STATEMENT OF ROBERT W. HARDY
BEFORE THE HOUSE SELECT
COMMITTEE ON INTELLIGENCE
NOVEMBER 18, 1975

On Tuesday, November 18, 1975, Robert W. Hardy appeared before the House Select Committee (HSC) dealing with the subject matter of intelligence activities and made a statement concerning his performance as an informant for the FBI. In this statement, Mr. Hardy made certain allegations against the FBI which are set out below with appropriate responses.

The succeeding pages set out each of Mr. Hardy's allegations which are excerpts from his testimony. Each allegation is followed by a refutation. Except where specifically noted, these responses to Mr. Hardy's allegations are excerpted from the FBI report of Special Agent Michael M. Ryman at Philadelphia dated November 18, 1971, entitled, "Camden Action; Jayma Ann Abdo; Et Al." This report is a chronological compilation of debriefings prepared following the daily meetings of Hardy with the FBI Agents assigned as his contacts. The report is attached. The refutations of Mr. Hardy's testimony are, therefore, in the main taken from his own contemporary reports to the FBI.

Hardy Allegation

"On June 24, 1971, a long-time friend of mine was having dinner at my home. He was upset. He had been active in the anti-war movement in our area. He related to me that a plan to enter the Camden Draft Board had been discovered by the FBI and had fallen through."

Allegation

Response

Page 2, Paragraph 2

He was coming to the FBI because he was troubled by something that a good friend of his (MIKE GIOCONDO) was trying to get him involved in. GIOCONDO had approached him concerning a "draft board demonstration like the one the BERRIGANS were involved in."

Paragraph 3

GIOCONDO wanted his assistance in finding places for large groups of people to stay overnight, in finding a meeting hall, and the use of his truck. (He assumed that the truck would be used to move groups of people. His truck could transport up to 20 people at one time.) GIOCONDO mentioned that there are about 25 people in the area who are working on the matter and that there are about 200 more who will be coming to the area from New York State and Pennsylvania to provide assistance. The planning has been going on for about 6 to 8 weeks, and GIOCONDO has told him that many of the "ex-religious" people involved in the movement are people who have been known to both GIOCONDO and him for quite some time...

Paragraph 4

GIOCONDO has mentioned that the target site has been photographed and has been under extended surveillance by members of the group. The group meets nightly.

Paragraph 6

GIOCONDO wants him to meet the leader of the movement in this area who is a white male with

five children who used to be the editor or on the editorial staff of "Jubilee Magazine."

Page 3, Paragraph 2

GIOCONDO has indicated to him that the "hit" would take place within 2 or 3 weeks. (From first conversation with HARDY on June 25, 1971.)

Page 6, Paragraphs 3 & 4

HARDY asked GIOCONDO if they were still going to go through with the "draft thing in Camden." To this GIOCONDO replied "definitely." GIOCONDO said, "We're going to make a hit there." (HARDY's report to the FBI of his conversation with MIKE GIOCONDO on the afternoon of June 25, 1971.)

Page 11, Paragraphs 4 & 5

HARDY advised that GRADY and his group are doing a considerable amount of surveillance on the Camden Post Office for the particular purpose of watching the night watchman make his rounds inside the Post Office. HARDY felt that the break-in will occur some time between 1 a.m. and 4 a.m. on a Monday morning.

HARDY advised that the break-in will occur within the next couple of weeks and that GRADY and his group are surveiling the Camden Post Office from the rooftop of the Town House Apartments on Cooper Street, from the top of the new Rutgers Law School Building, and from surveillances on the street. (HARDY's report to the FBI of his meeting with the group on June 29, 1971.)

Page 12, Paragraphs 2 & 3

HARDY advised that ANTOINETTE has been able to get inside the Post Office on one occasion and from her observations got a rough floor plan of the 4th floor. This floor plan does not go into too much detail. He stated that when they

go in they will hit the 5th floor but are apparently worried about the 4th floor for some reason or reasons unknown to him. He advised he did not know the exact details of how ANTOINETTE got into the building.

HARDY advised that he has been given an assignment to go into the Post Office and get a detailed floor plan of the 4th and 5th floors, specifically looking for any electrical tape alarm systems on the windows. HARDY made the observation that they are going to come into the Post Office through a window on the 5th floor. GRADY and his group are concerned about the key system as far as security measures are concerned. They want to know exactly where alarm systems are located. They also want to know how many windows and how many windows line up with other offices on the 4th floor in order that they can check the guard's movements when they have the Post Office under surveillance. (HARDY's report to the FBI following his meeting with GRADY's group on June 29, 1971..)

Hardy Allegation

"The following day, I went to the FBI Office in Camden and asked them for advice. I told them I did not want my friends to go to jail. They told me at the time, just to keep them posted on developments. I then went to the group of people I had just mentioned, and in a short time they had taken me into their confidence as a member and fellow sympathizer."

Allegation

Response

Page 5, Paragraph 2

On June 25, 1971, (HARDY) went to the apartment of MIKE GIOCONDO, located at 3rd and Cooper Streets, Camden, N.J....

Page 6; Bottom of page

GIOCONDO and he left GIOCONDO's apartment at 4:40 p.m. and went to GIOCONDO's red Renault which was parked outside on the street...They then entered the vehicle and GIOCONDO drove up Lawrence Street to the Greyhound or Trailways Bus Station located in Camden on Broadway across from the Walt Whitman Hotel. They drove to the bus station and drove past it once. As they did, GIOCONDO indicated a white male and said to him, "JOHN's there watching us to make sure we're not followed". They drove around the block and as they approached the bus station the next time GIOCONDO indicated a couple by the bus station and said, "there's two of our people"...

Page 7, Paragraph 5

They stopped by the bus station and JOHN GRADY came to the car. GIOCONDO introduced him to GRADY who stated he recognized HARDY from previous pictures. GRADY also said to him, "MIKE has said a lot about you in a positive way"...

Paragraph 7

GRADY took (a) suitcase and "Pan Am" bag from the back seat of GIOCONDO's car and said, "We'll meet later at DOC's".

Page 8, Paragraph 3

On June 25, 1971, while working at a booth at the St. Joseph's Carnival, Camden, N.J., GIOCONDO came to the booth and said, "Fr. DOYLE and some of the guys in the movement are meeting in St. Joe's Rectory tonight at 9 p.m." To this HARDY replied that he could not go since he was working at the booth.

Paragraph 4

He did not hear from GIOCONDO until 5 p.m. on Sunday, June 27, 1971. (GIOCONDO invited HARDY to a dinner but HARDY could not go.)

Paragraph 5

On June 28, 1971 (HARDY made unsuccessful attempts to contact GIOCONDO.) (HARDY's report to the FBI concerning events on June 25, 27, and 28, 1971.)

Page 10, Paragraph 2

HARDY advised that he attended a meeting last night, June 29, 1971, at (the house of a Dr. ANDERSON, where he met other individuals then unknown to him).

Page 57, Paragraph 2

HARDY advised that he remembered something that he wanted to report which he had forgot to report yesterday. HARDY advised that two more names were mentioned by GRADY as, in HARDY's opinion, current sympathizers or in some way helping GRADY in his activities. Their names are MAUD and TOM O'DELL. These people live in Hi-Nella, N.J.. GRADY mentioned that in case his group needed to rent a truck or U-haul, these people would do it, and he implied from GRADY's comments about the O'DELLS that they were a source of possible income. (HARDY's report to the FBI of a meeting with GRADY's group July 6, 1971.)

Page 57, Paragraph 3

HARDY advised that last night, July 6, 1971, he received a telephone call from MIKE GIOCONDO. JOHN GRADY had called him and asked him to come out a little bit earlier than when the group normally meets. GRADY stated to MIKE that he wanted to go over some slides and plans and to prepare GENE DIXON and HARDY for their entrance into the draft board this afternoon for the purpose of gathering more information. (HARDY's report to the FBI of a meeting with GRADY's group on July 6, 1971.)

Page 58, Paragraphs 4 & 5

HARDY advised that after viewing the slides, GENE DIXON engaged him in a conversation relating to the proposed visit by DIXON and HARDY to the draft board and that tentative arrangements were made to meet at the White Tower at 3 p.m., this afternoon. The plan was then to go to the Post Office and visit the draft board. HARDY advised that one of the things that they were instructed to find out while in the draft board is the physical geography of the front as far as the alarm system and fire escape is concerned. He noted GRADY's group

is only interested in the 1A classifications. One of the other things that they are to definitely observe is the location of the watchman's key. HARDY again related that they were instructed to check and see if there were any alarms on the doors and windows and to check the name on the filing cabinets so that GRADY could know the type of lock on the cabinets. He noted that there is a possibility that GRADY's group could obtain a master key from KIRK, a fellow in Philadelphia. They were also instructed to look for power sources in case the group that goes into the draft board decides to take electric drills.

HARDY advised that his second main objective along with DIXON is to check the second and third floors on the 5th Street wing. GRADY wanted to know the exact location and what offices are located where. (HARDY's report to the FBI of a meeting with GRADY's group on July 6, 1971.)

Page 59, Paragraphs 1 & 5

HARDY related that the third objective is to get down into the mail room and see if there is an alarm panel box for the fire escape and to see if it is clearly marked. HARDY made the observation that there is the possibility that someone from GRADY's group could get down into the mail room and turn off the alarm.

HARDY related that while he was with GIOCONDO en route to the Town House Apartments, he had learned from GIOCONDO that GIOCONDO had met two of GRADY's people from the Philadelphia group, but that he only met them by their first names. HARDY learned that these two people are an ANNE (LNU) and a BETH (LNU). He explained that both are white girls about 22 years old and that they work at the bookstore in the vicinity of Temple University. He explained that the reason the Philadelphia group has not been brought into this action is that they are more radical than GRADY and they dress in a more hippie type style, and that they play around with the drug scene a little bit. He explained that GRADY has a low opinion of them. (HARDY's report to the FBI of a meeting with GRADY's group on July 6, 1971.)

Page 60, Paragraph 2

HARDY explained that another topic of conversation with MIKE GIOCONDO was the East Coast Conspiracy to Save Lives. He advised that he pressed GIOCONDO for more information about this group and the 200 people that were mentioned earlier. GIOCONDO answered the question by stating that he had pressed GRADY in the early stages of this thing but that GRADY had always pushed it aside and pushed GIOCONDO very hard to recruit people for this particular action. HARDY advised that at the meeting GRADY had stated to him that he was involved in the Dow Chemical action in Michigan. GRADY did not say what the names were of those involved but stated that it was a simple operation. (HARDY's report to the FBI of a meeting with GRADY's group on July 6, 1971.)

Page 65, Paragraph 4

HARDY mentioned that GRADY had decided that one of the things that he would like to have checked would be to see whether or not the employees of the Post Office actually sign out when they leave the Post Office for the day. GRADY had mentioned to him that it might be possible for several people to go into the Post Office together during the day and for all of them, except one, to hide in the Post Office while one of the group would leave and sign the entire group out at the register. (HARDY's report to the FBI of a meeting with GRADY's group on July 7, 1971.)

Page 67, Paragraphs 2, 3, & 4

GRADY mentioned POPPI SHARPE during the meeting last night, and it was apparent to HARDY that GRADY has been talking extensively with POPPI SHARPE from time to time. GRADY mentioned that POPPI SHARPE's favorite thought was that "you have to put the fear back into the man" (meaning the establishment). GRADY has mentioned how POPPI SHARPE feels that only when the authorities fear the people will they respect them.

HARDY mentioned that GRADY desires that he and DIXON go into the FBI office in Camden under suitable pretext so that they might learn of information relating to the alarm and security systems of the

FBI Office. He explained that they would use the pretext of trying to learn from the FBI the procedure used in investigating an ex-convict who applies for a job with the Post Office. MARTHA SHEMLEY and GENE DIXON also mentioned the prospects of going into the FBI Office. As the plans stand now, the draft board is target #1. Army Intelligence is possibly a second target and, if it is feasible, the FBI Office would be the third target.

From conversations with the group, HARDY has learned that COOKIE, ANITA and JOHN GRADY have been in other draft boards before when records were destroyed. He mentioned that GRADY related to him that he was involved in draft board hits when records were destroyed. From the conversations, it was also indicated that COOKIE and ANITA were involved in a draft board hit in Philadelphia. (HARDY's report to the FBI of a meeting with GRADY's group on July 7, 1971.)

Page 68, Paragraph 2

On July 8, 1971, while talking with JOHN PETER GRADY, GRADY mentioned the "East Coast Conspiracy To Save Lives," and indicated that his (GRADY's) main contact with this group is in East Orange, N.J. According to the source GRADY said this group is a loose-knit organization of about 200 people. (HARDY's report to the FBI of a meeting with GRADY's group on July 8, 1971.)

Page 69, Paragraphs 2, 3, & 4

On July 8, 1971, he attended a meeting at the residence of Dr. WILLIAM ANDERSON, located on Harding Avenue in Collingswood, N.J. Upon his arrival JOHN GRADY and his (GRADY's) family were preparing for the evening meal. COOKIE and ANTOINETTE, also known as Anita, were also there. The group was still elated over the experience of DIXON and himself the day before at the draft board. The group was anxious to get started on the information obtained. He learned that GENE DIXON and MARTHA

SHEMLEY had been at ANDERSON's residence for a short while before he arrived.

He learned that COOKIE and ANITA had made contact with some of the Philadelphia group. They have started calling them (the Philadelphia group) at certain times.

After the evening meal was finished, he went into the living room area with GRADY, ANITA and COOKIE and they talked at length about the proposed breakin and the problems they have come up against during the past breakins and what they were going to do to solve these problems. During the discussion, it was revealed that money will be supplied by people such as Dr. ANDERSON and CALLAHAN (no further identification on CALLAHAN). JOHN GRADY referred to "The East Coast Conspiracy group" and that their main contact with this group is in East Orange, N.J. According to GRADY, this East Coast Conspiracy group is a loose-knit organization of about 200 people. GRADY also referred to a JOHN NICHOLSON from Philadelphia, who is apparently a key man in this group. (HARDY's report to the FBI of a meeting with GRADY's group on July 8, 1971.)

Page 71, Paragraph 3

GRADY related this story with first-hand knowledge. GRADY again emphasized that he has been the key man in 14 out of 18 draft board hits within the last 2-1/2 years. GRADY said that he was the one who developed the style for the break-ins. GRADY said he is now developing the style for outside break-ins. (HARDY's report to the FBI of a meeting with GRADY's group on July 8, 1971.)

Page 72, Paragraph 5

JOHN GRADY mentioned that this was the first time they tried to hit a draft board from the outside and that it was the first time they had tried to get community involvement. GRADY related to him

that in the past they have gone into a community where there was some indication that there were sympathizers in the area. The sympathizers would then set up observations for three to four weeks. GRADY and his assistants would come into the area and spend another week doing detail work. The "old actors" would then come in and spend two or three days assembling, conducting dry runs, and getting the general feel of the area. After this the hit would be made and they would then disperse, leaving three or four local people behind. (HARDY's report to the FBI of a meeting with GRADY's group on July 8, 1971.)

Page 73, Paragraphs 2 & 4

GRADY also mentioned that Brother PHILIP KELLY of El Centro, Camden, N.J., was GRADY's initial contact in this area. GRADY mentioned that KELLY had set up the initial meetings but later dropped out of the plan.

HARDY mentioned that it was either COOKIE or ANITA who mentioned renting the truck for the weekend from one of her friends in the Philadelphia area. (HARDY's report to the FBI of a meeting with GRADY's group on July 8, 1971.)

Page 74, Paragraph 3

GRADY has mentioned that DR. ANDERSON and CALLAHAN would probably be in vehicles on the street somewhere on the night of the draft board hit. GRADY also mentioned that Dr. ANDERSON's flat above his office will be made available for sleeping quarters for some of the "old actors" who will come in two or three days before the hit. (HARDY's report to the FBI of a meeting with GRADY's group on July 8, 1971.)

Page 75, Paragraph 2 & 3

On July 9, 1971, as he was preparing to go to the residence of Dr. ANDERSON, Collingswood, N.J., for a nightly meeting, MIKE GIOCONDO telephonically

contacted him and relayed the message that JOHN GRADY thought that the group was being watched. GIOCONDO related to him that Mrs. GRADY was sitting on the front porch of the ANDERSON residence and noticed a Volkswagen bus which was parked in front of the residence. The man sitting in this bus was staring at the house. This took place on July 8, 1971. GIOCONDO also related that after about ten minutes the man in the Volkswagen bus left and that shortly thereafter, Mrs. GRADY observed a Volkswagen automobile which stopped in front of the house for a few minutes.

HARDY mentioned that earlier in the day of July 9, 1971, he saw COOKIE and ANITA, who stated that they had been talking with some of the "old actors" from North Jersey. They, COOKIE and ANITA, mentioned that some of these "old actors" would be coming down from North Jersey on Sunday night for a meeting at Dr. ANDERSON's residence in connection with the draft board hit. COOKIE and ANITA mentioned that there will be seven of the "old actors" from North Jersey coming down for the hit, and there will be three "old actors" from Philadelphia. (HARDY's report to the FBI of a meeting with GRADY's group on July 9, 1971.)

Page 76, Paragraph 3

GRADY mentioned that MADDEN's apartment in East Orange, N.J., is the headquarters for the East Coast Conspiracy to Save Lives (ECCSL). The target date was set for July 18, 1971, but it was indicated by GRADY that the date might have to be moved to July 25, 1971 in order to give MEL MADDEN time to set his schedule. GRADY stated that MEL MADDEN would be bringing down seven people in cars, to take part in the hit. GRADY also mentioned that MADDEN would provide enough money to support the physical needs of the group for the two or three days while they were in Camden doing the pre-hit surveillance. (HARDY's report to the FBI of a meeting with GRADY's group on July 9, 1971.)

Page 79, Paragraph 2

He further advised that as requested to do so by GRADY, he had at 5 o'clock on July 9, 1971, observed the Postal employees as they left the Post Office building. GRADY's interest in the departure of the Postal employees was to determine if every individual was required to sign out before leaving. On that same afternoon, he saw COOKIE and ANITA downtown. (HARDY's report to the FBI of a meeting with GRADY's group on July 9, 1971.)

Page 83, Paragraphs 1 & 3

It was also mentioned that a girl named ANN (last name unknown) from Philadelphia and the ANN for whom there is a warrant in Delaware both worked at the Temple Book Store with COOKIE and ANITA. From what GRADY said on Friday night, it appeared as if there was a draft board hit planned for the Trenton area that never came off as yet. It was mentioned by the group that they had already done the preparations for a hit in Trenton, but for some reason the hit was not made. They have talked of going back to Trenton after the Camden hit to make the hit at Trenton which had previously been worked out.

GRADY is planning to run a surveillance with his people tonight. GRADY intends to surveil the Post Office Building from the churchyard. As he has done in the past, GRADY will play the role of the "drunken Irishman" if any passersby or police wander into the area. Plans call for the entire group to be on the scene at the surveillance. (HARDY's report to the FBI of a meeting with GRADY's group on July 10, 1971.)

Page 86, Paragraph 3

HARDY advised when he arrived at Dr. ANDERSON's house there were two new people present. These two new people were MEL MADDEN, the brother of the priest at SS. Peter and Paul, Camden, N.J. MADDEN is the head of the state drug program for the State of New Jersey and MIKE GIOCONDO works for him. The other individual was a white male named TERRY (last name unknown). He described

TERRY as 5'6", 160 pounds, age about 28, medium build, with a vandyke type beard, black bush hair - almost afro-style. It was later brought out that he is married to a black woman. Also, present at the meeting were JOHN GRADY, COOKIE, ANITA, GENE DIXON, and MARTHA SHEMELEY. He advised MADDEN and TERRY live in Northern New Jersey. (HARDY's report to the FBI of a meeting with GRADY's group on July 11, 1971.)

Page 87, Paragraphs 3,4, 5, & 6.

HARDY advised that POPPI SHARPE had been contacted apparently by GRADY during the past week and that he has committed eight people for the exterior defense on the night of the action. SHARPE's people are to create some kind of a problem if it is needed. HARDY explained this would be some sort of a diversionary tactic to call attention away from the post office. Nothing more was said about the napalming of the army tank in front of the Reserve Center in Camden, although it had been referred to during the course of the discussion some half a dozen times.

HARDY advised another name was brought up. This person might possibly become involved in the action and from GRADY's comment this person has experience and has participated in past actions. GRADY mentioned the name BUSBUY or BUZZARD. HARDY advised GRADY did not go into detail regarding BUSBUY.

HARDY advised next Sunday, July 18, 1971, at 6 p.m., MEL MADDEN and TERRY, along with those people they will be able to bring, will report to the ANDERSON's home for a briefing and will then be paired off with some of the people who are already involved in the Camden action. The tentative "hit time" is going to be between 11:30 p.m., and 12:30 a.m. As yet GRADY and his group have not set the time for sure. HARDY advised while participating with the group in the surveillance last night the group could have gone in at 11:30 p.m. and 12:30 a.m. He explained the surveillance workings as follows:

The surveillance commenced at 11:30 a.m. with everyone in the pre-arranged checkpoints. Observations were made for a full ten minutes and then at 11:40 p.m. observations were again made as if 11:30 did not happen. These are carried out every ten minutes until approximately 12:20 a.m. This information which is compiled by each member of the surveillance is then discussed the next evening and each person at the prescribed times states what was seen. For example, there was a patrol car on Market Street at 11:30 p.m., so that would knock out the 11:30 to 11:40 time frame. Another example given by HARDY was that at 11:50 p.m., the watchman looked out the bathroom window. (HARDY's report to the FBI of a meeting with GRADY's group on July 11, 1971.)

Page 88, Paragraph 4

HARDY stated that GRADY mentioned the Wilmington, Del., draft board break-in in the context that he was showing MEL MADDEN and TERRY that he and his group had gone to some extremes to make this action successful. GRADY related in the men's room in the building where the draft board is located there is a suspended ceiling. GRADY related some of his group lifted the panels out and slung hammocks in the ceiling. On the night of the action four men went into the men's room and hung in the hammocks for about six hours. Then, after closing hours, it was just a matter of dropping through the ceiling and then proceeding to the draft board. GRADY related that TONY SCOBLICK was the person who actually picked up the people who were inside the building in a van. The people knew they had until 4:45 in the morning to do their job on the draft board because from previous surveillances GRADY knew that the State Police only checked the building at 4:35 a.m. GRADY went on to say that the group inside the draft board was originally supposed to come out the front door and that they put plywood panels against the glass in the front door so no one could see in the draft board offices. He went on to say after closing hours one of the persons inside had a power drill and was attempting to drill the lock out but that he had a bad bit, so this person went to the back door and just popped it open and then the van pulled up from around back and everyone who was in the draft board got into the van and drove away. GRADY mentioned PAUL COUMING as a participant in the Wilmington,

Del., Draft Board break-in. (HARDY's report to the FBI of a meeting with GRADY's group on July 11, 1971.)

Page 89, Paragraph 5

HARDY advised the Army Intelligence Office was mentioned again as a second shot. HARDY advised JOHN GRADY and MADDEN stated that if the group goes into the Army Intelligence Office they should start thinking about what they should do with the information they get out of the office. (HARDY's report to the FBI of a meeting with GRADY's group on July 11, 1971.)

Page 90, Paragraphs 2 & 4

Plans for the hit at the draft board in Camden, N.J., as discussed by JOHN GRADY, call for entry to be made by driving a van, with the hit team inside, up to the back of the Post Office. A member of the team would then use a ladder as a brace against the fire escape. Members of the team would then enter the fire escape and go up the fire escape to the point where the fire escape leads to the window of the local draft board. Plans call for one walkie-talkie to be with the people who are on the roof of the Townhouse Apartments and for one walkie-talkie to be with the group that goes into the draft board.

HARDY mentioned that the idea of hitting the Army Intelligence Office was brought forth by COOKIE. Upon this being mentioned, GRADY made some mention that it would be important to figure out how the Army Intelligence files could be distributed after they were obtained. (HARDY's report to the FBI of a meeting with GRADY's group on July 12, 1971.)

Page 96, Paragraphs 2, 3, & 4

On July 13, 1971, he went to the residence of Dr. WILLIAM ANDERSON, Harding Avenue and South Park Drive, Collingswood, N.J., for a meeting. Upon his arrival there he met a ROBERT GOOD. GOOD is approximately 5'8" in height, 160 pounds,

and is a former seminarian. GOOD dropped out of college in his sophomore year and is approximately 22 years of age. He has been "more or less drifting around" and is with the underground system. GOOD attended all the trials regarding draft board break-ins and the burning of draft cards within the last six months to one year. He is a white male and has curly brown hair which is slightly longer than the average hair style. He is good-looking, has thin features and is of medium build. He is from a town outside of Pittsburgh, Pa. While talking to GOOD, he (GOOD) mentioned that he was involved in the "Trenton action" that took place within the last six months.

GOOD also talked about the attempted break-in at the Garden City, Long Island, FBI Office. GOOD indicated that he was in some way involved in this attempted break-in (Garden City FBI Office). GOOD also mentioned that people from Brooklyn, N.Y., were tied in with the "Garden City action."

GOOD related to him about his (GOOD's) brother, an ex-Peace Corps worker, who is also involved in the underground. (HARDY's report to the FBI of a meeting with GRADY's group on July 13, 1971.

Page 97, Paragraphs 1, 2, 3, & 4

GOOD mentioned a woman by the name of ANN who is from New York and who would possibly be interested in coming down for the Camden hit. ANN, according to GOOD, is living with someone by the name of FRANK on 121st Street in New York City.

He learned from GOOD that he GOOD is with the Defense Committee and that he has done an extensive amount of traveling throughout the country and checking on the Defense Committees throughout the country. GOOD specifically mentioned traveling to the West Coast and that he had stopped at four different Defense Committee offices in California, and then went to Seattle, Wash., and spent some time there before returning to New York City.

GOOD also talked about a nun or ex-nun by the name of ROSE in New York City who is very active as a militant member of the underground.

JOHN GRADY questioned GOOD as to what the Defense Committee would do with regard to the proposed hit in Camden. GOOD told GRADY that the Defense Committee was totally uninterested in anything that JOHN GRADY is doing at the moment. It was brought out during the conversation that a man named PAUL, whose last name begins with "M" (HARDY could not recall the last name), is on the Defense Committee in New York. GOOD mentioned that there was at least \$100,000 in the war chest of the Defense Committee in New York City and that this money is kept in a bank. Upon learning this, GRADY became very upset, since he is almost \$20,000 in debt due to the failure of three or four book stores which he had run. (HARDY's report to the FBI of a meeting with GRADY's group on July 13, 1971.)

Page 99, Paragraph 4

MESHNICK, GRADY and he (HARDY) then went to Hawthorne, N.J., to see a man named PAUL (LNU) who has an automobile dealership in Hawthorne, N.J., known as "Paul's Motors" or Paul's Cars. (HARDY's report to the FBI of a meeting with GRADY's group on July 14, 1971.)

Page 100, Paragraphs 1 & 2

Upon their arrival at "Paul's Motors," MESHNICK went to the service area, followed by GRADY and himself. PAUL appeared very happy to see MESHNICK but when he saw GRADY his expression changed. Upon greeting GRADY, PAUL related that the FBI had been to see him (PAUL) on Tuesday wanting to know the whereabouts of JOHN GRADY, and also wanting information regarding a car bought by GRADY from him about a year and a half ago. It was PAUL's impression that the FBI has this vehicle in their possession at this moment in the Philadelphia area and that this car came to the FBI's attention with regard to the Philadelphia draft board actions. PAUL also believes that he (PAUL) is under surveillance due to the fact that he has been a financial supporter of

JERRY MESHNICK in his World Federalist group and also due to the fact that for the last couple of years he has been a supporter of the East Coast Conspiracy to Save Lives and also a supporter of various draft board actions. PAUL indicated that he had provided financial support and also transportation in connection with previous draft board hits. After leaving "Paul's Motors" which is a Volvo dealership, they went to East Orange, N.J., to MEL MADDEN's apartment. GRADY had considered going into New York City instead of East Orange because he desired to confront some of the people on the Defense Committee who were in his (GRADY's) words, "playing around with his money." But upon learning about the FBI looking for him, GRADY decided that it would be unwise to go to New York City and decided instead to go to East Orange. They were careful in driving to MADDEN's, parking approximately a block away from MADDEN's apartment. As he (HARDY) came out of the apartment, Mrs. ELIZABETH MADDEN was driving up in her vehicle. When GRADY saw her he got out of the car and called her and they all went into MADDEN's apartment. ELIZABETH MADDEN is an Irish girl with dark black hair. She has a small daughter about eight months old named COLLEEN. ELIZABETH MADDEN will be going to Ireland for four weeks this coming Friday. She appeared to be knowledgeable as to her husband's involvement with the group.

MEL MADDEN and MIKE GIOCONDO and BUSBY arrived shortly thereafter. A man by the name of STEVE, who lives in the same apartment house on the first floor and who works in the drug program with MADDEN, also came to the apartment. (HARDY's report to the FBI of a meeting with GRADY's group on July 14, 1971.)

Page 108, Paragraphs 4 & 5

HARDY observed that GRADY appeared very moody and "blew up" saying that he was tired of being in charge of everything, and that he wanted the other members of the group to take more initiative. He directed these comments to COOKIE and ANITA.

The other members of the group then determined what positions would be taken for their nightly surveillance. It was determined that COOKIE and ANITA would take the positions on the roof of the Townhouse Apartments, and that MIKE GIOCONDO would go to the 5th and Cooper Streets corner of the Church where he would set on the steps and observe the police patterns on Cooper Street, 5th Street and Market Street. (HARDY's report to the FBI of a meeting with GRADY's group on July 16, 1971.)

Page 109, Paragraph 5

HARDY related that after "blowing up," GRADY left the basement area during the meeting and was not seen by the other members of the group for the remainder of the evening. He mentioned that GRADY has been sick with an ear and throat infection for the last two or three days, and that Dr. ANDERSON examined him on Thursday night and had prescribed some medicine for him. He also observed that GRADY is very tired due to the fact that he has been getting very little sleep recently. The incident that caused GRADY to "blow up" was when COOKIE asked him what the positions would be for the night surveillance. It was at this point that GRADY said to COOKIE that he was tired of being the "professional manager" of the group, and that other members of the group should also assume some initiative. (HARDY's report to the FBI of a meeting with GRADY's group on July 16, 1971.)

