SECRET RYBAT

TO : WH/3/MEX
FROM : Interrogation Research Division
SUBJECT: LIFOLE/1

8 November 1963

IRD# 63625

BACKGROUND INFORMATION

Subject of this report is a married male citizen of Mexican citizenship who was born [redacted] Coahila, Mexico. He is currently being utilized by KUBARK as a penetration of the Mexican Communist Party (PCM). Subject has not been previously LCFLUTTERed.

09.10

PURPOSE OF THE INTERROGATION

The request to LCFLUTTER Subject was initiated by the WH Division and coordinated in the Field by Luke B. MARSCHALER, Subject's case officer. LCFLUTTER was conducted to determine if Subject has disclosed his KUBARK relationship to unauthorized persons, if he has or is now working for and/or reporting to any other intelligence organization, and if he has withheld any of his PCM history from us. LCFLUTTER was conducted in Spanish on 17 October 1963 at a safesite in Torreon, Mexico.

RESULTS

Subject's response to LCFLUTTER was prompt and apparently cooperative. During pre-test discussion no information was developed which is not already contained in current operational files or which is not known to Subject's case officer. Results of LCFLUTTER examination indicate that Subject has not disclosed his relationship with KUBARK to any unauthorized persons, that he has never worked for another intelligence service, and that he is not falsifying any of the operational information which he is reporting to his case officer. In reference to his PCM background, there was an indication that Subject has not been completely truthful in discussing the full extent of his past PCM activities. It is the undersigned's opinion that this area of deception concerns a period of time prior to 1955.

DETAILS

Rather than engage Subject in an extended interrogation at this time in order to resolve his pre-1955 PCM activities, it is recommended that the Base first conduct all possible field and Headquarters checks on Subject's activities prior to 1955. After that, it is recommended that Subject's case officer attempt to resolve the above area of deception through direct contact

with the agent. If after this has been accomplished, there is still no evidence that Subject has attempted to clarify his past PCM activities, then, it is recommended that Subject be LCFLUTTERed a second time. During a second LCFLUTTER, specific attention should be given to the above noted area of deception.
