Report No. 314

FRANCO enters the office. They mention the incident that happened last night at [redacted] airport when the plane arrived [redacted]. A woman [redacted] raised her umbrella and threatened HORACIO, while a [redacted] kept hitting him. FRANCO says that he hit five or six of the attackers real hard, and that he thinks he really hurt one of them quite badly around the face and head. Everyone was covered with blood.

A woman and a man come into the office and talk about the incident (above) also. Then the girl says that she has come to [redacted] to take a course in [redacted]. It seems that the course is connected with UNESCO. She will later go to the University [redacted] and on to [redacted] to take a course there. She says she is a member of the Party, and wants to know how she is going to maintain her contact here [redacted] says that they too are members, but that due to the difficulty of public relations that it is a month and a half since they have had a group meeting. He says that the work that they are doing makes it difficult to carry on the Party life, but that nevertheless it is necessary to have group meetings to discuss the members. She says that she would like to live [redacted] in a student residence, and commute [redacted] by car, or bus every day. [redacted] says that in this way it would be more economical for her and she would have more contact with the other students. She says that she would like to be in some [redacted] college to get acquainted with the students there. [redacted] says she could be very useful to them with her student connections, and that without interfering with her studies she can also be helping [redacted]. He highly recommends that she get every thing she can, culturally, during her stay in [redacted]. He says that for very much she has read about museums and historical and artistic places it is quite different seeing them.

[redacted] asks her to leave her address at the [redacted] so that the President of the Women's Federation of the Party can take advantage of her being of use to them in one way or another. [redacted] tells her that anything that might happen to her to come to the [redacted] and let them know about it. He says there is the danger that they will spy on her or follow her and that there is the possibility of enemies getting close to her. He says that everyone makes mistakes and that if she does to let them know at once so that they can prevent the consequence, and give her good advice.

He has been out of the office for a long time. At about 2:30 pm he comes in with BARREDA and another person. [redacted] says that he has to write to the Deputy Secretary (of Foreign Relations-?) about the incident at [redacted]. He is going to point out the permissiveness of the police. He is going to point out that the officials of the [redacted] were provoked by the others

<p>1. The following information about Subject's trip to [redacted] and her activities while here was obtained from QUTINID and QUDOZE.</p> <p>2. Subject arrived [redacted] on 10 February 1970. She traveled [redacted] during the week of 23 February and returned [redacted] 6 March whereupon she then left for [redacted]. She returned [redacted] on 17 March and waited for [redacted] return from the [redacted] Commercial negotiations [redacted] departed Madrid [redacted] on 27 March 1970. It appears that she intended to travel [redacted] next, since several cables were sent [redacted] advising [redacted] travel status. During her stay [redacted] was in frequent contact with one [redacted] (Station traces are OSBA 02385, 17 February 1965; OSBA 02718, 11 August 1967; and OSBA 02795, 1 March 1968). She was not known to have been in contact with any other locals and what little time she had for diversion she spent with the mission officers and their wives.</p> <p>Distribution: 2 - C/WHD 2 - C/EUR 2 - COS, WH/Miami</p> <p style="text-align: right;">....continued</p>

3. The purpose of [redacted] trip [redacted] was to discuss the 1970 work plan for [redacted]. She also talked with the various [redacted] officials, most probably to familiarize herself with their duties and to see if they had any problems. She pitched in and helped with the backlogged work of [redacted] and also helped with the cultural activities. For instance, she sent two cables [redacted] - one regarding the forwarding of movie posters for a March exhibit and another regarding the forwarding of a [redacted] stamp exhibition by end March.

4. In their discussion of the 1970 work plan [redacted] told [redacted] that they were going to plan the February, March, and April quarter. She showed him "an agenda for the control of planned and unplanned activities" and the general directives of the plan which included scientific information and political information, with specific directives (requirements) [redacted] has to prepare for [redacted] a monthly report, then a quarterly summary, of the activities accomplished. Based on these reports the activities of the following quarter will be planned.

a. In line with the plan of scientific information, [redacted] discussed the pros and cons of a [redacted] which is to be set up in [redacted] was of the opinion that the local [redacted] Communist Party would try to infiltrate it and this would bring problems to the [redacted] pointed out the successes encountered in [redacted] with such a committee even though at first there were problems which were later overcome.

b. [redacted] showed [redacted] a commercial project which she planned to take [redacted] and asked him to read it because it was also of interest to the [redacted] mission [redacted]

c. [redacted] mentioned that the Plan of Information was still to be completed especially in the priority categories of livestock and economy.

d. They turned next to the topic of the budget. [redacted] said that the budget for each mission had to be submitted before the end of April (every year) and no additional expenditures could be submitted for approval during the course of the year. [redacted] however, would be treated individually. Their special needs, such as acquisition of more office space, raises in cost of living allowances, etc., would be taken into consideration at any time.

