Re your FD-142 dated 11-16-62.

Bureau authority is granted for the installation of a misur at the office of Bino Vincent Cellini at the Caribbean Linen Service, 1085 N. W. 62nd Street, Miami, Florida, for a period of ninety days commencing the time of activation providing maximum security is assured.

The Bureau should be immediately advised at the time this source is activated and the symbol number should be furnished as well. In the event authority is desired for continuance beyond the authorized period, submit appropriate recommendation by FD-143 to reach the Bureau at least five days prior to expiration of this period. Make certain, however, that the productivity of this source is evaluated during the authorized period in order to fully justify its operation over the ninety-day period. In the event it is not productive, it should be discontinued and the Bureau advised in order to insure an economical and efficient operation of these sources.

A weekly airtel summary of pertinent information received from this source should be submitted to the Bureau. In the event information of an immediate interest or significance is received, it should be immediately forwarded to the Bureau by appropriate separate communication. All leads arising from this source should be afforded immediate attention and appropriate inquiry promptly made to fully round out the picture where this is appropriate. Information developed directly relating to Bino Cellini and his operations should be submitted in proper form under the caption of the case involving Cellini.

NOTE: Cellini was employed in gambling casinos in Havana, Cuba, and was associated with Trafficante and Meyer Lansky. Cellini is attempting to re-establish gambling operations in the United States, the Caribbean area and South America. He is in contact with Trafficante and this source should develop information concerning efforts of Trafficante to re-enter gambling operations on a large scale. Trafficante is designated for intensive investigation.

Letter to Miami
RE: SANTO TRAFFICANTE

NOTE CONTINUED:

He is reportedly the Florida member of the "commission," attended the Apalachin meeting and visited notorious hoodlum Albert Anastasia shortly before his gangland execution. This source should be a valuable assistance in developing information on the activities of Trafficante and Cellini. Cellini is the subject of an ITAR violation which Miami is office of origin. This installation will be monitored at the Miami Office and the lease lines will cost approximately \$20 per month.

15. Remarks:

Miami has completed the survey of the office of DINO CELLINI at the Caribbean Linen Service in Miami. It was found to be a small panelled room measuring approximately 8'x15'. There is acoustical tile on the ceiling and the room contains one desk and several leather upholstered chairs facing the desk. It is felt that microphone coverage there can be accomplished by means of the installation of a mite appropriately concealed in the acoustical tile. It will be necessary to install about 300 feet of lead in wire which will be adequately concealed in the open lattice work of rafters and girders in the warehouse type roof.

It is felt that this installation is feasible; that it can be accomplished with full security; and that it may provide a