Page 111, Paragraphs 2, 3, and 4

On July 18, 1971, he went to the residence of Doctor WILLIAM ANDERSON, Collingswood, N.J., arriving at approximately 8:30 p.m. Upon entering the residence, he noted that those in attendance were JOHN GRADY, MEL MADDEN, GENE DIXON, MARTHA SHEMELEY, MIKE GIOCONDO, BOB GOOD, ANITA, and COOKIE. He noted that the conversation as he entered was centered upon the fact that the target date had been tentatively set. It was mentioned by members of the group that they did not want anyone outside of those in attendance on that night to know any further details regarding the hit. When MEL MADDEN questioned GRADY with regard to the definite time and date of the hit, GRADY replied that the hit would take place within the next ten to fourteen days. GRADY also mentioned that if the hit was not made within the next fourteen days, then it would have to be cancelled. ANITA mentioned that a prime consideration within the underground movement is that individuals must be patient, especially with regard to the "casing" of a draft board.

MADDEN stated that after the draft board hit was completed, the group should sit down and discuss what further activities would be undertaken by this particular segment of the East Coast Conspiracy group. MADDEN indicated to the group that he felt that the time for draft board hits was over. From what MADDEN said, it was his, HARDY's, impression that the draft board hit in Trenton either apparently "did not come off" or that it was unsuccessful.

A slide projector was then brought forth and slides were shown. These slides were slides of the Post Office which MIKE GIOCONDO had taken. The members of the group then discussed the different ways by which they could gain access to the draft board window. While this was being done, COOKIE and ANITA were setting up the chart which dealt with the commitments for the surveillance for that night. A new surveillance point is now being used by the group. This point is a small parking lot on 4th Street, between Cooper and Market Streets, on the west side of the street.

DIXON and SHEMELEY drove their car to this parking lot on the night of July 18, 1971, parked it there, and from there were able to observe a portion of the Post Office mailing platform. (HARDY's report to the FBI of his meeting with GRADY's group on July 18, 1971.)

Page 118, Paragraph 4

JOHN GRADY has devised a plan that calls for several cars to block key intersections at the time of the hit to insure that the hit team has sufficient time to go unnoticed from the alley to the roof of the Post Office building. (HARDY's report to the FBI of his meeting with GRADY's group on July 19, 1971).

Page 118, Paragraph 5

BOB GOOD mentioned that RORO is ROSEMARIE RILEY (phonetic). GOOD also mentioned that he is leaving for New York on Tuesday morning and will spend a couple of days there contacting others who are experienced in actions of this type. GOOD mentioned that he did not feel that it would be any trouble to get additional "old actors" to come down for the hit. (HARDY's report to the FBI of his meeting with GRADY's group on July 19, 1971).

Page 119, Paragraph 1

It was mentioned that GENE DIXON has taken a week off from his job in order to do some daytime surveillance work in Camden. It was his (HARDY's) impression, from what was said, that DIXON would possibly be coming back into the Post Office building to look around a bit more. It was also mentioned that possibly one person would go into the Post Office building the day before the hit and stay there until the hit took place. JOHN GRADY mentioned that he liked the idea of someone spending the night prior to the hit in the Post Office building. (HARDY's report to the FBI of his meeting with GRADY's group on July 19, 1971).

Page 123, Paragraph 2

He (HARDY) would present (presented) the present plans for the Camden "Draft Board action" as told to him on July 19, 1971, at Doctor ANDERSON's residence, Collingswood, N. J., by JOHN GRADY, ANITA and COOKIE.

(HARDY's report about the plans for the Camden "Draft Board action" as told to him on July 19, 1971, by GRADY's group).

Page 134, Paragraph 2

HARDY has noted that when GRADY "blows his stack" at the group, that he is really directing it towards COOKIE and ANITA, since they are more or less taking training lessons from him. (HARDY's report to the FBI of his meeting with GRADY's group on July 21, 1971.)

Page 136, Paragraph 5

After the discussion concerning DIXON, JOHN GRADY mentioned that this would no longer be a "Camden action" because he (HARDY) was the last person from Camden who was actually physically involved. GRADY said that they would definitely have to bring in outsiders to perform the hit. GRADY mentioned that this was in keeping with past experiences, where they had been able to get very little "community involvement." (HARDY's report to the FBI of his meeting with GRADY's group on July 22, 1971.)

Page 137, Paragraphs 4 and 5

He, (HARDY), stayed at the ANDERSON residence until about 12:30 a.m. When he said good night to the group, GRADY said that he would be going to the Law School Building to do some observation work by himself. GRADY walked with him about one-half way to where his (HARDY's) car was parked and while doing so, told him that he would really like to have him think about becoming more involved in this type of thing. GRADY told him that he had the type of talent that was needed in the underground.

This morning he went to the ANDERSON residence at about 8:15 a.m., and spoke with GRADY for about ten minutes. GRADY, at this time, again mentioned that he really needed someone like him in his organization. (HARDY's report to the FBI of his meeting with GRADY's group on July 22, 1971.)

Page 141, Paragraph 2

During discussions last night, GRADY said that the group was not ready for the action as yet. ANITA concurred in this opinion. GRADY said that things were "just not tight enough." (HARDY's report to the FBI of his meeting with GRADY's group on July 23, 1971.)

Page 141, Paragraph 5

GRADY has mentioned that when the action takes place it will be on a Saturday or Sunday night. Last night GRADY said that they will need twelve cars, six with drivers and six parked. GRADY told members of the group last night that they should start thinking about where they could get extra cars. GRADY indicated that these cars would be used to effectively block off different area, if need be. (HARDY's report to the FBI of his meeting with GRADY's group on July 23, 1971.)

Page 143, Paragraphs 1 and 3

It was HARDY's opinion GRADY is "dragging this thing out" because he has nothing to do after this action. He has also observed that GRADY is very security conscious at this point.

ANDERSON and GRADY both have indicated that they feel that plans are "almost down pat" and that they will have to wait a little longer before actually conducting the action. (HARDY's report to the FBI of his meeting with GRADY's group on July 23, 1971.)

Page 163, Paragraph 7

COOKIE commented that during the two years that she has known GRADY, that this is the most "strung-out," tired, irritable, and short tempered, that she has ever seen him. COOKIE said that she has never seen GRADY at such a low point. COOKIE felt that this was due to the heavy effects of the surveillances, or casings; the fact that he has had to spend much time away from his family; and other factors. COOKIE felt that another reason for GRADY's low morale was the fact that he has not been getting any real physical help from the Defense Committee in New York City. (HARDY's report to the FBI of his meeting with GRADY's group on July 27, 1971.)

Page 180, Paragraphs 2 through 4

On July 31, 1971, at approximately 5:00 p.m., BOB GOOD, MIKE GIOCONDO, NED MURPHY, and FRANK (last name unknown - believed to be PARMAGON [phonetic], who is the boy friend of ANN DUNHAM) came to his (HARDY's) residence for dinner. It was mentioned that JOHN GRADY, ANITA, COOKIE, and ANN DUNHAM were still at the shore helping Mrs. GRADY in the setting up of the camp site.

Through conversation with FRANK, he learned that he (FRANK) is a lawyer with "The Model City's Program" in New York City, and that he was formerly with VISTA (Volunteers in Service to America). He also mentioned that he worked in Alaska for a couple of years before he went to work for VISTA.

FRANK is a white male, 5'10" in height, 150 pounds, with long dark hair, (not exceptionally long, but "collar length,") thin frame, and approximately 25 years of age. (HARDY's report to the FBI of his meeting with GRADY's group on July 31, 1971.)

Page 182, Paragraph 7

During this conversation, GRADY said that he felt things looked pretty good, but that if he could not see things clear between now and next weekend, that the "action" would be "called off" for a couple of months. GRADY indicated that he was "tired" and "worn out," and that all members of the group were also tired. GRADY indicated that if the action could not be "pulled off" by the next weekend, that taking a couple of months off would enable members of the group to return to the area with a fresh outlook. (HARDY's report to the FBI of his meeting with GRADY's group on July 31, 1971.)

Hardy Allegation

"At first, the FBI instructed me not to present any new thoughts or ideas to the group. However, after a while they encouraged me to suggest to the group the exact illegal activities about which I had originally come to them.

"They told me that all they wanted was enough evidence of a conspiracy to raid the draft board. They told me that this would be a lot better than if some of my friends were charged with the actual crime itself. I was greatly confused at this time, but I trusted the FBI, and eventually I carried out their wishes.

"By mid-July I had gained a strong leadership position with the group. I told the FBI, with who I was in daily contact at this time, that this was not quite right. I was no longer a mere informer but was now a promoter or provocateur. They told me to continue.

"In the course of the next month, following the instructions of the FBI Agents, my leadership was increased to the point that it became absurd. I was not only encouraging the group to raid the Camden Draft Board, I was initiating the plans to do so."

allegation

Response

Special Agent Michael M. Ryman advised that from the very first contact made with Hardy and throughout the period Hardy furnished information to the FBI he was instructed on numerous occasions not to assume a position of leadership within the group. Hardy was specifically told not to initiate any resurgence of the plan to break into the draft board if it appeared that the attempt was bogging down. He was specifically instructed that he could do things requested by, instructed by, and suggested by any members of the group. He was specifically told that if the action to break into the draft board "fell through," he was not to do anything to resurrect it. Further, at no time were any promises made to him regarding the future of the participants relative to arrests, charges, or prosecution. He was told on numerous occasions that the United States Department of Justice was the only authority empowered to authorize arrests in this situation.

Page 10, Paragraph 4

HARDY related that in the first hour of conversation the two girls were not present and that most of the talking was done by GRADY. He felt that GRADY was sizing him up. GRADY related to him that he ran for the Senate in the Bronx in New York in 1955-56. He stated that he was a sociologist and had gone to college twice for four-year terms. He apparently spent four years in the Navy at the time of the Korean war. GRADY was not too clear about this. GRADY further related to him that he was involved in four previous draft board break-ins in Philadelphia a year and a half ago. GRADY bragged about how he helped to coordinate 50 to 60 people in these draft board break-ins. GRADY stated that he had been picked up about a year and a half ago and that the authorities had a difficult time finding out who he was. GRADY stated that it took them several months because, apparently, they did not run a fingerprint check on him.

Paragraph 5

HARDY described GRADY as a very dynamic individual but that he, HARDY, felt that he was a little crazy; but, nevertheless, he is the type of individual who inspires and motivates.

Page 12, Paragraph 3

HARDY advised that he has been given an assignment to go into the Post Office and get a detailed floor plan of the fourth and fifth floors, specifically looking for any electrical tape alarm systems on the windows. HARDY made the observation that they are going to come into the Post Office through a window on the fifth floor. GRADY and

his group are concerned about the key system as far as security measures are concerned. They want to know exactly where alarm systems are located. They also want to know how many windows and what windows line up with what offices on the fourth floor in order that they can check the guard's movements when they have the Post Office under surveillance.

Page 13, Paragraph 1

HARDY advised that ANTOINETTE does all the filing on the accumulation of information but that GRADY actually runs the operation. COOKIE, HARDY observed, is a supplement to the team. HARDY made the observation that MIKE GIOCONDO is a more or less overpowered by GRADY's personality. HARDY feels that this is due to GRADY's magnetism and that it is of an intense quality so as to overcome the average person who is not ready to cope with it.

Page 14, Paragraph 2

HARDY again questioned GRADY as to whether he would need sleeping quarters and places where meetings could be held for people coming into the Camden area. GRADY answered by stating that he was not totally sure about it and that he would confide in HARDY at a later date.

Paragraph 5

HARDY was instructed by GRADY to go into the Post Office on June 30, 1971, to the fourth floor and get a detailed floor plan. He was instructed to ascertain, among other things, if there were window locks on the fire escape on the fourth and fifth floors and whether the locks could be opened from the outside; and, if they have to be forced, what type of tools would be needed. GRADY also wanted him to check the alarm system again on the windows on the fifth floor as to whether there is or is not a system.

Page 15, Paragraph 3

HARDY advised that they do not want to make contact with any person in the Post Office. They just want to get to the draft board and possibly the office of Army Intelligence. They had made a point in instructing HARDY that he also check out the Army Intelligence Office when he is on the fourth floor. They also instructed him to obtain the telephone number of the public pay phone on the fourth floor in order that they, when they are in the building, can use it as a contact with the people outside.

Page 17, Paragraph 2

HARDY stated the reason he thinks he has been approached to help with this action is on the recommendation of MIKE GIOCONDO. GIOCONDO knows from past experience that HARDY is efficient and has been able to muster the type of people and financial resources that can carry out a given task efficiently. HARDY has been able in the past to muster the necessary physical resources, such as trucks, cars and people. (HARDY's report to the FBI following his meeting with GRADY's group on June 29, 1971).

Page 19, Paragraph 3

The group desires that HARDY go back to the Selective Service Office and attempt to determine where the files are kept for those registrants who are classified 1-A. The group has indicated that when hitting the Draft Board they will be concerned only with the 1-A classification files. At this time they are unsure as to whether or not they will carry the files from the office or whether they will destroy them on the spot. The group's second target, if possible, is to hit the Army Intelligence Office located on the fourth floor of the U.S. Post Office Building. They

are interested in taking files such as the files that were taken from the FBI Office in Media, Pa. It was HARDY's impression from discussions with the group that the theft of the FBI files in Media, was looked upon as a great act of courage by the "underground", and that other groups are now trying to duplicate their efforts and release the files as the Media files have been released.

Page 20, Paragraph 4

It was suggested at this meeting that HARDY could be in his truck and could pull it into the post office driveway, thus blocking off the driveway, in the event that those who go in the Draft Board would have to exit quickly. It was suggested that he could use the pretext of his truck being stalled. HARDY agreed to this phase of the plan.

Last Paragraph

It is HARDY's opinion that these people who are involved would not be so involved were it not for the driving force and personal magnetism of JOHN GRADY.

Page 22, Paragraph 2

He also told the group how he had gone to the Selective Service Office and talked with the receptionist to find out who was in charge of the office. He then spoke with the woman in charge, who is Mrs. FURLONG (phonetic). He discussed with Mrs. FURLONG the draft status of ex-convicts upon their release from prison, and whether or not they had to sign up with the Draft Board upon being released or not. While he was there he was able to note the number of windows, the type of locks, and whether there were any type of electrical devices on the windows that would set off the alarm. He was unable to note any electrical devices and so related this to the group. He was able to see the fire escape window, through which the group intends to gain entry. He related all of the above information to JOHN GRADY at this meeti

Last Paragraph

After leaving the Draft Board Office he checked the doors on the alley side of the Post Office Building attempting to see if he could gain entrance to these rooms. He was unable to gain entry to any of these rooms. At this point in the discussion at the meeting, GRADY said that when they made the Draft Board hits in Philadelphia, one of the hits was on South Broad Street. In referring to this hit, GRADY mentioned to the group that there was an alarm system on the door at this draft board and that because of this they proceeded to take an electric saber saw, with which they cut the door in half, thereby going through the bottom half of the door and not setting off the alarm. GRADY explained that they were going in from the outside, into the Post Office Building in Camden, due to the current security system at the post office.

Page 23, Paragraph 3

They had also requested he determine if there was a telephone on the fourth floor of the Post Office and if so what the number of the telephone was. He related to them that he had learned that there was not a public telephone on the fourth floor, nor was there one on the fifth floor.

Paragraph 4

HARDY was given instructions by the members of the group to see if he could obtain three walkie-talkies, as they desire to have one walkie-talkie in operation inside the Draft Board Office, one on the roof top of the Town House Apartments, and one with the people on the street, so that they would at all times be ready to run and avoid detection.

Last Paragraph

JOHN GRADY mentioned that he was the one who helped engineer the four hits on Draft Boards in Philadelphia, Pa. GRADY mentioned that there would be outside help coming to Camden to assist in the hit. He did not mention any names of these people, however GRADY did say that the people would be coming from Pennsylvania and New York.

Page 24, Paragraph 1

GRADY requested that HARDY obtain the registration data with regard to a vehicle that was observed by members of the group during the last week. This license number was New York License XN6913. HARDY told them that he would attempt to learn this information from a policeman who was a friend of his.

Paragraph 2

GRADY also requested that HARDY obtain registration data for another vehicle, which has been noted by GIOCONDO in the area of GIOCONDO's apartment. The license number of this vehicle is New Jersey License PJM568, and the vehicle is driven by a tall, heavy set white male.

Paragraph 6

HARDY was asked to draw a large-scale sketch of the information with regard to the floor plan of the Post Office Building. When HARDY left the building the members of the group were looking at this sketch and trying to add to it from what ANITA had seen when she had gone to the Post Office Building. It was about five minutes after twelve when HARDY left the meeting. They requested that on his way home he pass by the Police Garage which is located by the Sears parking lot and note how many civilian cars are parked there. HARDY explained that the group is trying to get an idea of how many police cars are on the third shift or midnight shift at any one time. They had mentioned to him that if they go into Camden they drive by the Police Garage and count the cars so that they will know how many black and white cars are on the street.

Page 25, Paragraph 3

GRADY, while at the meeting referred to the "hit" at the Media, Pa. FBI Office as a rally point. GRADY stressed the need for the Draft Board hits to be successful, namely because the underground needs these shows of courage. GRADY also said that

if possible the second target in Camden would be the office of Army Intelligence on the fourth floor of the Post Office Building. GRADY said that the purpose in hitting the Army Intelligence Office would be to learn from Army Intelligence records, the information that was on file, with regard to members of the group. GRADY has mentioned that the hit would take place on a Sunday night after midnight, which would actually make it a Monday morning. GRADY anticipates that it will take approximately an hour to carry out the hit.

Paragraph 4

HARDY learned while at the meeting that up until last Wednesday night, (when members of the group observed that they were surveilled by the FBI), MARTHA SHEMLEY and others had all been included in the meetings. However, from Wednesday night on, the meetings have been confined to GIOCONDO, JOHN GRADY, COOKIE, and ANITA. Last night was the first time that members of the group had contacted MARTHA SHEMLEY since that Wednesday night. Apparently the group feels more secure and intends to start calling other members of the group to the meetings again. GRADY had said that he would like to have the Camden Area group remain active even after he left. (HARDY's report to the FBI of his meeting with GRADY's group on June 30, 1971).

Page 28, Last Paragraph

HARDY advised that GRADY and his group eat a community dinner at approximately 9 o'clock in the ANDERSON home. He stated that while they were eating GRADY received a telephone call from a person with the last name of MC BRIDE. He stated that this is the first time he has heard the name MC BRIDE. GRADY took the telephone call personally and went into another room to talk with MC BRIDE. HARDY stated he was unable to hear what was said in the telephone conversation.

Page 29, Paragraph 3

HARDY advised that he has ascertained two more individuals who are involved in GRADY's group.

Page 31, Paragraph 1

HARDY advised that before he left the ANDERSON home he was instructed to take a specific route which passes by the police garage or city garage, which is located behind the Sears store. He was instructed to be at the city garage at 12 midnight in order that he could check the civilian cars, black and white patrol cars, and unmarked police cars that are parked in the city lot.

Page 33, Paragraph 3

HARDY further related that after checking out the alleys, he and GRADY went back to the station wagon, crossed the driveway behind the Post Office, drove through the basketball courts behind the Methodist Church on Cooper Street, and then proceeded around to check out where GRADY wants his security cars parked so that they can watch Cooper Street and 5th Street for the approach of police patrols.

Last Paragraph

GRADY is also thinking about putting another car down at 3rd and Copper Streets so that the person can watch the traffic coming up 3rd Street towards Cooper. This is a main route. GRADY is also thinking of putting another lookout on Market Street in order that the lookout can see City Hall Police Station and most likely another lookout in the vicinity of the White Tower Restaurant. GRADY advised all in all they are going to have one on Market Street, one or two on Central between Market or possibly between the White Tower and the police department, plus the various lookouts on Cooper Street.

Page 34, Paragraph 2

HARDY advised that the means of communication will be by a series of flashlight signals. GRADY figures that no one will pay too much attention to a light flashing for a split second.

Page 35, Paragraph 2

Once on top of the Townhouse Apartments' roof, GRADY pointed out to HARDY the route of the night watchman. After about 10 minutes of observing the building, the first light went on on the second floor of the 5th Street wing. As the night went on, GRADY told HARDY what the watchman's route would be. HARDY related that the group is primarily interested in the watchman's pattern as he goes from floor to floor and across the floors.

Paragraph 3

HARDY stated that GRADY wants to watch the watchman's pattern and make sure he does not vary from it. GRADY times the watchman to see how long it takes him to go from floor to floor. GRADY and the group watch the illumination on the 5th Street wing which comes through the window as the lights are popped on in the main building.

Page 37, Paragraph 2

GRADY then changed the topic of conversation to the possibility of hitting the Army Intelligence Office on the fourth floor in order to grab some of their personal records. GRADY seemed particularly interested in knowing if Army Intelligence keeps files on people like HARDY or other people in GRADY's group.

Last Paragraph

HARDY advised that from all indication the hit will occur on a Sunday night and that it is several weeks away. He stated that it will most likely occur between the hours of 12 midnight and approximately 4 a.m.

Page 38, Paragraph 1.

HARDY related that while he was on the rooftop with GRADY, GRADY started to press him for supplying some of the equipment and information that he, GRADY, had earlier asked for. At this time GRADY stated that he wanted HARDY to go into the draft board office and get a more detailed floor plan of where the 1-A files are located. GRADY also wanted him to acquire some walkie-talkies. GRADY approached him for some money, stating that he would need more money now that his wife and five children are coming down on Sunday afternoon. HARDY explained he was not sure if GRADY wanted him to go up to East Orange, N.J., to pick up GRADY's wife and family.

Last Paragraph

HARDY went on to relate that MIKE GIOCONDO is now staying at Dr. ANDERSON's home and that the group will be getting together tonight, tomorrow, and Sunday night and that some new people will be present. The general impression that HARDY got was that larger meetings will take place and that GRADY feels it is necessary to include everybody involved in the planning sessions.

Page 39, Paragraph 1

HARDY advised that at about 1:30 a.m., he left the roof of the Townhouse Apartments, went down to Cooper Street and over to 4th Street. He then went down 4th over to Market Street to the White Tower and picked up his truck and went home.

Paragraph 2

HARDY desired to relate something which he thought was of particular importance concerning his conversations with GRADY while they were both in the alley behind the Post Office. He stated

GRADY toyed with the idea of utilizing his, HARDY's, truck right below the fire escape so that when the people came out they could bring the files with them and, without being noticed, immediately get into the truck and depart the area. GRADY pointed out to him that on Sunday nights the platform lights are turned off, and GRADY felt that it would be a simple maneuver to get into the building provided the alarm system on the fire escape was taken care of. (HARDY's report to the FBI of his meeting with GRADY's group and subsequent events on July 1, 1971).

Page 40, Paragraph 5

At the meeting JOHN GRADY stated that the target date for the hit would be on a Sunday evening within the next three weeks.

Page 41, Paragraph 4

At about 10:30 p.m., HARDY said to GRADY that he did not feel he could be of anymore use on that night and that he would be leaving. He asked GRADY what his plans were for the evening. GRADY said that he and the rest of the group would be going down to Camden for their normal nightly watch routine, which would include observing the police station, the police garage, as well as observations from the roof of the Townhouse Apartments of the U.S. Post Office Building. GRADY then walked HARDY to his (HARDY's) vehicle where they sat and talked for about an hour.

Page 42, Paragraph 3

GRADY indicated to HARDY that he would bring in people from the outside, who are veterans at this sort of thing, to take part in the hit. GRADY, however, did not name these people at that time. GRADY told HARDY that he wanted him to drill the glass and pop open the window and "stuff like this". GRADY also indicated to him that he

thought that he (HARDY) was sharp and desired that he continue working with GRADY after the hit. GRADY indicated to him that he was confident of being successful in the draft board hit because he had "pulled off" so many of them before. GRADY emphasized to him that he could use a man like him in his organization.

Page 43, Last Paragraph

GRADY indicated that he has more or less set the pace for this sort of thing (draft board break-ins) for the past two and a half years. (HARDY's report to the FBI of his meeting with GRADY's group on July 2, 1971).

Page 47, Paragraph 2

GRADY mentioned that he would not be involved in the actual break-in of the Post Office but that he would be working from one of the vantage points. GRADY has indicated that he would probably be on the apartment house roof or on one of the lookout cars.

Page 48, Paragraph 1

HARDY learned that GRADY had made several telephone calls to POPPI SHARP. He does not at this time, however, know the extent of POPPI SHARP's involvement in this matter.

Paragraph 2

No plans have been made as yet as to what will be done with the files once they are removed from the draft board. GRADY desires to first learn how many 1-A classifications there are before making this decision. GRADY desires that about five people go into the draft board and that each will have a shoulder type tote bag which they could use to carry out files.

Paragraph 4

GRADY has indicated that they will use his, HARDY's van for the purpose of hauling away the files that are taken from the draft board. (HARDY's report to the FBI of his meeting with GRADY's group on July 3, 1971).

Page 49, Paragraph 3

After GRADY's arrival a meeting took place. Present at the meeting were JOHN GRADY, MIKE GIOCONDO, COOKIE, ANTOINETTE, also known as ANITA, GENE DIXON, MARTHA SHEMLEY, and Father MICHAEL DOYLE. During the meeting plans were made with regard to hitting the draft board located at the Camden Post Office. The date of the hit was set for July 18th. GRADY indicated that on the night of the hit he will be located on the roof of the Townhouse Apartments from where he will handle the communications for the group. GRADY has indicated that two other people (not as yet designated) will be with him on the roof of the Townhouse Apartments. GRADY has indicated to him that at least five people will be going into the draft board.

Paragraph 4

GRADY desires that he, HARDY, go to the draft board on the coming Wednesday afternoon in order to obtain some idea as to where the 1-A draft records are kept. According to plans, GRADY has designated HARDY to be on the street in his van, to act as a pickup unit for the people who make the hit as they come from the Post Office into the alley. GRADY has indicated that the plans call for them to carry out as many of the files as they can by means of knapsacks which they will have on their backs.

Page 50, Paragraph 1

GRADY has indicated to him that he wants to have walkie-talkies for use on the night of the hit and that the group will gain entry to the draft board by using a portable drill to drill through the glass windows of the draft board.

Paragraph 2

The group left the residence of Dr. ANDERSON at about 11:30 p.m., and went to their different positions within the Camden Post Office area. It was decided by GRADY that the hit will be made after midnight and that the group would consist of at least 18 people.

Paragraph 3

At this point HARDY pointed out that he has learned that COOKIE sits on the front porch of Dr. ANDERSON's residence during the day and jots down license numbers of any cars which pass by and appear suspicious to her.

Page 52, Paragraph 3

The plans called for Father MICHAEL DOYLE, COOKIE, and JOHN GRADY to be on the roof of the Townhouse Apartments. GRADY will run the communications of the operation from that point.

Paragraph 5

GRADY mentioned that plans call for the possibility of POPPI SHARPE, leader of the Black Peoples Unity Movement, to have one of his blacks throw a firebomb at the bank located in front of the Army Reserve Center, Camden, N.J. This would, according to GRADY, serve as a good diversionary tactic drawing police department and fire department units away from downtown Camden to the area of the Army Reserve Center.

Page 53, Paragraph 1

GRADY has suggested that GENE DIXON and HARDY go to the draft board in Camden on the coming Wednesday afternoon in order to gain further information with regard to the floor plan and location of the files. (HARDY's report to the FBI of his meeting with GRADY's group on July 4, 1971).

Page 55, Paragraph 2

On that night, GENE DIXON surveilled from both the position in the alley at the U.S. Post Office and one of the positions on the roof of the Townhouse Apartments. HARDY explained that the group rotates their positions every 30 to 45 minutes. After about one half hour on the roof, JOHN GRADY came to the ROOF. He, HARDY, spoke with GRADY for about 20 minutes. GRADY mentioned to him that he, GRADY, was the "pro of the group." GRADY stated that he was involved in 14 of 18 actual draft board hits.

Paragraph 5

During the evening, GRADY gave him the license numbers of cars that had been noted by the members of the group. GRADY told him that he desired that he have a license check on these cars to determine the owners. GRADY indicated that he and members of the group felt that these cars were possibly federal cars which were surveilling them. One license number was PXB-521, and another was SYX-389. Another car was one bearing license number UXF-411. All cars bore New Jersey license plates. GRADY had mentioned two of the cars were observed in the area nearby Dr. ANDERSON's residence, and one of them was noted by MIKE GIOCONDO in the vicinity of his, GRADY's, apartment.

Paragraph 6

HARDY advised that GRADY has mentioned that surveillance, on the night of the hit, will be initiated at about midnight. (HARDY's report to the FBI of his meeting with GRADY's group and subsequent activities on July 5, 1971).

Page 57, Paragraph 2

HARDY advised that he remembered something that he wanted to report which he had forgot to report yesterday. HARDY advised that two more names were mentioned by GRADY as, in HARDY's opinion, current sympathizers or in some way helping GRADY in his activities. Their names are MAUD and TOM O'DELL. These people live in Hi-Nella, N.J.. GRADY mentioned that in case his group needed to rent a truck or U-haul, these people would do it, and he implied from GRADY's comments about the O'DELLS that they were a source of possible income. (HARDY's report to the FBI of a meeting with GRADY's group July 6, 1971.)

Page 57, Paragraph 3

HARDY advised that last night, July 6, 1971, he received a telephone call from MIKE GIOCONDO. JOHN GRADY had called him and asked him to come out a little bit earlier than when the group normally meets. GRADY stated to MIKE that he wanted to go over some slides and plans and to prepare GENE DIXON and HARDY for their entrance into the draft board this afternoon for the purpose of gathering more information. (HARDY's report to the FBI of a meeting with GRADY's group on July 6, 1971.)

Page 58, Paragraphs 4 & 5

HARDY advised that after viewing the slides, GENE DIXON engaged him in a conversation relating to the proposed visit by DIXON and HARDY to the draft board and that tentative arrangements were made to meet at the White Tower at 3 p.m., this afternoon. The plan was then to go to the Post Office and visit the draft board. HARDY advised that one of the things that they were instructed to find out while in the draft board is the physical geography of the front as far as the alarm system and fire escape is concerned. He noted GRADY's group

is only interested in the 1A classifications. One of the other things that they are to definitely observe is the location of the watchman's key. HARDY again related that they were instructed to check and see if there were any alarms on the doors and windows and to check the name on the filing cabinets so that GRADY could know the type of lock on the cabinets. He noted that there is a possibility that GRADY's group could obtain a master key from KIRK, a fellow in Philadelphia. They were also instructed to look for power sources in case the group that goes into the draft board decides to take electric drills.

HARDY advised that his second main objective along with DIXON is to check the second and third floors on the 5th Street wing. GRADY wanted to know the exact location and what offices are located where. (HARDY's report to the FBI of a meeting with GRADY's group on July 6, 1971.)

Page 59, Paragraphs 1 & 5

HARDY related that the third objective is to get down into the mail room and see if there is an alarm panel box for the fire escape and to see if it is clearly marked. HARDY made the observation that there is the possibility that someone from GRADY's group could get down into the mail room and turn off the alarm.