5. During their various discussions [redacted] aired his complaint about the visa Department [redacted] saying that the department was practically worthless and that last year 76 cables regarding visas remained unanswered. [redacted] defended the Ministry saying that it had a lot of work to do, but [redacted] replied that they wanted to work only 8 hours a day. They also discussed the scholarship situation. It seems that during an interview between [redacted]

[redacted] to provide a list of scholarship candidates to be considered and he had none. [redacted] mentioned that [redacted] they also lost four scholarships because of this same reason.

6. According to QUTIMID [redacted] is married to one [redacted] and has a daughter named [redacted] [redacted] mother is still living although appeared to be very ill at the time [redacted] left for her trip [redacted] because [redacted] cabled at least twice [redacted] inquiring about the status of her mother's health. (TYLOTE reported that [redacted] home phone number [redacted] Perhaps Headquarters can determine the full name of her husband by checking the reverse telephone listings. [redacted] is attractive, intelligent, serious-minded and reserved. The last time she visited [redacted] she stayed with [redacted] and was on the same type of mission as the present one - to discuss the [redacted] work plan. She also visited the [redacted] and the [redacted]

ACTION REQUIRED - REFERENCES

1. On 15 April 1970 [redacted] had lunch with Subject and [redacted] who are partners in [redacted]. The following is [redacted] report of that meeting:

A. Subject, and [redacted] have joined with another lawyer, [redacted], to explore joint venture possibilities. Subject and [redacted] are law partners with offices in [redacted]. An assessment of Subject based on such a short conversation would not normally be of much assistance but since Subject opened up on his thoughts about [redacted] a general recommendation can be reached.

B. "During the lunch I was able to work the conversation around to the business potential for [redacted] and U.S. companies in [redacted]. Eventually, we touched on [redacted] and [redacted] said that Subject considers himself to be an expert in this area as he visited [redacted] last year and had a private three-hour interview with [redacted]. [redacted] said that Subject received a "snow job" from the [redacted] and this about sets the tone for his feelings for the present [redacted] regime. It was not clear how Subject received an invitation [redacted] but he said that he assisted in obtaining a contract [redacted] for the [redacted] truck company - whether as a representative of this company or in a free-lance capacity

was not brought out. It seemed to me that Subject is riding an emotional high for [redacted] His face lit up and he became relatively excited when telling us how [redacted] talks with the "common people," and is from [redacted] parents, and has done so much for the country. I asked him what his general impression was of life there and he replied "phenomenal," and I believe he meant it.

C. "Some comments that Subject made would appear to be inspired by [redacted] propoganda or a briefing. He said that JKLANCE is in control of U.S. internal security and is forcing a rightist swing in its internal politics. Also, all people going [redacted] are photographed by JKLANCE people, while if you go from [redacted] you don't run this risk.

D. "I asked him if there was good potential for [redacted] companies doing business with [redacted] He replied that [redacted] is a bridge [redacted] This seemed a strange answer, and I pointed out that you didn't have to go to [redacted] to get to [redacted] He said, "that's true, but other countries will change to the [redacted] system and will need technicians to assist them. Then we (I guess he meant [redacted] business men doing business with [redacted] will have excellent possibilities.

E. "Subject said that he knew [redacted] and in fact visited him this morning and received a large box of Havana cigars from him.

F. "Subject is about 30 years old, good looking and makes an excellent first impression. He appears to have a good business background in addition to being a trained lawyer. He seems aggressive, determined and has a good imagination for business ventures.

G. "It would be premature to say that Subject leans toward Communism or has been had [redacted] I doubt that he would have talked so freely about his admiration for [redacted] if he is working covertly for them. It is quite certain that he is being used by the [redacted] for commercial purposes, and I would estimate that he would make an excellent "front man" for [redacted] business ventures.

H. "I would recommend against trying to recruit Subject as a means of getting to the [redacted] He would probably turn down the pitch and inform the [redacted] Embassy."

