Although Subject acted as a guard
he appeared to be fairly well educated and was
not subservient to any of the other with the
exception of
(201-028975). On one occasion Subject was reported to be
helping the daughter
with her arithmetic homework. On another,
Subject was asked about methods of producing metal wire,
a subject on which Subject was well informed as a result of
his having once worked for a wire factory.
Subject had a tape recorder at home which he liked to
listen to. He also occasionally went fishing
Subject told to build a large garage,
because he was bringing a big car back with him. He also
asked whether had bought a refrigerator and TV for the
apartment. On another occasion he was negotiating for a can
of paint to take back with him to repaint
Subject and his wife were both buying watches
just before leaving From the above it appears
that Subject was fairly well-off financially, for a guard.
