

Mr. Tweedy. I do not really think I can answer that question, Mr. Baron. When somebody at my level, fairly senior though it was, receives clear-cut assurances that the policy level wants something done, it is very difficult for him to judge whether the President per se has been in contact with the Agency or that he has done this through his National Security Advisor, the Secretary of State, or whoever. There could be no way that I could judge that.

I think it would be quite misleading if I were to try to

read into it either then or now.

2

10

} :

1

Mr. Baron. Whatever impression you had of the extent of the authority for the steps that you were taking to eliminate Lumumba was derived from your conversations with Richard Bissell?

Mr. Tweedy. And the cable.

Mr. Baron. And the cable by Allen Dulles.

Mr. Tweedy. Which merely indicated to me that the Agency was confident that it had its policy guidance and was thus acting accordingly.

Mr. Baron. Between this cable on August 26th which Allen Dulles dispatched to the Congo and the cable we will now mark Exhibit 2, which is a cable from yourself to Leopoldville on September 19th, marked Eyes Only, Guthman from Jadwin

(The document referred to was marked Tweedy Exhibit No. 2 for identification.)

### Mr. Baron. Were there any other meetings that you recall between yourself and Richard Bissell where he asked you to move beyond the exploratory stage to the implementation stage in assassinating Lumumba? Mr. Tweedy. I do not know at all. I just do not recall that that ever occurred. Mr. Baron. Let us turn, then, to this cable. This cable indicates --Mr. Tweedy. This is the one on the 19th? Mr. Baron. Yes. (Discussion off the record.) Mr. Baron. Back on the record. This cable begins with your indication to the Chief of Station that someone was proceeding shortly to the Congo who would announce himself as First of all, to backtrack, Guthman, in this cable, is the Chief of Station, is that right? Mr. Tweedy. Correct. Baron. Who we agreed would be referred to as the

2

1.7

10

17

1 :-

1 .

Tir. Baron. Who we agreed would be referred to as the Chief of Station or by his alias, Hedgmana, and Jadwin is -Mr. Tweedy. My pseudonym.
Mr. Baron. Did you have a first name in the pseudonym?
Mr. Tweedy. Thomas K.

Mr. Baron. Who was

Ar. Tweedy. I was trying to think. The identity is

1	ås a name means nothing to me.							
2	Mr. Baron. If I represent to you that we have had testimon							
3.	from that this identity stood for himself, does							
4	that refresh your recollection?							
5	Mr. Tweedy. It would not surprise me. It was my assumption							
6	that it probably was, but I could not recall, so I find in							
7	other words, your explanation, I think, is what I would have							
ь	expected.							
9	Mr. Baron. Do you have any independent recollection of							
1:	dispatching on a mission to the Congo?							
<b>~1</b> :	Mr. Tweedy. I have the most unclear recollection that I							
1:	discussed with Mr. Bissell going to the							
1.	Congo. I have no recollections of any conversations I had							
1.;	with himself, although I am quite convinced I had							
1:	them.							
16	In other words, it is inconceivable to me that he would have							
2.7	gona to the Congo without seeing me. I cannot recall the							
: -	substance of our discussions, although I assume, and I imagine							
:	Mr. Bissell must have shared in this, we discussed what it was							
:	all about, the operational problems involved, so that he, in							
:	turn, could be somewhat sensible about what his own supporting							
	rule in this might be.							
:.	When I say this, it is a reasonable assumption but it is							
; .	not direct recollection.							

TOP SECRET

Mr. Baron. Does this cable indicate to you that you did

dispatch	to	the	Congo	on	4	highly	sensitive
mission?							•

Mr. Tweedy. It does indeed.

1

2

3

4

5

1:

1:

} "

1:

. .

22

22.

When you say I dispatched him, I would say it would be more accurate to say that Mr. Bissell and I dispatched him. I am sura the authority for him going would have come from he rather than ma, but we arranged the details.

Mr. Baron. Your comment about the fact that the authority would have flowed from Mr. Bissell directy is borne out, is it not, by Mr. Bissell's initials on this cable?

Mr. Tweedy. Yes, exactly.

Mr. Baron. Was that a fairly unusual practice, to have both the DDP and the Chief of the Africa Division sign a cable?

Mr. Tweedy. Quite common. Throughout the organization 154 on matters of either particular sensitivity or so important that the DDP wished to be constantly informed about correspondence on a subject, the Chief of the Division would originate and send out cables and have it actually signed off by the DDP. That was quite a common practice in the Agency.

Do you have a recollection, having seen this Mr. Baron. document, of the fact that you set up a special channel using sensitivity indicator?

but I recall special Mr. Tweedy. I did not recall 2. channels.

4

5

10

11

2

1 -: 1.

Mr. Baron. This would have restricted all traffic from yourself to Chief of Station, is that correct?

Mr. Tweedy. Yes. My Deputy would also have access to it in my absence.

Mr. Baron. That would be Glen Fields?

Mr. Tweedy. Yes.

Mr. Baron. Would Richard Bissell have access to it?

Mr. Tweedy. Indeed he would.

Mr. Baron. Allen Dulles also?

Mr. Tweedy. Certainly if he wanted, absolutely.

Mr. Baron. Why was a special communications channel set 12 Jup in this cable?

Mr. Tweedy. Because of the sensitivity of the subject. This, again, was a frequent procedure in the Agency on sensitive 15 k matters. If one was about to mount a sensitive operation, one 10 For the first things normally done was to set up special communications procedures so the dissemination of the messages could be restricted to what was required.

Mr. Baron. In this case, the aspecially sensitive subject to which you were restricting communications access was the elimination of Lumumba by one means or another?

Mr. Tweedy. That is correct.

Mr. Baron. What was the assignment that

was to explain to the Chief of Station when he arrived in the

Congo?

