--------------	---

Transmitted for approval herewith is the operational plan for ANTHEK VII. The ANTHEK team is scheduled for infiltration on 7 February and for exfiltration on 17 February. A five-man team with intermediate Craft will be infiltrated into northern Matanzas Province from which point the team leader, AMICA-14, and ANTHEK-13 will proceed into Havana to accomplish the HEAPM objectives of this operation. Approval is requested at the earliest possible time.

- E. UFGA-13138, Amendment to AMTRUNK VI Operational Plan, 18 December 1963

3. BACKGROUND

Operation AMTRUNK III/IV which was mounted in August 1963 was successful in that the two principals of the team, AMICE-27 and AMICE-14, were able to contact and to recruit two principal agents and several other action agents to lay the groundwork for the MAPRON objectives of the AMTRUNK operation. One of the two internal P/A's, AMTRUNK-9, was exfiltrated with the four-man AMTRUNK infiltration team for training and operational discussions in the JMWAVE area. In early September, AMTRUNK-9 was re-infiltrated into PBRUMEN in Operation AMTRUNK V, the same operation which exfiltrated AMFAUNAS -1, -3, -13 and -34. In late October AMICE-27 was separated from the clandestine part of the AMTRUNK operation. The original objectives of Operation AMTRUNK VI, postponed from December 1963 to January 1964, were to revitalize and re-direct the efforts of the two internal P/A's toward their primary task, i.e. to spot and recruit among high level figures who are dissatisfied with the Castro regime. In late December, the scope of this mission was altered by the receipt of a commercial telegram in open code from AMTRUNK-9 indicating that he was in grave danger and wished to be exfiltrated. The twin objectives of Operation AMTRUNK VI then became: first, to exfiltrate AMTRUNK-9 and, this accomplished, for AMICE-14 to proceed to Havana for his task of re-channeling AMTRUNK-10's responsibilities. The exfiltration of AMTRUNK-9, who brought with him his entire family consisting of wife, brother-in-law, and three small children, was accomplished on 9 January 1964. The unexpected presence of AMTRUNK-9's family, coupled with reports of increased vigilance in the infiltration area, forced AMICE-14 to exfiltrate the same night without attempting to accomplish the second part of his mission.

DESENSITIZED

4. OBJECTIVES

- A. To re-establish personal contact with AMTRUNK-10 and to secure his full cooperation in spotting dissidents within the higher levels of the military for the purpose of organizing a conspiracy against Fidel Castro.
- B. To obtain from AMTRUNK-10 operational information on other MHAPRON recruitment targets.
- C. To attempt the recruitment of FAR Captain and Cubana pilot [REDACTED] a frequent [REDACTED] and an influential figure in civilian and military aviation.
- D. Through the AMTRUNK ratline, to transport to Havana and cache a clandestine radio set for the future use of an infiltrated AMTRUNK radio operator. At the same time, to explore with AMTRUNK-10 and other internal contacts the possibility of safehousing and supporting a radio operator in Havana.

5. TASKS

- A. The AMTRUNK Intermediate Craft will be towed by the KUBARK mother craft to the DRP at coordinates 221668, AMS Sheet 4085 IV ($23^{\circ} 14' 00''$ N and $80^{\circ} 47' 00''$ W, H. O. 2624).
- B. The AMTRUNK IC will then proceed to the vicinity of coordinates 133511, AMS 4085 III. At this point, AMICE-14 and/or AMTRUNK-7 will make contact with either [REDACTED] or his son [REDACTED] in Casualidad (17654795, AMS 4085 III). These two individuals are knowledgeable of the fact that the AMTRUNKs may return to the infiltration area although they do not know even the approximate date. [REDACTED] and his son [REDACTED] are prepared to activate the ratline consisting of three different taxis, to move AMICE-14 and AMTRUNK-13 into the Havana area. AMTRUNK-7 and -16, the team guides, and AMAGREE-1, the radio operator, will remain with the IC in the mangroves in the vicinity of the infiltration area until the return of AMICE-14 and AMTRUNK-13.
- C. Once in Havana, AMICE-14 and AMTRUNK-13 intend to split up and seek refuge in different safehouses. They will maintain contact with each other, however.
- D. AMICE-14's primary task vis-a-vis AMTRUNK-10 is to cement the recruitment of AMTRUNK-10 and to obtain his full cooperation to work toward MHAPRON objectives. In addition, AMICE-14 will teach AMTRUNK-10 an OWL system and leave a receiver with AMTRUNK-10. AMICE-14 also intends to give AMTRUNK-10 a review

in the principles of secret writing.