HARDY related that while he was with GIOCONDO en route to the Town House Apartments, he had learned from GIOCONDO that GIOCONDO had met two of GRADY's people from the Philadelphia group, but that he only met them by their first names. HARDY learned that these two people are an ANNE (LNU) and a BETH (LNU). He explained that both are white girls about 22 years old and that they work at the bookstore in the vicinity of Temple University. He explained that the reason the Philadelphia group has not been brought into this action is that they are more radical than GRADY and they dress in a more hippie type style, and that they play around with the drug scene a little bit. He explained that GRADY has a low opinion of them. (HARDY's report to the FBI of a meeting with GRADY's group on July 6, 1971.)

Page 60, Paragraph 2

HARDY explained that another topic of conversation with MIKE GIOCONDO was the East Coast Conspiracy to Save Lives. He advised that he pressed GIOCONDO for more information about this group and the 200 people that were mentioned earlier. GIOCONDO answered the question by stating that he had pressed GRADY in the early stages of this thing but that GRADY had always pushed it aside and pushed GIOCONDO very hard to recruit people for this particular action. HARDY advised that at the meeting GRADY had stated to him that he was involved in the Dow Chemical action in Michigan. GRADY did not say what the names were of those involved but stated that it was a simple operation. (HARDY's report to the FBI of a meeting with GRADY's group on July 6, 1971.)

Page 65, Paragraph 4

HARDY mentioned that GRADY had decided that one of the things that he would like to have checked would be to see whether or not the employees of the Post Office actually sign out when they leave the Post Office for the day. GRADY had mentioned to him that it might be possible for several people to go into the Post Office together during the day and for all of them, except one, to hide in the Post Office while one of the group would leave and sign the entire group out at the register. (HARDY's report to the FBI of a meeting with GRADY's group on July 7, 1971.)

Page 67, Paragraphs 2, 3, & 4

GRADY mentioned POPPI SHARPE during the meeting last night, and it was apparent to HARDY that GRADY has been talking extensively with POPPI SHARPE from time to time. GRADY mentioned that POPPI SHARPE's favorite thought was that "you have to put the fear back into the man" (meaning the establishment). GRADY has mentioned how POPPI SHARPE feels that only when the authorities fear the people will they respect them.

HARDY mentioned that GRADY desires that he and DIXON go into the FBI office in Camden under suitable pretext so that they might learn of information relating to the alarm and security systems of the

FBI Office. He explained that they would use the pretext of trying to learn from the FBI the procedure used in investigating an ex-convict who applies for a job with the Post Office. MARTHA SHEMLEY and GENE DIXON also mentioned the prospects of going into the FBI Office. As the plans stand now, the draft board is target #1. Army Intelligence is possibly a second target and, if it is feasible, the FBI Office would be the third target.

From conversations with the group, HARDY has learned that COOKIE, ANITA and JOHN GRADY have been in other draft boards before when records were destroyed. He mentioned that GRADY related to him that he was involved in draft board hits when records were destroyed. From the conversations it was also indicated that COOKIE and ANITA were involved in a draft board hit in Philadelphia. (HARDY's report to the FBI of a meeting with GRADY's group on July 7, 1971.)

Page 68, Paragraph 2

On July 8, 1971, while talking with JOHN PETER GRADY, GRADY mentioned the "East Coast Conspiracy To Save Lives," and indicated that his (GRADY's) main contact with this group is in East Orange, N.J. According to the source GRADY said this group is a loose-knit organization of about 200 people. (HARDY's report to the FBI of a meeting with GRADY's group on July 8, 1971.)

Page 69, Paragraphs 2, 3, & 4

On July 8, 1971, he attended a meeting at the residence of Dr. WILLIAM ANDERSON; located on Hardin Avenue in Collingswood, N.J. Upon his arrival JOHN GRADY and his (GRADY's) family were preparing for the evening meal. COOKIE and ANTOINETTE, also known as Anita, were also there. The group was still elated over the experience of DIXON and himself the day before at the draft board. The group was anxious to get started on the information obtained. He learned that GENE DIXON and MARTHA

SHEMLEY had been at ANDERSON's residence for a short while before he arrived.

He learned that COOKIE and ANITA had made contact with some of the Philadelphia group. They have started calling them (the Philadelphia group) at certain times.

After the evening meal was finished, he went into the living room area with GRADY, ANITA and COOKIE and they talked at length about the proposed breakin and the problems they have come up against during the past breakins and what they were going to do to solve these problems. During the discussion, it was revealed that money will be supplied by people such as Dr. ANDERSON and CALLAHAN (no further identification on CALLAHAN). JOHN GRADY referred to "The East Coast Conspiracy group" and that their main contact with this group is in East Orange, N.J. According to GRADY, this East Coast Conspiracy group is a loose-knit organization of about 200 people. GRADY also referred to a JOHN NICHOLSON from Philadelphia, who is apparently a key man in this group. (HARDY's report to the FBI of a meeting with GRADY's group on July 8, 1971.)

Page 71, Paragraph 3

GRADY related this story with first-hand knowledge. GRADY again emphasized that he has been the key man in 14 out of 18 draft board hits within the last 2-1/2 years. GRADY said that he was the one who developed the style for the break-ins. GRADY said he is now developing the style for outside break-ins. (HARDY's report to the FBI of a meeting with GRADY's group on July 8, 1971.)

Page 72, Paragraph 5

JOHN GRADY mentioned that this was the first time they tried to hit a draft board from the outside and that it was the first time they had tried to get community involvement. GRADY related to him

that in the past they have gone into a community where there was some indication that there were sympathizers in the area. The sympathizers would then set up observations for three to four weeks. GRADY and his assistants would come into the area and spend another week doing detail work. The "old actors" would then come in and spend two or three days assembling, conducting dry runs, and getting the general feel of the area. After this the hit would be made and they would then disperse, leaving three or four local people behind. (HARDY's report to the FBI of a meeting with GRADY's group on July 8, 1971.)

Page 73, Paragraphs 2 & 4

GRADY also mentioned that Brother PHILIP KELLY of El Centro, Camden, N.J., was GRADY's initial contact in this area. GRADY mentioned that KELLY had set up the initial meetings but later dropped out of the plan.

HARDY mentioned that it was either COOKIE or ANITA who mentioned renting the truck for the weekend from one of her friends in the Philadelphia area. (HARDY's report to the FBI of a meeting with GRADY's group on July 8, 1971.)

Page 74, Paragraph 3

GRADY has mentioned that DR. ANDERSON and CALLAHAN would probably be in vehicles on the street somewhere on the night of the draft board hit. GRADY also mentioned that Dr. ANDERSON's flat above his office will be made available for sleeping quarters for some of the "old actors" who will come in two or three days before the hit. (HARDY's report to the FBI of a meeting with GRADY's group on July 8, 1971.)

Page 75, Paragraph 2 & 3

On July 9, 1971, as he was preparing to go to the residence of Dr. ANDERSON, Collingswood, N.J., for a nightly meeting, MIKE GIOCONDO telephonically

contacted him and relayed the message that JOHN GRADY thought that the group was being watched. GIOCONDO related to him that Mrs. GRADY was sitting on the front porch of the ANDERSON residence and noticed a Volkswagen bus which was parked in front of the residence. The man sitting in this bus was staring at the house. This took place on July 8, 1971. GIOCONDO also related that after about ten minutes the man in the Volkswagen bus left and that shortly thereafter, Mrs. GRADY observed a Volkswagen automobile which stopped in front of the house for a few minutes.

HARDY mentioned that earlier in the day of July 9, 1971, he saw COOKIE and ANITA, who stated that they had been talking with some of the "old actors" from North Jersey. They, COOKIE and ANITA, mentioned that some of these "old actors" would be coming down from North Jersey on Sunday night for a meeting at Dr. ANDERSON's residence in connection with the draft board hit. COOKIE and ANITA mentioned that there will be seven of the "old actors" from North Jersey coming down for the hit, and there will be three "old actors" from Philadelphia. (HARDY's report to the FBI of a meeting with GRADY's group on July 9, 1971.)

Page 76, Paragraph 3

GRADY mentioned that MADDEN's apartment in East Orange, N.J., is the headquarters for the East Coast Conspiracy to Save Lives (ECCSL). The target date was set for July 18, 1971, but it was indicated by GRADY that the date might have to be moved to July 25, 1971 in order to give MEL MADDEN time to set his schedule. GRADY stated that MEL MADDEN would be bringing down seven people in cars, to take part in the hit. GRADY also mentioned that MADDEN would provide enough money to support the physical needs of the group for the two or three days while they were in Camden doing the pre-hit surveillance. (HARDY's report to the FBI of a meeting with GRADY's group on July 9, 1971.)

Page 79, Paragraph 2

He further advised that as requested to do so by GRADY, he had at 5 o'clock on July 9, 1971, observed the Postal employees as they left the Post Office building. GRADY's interest in the departure of the Postal employees was to determine if every individual was required to sign out before leaving. On that same afternoon, he saw COOKIE and ANITA downtown. (HARDY's report to the FBI of a meeting with GRADY's group on July 9, 1971.)

Page 83; Paragraphs 1 & 3

It was also mentioned that a girl named ANN (last name unknown) from Philadelphia and the ANN for whom there is a warrant in Delaware both worked at the Temple Book Store with COOKIE and ANITA. From what GRADY said on Friday night, it appeared as if there was a draft board hit planned for the Trenton area that never came off as yet. It was mentioned by the group that they had already done the preparations for a hit in Trenton, but for some reason the hit was not made. They have talked of going back to Trenton after the Camden hit to make the hit at Trenton which had previously been worked out.

GRADY is planning to run a surveillance with his people tonight. GRADY intends to surveil the Post Office Building from the churchyard. As he has done in the past, GRADY will play the role of the "drunken Irishman" if any passersby or police wander into the area. Plans call for the entire group to be on the scene at the surveillance. (HARDY's report to the FBI of a meeting with GRADY's group on July 10, 1971.)

Page 86, Paragraph 3

HARDY advised when he arrived at Dr. ANDERSON's house there were two new people present. These two new people were MEL MADDEN, the brother of the priest at SS. Peter and Paul, Camden, N.J. MADDEN is the head of the state drug program for the State of New Jersey and MIKE GIOCONDO works for him. The other individual was a white male named TERRY (last name unknown). He described

TERRY as 5'6", 160 pounds, age about 28, medium build, with a vandyke type beard, black bush hair - almost afro-style. It was later brought out that he is married to a black woman. Also, present at the meeting were JOHN GRADY, COOKIE, ANITA, GENE DIXON, and MARTHA SHEMELEY. He advised MADDEN and TERRY live in Northern New Jersey. (HARDY's report to the FBI of a meeting with GRADY's group on July 11, 1971.)

Page 87, Paragraphs 3,4, 5, & 6

HARDY advised that POPPI SHARPE had been contacted apparently by GRADY during the past week and that he has committed eight people for the exterior defense on the night of the action. SHARPE's people are to create some kind of a problem if it is needed. HARDY explained this would be some sort of a diversionary tactic to call attention away from the post office. Nothing more was said about the napalming of the army tank in front of the Reserve Center in Camden, although it had been referred to during the course of the discussion some half a dozen times.

HARDY advised another name was brought up. This person might possibly become involved in the action and from GRADY's comment this person has experience and has participated in past actions. GRADY mentioned the name BUSBUY or BUZZARD. HARDY advised GRADY did not go into detail regarding BUSBUY.

HARDY advised next Sunday, July 18, 1971, at 6 p.m., MEL MADDEN and TERRY, along with those people they will be able to bring, will report to the ANDERSON's home for a briefing and will then be paired off with some of the people who are already involved in the Camden action. The tentative "hit time" is going to be between 11:30 p.m., and 12:30 a.m. As yet GRADY and his group have not set the time for sure. HARDY advised while participating with the group in the surveillance last night the group could have gone in at 11:30 p.m. and 12:30 a.m. He explained the surveillance workings as follows:

The surveillance commenced at 11:30 a.m. with every one in the pre-arranged checkpoints. Observations were made for a full ten minutes and then at 11:40 observations were again made as if 11:30 did not happen. These are carried out every ten minutes until approximately 12:20 a.m. This information which is compiled by each member of the surveillance is then discussed the next evening and each person at the prescribed times states what was seen. For example, there was a patrol car on Market Street at 11:30 p.m., so that would knock out the 11:30 to 11:40 time frame. Another example given by HARDY was that at 11:50 p.m., the watchman looked out the bathroom window. (HARDY's report to the FBI of a meeting with GRADY's group on July 11, 1971

Page 88, Paragraph 4

HARDY stated that GRADY mentioned the Wilmington, Del., draft board break-in in the context that he was showing MEL MADDEN and TERRY that he and his group had gone to some extremes to make this action successful. GRADY related in the men's room in the building where the draft board is located there is a suspended ceiling. GRADY related some of his group lifted the panels out and slung hammocks in the ceiling. On the night of the action four men went into the men's room and hung in the hammocks for about six hours. Then, after closing hours, it was just a matter of dropping through the ceiling and then proceeding to the draft board. GRADY related that TONY SCOBlick was the person who actually picked up the people who were inside the building in a van. The people knew they had until 4:45 in the morning to do their job on the draft board because from previous surveillances GRADY knew that the State Police only checked the building at 4:35 a.m. GRADY went on to say that the group inside the draft board was originally supposed to come out the front door and that they put plywood panels against the glass in the front door so no one could see in the draft board offices. He went on to say after closing hours one of the persons inside had a power drill and was attempting to drill the lock out but that he had a bad bit, so this person went to the back door and just popped it open and then the van pulled up from around back and everyone who was in the draft board got into the van and drove away. GRADY mentioned PAUL COUMING as a participant in the Wilmington,

Del., Draft Board break-in. (HARDY's report to the FBI of a meeting with GRADY's group on July 11, 1971.)

Page 89, Paragraph 5

HARDY advised the Army Intelligence Office was mentioned again as a second shot. HARDY advised JOHN GRADY and MADDEN stated that if the group goes into the Army Intelligence Office they should start thinking about what they should do with the information they get out of the office. (HARDY's report to the FBI of a meeting with GRADY's group on July 11, 1971.)

Page 90, Paragraphs 2 & 4

Plans for the hit at the draft board in Camden, N.J., as discussed by JOHN GRADY, call for entry to be made by driving a van, with the hit team inside, up to the back of the Post Office. A member of the team would then use a ladder as a brace against the fire escape. Members of the team would then enter the fire escape and go up the fire escape to the point where the fire escape leads to the window of the local draft board. Plans call for one walkie-talkie to be with the people who are on the roof of the Townhouse Apartments and for one walkie-talkie to be with the group that goes into the draft board.

HARDY mentioned that the idea of hitting the Army Intelligence Office was brought forth by COOKIE. Upon this being mentioned, GRADY made some mention that it would be important to figure out how the Army Intelligence files could be distributed after they were obtained. (HARDY's report to the FBI of a meeting with GRADY's group on July 12, 1971.)

Page 96, Paragraphs 2, 3, & 4

On July 13, 1971, he went to the residence of Dr. WILLIAM ANDERSON, Harding Avenue and South Park Drive, Collingswood, N.J., for a meeting. Upon his arrival there he met a ROBERT GOOD. GOOD is approximately 5'8" in height, 160 pounds,

and is a former seminarian. GOOD dropped out of college in his sophomore year and is approximately 22 years of age. He has been "more or less drifting around" and is with the underground system. GOOD attended all the trials regarding draft board break-ins and the burning of draft cards within the last six months to one year. He is a white male and has curly brown hair which is slightly longer than the average hair style. He is good-looking, has thin features and is of medium build. He is from a town outside of Pittsburgh, Pa. While talking to GOOD, he (GOOD) mentioned that he was involved in the "Trenton action" that took place within the last six months.

GOOD also talked about the attempted break-in at the Garden City, Long Island, FBI Office. GOOD indicated that he was in some way involved in this attempted break-in (Garden City FBI Office). GOOD also mentioned that people from Brooklyn, N.Y., were tied in with the "Garden City action."

GOOD related to him about his (GOOD's) brother, an ex-Peace Corps worker, who is also involved in the underground. (HARDY's report to the FBI of a meeting with GRADY's group on July 13, 197

Page 97, Paragraphs 1, 2, 3, & 4

GOOD mentioned a woman by the name of ANN who is from New York and who would possibly be interested in coming down for the Camden hit. ANN, according to GOOD, is living with someone by the name of FRANK on 121st Street in New York City.

He learned from GOOD that he GOOD is with the Defense Committee and that he has done an extensive amount of traveling throughout the country and checking on the Defense Committees throughout the country. GOOD specifically mentioned traveling to the West Coast and that he had stopped at four different Defense Committee offices in California, and then went to Seattle, Wash., and spent some time there before returning to New York City.

GOOD also talked about a nun or ex-nun by the name of ROSE in New York City who is very active as a militant member of the underground.

JOHN GRADY questioned GOOD as to what the Defense Committee would do with regard to the proposed hit in Camden. GOOD told GRADY that the Defense Committee was totally uninterested in anything that JOHN GRADY is doing at the moment. It was brought out during the conversation that a man named PAUL, whose last name begins with "M" (HARDY could not recall the last name), is on the Defense Committee in New York. GOOD mentioned that there was at least \$100,000 in the war chest of the Defense Committee in New York City and that this money is kept in a bank. Upon learning this, GRADY became very upset, since he is almost \$20,000 in debt due to the failure of three or four book stores which he had run. (HARDY's report to the FBI of a meeting with GRADY's group on July 13, 1971.)

Page 99, Paragraph 4

MESHNICK, GRADY and he (HARDY) then went to Hawthorne, N.J., to see a man named PAUL (LNU) who has an automobile dealership in Hawthorne, N.J., known as "Paul's Motors" or Paul's Cars. (HARDY's report to the FBI of a meeting with GRADY's group on July 14, 1971.)

Page 100, Paragraphs 1 & 2

Upon their arrival at "Paul's Motors," MESHNICK went to the service area, followed by GRADY and himself. PAUL appeared very happy to see MESHNICK but when he saw GRADY his expression changed. Upon greeting GRADY, PAUL related that the FBI had been to see him (PAUL) on Tuesday wanting to know the whereabouts of JOHN GRADY, and also wanting information regarding a car bought by GRADY from him about a year and a half ago. It was PAUL's impression that the FBI has this vehicle in their possession at this moment in the Philadelphia area and that this car came to the FBI's attention with regard to the Philadelphia draft board actions. PAUL also believes that he (PAUL) is under surveillance due to the fact that he has been a financial supporter of

JERRY MESHNICK in his World Federalist group and also due to the fact that for the last couple of years he has been a supporter of the East Coast Conspiracy to Save Lives and also a supporter of various draft board actions. PAUL indicated that he had provided financial support and also transportation in connection with previous draft board hits. After leaving "Paul's Motors" which is a Volvo dealership, they went to East Orange, N.J., to MEL MADDEN's apartment. GRADY had considered going into New York City instead of East Orange because he desired to confront some of the people on the Defense Committee who were in his (GRADY's) words, "playing around with his money." But upon learning about the FBI looking for him, GRADY decided that it would be unwise to go to New York City and decided instead to go to East Orange. They were careful in driving to MADDEN's, parking approximately a block away from MADDEN's apartment. As he (HARDY) came out of the apartment, Mrs. ELIZABETH MADDEN was driving up in her vehicle. When GRADY saw her he got out of the car and called her and they all went into MADDEN's apartment. ELIZABETH MADDEN is an Irish girl with dark black hair. She has a small daughter about eight months old named COLLEEN. ELIZABETH MADDEN will be going to Ireland for four weeks this coming Friday. She appeared to be knowledgeable as to her husband's involvement with the group.

MEL MADDEN and MIKE GIOCONDO and BUSBY arrived shortly thereafter. A man by the name of STEVE, who lives in the same apartment house on the first floor and who works in the drug program with MADDEN, also came to the apartment. (HARDY's report to the FBI of a meeting with GRADY's group on July 14, 1971.)

Page 108, Paragraphs 4 & 5

HARDY observed that GRADY appeared very moody and "blew up" saying that he was tired of being in charge of everything, and that he wanted the other members of the group to take more initiative. He directed these comments to COOKIE and ANITA.

The other members of the group then determined what positions would be taken for their nightly surveillance. It was determined that COOKIE and ANITA would take the positions on the roof of the Townhouse Apartments, and that MIKE GIOCONDO would go to the 5th and Cooper Streets corner of the Church where he would set on the steps and observe the police patterns on Cooper Street, 5th Street and Market Street. (HARDY's report to the FBI of a meeting with GRADY's group on July 16, 1971.)

Page 109, Paragraph 5

HARDY related that after "blowing up," GRADY left the basement area during the meeting and was not seen by the other members of the group for the remainder of the evening. He mentioned that GRADY has been sick with an ear and throat infection for the last two or three days, and that Dr. ANDERSON examined him on Thursday night and had prescribed some medicine for him. He also observed that GRADY is very tired due to the fact that he has been getting very little sleep recently. The incident that caused GRADY to "blow up" was when COOKIE asked him what the positions would be for the night surveillance. It was at this point that GRADY said to COOKIE that he was tired of being the "professional manager" of the group, and that other members of the group should also assume some initiative. (HARDY's report to the FBI of a meeting with GRADY's group on July 16, 1971.)

On July 18, 1971, he went to the residence of Doctor WILLIAM ANDERSON, Collingswood, N.J., arriving at approximately 8:30 p.m. Upon entering the residence, he noted that those in attendance were JOHN GRADY, MEL MADDEN, GENE DIXON, MARTHA SHEMELEY, MIKE GIOCONDO, BOB GOOD, ANITA, and COOKIE. He noted that the conversation as he entered was centered upon the fact that the target date had been tentatively set. It was mentioned by members of the group that they did not want anyone outside of those in attendance on that night to know any further details regarding the hit. When MEL MADDEN questioned GRADY with regard to the definite time and date of the hit, GRADY replied that the hit would take place within the next ten to fourteen days. GRADY also mentioned that if the hit was not made within the next fourteen days, then it would have to be cancelled. ANITA mentioned that a prime consideration within the underground movement is that individuals must be patient, especially with regard to the "casing" of a draft board.

MADDEN stated that after the draft board hit was completed, the group should sit down and discuss what further activities would be undertaken by this particular segment of the East Coast Conspiracy group. MADDEN indicated to the group that he felt that the time for draft board hits was over. From what MADDEN said, it was his, HARDY's, impression that the draft board hit in Trenton either apparently "Did not come off" or that it was unsuccessful.

A slide projector was then brought forth and slides were shown. These slides were slides of the Post Office which MIKE GIOCONDO had taken. The members of the group then discussed the different ways by which they could gain access to the draft board window. While this was being done, COOKIE and ANITA were setting up the chart which dealt with the commitments for the surveillance for that night. A new surveillance point is now being used by the group. This point is a small parking lot on 4th Street, between Cooper and Market Streets, on the west side of the street

DIXON and SHEMELEY drove their car to this parking lot on the night of July 18, 1971, parked it there, and from there were able to observe a portion of the Post Office mailing platform. (HARDY's report to the FBI of his meeting with GRADY's group on July 18, 1971.)

Page 112, Paragraph 3

It has been his, HARDY's, observation during recent meetings, that GRADY is pushing some of the responsibility for the action on COOKIE and ANITA. (HARDY's report to the FBI of his meeting with GRADY's group on July 18, 1971.)

Page 113, Paragraph 6

It was mentioned during the evening that BOB GOOD had done his job well in New York, and that several of the people whose names were on his list were coming down from New York for the action. GOOD stated that RORO was ROSE MARIE REILLY. GOOD mentioned that on Tuesday he would return to New York and continue a recruitment drive. GOOD asked him, HARDY, if he would like to go to New York City after the action was completed and "make the underground scene" and meet some of the people involved in the underground. (HARDY's report to the FBI of his meeting with GRADY's group on July 18, 1971.)

Entire Page 114

It was mentioned that if the group is able to determine a stable pattern, that they possibly will be able to get six or seven people on to the roof, and that perhaps one or two of them could "take a shot" at the Army Intelligence Office or even the FBI Office.

The group is now considering a Saturday night as well as Sunday night as the possible night for the hit. The reason for this is that from their surveillance, they have found that the various patterns on Saturdays would possibly be more conducive for a successful hit than those on Sundays. It was mentioned that DIXON's apartment would be used as sleeping quarters for some of the "old actors" who would be coming in for the hit. Dr. ANDERSON's flat on Broadway and Royden, above his office, and MIKE GIOCONDO's apartment would also be used as sleeping quarters for those "old actors" who would be coming in for the hit.

Those members of the group who conduct surveillances from the Rutgers Law School are able to gain entry through the door on the 5th Street side. This is a door with a plywood panel which is wired. They have snapped the wires and re-wrapped them with their fingers, making it possible with very little effort for them to lift the panel and thereby gain entry. Surveillances from the Law School are conducted either from the fifth floor, south side offices, or from the rooftop itself. ANITA mentioned that from the Law School, that she could see his, HARDY's, van, which was located in the alley behind the Post Office. She also mentioned that she had a very good view of the Post Office building.

GOOD had mentioned that he was able to recruit four or five people from New York for this operation.

GRADY still plans to be on the rooftop of the Town House Apartments at the time of the hit.

The members of the group feel that the critical corners are the 4th and Market Streets corner and the 4th and Cooper Streets corners. They feel that if these corners remain open for about 90 seconds, that they will be successful in getting all their people from the van onto the roof of the Post Office building. Plans call for two cars to be used to block those intersections, in the event of the approach of a police car, while people are gaining entry to the Post Office building. Plans would call for one car to begin a turn while the other car would start to signal for another turn, which would result in blocking the street. The driver of one of the cars would then get out of his automobile and go to the police car, and ask directions for Fairview Street or some other street. (HARDY's report to the FBI of his meeting with GRADY's group on July 18, 1971.)

Page 118, Paragraph 4

JOHN GRADY has devised a plan that calls for several cars to block key intersections at the time of the hit to insure that the hit team has sufficient time to go unnoticed from the alley to the roof of the Post Office building. (HARDY's report to the FBI of his meeting with GRADY's group on July 19, 1971).

Page 118, Paragraph 5

BOB GOOD mentioned that RORO is ROSEMARIE RILEY (phonetic). GOOD also mentioned that he is leaving for New York on Tuesday morning and will spend a couple of days there contacting others who are experienced in actions of this type. GOOD mentioned that he did not feel that it would be any trouble to get additional "old actors" to come down for the hit. (HARDY's report to the FBI of his meeting with GRADY's group on July 19, 1971).

Page 119, Paragraph 1

It was mentioned that GENE DIXON has taken a week off from his job in order to do some daytime surveillance work in Camden. It was his (HARDY's) impression, from what was said, that DIXON would possibly be coming back into the Post Office building to look around a bit more. It was also mentioned that possibly one person would go into the Post Office building the day before the hit and stay there until the hit took place. JOHN GRADY mentioned that he liked the idea of someone spending the night prior to the hit in the Post Office building. (HARDY's report to the FBI of his meeting with GRADY's group on July 19, 1971).

Page 120, Paragraph 3

Plans currently call for a walkie-talkie to be with someone in the alley. GRADY has mentioned that he wants two more walkie-talkies which would be of a better quality than those which they have already obtained. He desired this so that the person on the roof of the Towne House Apartments can receive the transmissions from the person at the Fifth and Penn Streets corner. During the radio check it had been determined that there was quite a bit of interference due to the buildings which came between the rooftop and the person on the street. (HARDY's report to the FBI of his meeting with GRADY's group on July 19, 1971.)

Page 120, Paragraph 4

GRADY mentioned again last night that the hit would have to take place before August 1st since Doctor ANDERSON's family was returning to the residence on that date. GRADY also mentioned that the hit would take place well in advance of August 1st, and that August 1st was the "outside date." (HARDY's report to the FBI of his meeting with GRADY's group on July 19, 1971.)

Page 123, Paragraph 2

He (HARDY) would present (presented) the present plans for the Camden "Draft Board action" as told to him on July 19, 1971, at Doctor ANDERSON's residence, Collingswood, N. J., by JOHN GRADY, ANITA and COOKIE.

(HARDY's report about the plans for the Camden "Draft Board action" as told to him on July 19, 1971, by GRADY's group).

Page 128, Paragraph 3

Last night GRADY said to him that he would need more "headsets" (walkie-talkies) and that he would like to get better ones than the ones that had already been purchased. GRADY indicated that he would be receiving money which he could use to purchase these walkie-talkies. (HARDY's report about the plans for the Camden "Draft Board action" as told to him on July 19, 1971 by GRADY's group.)

Page 128, Paragraph 4

BOB GOOD had previously mentioned that RORO was ROSEMARY REILLY. GOOD also said that he was going to see ED MC GOVERN (or MC DOVERN) today. GOOD said that he would be going to New York City this morning and that he would return tomorrow evening (Wednesday). GOOD mentioned that on his return he would be able to say how many more people would be coming down for the action. (HARDY's report about the plans for the Camden "Draft Board action" as told to him on July 19, 1971 by GRADY's group.)

Page 129, Paragraph 2

The general plan at this moment calls for the "old actors" to be coming into the area and helping with the surveillances at least a day to two days before the time of the hit. They will drive their routes and gain a general familiarization with their assignments. They will get the feel of the area so that if they are "cut off" quickly they will be able to have a knowledge of escape routes. (HARDY's report about the plans for the Camden "Draft Board action" as told to him on July 19, 1971 by GRADY's group.)

Page 134, Paragraph 2.

HARDY has noted that when GRADY "blows his stack" at the group, that he is really directing it towards COOKIE and ANITA, since they are more or less taking training lessons from him. (HARDY's report to the FBI of his meeting with GRADY's group on July 21, 1971.)

Page 136, Paragraph 5

After the discussion concerning DIXON, JOHN GRADY mentioned that this would no longer be a "Camden action" because he (HARDY) was the last person from Camden who was actually physically involved. GRADY said that they would definitely have to bring in outsiders to perform the hit. GRADY mentioned that this was in keeping with past experiences, where they had been able to get very little "community involvement."
(HARDY's report to the FBI of his meeting with GRADY's group on July 22, 1971.)

Page 137, Paragraphs 4 and 5

He, (HARDY), stayed at the ANDERSON residence until about 12:30 a.m. When he said good night to the group, GRADY said that he would be going to the Law School Building to do some observation work by himself. GRADY walked with him about one-half way to where his (HARDY's) car was parked and while doing so, told him that he would really like to have him think about becoming more involved in this type of thing. GRADY told him that he had the type of talent that was needed in the underground.

This morning he went to the ANDERSON residence at about 8:15 a.m., and spoke with GRADY for about ten minutes. GRADY, at this time, again mentioned that he really needed someone like him in his organization. (HARDY's report to the FBI of his meeting with GRADY's group on July 22, 1971.)

Page 141, Paragraph 2

During discussions last night, GRADY said that the group was not ready for the action as yet. ANITA concurred in this opinion. GRADY said that things were "just not tight enough." (HARDY's report to the FBI of his meeting with GRADY's group on July 23, 1971.)

