MEMORANDUM FOR: Secretary, CS/CS Agent Panel

SUBJECT: Recommendation for Promotion to Grade GS-13

~~XXXXXXXXXX~~
[REDACTED]

1. ~~XXXXXXXXXX~~ entered on duty with CIA in 1951. After brief service in [REDACTED] he performed a variety of functions with different staffs and divisions, thus acquiring broad experience. Since June 1960 he has been on assignment in Mexico City.
2. In Mexico, ~~XXXXXXXXXX~~ is still the manager of a large technical installation with over thirty employees. The production of the operation is tremendous and it is generally conceded to be the most successful thing of its kind. He manages its international staff smoothly, and all problems that arise are solved on the local scene. Security has been maintained faultlessly. ~~XXXXXXXXXX~~ is a bluff, hearty, confident man without a worrisome fibre in his make-up. He will undertake anything. He has been in grade for five and a half year.
3. It is recommended that ~~XXXXXXXXXX~~ be promoted to grade GS-13.

MEMORANDUM FOR: Chief, Western Hemisphere Division
SUBJECT: Notification of Approval of Quality Step Increase - [REDACTED]

1. I am pleased to send to you the attached official notification of the approval of the Quality Step Increase which you recommended for this employee.

2. The salary increase accomplished by the award of a Quality Step Increase is important and tangible evidence of the esteem in which the employee so recognized is held. However, I believe the commendatory and incentive benefits of this award will be partially lost unless it is presented in an appropriate ceremony which will afford the individual recognition among co-workers and supervisory officials. Also, I believe such recognition serves to inspire other employees to aspire to earning such recognition.

3. Acknowledging that cover problems may severely limit the manner in which this notice is presented to the employee concerned, may I ask that you arrange to have it presented with such ceremony as is appropriate to his status and assignment.

ACTION: See Below

1. Attached are copies of an Annual Fitness Report on [redacted], who is outside case officer and technician for Project LITVEX.

2. Chief of Station again strongly urges that this officer be promoted to GS-13 immediately. It is not just, in the opinion of Chief of Station, Mexico City, to penalize an officer who is given an assignment as a "specialist" (in this case a "technician") and not promote him as would be the case of a regular case officer.

3. Chief of Station, Mexico City, has repeatedly recommended and urged the promotion of [redacted] see his Annual Fitness Report and letter of transmittal of 16 January 1964 (22071-4299). This request for promotion is repeated.

SECTION B			PERFORMANCE EVALUATION		
<p>U-Unsatisfactory Performance is unacceptable. A rating in this category requires immediate and positive remedial action. The nature of the action could range from counseling, to further training, to placing on probation, to reassignment or to separation. Describe action taken or proposed in Section C.</p> <p>M-Marginal Performance is deficient in some aspects. The reasons for assigning this rating should be stated in Section C and remedial actions taken or recommended should be described.</p> <p>P-Proficient Performance is satisfactory. Desired results are being produced in the manner expected.</p> <p>S-Strong Performance is characterized by exceptional proficiency.</p> <p>O-Outstanding Performance is so exceptional in relation to requirements of the work and in comparison to the performance of others doing similar work as to warrant special recognition.</p>					
SPECIFIC DUTIES					
List up to six of the most important specific duties performed during the rating period. Insert rating letter which best describes the manner in which employee performs EACH specific duty. Consider ONLY effectiveness in performance of that duty. All employees with supervisory responsibilities MUST be rated on their ability to supervise (indicate number of employees supervised).					
SPECIFIC DUTY NO. 1					RATING LETTER
Maintenance and repair of all equipment used in the joint JKLANCE/GOM telephone tap operation.					S
SPECIFIC DUTY NO. 2					RATING LETTER
Responsible for the efficient and secure delivery of materials on a daily basis as well as administration of project monies totalling over \$1,000.00 per month.					S