1	Mr. Tweedy. That, I do not recall. I can only assume
2	that would have discussed with the Chief of
ţ.	Station instruments which TSD might have which could be of
4	assistance in an assassination attempt. I assumed he discussed
5	his inventory, whatever it might be, and the two presumably were
6	trying to come to some conclusions as to what might have the
7	best chance or the most practical chance of being used.
ಕ	This is my assumption. I think in this early stage, that
9	would have been the purpose of the exercise.
10	Mr. Baron. Let me represent to you the testimony of
1:	about two conversations that he had at Headquarters
12	before he undertook the mission to the Congo in September of
17	1960.
14	First, when looked at this cable and some
15	subsequent cables which we will discuss today, he said these
16	cables applied to himself. He confirmed the fact that he took
: 0	a trip to the Congo and arrived on September 26th as is indicated
: •	by a subsequent cable, and left on October 5th, as is indicated
· . ·	by another cable.
<i>i</i> .	said before he left the Conco I am sorry,
;	before he left for the Congo he had a conversation with you
<b>7.</b> 1	and Glan Fields in which you instructed him to take a lathal
<b>:</b> .	material to the Congo and give it to the Chief of Station
: .	with instructions to assassinate Lumumba if it were possible
	and to instruct the Chief of Station is the technical manus by

1 2

s

Š

5

6

7

9

1

٦.

16

1 .

. . . . . . . .

and Norman S. C. Was

which this lethal material could be administered through

Lumumba's food or toothpaste or something that he would ingest.

also testified that in that conversation you

indicated to him that these instructions were being given at Richard Bissell's authority.

Did that conversation take place?

(Discussion off the record.)

Mr. Tweedy. His testimony does not basically refresh my memory. The only aspect of it which I would find unrealistic is that he had an instruction from me to tell the Chief of Station to use this material and go ahead and assassinate Lumumba, as if, in effect, that is all the authority that was necessary.

perfectly feasible. I do not recall it in the detail, but I am not going to deny what said. I think his recollection that I told him, in effect, to go to the Chief of Station and sort of get the show on the road and use the poison and assassinate Lumumba without any further ceremony is just not the way it would have happened.

Mr. Baron. Why is that?

Mr. Tweedy. For the simple reason that under no circumstances would that instruction have been given by me without reference to higher authority up through the chain of command.

Mr. Baron. When you say reference to higher authority, what do you mean?

would disanres

Mr. Baron. Do you recall if Mr. Bissell ever went as far as telling you that if an opportunity arose to carry off the assassination of Lumumba in a situation where it would be practically impossible to confirm, that there was authority for proceeding with the assassination with Headquarters, that the Chief of Station would be, under those circumstances, authorized to proceed to assassinate Lumumba?

Mr. Bissell never said, look, you have the picture, go ahead

and do it in your own good time without any further reference

to me or anybody else, nor is the tenor of this correspondence

Mr. Tweady. No, I do not. .

as I read it that way at all.

1 :.

16

10

1:1

: . .

Mr. Baron. Do you have a recollection about that one way or the other?

2

Ġ

5

8

10

::

17

. .

. 10

Mr. Tweedy. I do not recall that he ever put it to ma this way.

Mr. Baron. Let us then break down your statement about this meeting with into component parts.

You agree now, having heard testimony, that it is true that you had asked to go to the Congo?

Mr. Tweedy. Indeed, as I assumed I had, yes.

Mr. Baron. It is also true that you knew that

was to carry a lethal material to the Chief of Station in the

Congo?

Mr. Tweedy. If he says so, I do not disagree with him.

I do not frankly recall that at this point, but I am perfectly wedded to accept what he says.

Mr. Baron. Assuming, for the moment, that you would have required the Chief of Station to check back with Headquarters before he carried out an assassination mission, would it be true that you assigned \_\_\_\_\_\_\_ the task of instructing the Chief of Station to assassinate Lumumba on that basis?

Mr. Tweedy. was the head of the Technical Services Division, or whatever it was called in those days.

Mr. Baron. Let me jump in for a moment.

At this point, for about a year and a half, he was the Science Advisor to Mr. Bissell, and he moved to Technical

	. 20
1	Services shortly thereafter.
2	Mr. Tweedy. The way you put it to me was that I instructed
3	to assassinate Lumumba. The answer to that is, I am
4	sure I never instructed to assassinate Lumumba. This
5	is the way you put it to me.
6	Mr. Baron. Let me correct that.
7	What I meant to say was, would you have asked
ь	to convay the instruction to the Chief of Station that he was
9	to assassinate Lumumba if he found a way to do it and if he
10	confirmed it with Headquarters?
13	Mr. Twaedy. My answer to that is almost certainly not.
12	That would have been covered in other correspondence, which I
1.:	think is demonstrated by these cables, to the Chief of Station
14	direct from me with authority of Mr. Bissell. I would not have
15,	used, neither would ir. Bissell, Mr. as the channel
17	for this instruction.
j,	Mr. Baron. has also testified that, aside
	from carrying the materials to the Chief of Station and
	instructing in their use and giving him an instruction about a
:	mission to assassinate Lumumba, that he had one further role
;	in the Congo; he was to serve as a technical advisor to the
:	Chief of Station on the feasibility of using these biological
:	substances to carry off the operation.
; ,	As put it, was to stay down there for
2:	a short period of time to determine the technical feasibility

of the operational plan that the Chief of Station might come up with.

Mr. Tweedy. This seems quite reasonable to me. Presumably: with his technical knowledge of the nature of these materials he would be in a position to either comment on or advise the Chief of Station as he attempted to put together some kind of operation. That makes good sense to me.

He would require, basically, a technical advisor.

10 |

Mr. Baron. also testified that the materials ha took with him were of a fairly short life. Their toxicity would wans within a matter of weeks.

Given that bit of information to refresh your recollection.

does that make it more likely that was there, to aid

the Chief of Station in actually carrying off the administration

of these drugs, as opposed to giving him general instructions

in the use of such lathal substances?

Mr. Tweedy. I do not know really that I can comment on that. If the materials would deteriorate fast, the use of them, if possible, I would stress the latter, would necessarily have to be expeditied, but the overwhelming concern of Headquarters and the field, again, demonstrated in this correspondence was our concern that this thing could be done at all, that it be done right, securely, and that the U.S. hand should be concealed.

If this were at odds with the life of these materials, I

think that would have just been too bad. But I think it is perfectly clear that we would not have expedited anything at the risk of doing it unprofessionally.

1

2

5

1.1

7. .

1.4

tape 1b

Mr. Baron. At the point that a left for the Congo after talking with you, would be have been enpowered to convey to the Chief of Station that an assassination of Lumumba could be carried off if he could meet the criteria you just laid out, concealment of the U.S. hand and use of these materials before their potency waned?

Mr. Tweedy. My answer to that would be he would be in no position to do anything more with the Chief of Station if they reached that point in planning, that as of the last time he was at Headquarters that there would probably be an approval from Washington.

