[RE: ANTI-CASTRO ACTIVITIES]

We have recently received information that certain Cuban exiles have decided that there should be two naval actions as soon as possible. Reportedly, the first naval action will be against the Bahamas and two lighthouses will be bombed. One lighthouse is at Faro Lobo (the Lobo lighthouse) which is north of Camaguey, Cuba and belongs to the Bahamas. The other lighthouse (unidentified) is somewhere east of South Florida in the Bahamas. (S) (u)

It has also been reportedly decided that some explosives should be used in the port of Nassau but no specific plans were discussed concerning this. (S) (u)

The naval actions will not take place until money is collected to finance the action. (S) (u)

One of the individuals attending the meeting indicated he had a friend who had a boat which could be used in connection with bombing the Bahamian lighthouses as well as a .50 caliber machine gun and a 20 millimeter cannon. Reportedly, there were rounds available for these weapons but seven magazines for the 20 millimeter cannon were needed. (S) (u)

We are closely following this matter and as additional pertinent information is received it will be immediately furnished you. (S) (u)

The U.S. Coast Guard has been alerted. (S) (u)

The source of the foregoing information is an extremely valuable and highly placed source of continuing value and any action taken as a result of the above information should be most discreet in order that the source will not be compromised. (S) (u)
