a/ The Multi-Lateral Force (MLF) is still under discussion with our NATO Allies. Assignment of nuclear weapons of the U.K., France, or a "Multi-Lateral Force," to NATO in accordance with the terms of the Nassau Pact, may lead to adjustments in the U.S. force structure.

b/ Numbers of aircraft are derived by multiplying authorized squadron unit equipment by the numbers of squadrons. They do not include command support aircraft.

c/ ICBM numbers represent In-Commission missile launchers; i.e., operational missile launchers which have been checked out and mount a missile. Numbers of POLARIS missiles represent the total number of missiles in operational submarines.

d/ Excludes National Emergency Airborne Command Post and Post Attack Command and Control System aircraft.

e/ Bombers have flexibility in the choice of gravity and yields. For purposes of this table, average planned loadings of 1.5 weapons and MT for the B-47, 3.3 weapons and MT for the B-52's, and 3 weapons and MT for the B-58's are assumed. Beginning in FY 1962, 50% of the B-52's, 5% of POLARIS, and 8% of the ICBM's on operational launchers are assumed to be on alert or on-station. An additional 12% of the POLARIS force would be in-transit to patrol areas.