Mr. Baron. You would expect, then, the Chief of Station would have been expected to reconfirm with Headquarters the fact that he had a go-ahead?

Mr. Tweedy. It would never have occurred to me otherwise.

Mr. Baron. It would be your testimony that, although you do not specifically recall your conversation with

Mr. Tweedy. I would have thought so, yes, but I could not comment any further.

Mr. Baron. The reason for that is you do not recall the conversation?

	Mr.	Tweedy.	Not o	nly that;		was as	familiar
as I	Was	with (a)	the s	ensitivity	of this part	ticular	project
and t	what	was invo	lveđ a	nd the way	that the Age	ancy did	its
busi	ness	, which w	as thi	ngs of thi	s kind were :	not deal	t with on
sort	of a	an offhanc	i basi	. <b>s</b> .	•		

Mr. Dawson. What is offhand?

- 1

Mr. Tweedy. The fact that the field and were given something in the nature of a blank check as to how they would go about it and when, without further reference to Headquarters.

Mr. Tweedy. What, Mr. Dawson, had previously been authorized?

Mr. Dawsen. The authorization of the assassination affort, the elimination of Lumumba.

Mr. Tweady. Only in the most general terms. No operation had been put forward by the field. In our business, these things were done by operational planning, at which point one came up with an operation that was agreed upon by the Station and by Headquarters, and this, then, would have been either implemented or not, according to the sav-so from Headquarters.

Mr. Dawson. That kind of operational planning is

	29
	after arrives in the Congo, is that correct?
l	
i	Mr. Tweedy. This, in effect, is that (Indicating). You
1	can tall by the Chief of Station, there is no further
	reference to as I recall.
	Mr. Baron. In this cable traffic?
	Mr. Tweedy. In this cable traffic, was looking at all
	sorts of ways and means of eliminating Lumumba, not restricted
:	to assassination, which coincides exactly with my recollection
	of the period between when the subject was first broached to the
	Station and that rather indefinable period when, in effect, it
	was all over, which, I suppose, basically is the disappearance
	of Lumumba.
	I think all of this traffic supports my contention that
	under the instructions he was given, the Chief of Station in
	Leopoldville set about exploring all alleys and found none
	crystal clear. There were problems with all of them. Some
	looked more promising than others. Individuals who might be
	used obviously looked more promising than others. Some were
	discussed and discarded. We commented on some. And so it
	war.t.
	Mr. Baron. I think that we should proceed in a moment
	to go through these cables with a close eye, one by one.
	One further point in testimony, to be fair
	to him, he said he was under the impression that it was general

1:

### TOP SECRET

Agency procedure that in a mission like this one the Chief of

l	• • •
	Station probably would check back with Headquarters, that any
1	prudent Chief of Station would check back to reconfirm his
٠	authority to go ahead with an assassination operation, but
	said in his conversation with you he was not told
;	that he should convey to the Chief of Station the requirement
	that he should check back with Headquarters before he proceeded
:	with the assassination of Lumumba.
	Mr. Tweedy. I cannot comment on his statements, because
1	I cannot recall what I said to him. It certainly is perfectly
	conceivable to me that I could have had this conversation with
:	him and not mentioned this, that this would be covered in all
	the basic correspondence that I was having with the Chief of
	Station.
i	Mr. Harog. So then it is possible or is it probable
:	that in your instructions to about his mission
r	to the Congo you might not have explicitly mentioned the
	requirement that the Chief of Station return to Headquarters
	to reconfirm his authority to move ahead with the assassination.
	Mr. Tweedy. It is, I suppose, possible. I am not going
	to say it is not possible. I am merely saving that that is
	not the way we did business, and on the whole,
÷	would be as familiar with that as I would nerhaps not as:
	familiar with it, because he was on the technical side where I
	was on the operational side and used to this chain of command

thing and the relationship between the Division and Station

would.

### TOP SECRET

Chiefs in the field, to a greater extent than

1

Ģ

The last thing I am doing is impugning his veracity and his testimony.

Mr. Baron. When you say it is not the way we do business,
you meant to say it was your understanding in general Agency
practice that the Chief of Station in a situation like this
would be expected to check back with Headquarters?

Mr. Tweedy. When a Chief of Station was given the authority to carry out something entirely on his own initiative, that was made quite clear -- I'm not talking about this case, I mean generally -- this was made quite clear.

Mr. Baron. When you were talking about the fact that
"this was not the way that we generally did business," you were
not referring to the fact that you would have made it absolute!"
explicit in any conversation with \_\_\_\_\_\_\_\_or enybody
like him who was undertaking a sensitive mission that the Chief
of Station would be expected to check back?

Mr. Tweedy. If I had not mentioned this to

and he said I did not, I am perfectly prepared to believe him,
it would be because it never occurred to me that the Chief of

Station would act in any other way. That is it.

Mr. Dawson. Of course, Mr. Hedgeman also testified that it never would have occured to him to have carried this out without having checked back, and he did so, of course; the cables will show that very clearly. What we are trying to focus

1	on is exactly what conveyed to Mr. Hedgeman,
5	which, of course, you could not testify to.
5	Mr. Tweedy. I could not.
4	Mr. Baron. Or what you said to him.
5	Mr. Tweedy. I think it is quite possible that I did not
6	say to for Heaven's sake, do not have the
7	Chief of Station go off assassinating this fellow without
ម	referring back to Headquarters. It would never have occurred
9	to me to do that. It would have been, in my view, superfluous.
10	Mr. Dawson. You are, of course, aware that Mr. Hedgeran
11	was aware of this practica in the Agency?
3 ::	Mr. Tweedy. Certainly.
12	Mr. Dawson. You had seen that happen. He had only been
14	Station Chief for a short time; in spite of that, he was still
15	aware of Agency practice?
16	Mr. Tweedy. I think that it would be perfectly true to
17	say that any clandestine services officer who had reached a
13-	certain seniority in field experience whether he was Chief of
1.4	Station or not, he would have sucked this in with his mother's
i.	milk. We were, if I may say so, a very disciplined organization
<i>2</i> :.	in that regard.
2P	Mr. Dawson. Specifically as to Mr. Hedgeman, that would
: :	apply to him also?
1.4	Mr. Tweedy. It would indeed.
	the second than to a document we will mark

Exhibit 3, which is a cable from Bronson Tweedy to the Chief of Station for his eyes only on September 22, 1960.