SPECIFIC DUTY NO. 4					RATING LETTER
Maintaining good personal relationships with the GOM personnel involved in this operation so as to enhance the overall effectiveness of the operation.					S
SPECIFIC DUTY NO. 5					RATING LETTER
SPECIFIC DUTY NO. 6					RATING LETTER
OVERALL PERFORMANCE IN CURRENT POSITION					RATING LETTER
Take into account everything about the employee which influences his effectiveness in his current position such as performance of specific duties, productivity, conduct on job, cooperativeness, pertinent personal traits or habits, and particular limitations or talents. Based on your knowledge of employee's overall performance during the rating period, place the letter in the rating box corresponding to the statement which most accurately reflects his level of performance.					S

SECTION C NARRATIVE COMMENTS

Indicate significant strengths or weaknesses demonstrated in current position keeping in proper perspective their relationship to overall performance. State suggestions made for improvement of work performance. Give recommendations for training. Comment on foreign language competence, if required for current position. Amplify or explain ratings given in Section B to provide basis for determining future personnel action. Monitor of performance of managerial or supervisory duties and cost consciousness in the use of personnel, space, equipment and funds, must be reported on, if applicable. If extra space is needed to complete Section C, attach a separate sheet of paper.

The ratings given in this report are not meant to indicate a change in Subject's overall fitness and effectiveness in this operation, but rather, a reflection of the reporting officer's interpretation of the letter grades themselves. Subject continues to do an impressive job in a task that to almost would be far from personally rewarding and often very frustrating.

The equipment which he maintains is for the most part at least ten years old and requires constant maintenance and the use of improvised parts. Subject has used his ingenuity and sense of responsibility to improvise and keep the operation going. There has yet to be, to our knowledge, a moment when operations have been suspended due to his inability to keep the equipment going. This in itself is an act worthy of recognition.

Subject has never missed a meeting nor has he ever complained about special meetings or special assignments due to operational necessity. He is often the first to call the attention of the Station to matters of operational interest which occur outside the normal working day.

Subject has always been aware of the Stations equities in this operation which transcend the operational and technical aspects. He has always demonstrated this awareness in his dealings with his local counterparts. They have personal respect for Subject and count him as one of themselves in all respects.

He has frequently been made privy to matters which would not normally be revealed to the Station or come to the Station's attention in the routine way. This is due to his closeness to the indigenous personnel connected with the operation and their acceptance of his "in" with the powers that be.

Overall, Subject contributes in a very strong way to the operation. Without him the operation and the resulting relationships may well have been lost some years ago. It is hoped that his personal desires will lead him to remain with the project for some years to come.

Reviewing Comments:

I agree to all of the above. Those who are unaware of it should know that subject spent many years, until last January, having to work with an unpleasant, venal, untruthful, and lazy supervisor of the operation. (The new president fired him.) Subject went through those years of unpleasantness without ever losing sight of the agency's needs. Now, circumstances are more pleasant but subject is as keen as ever to be sure that the work is done in a way responsive to our requirements. He has done fine work over the years and he maintains the same high standards for his own performance and this influence carries over to his Mexican opposite number. I am convinced as ever that he deserves a promotion as he has in the past. He has been six-and-a-half years in grade since 23 May 1965, to be exact. We are putting such a recommendation forward. (Please note that he is being given an overall S. In past years he was given "O's". The change is not in his performance, which is as fine as ever. We simply are not throwing O's around.)

However, it is also stated at this time, after having reviewed Subject's last two fitness reports, that Subject's former rating officer who departed PCS in July 1972 would probably concur in the ratings for the entire time span of this report.

Subject has been running the same delicate operation for the past twelve years and his performance then and now continues at the strong to outstanding level. Subject is constantly on the alert to protect our equities in this operation and this alertness is clearly demonstrated in the way he handles his relations with his Mexican counterparts. Subject's ability to maintain the outdated and overused equipment in this operation is outstanding. The comments and ratings above are an accurate description of Subject's performance. I have been in a position to review his activities over the past three years and I have found his work to be consistently high. Of particular note I find his concentration on details in reporting and accounting, his availability for emergencies, cooperation and ability in his technical specialty to be commendable. Subject has been in grade since May 1965 and is deserving of a promotion. We will continue to make such recommendations.

