SECTION 8. MISCELLANEOUS REGULATIONS

7. Information desired from outside the field office territory
  - a. Investigative information from another field division is to be obtained by that office unless extraordinary haste requires direct communication. When the exigencies of a case, emergencies, or economy and common sense dictate, an employee, if authorized by his SAC, may enter an adjoining field division. The SAC of the entered division is to be advised immediately.
  - b. Information which should be obtained by direct communication even though the addressee is in another field division
    - (1) For disposition of arrests, use FD-10 to obtain incomplete information[(for District of Columbia, send FD-10 to the Washington Field Office instead of the police department).] Make notation on identification record or other pertinent serial in file that FD-10 has been sent. When FD-10 is returned, note pertinent information from form in file and forward FD-10 to Identification Division in lieu of a disposition sheet (R-64).
    - (2) Automobile registrations data
    - (3) Driver's license information
    - (4) Similar data
    - (5) Filing of detainers with some agency
    - (6) Status of detainers
    - (7) Government bonds - Use FD-123, concerning purchase or redemptions; specify information desired; send FD-123 in duplicate.
  - c. Investigations in foreign countries
    - (1) Agents have no jurisdiction in foreign countries. Within limitations border office Agents may, through liaison with cooperative foreign agencies in adjacent countries, arrange for investigations to be conducted. This should be done in a circumspect manner to avoid any allegation of a violation of the sovereignty of the foreign country. Where interviews are conducted in a foreign country in the presence of and/or at the request of a Bureau Agent, the Bureau Agent should insure that the person interviewed understands that the interview is being conducted by authority of the officer of the host country and not the Agent. This should not preclude the Agent, where proper, from discreetly assisting the foreign officer in extracting all information of Bureau interest during the interview. Bureau Agents have no jurisdiction in foreign countries, no power of arrest, search, or seizure and must be most circumspect. They are not to be present at the scene of an arrest by foreign authorities, participate in or be present during searches incidental to such arrests, accompany foreign officials transporting prisoners, or participate in interviews of prisoners except at their place of incarceration and in the presence of foreign authorities. The Agent should refrain from unauthorized acts even though invited to do so by the foreign cooperating officer.
    - (2) Where official business requires more than two days in a foreign country, authority must be obtained from the Bureau. The letter requesting it is sent UACB and must contain an estimate of the time to be spent.
    - (3) Deleted
    - (4) Offices covering leads in Canada  
Offices along the Canadian border through liaison with cooperative Canadian law enforcement agencies handle Canadian leads in criminal matters where time is of the essence and in criminal matters of local interest. [Leads on security matters where time is of the essence or where previously approved by the Bureau are handled with RCMP by border offices on a divisional headquarters level. While the RCMP is exclusively charged with investigation of security matters in Canada, not all personnel are indoctrinated in the handling of these matters and personnel at detachment levels may not be in a position to render adequate assistance.

8. Title 18, USC, § 474, prohibits the photographing of any national bank currency, Federal Reserve notes, U. S. or foreign government securities or obligations, except by direction of some proper officer of the U. S. However, part 404, chapter 4, title 31, of the Code of Federal Regulations, grants authority to all banks and banking institutions to make film records of paper money, U. S. Government securities and checks, and to project such records on a screen provided the film records are maintained as confidential.