Page 141, Paragraph 5

GRADY has mentioned that when the action takes place it will be on a Saturday or Sunday night. Last night GRADY said that they will need twelve cars, six with drivers and six parked. GRADY told members of the group last night that they should start thinking about where they could get extra cars. GRADY indicated that these cars would be used to effectively block off different area, if need be. (HARDY's report to the FBI of his meeting with GRADY's group on July 23, 1971.)

Page 141, Paragraph 7
Entire Page 142

HARDY then advised that the following vehicles have been used by members of the group in connection with the operation:

Father FRANCIS' (St. Peter and Paul, also known as El Centro) car has been used in the past exclusively by GRADY.

Doctor ANDERSON's car has been used exclusively by GRADY.

GIOCONDO's Renault has been used by GRADY, COOKIE, and ANITA.

Father MICHAEL DOYLE's car has been used by GRADY and ANITA.

Mrs. GRADY's Comet, which bears New York license plate, has been used by GRADY and COOKIE, for transportation into North Camden. They do not use this car on surveillances because they are concerned that it will draw suspicion due to having a New York license plate.

GENE DIXON's Ford has been used by DIXON, MARTHA SHEMELEY and ANITA.

He (HARDY) does not believe that they have used MARNIE O'DELL's car as yet; however, GRADY has mentioned that they would be able to use this car if they so desire.

GRADY also mentioned that they were going to ask GEORGE and LOUISE SLATER if they could use their car on the night of the action. GRADY also mentioned that they would ask the SLATERS if they would drive the car on the night of the action.

ANITA has started making up a list of names of people that she would be able to contact concerning the use of the cars on the night of the action. These names are written in a brown notebook, which is approximately four inches by seven inches. He saw this notebook but was unable to retain the names of the people on the list.

ANITA also has a list containing names of twelve different people who she will contact outside the city. (HARDY was unable to furnish any of these names.) (HARDY's report to the FBI of his meeting with GRADY's group on July 23, 1971.)

Page 143, Paragraphs 1 and 3

It was HARDY's opinion GRADY is "dragging this thing out" because he has nothing to do after this action. He has also observed that GRADY is very security conscious at this point.

ANDERSON and GRADY both have indicated that they feel that plans are "almost down pat" and that they will have to wait a little longer before actually conducting the action. (HARDY's report to the FBI of his meeting with GRADY's group on July 23, 1971.)

Page 144, Paragraphs 2 through 7

On July 24, 1971, he went to the residence of Doctor ANDERSON, Collingswood, N.J., arriving between 8:30 p.m. and 8:45 p.m. Upon arrival, he noted that those present were JOHN GRADY, Mrs. GRADY, the GRADY family, MIKE GIOCONDO, BOB GOOD, ANITA, ANN DUNHAM and NED MURPHY.

ANN DUNHAM is a white female, 5'2" in height, 145 pounds, heavy set, long dark brown hair, age approximately 23 years.

NED MURPHY is a Jesuit Priest from New York City. He is 5'8" in height with long black hair and heavy sideburns. He is 170 pounds in weight with a heavy build. He has a light complexion, appearing Spanish-Puerto Rican.

MURPHY told him (HARDY) that he had been involved in the "New York Eight" and that he is involved in the "Harrisburg Conspiracy." MURPHY said that he is a Jesuit Priest, but that he has not actually been doing any church work, but that he has been working in the peace movement. MURPHY explained that the church has given him and three other Jesuit Priests a leave of absence, whereby they retain their priestly status but do not get paid by the church.

MURPHY said that the charges against the BERRIGANS in connection with the conspiracy to destroy draft board records, are true. He said that the conspiracy to kidnap KISSINGER was something that was talked about but not in a serious vein. MURPHY said also that the plot to bomb the heating system in Washington, D.C., was also something that was talked about, but not seriously.

MURPHY said that the plans and detail work that has been done in connection with the Camden action is the best work that they have seen, with regard to an action. (HARDY's report to the FBI of his meeting with GRADY's group on July 24, 1971

Page 145, Paragraph 10
Entire Pages 146, and 147

At 12:15 a.m. (this morning) all members of the group were in position and they ran a two minute test throughout the area with GRADY and ANITA on the Law School roof, equipped with binoculars; COOKIE and ANN on the Townhouse Apartment roof equipped with binoculars; and himself (HARDY) in his vehicle at Broadway and Market Streets. He (HARDY) was actually out of the car with the trunk open, having a direct view of the Law School Building from Broadway and Market. The plans call for HARDY to have the trunk open and to close the trunk if he sees a police car.

GRADY is located on the Law School roof, having a direct view of the Townhouse Apartments. The people on the Townhouse Apartment roof have a flashlight that is taped so that only a one-half inch center beam is given forth.

MIKE GIOCONDO was sitting at the Fourth Street underpass in North Camden with a "headset" talking to ANITA, who was on the roof of the Law School Building, and COOKIE, who was on the roof of the Townhouse Apartments.

GIOCONDO gave a clear signal at 12:15 a.m. At that time HARDY opened the trunk of his car. (MURPHY was standing at the telephone booth located directly across from the City Hall parking lot, by Kenny's Restaurant. MURPHY noted the activities from that position.) The plans call for MURPHY, if he saw anyone hurrying out of City Hall, to bend over and tie his shoe. This could be seen by HARDY at Broad and Market Streets. Plans called for HARDY, upon seeing this, to close the trunk to his car. This would serve to advise GRADY that there was some action on Broadway or that something was wrong. MIKE DOYLE was parked on the corner at Fourth and Market Streets.

Although no one was at Fourth and Federal Streets during last night's surveillance, the plans call for someone to be in that position.

Plans also call for someone to be at Fourth and Marklev Avenue.

The van will be parked by the Post Office platform with six people inside the van. Plans, at this point, call for HARDY to be driving the van on the night of the action.

On conducting "dry runs" members of the group exchange positions so that each will have the feel of the positions handled by the others.

When everything is clear, the signal will come down from the roof of the Townhouse Apartments to the man driving the van, indicating that all is clear. Also a signal will come from the person at Fourth and Markley to someone who will be looking out the window of the van. The person in the van with the "headset" will get the signal from GRADY while a signal transmission will be heard from GIOCONDO to COOKIE as "Go!"

The two people on the Townhouse Apartment roof will be viewing Cooper Street. When all these conditions are clear, and say "Go" at 12:15 a.m., the group will know that they have the two minutes to get the people on the roof.

Meanwhile, if there is some problem, they will still have people in cars who can block Markley Street, Fourth Street, and Cooper Street.

Plans now call for the action to take place on a Saturday night between 11:30 p.m. and 12:15 a.m. (Sunday morning). GRADY feels that the police activity at this time would be the minimum, due to the changing of the shifts.

During last night's surveillance, they went through four different times, starting at 12:15, 12:20, 12:25 and 12:30. They noted that at each time they would have had the necessary two minutes to get the group into the building. They noted, in fact, that they would have had a complete twenty minutes, if necessary.

BOB GOOD mentioned last night that he would be going to New York City on Tuesday or Wednesday to talk to some more people.

Apparently, COOKIE has been contacting some more people in Philadelphia.

GRADY now feels that he has better control of the situation from the roof of the new Rutgers Law School Building. GRADY has noted that from that position, he can see Broadway and Market Streets, the Post Office alley, the van, the Townhouse Apartments, and the Fourth Street underpass. (HARDY's report to the FBI of his meeting with GRADY's group on July 24, 1971.)

Page 151, Paragraphs 1 and 2

During the discussions last night, it was mentioned by ANN DUNHAM, BOB GOOD, ANITA and COOKIE that they were sure that the action "was going to come off."

GOOD said that he would be going back to New York City on Tuesday and that he was pretty sure that JOE O'ROURKE would be coming down to Camden this week. GOOD also said that JOE O'ROURKE and NED MURPHY are two people, who he is quite sure will be involved in the Camden draft board hit. It was mentioned that O'ROURKE would be the driver of one of the cars on the night of the hit. GOOD said that NED MURPHY had mentioned to him that he (MURPHY) would like to be part of the team that actually goes into the building. GOOD said that this was not unusual, because MURPHY was part of the team that went into the building on the Bronx and Queens draft board hits connected with the "New York 8 thing" in August of 1969 and that he (MURPHY) was personally responsible for carrying out approximately 175,000 files during these hits. It was mentioned that MURPHY was also helping with the observation in the recent Trenton action. It was mentioned that GRADY and MURPHY had been together for at least two years working on draft board actions. (HARDY's report to the FBI of his meeting with GRADY's group on July 25, 1971.)

Page 158, Paragraphs 2 through 6

GRADY has said that if the action does not take place within ten days, that he would leave the area.

GRADY indicated that he has a problem with the Defense Committee in that they (the Defense Committee) want to work only with the defense of the people who have been arrested in connection with various actions, whereas GRADY wants them to provide money for offense, that is the actual performing of actions.

GRADY has indicated that the Defense Committee is more interested in coming in after the action is over and helping the people who have been charged and arrested.

GRADY has said that he was one of the main organizers of "this thing," two and one-half years ago, but that new people have come into the organization and taken over. GRADY said that these people do not have the same feeling in respect for GRADY's thoughts as he would prefer them to have.

GRADY indicated that he made a break with the group several months ago, and that now he is attempting to retain his position within the group. GRADY indicated that he is doing this because he feels that he needs the group. (HARDY's report to the FBI of his meeting with GRADY's group on July 26, 1971.)

Page 163, Paragraph 7

COOKIE commented that during the two years that she has known GRADY, that this is the most "strung-out," tired, irritable, and short tempered, that she has ever seen him. COOKIE said that she has never seen GRADY at such a low point. COOKIE felt that this was due to the heavy effects of the surveillances, or casings; the fact that he has had to spend much time away from his family; and other factors. COOKIE felt that another reason for GRADY's low morale was the fact that he has not been getting any real physical help from the Defense Committee in New York City. (HARDY's report to the FBI of his meeting with GRADY's group on July 27, 1971.)

Page 168, Paragraphs 1 through 4

Last Monday, GRADY said if the action does not "come off" within the next ten days or so, that he would get away for a while. COOKIE and ANITA have voiced the same sentiment.

GRADY said that he was not sure what they would do with the material which they obtain from the draft board. GRADY did say, however, that they normally burn the material, and that they often find an abandoned farm some place and make a big fire with the material.

During discussions of the action, GRADY and NED MURPHY mentioned the possibility of going into the Army Intelligence Office. COOKIE, ANITA, BOB GOOD, and in this instance, MURPHY, have at times interjected the thought as to hitting the Army Intelligence Office. MURPHY said that there is no reason for having an Army Intelligence Office in the Camden Post Office Building, and that "they must have something very good in there that would be helpful to the group."

It was mentioned that they would probably destroy those records that they were not able to carry away from the draft board. It was mentioned that they would probably "rip up" those files. It was also mentioned that at a previous action they had taken a paper cutter into the draft board for the purpose of destroying the files, but that someone left the paper cutter and fingerprints were found on it. (HARDY's report to the FBI of his meeting with GRADY's group on July 27, 1971.)

Page 175, Paragraph 1

On July 30, 1971, ROBERT WILLIAM HARDY telephonically advised Special Agent TERRENCE P. NEIST that JOHN GRADY had on that date requested that he put into his truck GRADY's personal effects and the plans, slides, and documents which had been prepared and used by GRADY's group in connection with the proposed Camden Draft Board hit. He further advised that GRADY had requested that he retain these items until sometime during the day of July 31, 1971, at which time he should take them to the apartment of EUGENE DIXON, 517 Penn Street, Camden, N.J. (HARDY's report to the FBI of his meeting with GRADY's group on July 30, 1971.)

Page 176, Paragraph 5

HARDY did as he was instructed by GRADY and loaded the various materials into his truck. GRADY told HARDY to take charge of the group for the Friday night observation of the Camden Post Office. (HARDY's report to the FBI of his meeting with GRADY's group on July 30, 1971.)

Page 177, Paragraph 4

While enroute to GIOCONDO's apartment, HARDY asked if any other people would be coming down for the action. MURPHY replied that there would be nothing to worry about because plenty of people would be coming here for the action when the time came. MURPHY indicated that the only thing that was necessary was for GRADY to set the time and that once the time was set the people would respond to GRADY's call. (HARDY's report to the FBI of his meeting with GRADY's group on July 30, 1971.)

Page 180, Paragraphs 2 through 4

On July 31, 1971, at approximately 5:00 p.m., BOB GOOD, MIKE GIOCONDO, NED MURPHY, and FRANK (last name unknown - believed to be PARMAGON [phonetic], who is the boy friend of ANN DUNHAM) came to his (HARDY's) residence for dinner. It was mentioned that JOHN GRADY, ANITA, COOKIE, and ANN DUNHAM were still at the shore helping Mrs. GRADY in the setting up of the camp site.

Through conversation with FRANK, he learned that he (FRANK) is a lawyer with "The Model City's Program" in New York City, and that he was formerly with VISTA (Volunteers in Service to America). He also mentioned that he worked in Alaska for a couple of years before he went to work for VISTA.

FRANK is a white male, 5'10" in height, 150 pounds, with long dark hair, (not exceptionally long, but "collar length,") thin frame, and approximately 25 years of age. (HARDY's report to the FBI of his meeting with GRADY's group on July 31, 1971.)

Page 182, Paragraph 7

During this conversation, GRADY said that he felt things looked pretty good, but that if he could not see things clear between now and next weekend, that the "action" would be "called off" for a couple of months. GRADY indicated that he was "tired" and "worn out," and that all members of the group were also tired. GRADY indicated that if the action could not be "pulled off" by the next weekend, that taking a couple of months off would enable members of the group to return to the area with a fresh outlook. (HARDY's report to the FBI of his meeting with GRADY's group on July 31, 1971.)

Page 183, Paragraph 2

GRADY asked him to start looking around for a van that could be rented by the group. GRADY said that he would like to have someone other than HARDY drive the van that would go into the alley. GRADY said that his reason for this was that they could afford to lose "the other indians", but that they could not afford to lose him (HARDY) because he was needed in the movement. GRADY told HARDY that there were very few people in the movement who could think and work at the same time, and that HARDY was one of these people. (HARDY's report to the FBI of his meeting with GRADY's group on July 31, 1971.)

Page 184, Paragraph 2

On Saturday afternoon, July 31, 1971, he (HARDY) picked up GRADY at GIOCONDO's apartment and they went to GENE DIXON's apartment, 517 Penn Street, Camden, N.J., where MURPHY was staying. The three of them carried the materials, in HARDY's truck into GENE DIXON's apartment. The material, which they took to DIXON's apartment, included the "headsets," personal effects of GRADY, binoculars, plans, drawings, slides, and various notes and documents prepared by the group in connection with the proposed "action." (HARDY's report of moving equipment on July 31, 1971.)

Page 186, Paragraph 2

HARDY advised that he met JOHN GIOCONDO on August 1, 1971, at Third and Cooper Streets, Camden, at approximately 7:15 p.m.; whereupon by previous instructions, they were to walk around the Post Office up and down Market Street in order to see just what kind of activity was in the vicinity of the Post Office area. He stated that this was per GRADY's instructions in that he wanted to gain insight into the earlier activity in the vicinity of the Post Office. (HARDY's report to the FBI of his meeting with GRADY's group on August 1, 1971.)

Page 186, Paragraph 4

Present at DIXON's apartment were JOHN GRADY, ANITA, COOKIE, ANN DUNHAM and BOB GOOD. They were in the midst of preparing their dinner and getting things ready for the night's casing. HARDY noted that GRADY was giving his normal school teacher lecture to those present and telling them how to be more efficient. He noted that the girls do not do anything unless GRADY tells them to do it. He also included BOB GOOD in this. (HARDY's report to the FBI of his meeting with GRADY's group on August 1, 1971.)

Page 186, Paragraph 6

GRADY instructed HARDY to be at the Townhouse Apartments as close to 9:00 p.m., as possible and observe the activities within the Post Office. MIKE GIOCONDO was instructed to do a walk-around thing on Market Street, Fourth Street, Cooper Street, and Fifth Street. The purpose of GIOCONDO's walk-around was to sort of drift into the area looking for license tags on cars that the group knows belong to employees in the Post Office and to the various guards. HARDY stated that this time period of GIOCONDO's walk-around was from 9:30 p.m., to 10:30 p.m. BOB GOOD and ANN DUNHAM arrived at the Townhouse Apartments at approximately 10:15 p.m., and about the same time COOKE, ANITA, and JOHN GRADY did a "drive around" contacting HARDY on the headsets from different points within the city area, mainly within two blocks of the Post Office. HARDY noted that GRADY now parks his car at Third and Market. A short time later everyone reported up to the Townhouse Apartments and GRADY held a small conference in which the participants related what each had seen. (HARDY's report to the FBI of his meeting with GRADY's group on August 1, 1971.)

Page 187, Paragraph 2

HARDY noted that all information is put down on 3 by 5 cards and then the group compares notes. He stated that last night GRADY was interested in the particular time slots when the group would be completely safe to go into the building. HARDY noted that at approximately 11:00 p.m., Sunday night it was clear from 10:45 to 11:40. It was noted that there was a 25 to 30 minute cushion whereupon nothing happened. He went on to say in other words

there was no police activity, there were no neighbors walking around, there was no watchman observed in the Post Office Building and there were no private cars or postal employees in the area. (HARDY's report to the FBI of his meeting with GRADY's group on August 1, 1971.)

Page 187, Paragraph 4

HARDY stated that things are less haphazard and that people are now given different assignments by GRADY as to what to look for. He further noted that GRADY had tightened up security and that he is a little more conscious of what the group is doing and not wasting time. (HARDY's report to the FBI of his meeting with GRADY's group on August 1, 1971.)

Page 187, Paragraph 6

While inside the truck GRADY related that the group was going to run this thing this week as far as operational procedures were concerned and that he wanted to get the girls and GOOD and everyone involved just a little bit tighter as far as the work schedule and job assignments went. (HARDY's report to the FBI of his meeting with GRADY's group on August 1, 1971.)

Page 187, Paragraph 7

It was at this time that GRADY instructed HARDY to be at Doctor ANDERSON's apartment on Broadway at 6:00 p.m., on August 2, 1971. GRADY advised him that he, GRADY, and the two girls had spent the whole day there cleaning a good portion of the apartment. HARDY noted there is no furniture and that the apartment is empty. GRADY stated that he wants to set up one room of

the apartment as a chart room in which he wants to place large charts and maps on the walls. GRADY wants to have a large rigid system whereby the group can put down on the charts the activities of every nights' surveillance, and thereby fill in any empty gaps in regard to job assignments for each night. (HARDY's report to the FBI of his meeting with GRADY's group on August 1, 1971.)

Page 188, Paragraph 2

HARDY advised that GRADY also mentioned a plan which he has been thinking about in regard to the break-in of the draft board. GRADY would like to get someone inside the building in order that this person could at a prearranged time open the side door on the Fourth Street side of the Post Office and thereupon let the people who are actually going into the draft board into the building. (HARDY's report to the FBI of his meeting with GRADY's group on August 1, 1971.)

Page 189, Paragraph 2

On August 2, 1971, at approximately 6:00 p.m., he went down to MIKE GIOCONDO's apartment and picked up JOHN GRADY. From GIOCONDO's apartment he and GRADY went to Doctor ANDERSON's office at Broadway and Royden and proceeded to change some locks and generally prepare the apartment for GRADY's people who are coming down for the draft board action. GRADY referred to it as a "crash hut". GRADY intimated that he intends to keep all of his people there when the time comes. (HARDY's report to the FBI of his meeting with GRADY's group on August 2, 1972.)

Page 189, Paragraph 3

HARDY noted that GRADY stated that things were shaping up and that the actual hit date was definitely getting close. GRADY, however, did not elaborate on the point. (HARDY's report to the FBI of his meeting with GRADY's group on August 2, 1971.)

Page 192, Paragraph 1

The three of them then proceeded to lay out their plans for the night. At approximately 9:00 p.m., ERNIE BUSHBY (Phonetic) stopped by GIOCONDO's apartment. BUSHBY sold some hashish and marijuana to MIKE GIOCONDO. BUSHBY, GIOCONDO and GOOD split a "couple of sticks", that is, they smoked a couple of "joints" of marijuana. (HARDY's report to the FBI of his meeting with GRADY's group on August 3, 1971.)

Page 192, Paragraph 4

At approximately 10:00 p.m., he (HARDY) instituted another radio check at GIOCONDO's apartment, using the code name GINO. At approximately 11:00 p.m., BOB GOOD came to the roof of the Townhouse Apartments. At that time, they again checked in with GIOCONDO at which time it was determined that he, HARDY, would not go down onto the street until 11:25 p.m., and that GOOD would come to the roof of the Townhouse Apartments at approximately 11:45 p.m. They determined upon this plan because they felt that someone should be in GIOCONDO's apartment until the other members of the group either called in or arrived in the area. (HARDY's report to the FBI of his meeting with GRADY's group on August 3, 1971.)

Page 192, Paragraph 6

At approximately 11:50 p.m., he left from the area in front of the Post Office and went down Third Street towards Cooper and parked his van. He went to GIOCONDO's

apartment and noted that ANN DUNHAM and GIOCONDO were in his apartment, getting ready to go to the roof of the Townhouse Apartments. He gave GIOCONDO his notes concerning the nightly surveillance. (HARDY's report to the FBI of his meeting with GRADY's group on August 3, 1971.)

Page 197, Paragraph 5

He learned that GRADY and other members of the group had spent the entire day at Doctor ANDERSON's apartment located on Broadway and Royden Streets, setting up charts on the walls and putting down time sequences which set forth surveillance times until the next Wednesday. The charts were put up in the front living room of the apartment which is on the second floor of the building. (HARDY's report to the FBI of his meeting with GRADY's group on August 5, 1971.)

Page 197, Paragraph 6

GRADY said to him that he has "everything down" to the point where he can predict where everyone is at any particular time. GRADY also told him that he has started changing some of the lookout or vantage points in an effort to try to find things that might be wrong with his plans. GRADY indicated the he feels very sure of himself but that he is attempting to find if he should have any reasons for not being so sure of himself. GRADY related this to him while at Doctor ANDERSON's apartment last night. (HARDY's report to the FBI of his meeting with GRADY's group on August 5, 1971.)

Page 198, Paragraph 3

At this point GRADY said that he would like to initiate a new vantage point which would be the Episcopal Church which

is on Market Street between Fourth and Fifth Streets directly across from the Post Office Building. GRADY mentioned that if an individual were able to go through the gate and gain entrance into the churchyard, that the individual would be able to sit virtually undisturbed throughout the entire night if he so desires. (HARDY's report to the FBI of his meeting with GRADY's group on August 5, 1971.)

Page 198, Paragraph 5

GRADY assigned him (HARDY) to do surveillance work from the roof of the Townhouse Apartments. GRADY instructed him to leave at about 10:45 p.m., so that he might arrive at the Townhouse Apartments between 11:00 and 11:15 p.m. GRADY assigned GOOD and GIOCONDO to observe the front of the Post Office Building from about 11:20 p.m., until 11:50 p.m. (HARDY's report to the FBI of his meeting with GRADY's group on August 5, 1971.)

Page 199, Paragraph 3

From talking with GRADY it is HARDY's impression that GRADY was trying to find things wrong with the plan. (HARDY's report to the FBI of his meeting with GRADY's group on August 5, 1971.)

Page 200, Paragraph 3

At 12:00 midnight ANITA and COOKIE arrived on the roof top. GIOCONDO was also on the roof top at that time. GRADY called ANITA and asked her to come back down because he wanted her to go some place else. Later he, HARDY, learned that ANITA went with MICHAEL DOYLE to the churchyard of the Episcopal Church. (HARDY's report to the FBI of his meeting with GRADY's group on August 5, 1971.)

Page 200, Paragraph 6

GRADY told him at the end of the surveillance last night that everyone would go to ANDERSON's apartment on Broadway where they would discuss the information learned during the surveillance, fill in the charts while everything was still fresh in their minds. GRADY said that he would be going to the shore today to visit with his family at the camp site. GRADY requested that he, HARDY, handle the meeting and surveillance tonight (Friday) until GRADY got back to the area. GRADY said that he would have everything "programed out" for them so that it would just be a matter of arranging for the people to get into their positions. (HARDY's report to the FBI of his meeting with GRADY's group on August 5, 1971.)

Page 207, Paragraph 5

GRADY actually arrived in Camden at about 11:45 p.m., and went to ANDERSON's apartment on Broadway and Royden. At that time RO RO, ANN DUNHAM and GIOCONDO were there. GRADY told them to leave for the surveillance and that he would follow shortly. GRADY never did arrive on the surveillance scene. (HARDY's report to the FBI of his meeting with GRADY's group on August 7, 1971.)

Page 209, Paragraph 5

At approximately 11:50 p.m., BOB GOOD asked him to go to GIOCONDO's apartment and to obtain a bottle of cold water so that one of the girls could bring this to the roof when they came there. He then went to GIOCONDO's apartment at approximately 11:55 p.m., and while there talked with NED MURPHY for a while. (HARDY's report to the FBI of his meeting with GRADY's group on August 7, 1971.)

Page 209, Paragraph 6

MURPHY said that JOHN GRADY ran the draft board actions and that not everyone in New York City was of the same mind concerning the draft board actions. (HARDY's report to the FBI on his meeting with GRADY's group on August 7, 1971.)

Page 210, Paragraph 3

At approximately 12:15 a.m., GIOCONDO told him that they had sufficient people to handle the surveillance and that he could leave if he so desired. At approximately 12:28 a.m. MURPHY also suggested that he could leave if he so desired. At this point he left. (HARDY's report to the FBI on his meeting with GRADY's group on August 7, 1971.)

Page 214, Paragraph 2

At approximately 11:00 p.m. RORO REILLY came to the apartment and it was apparent that she was "all charged up." REILLY explained that she had been in Philadelphia talking with WILLIAMSON and that they had gotten a commitment for three people for this weekend. REILLY said that GRADY had told them that the group would have either a "full dry run" or the actual hit this Saturday night. REILLY said that one of the people from Philadelphia "will act." HARDY explained that this means one of the people from Philadelphia will be actually going into the draft board during the action. He explained that the phrase "doing the act" refers to the going into the draft board. (HARDY's report to the FBI on his meeting with GRADY's group on August 10, 1971.)

Page 215, Paragraph 4

REILLY said that it was JOHN GRADY who told her that either a "full dry run" or the actual hit would take place this Saturday. (HARDY's report to the FBI on his meeting with GRADY's group on August 10, 1971.)

Page 217, Paragraph 6

GRADY mentioned that they had some very stable and sophisticated people in the group at this time and that it would not be difficult to see the operation through. (HARDY's report to the FBI on his meeting with GRADY's group on August 9, 1971.)

Page 217, Paragraph 8

After they were on the rooftop for a while, ED MC GOWAN and COOKIE came to the rooftop. They observed the Post Office Building for a while and determined that the activities were normal there. GRADY then suggested that MC GOWAN, COOKIE, and HARDY go to DIXON's apartment to get something to eat, while the others did observation work. (HARDY's report to the FBI on his meeting with GRADY's group on August 9, 1971.)

Page 218, Paragraph 6

GRADY mentioned that he did not want HARDY in the alley on the night of the action because he did not want him to "get busted" on his first action. GRADY indicated that he desired HARDY to help control the streets as far as the traffic flow because he knew the streets in the area. (HARDY's report to the FBI on his meeting with GRADY's group on August 9, 1971.)

Page 219, Paragraph 3

Last night there were two groups operating. GRADY, MC GOWAN, COOKIE and himself (HARDY) were in one group. The other group consisted of GIOCONDO, RO RO REILLY, BOB GOOD and ANN DUNHAM. It was GIOCONDO's group that was actually doing the surveillance work that should have been out there, according to

the plans, around 10:00 p.m. (HARDY's report to the FBI on his meeting with GRADY's group on August 9, 1971.)

Page 223, Paragraph 2

RO RO said that GRADY told her to tell HARDY that they would need the truck for this weekend, whether it was a dry run or the actual hit. GRADY mentioned to RO RO that they would need the truck on Saturday night, and possibly on Sunday night, if the action did not take place on Saturday. (HARDY's report to the FBI on his meeting with GRADY's group on August 11, 1971.)

Page 223, Paragraph 4

REILLY told GRADY that NED MURPHY was not in the Camden area, and that he (MURPHY) had said that he was going to Rochester for the weekend, but that he (MURPHY) would come to Camden, if the hit is going to take place this weekend. (HARDY's report to the FBI on his meeting with GRADY's group on August 11, 1971.)

Page 223, Paragraph 5

REILLY also told GRADY she had contacted others as GRADY had instructed her to do. She told GRADY that she received positive responses from most of those whom she had contacted. (HARDY's report to the FBI on his meeting with GRADY's group on August 11, 1971.)

Page 223, Paragraph 6

After REILLY finished talking with GRADY, he (HARDY) took GOOD in his truck and dropped him off at his (GOOD's) surveillance point. After doing this, HARDY left the area. (HARDY's report to the FBI on his meeting with GRADY's group on August 11, 1971.)

Page 225, Paragraph 3

They talked for a few minutes and it was the general concensus of the group that GIOCONDO, RORO and GOOD would be able to handle the surveillances for that night. (HARDY's report to the FBI on his meeting with GRADY's group on August 12, 1971.)

Page 225, Paragraph 6

BOB GOOD said that he had done a "head count" and determined that there would be 14 to 15 people present this weekend. GOOD said that it was now just a matter of GRADY giving the signal. (HARDY's report to the FBI on his meeting with GRADY's group on August 12, 1971.)

Page 225, Paragraph 8

GOOD said that he wanted to be part of the "entrance team," that is the team that would actually go into the draft board. It was speculated by those members of the group present that BOB WILLIAMSON, COOKIE and perhaps MIKE GIOCONDO or Father MICHAEL DOYLE would also be part of the "entrance team." (HARDY's report to the FBI on his meeting with GRADY's group on August 12, 1971.)

Page 227, Paragraph 3

GRADY told members of the group to "get everything together as if we're going tonight." GRADY also indicated that he wanted them to get the ladders so that members of the group could practice on the ladders. (HARDY's report to the FBI on his meeting with GRADY's group on August 14, 1971.)

Page 227, Paragraph 4

Later in the meeting, RO RO REILLY said that if the group did not go on that night (Saturday), that they would go on the next

night, which would be Sunday. (HARDY's report to the FBI on his meeting with GRADY's group on August 14, 1971.)

Page 227, Paragraph 5

MIKE GIOCONDO said that NED MURPHY would be called if the hit was going to take place on Sunday night, so that MURPHY would be able to arrive in time for the action. (HARDY's report to the FBI on his meeting with GRADY's group on August 14, 1971.)