Subject has a promptness and security consciousness about the entire operation and making clandestine meetings with his inside case officer that manifests a high degree of professionalism in his character. His dedication to getting the job done rapidly, efficiently and securely is yet another example of his professionalism. He works long and often extra hours without hesitation and is always available when called upon to perform special tasks.

Subject handles the black bagging of funds and the administrative functions of this operation in an excellent manner. His accountings are well prepared, detailed and always submitted on time. The accountings always reflect Subject's cost consciousness.

In summation, Subject executes all six of the specific duties listed under Section B of this report in a very strong professional manner. Subject is a definite asset to the success that this operation has enjoyed over the years and his absence from the scene for any prolonged time would have adversely affected the operation.

<p>It would be natural to expect that the rating officer after an additional year of working on a daily basis with Subject, would cease to be so completely impressed with the performance of this individual; in the normal course of events we all tend to slip here and there and on occasion do less than our best. However, reflecting back over these past thirteen months I can honestly state that Subject has continued to do an exceptional job of near perfection. He has not missed or been late for a meeting; he in each instance brought to us the materials we have needed; the basehouse has continued to run like clockwork; he has, in sum, met each and every requirement expected of him.</p>			
<p>In his day-to-day performance Subject continues to save us a great deal of money not only by being economical in the way he purchases and uses supplies but additionally by keeping equipment in operation which is not used any longer in any JKLANCE operations. (Visiting technicians are always amazed to find the equipment both in use and functioning substantially as it was on the day it was installed).</p>			
<p>In a less tangible way we are in debt to Subject for the invaluable contribution which we believe he made in maintaining our equities</p> <p style="text-align: right;">-continued</p>

<p>At first glance I find the ratings in Section B high and wonder how he would compare with other technicians doing the same work even though he is performing in a very professional manner. From the technical standpoint he has kept the operation alive through perseverance, hard work and a high degree of technical proficiency. His ability to get along with his Mexican contacts and the degree of respect they have for him is very commendable. Not having the opportunity to compare him with other technicians, doing the same job under identical circumstances, it is difficult to find a fair rating.</p> <p style="text-align: right;">-continued</p>

in this basic and important activity through the recent change of government. There is little doubt in our minds that the new principals of the [] appreciated in a very genuine way the professional standards which Subject alone was responsible for in this operation (their own representatives had been less than effective) and opted without hesitation to continue with us in the operation and to retain Subject in his position as the individual technically responsible.

Therefore, we look forward to having the services of Subject indefinitely and so long as it is in his own interest to remain here; we know it has been, is now and will continue to be in the best interest of JKLANCE.

COMMENTS OF REVIEWING OFFICIAL

The Station needs him, cannot do without him and cannot find any fault in his performance. Perhaps from his limited technical standpoint he is outstanding.

During this reporting period the Station recommended (HMMT-9895 of 4 September 1969) that Staff Agent [redacted] be granted a Quality Step Increase in recognition of the outstanding performance of this individual in the LIENVOY operation. The QSI was recently approved.

As noted in our dispatch, and in previous Fitness Reports, the original equipment installed in 1959 is still in excellent condition after 10 years and more than 50,000 hours of use for each machine. This is due, exclusively, to the conscientious and skilled maintenance of this equipment by [redacted] and has resulted in a substantial saving of funds for RVROCK.

[redacted] is exceptionally responsive to Station requirements (his accountings are flawless; his work day begins before dawn to permit early pick-up of materials; his maturity and flexibility have permitted him to work a decade with liaison types who are not "finest") and we are looking forward to his remaining here indefinitely. Practically speaking, he is irreplaceable. This, we feel, is a uniquely productive and successful "deep cover" case.

COMMENTS OF REVIEWING OFFICIAL

While [redacted] performance in his rather unique capacity has indeed been exceptional, it should be clearly noted that these ratings reflect, more than anything else, a measure of his performance in that unique (but highly circumscribed) capacity, a performance which would be hard to match. They should not be interpreted however as a relative grading of [redacted] as compared with other more "broad guage" personnel at the same grade level. It is for that reason that the Station did not recommend [redacted] for promotion, but rather for a quality step increase which was approved.

