CRIMINAL INTELLIGENCE PROGRAM
MISUR COVERAGE

Since there is a strong possibility that misur technique involving use of 42A and 44A mates has been compromised, MM 377-c* and MM 852-C* should be removed at the earliest propitious time, consistent with full security. The procedures utilized to accomplish this must, of course, depend on the existing facts present at the particular time. This will confirm earlier telephonic conversation today.

NOTE: SAC Grapp called earlier today and was advised as set forth above.
