1920

Oxlahoma and went to Mexico. While at the University Mexico, she set and fell in love with the son of a well-to-do Colombian family. This remance developed into an effair which took her from Mexico to Boundor to Colombia, back to Mexico, and finally to Cubs. During this time, ANUPAS/1 either lived in the Columbian: jungles where her paramour and his twin brother attempted to raice earliquena, or travelled with these attempting to market it. This episons enied with the failure of the enterprise, Paphael's addiction to dope and subsequent loss of his mind. Meanwhile, A UPAS/1 had contracted a serious tropic blood disease, and returned to the United States. . In: early 1959, A UPAS/1 endeavored to interest the Guban Ministry of Realth in a project on control of drug addiction besed on her experiences with her paramour and his brother. Upon her return to the United States, she became involved with the 26th of July Movement in New York City, and also assisted the Cuben U. H. Mission in news clipping and other small jobs. Because of her interest in the Cuban Revolution, A'Tras/1 was invited by Celia SARCHEZ, secretary to Fidel Castro, to go to Cuba and assist her. In September 1959, AMUAPS/1 went to Cube where whe worked with SANCHEZ and translated articles and CASTRO speeches. In addition to her translating, AMUPAS/1 served as a public relations officer, arranging introductions for English-specking persons visiting the Prime Minister's office. In this especity she was in contest with mamerous Cuban Government officials.

- 4. As will be seen from her personal history statement (copy under separate cover), ANDPAS/1, has done a number of things a summary of her actual employment shows an employment pattern of jobs lasting from a few weeks to several months. her longest period of employment was her stay in toba which lasted nearly a year. Despite, or perhaps because of, her inability to "stay put" Subject And a wide and varied group of acquaintances, and produces a volume of information which, if carefully sifted, results in much that is useful and provides numerous operational leads. Last year she was closely associated with the Ouben Touth Novement and a assisted in organizing the summer youth comps in Cube. During how recent trip to Venezuela where she reviewed her translation of The Shark and the Sardines with the author, ex-president of Guatemala AREVAIO, ANDFAS/1 interviewed students on her own initiative to record their views on current problems. Her list of acquaintances runs the gaput from college professors and political figures to taxi drivers and prostitutes, and there appears to be no line drawn-because of race, creed, color, religion or political ideology.
- 5. According to the assessments made of Subject, it is believed that because of emotional vacillation and potential susceptibility to leftist indoctrination, she should be handled with caution. She can be provided with general requirements but should be kept unwitting of modus operandi. Subject requires direction and guidance to insure specific information; failure results in receipt of varied and often interesting information, but not necessarily that which is desired. ANDPASA is an individual who needs a "csuse" -who apparently needs scmething or someone she can crusade for. In the past it has been a paramour, and the Cuben Revolution; at the present time it is assisting her country to combat the spread of Communication tomorrow it could be Communism itself. It is therefore necessary to keep her motivation directed alone lines of our interest so that she will not be tempted to look elsandere. It is with the ressicility in mind that she could espouse an alien cause (perhaps unwittingly) that contact with and direction of her, should not reveal modus operandi of a too-sensitive nature. Handled with the above restrictions in mind, Subject can provide a wealth of information. To date Subject has been told for whom she is working although she strongly suspects MURAPA; she has given no training or SW system; at most, she would be able to describe possibly a half dozen persons she has met under alias. It is therefore suggested that she be given specific requirements which she can fulfill in normal circles, or which she can acquire from contacts one makes through normal channels. The psychiatrist futher suggests that she will probably respond to direction by a famale case officer more effectively than to a male, since she is apparently under some strain to assure horself of her attractiveness in her associations with men.
- 6. Contact Instructions are being forwarded under separate cover. If the Station does desire to contact & UPAS/1, and levy requirements on her, it is requested that anything will have may want to forward to Headquarters also be handled through the Station eventhough she also has an address in New York through which she contacts her present Case Officer.
- 7. Attached also is a list of individuals Subject intends to contact unils in Mexico. The Station has information on most of the persons listed.
