Title: John F. Kennedy Records Collection
Act of 1992 (the Act)

Synopsis: The Act established the Assassination Records Review Board (the Board) to over see the governments' production and compliance with the Act. The Board reviews the proposed postponements in documents sent by each agency to the National Archives and Records Administration (NARA) decides what postponements the Act allows or opens the document in full. The Board's responsibilities include having agencies search other subjects and areas to find any additional material not already identified as assassination records. The establishment of the Board by the Act also limited the time for their duties to be accomplished. The Board must complete their tasks by September 1997. With this deadline in mind, the Board sent a letter requesting additional information.

Details: On November 29, 1996, the Board sent a letter to the FBI setting forth a formal compliance program with stated deadlines. The Board's goal is to assure Congress and the American public that all was done to accomplish the intentions of the Act. The letter requested the FBI to designate an "Agency Compliance Official" and prepare a "Statement of Compliance". Members of the JFK Task Force and the Board's staff met on January 15, 1997, to clarify the Board's expectations of the FBI considering the November letter.

At this meeting the Board's staff requested that the Dallas Office be searched for the "Radio Operator Logs" and "No. 1 and No. 2 Registers" (Locator Cards/Daily Report Cards) for all the SA's in the Dallas Office on the day of the assassination. The theory behind the request is the additional items may suggest where different SA's were at the time of the assassination and the arrest of Lee Harvey Oswald.

The Board's staff also requested any additional information or documents that the Dallas Office may have

concerning the "Oswald Note". The "Note" was alleged to be delivered to the Dallas Office in November 1963 and later destroyed by SA James Hosty. The Dallas Office should check all indices for any documents related to the "Note" to include the investigation about the "Note".

Dallas should conduct a search of its office for the listed items. If Dallas is aware of any administrative records they may have maintained outside the normal index systems, they should also search those areas. If any documents related to the matters are found, please forward the documents to the JFK Task Force.

Pursuant to the Act any material categorized as an assassination record must be sent to the NARA in its original form. The Act establishes the process of handling the documents and the FBI must follow the Act. If Dallas believes their office needs, a copy, they should copy the document or material before sending to the JFK Task Force.

If you have any questions, please call Joe Iazetta at (202) 324-8688.