E. Secondary tasks to be accomplished with AMTRUNK-10 are:

- (1) To debrief him on his activities since AMICE-14 recruited him in August 1963.
- (2) To collect operational information on other possible recruitment targets
- (3) To explore the possibilities of accommodating and supporting an infiltrated radio operator.

F. AMTRUNK-13 will attempt the recruitment of [redacted] a close friend of AMTRUNK-13's for 18 years and a first cousin of AMICE-14. The following is a short biographical sketch of SEMIDEY:

[redacted] age 37-38 years old. Born in [redacted] the son of [redacted], [redacted] of the National Army and veteran of the Spanish-American War. [redacted] studied for one year at [redacted] University, [redacted]. He and AMTRUNK-13 graduated from the second class of [redacted] in 1942. [redacted] flew for [redacted] and [redacted] for about 11 years before he became [redacted] for the latter company after the Revolution. After [redacted] was absorbed into Cubana, [redacted] held various positions of importance in Cubana. He also holds the rank of [redacted] in the Rebel Air Force and reportedly has made reconnaissance flights and black flights carrying arms and/or agents to and from other Latin American countries. [redacted] has a close friendship with [redacted] [redacted] the [redacted] and is reportedly close to [redacted] for whom he is a frequent [redacted]. Because of the close former friendship between AMTRUNK-13 and [redacted] and because of reports from AMICE-14's family which indicate that [redacted] has become disenchanted with the Castro regime, both AMTRUNK-13 and AMICE-14 consider [redacted] a prime candidate for recruitment.

G. If [redacted] should be out of the country on a flying trip at the time of infiltration, AMTRUNK-13 will attempt to set up contact with [redacted] who is reportedly stationed in Las Villas Province with a unit of "Lucha Contra Bandidos", an anti-counterrevolutionary force. AMTRUNK-13 and [redacted] are friends from boyhood and, for a period of 6 or 7 years, [redacted] worked as an apprentice plumber for AMTRUNK-13's

father and lived in their home. AMTRUNK-13 and [] also worked together in the 26th of July underground in Havana.

- H. To return through the ratline to the infil/exfil area. Recognition signals will be established with AMTRUNK-7 and -16 and AMAGREE-1 who will be waiting with the IC in the mangroves in the vicinity of the lagoon at coordinates 129498, AMS 4085 III.

6. TIMETABLE

The scheduled date for the infiltration of the AMTRUNK team at the DRP is 0200 hours, 7 February 1964. The exfiltration of the five team members with the AMTRUNK IC and rendezvous with the mother craft at the DRP is 2355 hours, 17 February, with an alternate on 18 February. If exfiltration is not successful on either of these dates, the radio operator will be in contact with the base and contingent plans for exfiltration can be set up through this medium.

7. AMTRUNK PERSONNEL

- A. See references for biographical information on AMICE-14 and AMTRUNK-7.

B. AMTRUNK-13

AMTRUNK-13 is a [] year-old Cuban citizen who has been a commercial airline pilot for most of his life. He is a high school graduate. In early 1959, AMTRUNK-13 was named [] one of the major Cuban airlines. He defected in December [] while still in that post. He is a native of Havana who was active in the 26th of July underground in that city from early 1957. While later in exile in the United States, AMTRUNK-13 made two clandestine flights into the Sierra Maestras during the war against Batista, the last bringing [] for his first

[] in December []

C. AMAGREE-1, Radio Operator

AMAGREE-1 is a 33-year-old Cuban citizen who has two college degrees, in education and in journalism. He is native to the province in which the infil/exfil area is located. Until his departure from Cuba in August 1961, AMAGREE-1 was a municipal official in Matanzas Province and was active in the propaganda section of the 30th of November Movement. AMAGREE-1 began his association with KUBARK in April 1963 as a radio operator trainee. As in the case of AMTRUNK-13, this is his first operational mission.