2:

(The document referred to was marked Tweedy Exhibit No. 3 for identification.)

Mr. Tweedy. This is mostly discussion of Mr. Baron. The man you referred to was at this time an agent that was in contact with the Chief of Station? Mr. Tweedy. I remember him very well. I could not possibly 5 remember his name. I remember him very well; I met him later. Mr. Baron. He proved to be a highly effective agent for the Station? Mr. Tweedy. He was a very good intelligence agent, an excellent intelligence agent, for the simple reason that he was able to make contact with groups and media in the Congo 1 which was very difficult for non-Africans to reach. He was, for a year or two, a first-class intelligence source basically: not an action source, but an intelligence source. -Mr. Baron. When you read the sentence that is at the beginning of paragraph B on the first page where it says: \*Concur this possibility worth watching, but if decided support 10 objectives. Believe essential such be provided · · through third national channel with PBPRIME role completely concealed." What are you referring to there? Mr. Tweedy. I am not sura; I do not ramember. I do not recall what the incoming cable said. had, I quess, an What I am obviously saying is wife who was, at least had been, g I think what I was saying is, if we wanted to use

	TOPSECRET

: ~

Mr. Baron. Who?

•

objectives would still refer to exploring possibilities

to an assassination attempt?

Mr. Twomdy. Yes.

Mr. Baron. This may refer to exploring it with a different agent?

Mr. Tweedy. Yes.

Mr. Baron. On the last page, paragraph 3, it tells the Chief of Station: "Not intended you construe above comments as basically negative. You and colleague understand we cannot read over your shoulder as you plan and assess opportunities. Our primary concern must be concealment PRPRIME role unless outstanding opportunity emerges which makes calculated risk first class bet. Ready entertain any serious proposals you make based our high regard both your professional judgments."

What are you referring to in that paragraph? What message are you conveying to the Chief of Station?

Mr. Tweedy. Well, I think if you read the cable you will notice that we have found difficulty with a number of his proposals. These were exploratory proposals. I wanted --

Mr. Baron. For carrying off an assassination mission?

Mr. Tweedy. You keep coming off with an assassination

mission as if this was always just around the corner. What I

am saying is, we are in a period here—quite common in our

business of very intensive operational planning and exploration.

All sorts of things were coming up from the field. I had commented on it here; in the end, I say, do not be discouraged because you do not see the probable channel we will use. I assume the colleague was because I guess he was still there.

Mr. Baron. The first time he had not arrived, but you had already cabled that his arrival was imminent?

Mr. Tweedy. I assume that that is the colleague. I do not think he would have talked to anybody else on it. That is all it means.

It is, if you like, a technique of management.

1:

:::

21

Mr. Baron. Moving on to a document that we will mark if . Exhibit 4, the next cable, is from Allen W. Dulles of September 24, 1960 and your pseudonym is also listed as one of the senders of the cable to the Chief of Station.

> (The document referred to was marked Tweedy Exhibit No. 4 for identification.)

10 1:

:: 17

· · ·

Mr. Baron. In this cable, in the first paragraph, it says: "We wish give every possible support in eliminating Lumumba from any possibility resuming governmental position or if he falls in Leop" -- meaning Leopoldville -- "setting himself in Stanleyville or elsewhere ?

First, for the record, any time your pseudonym "Jadwin" or your name "Tweedy" appears in the upper lefthand corner of a cable or your signature appears on the bottom, you dispatched that cable? Is that not right?

.I am referring generally to the cable traffic.

Mr. Tweedy. What it means is this. It could mean several things, but I personally dictated the cable and dispatched it without further reference, or for some reason I constructed the cable and had it released by a higher authority, either Mr. 15 % Bissell or Mr. Dulles. Although those were not the only alternatives, if my name was on it, I was connected with it in one form or another.

I would guess that I dictated the cable and that Mr. Dulles -and I do not have any idea how this came about -- Mr. Dulles wanted to see it, and Mr. Bissell suggested that it do out from Mr. Dulles and myself, I just do not know. . What this means is, Dullas and Tweedy Were totally aware of the cable.

Mr. Baron. Peturning than to the sentence I cited from the cable where you and Dulles were talking about giving every possible support in eliminating humumba, what message --

2

Mr. Tweedy. "Eliminating Lumumba from any possibility resuming governmental position." This, if I may say so, reverts to the original instruction from Mr. Dulles which was that the U.S. position was that Mr. Lumumba must be removed from a position of authority in the Congo and that assassination was not by any means the only way by which this might be accomplished.

This, I think, merely reiterates that it is not a -- being cable does not refer specifically to assassination.

Mr. Baron. Would this cable, in using the phrase "eliminating Lumumba" in this context contemplate assassination as at least one of the possible means that might be used?

Mr. Twandy. I am afraid if I may say so you are putting words in my mouth. This is exactly what it says. He has two messages now from Mr. Dulles. The first one, I think, was " perfectly clear. Since then he has had messages from Mr. Dulles' subordinates like myself. This merely makes it clear again that Headquarters wishes to "give every possible support in eliminating Lumumba from any possibility resuming governmental position" and I cannot say more than that, and I think to say that this strasses assassination would be quite untrue. But the Chief of Station in Leopoldville was already under instruction to be considering this as one of the possibilities.

Mr. Baron. Assassination?

Mr. Tweedy. This does not change that.

Mr. Baron. I think that is fine.

The interesting aspect of that sentence for me is the rest of the sentence where the makes it clear that not only is there a concern about Lumumba being able to resume his position in Leopoldville, but anywhere else, and it would seem that assassination would at least have to be one of very few means that could insure that fact that Lumumba would not resume a position of power anywhere.

١,

::

3 :

3.

Mr. Tweedy. I do not think I can comment any further.

Mr. Baron. Lat us introduce as Exhibit 5 a cable dispatched from the Chief of Station on September 27th, 1960 for your eyes only, and this cable begins with a reference to

It says he was contacted 26 September. "We on same wave length." Then it continues, "Hence believe most rapid action consistent with security indicated."

The next paragraph says, "Basis 2 talks considering possibilities:" -- there follows a list of possibilities from A to G and paragraph 3 on the bottom of page 2 says, "Plan proceed on basis priorities as listed above, unless instructed to contrary."

(The document referred to was marked Twasdy Exhibit No. 5 for identification.)

