TICO HERRERA was one of the three individuals who were killed on the recent invasion attempt by several members of RECE in Cuba. Alpha 66 is another anti-Castro group, Bufile 105-189975. (S) (u)

Informant has cleverly pointed out that he is in contact with leading members of these important anti-Castro groups which he is, of course. The section concerning the fact that these groups have armies and equipment and are collecting considerable money is merely "anticipated" hopes of these organizations and has not actually been done. Same pertains to the fact that members of the Alpha 66 are getting training. The informant knows that these groups are constantly attempting to obtain arms and equipment and become involved in training but they are merely "talking" about such things. He hopes to give the impression of course to his Cuban principal that these groups are active as such in the hopes that his Cuban principal will in time contact him. It is believed that this letter is timely especially since the organization RECE should be high on the "list" as far as the Cuban Government is concerned. (S) (u)

As yet informant has not departed for Mexico as previously reported, but he still has intentions of going to Mexico in the early spring if possible. (S)

Bureau will be kept advised.
