MM 105-3558

Copies of this memorandum have been furnished to each Office which received a copy of referenced Bureau letter and which may obtain information of pertinence in this matter from time to time. It is believed that this memorandum may assist these Offices in the evaluation of such data when received.

Information set forth in Miami letter with enclosed memorandum dated December 22, 1961, regarding statements of ELOY GUTIERREZ MENOYO have not been included in this summary memorandum in view of the fact that there has been no substantiation of his reported statements; GUTIERREZ himself said that he was misquoted and no other sources have furnished any similar data.

In connection with sources of information in Cuba among Cuban exiles here, it has been ascertained that Italian diplomatic personnel, including the Italian Ambassador to Cuba, have been assisting the underground groups in maintaining some contact with those in the United States. Panamanian and Brazilian Embassy personnel also are known to have acted as couriers for the underground. HECTOR FEBLES, mentioned in the enclosed memorandum, has advised that the new Brazilian Ambassador is not trusted by the Cubans in Cuba because of the support that the new Brazilian government has exhibited for the CASTRO regime. Therefore, Brazilian Embassy personnel are no longer being used. In addition, the Panamanian Ambassador and the Venezuelan Ambassador are of no further value since diplomatic relations between those countries and Cuba have been severed.

With one exception, the individuals contacted with regard to underground organizations in Cuba either denied knowing the identity of the leaders there or refused to furnish their names. Therefore, a section devoted to the underground leadership has not been included in this memorandum. The one exception was

IGNACIO MENDOZA of the MRP and information regarding the present MRP leader was included in the MRP section. It was further noted that sources denied being able to furnish an estimate of the strength of the groups, including those to which they, themselves, belonged or the relative strengths in the six individual provinces.

In this connection, it is noted that MM T-11, [who is in charge of an infiltration squad of 30 men operating under the direction of CIA] and who is obviously in an excellent position to furnish accurate information regarding the present status of the underground in Cuba, has advised that rebel activity in Cuba is extremely limited and that reports to the contrary are gross exaggerations. ~~(S)~~ (u)