Mr. Baron. Does that indicate to you that on the list of . priorities, priority A would have been considered by the Chief of Station to be his top priority? Mr. Tweedy. Can you read, by the way, paragraph 2:, "Basis 2 talks considering possibilities" of dispatching to Stanleyville and taking refuge -- that would be refuge, would

Mr. Baron. Yes. "Recall from Stanleyville" --Mr. Tweedy. -- "and have him take refuge with Big

Mr. Baron. -- "Would thus act as inside man to brush up datails to razor edga. Also would provide info on food and agricultural problem. Guthman recalling to Leop."

When looked at this cable, he testified that this cable indicated that he arrived in the Congo on the 26th of September. He had two talks with the Chief of Station where they discussed various operational possibilities of getting rid of Lumumba. The letter A represented their top priority plan.

Would you agree with that interpretation of the cable? Mr. Tweedy. I would think so.

Mr. Baron. Would you --

Mr. Tweedy. When he says: "Plan proceed on basis priorities as listed above" this again is not what he was going to do at the conclusion of this without further reference carry out an assassination. He says, what we see is th...

it not?

Brother" --

best answer to our problem.

1

1

1:

1.2

Mr. Baron. Does he not indicate in this cable though that he would proceed to implement these plans unless he were instructed to the contrary? In other words, this very cable might constitute his request for a confirmation.

Mr. Baron. I do not understand how you can read the phrass-"unless instructed to the contrary" in that way.

Mr. Tweedy. Because there are other possibilities here.

I am sorry, but I am afraid looking at it fifteen years later —
in the subject that you are engaged in, I think you would look
at it entirely differently than I would, working on a day-to-day
matter with the Chief of Station. There is absolutely nothing
in this cable which says that they have the answer to

Mr. Baron. Does paragraph A indicate that

اتر ( در م

take refuge with Big Brother, meaning move into Lumumba's entourage?

Mr. Tweedy. I think probably this would be -- I am trying to think how this was.

Was this possibly

10

Mr. Baron. I do not know the operational details.

Mr. Tweedy. He did have some access to Lumumba's entour-

age, which was the reason we were so interested.

Mr. Baron. Would you assume that this cable is suggesting that that be recalled to Leonoldville so that he might move into {Lumumba's entourage?

Mr. Twendy. Absolutely.

Mr. Baron. Where it says he "would thus act as inside mento brush up details to razor edge," would you assume that refers to exploring the means by which Lumumba might be poisoned?

Mr. Tweedy. I think that is quite a possibility. I cannot specifically say yes. I suspect he was our best potential source for operational intelligence, if you like, on this.

Then he says "Also would provide info on food and agricultural problems." I have a vague recollection at this point that he was reporting rather importantly on aspects of food and agriculture which was a major political factor within the Commothen. I cannot put it any more clearly than that.

I think it is that this would be a byproduct of this, that we would get more good reporting on the subject.

: .·

}\*\*

;

Mr. Baron. You would read that sentence literally instead of an oblique reference to getting access to Lumumba's food by which he might be poisoned?

Mr. Tweedy. I would read it much more literally than that.

Mr. Baron. Let us turn then to Exhibit 6, which is a

cable from the Chief of Station on September 30th to Jadwin,

(The document referred to was marked Tweedy Exhibit No. 5 for identification.)

Mr. Baron. -- in which the Chief of Station says: "No really airtight op possible with assets now available. Must choose between cancelling op or accepting calculated risks of varying degrees."

ì

2

3.7

1

best asset available. View necessity act
immediately, if at all, urgs Headquarters authorize exploratory
conversations to determine if willing take role as
active agent or cut-out this op."

Pirst, would you read the sentence or the phrase "view necessity act immediately, if at all" to refer to the fact that at this point had informed the Chief of Station that the lethal material was of a limited life?

Mr. Tweedy. I cannot really comment on that. That is certainly a perfectly reasonable explanation for that remark, but as I do not know exactly where Lumumba sat on that particular moment when this cable was sent, it might have something to do with his availability or something else, I just do not know.

makes clear, of course, that although had been use in an operational intelligence support role, he at this point had never been cut in on plans. Of course, Chief of Station did not know whether he would be willing the no along with this set up of not.

Mr. Baron. The Chief of Station here is considering an

# TOP SECRET first on a hypothetical basis -approach to \*> Mr. Tweedy. Yes. ΡÚ Mr. Baron. It is clear here, is it not, that is being viewed as a potential assassination asset? Mr. Tweedy. Indeed. Mr. Baron. Let us introduce as Exhibit 7 a cable on 30 6 September 1960 signed by Glan Fields to the Chief of Station, again in the channel. (The document referred to was marked Twaedy 10 Exhibit No. 7 for identification.) 1:: 15

Mr. Baron. Prasumably, it is responding to the cable that we just looked at, and in this cable, Glen Fields says, "You are authorized have exploratory talks with to assess his attitude toward possible active agent or cut-out role."

1

Would you assume that Glen-Fields consulted you before sending this authorization to the Chief of Station?

Mr. Tweedy. Not necessarily. I might have been out of town that day. As you will notice, all he says is, "You are authorized have exploratory talks" and "Agree with you initial discussions should be on hypothetical basis." And, of course, at that point, we would expect a report from the field on how it went. He was taking it one step further. He might not have cleared that with me if I were away. He might also have perhaps cleared it with Mr. Bissell.

Mr. Baron. As your Deputy, it would have been perfectly proper in your eyes for Glen Fields to have issued this cable without consulting you?

Mr. Tweedy. Cartainly. It is quite possible, too, that he even told Mr. Bissell what he was planning to do. I cannot tell you specifically. This is all that this cable authorizes. I find it entirely within his delegated responsibilities.

Mr. Baron. Would it have been standard procedure for Glen Fields, in your absence, to mention to Richard Bissell the fact that such authorization to be sent to the Chief of Station

on an exceptional and sensitive mission like this one?

Mr. Tweedy. Would you say that again?

Mr. Baron. Would it have been standard procedure for Fields to check with Bissell in your absence before he sent such a cable?

Mr. Tweady. No. Field's understanding of his authorities and his relationships with the DDP on such matters were exactly the same as mine. We would have seen eye to eye with him.