Subject Staff Agent continues to be the outside Case Officer for the LIENVOY Project, a position he has held for the last 9 1/2 years. This assignment requires that Subject work full-time in relatively close quarters with Mexican assets. He has adapted well to such a working arrangement and has developed a smooth and efficient working relationship with the assets involved in the day-to-day LIENVOY activities.

He and his family also have adapted well to living conditions demanded by his non-official cover and have caused no security or administrative problems for the Station during the tenure of the present supervisor.

As the primary technician for repair and maintenance of the LIENVOY equipment, this officer has been outstanding. The equipment has operated more than 50,000 hours since its installation and remains in good working condition. His ability to instruct the Mexican personnel in equipment use and operation is attested by the hours-run and present condition.

This officer's tasks require that he be on the job by 0700 hours each morning in order to arrange, log and deliver the product to a

Subject also is responsible for paying the salaries of the assets and accounting for operational expenses and local procurement. As mentioned in previous Fitness Reports, he is very cost-conscious and diligent in carrying out his administrative responsibilities.

This Fitness Report should be considered in conjunction with the last Annual Report which was forwarded in January 1969 and which is still valid as far as ratings and narrative comment are concerned.

COMMENTS OF REVIEWING OFFICIAL

This officer has performed excellently in the running of the LIENVOY plant and in this regard I concur with the above. It is my impression, however, that Arehart could improve effectiveness of the unit by better acquainting himself with station objectives and relating this to day to day ops. I have discussed this with him and COS.

This officer has been the outside case officer for the LIENVOY Project for the past eight years. He was promoted to GS-13 on 23 May 1965. His outstanding contribution to this project is the maintenance of the equipment. He also protects WOFIRM's interest inside the LP and provides the Station with all copies of the take on a daily basis.

Supervision duties of this officer are limited to handling the machinery, advice on handling records, and dispensing funds. He pays the salaries of eleven local agents, purchases spare parts, office supplies and pays other expenses such as utilities and rent. Most of these are fixed amounts but subject is prudent in the use of funds for operational purposes.

Subject has developed a working knowledge of the language sufficient for routine communication with the local agents. He has also adjusted well to the life of a Staff Agent.

The only weakness in this officer's assignment is a lack of real cover and administrative handling. He is dependent on the Station for all funds, including salary and allowances as well as an operational revolving fund. During subject's assignment of eight years there has been no security problem as far as his lack of cover is concerned and no funds have been lost. This officer is a very conscientious worker who puts in long hours (beginning before seven a.m.) in the fulfillment of his various tasks. His performance makes a major contribution to the effectiveness of this project.

his requests. His ability to supervise the proper handling of the equipment is again verified by the number of hours each piece of machinery has operated. Subject officer has a working knowledge of the Spanish language which enables him to conduct pertinent conversations with the local agents.

The officer is responsible for paying the salaries of the agents, local procurement and other operational expenses. He has proven to be notably cost-conscious in carrying out this responsibility. His monthly accountings are accurate and submitted in regulation form.

Subject officer's overall performance makes a major contribution to the effectiveness of this complex and valuable technical project.

This Staff Agent was promoted to his present grade on 23 May 1965.

This Staff Agent is the outside case officer for the LIENVOY Project and has had this position for the past nine years. As such, he has shown the ability to fit into the unofficial life required and to work full-time in relatively close quarters with indigenous personnel.

Subject officer has shown an outstanding ability to diagnose equipment problems and to resolve same in an expeditious and thorough manner. This is evident by the fact that the equipment has operated almost 50,000 hours without a major breakdown which would cause a closure in the coverage.

As the outside case officer, he protects WOFIRM's interest in the basehouse and also logs and delivers the product to the in-Station case officer on a daily basis. Because of the perishable nature of the product, he must report for duty before 0700 hours each work morning in order to log and deliver the production to the Station contact.

This Staff Agent is the outside case officer for the LIENVOY listening post. He was promoted to GS-13 on 23 May 1965 and he continues to perform his work with exceptional proficiency.

