b. On 22 July 1963 a Sr. Fernando G. CALDERON appeared at the HBFINCH receptionist area and asked by name to speak with the COS. When interviewed by the COS, CALDERON said he had a group of trained investigators which could be put at COS' disposal. He also provided a memorandum setting out what his group could do and pay and equipment they would need. Jeremy K. BENADUM was asked to check CALDERON's background. It was determined that he had at one time been an apprentice DFS (Direccion Federal de Seguridad) agent and had worked with LIVESTOCK-3. COS advised CALDERON that there was no interest in his proposition.

c. On 7 August 1963 the EE case officer requested identification copies of the identification photographs of Yugoslav Official Nikola ZIC, Counselor of the Yugoslav Embassy; and two Czech officials: Lubomir BLAZIK and Jana KANKOVSKA. Jeremy K. BENADUM was asked to obtain these photographs from Relaciones via LITEMPO-4.

d. On 14 August 1963 (MRID-0237), Jeremy K. BENADUM was asked to find out what difficulties were being encountered by Indalecio FERNANDEZ Moran with Mexican Immigration officials.

2. Liaison

a. On 6 August 1963 the Station passed a blind memorandum on Vasile Leslie Ladislav WINKLER to LITEMPO-2 for investigative action.

b. On 13 August 1963 the Station passed a blind memorandum on Jose Manuel SANTAMARIA Mendez (with aliases) to LITEMPO-2 for investigative action.

c. On 18 September 1963 Oliver G. GALBOND and the COS called on LITEMPO-2 and talked with him for forty-five minutes. LITEMPO-2 thanked GALBOND for KUBARK assistance to them and expressed the desire that the mutual cooperation can continue with the next administration. LITEMPO-2 asked GALBOND if he could furnish the names of terrorists and communists from Venezuela and other Latin American countries who might be likely to travel to or through Mexico. GALBOND promised to furnish as many of these names as possible with appropriate background data.

d. Also during this reporting period, COS made numerous calls on LITEMPO assets in an effort to arrange for a sensitive political asylum case. The case is still pending.

3. Production

a. During this period, the following reports, operational cables and dispatches were based on information obtained through LITEMPO sources:

b. Passport Camera

One of the two passport cameras given to the LITEMPO personnel was called back to the Station for a rigid testing by the Station KURIOT technician since the film continued to jam without a warning to the operator, causing him to continue running the camera even though the film was not being exposed. LITEMPO-2 advised GALEBOND and the COS that he could not permit a larger, more conspicuous camera at the airport. The camera in use at the present time seems to be operating without difficulty. The Air France coverage has not yet been added but should be added in the near future.

4. Personnel

a. In view of the overall budget cut, the Station re-estimated the financial obligations for this project as reported in the Project Renewal request (HMMA-2229 dated 1 Oct 63). Permission has been obtained to sell MV-2285. No agents have yet been terminated but a closer review is being made of the production of LITEMPO-6 and LITEMPO-7.

b. There were no security incidents during this period.

5. Problems

None.

6. Emergency Contact Instructions

There has been no change since the previous report.