If I had sent the cable, undoubtedly I would have let

Mr. Bissell know that I was planning to carry this thing that

much closer. The reason for that is that we were getting close

to informing a third party that this was in the wind. Therefore,

before we actually took this step, I think something like

this,

Mr. Baron. As Exhibit 8, we will introduce a cable on October 7th, 1969, from the Chief of Statin to Jadwin, which is yourself.

(The document referred to was marked Tweedy Exhibit No. 8 for identification.)

0000

Mr. Baron. This cable begins with a reference to

and he: "Departed Leop for PBPRIME 5 October, view
expiration date his materials. However, left certain items of
continuing usefulness. Guthman plans continue try implement
op."

Do you have any independent recollection of receiving this cable?

Mr. Tweedy. You know, it's terribly hard when you see something that clearly occurred, and to me I read, it's terribly hard at this stage to say, of course I remember. It all reads perfectly familiar to me now. To say quite specifically I recall receiving the cable will perhaps go a little beyond my memory.

Mr. Baron. Based upon having read this cable at that time, which you assume you did, is that correct?

Mr. Tweedy. Absolutely.

Mr. Baron. You would have known that har left the Congo on October 5th and that the Chief of Station planned to continue to try to implement the operation.

Mr. Tweedy. Which means that he would continue his exploratory operational work to see if he could come to some solution.

Mr. Baron. You would read that sentence still to apply to an exploratory phase, a phase in which the Chief of Station.

was exploring the feasibility of assassinating Lumumba as

opposed to moving to implementing?

Mr. Tweedy. Absolutely. Under no circumstances anything else.

Mr. Dawson. Based upon this Exhibit and the previous one then, Mr. Tweedy, is it your opinion that in this case no agent was ever asked to assassinate Lumumba?

Mr. Tweedy. Yes, indeed. That also coincides with my best recollection which is not all that damn good. It is parfectly obvious that was never requested to assassinate Lumumba, and I have no recollection of anybody having been asked to do this.

Mr. Dawson. Whether the discussion was hypothetical, as outlined in the previous exhibit.

Mr. Tweedy. Yes.

ь

Ar. Dawson. Why is it obvious that was never asked to assassinate Lumumba in light of the sentence in this cable that reads. "Although did not pick up ball," -- referring soil did not necessarily pick up the ball on assassinating Lumumba in his conversation with the Chief of Station, the Chief of Station nevertheless believed "he prepared take any role necessary within limits security accomplish objective."

boes that not indicate that was at least viewed as someone who was prenared to undertake an assassination with it?

1 Mr. Tweedy. I did not say he was not. This at that time is the Chief of Station's best assessment of what the reaction would be if the thing was formally put to him so bluntly that he understood entirely what it was all about. I do not recall, I do not believe any of this residual traffic indicates that it ever got so far that we did .that, and I think, my own belief is it is a 50-50 proposition on whether would agree to do it. I think probably in "limits security accomplish objective" is probably the controlling factor. I cannot really recall anymore. 1: Mr. Dawson. Off the record. (Discussion off the record.) Mr. Baron. Back on the record. This report on October 7th by the Chief of Station refers 14 back to the exploratory conversations that he mentioned he was --3.7 Mr. Tweedy. Implied to by Fields. Mr. Baron. -- authorized by Fields in the previous cable of the 30th. Mr. Tweedy. Right. Mr. Baron. As Exhibit 9, we will introduce a cable signed by B. Tweedy to the Chief of Station in the (The document referred to was marked Tweedy

#### **TOP SECRET**

Exhibit No. 9 for

identification:)

1 Mr. Baron. It begins, "Had good discussion your colleague 7 October. Comments follow: " "A. Be 'assured did not expect Objectives be reached in short period and understand current situation fully warranted return your colleague." And then it continues to discuss the fact that you were considering dispatching a third country national operator and a senior case officer from the CIA who would "run this op and outside agent full time under your direction." 10 Does this cable refer to the fact that you debriefed Mr. Tweedy. I am sure it does. That is what it must be, yes. Mr. Baron. The first paragraph is meant to indicate that 15 1 the Chief of Station should not feel that Headquarters would be disappointed in the fact that he did not pull off an assassination mission in such a short period of time? Mr. Tweedy. I want to be careful to how I reply to that. : All I was saying to a very professional colleague was that we had no illusions about the fact that the planning operation of this would be very difficult, at bast, and would take time

But to say what I was trying to express to him was tha

#### **TOP SECRET**

and thoroughly agree with the fact that prospects, immediate

prospects, were such that there was no alternative for

to return. That is all I was saying.

fact that we were not overly disappointed that Lumumba was not assassinated at this point is just not the level of intercourse that I had with a very professional Chief of Station. That is all.

Mr. Baron. Does not the paragraph A here indicate that
the objective of the mission that was discussed in the
channel was to assassinate Lumumba in view or in light of the
fact that had gone to the Congo with materials that
were only going to be lethal for a short period of time?

Mr. Tweedy. That is what it says.

1

10

1:

Mr. Baron. In other words, what I am trying to explore with you is your characterization of this entire stage of the operation as one of planning and exploration when we know that took materials to the Congo which would only be lethel for a short period of time and presumably was prepared to move from exploration to implementation?

Mr. Tweedy. If, as a result of the Station focusing on the problem for the first time, as a result of Headquarters' request, they had come up with a plan that they thought was exceedingly solid and which Headquarters approved, it is not surprising, perhaps, that we wanted the materials there to take advantage of such, if you like, an unlikely event. But this would not change the normal sequence of events, which would be that the Station would explore, keep Headquarters informed, Headquarters would comment, it would then be a cresendo of

1 agreement or no agreement at all resulting from either a final 2 request for approval or either approval or no approval. This . would not have changed. Mr. Baron. Because took lathal materials to 5 the Congo with him that had such a short period of lethality, ware you not contemplating at that time that the operation 6 might well move from the exploration phase to the implementation В phase just as soon as and Hedgeman determined that it 9 was feasible? 10 Mr. Tweedy. I think I would put it quite differently. I think that I would say that we would have been remiss in not being in a position to exploit, if we reached the point where we all agreed that the thing was possible. ] ∔ If they had merely gone over and said we think we can do 1: it, by why do you not send the stuff from Headquarters, that would have been sort of nonsense, if you follow me. 17 # Mr. Baron. You would have expected the Chief of Station to cable back for confirmation, but it was certainly within your contemplation at the time that when to the Congo, when the Chief of Station cabled for confirmation, you would probably give him a go shead to assassinate Lumumba? Mr. Tweedy. I did not say that at all. Mr. Baron. If the operation were feasible?

