CG 92-350 Sub U

In view of these findings, the Chicago Division removed the present installation with the accompanying wires to circumvent the forthcoming alterations and to guarantee full security.

Source was then replaced at the rear of MARCY's office with wiring running through the outside street wall through the rear of the future offices and continuing into outlet previously used.

This new source was reactivated 4/15/63; however, the quality of reception is not as good as the previous source.

Re-entry for the purpose of improving reception of source under the guarantee of full security is planned for 4/22/63.