2. The above report is an excellent beginning in our assessment of Subject and [redacted] must be commended for his adeptness at steering the conversation toward the relevant areas of interest. We think the report stands alone and requires little commentary by the Station; however, we might add here that there is a strong probability that Subject was indeed snowed under by the impact of his alleged three-hour talk [redacted]

[redacted] Notwithstanding [redacted] fine report we feel that Subject is still wallowing in the ebullience of this confrontation with [redacted] His short relationship with the [redacted] and one visit [redacted] would hardly make him an authority [redacted]

3. If you agree we would like to try another attempt to get an assessment of Subject. For days we have been trying to devise a cover story for a Station officer to use in an approach to Subject. We have one and would like your comments, suggestions and ideas. A Station officer, preferably in disguise and using an alias, would approach Subject as a free lance writer for "World News" (a suggestion made by UCAMERA-1 because there are so many stringers for "World News" that it would be virtually impossible to confirm) with the intention that he is writing an article on [redacted] lawyers in business with the theme that a degree in law offers greater opportunities for advancement in business and government. (The theme actually is taken from an article in Fortune or Business Week magazine read by the undersigned some years ago). The theme was tested on UCAMERA-1 and he agrees that it is a good one and would work because of the general nature of [redacted] businessmen to like to talk about themselves. What is involved however, is a considerable amount of homework, particularly in the collection of names of lawyers in business who have been successful. UCAMERA-1 is preparing a list of such people and we will review them together. The undersigned subsequently will ask for Dun and Bradstreet reports on the firms these lawyers represent as well as review the firms' financial history in our reference aids located in the [redacted] commercial library.

4. The theme opens the door to a number of provoking questions, but it particularly offers a good opportunity to assess the personality of the target. Perhaps the opportunity will again come when Subject discusses his relationship and knowledge [redacted] at which time an interesting exchange might ensue possibly provoking Subject to reveal his true relationship with the [redacted] and/or his affection for the [redacted] system. No pitch would be made and, if after this assessment, the officer arrives at [redacted] conclusion, the Station would recommend against using Subject as an intermediary to AMAUTO-1. Advise.

1. There is little we can contribute to the exceptionally fine reports submitted by Headquarters on AMAUTO-1. His character, personality, physical and mental capabilities, and to some extent even his vulnerabilities, are succinctly outlined in your reports. In addition, you have appropriately recognized the Herculean task we have, to overcome his strong-mindedness and idealistic character.

2. After a series of discussions among the officers involved with PBRUMEN operations at the Station, we have concluded that to execute a logically developed "traditional" recruitment, we are faced with the challenge to recruit a person, an intermediary, in whom AMAUTO-1 has confidence and respect; an individual who is able to plausibly carry on a polemic argument with AMAUTO-1 without either antagonizing him or causing him to become suspicious of the intermediary's true role. Moreover, the intermediary must be intelligent to be able to respond in an appropriate way to our instructions, as well as show a genuine willingness to cooperate. Frankly, we have no such person currently on our list of assets and to find someone with the attributes set forth in Reference A, will be difficult to say the least, but we are prepared to work diligently on this problem.

3. AMAUTO-1 confides in few people. From our reading of QUTINID and QUDOZE, there are at least three persons who could logically and effectively fill the role as an intermediary. They are Identities A, B, and C. We can categorically eliminate Identity A for obvious reasons, i.e., lack of direct access to him. Because of his relationship to Identity D, we can also tentatively eliminate Identity B. He presents a risk which we are not certain should be taken; however, we would like to add a comment on him in a later paragraph. Identity C would seem to be the most logical choice. He is intelligent, a professional man, well-to-do, young and one with whom AMAUTO-1 frequently talks and whom he often sees. We know little about his political proclivities although he gives the impression of being a moderate analyst of world events and doesn't seem to have a strong affection or aversion for the PERUMEN Government. We have a good background on him prepared for us by Dun and Bradstreet; however, as you can well imagine, the report concentrates on the economic side of the individual. We have made a number of attempts here in the [] to determine whether he has any American contacts, but with negative results. His visa file does not show where he visited in the United States or the purpose, except that it was a business trip. He has an indefinite visa and we are fairly certain that, if necessary, we could use the question of his visa as an entree to him. We are currently reviewing with all Station assets their knowledge of Identity C. In addition, we are also considering assets such as QUCASH-1 and QUSPOT-1, who could, under some legitimate business pretext, contact Identity C. Our objective is to develop a warm entree to Identity C without compromising any of our agents, but we are in need of an assessment of Identity C by either a Station Officer or an asset working under an officer's instructions. We will keep you advised of our progress. We are forwarding PRQ Part I under separate cover. A POA on Identity C was requested separately. There are no derogatory Station traces.

4. Identity B would be an excellent choice if not for his relationship with Identity D. This avenue might be explored with QUSEQUIN-48 if Headquarters is agreeable to a joint operation. QUSEQUIN-48 could probably get the necessary clearances from Identity D directly, or from one of Identity D's aides, to contact Identity B. We will not pursue this until we receive your comments.