Page 227, Paragraph 6

GRADY gave the following instructions to members of the group: (HARDY's report to the FBI on his meeting with GRADY's group on August 14, 1971.)

Page 227, Paragraph 7

He instructed MIKE GIOCONDO to go to the Radio Shack, Route 130, Pennsauken, N.J., and obtain another walkie-talkies. GIOCONDO did this. (HARDY's report to the FBI on his meeting with GRADY's group on August 14, 1971.)

Page 227, Paragraph 8

GRADY said that he (GRADY) and COOKIE would get the knapsacks. (HARDY's report to the FBI on his meeting with GRADY's group on August 14, 1971.)

Page 227, Paragraph 9

GRADY instructed TERRY BUCKALEW to go to the United States Post Office in Philadelphia, Pa., and to obtain mail bags. (HARDY's report to the FBI on his meeting with GRADY's group on August 14, 1971.)

Page 227, Paragraph 10

During the meeting, JOHN GRADY and COOKIE said that the group would also attempt to gain entry into the Army Intelligence Office located in the Post Office Building. (HARDY's report to the FBI on his meeting with GRADY's group on August 14, 1971.)

Page 228, Paragraph 5

While at GIOCONDO's apartment, HARDY learned that BOB GOOD and KIRK from Philadelphia had gone into the draft board on the following pretext: GOOD inquired from the draft board personnel as to his status as a draftee if he were to transfer from New York City to Camden, N.J. GOOD, it seemed, used the pretext that he was about to attend Rutgers University and wanted to resolve his draft status. (HARDY's report to the FBI on his meeting with GRADY's group on August 13, 1971.)

Page 230, Paragraph 1

HARDY further advised that he overheard a conversation between JOHN SWINGLISH and RORO REILLY. SWINGLISH inquired as to what was happening in Buffalo whereupon RORO answered that the last time she talked to them was last weekend and that they were planning their action for next weekend, next Saturday night. HARDY advised that SWINGLISH and REILLY did not go into detail as to the location of the draft board in Buffalo. (HARDY's report to the FBI on his meeting with GRADY's group on August 13, 1971.)

Page 230, Paragraph 3

HARDY advised that sometime during the night, but he could not remember the exact time or place, he was told by COOKIE that JOHN GRADY was very ill having a very bad cold or a light case of pneumonia. She

stated that he was just trying to get some rest. HARDY noted that GRADY was not in attendance at the meeting or the surveillance. (HARDY's report to the FBI on his meeting with GRADY's group on August 13, 1971.)

Page 231, Paragraph 4

The members of the group were discussing what was needed in order to enter the building. A "tool list," which included such items as a portable drill, drill bits for glass, and ladders, was given to HARDY. A "clothing list" was made up which indicated that dark clothing should be worn. This list also included knapsacks and mail bags. The members of the group had agreed that the "entrance team," that is the team actually going inside the draft board, would consist of BOB GOOD, RO RO REILLY, COOKIE, MIKE GIOCONDO, and BOB WILLIAMSON, and MICHAEL DOYLE. (HARDY's report to the FBI on his meeting with GRADY's group on August 14, 1971.)

Page 231, Paragraph 5

It was agreed that TERRY BUCKALEW would drive the Avis rental truck, with the "entrance team" inside, to the back of the Post Office. The Avis rental truck was rented by HARDY as he was so instructed to do by GRADY. (HARDY's report to the FBI on his meeting with GRADY's group on August 14, 1971.)

Page 231, Paragraph 6

At approximately 3:30 p.m., JOHN GRADY and WILLIAMSON arrived at the apartment. GRADY said "lets get everything together as if its going tonight." GRADY then pressured HARDY for equipment and a place where they could practice going up the ladders. (HARDY's report to the FBI on his meeting with GRADY's group on August 14, 1971.)

Page 231, Paragraph 7

GRADY said that he (GRADY) and COOKIE would get the knapsacks. GRADY instructed ANN DUNHAM, RO RO REILLY, LEE ANN MOSHER, and JANETTE, to do some shopping and to prepare dinner. (HARDY's report to the FBI on his meeting with GRADY's group on August 14, 1971.)

Page 232, Paragraph 1

GRADY instructed BOB GOOD, JOANN REILLY, and JOHN SWINGLISH to "walk around the Post Office for an hour or so." (HARDY's report to the FBI on his meeting with GRADY's group on August 14, 1971.)

Page 232, Paragraph 2

It was HARDY's impression that GRADY and SWINGLISH are assuming command of the operation. (HARDY's report to the FBI on his meeting with GRADY's group on August 14, 1971.)

Page 232, Paragraph 3

At approximately 4:00 p.m. HARDY went, as instructed by GRADY, to obtain the portable drill and drill bits. (HARDY's report to the FBI on his meeting with GRADY's group on August 14, 1971.)

Page 232, Paragraph 4

GIOCONDO, as instructed by GRADY, then went to the Radio Shack, Route 130, Pennsauken, N.J., to obtain a walkie-talkie and small tape recorder. (HARDY's report to the FBI on his meeting with GRADY's group on August 14, 1971.)

Page 233, Paragraph 3

At approximately 11:00 p.m., GRADY asked HARDY to take WILLIAMSON, MOSHER, and COUING

to the roof of the Townhouse Apartments, where they would occupy positions No. 2 and 3, and from those positions, surveil the "Z traffic," (that is the patterns of the police cars.) (HARDY's report to the FBI on his meeting with GRADY's group on August 14, 1971.)

Page 234, Paragraph 6

Last night (August 14, 1971) while at DIXON's apartment, GRADY also mentioned that they needed more "interior investigation" of the draft board, "like when GOOD and FORSYTHE went into the draft board on a Friday afternoon." HARDY had previously mentioned that KIRK and GOOD went into the draft board on Friday afternoon. It was apparent from GRADY's comment, that FORSYTHE is KIRK's surname. (HARDY's report to the FBI on his meeting with GRADY's group on August 14, 1971.)

Page 237, Paragraph 2

On August 15, 1971, at 8:30 p.m., he went to the apartment of MIKE GIOCONDO, 3rd and Cooper Streets, Camden, N.J. RO RO REILLY and ANN DUNHAM, who were there, told him to go to DIXON's apartment. He then went directly to DIXON's apartment at 517 Penn Street, Camden, N.J., arriving within ten minutes. (HARDY's report to the FBI on his meeting with GRADY's group on August 15, 1971.)

Page 237, Paragraph 6

While at DIXON's apartment, the group held what was referred to as a "sensitivity session" until approximately 10 p.m. Members of the group confronted each other with the fact that various members were not doing their jobs. They discussed the problems and questioned

as to why things "were not moving along."
(HARDY's report to the FBI on his meeting
with GRADY's group on August 15, 1971.)

Page 238, Paragraph 2

COUMING said that he would stay all week,
"until the draft board action was over."
COUMING said that he would not be actually
going into the draft board but that he
wished that he would be able to since he
has not actually gone into the draft board
since the "Boston 8 Action." COUMING said
that he would not be part of the entrance
team because JOHN GRADY had told him that
he would be needed on the street. (HARDY's
report to the FBI on his meeting with GRADY's
group on August 15, 1971.)

Page 238, Paragraph 6

At 10:30 p.m., members of the group went
out on their assignments. The assignments
had been set up or coordinated by COOKIE
and are subject to GRADY's approval. (HARDY's
report to the FBI on his meeting with GRADY's
group on August 15, 1971.)

Page 239, Paragraph 5

GRADY, last night, instructed HARDY to
arrange for a location where the group
could again practice going up and down the
ladders. GRADY also instructed HARDY to,
on Tuesday night, be prepared to give
instructions with regard to cutting glass
with the drill. (HARDY's report to the
FBI on his meeting with GRADY's group on
August 15, 1971.)

Page 239, Paragraph 7

Last night GRADY said, "We're tooling up for
Saturday night. If it doesn't go Saturday or
Sunday, we're all leaving town." (HARDY's
report to the FBI on his meeting with GRADY's
group on August 15, 1971.)

Page 240, Paragraph 2

On August 16, 1971, at 5:10 p.m., he was telephonically contacted at his residence by JOHN GRADY. GRADY told him that he wanted to have "ladder practice" for members of the group that night. (HARDY's report to the FBI on his meeting with GRADY's group on August 16, 1971.)

Page 242, Paragraph 2

On Sunday, August 15, 1971, JOHN GRADY mentioned that he had talked at length with the General Services Administration (GSA) guard at the Post Office Building. GRADY mentioned that he thought it would be possible to simply have members of the "entrance team" walk out of the Post Office, after performing the action, while GRADY was conversing with the guard. GRADY had learned that the guard is blind in one eye and 68 years old. Because of this, GRADY feels that it would be feasible for members of the group to walk out of the building in the guard's presence. (HARDY's report to the FBI on his meeting with GRADY's group on August 16, 1971.)

Page 243, Paragraph 6

While attending the meeting TERRY BUCKALEW advised him that three or four other people had been contacted and that they were coming down for the action this weekend. BUCKALEW did not mention any specific names but said the people were from New York and Washington, D.C. (HARDY's report to the FBI on his meeting with GRADY's group on August 17, 1971.)

Page 243, Paragraph 7

HARDY also learned from MIKE GIOCONDO that MEL MADDEN for one reason or another feels that he should come down this Saturday. (HARDY's report to the FBI on his meeting with GRADY's group on August 17, 1971.)

Page 245, Paragraph 5

GRADY stated that he did not want to use DIXON's or GIOCONDO's apartment for anything but eating or sleeping. He wanted everything kept at ANDERSON's from here on out. At this point PAUL COUMING interjected and said that he had talked to two people up in Baltimore yesterday and that they will definitely come down Friday night. COUMING did not give any names. JOHN GRADY then stated that he had talked with MURPHY and MC GOWAN in New York and that they would also be coming down Friday night. (HARDY's report to the FBI on his meeting with GRADY's group on August 18, 1971.)

Page 246, Paragraph 2

HARDY advised that TERRY BUCKALEW worked on the personnel problems as far as where people would be sleeping and also on the entrance into the draft board. He stated that a little later in the evening RORO helped him with this task. (HARDY's report to the FBI on his meeting with GRADY's group on August 18, 1971.)

Page 246, Paragraph 3

HARDY advised that he ascertained the following operational procedure from TERRY BUCKALEW for the actual "entrance team": (HARDY's report to the FBI on his meeting with GRADY's group on August 18, 1971.)

Page 248, Paragraph 1

HARDY also learned that MIKE GIOCONDO and MIKE DOYLE are going into the draft board today at approximately 10 o'clock this morning to see what they can. The idea was to just get the physical lay-out

of the room. GRADY would like everyone who is going into the building on the actual night of the action to get in there at least once before the action so that they will be a little bit familiar with the floorplan. (HARDY's report to the FBI on his meeting with GRADY's group on August 18, 1971.)

Page 249, Paragraph 1

HARDY advised that he has been asked to go into the Army Intelligence Office in the Post Office to gather additional information. It is felt by the group that they will have plenty of time to also break into the Army Intelligence Office. HARDY explained that the group knows that they will have at least three hours Saturday night in the draft board and that the break-down is that they will break into six filing cabinets each. He explained that certain filing cabinets they will not have to touch because they know that they are just out-dated records. He stated that they know which ones they want. Because of this they feel very confident about breaking into the Army Intelligence Office. (HARDY's report to the FBI on his meeting with GRADY's group on August 18, 1971.)

Page 251, Paragraph 11

It was mentioned that the truck which GIOCONDO has "lined up" is a 14' step van with a power tailgate section. Members of the group intend to put the ladders on the power tailgate section thereby giving greater height to the ladders. GRADY has proposed this concept. (HARDY's report to the FBI on his meeting with GRADY's group on August 19, 1971.)

Page 253, Paragraph 7

After he did that, the members of the group mentioned that MARTHA SHERRELEY had stopped by the ANDERSON apartment on that day and had offered the services of EUGENE DIXON,

herself and the use of their car. It was mentioned that SHEMELEY appeared highly nervous. Members of the group indicated that they were reluctant to talk to her and that they were sorry that she had come by the apartment. They mentioned that they told her quite frankly that it was too late in the game and that it would be too much for her to absorb the plans. It was COOKIE, RO RO and ANN DUNHAM who related this information with regard to SHEMELEY. (HARDY's report to the FBI on his meeting with GRADY's group on August 20, 1971.)

Page 254, Paragraph 2

GRADY then mentioned that he had encountered GENE DIXON in the area of Penn Street, Camden, New Jersey, on that day and that DIXON had told him that they (DIXON and SHEMELEY) were ready to come into the "action." GRADY said that he told him to "forget it" that they could not "use them" and "thanks anyway." (HARDY's report to the FBI on his meeting with GRADY's group on August 20, 1971.)

Page 255, Paragraph 5

Last night while at the meeting, GRADY said, "We'll be going in at 11:15 tomorrow night." GRADY indicated that by this he was referring to the hit of the draft board. (HARDY's report to the FBI on his meeting with GRADY's group on August 20, 1971.)

Page 255, Paragraph 6

GRADY said that members of the group would be in position at 11:10 p.m., and at 11:15 p.m., everyone would move. His plans call for the blocking of the streets around the Post Office building, while the entrance team puts the ladder against the side of the Post Office building and ascends the ladder to the top of the roof. GRADY's plans call for radio contact between the van and the rooftop and perhaps the church yard. (HARDY's report to the FBI on his meeting with GRADY's group on August 20, 1971.)

Page 255, Paragraph 7

At this time, it has not as yet been determined by GRADY as to who specifically will man the various positions. (HARDY's report to the FBI on his meeting with GRADY's group on August 20, 1971.)

Page 256, Paragraph 2

GRADY said that if "anything goes wrong" that they should call CARL POPLAR (PH), a local lawyer who lives in Haddonfield, New Jersey. GRADY also furnished this attorney's telephone number as 428-1813. (HARDY's report to the FBI on his meeting with GRADY's group on August 20, 1971.)

Page 257, Paragraph 2

The plans, as formulated by JOHN GRADY with regard to the "hit" of the Camden, N.J., Draft Boards, planned for the night of August 21, 1971, are as follows: (HARDY's report to the FBI on his meeting with GRADY's group on August 21, 1971.)

Page 258, Paragraph 9

At 11:15 it is planned that GRADY would depart the pickup truck and give a hand signal to the entrance team. This hand signal would be in the form of a wave and would be their signal to put the ladders up against the building and to enter the building. (HARDY's report to the FBI on his meeting with GRADY's group on August 21, 1971.)

Page 259, Paragraph 1

The plans as set forth above were formulated by GRADY during a meeting last night. GRADY completely dominated this meeting. (HARDY's report to the FBI on his meeting with GRADY's group on August 21, 1971.)

Hardy Allegation

"The way I did this was very simple. I provided them with constant moral encouragement. I provided them with the tools they needed -- ladders, ropes, drills, bits, hammers and so forth. I provided them with food to sustain them during the course of the preparation. All this was paid by the FBI. They paid me also, on a regular basis, for my services."

Allegation

Page 23, Paragraph 4

HARDY was given instructions by the members of the group to see if he could obtain three walkie-talkies, as they desired to have one walkie-talkie in operation inside the draft board office, one on the rooftop of the Towne House Apartments, and one with the people on the street, so that they would at all times be ready to run and avoid detection. (HARDY's report to the FBI of his meeting with GRADY's group on June 30, 1971.)

Page 38, Paragraph 1

HARDY related that while he was on the rooftop with GRADY, GRADY started to press him for supplying some of the equipment and information that he, GRADY, had earlier asked for. At this time GRADY stated that he wanted HARDY to go into the draft board office and get a more detailed floor plan of where the 1-A files are located. GRADY also wanted him to acquire some walkie-talkies. GRADY approached him for some money now that his wife and five children.

are coming down on Sunday afternoon. (HARDY's report to the FBI of his meeting with GRADY's group and subsequent activities on July 1, 1971.)

Page 56, Paragraph 3

It was also mentioned during the last evening that KIRK, the locksmith from Philadelphia, had left a set of tools at MARTHA SHEMLEY's residence, Hi-Nella, N.J., and GENE DIXON's apartment at 5th and Penn Streets, Camden, N.J. It was also mentioned that KIRK had left some hand-written instructions, along with the tools so that members of the group could practice using the tools.

Page 57, paragraph 2

HARDY advised that he remembered something that he wanted to report which he had forgot to report yesterday. HARDY advised that two more names were mentioned by GRADY as, in HARDY's opinion, current sympathizers or in some way helping GRADY in his activities. Their names are MAUDE and TOM O'DELL. These people live in Hi-Nella, N. J. GRADY mentioned that in case his group needed to rent a truck or U-Haul, these people would do it, and he implied from GRADY's comments about the O'DELLS that they were a source of possible income. (HARDY's report to the FBI of his meeting with GRADY's group on July 5, 1971).

Page 69, paragraph 4

After the evening meal was finished, he went into the living room area with GRADY, ANITA and COOKIE and they talked at length about the proposed break-in and the problems they have come up against during the past break-ins and what they were going to do to solve these problems. During the discussion, it was revealed that money will be supplied by people such as Dr. ANDERSON and CALLAHAN (no further identification on CALLAHAN). JOHN GRADY referred to "The East Coast Conspiracy Group" and that their main contact with this group is in East Orange, N. J. According to GRADY, this East Coast Conspiracy Group is a loose-knit organization of about 200 people. GRADY also referred to a JOHN NICHOLSON from Philadelphia, who is apparently a keyman in this group. (HARDY's report to the FBI of his meeting with GRADY's group on July 8, 1971).

Page 70, paragraph 2

...HARDY mentioned that the group does not really need that much money to live since they steal most of their food, liquor, milk, bread and clothing.

It was mentioned that ANN (last name unknown) from Philadelphia is picking up COOKIE and ANITA this morning to take them to North Jersey where they will deliver the lecture in connection with the drug program. It was mentioned that it is about a four-hour drive from Camden and that, therefore, it would be an all-day affair. It was HARDY's understanding that the group would be able, if necessary, to obtain large sums of money through the East Orange group. (HARDY's report to the FBI of his meeting with GRADY's group on July 8, 1971).

Page 76, paragraph 3

GRADY mentioned that MADDEN's apartment in East Orange, N. J., is the headquarters for the East Coast Conspiracy to Save Lives (ECCSL). The target date was set for July 18, 1971, but it was indicated by GRADY that the date might have to be moved to July 25, 1971, in order to give MEL MADDEN time to set up his schedule. GRADY stated that MEL MADDEN would be bringing down seven people in cars, to take part in the hit. GRADY also mentioned that MADDEN would provide enough money to support the physical needs of the group for the two or three days while they were in Camden doing the pre-hit surveillance. (HARDY's report to the FBI of his meeting with GRADY's group on July 9, 1971).

Page 79, paragraph 4

It was mentioned during the meeting that the set of locks and tools have been brought to the residence of Dr. ANDERSON so that members of the group can practice with them there. Before being brought to Dr. ANDERSON's, part of the tools were at GENE DIXON's apartment and part of the tools were at MARTHA SHEMLY's apartment. He also learned that KIRK, the Philadelphia locksmith, also drives a taxi cab and is serving his apprenticeship

as a locksmith. He has taught the group how to open file cabinets without going through a great deal of trouble. (HARDY's report to the FBI of his meeting with GRADY's group on July 9, 1971).

Page 86, paragraph 4
Page 87, paragraph 1

HARDY advised in the course of the conversation, MEL MADDEN stated he would provide a van and some people and would try to get some money from the Defense Committee. MADDEN brought up that there is always the possibility of one of the group "participating in the action" could possibly be picked up and that bail money would be necessary. At this time, TERRY interrupted and said that someone by the name of YEAGER would be a financial touch for this thing. YEAGER is a member of the Scranton Defense Committee. From the gist of the conversation, HARDY assumed there are several Defense Committees. The conclusion was reached that YEAGER, TERRY and TERRY's brother, name unknown, and MEL MADDEN would provide another van, some people, and some money for the forthcoming action. (HARDY's report to the FBI of his meeting with GRADY's group on July 11, 1971).

Page 97, paragraph 4

JOHN GRADY questioned GOOD as to what the Defense Committee would do with regard to the proposed hit in Camden. GOOD told GRADY that the Defense Committee was totally uninterested in anything JOHN GRADY is doing at the moment. It was brought out during the conversation that a man named PAUL, whose last name begins with "M" (HARDY could not recall the last name), is on the Defense Committee in New York. GOOD mentioned that there was at least \$100,000 in the war chest of the Defense Committee in New York City and that the money is kept in a bank. Upon learning this, GRADY became very upset, since he is \$20,000 in debt due to the failure of two or three bookstores which he had run.

(HARDY's report to the FBI of his meeting with GRADY's group on July 13, 1971).

Page 110, paragraph 3

HARDY overheard COOKIE mentioning to GRADY that the New York City Defense Group was going to send some money down to someone by the name of DAN in Woodbury, N. J. It was also mentioned during this conversation that DAN has some filing cabinets from the Philadelphia Bookstore in his home in Woodbury, and that COOKIE was going to make some arrangements to pick up these filing cabinets during the weekend. It was mentioned that she would probably bring them to Dr. ANDERSON's residence. (HARDY's report to the FBI of his meeting with GRADY's group on July 16, 1971).

Page 128, Paragraph 3

Last night GRADY said to him that he would need more "headsets" (walkie-talkies) and that he would like to get better ones than the ones that had already been purchased. GRADY indicated that he would be receiving money which he could use to purchase these walkie-talkies. (HARDY's report about the plans for the Camden "Draft Board action" as told to him on July 19, 1971 by GRADY's group.)

Page 132, Paragraph 4

During the conversation, HARDY learned that Mrs. GRADY had received money over the weekend from whoever it is that represents DAN and PHILIP BERRIGAN. She received \$500 from this source, which was to serve as expense money for the needs of the GRADY family. GRADY expects additional money to come from the Defense Committee in the New York City area. (HARDY's report to the FBI of his meeting with GRADY's group on July 21, 1971.)

Page 134, Paragraph 6

GRADY mentioned that he would today be getting in touch with DIXON and giving DIXON some money so that he could buy some two or three new headsets (walkie-talkies). GRADY said that DIXON will be getting radios from the Radio Shack located on Route 130 and Browning Road, Pennsauken, N.J. (HARDY's report to the FBI of his meeting with GRADY's group on July 21, 1971.)

Page 136, Paragraphs 3 and 4

There was discussion among members of the group concerning the fact that GENE DIXON had not shown up this week. DIXON had taken the week off from work in order to do more casing and observation work, but he had attended only one meeting this week and has been out of touch by telephone from other members of the group. It was discussed that DIXON had not performed his duties with regard to the purchasing of headsets (walkie-talkies). (HARDY's report to the FBI of his meeting with GRADY's group on July 22, 1971.) GRADY gave him (HARDY) \$150 and told him to buy some walkie-talkies.

Page 137, Paragraph 7

When GRADY gave HARDY the \$150 for the purchase of "headsets", he (GRADY) told him that if he had to he could spend the entire amount for the headsets. GRADY also told him that the money is part of the money that Mrs. GRADY has received from DAN and PHILIP BERRIGAN. GRADY also said that money would be coming in from the Defense Committee. (HARDY's report to the FBI of his meeting with GRADY's group on July 22, 1971.)

Page 138, Paragraph 4

HARDY advised that the name (FNU) HOOD has been mentioned by GRADY, but he was unable to recall how the name was first mentioned. HARDY stated that the following cars have been used by GRADY:

MICHAEL GIOCONDO's Renault

Mrs. GRADY's Comet

Doctor Anderson's car, a station wagon

BILL FRANCIS' car (before it was damaged in a recent accident)

Brother PHILIP KELLY's car (during the early days of planning)

Father MICHAEL DOYLE's car (has been used to go to New York City and also has been used to see his friends while they were doing the Trenton surveillances)

(HARDY's report to the FBI of his meeting with GRADY's group on July 22, 1971.)

Page 141, Paragraph 5

GRADY has mentioned that when the action takes place it will be on a Saturday or Sunday night. Last night GRADY said that they will need twelve cars, six with drivers and six parked. GRADY told members of the group last night that they should start thinking about where they could get extra cars. GRADY indicated that these cars would be used to effectively block off different area, if need be. (HARDY's report to the FBI of his meeting with GRADY's group on July 23, 1971.)

Page 141, Paragraph 7
Entire Page 142

HARDY then advised that the following vehicles have been used by members of the group in connection with the operation:

Father FRANCIS' (St. Peter and Paul, also known as El Centro) car has been used in the past exclusively by GRADY.

Doctor ANDERSON's car has been used exclusively by GRADY.

GIOCONDO's Renault has been used by GRADY, COOKIE, and ANITA.

Father MICHAEL DOYLE's car has been used by GRADY and ANITA.

Mrs. GRADY's Comet, which bears New York license plate, has been used by GRADY and COOKIE, for transportation into North Camden. They do not use this car on surveillances because they are concerned that it will draw suspicion due to having a New York license plate.

GENE DIXON's Ford has been used by DIXON, MARTHA SHEMELEY and ANITA.

He (HARDY) does not believe that they have used MARNIE O'DELL's car as yet; however, GRADY has mentioned that they would be able to use this car if they so desire.

GRADY also mentioned that they were going to ask GEORGE and LOUISE SLATER if they could use their car on the night of the action. GRADY also mentioned that they would ask the SLATERS if they would drive the car on the night of the action.

ANITA has started making up a list of names of people that she would be able to contact concerning the use of the cars on the night of the action. These names are written in a brown notebook, which is approximately four inches by seven inches. He saw this notebook but was unable to retain the names of the people on the list.

ANITA also has a list containing names of twelve different people who she will contact outside the city. (HARDY was unable to furnish any of these names.) (HARDY's report to the FBI of his meeting with GRADY's group on July 23, 1971.)

Page 152, Paragraphs 4 and 5

There was some mention of contacts made with the Defense Committee in New York City. It was indicated that the Defense Committee has offered to pay some of the bills that have been acquired by GRADY people in Camden. The Defense Committee has asked for stationery receipts so that they can legitimately put these expenses "on the books" and reimburse GRADY for the money spent. GRADY and ANITA asked him (HARDY) if he could get some "bill heads" so that they could send bills into the Defense Committee and get reimbursed for the purchase of the radios, gasoline, and other things, which they have had to pay for out of their own pockets.

GRADY said that he thinks that they will rent some cars for use by GRADY for a couple of weeks. GRADY indicated that this will be necessary, because his wife will have their Comet with her at the camp site. GRADY feels that GIOCONDO's Renault is a bit too unusual and would be noticed if he used it quite a bit while driving around the city. It was also mentioned by GRADY that, possibly, JOE O'ROURKE will rent a car for GRADY to use and bring it down with him from New York. (HARDY's report to the F.B.I. of his meeting with GRADY's group on July 25, 1971.)

Page 158, Paragraphs 2 through 6

GRADY has said that if the action does not take place within ten days, that he would leave the area.

GRADY indicated that he has a problem with the Defense Committee in that they (the Defense Committee) want to work only with the defense of the people who have been arrested in connection with various actions, whereas GRADY wants them to provide money for offense, that is the actual performing of actions.

GRADY has indicated that the Defense Committee is more interested in coming in after the action is over and helping the people who have been charged and arrested.

GRADY has said that he was one of the main organizers of "this thing," two and one-half years ago, but that new people have come into the organization and taken over. GRADY said that these people do not have the same feeling in respect for GRADY's thoughts as he would prefer them to have.

GRADY indicated that he made a break with the group several months ago, and that now he is attempting to retain his position within the group. GRADY indicated that he is doing this because he feels that he needs the group. (HARDY's report to the FBI of his meeting with GRADY's group on July 26, 1971.)

Entire Page 161

ROBERT WILLIAM HARDY advised that COOKIE requested that he cash a check for her. HARDY advised that he gave COOKIE the amount of the check which is \$31.40 at which time COOKIE endorsed the check to him.

HARDY furnished a general treasury check, number A778940, from the Department of the Treasury, State of New Jersey, Trenton, N.J., payable to the order of KATHLEEN M. RIDOLFI, 64 Hunter Drive, Hi-Nella, N.J. It is noted on the check the payment is for the Drug Education Inst. (HARDY's report of a check cashed for COOKIE RIDOLFI on July 28, 1971.)

Page 163, Paragraph 7

COOKIE commented that during the two years that she has known GRADY, that this is the most "strung-out," tired, irritable, and short tempered, that she has ever seen him. COOKIE said that she has never seen GRADY at such a low point. COOKIE felt that this was due to the heavy effects of the surveillances, or casings; the fact that he has had to spend much time away from his family; and other factors. COOKIE felt that another reason for GRADY's low morale was the fact that he has not been getting any real physical help from the Defense Committee in New York City. (HARDY's report to the FBI of his meeting with GRADY's group on July 27, 1971.)

Page 170, Paragraph 6

It was mentioned that COOKIE and ANITA were caught shoplifting at Wanamakers, Morristown Mall, Morristown, N.J. They, however, were able to talk their way out of the situation and no charges were brought against them. (HARDY's report to the FBI of his meeting with GRADY's group on July 28, 1971.)

Page 174, Paragraph 1

HARDY advised that the papers and plans are still in the crib in the ANDERSON home with the exception of the slide projector which is located in the room; however, the slides are in the crib. HARDY briefly described the collection of documents and plans as being ten large 24 by 36 sheets of poster board containing street maps with plastic overlays on them so that the group can write down their observations and then as developments arise they can later erase them. There are a half dozen assorted notebooks and a small filing box. (HARDY's report to the FBI of his meeting with GRADY's group on July 29, 1971.)

Page 175, Paragraph 1

On July 30, 1971, ROBERT WILLIAM HARDY telephonically advised Special Agent TERRENCE P. NEIST that JOHN GRADY had on that date requested that he put into his truck GRADY's personal effects and the plans, slides, and documents which had been prepared and used by GRADY's group in connection with the proposed Camden Draft Board hit. He further advised that GRADY had requested that he retain these items until sometime during the day of July 31, 1971, at which time he should take them to the apartment of EUGENE DIXON, 517 Penn Street, Camden, N.J. (HARDY's report to the FBI of his meeting with GRADY's group on July 30, 1971.)

Page 179, Paragraph 1

Before leaving last night GRADY told him that he had gotten a letter from DAN and PHIL BERRICAN and said that the letter was very encouraging and that money was received with the letter. (HARDY's report to the FBI of his meeting with GRADY's group on July 30, 1971.)

Page 184, Paragraph 2

On Saturday afternoon, July 31, 1971, he (HARDY) picked up GRADY at GIOCONDO's apartment and they went to GENE DIXON's apartment, 517 Penn Street, Camden, N.J., where MURPHY was staying. The three of them carried the materials, in HARDY's truck into GENE DIXON's apartment. The material, which they took to DIXON's apartment, included the "headsets," personal effects of GRADY, binoculars, plans, drawings, slides, and various notes and documents prepared by the group in connection with the proposed "action." (HARDY's report of moving equipment on July 31, 1971.)