For the past six years, this officer has worked continuously with this project under unofficial cover with only indigenous personnel. He has acquired legal working papers in cover arranged by the Station. He has improved his knowledge of the Spanish language to the point that he can communicate with the agent personnel and understand most conversations.

This officer arrives at the LP at seven o'clock each day except Saturday and Sunday and remains there throughout the day except for meetings with his inside case officer. In addition to other management duties, he dispenses funds for payment of the indigenous agents and expenses for operating the equipment and base. He exercises cost consciousness by shopping around for spare parts, persuading firms to give discounts, and by ordering from PBPRIME. The equipment is kept in excellent condition.

There has been no major breakdown in the equipment despite the fact that it has been in continuous use for over seven years. Working relationships inside the LP have been smooth without personality clashes or security problems. Both of these attest to the excellent performance of this officer in the duties assigned to him. During 1965, this project produced 8,541 reels of raw take and 19,960 pages of transcripts which accounted for 27% of the Station's positive intelligence production plus

SECTION D an inestimable amount of CE/CI operational intelligence officers stationed in Mexico.

3. COMMENTS OF REVIEWING OFFICIAL BY REVIEWING OFFICIAL Subject provides a distinct service to the Station, particularly in that his arduous but very repetitive duties confined to a very limited group of indigenous personnel operating in extreme security restrictions, requires personal characteristics not easy to find. I probably would have made the individual ratings in Section B a bit lower but at the same time recognize that this Staff Agent would be extremely difficult to replace by anyone as competent in the maintenance of the equipment. I believe Subject would be even more valuable if he could apply more imagination and initiative in relating the Project take to operational potential.

SECTION E NARRATIVE DESCRIPTION OF MANNER OF JOB PERFORMANCE

Stress strengths and weaknesses demonstrated in current position. Indicate suggestions made to employee for improvement of his work. Give recommendations for his training. Describe, if appropriate, his potential for development and for assuming greater responsibilities. Analyze or explain, if appropriate, ratings given in SECTIONS B, C, and D to provide the best basis for determining future personnel actions.

This officer has adapted himself to the role of staff agent in a most commendable manner.

His primary duties are the protection of KUBARK interests in the maintenance of technical equipment in a base which monitors over thirty telephone lines on a twenty-four hour schedule and the supervision of ten Mexican monitors who also work in this installation. This officer has performed these duties in a quiet, efficient and creditable manner, thus reducing the amount of time formerly spent by Station Case Officers in going to the base and trying to supervise the work there. At present no persons in the Station visit the base during work hours and only the COS is known to the two ranking Mexican agents.

Policy decisions are of course made by the COS and LIEBIGAU but this officer is the responsible Case Officer for the LIENVOY project. The remarkable manner in which he has performed his duties during the past year is reflected in the smoothness with which the project now runs.

Based on the marked improvement since the last efficiency report, the COS recommends that this Officer be returned to Mexico after home leave in mid-1962. It is also recommended that this officer be considered for promotion to GS-13.

Describe, if appropriate, his potential for development and for assuming greater responsibilities. Amplify or explain, if appropriate, ratings given in SECTIONS B, C, and D to provide the best basis for determining future personnel actions.

This officer is an extremely willing and hard worker. From the technical standpoint his performance is satisfactory in every sense. He devotes long hours to keeping the equipment in perfect working order and is always willing and ready to accept any extra assignment given him regardless of his personal and family commitments. His principal weakness is his almost total inability to write clear, concise reports. Because he lacks aggressiveness and due to his limited knowledge of the Spanish language he has been unable to provide first rate case officer control over the LP under his command. This is at least partially due to the fact that the indigenous personnel resent to some extent being under the control of a PBPRIMER and prefer to take instructions from the indigenous case officer (LIENVOY/2). This is not because of the KUBARK Case Officer's personality but because of pride of nationality. As a matter of fact, this officer has a very pleasant personality and gets along well with his co-workers. With respect to this officer's potential and future development the rating officer recommends that at the conclusion of his present tour in June of 1962 that he be reassigned to Headquarters for extensive training. This training period should include basic english, reports writing and trade craft. If he is to continue as a technical case officer he should also have further technical training depending upon his future assignments.
