- c) reportedly became angry with a colleague who refused to prepare a speech commemorating GORKIY's birthday.
- d) wife supervised production of the Sevict publication, URSS.

4. In his current position as Counselor of Echangy, enjoys apparent freedom of movement and is sufficiently
Bigh-ranking to be the CC CPSU Representative. In addition.
no firm identification has ever been made
Although the Station reported
in - 18575, 29 June 1971, that was
believed to be a "likely candidate for new 1t
would seem from information contained in headquarters files
that he is more likely the SC CPSU Representative. An excerpt
from Reference C contains the following indicators:
Produce selection to the Santah Workshall almost

During visits to the Soviet "Quints" almost

- a) lunched with the Ambassador,
- b) spent long periods reading, seated outdoors under the trees and remained generally along from other Soviets,
- c) was the only Seviet who addressed other Seviets as "Comrade", and
- d) his vife was said to treat vives of lever-ranking personnel in a brusk and authoritarian manner.

While the indicators cited above are mat conclusive in themselves in establishing that _____ is the CC CPSU Representative, they do so int up the possibility that he might be acting in that capacity.

5. We shall be interested to learn the identity of the Station's testative CC CPEU Representative selection. In addition, from our review of the files mantioned in Paragraph 2, it seems that the most likely candidate (201-336781), with

olthor (201-786552) or Royis
(201-247553) Ro
should also like to have the Station's thinking as to the
identities of his Deputy.

one attendance at a MEKNIGHT Embassy function; two trips
to _______ airport; and, gurprisingly enough, a Sunday
afternoon tour with 201-873887 and his wife to take
pictures along the river front and drink beer in a ______
cafe. (During this last excursion, the known KGB officer drove
the GRU chauffour and his wife.) The first trip to the airport
was made in the company of several other high-ranking Embassy
officials to greet an important transiting delegation. (See
HABAG22399.) On the second trip AEBOOR was accompanied by
201-128117 (suspect KGB resident) and 201-790164 (chauffeur).
On arrival, AEBOOR and his companions went up to the
terrace to take photos of the Concorde as it landed for a
\[ \frac{1}{2}\text{WO} - \text{day, wisit.} \] They were joined by Mr. and Mrs. AELESION
and 201-228494. Evidently, the KGB and the GRU groups went
separately to photograph the same plane.

- 4. Twice during the period the BIBAFFLEs felt that AEBOOR might have been checking for surveillance. Otherwise there were no incidents of note. Not once were the BIBAFFLEs approached by local authorities with a request that they identify themselves.
- 5. In sum, we remain as much in the dark as before about AEBOOR. With every opportunity and reason in the world to lead a hectic pace, he spent the majority of his waking hours within the Embassy. During the days in question he received only one phone call even worth noting, one in connection with the

BIBAFFLEs-30 and 45 seem to be talking of different people when they describe the and one of BIBAFFLE-45's impressions that we are checking is her statement that the have occasional parties at home with singing and dancing. We have no evidence of such gay get-togethers.

3. As Headquarters is aware, the BIBAFFLE transcribers only process material from special operations such as AEVARIETY, AELANYARD, etc. and cannot furnish assessment on all individuals in whom we have interest. However, we have requested BIOGENESIS to have the BILOCULAR transcribers work with the form.

A certain duality of personality is apparent in her behavior. In her married life she shows herself to be intolerant andimpetuous, arriving at absolutellack of control on various occasions, bringing forth continual marital quarrels.

On the contrary, in her social life, she shows herself as a very decile, cheerful woman, being the center of attraction in almost all the gatherings for her "lovely disposition" and gayety, not only among the men but also their wives. (See section I).

is a woman brought up in the typical soviet atmosphere, subjected sice childhood to a rigid political indoctrination in some juvenile organisation and in school. She is not sufficiently intelligent to rid herself, even partially, of what she has been taught. She does not separate her affective life from the obligations that she, presumes, every communist sitisens should have. It seems that she does not remise the importance of her husbands mission. She is not a woman who is attuned to her companion. She is not on the same wave length, she does not understand him. She harbors a concentrated and continuous resentment against him. May, be this is due to his iranic, and keen and wounding sense of humour.

V.- CONTACTS

It was ascertained that ______ arrived home very late at night and even at dawn, which is quite out of the ordinary with the rest of the diplomatic personnel. (See Annex 2).

This led to the supposition that subject was either leading a licenticus life or carrying out clandestine activities. Therefore, a permanent suverveillance was carried out during 24 hours for 20 days on his home, proving that he desd in reality come home between 6 and 7 at times.

Fifteen days before his return to the V.S.S.R. for his leave, a surveillance and shadowing service was set up dwring all 24 hours, proving that subject did make clandestine contacts.

It was under these circumstances that the 21/5/69, at 1200 hours, a contact was spotted. This occurred once again the the 23/5/69, at which time the "contact" was suspicious of being followed the pulled quickly out of the area.

VI. CONCLUSIONS

With reference to the _______
the following conclusions have been reached:

- a) He is a diplomatic officer who carries out his professional work efficiently, showing at all times great sagacity when carrying out public contacts and relations, avoiding on various opportunities with ingenuity and ability the shadowing detail assigned to him.
- b) With reference to his relations and activities within the basay, it is observed that he carries a lot of weight over the rest of the personnel, as he is given deferential attention and respect not only at official but private functions within the circle.
- e) He is a person who is always busy, on the go all day and on into the late hours of the night.
- d) His married life is not harmonious, due to the character of his wife who is temperamental and impetuous and not tolerant toward subject. It is estimated that these misunderstandings are linked to his activities outside of normal working hours, which take him away from home, as well as, the imdifference and silence with which her recriminations are received.
- e) With reference to his contacts, mentioned in this report, the corresponding inventigations are being carried out to determine how I've they reach and their importance.