#### **TOP SECRET**

Mr. Tweedy. I did not say that at all. It would not have

1 10

These are pure assumptions on my part. Under no circumstances would I have given the go ahead.

Mr. Dawson. That is interesting.

who else he wished to consult in Washington.

Mr. Baron. I just have one more question on this line. I realize we are going very closely over this ground. We would not be doing it if it weren't important in trying to get you to clarify for the record exactly what shade of meaning you want to attach here.

Would it be fair to say that when you dispatched to the Congo you expected to hear back --

### TOP SECRET

1.7

Mr. Tweedy. I expected this would result in a dialogue between the Station and ourselves as to what might be feasible.

Mr. Baron. You were hoping?

1

3

,

5

7

8

1 4

55

Mr. Tweedy. assisting the Chief of Station in his explorations.

that time, as indicated in the cables of Dulles and the cables from yourself and Bissell to the Congo, you were hoping that and the Chief of Station would find a feasible means of carrying out an assassination mission and then inform you of that.

Mr. Baron. In view of the entire policy of the Agency at

Mr. Tweedy. I am not going to comment on the hope. I do not know what my frame of mind was on that.

The purpose of the exercise was to see whether this was 15 | possible. One thing was clear, that I was the instrument of policy in carrying out the exploration which was entirely a professional matter. If the exploration had reached a point where we felt that we could submit to higher authority a plan which we thought made some sense, at that point higher authority would have to take the ball and run with it and let us know what they concluded.

Mr. Baron. By higher authority here, you mean any authority higher than yourself?

Mr. Tweedy. It would start with me in my chain of command. I would not be concerned with the Mational Security Advisor

to the President or anybody else, I was perfectly clear in my mind because of what had occurred and the way that these matters had been broached to the field by Mr. Dulles, that the thing was in the national arena and was just not in the Agency's arena.

What Mr. Dulles would have done and what he felt his authorities were from higher authority I cannot tell you.

Mr. Dawson. That would have been a matter that would have been between Mr. Bissell and Mr. Dulles, is that correct?

Mr. Tweedy. In the first instance, it would have been between Mr. Dulles and the outside world, the Executive.

1 :

1 .

Mr. Dawson. The chain of command would have been, you would have talked to Bissell, you would not have been expected or would have asked what Mr. Dulles' view were?

Mr. Tweedy. Mind you, we were also an Agency that was very flexible. I am not saying Mr. Dulles might not have talked to me about this, that was because Mr. Bissell was not immediately available, or something of this kind.

What I am saying is—at the working level, the operational level, the Divisional and the Station level, we had come up with a plan which made professional sense to us which we felt sound shough so that we would present it to our masters, we would have done so—and the resultant instruction to the field would have depended on their reaction as far as I was concerns within the Agency. As far as Mr. Dulles was concerned, I cannot within the Agency.

tell you.

started.

In other words, the degree to which he thought he would have to refer further to Washington on, I have no idea.

Mr. Baron. It was your job to find a feasible way to carry out an assassination; it was the job of Bissell and those above him to decide whether to go ahead, as far as you were concerned?

Mr. Tweedy. As far as I was concerned, that is the way it

Mr. Dawson. You have no independent or specific recollection that you ever went to Mr. Bissell and said, we do not have a shot at this, or we do, and we could do it this way, and him saying one thing or another? You have no recollection either way?

Mr. Twesdy. Mr. Bissell read the same traffic I did.

Mr. Dawson. I did not know that.

Mr. Tweedy. He read these cables. When I say he read

every single one of them word for word -- all I can say is he

had full access to these cables and anything he had not read or

had any reason to believe he had not read. I would have kept him

generally briefed on the progress of the planning. Maturally,

he would have been interested. He would not have followed it

in detail.

Mr. Dawson. Would Mr. Dulles have had any access to these cables?

Mr. Tweedy. Not routinely. I think he would have expected

Mr. Dawson. Was the routine way that that information would have been given to Mr. Dullas -- for instance, what I'm thinking was, were there staff meetings at which you attended with Mr. Bissell in Mr. Dulles' presence concerning what was happening generally on a routine quarterly or weekly basis?

Mr. Tweedy. Mr. Bissell would have seen Mr. Dulles by and large avery day.

Mr. Dawson. They would not review meetings on a weekly or routine basis?

Mr. Tweedy. He had his own staff meeting every morning.
Mr. Dulles did. These were attended by his Deputy Directors, of which Mr. Bissell was one.

I used to see Mr. Bissell -- he had a staff meeting once a week which all Chiefs of Division attended. Nothing like this would be discussed at those. I had my own private meetings

#### **TOP SECRET**

16

with him on these matters whenever it seemed necessary by one or the other of us.

Mr. Baron. Returning to the cable of October 7th, 1960, which you sent to the Chief of Station, the reference to a senior case officer who might be dispatched to the Congo, is that a reference to the fact that Bissell was considering dispatching Justin O'Donnell?

Mr. Tweedy. No other candidate, no other. I assume that is who it is.

Mr. Baron. O'Donnall's account that he was asked by Bissell to go to the Congo to carry off the assassination of Lumumba would fit here?

Mr. Tweedy. Sura.

2

4

Mr. Baron. The third country national referred to in this to cable and in other cables as someone you are considering dispatching to the Congo to help with the operation, would that be QJWIN or WIROGUE?

Mr. Tweedy. As I told you before, definitely not WIROGUE.

Iresumably this other fellow, whose identity and what he was is

very, very unclear to me.

OS Mr. Baron. The agent that was run by Winold Silved

Mr. Tweedy. Yes. This would have been the man that would have worked with Justin O'Donnell if it had all happened.

Mr. Baron. That was QJWIN. I will represent to you that QJWIN was the agent who was supervised by Justin O'Donnell.

Mr. Tweedy. We read that that time, which is my only recollection of it. That is the person I am sure.

Mr. Baron. Let me correct myself here.

I will represent to you that QJWIN was the agent that was 1)7 07 recruited by MrnoldsSilver and sent by Silver to the Congo for use by O'Donnell and perhaps by the Chief of Station.

Is that consistent with your recollection?

Mr. Twaedy. No, it is not consistent with my recollection.

It is certainly consistent with what I read the last time I saw you, which I have no reason to dispute. I just cannot remember the blighter at all.