Page 211, Paragraph 6

About two or three nights ago members of the group started using GIOCONDO's tape recorder to record the results of their surveillances. It is a portable tape recorder and members of the group use it on the rooftop and in the churchyard of the Episcopal Church rather than writing notes. They speak into the recorder giving the information learned from their surveillances. MIKE GIOCONDO purchased a second tape recorder, a small Japanese tape recorder, for approximately \$16 yesterday. These tape recorders are used every night and are supposed to be returned to ANDERSON's apartment after the surveillance. (HARDY's report to the FBI on his meeting with GRADY's group on August 7, 1971.)

Page 211, Paragraph 7

The materials kept in ANDERSON's apartment are kept in the small closet in the living room. The radios, binoculars, and tape recorders as well as the notes and documents are kept there. The only thing which ordinarily would not be at that location would be equipment which was used by members of the group the night before and for some reason not returned. (HARDY's report to the FBI on his meeting with GRADY's group on August 7, 1971.)

Page 213, Paragraph 2

On August 10, 1971, he went to the apartment of MIKE GIOCONDO arriving at approximately 9:00 p.m. GIOCONDO told him that JOHN GRADY, ED MC GOWAN, and COOKIE had gone to the shore yesterday and would be returning tonight. GIOCONDO also said that ANN DUNHAM had gone to New York City yesterday and that she would return to the Camden area either tonight or tomorrow. GIOCONDO also said that RORO REILLY had gone over to Philadelphia in order to find BOB WILLIAMSON and to make some telephone calls. GIOCONDO said that BOB GOOD was at GENE DIXON's apartment and that ANITA was still sick. (HARDY's report to the FBI on his meeting with GRADY's group on August 10, 1971.)

Page 227, Paragraph 7

GRADY instructed MIKE GIOCONDO to go to the Radio Shack, Route 130, Pennsauken, N.J., and obtain another walkie-talkies. GIOCONDO did this. (HARDY's report to the FBI on his meeting with GRADY's group on August 14, 1971.)

Page 227, Paragraph 8

GRADY said that he (GRADY) and COOKIE would get the knapsacks. (HARDY's report to the FBI on his meeting with GRADY's group on August 14, 1971.)

Page 227, Paragraph 9

GRADY instructed TERRY BUCKALEW to go to the United States Post Office in Philadelphia, Pa., and to obtain mail bags. (HARDY's report to the FBI on his meeting with GRADY's group on August 14, 1971.)

Page 231, Paragraph 4

The members of the group were discussing what was needed in order to enter the building. A "tool list," which included such items as a portable drill, drill bits for glass, and ladders, was given to HARDY. A "clothing list" was made up which indicated that dark clothing should be worn. This list also included knapsacks and mail bags. The members of the group had agreed that the "entrance team," that is the team actually going inside the draft board, would consist of BOB GOOD, RO RO REILLY, COOKIE, MIKE GIOCONDO, and BOB WILLIAMSON, and MICHAEL DOYLE. (HARDY's report to the FBI on his meeting with GRADY's group on August 14, 1971.)

Page 231, Paragraph 5

It was agreed that TERRY BUCKALEW would drive the Avis rental truck, with the "entrance team" inside, to the back of the Post Office. The Avis rental truck was rented by HARDY as he

was so instructed to do by GRADY. (HARDY's report to the FBI on his meeting with GRADY's group on August 14, 1971.)

Page 231, Paragraph 6

At approximately 3:30 p.m., JOHN GRADY and WILLIAMSON arrived at the apartment. GRADY said "lets get everything together as if its going tonight." GRADY then pressured HARDY for equipment and a place where they could practice going up the ladders. (HARDY's report to the FBI on his meeting with GRADY's group on August 14, 1971.)

Page 231, Paragraph 7

GRADY said that he (GRADY) and COOKIE would get the knapsacks. GRADY instructed ANN LUNHAM, RO RO REILLY, LEE ANN MOSHER, and JAMEPTE, to do some shopping and to prepare dinner. (HARDY's report to the FBI on his meeting with GRADY's group on August 14, 1971.)

Page 232, Paragraph 3

At approximately 4:00 p.m. HARDY went, as instructed by GRADY, to obtain the portable drill and drill bits. (HARDY's report to the FBI on his meeting with GRADY's group on August 14, 1971.)

Page 232, Paragraph 4

GIOCONDO, as instructed by GRADY, then went to the Radio Shack, Route 130, Pennsauken, N.J., to obtain a walkie-talkie and small tape recorder. (HARDY's report to the FBI on his meeting with GRADY's group on August 14, 1971.)

Page 243, Paragraph 4

The consensus of the group was that they were very interested in learning how to cut or break glass and asked him to leave an electric drill in order that they could practice with it. (HARDY's report to the FBI on his meeting with GRADY's group on August 17, 1971.)

Page 243, Paragraph 5

HARDY advised that the drill was left with the group along with bits and other tools that they had asked him to get for them. He advised that he also left a couple of old casing windows and trim metal frame windows for them to practice on. He advised that they were very insistent about his leaving these materials. (HARDY's report to the FBI on his meeting with GRADY's group on August 17, 1971.)

Page 244, Paragraph 5

HARDY also noted that JOHN GRADY said that transportation is now their main problem. He noted that GRADY was to get some money from the Defense Committee to rent cars but that GRADY had not heard from MURPHY and MC GOWAN. He noted that MURPHY and MC GOWAN are the ones who usually bring the money. (HARDY's report to the FBI on his meeting with GRADY's group on August 17, 1971.)

Page 246, Paragraph 5

While they were going over the entrance team's duty it was brought up that there is a conference room off of the draft board area which is part of the draft board and has a set of windows. The draft board employees use this for their conference. It came out in the meeting that it might be easy to make entry into the draft board through the conference room windows rather than waiting around for about twenty minutes to drill the glass windows in the draft board itself. It was the consensus of the group that this should be explored and checked out. HARDY explained

that the group is interested in the draft board conference room because they are worried that the guard may see broken glass if they attempt to enter the draft board by breaking one of the windows. HARDY explained that the guard does not have access and cannot see from the draft board area the windows which are in the conference room. (HARDY's report to the FBI on his meeting with GRADY's group on August 18, 1971.)

Page 247, Paragraph 8

HARDY learned that MIKE GIOCONDO had taken the day off and will take tomorrow off in order to locate a suitable truck sufficient for the group's needs. HARDY explained that it was now decided that the group wants sort of a stake-body like truck with at least six-foot walls. He explained that they want the open-bed truck because they want to be able to just flip the ladders onto the roof and in that way the entrance team will not have to get out of the truck to get up the ladders. (HARDY's report to the FBI on his meeting with GRADY's group on August 18, 1971.)

Page 248, Paragraph 3

HARDY advised that JOHN GRADY and PAUL COUMING would be going to the Radio Shack on Route 130 at 12 o'clock in order to exchange one of the headsets that is not working at the moment. It seems that something is wrong with the power system. (HARDY's report to the FBI on his meeting with GRADY's group on August 18, 1971.)

Page 248, Paragraph 4

A little later BOB WILLIAMSON said that he had talked to some people in Philadelphia about using their cars and that he was able to guarantee at least three cars from Philadelphia. At this time he mentioned two names of people who will be involved

in the action. One is DAN DOUGHERTY and the other is an EMILY. EMILY has a Volkswagen which the group will be able to use. (HARDY's report to the FBI on his meeting with GRADY's group on August 18, 1971.)

Page 249, Paragraph 2

HARDY explained that they have all the tools they need to break into the filing cabinets. These tools consist of a floor chisel, a flat pry bar, and a large screwdriver. (HARDY's report to the FBI on his meeting with GRADY's group on August 18, 1971.)

Page 250, Paragraph 4

GIOCONDO indicated that he had been able to "line up" a truck that would suit the needs of the group. It was also mentioned that members of the group had picked up additional equipment such as glass drills. (HARDY's report to the FBI on his meeting with GRADY's group on August 19, 1971.)

Page 251, Paragraph 11

It was mentioned that the truck which GIOCONDO has "lined up" is a 14' step van with a power tailgate section. Members of the group intend to put the ladders on the power tailgate section thereby giving greater height to the ladders. GRADY has proposed this concept. (HARDY's report to the FBI on his meeting with GRADY's group on August 19, 1971.)

Page 11, Paragraph 1

(GRADY) also said another person was involved, a GEORGE MC VEY. GRADY stated that he had talked to MC VEY this week and that he, MC VEY, gave him a \$100 donation to buy food and "stuff". HARDY stated they are very short of funds.

Paragraph 2

HARDY felt that Dr. ANDERSON's involvement with GRADY is to the extent that he is lending his home for meetings and possibly financial support.

Page 14, Paragraph 3

HARDY advised that GRADY and his group are living off MIKE GIOCONDO's pay, at least for the time being, and from other monies that are donated by supporters. (HARDY's report to the FBI following his meeting with GRADY's group on June 29, 1971)

Page 19, Paragraph 2

On June 30, 1971, he went to a meeting at the home of Dr. ANDERSON, Harding Avenue and Cooper Drive, Collingswood, N.J. Present at this meeting were MIKE GIOCONDO, JOHN GRADY, COOKIE and ANTOINETTE, who is also known as ANITA. He questioned them as to how they were obtaining the food which they had every night. They eat approximately 9 p.m. every evening, having a community meal. Apparently until last week when they were under surveillance by the FBI, fifteen or twenty people were meeting every night for the community meal. He learned from COOKIE and ANITA that they go out and steal food from a local supermarket so that they do not have to spend money for the food. They also told him that they go to local liquor fairs and steal the whiskey and wine which they have with their meals.

Page 26

When the question of finances was brought up, members of the group said that they got the food by "ripping it off", explaining that they take the food from local supermarkets and liquor stores. (HARDY's report to the FBI concerning his meeting with GRADY's group on June 30, 1971.)

Page 29, Last paragraph

ANDERSON's support of GRADY is to the extent where he lets them use his house, car, and when needed, his office in Camden. He supplies small amounts of money and is the contact man for people coming into Camden from other areas.

Page 38, Paragraph 1

GRADY approached (HARDY) for some money stating that he would need more money now that his wife and five children are coming down on Sunday afternoon. (HARDY's report to the FBI of his meeting with GRADY's group and subsequent activities on July 1, 1971.)

Page 45, Paragraph 3

While conversing with GIOCONDO; JOHN GRADY, COOKIE and ANTOINETTE, also known as Anita, returned from shopping. As they were unloading the groceries he asked COOKIE if they were concerned about the possibility of getting caught doing their shopping. COOKIE told him that she and ANTOINETTE had gotten caught the other day but there were no problems since they do not prosecute shoplifters any more. COOKIE explained that when they are caught they are able to talk their way out of the situation.

Page 46, Paragraph 4

GRADY said that he had a good friend in Rochester New York, who is a dentist by the name of Dr. GEORGE MC VEY, who provides money and supports him at times. According to GRADY, MC VEY has

provided money to GRADY's family for rent, etc. when GRADY is away from home. GRADY bragged that his whole family was very active and they can survive without having to worry a great deal about money.

Page 47, Paragraph 1

HARDY noted that they had brought in about \$40 worth of groceries with a receipt for only \$10 indicating that they had stolen about \$30 worth of groceries. (HARDY's report to the FBI concerning his meeting with GRADY's group on July 3, 1971.)

Page 52, Paragraph 7

GRADY had mentioned that Dr. MC VEY from Rochester, N.Y., is a supplier of money and a contact for the Rochester, N.Y., area. (HARDY's report to the FBI following his meeting with GRADY's group on July 4, 1971.)

Page 69, paragraph 5 and
Page 70, paragraph 1

GRADY, ANITA and COOKIE again made reference to the Philadelphia Draft Board break-ins. They again referred to a locksmith named KIRK from Philadelphia. It was mentioned that COOKIE and ANITA would have a truck rented for the coming weekend so that they could make a dry run. They intended to park this truck in the parking lot across the street from the rear of the post office so they can observe movements within the first floor receiving room of the post office. (HARDY's report to the FBI of his meeting with GRADY's group on July 8, 1971).

Page 73, paragraphs 4 and 5

HARDY mentioned that it was either COOKIE or ANITA who mentioned renting the truck for the weekend from one of her friends in the Philadelphia area.

The plan calls for someone to drive the truck into the alley behind the post office where they can use it as a lookout point, having a direct observation into the receiving room of the post office. (HARDY's report to the FBI of his meeting with GRADY's group on July 8, 1971).

Page 132, Paragraph 4

During the conversation, HARDY learned that Mrs. GRADY had received money over the weekend from whoever it is that represents DAN and PHILIP BERRIGAN. She received \$500 from this source, which was to serve as expense money for the needs of the GRADY family. GRADY expects additional money to come from the Defense Committee in the New York City area. (HARDY's report to the FBI of his meeting with GRADY's group on July 21, 1971.)

Page 137, Paragraph 7

When GRADY gave HARDY the \$150 for the purchase of "headsets", he (GRADY) told him that if he had to he could spend the entire amount for the headsets. GRADY also told him that the money is part of the money that Mrs. GRADY has received from DAN and PHILIP BERRIGAN. GRADY also said that money would be coming in from the Defense Committee. (HARDY's report to the FBI of his meeting with GRADY's group on July 1971.)

Page 138, Paragraph 4

HARDY advised that the name (FNU) HOOD has been mentioned by GRADY, but he was unable to recall how the name was first mentioned. HARDY stated that the following cars have been used by GRADY:

MICHAEL GIOCONDO's Renault

Mrs. GRADY's Comet

Doctor Anderson's car, a station wagon

BILL FRANCIS' car (before it was damaged in a recent accident)

Brother PHILIP KELLY's car (during the early days of planning)

Father MICHAEL DOYLE's car (has been used to go to New York City and also has been used to see his friends while they were doing Trenton surveillances)

(HARDY's report to the FBI of his meeting with GRADY's group on July 22, 1971.)

Page 152, Paragraphs 4 and 5

There was some mention of contacts made with the Defense Committee in New York City. It was indicated that the Defense Committee has offered to pay some of the bills that have been acquired by GRADY people in Camden. The Defense Committee has asked for stationery receipts so that they can legitimately put these expenses "on the books" and reimburse GRADY for the money spent. GRADY and ANITA asked him (HARDY) if he could get some "bill heads" so that they could send bills into the Defense Committee and get reimbursed for the purchase of the radios, gasoline and other things, which they have had to pay for out of their own pockets.

GRADY said that he thinks that they will rent cars for use by GRADY for a couple of weeks. GRADY indicated that this will be necessary, because his wife will have their Comet with her at the camp site. GRADY feels that GIOCONO Renault is a bit too unusual and would be noticed if he used it quite a bit while driving around city. It was also mentioned by GRADY that, possibly, JOE O'ROURKE will rent a car for GRADY to use and bring it down with him from New York (HARDY's report to the FBI of his meeting with GRADY's group on July 25, 1971.)

Page 158, Paragraphs 2 through 6

GRADY has said that if the action does not take place within ten days, that he would leave the area.

GRADY indicated that he has a problem with the Defense Committee in that they (the Defense Committee) want to work only with the defense of the people who have been arrested in connection with various actions, whereas GRADY wants them to provide money for offense, that is the actual performing of actions.

GRADY has indicated that the Defense Committee is more interested in coming in after the action is over and helping the people who have been charged and arrested.

GRADY has said that he was one of the main organizers of "this thing," two and one-half years ago but that new people have come into the organization and taken over. GRADY said that these people do not have the same feeling in respect for GRADY's thoughts as he would prefer them to have.

GRADY indicated that he made a break with the group several months ago, and that now he is attempting to retain his position within the group. GRADY indicated that he is doing this because he feels that he needs the group. (HAR report to the FBI of his meeting with GRADY's group on July 26, 1971.)

Entire Page 161

ROBERT WILLIAM HARDY advised that COOKIE requested that he cash a check for her. HARDY advised that he gave COOKIE the amount of the check which is \$31.40 at which time COOKIE endorsed the check to him.

HARDY furnished a general treasury check, number A778940, from the Department of the Treasury, State of New Jersey, Trenton, N.J., payable to the order of KATHLEEN M. RIDOLFI, 64 Hunter Drive, Hi-Nella, N.J. It is noted on the check the payment is for the Drug Education Inst. (HARDY's report of a check cashed for COOKIE RIDOLFI on July 28, 1971.)

Page 163, Paragraph 7

COOKIE commented that during the two years that she has known GRADY, that this is the most "strung-out," tired, irritable, and short tempered, that she has ever seen him. COOKIE said that she has never seen GRADY at such a low point. COOKIE felt that this was due to the heavy effects of the surveillances, or casings; the fact that he has had to spend much time away from his family; and other factors. COOKIE felt that another reason for GRADY's low morale was the fact that he has not been getting any real physical help from the Defense Committee in New York City. (HARDY's report to the FBI of his meeting with GRADY's group on July 27, 1971.)

Page 170, Paragraph 6

It was mentioned that COOKIE and ANITA were caught shoplifting at Wanamakers, Morristown Mall, Morristown, N.J. They, however, were able to talk their way out of the situation and no charges were brought against them. (HARDY's report to the FBI of his meeting with GRADY's group on July 28, 1971.)

Page 179, Paragraph 1

Before leaving last night GRADY told him that he had gotten a letter from DAN and PHIL BERRIGAN and said that the letter was very encouraging and that money was received with the letter. (HARDY's report to the FBI of his meeting with GRADY's group on July 30, 1971.)

Page 183, Paragraph 2

GRADY asked him to start looking around for a van that could be rented by the group. GRADY said that he would like to have someone other than HARDY drive the van that would go into the alley. GRADY said that his reason for this was that they could afford to lose "the other indians", but that they could not afford to lose him (HARDY) because he was needed in the movement. GRADY told HARDY that there were very few people in the movement who could travel and work at the same time, and that HARDY was one of these people. (HARDY's report to the FBI of his meeting with GRADY's group on July 1971.)

Page 223, Paragraph 2

RO RO said that GRADY told her to tell HARDY that they would need the truck for this weekend, whether it was a dry run or the actual hit. GRADY mentioned to RO RO that they would need the truck on Saturday night, and possibly on Sunday night, if the action did not take place on Saturday. (HARDY's report to the FBI on his meeting with GRADY's group on August 11, 1971.)

Page 231, Paragraph 5

It was agreed that TERRY BUCKALEW would drive the Avis rental truck, with the "entrance team" inside, to the back of the Post Office. The Avis rental truck was rented by HARDY as he was so instructed to do by GRADY. (HARDY's report to the FBI on his meeting with GRADY's group on August 14, 1971.)

Page 247, Paragraph 8

HARDY learned that MIKE GIOCONDO had taken the day off and will take tomorrow off in order to locate a suitable truck sufficient for the group's needs. HARDY explained that it was now decided that the group wants sort of a stake-body like truck with at least six-foot walls. He explained that they want the open-bed truck because they want to be able to just flip the ladders onto the roof and in that way the entrance team will not have to get out of the truck to get up the ladders. (HARDY's report to the FBI on his meeting with GRADY's group on August 18, 1971.)

Page 250, Paragraph 4

GIOCONDO indicated that he had been able to "line up" a truck that would suit the needs of the group. It was also mentioned that

members of the group had picked up additional equipment such as glass drills. (HARDY's report to the FBI on his meeting with GRADY's group on August 19, 1971.)

Page 251, Paragraph 11

It was mentioned that the truck which GIOCONDO has "lined up" is a 14' step van with a power tailgate section. Members of the group intend to put the ladders on the power tailgate section thereby giving greater height to the ladders. GRADY has proposed this concept. (HARDY's report to the FBI on his meeting with GRADY's group on August 19, 1971.)

Page 53, Paragraphs 1 & 2

At 4:40 a.m. on August 22, 1971, the following vehicle was observed parked in an open lot on the East side of North 4th Street, directly across the street from the residence of 21 North 4th Street:

Yellow Ford truck with enclosed van body with hydraulic lift and tail gate. This truck was yellow in color, bore the name "Hertz, Trenton, N.J.," #71197 and had 1971 N.J. commercial license tags XAM-24S. (Report of SA ELMER E. SUSSMAN dated October 12, 1971, at Philadelphia.)

Pages 1 and 2

On September 15, 1971, WAYNE VOGEL, Rental Manager Hertz Truck Rental, 2020 Hilton Road, Pennsauken, N.J., advised that during the week of August 16, 1971, MICHAEL GIOCONDO rented vehicle #71197, a 1970 Ford, 14-foot van, with hydraulic tail gate, SN F60BEH72675, N.J. license tag XAM-24S from the Pennsauken Branch Office and that this vehicle was recovered abandoned in Camden, N.J., on August 23, 1971. He further advised that instant rental agreement was #480714247. (Newark letter to Philadelphia September 20, 1971.)

Response

During the period July 1-August 22, 1971, Robert W. Hardy was paid a total of \$2,055 for expenses and services as an informant of the FBI.

Following the arrests of those individuals who attempted to burglarize the Camden Draft Board, Camden, New Jersey, on August 22, 1971, Robert W. Hardy was paid an additional \$340 on August 26, 1971, and on August 30, 1971, he was paid an additional \$5,000.

Hardy received a total of \$7,395 from the FBI.

It should be noted that Hardy stated his income averaged \$60 a day as a self-employed painting contractor. As a result of his daily involvement with the planning and surveillances conducted by John Grady and others, Hardy's income was severely reduced for approximately ten weeks.

Hardy Allegation

"Also, as a man who had been in the general contracting business most of my adult life, I provided invaluable technical assistance to the group. Mr. Chairman, you would not believe what an inept band of bungling burglars these people were. There were about 30 persons in the group. It was a loose-knit anti-war group composed of college professors, clergy, students, and concerned citizens. They were dreamers, who talked a lot but did nothing."

Allegation

Page 22, Last Paragraph

At this point in the discussion at the meeting GRADY said that when they made the draft board hits in Philadelphia one of the hits was on South Broad Street. In referring to this hit GRADY mentioned to the group there was an alarm system on the door at this draft board and that because of this they proceeded to take an electric saber saw with which they cut the door in half, thereby going to the bottom half of the door and not setting off the alarm. GRADY explained they were going in from the outside into the post office building in Camden due to the current security system at the post office. (HARDY's report to the FBI of his meeting with GRADY's group on June 30, 1971).

Page 30, Last Paragraph

HARDY related it was earlier decided that he was to familiarize himself with the different vantage points that have been previously established by GRADY's group in order to watch the post office. It was at this time that HARDY learned that last night the girls were unable to gain access to the roof of the new Rutgers Law School building since locks have been put on the door. Prior to the locks they simply took a piece of plywood off the doors and went up to the roof. (HARDY's report to the FBI of his meeting with GRADY's group on July 1, 1971).

Page 55, Paragraph 1

SCHEMLEY also mentioned a man named KIRK, who is an accredited Philadelphia locksmith. SCHEMLEY mentioned KIRK has given instructions to the group with regard to "lockpicking."

Page 56, Paragraph 2

GRADY mentioned to him that they cut a door in half in order to gain entry to a draft board they hit on South Broad Street in Philadelphia. GRADY mentioned in this hit they obtained eight bags full of draft records. GRADY mentioned that the group making the hit had to wait for 18 minutes before they could leave due to the location of the guard. When they did leave they simply walked down the stairs and walked out the door of the building carrying the bags of draft records with them. There were cars waiting outside the draft board which they used for their exit.

Paragraph 3

It was also mentioned during the last evening that KIRK, the locksmith from Philadelphia, had left a set of tools at MARTHA SCHEMLEY's residence, Hi-Nella, N. J., and JEANNE DIXON's apartment at Fifth and Penn Streets, Camden, N. J. It was also mentioned that KIRK had left some handwritten instructions along with the tools so that members of the group could practice using the tools. (HARDY's report to the FBI of his meeting with GRADY's group on July 5, 1971).

Page 70, paragraph 3

GRADY has mentioned that previous hits have always been "inside jobs," meaning that they have been able to one way or another get members of the group inside the target area and hide themselves until the time of the hit. This operation, GRADY mentioned, would be the first time they had actually entered the target area from the outside. GRADY feels that entering from the outside increases the element of risk but that if it could be "pulled off," it would be a moral boost for the East Coast Conspiracy group.

Page 71, paragraphs 1 and 3

In referring to previous operations, COOKIE and ANITA have taken great pride in the fact that they have always been on the inside, picking up the draft records. They mentioned that they were involved in the Philadelphia hits and the Trenton hit. COOKIE and ANITA both said they were on the inside of the Philadelphia draft board break-in and that they have helped carry the records from the building. They (COOKIE and ANITA) mentioned that they carried the draft board records around in the trunk of their car for about a month before they actually destroyed them. Some of the records mentioned were ledger books that were used for cross-reference within the draft board system.

GRADY related this story with first-hand knowledge. GRADY again emphasized that he has been the key man in 14 out of the 18 draft board hits within the last 2½ years. (HARDY's report to the FBI of his meeting with GRADY's group on July 8, 1971).

Page 72, paragraphs 1, 4 and 5
Page 73, paragraphs 1 and 3

GRADY said that he was the one who developed the

style for the break-ins. GRADY said he is now developing the style for outside break-ins.

On Wednesday afternoon, while in GENE DIXON's apartment, after returning from the post office, was the first time that COOKIE had mentioned the "old actors," referring to those who had been involved in draft board break-ins before. Last night, the issue came up again and COOKIE said she had to call ANN (last name unknown) in Philadelphia, last night after midnight. After midnight, she did go to the public telephone booth in front of the Camden County Police Office and made several phone calls. The procedure in making the calls is for COOKIE to call one number where ANN will answer. ANN will then hang up and go to another phone booth, which has been predetermined, and COOKIE will call her there. They do this to insure that ANN is not being followed. ANN and another girl, whose name was not mentioned, were, according to COOKIE and ANITA, to pick them (COOKIE and ANITA) up and take them to Trenton, or somewhere in North New Jersey today for the lecture in connection with the MEL MADDEN drug program.

JOHN GRADY mentioned that this was the first time they tried to hit a draft board from the outside and that it was the first time they had tried to get community involvement. GRADY related to him that in the past they have gone into a community where there was some indication that there were sympathizers in the area. The sympathizers would then set up observations for three to four weeks. GRADY and his assistants would come into the area and spend another week doing detail work. The "old actors" would then come in and spend two or three days assembling, conducting dry-runs and getting the general feel of the area. After this, the hit would be made and they would then disperse,

leaving three or four local people behind.

With regard to KIRK, the locksmith in Philadelphia, HARDY has learned that he, KIRK, is under 30 years of age. He has also learned that Father MICHAEL DOYLE has, through KIRK's instructions, become very proficient in lock picking. (HARDY's report to the FBI of his meeting with GRADY's group on July 8, 1971).

Page 74, paragraph 1

HARDY explained the procedure by which the group gains entry to the roof of the Townhouse Apartments. They use a credit card, which has been cut in half lengthwise, and slip it behind the bolt or tumbler to the door which leads into the lobby of the Townhouse Apartments. They then apply pressure to the left with the credit card, while pulling out the handle of the door with their free hand. This causes the door to open. After doing this, they walk through the lobby and take the elevator to the 5th floor. Upon leaving the elevator, most of the people in the group take off their shoes. They then take the stairwell up to the 6th floor and onto the roof. It has been agreed upon within the group that the first person to arrive on the roof on any particular night will prop the door open by means of a bar. (HARDY's report to the FBI of his meeting with GRADY's group on July 8, 1971).

Page 80, paragraph 1

COOKIE and ANITA mentioned a small, thin man from Philadelphia, who has the background and makeup to go into the draft board. They did not mention him by name but did mention that he had gone into draft boards in the past. (HARDY's report to the FBI of his meeting with GRADY's group on July 9, 1971).

Page 83, paragraphs 1 and 2

It was also mentioned that a girl named ANN (last

name unknown) from Philadelphia, and the ANN for whom there is a warrant in Delaware, both worked at the Temple Bookstore with COOKIE and ANITA. From what GRADY said on Friday night, it appeared as if there was a draft board hit planned for the Trenton area that never came off as yet. It was mentioned by the group that they had already done the preparations for a hit in Trenton, but for some reason the hit was not made. They have talked of going back to Trenton after the Camden hit to make the hit at Trenton, which had previously been worked out.

From the conversations, it was HARDY's understanding there were possibly two draft boards being surveilled in the Trenton area but only one of them was hit. It was mentioned that COOKIE and ANITA should go back to Trenton for the second hit. (HARDY's report to the FBI of his meeting with GRADY's group on July 10, 1971).

Page 86, paragraph 4

HARDY advised in the course of the conversation, MEL MADDEN stated he would provide a van and some people and would try to get some money from the Defense Committee. MADDEN brought up that there is always the possibility of one of the group "participating in the action" could possibly be picked up and that bail money would be necessary. At this time, TERRY interrupted and said that someone by the name of YEAGER would be a financial touch for this thing. YEAGER is a member of the Scranton Defense Committee. From the gist of the conversation, HARDY assumed there are several Defense Committees. (HARDY's report to the FBI of his meeting with GRADY's group on July 11, 1971).

Page 87, paragraphs 2 and 3

HARDY advised next Sunday night, July 18, 1971, the group will have a dry-run so there will be

trucks in the area and people participating in this dry-run. The plan is to attach an experienced person to one of the newcomers and familiarize the newcomer with the area in and around the Camden Post Office, and will be assigned to that person for the evening of the hit. The consensus of opinion is that 18 people will be needed to carry out the action successfully.

HARDY advised that POPPI SHARPE had been contacted, apparently by GRADY, during the past week and that he has committed eight people for the exterior defense on the night of the action. SHARPE's people are to create some kind of a problem if its needed. HARDY explained this would be some sort of diversionary tactic to call attention away from the post office. Nothing more was said about the napalming of the Army tank in front of the Reserve Center in Camden, although it had been referred to during the course of the discussion some half a dozen times. (HARDY's report to the FBI of his meeting with GRADY's group on July 11, 1971).

Page 111, Paragraphs 2, 3, and 4

On July 18, 1971, he went to the residence of Doctor WILLIAM ANDERSON, Collingswood, N.J., arriving at approximately 8:30 p.m. Upon entering the residence, he noted that those in attendance were JOHN GRADY, MEL MADDEN, GENE DIXON, MARTHA SHEMELEY, MIKE GIOCONDO, BOB GOOD, ANITA, and COOKIE. He noted that the conversation as he entered was centered upon the fact that the target date had been tentatively set. It was mentioned by members of the group that they did not want anyone outside of those in attendance on that night to know any further details regarding the hit. When MEL MADDEN questioned GRADY with regard to the definite time and date of the hit, GRADY replied that the hit would take place within the next ten to fourteen days. GRADY also mentioned that if the hit was not made within the next fourteen days, then it would have to be cancelled. ANITA mentioned that a prime consideration within the underground movement is that individuals must be patient, especially with regard to the "casing" of a draft board.