5. It is not too early to consider the emoluments we might want to offer to AMAUTO-1 at the time a pitch is made. As always they should be divided into two areas - for defection and for recruitment and work in place.

<p>1. The PBRUMEN government has approved the construction of a new office building to be used as an Embassy, Commercial office and residence for the PBRUMEN Minister. The site has been identified and work is expected to begin soon, probably after the return of AMAUTO-1 from PBRUMEN, sometime within the next two weeks. The builders expect to complete the building within eight months.</p> <p>2. QUSEQUIN-37 is far more confident than we are, about the possibility of getting access to the building during the construction phase to possibly install various audio devices. We believe this operation to be a formidable one and we might be challenged by the presence [redacted] of PBRUMEN security forces overseeing the construction, the presence of PBRUMEN electricians and other professions, complicating the access to the building. We believe AMAUTO-1 has the [redacted] experience well in mind and most likely will do everything within his power to overcome the possibility of an audio penetration of his building.</p> <p>3. We would be grateful for any information addressees might have on the general modus operandi of PBRUMEN security forces in areas where PBRUMEN official installations have been constructed. Have they used PBRUMEN technicians, electricians, construction engineers, etc? Also we would like to know whether the PBRUMENS have installed their own telephone system or have they generally relied on the system of the host country. We would appreciate too, any comments Headquarters or other addressees would like to make on the best course of action for the Station to consider. QUSEQUIN-37 believes he can get a copy of the blueprints after the plan</p>

1. Headquarters has just completed, with the able help of AMEDIT-2, a thorough review of QUDOZE tapes for the last quarter of 1969. We have added pertinent file material where necessary in order to round out the picture, but the review emerges primarily as an assessment of AMAUTO-1 as a personality and as a recruitment target. We forward this study as an attachment hereto, under separate cover, for your consideration.

2. Headquarters has not lost its keen interest in AMAUTO-1 as a long-range recruitment target, foreseeing the possibility of defecting him in place (at least for the remainder of his posting [redacted] or defecting him outright (which would admittedly be less desirable). In line with these purposes, we offer the following readings, which may or may not be entirely applicable to AMAUTO-1:

a. AMAUTO-1 is a shrewd, articulate person who has reached heights that probably he might not have reached under normal circumstances. His work [redacted] has been effective in general, and he seems to be very confident of himself and of the backing which he thinks he has from PBRUMEN.

b. Nevertheless, he has received some rather telling criticisms of a professional nature, even though it is unknown whether this criticism also touches on his personal life. Perhaps because of this, AMAUTO-1 seems to be very careful in whatever he does, avoiding mistakes that would endanger his position, and avoiding any real or fancied provocation.

c. There seems to be little question that AMAUTO-1 is approachable, although he would probably resist any indirect approach in which "cards are not laid on the table." It appears very likely that his character is basically incompatible with the system he serves (with profound misgivings as to its efficiency).

d. The very fact that he has made open remarks suggesting his unhappiness with PERUMEN and his non-Marxist leanings in an office he himself points out is "bugged by the other side" could be interpreted as a signal from him, indicating that he is ready to listen. His remarks on the subject might be those of a man who believes he can "jump off" at any time, if necessary. Note that he tends to live with criticism from his home office rather than try to get out from under --- perhaps meaning that he would not accept a PCS assignment home. (The attachment hereto shows him describing a compatriot who wishes to return home as "a fool.") He has said himself that he believes AMTHUG-1 plans a major purge for mid-1970, and he might consider himself as a victim of that purge.

e. A fact which might affect timing is the arrival of a child in May. If he were to persuade his wife (and his government) to have the child in [redacted] rather than return home for it, he would have a good excuse for requesting the presence of his oldest child (the only one who is now at home). If his wife returns home for delivery, he would (for a time at least) have three hostages in PERUMEN instead of one.

f. UFGA-19006 reported a 1964 attempt to get at AMAUTO-1 through his wife's relatives. The consensus at the time was that AMAUTO-1 is probably immune to this type of approach. Headquarters, therefore, still opts for a logically developed, "traditional" recruitment build-up.

