Enclosed for New York and Detroit is copy of Department of State letter dated March 8, 1963, concerning above-captioned subject.

New York is authorized to interview subject in accordance with existing instructions relating to interviews of security subjects.

Inasmuch as investigation in this case indicates subject and her husband, Louis Henry Jones, have violated current U. S. laws relating to travel to Cuba, the subject should be apprised of those Constitutional rights which are pertinent when interviewing a subject who may have violated Federal laws. New York should take cognizance, however, that violation of travel restrictions is the primary responsibility of the Department of State and the Bureau does not desire that the impression be given that the FBI either polices or enforces travel restrictions. You should, of course, inform the subject the Bureau is aware of her and her husband's travel to Cuba in May, 1961, via Mexico. Obtain from her any data which she will furnish relative to her Cuban travel, including the date, place and method of departure from the U. S.; whether she and her husband were aware of current restrictions regarding travel to Cuba prior to leaving the U. S.; and if she and her husband intended to travel to Cuba when they left the U. S. The date, place and method of subject's return to the U. S. should also be obtained, including the date she left Cuba. *ALG*

New York is referred to its case re Beth Michele Wolland, New York file 105-48772, in which investigation is currently being conducted on specific instructions of the Department re possible

groups. He has been a subscriber to the "National Guardian." Subject's mother was reportedly a CP member in 1942. Both were interviewed in 1950 and refused to furnish any information concerning their past activities and to state if they had ever been members of the CP.

With respect to State's comment re availability of Bureau informants for passport hearing, all current information shows subject intends to return to Cuba in near future. An effort to interview her is logical step to determine if she will admit illegal travel. The only sources who might be made available for passport hearing re her illegal travel would be Mexican Immigration authorities, but in view of time limit involved this is not being pursued at this time, it being noted that we have received no request from the Department of Justice requesting specific investigation looking toward prosecution of subject for violation of current travel laws. *X(u)*