- 4. We have not been able as yet to establish direct social contact with AEBOOR. Both Nina T. MARGANDE and Paul W. LEVERONE (who have legitimate reason to seek him out) have tried, but to date, to no avail. Our hope has been to have AEBOOR actually tell us of his plans will he indeed be transferred Our original thought was that the could readily determine if he had indeed applied for a visa to that country. As you know, we struck out here also.
- b. The fact is that as of this writing, we do not know whether AEBOOR's move was routine and innocent or if indeed there was something sinister involved. If AEBOOR does indeed pick up and move we shall, of course, be somewhat relieved. However, this will not answer categorically the major question—was the operation compromised? It would appear that regardless of what happens to AEBOOR, we shall never know the actual reason for nis move. However, for what it is worth, the evidence here does not point toward a compromise.

PRCCESSING ACTION DISPATCH SECRET HARKED FOR INDEKIN Chief. Soviet Blcc Division CAM JUDGE INDEXING Via Chief. Western Hemisphere Division Chief of Station. REDTOP/AEKICK/AEBOOR Operational Possibilities Against FISTEAL Priority Targets Action Required: See Paragraph 5. : HABW-11473, dated 5 June 1969 Reference 1. The detailed analysis of the Station's operational efforts against some of the priority FJSTEAL targets and the suggestion that perhaps AEBOOR offcred the best immediate operational promise and warranted special attention was reviewed and discussed by the interested officers; it should come as no sumprise to Headquarters that there is really little divergence of opinion, not only as to the priority target, but also insofar as operational approach and conduct is concerned. We would like to correct the apparent Headquarters impression that the Station was negligent in the follow-up of operational opportunities and was waiting for the FJSTEALEDS to take the initiative insofar as future contacts were concerned. We believe Station efforts have been as aggressive as possible in the existing operational climate, and if we were remiss, it was in failing to report in detail the various negative results of what we consider normal operational efforts. 2. ARBOOR was selected as one of the priority Station hargets for the simple reason that three officers had direct access to him through Identity; once he accepted the invitation to Faul W. LEVERONI's home he was moved up to the top of the priority list since it was hoped that continued and rather frequent contect could be maintained for assessment and operational purposes. Every reasonable effort was made to follow. MICROFILMED Attachment Identity USC Distribution - Chief, SBD w/att USC - Chief, WHD w/att USC 1 axt

up the first social contact (experience has shown that the FJSTEALers here will not take the initiative and must be actively pursued) but a number of conversations (both face to face and by phone) ended up in the vague promise on the part of Subject that "we must get together soon". In the interim the Station tightened the coverage of AEBOOR by Rutting AELANTARD on a 24-hour-a-day basis for a little over two weeks and by conducting full coverage surveillance for about one week. Our ressoning behind this acting was as follows: such intensive coverage would possibly rermit us to spot a likely place where we could inject an access agent; it would give us a better "feel" of his daily activity; it might uncover one or more of his clandestine contacts. The results of the effort, while far from solving our problems, did give us a wealth of information which should help us in our operational planning-once AEBOOR returns to his station.

- Nina T. MARGANDE managed to spend some time in conversation with ARBOOR's wife during a get-together of Identity on 21 May 1969. As a result of this meeting the groundwork has been laid for a follow-up by MARGANDE; despite the fact that the wife was at first cool and then lukewarm to the idea of getting together for a shopping excursion, we will do everything possible to bring such a meeting about and try have MARGANDE become the wife's "confidente', if this is possible. (In order to permit MARGANDE to pursue this contact in the most natural manner and to give her a chance to meet and assess other FJSTEALER wives, she has also become a member of Identity.)
 - primary FJSTEAL target and will continue in this position after his return until we can reach a decision regarding future action. There is one thing that should be kept in mind, however; and that is the fact that all of the FJSTEALers are reserved in their dealings with members of LNPURE. It seems that it is possible to get some of the FJSTEALers to accept an invitation, even to a private home, but to try to develop such a contact into a continuing social relationship is a much harder proposition. Leland C. KROULD's experience with 201-31506 followed this pattern, and despite KROULD's efforts to continue and follow up what seemed to be the beginning of a good relationship, nothing came of the attempt; Stephen M. GARSIDE twice tried to utilize a natural opportunity to get together with 201-820310, only to be put off; as he was in an approach to 201-(25485; Paul W. LEVERONE tried on several occasions to arrange a dinner with 201-183943, enly to be put off (and this despite the fact that 201-183943, enly to be put off (and this despite the fact that 201-183943, enly to be put off (and this despite the fact that 201-183943, enly to be put off (and this despite the fact that 201-183943, enly to be put off (and this despite the fact that 201-183943, enly to be put off (and this despite the fact that con-183943, enly to be put off (and this despite the fact that con-183943, enly to be put off (and this despite the fact that con-183943, enly to be put off (and this despite the fact that con-183943, enly to be put off (and this despite the fact that con-183943, enly to be put off (and this despite the fact that con-183943, enly to be put off (and this despite the fact that con-183943, enly to be put off (and this despite the fact that con-183943, enly to be put off (and this despite the fact that con-183943, enly to be put off (and this despite the fact that con-183943, enly to be put off (and this despite the fact that con-183943, enly to be put off (and this despite the fact that we in-

5. The value of the PCQ (a copy was forwarded with Reference) in assessment of target individuals is readily apparent, and it is requested that ten English and Spanish language copies be forwarded to the Station for use in our assessment program.
