Re your airtel 10-26-62.

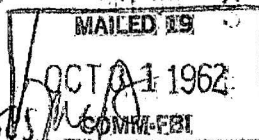

Bureau authority is granted to conduct a survey and, if feasible, to install a misur at the Tri-City Textile Company, Old Forge, Pennsylvania, and to secure the necessary leased line in connection with this installation.

This matter should be closely followed to insure that the source is developed with the least possible delay consistent with security. Submit FD 143 within 30 days after installation.

NOTE: Philadelphia was previously authorized to install this misur, however, their request was resubmitted in view of the increased estimate in cost of the leased line from \$1 to \$3 per mile each month. Philadelphia now advises that the leased line cost will be approximately \$350 to \$400 a month. This method of monitoring the source at (the Philadelphia technical plant will be considerably less expensive since the operation of a separate plant would require transferring an employee to the resident agency plus the expense of leasing separate space. This source will be monitored at the technical plant in conjunction with other misurs, thus reducing the salary expense to a fraction of one employee. Bufalino is one of the 40 target subjects and a principal racket figure in the Eastern Pennsylvania area. He is closely associated with leading hoodlums in the garment industry in New York City. Bufalino utilizes the Tri-City Textile Company as a meeting place. We have no other misur coverage on this individual.