MADDEN stated that after the draft board hit was completed, the group should sit down and discuss what further activities would be undertaken by this particular segment of the East Coast Conspiracy group. MADDEN indicated to the group that he felt that the time for draft board hits was over. From what MADDEN said, it was his, HARDY's, impression that the draft board hit in Trenton either apparently "Did not come off" or that it was unsuccessful.

A slide projector was then brought forth and slides were shown. These slides were slides of the Post Office which MIKE GIOCONDO had taken. The members of the group then discussed the different ways by which they could gain access to the draft board window. While this was being done, COOKIE and ANITA were setting up the chart which dealt with the commitments for the surveillance for that night. A new surveillance point is now being used by the group. This point is a small parking lot on 4th Street, between Cooper and the west side of the street.

DIXON and SHEMELEY drove their car to this parking lot on the night of July 18, 1971, parked it there, and from there were able to observe a portion of the Post Office mailing platform. (HARDY's report to the FBI of his meeting with GRADY's group on July 18, 1971.)

Page 113, Paragraph 6

It was mentioned during the evening that BOB GOOD had done his job well in New York, and that several of the people whose names were on his list were coming down from New York for the action. GOOD stated that RORO was ROSE MARIE REILLY. GOOD mentioned that on Tuesday he would return to New York and continue a recruitment drive. GOOD asked him, HARDY, if he would like to go to New York City after the action was completed and "make the underground scene" and meet some of the people involved in the underground. (HARDY's report to the FBI of his meeting with GRADY's group on July 18, 1971.)

Entire Page 114

It was mentioned that if the group is able to determine a stable pattern, that they possibly will be able to get six or seven people on to the roof, and that perhaps one or two of them could "take a shot" at the Army Intelligence Office or even the FBI Office.

The group is now considering a Saturday night as well as Sunday night as the possible night for the hit. The reason for this is that from their surveillance, they have found that the various patterns on Saturdays would possibly be more conducive for a successful hit than those on Sundays. It was mentioned that DIXON's apartment would be used as sleeping quarters for some of the "old actors" who would be coming in for the hit. Dr. ANDERSON's flat on Broadway and Royden, above his office, and MIKE GIOCONDO's apartment would also be used as sleeping quarters for those "old actors" who would be coming in for the hit.

Those members of the group who conduct surveillances from the Rutgers Law School are able to gain entry through the door on the 5th Street side. This is a door with a plywood panel which is wired. They have snapped the wires and re-wrapped them with their fingers, making it possible with very little effort for them to lift the panel and thereby gain entry. Surveillances from the Law School are conducted either from the fifth floor, south side offices, or from the rooftop itself. ANITA mentioned that from the Law School, that she could see his, HARDY's, van, which was located in the alley behind the Post Office. She also mentioned that she had a very good view of the Post Office building.

GOOD had mentioned that he was able to recruit four or five people from New York for this operation.

GRADY still plans to be on the rooftop of the Town House Apartments at the time of the hit.

The members of the group feel that the critical corners are the 4th and Market Streets corner and the 4th and Cooper Streets corners. They feel that if these corners remain open for about 90 seconds, that they will be successful in getting all their people from the van onto the roof of the Post Office building. Plans call for two cars to be used to block those intersections, in the event of the approach of a police car, while people are gaining entry to the Post Office building. Plans would call for one car to begin a turn while the other car would start to signal for another turn, which would result in blocking the street. The driver of one of the cars would then get out of his automobile and go to the police car, and ask directions for Fairview Street or some other street. (HARDY's report to the FBI of his meeting with GRADY's group on July 18, 1971.)

Page 115, Paragraph 2

Plans as they stand now call for gaining entry to the building by means of placing a ladder against the building in such a manner that it would give entry to the platform roof. From the platform roof, the hit team would be able to gain entry to the second floor roof. (HARDY's report to the FBI of his meeting with GRADY's group on July 18, 1971.)

Page 115, Paragraph 5

It was pointed out during last night's meeting that there was only one action, out of the fourteen draft board actions, wherein the group feels that someone informed to the police. It was mentioned that there was one wherein the police were waiting for "the hit team" as they went to the draft board. (HARDY's report to the FBI of his meeting with GRADY's group on July 18, 1971.)

Page 115, Paragraph 6

The papers and notes, diagrams and charts are located in the crib in one of the bedrooms, the first floor bedroom, and the TV room. Everything was taken out of the basement last night and brought upstairs, due to the fact that work is now being conducted in the kitchen. (HARDY's report to the FBI of his meeting with GRADY's group on July 18, 1971).

Page 116, Paragraph 1

In making notes, the group uses a coded system. They do this so that if they are picked up by the police, the notes will not be understandable to the authorities. He explained that, for instance, instead of writing "3 a.m.," they would write 85, knowing that this would mean 8-5, therefore, 3. Every person in the group has his own personal code, thereby making it very confusing to anyone who would try to translate. When the group gets together to assemble the information, each member of the group translates their code to either ANITA, COOKLE, or MARTHA, so that all information can be compiled on charts, in such a way as to be understandable to all. They also use the code in referring to streets. For instance, Market Street is indicated as F. Cooper Street is G. A police patrol car is Z. (HARDY's report to the FBI of his meeting with GRADY's group on July 18, 1971).

Page 119, Paragraph 3

Last night the group started dry runs with regard to the working out of the signals that will be used enabling the person on the roof of the Towne House Apartments to know whether or not Cooper Street, Market Street, Fourth Street, and Fifth Street are clear. The procedure is for the person who is on foot at Fifth and Market Streets, on the southwest corner in front of the drugstore, to make the determination as to whether or not Market Street is clear of police patrol cars. When he has determined that Market Street is clear he will walk caddy-corner from the drugstore to the White Tower Restaurant (located at Fifth and Market Streets). A person who will be at Fifth and Penn Streets will be able to observe the person at Fifth and Market Streets as he crosses the street. The person at Fifth and Penn Streets will be equipped with binoculars and a walkie-talkie. The person at Fifth and Penn Streets will, upon noting the individual cross the street, signal by radio to the individuals on the roof of the Towne House Apartments. At the same time those on the Towne Apartment roof will have Cooper Street under surveillance. A third point which the group will have to insure is clear is Fourth Street. They will have someone located at Fourth and Arch Streets with a walkie-talkie who will be able to give a signal. The radio transmissions should not take more than five seconds. Once the signal is "go" the man or woman on the roof (who is in charge of communications) will send a signal down to the alley for the team to come out of the van. The group feels that they would need a full minute of protection in order to insure safe passage from the alleyway to the roof of the Post Office building. Plans call for a sufficient number of cars to be on the street in order to block the intersections at Fifth and Market Street, Fourth and Cooper Streets, and Fourth Street near Arch Street. The individuals who are in the cars will block the traffic flow by stopping their cars and talking from one car to another as if obtaining street directions. If the police approach them they will wait in the cars until the police come to them to attempt to move them.

(HARDY's report to the FBI of his meeting
with GRADY's group on July 19, 1971).

Page 120, Paragraph 3

Plans currently call for a walkie-talkie to be with someone in the alley. GRADY has mentioned that he wants two more walkie-talkies which would be of a better quality than those which they have already obtained. He desired this so that the person on the roof of the Towne House Apartments can receive the transmissions from the person at the Fifth and Penn Streets corner. During the radio check it had been determined that there was quite a bit of interference due to the buildings which came between the rooftop and the person on the street. (HARDY's report to the FBI of his meeting with GRADY's group on July 19, 1971.)

Page 123, Paragraph 2 through
Page 127, Paragraph 4

Hardy would present the present plans for the Camden "Draft Board action" as told to him on July 19, 1971, at Doctor ANDERSON's residence, Collingswood, N.J., by JOHN GRADY, ANITA, and COOKIE.

The plan involves about 22 people, approximately 10 automobiles, and 4 walkie-talkies (which are referred to as "headsets" by members of the group). The plan is initially concentrated on three points. The first key point is the "number two position" on the Townhouse Apartment roof. There will be four people on the roof of the Townhouse Apartments. One will be at the rear of the building looking toward the alley behind the Post Office building. The "number two position" is the key position of the entire operation. The person in the number two position will be the individual who gives the signal to start or stop the operation depending on the situation as seen by the lookout. The "number three" and "number four" positions are "lookouts" who will be on the Townhouse Apartment roof looking east and west on Cooper Street. These individuals will be within walking distance of the number two position. Plans call for JOHN GRADY to have the number two or key position.

A second key position is an automobile which will be parked by the Ben Franklin Bridge on Fifth Street in the vicinity of Fifth and Penn Streets. The individual in this vehicle will have a direct view of the third key position which will be a person standing on the southwest corner of Fifth and Market Streets, directly opposite the White Tower Restaurant.

There will be two cars on Market Street at Fifth. There will be two cars on Fifth Street at Market.

When the individual located on the southwest corner of Fifth and Market Streets (who is referred to as key position number three) steps from the corner and walks diagonally across the

street to the White Tower Restaurant he can be seen by the man in the vehicle who is in the vicinity of Fifth and Penn Streets. The man on Fifth and Market Streets will cross the street to the White Tower as so indicated when he has determined that Market Street and Fifth Street are clear of any police cars.

There will be two individuals in the car located at Fifth and Penn Streets. When the individuals in the car observe the man to cross the street, they will say "go" over the walkie-talkie. This will be received by JOHN GRADY, the "key man" on the roof of the Townhouse Apartments. When GRADY hears the word "go" as transmitted from the car at Fifth and Penn Streets he (GRADY) will look to the people at the number three and number four positions. If they indicate to him that Market Street is clear he (GRADY) will then say "go" into the walkie-talkie. These are the only walkie-talkie transmissions which will take place on the night of the action.

One of the individuals in the van which will be parked in the alley behind the Post Office building will also have a walkie-talkie. This individual will be able to hear the signals of both the lookout at Fifth and Penn Streets and GRADY. When the man in the van with the walkie-talkie hears the second "go" the back doors of the van will open up and those in the van will exit from it carrying with them a nine foot ladder. This ladder will be placed against the overhanging roof on the platform behind the Post Office. The "hit team" will then go on to the roof of the platform from the side position. They will be entering the roof from the Fifth Street side of the roof. There will be six people who will be going into the building. These individuals will go up the ladder and the first man up will turn around and pull up an additional nine foot ladder which he will place against the wall from the platform roof to the second floor roof. He will proceed to go up the ladder followed by the others. When the last individual goes up the ladder onto the platform

roof the individual who remains with the van will take the ladder down and put it in the van. He will then either lock the van and walk away from the area or he will drive away in the van. At this point it would appear most likely that he would lock the van and walk away from it.

As the last man goes over the second floor roof he will pull the ladder up behind him so that it will not be visible. They have determined that they need about sixty seconds to get the people from the van onto the roof.

While members of the "hit team" are going up the ladder the cars, if need be, will start moving down Market Street, down Fifth Street, across from Fourth and Cooper Streets, across from Fourth and Market Streets so that they will effectively block off all entrances so that no one can see the van.

Two cars will be parked by the White Tower Restaurant, Fifth and Market Streets, waiting for the light on Market Street. Two cars will be parked on either side of the street on Fifth Street pulling out after the man (Fifth and Market Streets) gets halfway across the street. In other words this gives the man at the key position located at Fifth and Penn Streets clear vision of the man crossing the street.

The two cars on Fifth Street will then pull out so as to effectively cut off Fifth Street from any Market Street approach. The traffic light signal will dictate which of the two cars will start down Market Street first.

At the same time a car will be on Fourth Street waiting for the light at Fourth and Market Streets. This vehicle will be on the southeast corner of that intersection. There will also be another car between Market Street and Markley Alley.

Another car will be at Fourth and Cooper Streets on the southeast corner of that intersection. Another car will be at Fourth and Cooper Streets on the northwest corner facing south.

If the need arises those individuals in these cars will drive around the block in order to give the hit team the necessary protection in order to get into the building. If necessary these vehicles will block the corners of Fourth and Cooper Streets, Markley Alley, the corner of Fourth and Market Streets, and if necessary the corner of Fifth and Market Streets. All of this will take place within a time span of sixty seconds.

There will also be a group of "out riders," that is other cars which will be in the area at a distance further away from the Post Office building. At this point there has only been one "out rider" that has been designated and that is one that will be at Third and Federal Streets facing east. It has not as yet been determined what the function of this individual in this car will be.

The general thought of the group with regard to the plans would be that if something happens after the second "go" the cars will return to their original positions.

The group has been operating on ten-minute intervals while "casing" the Post Office. During the surveillances the group makes notations for each ten-minute interval; for instance, from 11:50 to 12 o'clock midnight. They are attempting to learn of a thirty-minute time frame wherein the traffic and police patterns would be suitable for their gaining entry to the building. They then plan to take the ten minutes from the middle of this thirty-minute frame and use this ten-minute frame for the hit.

The driver of the van after locking the van (after the hit team has entered the building) would walk away to a predetermined position which would most likely be the churchyard behind the church located at Fifth and Cooper Streets.

In order for the operation to be initiated, the conditions at the three key points have to be met. That is, the man at Fifth and Market Streets after observing that all was clear must

step off the curb and walk directly across the street to the White Tower. The man in the car at Fifth and Penn Streets would have to note this and signal the first "go". GRADY on the rooftop of the Townhouse Apartments then would check out number three and number four positions visually to see if he had the all-clear signal from them. If he does he would then give the second "go". The two "go" signals should be heard within a five to ten second interval. If a second "go" signal is not given the vehicles will return to their original positions and wait another ten minutes in order to get everything up again. For instance, if it is originally planned to initiate the action at 11:50 but the second "go" signal is not received, everyone will return to their original positions and wait until 12 o'clock midnight. At 12 o'clock midnight then the man on Fifth and Market Streets would make his determination as to whether the area is clear or not clear and he would again step off and cross the street and thereby initiating the cycle.

The critical man is the man at the corner of Fifth and Market Streets. If he does not step off from the corner nothing is initiated.

Other than GRADY, it has not been firmly set up as to what individuals will be in what position. He believes, however, that COOKIE and ANITA will be part of the team that goes up on the roof.

The procedure for coming out of the building will be the same as the procedure followed when going into the building. The cars will line up in their original positions and the "go" signal will have to be given so that the man on the roof or the man in the van has some way of knowing that all is clear. The cars will again block the intersection. It is anticipated that since the hit team will be carrying bags or back packs with possibly forty to fifty pounds of files that it will take longer for them to exit than it did for them to enter. At this point it is anticipated that the hit team will use back packs since this

would give them the freedom of their
hands for use in descending on the ladder.
(HARDY's report about the . . . plans for the
Camden "Draft Board action" as told to him
on July 19, 1971 by GRADY's group.)

Page 129, Paragraph 2

The general plan at this moment calls for the "old actors" to be coming into the area and helping with the surveillances at least a day to two days before the time of the hit. They will drive their routes and gain a general familiarization with their assignments. They will get the feel of the area so that if they are "cut off" quickly they will be able to have a knowledge of escape routes. (HARDY's report about the plans for the Camden "Draft Board action" as told to him on July 19, 1971 by GRADY's group.)

Page 129, Paragraph 3

GRADY mentioned that he was able to find out the information with regard to the TV cameras at the Dow Chemical Plant (where they had erased the computer tapes) simply by talking with the guard. Last night while in the basement of Doctor ANDERSON's residence, GRADY cited this instance as well as information obtained from the GSA guards by way of a lesson as to the information that can be readily obtained just by talking to security guards at the locations of proposed hits. GRADY indicated that knowing how to obtain information thusly would be valuable in future action. (HARDY's report about the plans for the Camden "Draft Board action" as told to him on July 19, 1971 by GRADY's group.)

Page 129, Paragraph 4

GRADY mentioned that this was not the first time that they had used walkie-talkies. GRADY related an incident in Wilmington, Del., where he and SCOBlick were in the car outside the draft board waiting for the "inside team" to drill a hold in the door or to drill the lock out of the door in order to gain exit through the front door. When they were not able to do this the idea was passed between GRADY and those on the inside by walkie-talkie that they should go around the rear exit of the building. GRADY mentioned that he listened over the walkie-talkie as they went through the building and that he heard a loud sound that sounded much like a shot. On hearing this GRADY assumed that the "inside team" had kicked the glass out of the back door because they were unable to get it unlocked. At this point he decided to go to the rear of the building in order to pick them up. In their haste to do this SCOBlick broke off the antenna without realizing that he had done so. He broke the antenna either when he wound up the window or when he pulled it in. They were then puzzled as to why they could not get a reading on the inside activity and it was ten minutes before they discovered that the antenna was broken. (HARDY's report about the plans for the Camden "Draft Board action" as told to him on July 19, 1971 by GRADY's group.)

Page 131, Paragraph 1

ROBERT WILLIAM HARDY was furnished with a map which depicted the area of downtown Camden, N.J. HARDY made notations on this map which indicated the positions and proposed actions which are called for according to plans which have been made by JOHN GRADY. This map was initialed by Special Agents TERRENCE P. NEIST and MICHAEL M. RYMAN and preserved as evidence. (HARDY's map with proposed positions and locations according to GRADY's plans furnished July 20, 1971.)

Page 133, Paragraph 7

It was mentioned by GRADY that they had used headsets (walkie-talkies) before in the Wilmington, Del., and Bridgeton actions. GRADY mentioned that COOKIE used a headset in the Bridgeton action. GRADY also mentioned that they had used the "flashlight signal system" in the Bridgeton action. This is the method by which they tape the face of a flashlight leaving only a quarter inch hole so that they can get a high intensity beam of light from one point to another without actually showing the full ray of light from the flashlight. (HARDY's report to the FBI of his meeting with GRADY's group on July 21, 1971.)

Page 139, Paragraph 3

Prior to their arrival, the group had been working on transferring their notes to charts. The records are very complete, to those who can read them. ANITA and COOKIE spent quite a bit of time in maintaining these records. (HARDY's report to the FBI of his meeting with GRADY's group on July 23, 1971.)

On July 24, 1971, he went to the residence of Doctor ANDERSON, Collingswood, N.J., arriving between 8:30 p.m. and 8:45 p.m. Upon arrival, he noted that those present were JOHN GRADY, Mrs. GRADY, the GRADY family, MIKE GIOCONDO, BOB GOOD, ANITA, ANN DUNHAM and NED MURPHY.

ANN DUNHAM is a white female, 5'2" in height, 145 pounds, heavy set, long dark brown hair, age approximately 23 years.

NED MURPHY is a Jesuit Priest from New York City. He is 5'8" in height with long black hair and heavy sideburns. He is 170 pounds in weight with a heavy build. He has a light complexion, appearing Spanish-Puerto Rican.

MURPHY told him (HARDY) that he had been involved in the "New York Eight" and that he is involved in the "Harrisburg Conspiracy." MURPHY said that he is a Jesuit Priest, but that he has not actually been doing any church work, but that he has been working in the peace movement. MURPHY explained that the church has given him and three other Jesuit Priests a leave of absence, whereby they retain their priestly status but do not get paid by the church.

MURPHY said that the charges against the BERRIGANS in connection with the conspiracy to destroy draft board records, are true. He said that the conspiracy to kidnap KISSINGER was something that was talked about but not in a serious vein. MURPHY said also that the plot to bomb the heating system in Washington, D.C., was also something that was talked about, but not seriously.

MURPHY said that the plans and detail work that has been done in connection with the Camden action is the best work that they have seen, with regard to an action. (HARDY's report to the FBI of his meeting with GRADY's group on July 24, 1971)

Page 144, Paragraphs 2 through 7

On July 24, 1971, he went to the residence of Doctor ANDERSON, Collingswood, N.J., arriving between 8:30 p.m. and 8:45 p.m. Upon arrival, he noted that those present were JOHN GRADY, Mrs. GRADY, the GRADY family, MIKE GIOCONDO, BOB GOOD, ANITA, ANN DUNHAM and NED MURPHY.

ANN DUNHAM is a white female, 5'2" in height, 145 pounds, heavy set, long dark brown hair, age approximately 23 years.

NED MURPHY is a Jesuit Priest from New York City. He is 5'8" in height with long black hair and heavy sideburns. He is 170 pounds in weight with a heavy build. He has a light complexion, appearing Spanish-Puerto Rican.

MURPHY told him (HARDY) that he had been involved in the "New York Eight" and that he is involved in the "Harrisburg Conspiracy." MURPHY said that he is a Jesuit Priest, but that he has not actually been doing any church work, but that he has been working in the peace movement. MURPHY explained that the church has given him and three other Jesuit Priests a leave of absence, whereby they retain their priestly status but do not get paid by the church.

MURPHY said that the charges against the BERRIGANS in connection with the conspiracy to destroy draft board records, are true. He said that the conspiracy to kidnap KISSINGER was something that was talked about but not in a serious vein. MURPHY said also that the plot to bomb the heating system in Washington, D.C., was also something that was talked about, but not seriously.

MURPHY said that the plans and detail work that has been done in connection with the Camden action is the best work that they have seen, with regard to an action. (HARDY's report to the FBI of his meeting with GRADY's group on July 24, 1971

Page 145, Paragraph 10
Entire Pages 146, and 147

At 12:15 a.m. (this morning) all members of the group were in position and they ran a two minute test throughout the area with GRADY and ANITA on the Law School roof, equipped with binoculars; COOKIE and ANN on the Townhouse Apartment roof equipped with binoculars; and himself (HARDY) in his vehicle at Broadway and Market Streets. He (HARDY) was actually out of the car with the trunk open, having a direct view of the Law School Building from Broadway and Market. The plans call for HARDY to have the trunk open and to close the trunk if he sees a police car.

GRADY is located on the Law School roof, having a direct view of the Townhouse Apartments. The people on the Townhouse Apartment roof have a flashlight that is taped so that only a one-half inch center beam is given forth.

MIKE GIOCONDO was sitting at the Fourth Street underpass in North Camden with a "headset" talking to ANITA, who was on the roof of the Law School Building, and COOKIE, who was on the roof of the Townhouse Apartments.

GIOCONDO gave a clear signal at 12:15 a.m. At that time HARDY opened the trunk of his car. (MURPHY was standing at the telephone booth located directly across from the City Hall parking lot, by Kenny's Restaurant. MURPHY noted the activities from that position.) The plans call for MURPHY, if he saw anyone hurrying out of City Hall, to bend over and tie his shoe. This could be seen by HARDY at Broad and Market Streets. Plans called for HARDY, upon seeing this, to close the trunk to his car. This would serve to advise GRADY that there was some action on Broadway or that something was wrong. MIKE DOYLE was parked on the corner at Fourth and Market Streets.

Although no one was at Fourth and Federal Streets during last night's surveillance, the plans call for someone to be in that position.

Plans also call for someone to be at Fourth and Markley Avenue.

The van will be parked by the Post Office platform with six people inside the van. Plans, at this point, call for HARDY to be driving the van on the night of the action.

On conducting "dry runs" members of the group exchange positions so that each will have the feel of the positions handled by the others.

When everything is clear, the signal will come down from the roof of the Townhouse Apartments to the man driving the van, indicating that all is clear. Also a signal will come from the person at Fourth and Markley to someone who will be looking out the window of the van. The person in the van with the "headset" will get the signal from GRADY while a signal transmission will be heard from GIOCONDO to COOKIE as "Go!"

The two people on the Townhouse Apartment roof will be viewing Cooper Street. When all these conditions are clear, and say "Go" at 12:15 a.m., the group will know that they have the two minutes to get the people on the roof.

Meanwhile, if there is some problem, they will still have people in cars who can block Markley Street, Fourth Street, and Cooper Street.

Plans now call for the action to take place on a Saturday night between 11:30 p.m. and 12:15 a.m. (Sunday morning). GRADY feels that the police activity at this time would be the minimum, due to the changing of the shifts.

During last night's surveillance, they went through four different times, starting at 12:15, 12:20, 12:25 and 12:30. They noted that at each time they would have had the necessary two minutes to get the group into the building. They noted, in fact, that they would have had a complete twenty minutes, if necessary.

BOB GOOD mentioned last night that he would be going to New York City on Tuesday or Wednesday to talk to some more people.

Apparently, COOKIE has been contacting some more people in Philadelphia.

GRADY now feels that he has better control of the situation from the roof of the new Rutgers Law School Building. GRADY has noted that from that position, he can see Broadway and Market Streets, the Post Office alley, the van, the Townhouse Apartments, and the Fourth Street underpass. (HARDY's report to the FBI of his meeting with GRADY's group on July 24, 1971.)

to be a very knowledgeable with regard to locks. (HARDY's report to the FBI on his meeting with GRADY's group on August 11, 1971.)

Page 220, Paragraph 7

BUCKALEW said that he had many blank birth certificates, blank drivers licenses, blank draft cards, and other blank cards which could be used to provide now identification for an individual. He mentioned that these blank cards were kept at his residence. (HARDY's report to the FBI on his meeting with GRADY's group on August 11, 1971.)

Page 222, Paragraph 4

It was mentioned by GOOD that BUCKALEW and KIRK had been to the rooftop of the Townhouse Apartments in the past. GOOD said that about a year ago while they were planning the Broad Street Draft Board Action (Philadelphia, Pa.) that on a couple of nights they came over to Camden. to look around. GOOD mentioned at that time they were surveilling from the playground at Fifth and Cooper Streets, and that one night ANITA, GRADY, and a third person, on Sunday, went to church service at the Methodist Church behind the Post Office Building and after church, they hid in the back of the church and stayed there all night observing the Post Office Building. Apparently BUCKALEW was part of the group that did this. (HARDY's report to the FBI on his meeting with GRADY's group on August 11, 1971.)

Page 222, Paragraph 5

It was mentioned by GOOD that KIRK was in the past over here giving "lockpicking" instructions at ANDERSON's residence, at which time he spent one night on the rooftop of the Townhouse Apartments with a couple members of the group. (HARDY's report to the FBI on his meeting with GRADY's group on August 11, 1971.)

Page 228, Paragraph 6

While GOOD was doing the talking KIRK did the "eyeball thing" with all the locks. He made sure the alarm systems were clear and other things that were pertinent to their needs. (HARDY's report to the FBI on his meeting with GRADY's group on August 13, 1971.)

Page 229, Paragraph 2

It was also mentioned by TERRY BUCKALEW that he had participated in the North Broad Street action with a RALPH (last name unknown) and COLLINS (phonetic). BUCKALEW related that he and the other two actually went in and that the three of them apparently had to kick the panels in on one of the doors to the draft board. He stated that RALPH and COLLINS held the door while he, BUCKALEW, kicked the panels through. (HARDY's report to the FBI on his meeting with GRADY's group on August 13, 1971.)

Page 231, Paragraph 4

The members of the group were discussing what was needed in order to enter the building. A "tool list," which included such items as a portable drill, drill bits for glass, and ladders, was given to HARDY. A "clothing list" was made up which indicated that dark clothing should be worn. This list also included knapsacks and mail bags. The members of the group had agreed that the "entrance team," that is the team actually going inside the draft board, would consist of BOB GOOD, RO RO REILLY, COOKIE, MIKE GIOCONDO, and BOB WILLIAMSON, and MICHAEL DOYLE. (HARDY's report to the FBI on his meeting with GRADY's group on August 14, 1971.)

Page 239, Paragraph 5

GRADY, last night, instructed HARDY to arrange for a location where the group could again practice going up and down the ladders. GRADY also instructed HARDY to, on Tuesday night, be prepared to give instructions with

Hardy Allegation

"On instructions, I once tried to give them guns, but they refused. They were the most non-violent, well-intentioned people I ever met in my life. But most of them couldn't even tie a knot properly."

Allegation

Response

Special Agent Michael M. Ryman stated that during the period Robert W. Hardy furnished information regarding the group of individuals who planned and executed the burglary of the Camden, New Jersey, Selective Service Office on 8/22/71. Special Agent Ryman queried Hardy on numerous occasions regarding the participants' propensity towards violence. At no time was Hardy instructed to furnish guns to the participants, but only to ascertain, if possible, their propensity for violence.

Hardy Allegation

"I am not proud to say that, with respect to breaking into the draft board, I taught them everything they knew. I taught them how to cut glass and open windows without making any noise. I taught them how to open file cabinets without a key. I rented trucks for them. I obtained a floor plan of the draft board building for them. I taught them how to climb ladders easily and walk on the edge of a roof without falling. My neighbors began to wonder why I had this crowd of people climbing up the side of my house and parading along the edge of my roof every day. I began to feel like the Pied Piper."

Page 23, Paragraph 1

HARDY explained that the plans call for using a portable electric drill with glass drills in gaining entrance into the draft board. The plans call for drilling a hole which would be large enough for one to put his hand through. Then this person would reach through the hole and swing open the lock on the window and then open the window by pushing on it. (This technique was not used during the actual break-in. Entry through a window of the building was gained by cutting a small bolt which released the catch holding the window locked.) (HARDY's report to the FBI of his meeting with GRADY's group on June 30, 1971.)

Page 42, Paragraph 3

GRADY indicated to HARDY he would bring in people from the outside who are veterans in this sort of thing to take part in the hit...GRADY told HARDY that he wanted him to drill the glass and pop open the window and "stuff like this." (As noted this technique was not used and HARDY did not participate in the actual break-in.) (Remarks which HARDY attributed to GRADY took place following HARDY's meeting with GRADY's group on July 2, 1971.)

Page 231, Paragraph 4

The members of the group were discussing what was needed in order to enter the building. A "tool list," which included such items as a portable drill, drill bits for glass, and ladders, was given to HARDY. A "clothing list" was made up which indicated that dark clothing should be worn. This list also included knapsacks and mail bags. The members of the group had agreed that the "entrance team," that is the team actually going inside the draft board, would consist of BOB GOOD, RO RO REILLY, COOKIE, MIKE GIOCONDO, and BOB WILLIAMSON, and MICHAEL DOYLE. (HARDY's report to the FBI on his meeting with GRADY's group on August 14, 1971.)

Page 232, Paragraph 3

At approximately 4:00 p.m. HARDY went, as instructed by GRADY, to obtain the portable drill and drill bits. (HARDY's report to the FBI on his meeting with GRADY's group on August 14, 1971.)

Page 243, Paragraph 4

The consensus of the group was that they were very interested in learning how to cut or break glass and asked him to leave an electric drill in order that they could practice with it. (HARDY's report to the FBI on his meeting with GRADY's group on August 17, 1971.)

Page 243, Paragraph 5

HARDY advised that the drill was left with the group along with bits and other tools that they had asked him to get for them. He advised that he also left a couple of old casing windows

and trim metal frame windows for them to practice on. He advised that they were very insistent about his leaving these materials. (HARDY's report to the FBI on his meeting with GRADY's group on August 17, 1971.)