3. In line with the above, Headquarters suggests to [redacted] certain lines of action which might be followed in an attempt to know more about AMAUTO-1. These actions might seem somewhat easier from our perspective than they actually are in the field, but we propose them for your consideration.

a. The man handling the new construction work (paragraph 16 of the attachment) should be checked out.

b. The established pattern of lonely automobile trips outside the capital (see paragraph 22 of the attachment) might be instructive to follow down. At least, the situation might offer a chance for approach or for subsequent handling.

c. AMAUTO-1's desire to see more people at home, and the indication that he discusses important matters at home becomes doubly interesting with the possibility of a vacant house next door (see paragraph 18 of the attachment). The person who owns the apartment building might offer a fruitful lead.

d. The apparent hostility of the current maid (see paragraph 24 and 27 of the attachment) might offer further exploitation.

e. AMAUTO/1's desire to affiliate himself with an exercise group (see paragraph 26b of the attachment) might offer a possibility to put an access agent next to him. The circumstance would be relatively normal, not calculated to arouse his suspicions. The use of someone of WOLADY nationality might, in fact, help to allay what is evidently a tendency AMAUTO/1 has of suspecting provocation.

f. Headquarters would greatly appreciate the opportunity of examining AMAUTO/1's X-rays. In this connection, we would like to see an investigation of the physician used on this matter (see paragraphs 31 and 32 of the attachment).

g. We would like to have [] assessment of the [] mentioned in paragraph 8 of the attachment.

4. At the same time, we would appreciate it if [] could follow down any of the leads stemming from AMAUTO/1's time in WOLADY. We are trying to trace his entrance back in the 1950's and as much of his time here as possible, and perhaps [] Station can develop leads on the persons mentioned in paragraph 24 of the attachment hereto, especially in reference to the brother left with the house. (Note Below.)

Michael V. SLATINSKI

I would appreciate your giving personal attention to this matter, because it is rare that we have such a detailed assessment as we have in this case.

The Soviet occupation of Czechoslovakia has been a disaster; however, criticizing the Soviet action would mean taking sides with the Americans. A friend may be criticized in private but publicly he should be defended. (QUDOZE, 19 November.) The Cubans have to side with the Soviets for military and economic reasons and because, whether right or wrong, they belong to the same ideological group. Cuba had and still has enormous discrepancies with the Soviet Union, China, and the United States but weighing the differences Cuba is with Communism and opposed to Capitalism. (QUDOZE, 3 November.)

TYPIC/AMAUTO/Cancellation of POA's

ON RECORD - REFERENCE

Reference: DIRECTOR 56464

1. Please cancel all clearances mentioned in Reference. Since AMAUTO-2's separation from AMAUTO-1's household and her immigration to the United States with her husband, AMAUTO-5, we no longer have an operational interest in her. As you know, AMAUTO-3 was used solely as an intermediary for a warm approach to AMAUTO-2. This was accomplished, and we have had no further contact with her. No Station contact was ever made with AMAUTO-4.

2. After the departure of AMAUTO-2 from AMAUTO-1's household, the Station soon learned of her replacement and this information was passed to the QUSEQUIN's. It was decided that the QUSEQUIN's would attempt to recruit the new domestic, but for unknown reasons, contact was never made. We believe that there is a new domestic now working in the AMAUTO-1 household, but we have no details on her.

1. The AMEDITS have just completed the QUDOZE transcripts for the period 19 September - 13 October 1969. This was the second group of transcripts forwarded the AMEDITS for translation, per our trial period as mentioned in reference A, in order to make them more fully useful to different components at Headquarters. The take from the QUDOZE operation appears very interesting. We noted with interest that ANAUUTO-1 discusses freely with his subordinates and privileged visitors subjects of a confidential nature, including matters that have to do with intelligence activities. Some of the discussions offer a number of operational leads which we can follow-up, such as the medical information given on 22 September 1969 in the morning hours.

2. The AMEDITS have suggested that as an aid to help them translate accurately and possibly more rapidly, they would appreciate receiving some original tapes in addition to the transcripts on a trial basis. Then when parts of the transcripts are not understandable to the translator he would have readily available reference for replay.

3. With the next transmittal of the next QUDOZE material, we would appreciate receiving both the transcripts prepared by the station and the actual tapes covering the same period of time. The complete package can then be forwarded to the AMEDITS for their use as mentioned above.

They had told him that someone was waiting to see him, and now a girl comes in: RUIZ was expecting her. He greets her. She is a correspondent of Siempre, the Mexican magazine, and Ruiz has arranged an interview for her with Mrs. RUILO or TAMAMES (sp). This girl asks if she told him that she was going to Cuba. No, replies Ruiz, all she did was to send her "background". He asks her if she is carrying her magazine credentials. She always does, she says.

