"No info developed by CIA (or its predecessors) before the assassination had established any link between the DeMs and LHO or his family."

"CIA's initial interest in George DeM developed as a result of his sojourn in Yugoslavia in 1957 on behalf of the ... ICA. In that connection CIA HQ sent a routine advisory to its Dallas representative who called on the DeMs in the early part of December 1957. In the course of several meetings the CIA representative obtained foreign intelligence which was promptly disseminated to other federal agencies in ten separate reports. The Dallas representative continued informal, occasional contact w/ DeM until the autumn of 1961.