S E C R E T
DESENSITIZED

MURKAT

RYB^b

DESENSITIZED

D. AMTRUNK-16, Guide

AMTRUNK-16 is a []-year-old single Cuban citizen who, as a [] lived and worked in the infil/exfil area all of his life. He participated in Operation AMTRUNK VI in December [] and his up-to-date knowledge of the infil/exfil area from which he fled in late October [] proved invaluable on this mission. While he was still in Cuba, AMTRUNK-16 was a trusted contact for the AMTRUNKs on both Operation III/IV and V.

8. COMMUNICATIONS

A. Primary.

RS-501 with special signal plan with continuous guard channel. This equipment will remain with the AMTRUNK IC and will not be carried into Havana.

B. Alternates.

(1) OWVL

AMICE-14 will carry a RR-44 receiver with appropriate signal plan on the trip into Havana.

(2) AMICE-14, AMTRUNK-13 and AMAGREE-1 will all have in their possession a S/W system with indicators, materials and accommodation addresses in the JMWAVE area.

C. Case Officer Challenge

To be used to determine whether or not the radio operator, AMAGREE-1, is being controlled by a hostile force. C/O: "Diganos si los barcos de patrulla estan equipados con radar y armas pesadas". ("Tell us if the patrol boats are equipped with radar and heavy armament"). Radio Operator, if free from hostile control, will reply: "En Cuba no hay culebras venenosas". (In Cuba there are no poisonous snakes). Any other response to this question which the radio operator might give would indicate hostile control.

9. COVER

The entire infil/exfiltration using the IC will be black. During the trip to Havana, AMICE-14 and AMTRUNK-13 will devise their own cover stories to fit the individual situation. All five agents will be provided with false documentation.

DVBAT
DECLASSIFIED

10. FINANCES

The team will carry \$5,500.00 of which \$1,500.00 will remain with the personnel in the IC. AMICE-14 and AMTRUNK-13 will each take \$2,000.00 into Havana.

11. CONTROL

Control over the five members of the AMTRUNK team takes the form of providing or denying them the wherewithal, both financial and material, to engage in clandestine operations against the Castro regime.

12. COMMITMENTS

No commitments have been made to any member of the team other than a broad commitment to continue to pay their salaries in the event they are captured and to continue to provide support to their families for a reasonable period of time in the event of their death.

13. SECURITY

Both AMICE-14 and AMAGREE-1 have been granted OA's. The other three team members, AMTRUNK-7, -13 and -16, have been granted POA's. All five have been LCFLUTTERed.

14. TRAINING

A. AMICE-14

The earlier training of AMICE-14 has been supplemented with three additional weeks of tradecraft training and he has since received review training in weapons firing, maritime, OWVL and S/W.

B. AMTRUNK-13

Prior to dispatch of Operation AMTRUNK VII, AMTRUNK-13 will have received the following training:

- (1) Three weeks of tradecraft training
- (2) One week of maritime training
- (3) One week of survival training
- (4) One week of PM training accenting map and compass and weapons firing
- (5) Three half-day sessions in S/W

~~RYB~~

- 7 -

~~SENSITIVE~~

C. AMAGREE-1

AMAGREE-1 has received the same training as AMTRUNK-13 above plus basic radio operator training which included the use of medium speed communications gear. AMAGREE-1, prior to dispatch time, will have received training in a special signal plan with continuous guard channel.

D. AMTRUNK-7

Since AMTRUNK-7's primary function on the AMTRUNK team is as a coastal guide, his formal training has been necessarily limited. He has received extensive maritime and weapons training and three days of instruction in basic tradecraft principles.

E. AMTRUNK-16

This agent's function on the AMTRUNK team is similar to that of AMTRUNK-7. He will have received PM and maritime training prior to dispatch.