Ruiz tells her what she must talk about at the interview, about politics in Spain and its relations with the United States. She must have her questions prepared beforehand, and even the possible replies. She must enter them carefully as if they were unimportant, but with a socialist sense.

Ruiz explains to this girl that what is of interest is Spain, the superstructure, the railroads, the banks, the national organizations, but not the fundamental things, yet well tied up, all the way to the bone. He says that people here are soccer fans, but later you can ask, "What do you think about a socialist regime in Spain?" The thing is to stop people in the street, one at a time.

You must take into account that Pazo is considered one of the most brilliant politicians of all times. He is sagacious, intelligent. If communism had triumphed here it would have been the first communist country in the world, and yet neither communism nor socialism has anything to do here while Franco is in.

The girl came from Czechoslovakia, and she talks about that country and of Poland, where she has not been, but they have told her a lot about it. She depicts life in Czechoslovakia as extremely sad. She had been there in 1963. She comments that what they did last year in Czechoslovakia was to set the country back tremendously, because that was the first time that people had taken an interest in national affairs. Society was so rotten that people rebelled, but the invasion caused such a great shock that people sunk into a state of apathy from which they are not coming out. They are heading for a crisis that not even the Soviets will be able to stand. People have no interest in their work. Machinery is far behind. The scale of wages is disastrous. The only people that make money are the physicians and the nurses, who charge for a visit the equivalent of a worker's monthly salary. Besides there is tremendous corruption. And so the wage scale, the old machinery, and the corruption make life unbearable. It must be taken into account that they crushed 200,000 persons and that 35,000 Party members are in jail under suspicion. Before, people stood in line to join the Party; now they tear up their Party cards in the street. Disillusionment is enormous. Marxism as con-

ceived by Lenin or Marx is no longer applicable: it must be brought up to date and placed in the current scale of technological evolution and world production. No one in Czechoslovakia wants to go to the USSR. Everybody, especially the students, wants to leave for Austria or Germany. The black market is up to date. The definition is very sad.

Fidel's latest speech, published by Prrensa Latina, was distributed through the Embassy, but they got hold of the copies and destroyed them. They say that leftist publications raise whatever they want or whatever interests them, and Fidel's speech was of no interest to them, since they did not analyze it thoroughly.

She says that there is a latent revolutionary sentiment throughout Europe. At the Sorbonne there are some powerful centers where they compare the performance of the Chinese and Asiatic outbreaks more than they do the Soviet ones.

This correspondent says that when she gets to Cuba she is going to visit FIDEL, because there is a trend of distrust of Cubans throughout Europe, because they think that they receive information only through one channel.

Upon hearing these somewhat anti-Soviet remarks on the part of the correspondent, Ruiz interrupts her and says they have to be on the side of the Soviets for two reasons: first from the military and economic point of view, and also because right or wrong they are on the same side of the fence and must fight against those on the other side. Cuba has had, and still has, great discrepancies with Russia, China, and the United States. In the face of all these discrepancies we are on the side of communism because we are against capitalism.

Ruiz says that in order to find out if you are a communist you must ask yourself if you agree with distribution of wealth and land, equitable distribution of production, respect for man, nationalization of industry. This is what counts.

At the end this girl says that the only truth is that unfortunately we Cubans cannot live in peace in any socialist country. Men like FIDEL and CHE, in a country of seven million people, going against the whole world all by themselves. You should see the treatment Fidel gets from the intellectual magazines in the USSR, Czechoslovakia, and Poland.

Ruiz calls WILDA and tells her that this woman comrade is going to interview Mrs. TAMAMES or TAMAYO (ph) and asks Wilda what her personal opinion is about [the lady]. She says she has only seen her three or four times, and [asks] in what sense he means. Ruiz says that this woman comrade is from the

Mexican magazine, Siempre. NILES tells him that this lady is very superficial and fickle. She is from Havana. The correspondent wants to know what opinion [they have] of her husband. They say he is "un poco mosca" [somewhat of a fly].

Then this correspondent wants to know the address of either a Mexican or the Mexican consulate. Ruiz says that if it is to exchange her Madrid-Mexico ticket for a Madrid-Cuba one, go by Puencarral 45, and ANCOBO, a Spaniard, or PACHECO, a Cuban, will make the change for her. It seems she wants to leave on Monday. She wants them to take care of her Mexican visa because she says that if she goes it will not be timely, after what happened with Humberto CARRILLO. She says that OLIVARES is now in charge. She is going to Cuba now and will go to Mexico in 15 days.

NILES comes in and gives her the home telephone number of the lady she is going to interview: 226-86-96.

