NOTE: Installation is to be located in the Dream Bar, 2801-05  
Nebraska Avenue, Tampa, Florida. The building in which the Dream  
Bar is located is part of the estate of Santo Trafficante, Sr.  
(deceased). Subject's younger brother, Fano, manages the bar and  
it is believed subject's son-in-law is going to take over its  
operation. Tampa hoodlums, including the Trafficante group,  
regularly frequent the Bar and it is felt this source will provide  
valuable information on bolits and other criminal activities. It  
should also afford excellent coverage of subject's activities.  
Subject designated for "crash" investigation. Approximate cost is  
\$20 per month for leased line and to be monitored in TP Office.

11. Possibilities of obtaining desired information by other means  
(Explain in detail):

TP 41-PCI, whose identity is known to the Bureau and who is close to subject and the Tampa rackets, has advised that subject was last contacted by him on August 29, 1961, at which time subject said he was going to Miami. Therefore 41-PCI cannot ascertain subject's exact whereabouts. TP 50-PCI, whose identity is known to the Bureau and who is close to subject and a part of the bolita racket, has advised that subject went back to Miami, and subject, being more or less competitive if in bolita, would not necessarily reveal his operation to this source.

Even though the Tampa Office has two top flight potential criminal informants, additional coverage is needed to not only substantiate these sources but to keep advised as to subject's whereabouts, movements and activities.

12. Risks of detection involved:

Spot surveillances of the Dream Bar conducted in the past have established that the bar is open from approximately 10:00 a.m. to 3:30 a.m., that the bar cannot serve alcoholic beverages after 3:00 a.m. but that patrons continue to stay until approximately 3:30 a.m. FANO TRAFFICANTE and the night bartender sometimes spend up to an hour working about the bar, and when leaving turn on all lights and raise the venetian blinds. There is a very short period of secure working time in the bar before the steady flow of business traffic, as Nebraska Avenue is a main thoroughfare into Tampa proper, and a number of entries may be necessary. In addition, a fire at the bar was recently reported and verified. NICK SCAGLIONE

13. Probable length of technical surveillance: is no longer an owner, and a new owner with a recent fire may institute remodeling of the building.  
Thirty days to determine productivity.
14. Request made for technical surveillance by any outside agency (name specific official, title and agency):

No.
