PH 714-C\* has been intermittent in the past and is not now functioning at all.

In order for this source to be put back in operation, it will be necessary to examine the unit. To insure more reliable performance without excessive current drain, it is requested that it be replaced with a transistorized unit as soon as possible.

The car can be made available at any time by PH 614-C-TE with a few hours' notice.

It is requested that the Electronic Section furnish the Phila. Division with a transistorized unit.