They told Ruiz that she was waiting for him, and he went to see her. RUIZ was expecting her. He gave to her a copy of a newspaper, El Siglo, the Mexican magazine, and Ruiz also arranged an interview for her with Mrs. TAMBO or TAMBORES(?). This girl asks if he told her that she was going to Cuba. He replied Ruiz, all she did was to send her "background". He asks her if she is carrying her magazine credentials. She always does, she says.

Ruiz tells her what she must talk about at the interview, about politics in Spain and its relations with the United States. She must have her questions prepared beforehand, and even the possible replies. She must feel rather carefully as if they were unimportant, but with a socialist sense.

Ruiz explains to this girl that what is of interest in Spain, the superstructure, the railroads, the banks, the national organizations, but not the fundamental things, yet well tied up, all the way to the bone. He says that people here are reactionaries, but later you can ask, "What do you think about a socialist regime in Spain?" The thing is to stop people in the street, one at a time.

You must take into account that Franco is considered one of the most brilliant politicians of all times. He is sagacious, intelligent. If communism had triumphed here it would have been the first communist country in the world, and yet neither communism nor socialism has anything to do here while Franco is in.

The girl came from Czechoslovakia, and she talks about that country and of Poland, where she has not been, but they have told her a lot about it. She depicts life in Czechoslovakia as extremely sad. She had been there in 1963. She comments that what they did last year in Czechoslovakia was to set the country back tremendously, because this was the first time that people had taken an interest in national affairs. Society was so rotten that people rebelled, but the invasion caused such a great shock that people sunk into a state of apathy from which they are not coming out. They are heading for a crisis that not even the Soviets will be able to stand. People have no interest in their work. Machinery is far behind. The scale of wages is disastrous. The only people that make money are the physicians and the nurses, who charge for a visit the equivalent of a worker's monthly salary. Besides there is tremendous corruption. And so the wage scale, the old machinery, and the corruption make life unbearable. It must be taken into account that they crushed 200,000 persons and that 35,000 Party members are in jail under suspicion. Before, people stood in line to join the Party; now they tear up their Party cards in the street. Disillusionment is enormous. Marxism as con-

ceived by Lenin or Marx is no longer applicable; it must be brought up to date and placed in the current scale of technological evolution and world production. No one in Czechoslovakia wants to go to the USSR. Everybody, especially the students, wants to leave for Austria or Germany. The black market is up to date. The definition is very sad.

Fidel's latest speech, published by Francis Latina, was distributed through the Embassy, but they got hold of the copies and destroyed them. They say that leftist publications praise whatever they want or whatever interests them, and Fidel's speech was of no interest to them, since they did not analyze it thoroughly.

She says that there is a latent revolutionary sentiment throughout Europe. At the Sorbonne there are some powerful centers where they compare the performance of the Chinese and Asiatic outbreaks more than they do the Soviet ones.

This correspondent says that when she gets to Cuba she is going to visit FIDEL, because there is a trend of distrust of Cubans throughout Europe, because they think that they receive information only through one channel.

Upon hearing these somewhat anti-Soviet remarks on the part of the correspondent, Ruiz interjects him and says they have to be on the side of the Soviets for two reasons: first from the military and economic point of view, and also because right or wrong they are on the same side of the fence and must fight against those on the other side. Cuba has had, and still has, great discrepancies with Russia, China, and the United States. In the face of all these discrepancies we are on the side of communism because we are against capitalism.

Ruiz says that in order to find out if you are a communist you must ask yourself if you agree with distribution of wealth and land, equitable distribution of production, respect for man, nationalization of industry. This is what counts.

At the end this girl says that the only truth is that unfortunately we Cubans cannot live in peace in any socialist country. Men like FIDEL and CHE, in a country of seven million people, going against the whole world all by themselves. You should see the treatment Fidel gets from the intellectual magazines in the USSR, Czechoslovakia, and Poland.

Ruiz calls NILDA and tells her that this woman comrade is going to interview Mrs. TAMARSS or TAMENO (PH) and asks Nilda what her personal opinion is about [the lady]. She says she has only seen her three or four times, and [asks] in what sense he means. Ruiz says that this woman comrade is from the

Mexican newspaper, Siempre. NILLA tells him that this lady is very important and reliable. She is Olga Havana. The correspondent wants to know what opinion [they have] of her husband. They say he is "un poco loco" [somewhat of a fly].