Mr. Baron. As Exhibit 10, let us introduce a cable of October 15th, 1960, which is not sent in the channel.

It is marked RIBAT in the space where sensitivity indicators are usually placed.

: :

1. :

(The document referred to was marked Tweedy Exhibit No. 10 for identification.)

Mr. Baron. This cable requests the views of the Chief of Station on suggestions A, B and C for various covert operations.

OZ

In paragraph C, there is a reference to Microak.

Mr. Tweedy, we have received the representation from the CIA that that was a cryptonym used to refer to Lumumba.

Is that consistent with your intereptation of the cable?

Mr. Baron. It is indeed.

1

Mr. Tweedy. This paragraph C says in part: "Only direct action we can now stand behind is to support immobolizing or arresting ROAK, desirable as more definitive action might be.

Any action taken would have to be entirely Congolese."

Now, you signed this cable, but it was not sent in the special sensitivity channel that dealt with mission to the Congo.

Before we discuss this cable, let us also introduce into the record as Exhibit 11 another cable which you signed on October 15, 1960 which was sent in the \_\_\_\_\_ channel to the Chief of Station.

(The document referred to was marked Tweedy Exhibit
No. 11 for identification.)

Mr. Baron. This contains the following language: "You will note from cable through normal channel currently being transmitted" then it continues "on suggestions. You will probably receive more along these lines as stumbling block poak represents increasingly apparent all studying Congo situation closely and his disposition spontaneously becomes number one consideration."

Mr. Tweedy. I think by that, I think it is perfectly God-awful English.

Mr. Baron. The cable continues --

Mr. Tweedy. Obviously that means that everyone one talked to said there is no solution to the Congo as long as Lumumba stays in a position of power or influence there. That is what that means.

Mr. Baron. The cable continues: "Raise above so you not confused by any apparent duplication. This channel remains for specific purpose you discussed with colleague and also remains highest priority."

Now, does this pair of cables indicate that at this point despite the indication in the first cable that we looked at that "direct action would be limited to entirely Congolese action" the actual position of yourself and others at Headquarters involved in this operation was that exploration of an assassination mission remained the highest priority for the Chief of Station?

15

16

Mr. Tweedy. I think that is accurate.

We had come to the end of the road, at least-temporarily
on the \_\_\_\_\_\_aspect and for the time being we were in no

position to approve anything but what was discussed in the

cable. Nonetheless, as long as the threat to the Congo

from Lumumba existed, there remained a high priority to search

for means to take care of the \_\_\_\_\_\_planning aspects.

Mr. Baron. When the cable refers to the specific purpose you discussed with colleague --

Mr. Tweedy. This is assassination with I am sure.

Mr. Baron. It then says: This purpose remains highest priority. Would that not indicate to the Chief of Station that he should proceed to find a way that Lumumba could be assassinated?

Mr. Tweedy. What this would mean to the Chief of Station was that he should retain exploration of possible means of assassinating Lumumba as highest priority. He should continue to suck means to do this, not to do it.

Mr. Baron. Again, you are maintaining you have just made yourself clear, as far as you were concerned, you were still asking him to explore and not implement at this point?

Mr. Tweedy. Nothing also but.

Mr. Baron. Who would have had access to or received distribution of the first cable we looked at which travelled in

the

Mr. Tweedy. It would have been restricted, but not as restricted as the other.

Mr. Baron. Would somebody at the Embassy conceivably have been cut in on cable traffic in the channel that dealt with operations?

Mr. Tweedy. Could be, certainly.

Mr. Baron. In other words, the purpose of sending a second cable on the same day which dealt with action against Lumumba was what?

because I cannot tell you so -- as I said a few minutes ago, obviously you'd come temporarily to the end of the line on position in the Measures taken to shore up Congo, (Mabutu; would have served to support the general objective, of containing Lumumba by whatever means. It is all part of the sama purposa.

Mr. Tweedy. The simple reason I think -- I say I think,

Once again referring to the original cable from Mr. Dullas which said all means, in effect, and I think the reason I'm putting this in the open channel, the open channel is still --

Mr. Baron. Simply the ordinary channel used between yoursulf --

Mr. Tweedy. Still a restricted channel. RIBAT is a restricted thing, in any event. This could have been discussed with the Ambassador or the Embassy, if any aspect of it seemed

cable

TOP SECRET

25 accellent idea. Is that a fair interpretation?

Mr. Tweedy. Yes.

٠,

4

5

6

8

17 |

1P

10

(The document referred to was marked Tweedy Exhibit No. 12 for identification.)

1

Mr. Baron. The Chief of Station then makes a suggestion in the fourth paragraph for equipment that might be provided if such a case officer were to be sent. He 'says, "If case officer sent, recommend Headquarters pouch soonest high powered foreign make rifle with telescopic sight and silencer. Hunting good here when lights right. However as hunting rifles now forbidden, would keep rifle in office pending opening of hunting season."

Would you take that to be a racommendation by the Chief of Station, if a case officer was sent to the Congo to concentrate on the operation, he should be provided with the kind of weapon that would be suited for a sniper shot at Lumumba?

Mr. Tweedy. Yes. Not necessarily to be fired by the case officer, obviously not, but at least used in the operation.

Mr. Baron. This reference to the hunting season can be taken as a reference obliquely to the fact that Lumumba was in UN custody and that there would not be, in effect, "open season" on him until he showed his face outside of UN custody. Would that be a fair interpretation?

Mr. Tweedy. I would not have interpreted it quite the same way. I would have interpreted it this way, which was if it, as a result of Headquarters suggestion that a rifle be provided to the Station, the Station would come up with an operational plan involving the use of the rifle which Headquarters would approve, and that thus, in effect, the operation was on

	23 34	1	by a rifle, that would be the opening of the hunting season.
	4	. 5	In other words, the point where they knew how it could be used
		8	and Headquarters had approved its use.
		4	Mr. Baron. I have one other general question before we
		5	take a break, and that is, returning to
		6	account of his conversation with Richard Bissell about making
		7	preparations for carrying off an assassination against an
		8	African foreign leader if it were required,aid in
		9	that context that he had higher authority for such an operation.
		1.	also said that he clearly interpreted Bissell to mean
		3.7	that Bissell had Presidential authority for such an operation?
<b>.</b>	5 4 4	. 11	Did you have any knowledge of such a conversation between
