<u>P. 15</u>

Who was the unidentified man at a meeting with Richard Helms on 12 March 1964 who would have known if Oswald had been a CIA informant?

Answer:

The unidentified man who accompanied Mr. Helms to the 12 March 1964 meeting was Mr. David E. Murphy, then Chief of the Soviet Russia Division, DDP. See paragraph 6 of the Tab 9 memorandum of record of this meeting for Mr. Helms' reported remark that he and Mr. Murphy were the two Clandestine Services officers who certainly would know whether or not Oswald had been an

agent for CIA in the Soviet Union.

00	
	SECRIA
	About mid 1962 (check date) LIENVOY outside Mexi rept asked
	for the telephone numbers of the Soviet, Cuban, and Satellite Embassies.
.	With this forewarning, LIFEAT However,
	as I recall, 5 Cuban lines, 5 Soviet lines, 3 Czech,
	2 Polish, and 1 Yugoslav line. The basehouse listening post had a live
	monitor who made short summaries of interesting conversations for a daily
	resume which was received each day around 8 a.m. (passed by Flick to Goodpasture
	to get to Scott before 9 a.m.) Later (when the reel was completely recorded)
	full transcripts were typed and passed to the station in the same way, however,
	there was usually a time lag of a day or so. Those transcripts which hdd
	Russian or another language besides Scanish or English went out of the listening
	post the day after the transcript (of other conversations on the reel)was
	typed. These reels were taken to another location where they were translated
	and typed. In the case of the Russian translations, Boris Tarasoff usually ran
	about a week behind the date of the conversation because of the volume of
	Russian conversations among the members of the Soviet Embassy. During this
	period (fall of 1963) the reels were probably being brought into the station
	and carried to Boris by one of the people from the Soviet Section or they may
	have been carried to him by Flick but I think I brought the reel in and gave
	it to take to Boris and
	handled all of the processing of Soviet transcripts. My job involved screening
	the photographs as soon as we learned that the man calling himself Oswald was
	probably an American. However, here again there was a backlag because the
	photos were picked up three times a week but the ones picked up were usually
	for dates a few days previously because processed the film on a
	night time basis. Photographs were made usually until one roll was used but
	later we got it changed to one day coverage on each roll - in other words the
	operators cleared the camera each day whether there was any fitness a full
	roll of film exposed. Instructions were to cover office hours, photograph each
	Dula

new Soviet and family, all foreigners and foreign licence plates. Human error did occur but generally the agents were conscientious. The Cuban embassy coverage had more sophisticated equipment (a pulse camera) but it frequently developed mechanical difficulties. Bob Zambarnardi and (I think) handled this film - pick up and delivery. Lorna MacKay screened the film inside the station.

active to me diasto

I am certain that the Oswald call came to our attention from the Soviet line. It was picked up and taken to Boris for a translation because the caller was trying to speak Russian. Any delay was caused by waiting to compare the photographs with the typed transcript. There were no copies of transcripts every made in languages other than Spanish or English because Win Scott could read only those two languages and he personally screened the transcripts for operational leads he wanted pursued.

SEGRET/SEASITIVE

Mexico Station Coverage of Soviet and Cuban Embassies (1963)

1. Unilateral Coverage:

From the time the Mexico Station was opened in _____ until the arrival of Mr. Win Scott as Chief of Station in 1955, the Station had developed a support apparatus to exploit leads from the Soviet Embassy in Mexico City. This umbrella type project (LIPSTICK) consisted of multiline phone taps, three photographic sites, a mobile surveillance team and a mail intercept operation.

Telephone taps (LIFEAT) were placed by

who was handled by a Station case officer. The number of lines tapped was limited only by the availability of a listening post nearby and the availability of langauge (English, Spanish, Soviet, Polish, Czech, etc.) transcribers. Generally, these were Mexican or Mexican-American recruited agents.

Three photographic sites were handled by a Station case officer assisted by technicians on TDY from Headquarters who advised the Station on the best types of cameras, films, and concealment devices. These operations had sub-crypts under project LIPSTICK (namely: LIMITED, LILYRIC and LICALLA). LIMITED was a fixed site directly opposite the Soviet Embassy (across the street) which had both a vehicle and a pedestrian entrance. The gate to the Soviet Embassy was on the northwest corner of the

09

SEGRET/SENSITIVE

14+00000

Soviet compound and the LIMITED site was diagonally across a double laned street on the southeast corner of that block. (See attached diagram). LIMITED was the first photo base and operated strictly on an experimental basis in the early stages. This base, however, was closed when the Station received word that the photograph of the "unidentified man" was being released by the Warren Commission. LILYRIC was an alternate photographic base. It was located in an upper story of an apartment building on the same side of the street as the LIMITED site but in the middle of the block south. It had a planted view of the front gate of the Soviet Embassy. LICALLA, the third photographic site, was located in one of a row of four houses on the south side of the Soviet Embassy compound. This site overlooked the back garden of the Soviet Embassy compound. The purpose of this operation was to get good identification photographs of Soviet personnel. The three photographic sites were managed by a recruited agent who was a Mexican citizen, the son of an American mother and Mexican father (deceased). This agent collected the film from the LIMITED and LILYRIC sites three times a week. The film was then developed and printed into 8 x 10 contact print strips. LICALLA film was originally processed in the Station but in early due to the resignation of a technician, this film like that of LIMITED and LILYRIC was processed on the outside by a recruited agent.

r a language other than Spanish or English were taken to another location for translation and typing. Mr. Boris Tarasoff did the Russian translations but because of the volume of Russian conversations, the translations usually ran about a week behind the date of the conversation.

As soon as the Station learned that an American identifying himself as Lee Oswald phoned the Soviet Embassy, Miss Ann Goodpasture of the Station started screening all photographs. However, here again, there was a backlog because the photographs were picked up three times a week but those picked up were usually for dates a few days before since the technician who was processing the film, did so on a night-time basis. Further, photographs were not made initially until a complete roll of film was used. Later this was changed and the operator cleared the camera at the end of each day regardless of amount of unused film remaining. The instructions were to cover the entire work day (office hours) and to photograph all Soviets, their families, all foreigners, and cars with foreign license plates. Human error did occur but generally the agents were conscientious. The Cuban Embassy coverage had more sophisticated equipment using a pulse camera which frequently developed mechanical difficulties.

Oswald came to the attention of the listening post operators from a tap of the Soviet line. It was picked up and taken to Mr. Boris