Then this correspondent wants to know the address of either a Mexican or the Mexican consulate. Ruiz says that if it is to exchange her Madrid-Mexico ticket for a Madrid-Cuba one, go by Fubacarral 45, and ANTONIO, a Spaniard, or PACHECO, a Cuban, will make the change for her. It seems she wants to leave on Monday. She wants them to take care of her Mexican visa because she says that if she goes, it will not be timely, after what happened with Humberto CARRILLO. She says that OLIVARES is now in charge. She is going to Cuba now and will go to Mexico in 15 days.

NILLA comes in and gives her the home telephone number of the lady she is going to interview: 226-86-96.

ACTION : See paragraph 5, below

1. Headquarters maintains its high interest in AMAUTO-1 as a long-range, in-place recruitment target. Much of this interest is kept alive by the excellent operational reporting done by Station [redacted] over the past year, of which references C and D hereto are good examples.

2. Subject's position and total personality recommend him to us as a high-potential target. He is strongly intellectual and emotionally committed to an ideal. At the same time, he exhibits certain vulnerabilities which could be exploited. We believe, however, that AMAUTO-1 could be approached only in a classic sense: a rationally developed, long-range recruitment culminating in what would be essentially an intellectual and even ideological pitch. This course of action would take time and assets, but we think he would be eminently worth it.

3. First, his access not only is good now but seems destined to improve. Secondly, if he were our agent, he has the wit and the acuity to know what we want and submit information accurately based on requirements. Lastly, he is a strong personality who could be counted on to move flexibly but effectively within the target milieu.

DISPATCH

4. As a recruitment target, however, AMAUTO-1 seems to present serious difficulties. He is strong-minded, opinionated, idealistic, and apparently committed to the revolution. On the other hand, there are certain things about him which could be converted into recruitment vulnerabilities. First among these is his apparent belief that the regime (read: the Revolution) is not making the best use of his talents. One cannot tell precisely whether this is the cause or result of his apparent basic emotional instability. During public appearances he displays polished manners and a pro-regime attitude; in private he frequently complains to his subordinates that he did not ask for a diplomatic position, that he would prefer an industrial job, and that he believes his position to be more a handicap than a promotion. Secondly, he obviously desires personal prestige and luxurious living. While these traits do not mean so much in the case of a Cuban as compared to a Soviet or Chinese, hardships and economic mismanagement [redacted] do in fact create a contrast with his basic impulses. Thirdly, his spinal ailment has been diagnosed as incurable. While this may be true, he should realize that further examination by other medical men (while on a training mission in WOLADY, perhaps) could help him considerably. There may even be other vulnerabilities which further target study could expose.

5. We present these thoughts at the same time that we are fully aware of other operational pressures on [redacted] time and assets. Nevertheless, we would appreciate the Station's comments on further development of AMAUTO-1 as an in-place recruitment target. The first need would be the proper access agent, someone with a Jesuit-like intellectual training who can deal with him in the realm of concepts and philosophy as required. In any case, we would like continued target reporting on AMAUTO-1, as your time permits.

<p>1. On 23 September 1969 AMAUTO-1 called an unidentified woman who resided [redacted] for many years before re- turning [redacted]. AMAUTO-1 noted that he visited the [redacted] woman's cousin, identified as Esther CORRIPIO, while he vacationed in PBRUMEN and found everyone in good health. The unidentified [redacted] woman asked AMAUTO-1 if there was much food available and the following dialogue began:</p> <p>AMAUTO-1: Yes, everything is being resolved. But imagine to be free, one must pay a high price and the price must be paid. There is no other way.</p> <p>WOMAN: What one wants, one must pay.</p> <p>AMAUTO-1: It is very logical, but look, when one is a servant to the rich, the servant usually lives relatively well, but the servant continues as a servant. However, when one no longer wants to be a servant to the rich, one has to begin saving and the only way there is for the poor to save is to reduce (the intake) of essential foods, change the essential and begin to buy machines and to buy a series of things (cuestionones) and one day, we will become rich together. We can say we are rich when we have resolved all the problems, not only material problems, but spiritual, cultural, that is, when everyone can do and believe as he likes.</p> <p>Distribution: 2 - C/WHD 2 - C/EUR 2 - COS, WH/Miami</p> <p style="text-align: right;">....continued</p> <p style="text-align: center;">CS COPY</p>

WOMAN: Oh! I don't do anything but talk of [redacted] and I adore the country. I have a brother there who is a nurse and he says he is fine.

AMAUTO-1: [redacted] gets into your blood. When I saw Esther she was a little thin, but was in good health.

2. We think the above is another good example of AMAUTO-1's passion for the good life. While he appears patriotic and openly supports the régime, we continue to believe that he would prefer a return to the relative freedoms enjoyed by his countrymen before the start of the revolution.
