ARTICLE PUBLISHED IN "NEUES EUROPA"

With regard to the publication "Neues Europa" (New Europe) which published in its November 1, 1963, edition an article entitled "Coexistence with Deadly Results? - Assassination Plans Against Khrushchev and Kennedy", sources, as indicated below, furnished the following information:

Mr. Erich Feiler, Chief of Research for the U.S. Information Service (USIS) at the American Embassy in Bonn, Germany, advised that his records listing publications in West Germany, show that the publication "Neues Europa" is a twice-monthly publication which claims a circulation of 4500. It is published by the publishing firm August Kraemer, GmbH, of Stuttgart, Germany. Its editor in chief is listed in the publication as L. Emrich. From Mr. Feiler's observation of the publication he has concluded that it deals primarily with matters pertaining to astrology. Although he has not noted the publication frequently or read it in detail he has observed that the majority of the articles on its front page deal with astrological matters including the prediction of future events.

A confidential source abroad advised that it had no information which came to its attention during the course of its normal functions with regard to the "Neues Europa." A few copies of the publication were available to source and source stated that the publication carried the sub title of "Organ of the High Government of World Republic on Earth." It indicates that it was published by the firm of August Kraemer, GmbH, in Stuttgart, German Federal Republic. Source said that the contents of the newspaper indicate that it is primarily devoted to astrology. Source expressed the opinion that little reliance could be placed on the factual accuracy of material appearing in the paper.

The Legal Attache, American Embassy in Bonn, Germany, examined the March 1, 1964 edition of "Neues Europa." That edition carried a two column article on page three with an explanatory editor's note stating that the column set forth excerpts from predictions which had been published in the paper during 1963 and which had been fulfilled. Among the excerpts quoted was the following:
