Mr. John F. Blake
Deputy Director for
Administration
Central Intelligence Agency
Washington, D.C. 20505

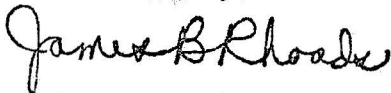

Dear Mr. Blake:

In response to your letter of May 20, 1975, concerning a request by the Commission on CIA Activities Within the United States for access to CIA materials located in the Presidential library system, we have notified the directors of the various Presidential libraries and have asked them to cooperate with the Commission's representatives in any way possible. A copy of your letter authorizing access to the materials "regardless of classification" was included with our notice to the libraries.

Since CIA materials may be found in numerous files among a library's holdings, it will be necessary for a library staff member to work closely with the Commission's representative to identify the pertinent material and to correlate these materials with documents from other agencies whose permission for access has been sought and granted. Therefore, in order to facilitate access, Mr. David W. Belin, Executive Director of the Commission, should contact the library directors individually regarding specific arrangements for authorized members of the Commission staff to visit a particular library.

A list of the Presidential libraries, their addresses, and the names of their directors is attached. If there is any way in which I may be of further assistance, please don't hesitate to call.

Sincerely,

JAMES B. RHOADS
Archivist of the United States

Dear Dr. Rhoads:

In the course of preparing their report, the staff of the Commission on CIA Activities Within the United States has indicated a need to have access to CIA material either located in or designated for storage in Presidential Libraries. As you are undoubtedly aware, a good deal of this material is maintained on a segregated basis at CIA's Archives and Records Center. Other material is actually located in the libraries under your custody.

The matter of access to these documents has been raised with Mr. Colby and he has requested that I ask you to make whatever arrangements are necessary to permit access to any CIA material in the Presidential Library system upon the request of Mr. David W. Belin, Executive Director of the Commission staff or by any other staff member designated by him. It is our desire that such access be permitted regardless of classification of the documents and in any manner that would be consistent with your procedures. If it would be helpful to you, I would be pleased to assist in facilitating arrangements between the Commission staff and whomever you designate to work on this matter.

Sincerely,

John F. Blake