It was mentioned during the meeting that the set of locks and tools have been brought to the residence of Dr. ANDERSON so that members of the group can practice with them there. Before being brought to Dr. ANDERSON's, part of the tools were at GENE DIXON's apartment and part of the tools were at MARTHA SHEMLEY's apartment. He also learned that KIRK, the Philadelphia locksmith, also drives a taxi cab and is serving his apprenticeship as a locksmith. He has taught the group how to open filing cabinets without going through a great deal of trouble. (HARDY's report to the FBI of his meeting with GRADY's group on July 9, 1971).

Page 152, Paragraphs 4 and 5

There was some mention of contacts made with the Defense Committee in New York City. It was indicated that the Defense Committee has offered to pay some of the bills that have been acquired by GRADY people in Camden. The Defense Committee has asked for stationery receipts so that they can legitimately put these expenses "on the books" and reimburse GRADY for the money spent. GRADY and ANITA asked him (HARDY) if he could get some "bill heads" so that they could send bills into the Defense Committee and get reimbursed for the purchase of the radios, gasoline, and other things, which they have had to pay for out of their own pockets.

GRADY said that he thinks that they will rent some cars for use by GRADY for a couple of weeks. GRADY indicated that this will be necessary, because his wife will have their Comet with her at the camp site. GRADY feels that GIOCONDO's Renault is a bit too unusual and would be noticed if he used it quite a bit while driving around the city. It was also mentioned by GRADY that, possibly, JOE O'ROURKE will rent a car for GRADY to use and bring it down with him from New York. (HARDY's report to the FBI of his meeting with GRADY's group on July 25, 1971.)

Page 183, Paragraph 2

GRADY asked him to start looking around for a van that could be rented by the group. GRADY said that he would like to have someone other than HARDY drive the van that would go into the alley. GRADY said that his reason for this was that they could afford to lose "the other indians", but that they could not afford to lose him (HARDY) because he was needed in the movement. GRADY told HARDY that there were very few people in the movement who could think and work at the same time, and that HARDY was one of these people. (HARDY's report to the FBI of his meeting with GRADY's group on July 31, 1971.)

Page 223, Paragraph 2

RO RO said that GRADY told her to tell HARDY that they would need the truck for this weekend, whether it was a dry run or the actual hit. GRADY mentioned to RO RO that they would need the truck on Saturday night, and possibly on Sunday night, if the action did not take place on Saturday. (HARDY's report to the FBI on his meeting with GRADY's group on August 11, 1971.)

Page 231, Paragraph 5

It was agreed that TERRY BUCKALEW would drive the Avis rental truck, with the "entrance team" inside, to the back of the Post Office. The Avis rental truck was rented by HARDY as he was so instructed to do by GRADY. (HARDY's report to the FBI on his meeting with GRADY's group on August 14, 1971.)

Page 247, Paragraph 8

HARDY learned that MIKE GIOCONDO had taken the day off and will take tomorrow off in order to locate a suitable truck sufficient for the group's needs. HARDY explained that it was now decided that the group wants sort of a stake-body like truck with at least six-foot walls. He explained that they want the open-bed truck because they want to be able to just flip the ladders onto the roof and in that way the entrance team will not have to get out of the truck to get up the ladders. (HARDY's report to the FBI on his meeting with GRADY's group on August 18, 1971.)

Page 250, Paragraph 4

GIOCONDO indicated that he had been able to "line up" a truck that would suit the needs of the group. It was also mentioned that

members of the group had picked up additional equipment such as glass drills. (HARDY's report to the FBI on his meeting with GRADY's group on August 19, 1971.)

Page 251, Paragraph 11

It was mentioned that the truck which GIOCONDO has "lined up" is a 14' step van with a power tailgate section. Members of the group intend to put the ladders on the power tailgate section thereby giving greater height to the ladders. GRADY has proposed this concept. (HARDY's report to the FBI on his meeting with GRADY's group on August 19, 1971.)

Page 28, Paragraph 5

HARDY advised that DIXON volunteered to go with him into the draft board office next week to get the lay of the land. DIXON will accompany him on his first night of surveillance when they go on watch at 10 o'clock. (HARDY's report to the FBI of his meeting with GRADY's group on July 1, 1971).

Page 53, Paragraph 1

GRADY has suggested that GENE DIXON and HARDY go to the draft board in Camden on the coming Wednesday afternoon in order to gain further information with regard to the floor plan and location of the files. (HARDY's report to the FBI of his meeting with GRADY's group on July 4, 1971).

Page 12, Paragraph 3

HARDY advised that he has been given an assignment to go into the post office and get a detailed floor plan of the fourth and fifth floors, specifically looking for any electrical tape alarm systems on the windows. (HARDY's report to the FBI of his meeting with GRADY's group on June 29, 1971).

Page 14, Paragraph 5

HARDY was instructed by GRADY to go into the post office on June 30, 1971, to the fourth floor and get a detailed floor plan. (HARDY's report to the FBI of his meeting with GRADY's group on June 29, 1971).

Page 19, Paragraph 3

Their group at the meeting, was very well pleased with the floor plan that he was able to produce for the Selective Service Office. (HARDY's report to the FBI of his meeting with GRADY's group on June 30, 1971).

Page 57, paragraph 3

HARDY advised that last night, July 6, 1971, he received a telephone call from MIKE GIOCONDO, JOHN GRADY had called him and asked him to come out a little bit earlier than when the group normally meets. GRADY stated to MIKE that he wanted to go over some slides and plans and to prepare GENE DIXON and HARDY for their entrance into the draft board this afternoon for the purpose of gathering more information. (HARDY's report to the FBI of his meeting with GRADY's group on July 6, 1971).

Page 58, paragraph 4

HARDY advised that after viewing the slides, GENE DIXON engaged him in a conversation relating to the proposed visit by DIXON and HARDY to the draft board and that tentative arrangements were made to meet at the White Tower at 3 p.m., this afternoon. The plan was then to go to the post office and visit the draft board. HARDY advised that one of the things that they were instructed to find out while in the draft board is the physical geography of the front as far as the alarm system and fire escape is concerned. He noted that GRADY's group is only interested in the 1-A classifications. One of the other things that they are to definitely observe is the location of the watchman's key. HARDY again related that they were instructed to check and see if there were any alarms on the doors and windows and to check the name on the filing cabinets so that GRADY could know the type of lock on the cabinets. He noted that there is a possibility that GRADY's group could obtain a master key from KIRK, a fellow in Philadelphia. They were also instructed to look for power sources in case the group that goes into the draft board decides to take electric drills. (HARDY's report to the FBI of his meeting with GRADY's group on July 6, 1971).

Page 28, Paragraph 5.

HARDY advised that DIXON volunteered to go with him into the draft board office next week to get the lay of the land. DIXON will accompany him on his first night of surveillance when they go on watch at 10 o'clock. (HARDY's report to the FBI of his meeting with GRADY's group on July 1, 1971).

Page 53, Paragraph 1

GRADY has suggested that GENE DIXON and HARDY go to the draft board in Camden on the coming Wednesday afternoon in order to gain further information with regard to the floor plan and location of the files. (HARDY's report to the FBI of his meeting with GRADY's group on July 4, 1971).

Page 12, Paragraph 3

HARDY advised that he has been given an assignment to go into the post office and get a detailed floor plan of the fourth and fifth floors, specifically looking for any electrical tape alarm systems on the windows. (HARDY's report to the FBI of his meeting with GRADY's group on June 29, 1971).

Page 14, Paragraph 5

HARDY was instructed by GRADY to go into the post office on June 30, 1971, to the fourth floor and get a detailed floor plan. (HARDY's report to the FBI of his meeting with GRADY's group on June 29, 1971).

Page 19, Paragraph 3

Their group at the meeting, was very well pleased with the floor plan that he was able to produce for the Selective Service Office. (HARDY's report to the FBI of his meeting with GRADY's group on June 30, 1971).

Page 119, Paragraph 1

It was mentioned that GENE DIXON has taken a week off from his job in order to do some daytime surveillance work in Camden. It was his (HARDY's) impression, from what was said, that DIXON would possibly be coming back into the Post Office building to look around a bit more. It was also mentioned that possibly one person would go into the Post-Office building the day before the hit and stay there until the hit took place. JOHN GRADY mentioned that he liked the idea of someone spending the night prior to the hit in the Post Office building. (HARDY's report to the FBI of his meeting with GRADY's group on July 19, 1971).

Page 130, Paragraphs 2 and 3

GENE DIXON has recently mentioned again that he desired to go into the FBI Office in Camden to learn information regarding the security of the office. If DIXON were to do so he would use the pretext of working with the ex-convict program.

COOKIE and ANITA also wanted to know more about the FBI Office because they feel that if they can be successful in hitting the draft board, they can also be successful in hitting the Army Intelligence Office on the fourth floor of the Post Office Building and the FBI Office on the second floor. They feel that they could enter the FBI Office by sawing the door in half or by cutting a panel out of the door which is what they had done in the draft board action at Broad Street in Philadelphia. (HARDY's report about the plan for the Camden "Draft Board action" as told to him on July 19, 1971 by GRADY's group.)

Response

Page 23, Paragraph 1

The group requested that HARDY obtain a 10-foot ladder so that they could use a boarded-up building on the 5th Street side of the post office for surveillance. They have noted that one of the windows on the second floor of this abandoned building has been kicked open. They feel that if they had a ladder that they could gain entry to this building and surveill the post office from there, thereby being able to learn the specifics of the guard's routine. HARDY agreed to so obtain a ladder. (HARDY's report to the FBI of his meeting with GRADY's group on June 30, 1971.)

Page 32, Paragraph 2

HARDY advised that he and GRADY, after a twenty minute period, left ANDERSON's station wagon in the parking lot and went to the alley behind the post office to get the feel of the alley. He explained this was done to lose any physical nervousness that one might have upon entering a strange area at night. HARDY explained he and GRADY walked down the alley, cut to the left into a little alley which is located behind the Brass Rail Restaurant, which is next to the Post Office Building. They paused for a little while in this alley and observed the fire escape which is attached to the Post Office Building. GRADY discussed with him how his group was going to bypass the alarm system on the fire escape. GRADY related to HARDY that he was there yesterday during the light hours and that he noticed that a wire runs along the wall to the fire escape. GRADY, at this time, seemed to think that the alarm was a fire-type alarm and not a burglar alarm, assuming that when it is pulled down, the alarm will go off.

Page 33, Paragraph 2

HARDY advised that a little later it was suggested by someone whom he does not recall that the group play basketball in the churchyard across the street and throw a basketball on the roof. They then intend to go inside the building and ask the guard if he could somehow get up on the roof so that they can retrieve their basketball. HARDY stated the reasoning behind this plan is that the guard will have to turn off the alarm before the fire escape steps can be pulled down. It was therefore decided that this coming Sunday night there will be a basketball game at about 8 o'clock. The participants will be GENE DIXON, JOHN GRADY, MICHAEL DOYLE and HARDY and probably two other men.

Page 197, Paragraph 3

After dinner and at about 8:15 p.m., until approximately 9:10 p.m., GRADY, ANITA, COOKIE, ANN DUNHAM, BOB GOOD and MICHAEL GIOCONDO practiced going up the ladder which was in the back yard of his residence. They went up the ladder onto the back roof of his residence and then went through the back bedroom window. They did this so that they might determine how long it might take the slowest member of the group to go up the ladder. (HARDY's report to the FBI on his meeting with GRADY's group on August 5, 1971.)

Page 239, Paragraph 5

GRADY, last night, instructed HARDY to arrange for a location where the group could again practice going up and down the ladders. GRADY also instructed HARDY to, on Tuesday night, be prepared to give instructions with regard to cutting glass with the drill. (HARDY's report to the FBI on his meeting with GRADY's group on August 15, 1971.)

FEDERAL BUREAU OF INVESTIGATION

Date of transcription 9/3/71

MILDRED D. HEATER, 332 Friends Avenue, Camden, New Jersey, was contacted to develop information concerning her observation of individuals practicing climbing a ladder at a garage located at 310 Friends Avenue. HEATER advised she can recall observing a group of individuals climbing a ladder at the garage of Mr. PHILIP MURRAY. The garage is a two-story brick building and has an apartment above it where Mr. MURRAY resides. These people had placed the ladder against an open doorway on the second floor of the garage. She cannot recall when she observed these individuals; however, she believes it was approximately one or two weeks before the Camden riots started.

HEATER explained that she takes care of Mrs. RUTH GUINTA at 312 Friends Avenue and was at the residence of GUINTA when she saw these individuals climbing up and down the ladder. These people always practiced at night. She can recall, on one particular occasion when these people were practicing, she was taking out the garbage from the residence of Mrs. GUINTA and was unaware that these people were there. Upon seeing them, she was frightened and let out a little scream. Apparently, this concerned one of the individuals because a short time later, he came around to the front door of Mrs. GUINTA's residence and told us not to be alarmed, that they were merely college students practicing for a fire drill. The only description she could furnish of this individual was that he was approximately 25 or 30 years of age, had black hair, and a short, cropped beard. His hair was approximately ear-level length and was partially balding.

HEATER advised she could not identify any of the individuals practicing on the ladder at Mr. MURRAY's garage.

She recalls that these individuals usually arrived in one of two trucks, which she described as a white van-type truck and a red van-type truck. One of these may have had Pennsylvania license plates.

Interviewed on 8/30/71 at Camden, New Jersey File # Newark 52-6817

by SA JAMES H. YELVINGTON (A)
SA H. EDWARD FABRY (A) HEM/mgd Date dictated 9/3/71

403

2
NK 52-6817

HEATER advised that on one occasion, she observed Reverend MILO BILLMAN emerge from the back of Mrs. GUINTA's residence and assumed that Reverend BILLMAN had been to the apartment of MURRAY. She further believes that the individuals were practicing climbing the ladder at the time; however, she cannot recall definitely. She stated that Reverend BILLMAN's visit occurred approximately two nights before the Camden Draft Board was broken into. Reverend BILLMAN was accompanied by a short black-haired man. This was the first time she has seen Reverend BILLMAN at this address.

404

Hardy Allegation

"I had convinced the group to break into the draft board on either August 21st or August 22nd. A week before the appointed time I went to the FBI numerous times and told them that my job had been accomplished. The conspiracy had taken place and I wanted to be stopped. It was not stopped. I was told there were 100 FBI Agents in the area for the occasion. I protested vigorously that I had been double-crossed. The FBI apologized to me and told me that the new orders had come directly from the little White House in California."

Page 239, Paragraph 7

Last night GRADY said, "We're tooling up for Saturday night. If it doesn't go Saturday or Sunday, we're all leaving town. (HARDY's report to the FBI on his meeting with GRADY's group on August 15, 1971.)"

Page 255, Paragraph 5

Last night while at the meeting, GRADY said, "We'll be going in at 11:15 tomorrow night." GRADY indicated that by this he was referring to the hit of the draft board. (HARDY's report to the FBI on his meeting with GRADY's group on August 20, 1971.)

ROBERT WILLIAM HARDY was contacted on August 21, 1971, at the Cherry Hill Mall, Cherry Hill, N.J. He furnished the following information:

The plans, as formulated by JOHN GRADY with regard to the "hit" of the Camden, N.J., Draft Boards, planned for the night of August 21, 1971, are as follows:

A van-type truck driven by TERRY BUCKALEW and with the "entrance team" inside of it will take position in Markley Alley behind the United States Post Office at 11:10 p.m. At 11:15 p.m. the ladders will be taken out of the truck, placed against the side of the United States Post Office Building, and the entrance team will ascend the ladders and gain entry to the draft board.

JOHN GRADY will be in TERRY BUCKALEW's pickup truck, parked in Markley Alley facing Fourth Street. He will have the lights of this truck "on high beam" thereby impairing the visibility of anyone on Fourth Street who would be looking toward the alley.

A car with driver will be parked on Cooper Street near Fourth Street facing east turning onto Fourth Street.

A car with driver will be parked on Market Street turning onto Fourth Street.

A car with driver will back out of "MILO BILLMAN's alley" located on Fourth Street between Arch Street and Market Street directly across from the Hertz Rental lot. The driver of this car will cause the car to be positioned in such a way as to "straddle" Fourth Street.

A car with driver will be coming down Fourth Street from Federal Street moving toward the United States Post Office. This car will make contact, possibly merely by touching bumpers, with the car that comes out of BILLMAN's alley. An accident will be simulated between these two cars.

A car with driver will be on Fifth Street making a left-hand turn onto Cooper Street.

An unmanned car will be parked at Fifth Street and Markley Alley on the same side of the street as the White Tower Restaurant.

If necessary another car will be parked on the corner of Markley Alley and Fifth Street on the United States Post Office side of the street.

A car with driver will take a position between these two cars thereby effectively blocking Fifth Street.

HARDY's van will be parked behind the White Tower Restaurant and will turn onto Market Street in such a way so as to effectively block that street.

All cars will be in position by 11:10 p.m. At 11:15 p.m., all cars will perform their blocking action and the entrance team will enter the building by means of the ladder.

The plans tentatively called for individuals to be on the roof of the Townhouse Apartments at 11:15 p.m. The plans also called for surveillance by two people from the churchyard of Saint Paul's Episcopal Church, Market Street, Camden, N.J.

At 11:15 it is planned that GRADY would depart the pickup truck and give a hand signal to the entrance team. This hand signal would be in the form of a wave and would be their signal to put the ladders up against the building and to enter the building.

The plans as set forth above were formulated by GRADY during a meeting last night. GRADY completely dominated this meeting.

All those individuals who were at the meeting last night (whose names were furnished by HARDY to the interviewing agents at an earlier contact during the day) will be participating in the draft board hit. This was so indicated during the meeting of last night.

It was also indicated that members of the group expected that JOANN (or JOAN) REILLY, sister of RO RO REILLY, ED MC GOWAN, NED MURPHY, and LIANNE MOSHER would be coming into Camden during the day and that they might also participate in the "action" planned for that night.

HARDY furnished the following items to Special Agent NEIST:

A 3 x 5 card which had written on one side "MC HUGH" and "Lansdale, Pa." On the reverse side of this 3 x 5 card were written the following numbers: "135-157" and "345-404."

HARDY also furnished to Special Agent NEIST a diagram which was drawn by him which sets forth the positions to be taken by GRADY's people.

HARDY also furnished to Special Agent NEIST a floorplan of the second floor of the United States Post Office Building, Camden, N.J. He said that this plan had been handled by GRADY and that he believed that it was drawn by COOKIE.

Response

Special Agents Michael M. Ryman and Terrence P. Neist stated that at no time was Hardy specifically told that any arrests would occur on any specific date. Special Agents Ryman and Neist further stated that at no time was Hardy told that someone at the little White House in California or any other officials of the Federal Bureau of Investigation or the Department of Justice wanted the alleged crime to happen. It was meticulously explained to Hardy by Special Agents Ryman and Neist that the FBI is solely an investigative agency of the Federal Government, and that the lodging of charges, the authorizing of arrests and prosecution was specifically within the purview of the Department of Justice. He was specifically advised that the courts determine, after appropriate legal procedure, who is convicted and whether or not they are sentenced.

Title: CAMDEN ACTION; JAYMA ANN ABDON; ET AL

Character: CRIME ON A GOVERNMENT RESERVATION-BURGLARY;
THEFT OF GOVERNMENT PROPERTY; DESTRUCTION OF
GOVERNMENT PROPERTY; MUTILATION OF PUBLIC RECORDS;
INTERFERENCE WITH THE ADMINISTRATION OF THE SELECTIVE
SERVICE ACT OF 1967; CONSPIRACY; ASSAULTING A
FEDERAL OFFICER; OBSTRUCTION OF JUSTICE

Synopsis:

ROBERT WILLIAM HARDY appeared at the Camden, N.J.,
RA of the FBI 6/25/71 and advised he had been
approached by a friend to join a group engaged
in a "draft board demonstration like the one the BERRIGANs
were involved in." HARDY desired to aid the FBI and furnished
info on a voluntary basis concerning the planning of the draft
board raid at Camden, N.J., during the period 6/25-8/21/71.

- P -

DETAILS:

On June 25, 1971, ROBERT WILLIAM HARDY, 65
South 29th Street, Camden, N.J., appeared at
the Resident Agency of the Federal Bureau of
Investigation (FBI), Camden, N.J. Mr. HARDY advised that
he had been approached by a friend to join a group which he
thought might be engaged in some criminal activity. Mr.
HARDY stated that as a concerned citizen it was his desire
to aid the FBI and furnish information to the FBI regarding
this group's activity.

The following is the information he furnished
which is set out in chronological order:

FEDERAL BUREAU OF INVESTIGATION

Date 6/28/71

ROBERT WILLIAM HARDY, 65 South 29th Street, Camden, N. J., telephone number 662-2603, came to the Camden Resident Agency of the FBI and advised as follows:

He was coming to the FBI because he was troubled by something that a good friend of his (MIKE GIOCONDO) was trying to get him involved in. GIOCONDO had approached him concerning a "draft board demonstration like the one the BERRIGANS were involved in."

GIOCONDO wanted his assistance in finding places for large groups of people to stay overnight, in finding a meeting hall, and the use of his truck. (He assumed that the truck would be used to move groups of people. His truck could transport up to 20 people at one time.) GIOCONDO mentioned that there are about 25 people in the area who are working on the matter and that there are about 200 more who will be coming to the area from New York State and Pennsylvania to provide assistance. The planning has been going on for about six to eight weeks, and GIOCONDO has told him that many of the "ex-religious" people involved in the movement are people who have been known to both GIOCONDO and him for quite some time. GIOCONDO did not identify these people by name at that time to him.

GIOCONDO has mentioned that the target site has been photographed and has been under extended surveillance by members of the group. The group meets nightly.

GIOCONDO has mentioned that on Wednesday night he was followed while driving his red Renault with some members of the movement for six hours.

GIOCONDO wants him to meet the leader of the movement in this area who is a white male with five children who used to be the editor or on the editorial staff of "Jubilee Magazine."

GIOCONDO currently resides at an apartment at 3rd and Cooper Streets, Camden, N. J., and on June 28, 1971, will go to work with the State Drug Program at a salary of \$12,000 per year.

GIOCONDO has indicated to him that the "hit" would take place within two to three weeks.

FEDERAL BUREAU OF INVESTIGATION

Date 6/20/71

ROBERT WILLIAM HARDY, 65 South 29th Street, Camden, N.J., was contacted at the parking lot of Cherry Hill Mall, near the office building known as #1 Cherry Hill, Cherry Hill, N.J., and advised as follows:

On June 25, 1971, he went to the apartment of MIKE GIOCONDO, located at 3rd and Cooner Streets, Camden, N.J., on the second floor front, facing onto Cooper Street. GIOCONDO's apartment number is either 3 or 4 and his name is indicated on his mail box. As he was speaking with GIOCONDO, the telephone rang at approximately 4:20 p.m. GIOCONDO said, "Okay JOHN, I'll be there in 22 minutes." GIOCONDO indicated to him that the telephone call was from JOHN GRADY.

While they were in the apartment, GIOCONDO mentioned that he and some friends (not stated) were followed from Stratford, N.J., on the night of June 23, 1971. GIOCONDO stated that he was very upset about being followed and that he thought that the FBI or some Government agency was following him and his friends. At this point HARDY inquired of GIOCONDO just what exactly took place regarding the surveillance, whereupon GIOCONDO stated that he was followed by a car with New York License plates XM6-913 and another car with Pennsylvania License tags. GIOCONDO remarked to HARDY that he was so upset he would never forget that number.

He also mentioned that upon returning from Stratford he was supposed to meet some friends in the "White Tower" hamburger restaurant, located at 5th and Market Streets, Camden, N.J., at 4:30 a.m., June 24, 1971. Because of his concern over the surveillance he did not meet his friends as he was originally scheduled to do, but called them at the "White Tower" arranging to later meet them on the roof of the Town House Apartments, 3rd and Cooner Streets, Camden, N.J. He later met these

by SAs TERRENCE P. JUST, TPN
NICHAEAL M. RYMAN TPN:pad Date dictated 6/29/71

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

individuals (not stated) on the roof of the Town House Apartments and left them at about dawn. GIOCONDO further related to him that at about 8:30 or 9 a.m., on June 24, 1971, he walked to El Centro (a welfare facility located in Camden, N.J., which deals with Spanish-speaking Americans).

GIOCONDO related that he stayed at El Centro throughout the day until late afternoon or early evening, at which time he went to HARDY's residence for dinner.

HARDY asked GIOCONDO if they were still going to go through with "the draft thing in Camden". To this GIOCONDO replied, "Definitely". GIOCONDO said, "We're going to make a hit there."

HARDY noted that GIOCONDO's use of the "street" term, "hit", indicated to him that they were talking about something more than a demonstration. In referring to this "hit", GIOCONDO said, "This is the craziest thing. I'm not sure I want to be in it."

HARDY inquired as to who else was involved in this matter and GIOCONDO replied that Brother PHILLIP KELLY and Father MICHAEL DOYLE were involved, and that DOC ANDERSON, a chironractor at Broadway and Royden, Camden, N.J., was the "city contact". He explained that when members of the movement came into town and needed assistance of any type that they would contact ANDERSON. GIOCONDO also mentioned as being involved a "JED", last name unknown, from the Moorestown, N.J., area. GIOCONDO provided no further information with regard to "JED" at that time.

Brother PHILLIP KELLY is a white male, from Canada, 5'10" in height, approximately 145 lbs., with sharp features, sandy-colored short hair, and wearing glasses. KELLY is a religious brother (possibly a Jesuit), who works at El Centro, Camden, N.J. KELLY drives a green "junker", Ford or Plymouth, 1962 or 1963 model. He has relatives in Canada and is an avid ice hockey fan.

Father MICHAEL DOYLE is a white male, approximately 5'4" - 5'6" in height, 120 lbs., with light reddish or sandy-colored hair. He is a Roman Catholic priest at St. Joseph's, 20th and Federal Streets, Camden, N.J. He is originally from Ireland and visits Ireland about once a year.

GIOCONDO and he left GIOCONDO's apartment at 4:40 p.m.,

and went to GIOCONDO's red Renault which was parked outside on the street. Before getting into the car, GIOCONDO checked the trunk, as if looking for monitoring devices. They then entered the vehicle and GIOCONDO drove up Lawrence Street to the Greyhound or Trailways Bus Station, located in Carden on Broadway, across from the Walt Whitman Hotel. They drove to the bus station and drove past it once. As they did, GIOCONDO indicated a white male and said to him, "JOHN's there watching us to make sure we're not followed." They drove around the block and as they approached the bus station the next time GIOCONDO indicated a couple by the bus station and said, "There's two of our people."

The couple that GIOCONDO referred to are described as follows:

One was a white female, age approximately 20, very young looking, approximately 5'6" in height, with long dark hair, wearing a skirt and blouse. She looked like a typical college girl and had a moderately nice figure.

The other was a white male, about 28-30 years of age, 5'8" - 5'10" in height, with longish hair (although not hippy length). He had sharp features, was approximately 165 lbs., in weight, thin build, and was wearing dungarees. He further described him as being generally clean cut looking, but still giving the appearance of being a "hood".

They stopped by the bus station and JOHN GRADY came to the car. GIOCONDO introduced him to GRADY, who stated he recognized HARDY from previous pictures. GRADY also said to him, "MIKE has said a lot about you, in a positive way."

GIOCONDO had, while on the way to the bus station, mentioned that he had a suitcase and a "Pan Am" flight bag which belonged to GRADY, and that they were going to see GRADY so that he might pick up the suitcase and "Pan Am" bag.

GRADY took the suitcase and "Pan Am" bag from the back seat of GIOCONDO's car and said, "We'll meet later at DOC's".

He described GRADY as 5'10" in height, 175 lbs., in weight, thick chested, curly dark hair (almost black), blue eyes, round face, wearing moderate sideburns. He wore a dark suit coat type jacket, a dark sweater, and dark trousers,

giving a generally priestly appearance. GRADY at times uses an Irish brogue in his speaking.

They then went back to GIOCONDO's apartment. At GIOCONDO's apartment, he told GIOCONDO that he would like to meet some of the people in the movement and would like to get involved in the movement. He said that he could not lend out his truck as GIOCONDO had previously requested, since the truck was needed for his business and was a source of his livelihood. He told GIOCONDO, however, that he would be willing to drive the truck for them.

On June 25, 1971, while working at a booth at the St. Joseph's carnival, Camden, N.J., GIOCONDO came to the booth and said, "Father DOYLE and some of the guys in the movement are meeting in St. Joe's Rectory tonight at 9 p.m." To this HARDY replied that he could not go since he was working at the booth.

He did not hear from GIOCONDO again until 5 p.m. on Sunday, June 27, 1971. At that time GIOCONDO called him, wanting him to go to a dinner which was being held in connection with a Puerto Rican parade. He told GIOCONDO that he was unable to go and again indicated an interest in attending any meetings with people from the movement. GIOCONDO told him that he would be in touch with him the first part of the week and would contact him so that he might attend the next meeting. GIOCONDO indicated that the meeting would take place during the first part of the week.

On June 28, 1971, he attempted to contact GIOCONDO by telephone and also by stopping by his apartment at 3rd and Cooner Streets, but was unsuccessful in this attempt. He felt that this was possibly due to the fact that GIOCONDO on that day started a new job with the New Jersey State Drug Program.

He explained that he first came into contact with GIOCONDO about two and a half years ago, at which time they both were working on the political campaign of MARIO RODRIGUEZ, who was running for mayor of the City of Camden. At that time, GIOCONDO was a religious brother working at El Centro, Camden, N.J. They became fast friends and have worked together closely in various political and social movements in the City of Camden. Since their initial meeting, GIOCONDO has left the religious

order. GIOCONDO was in the religious order for approximately ten years, serving part of that time in Costa Rica.

He described GIOCONDO as follows: Approximately 5'10" in height, weight approximately 200 lbs., white male, long black wavy hair (neck length), well groomed, large stomach. GIOCONDO wears glasses and from time to time wears a mustache. At his last contact with GIOCONDO he noticed that he was in the initial stages of growing a mustache. He is right-handed, drives a red Renault, and resides at 3rd and Cooner Streets, Camden, N.J. He was formerly employed by Camden Legal Services and currently is employed with the New Jersey State Drug Program.

GIOCONDO subscribes to various underground newspapers, such as the "Distant Drummer". He generally wears sweaters and loafers or sandals. He seldom wears a shirt and tie. He is from Syracuse, N.Y. He enjoys drinking Scotch and wine, especially Chianti.

FEDERAL BUREAU OF INVESTIGATION

Date July 6, 1971

ROBERT WILLIAM HARDY furnished the following information:

HARDY advised that he attended a meeting last night, June 29, 1971, at a Dr. ANDERSON's house at Harding Avenue and West Park Avenue on Cooper River Drive in Collingswood, N. J. He advised that he noticed MIKE GIOCONDO's car, a Renault, parked at Dr. ANDERSON's residence.

He advised that present at the meeting were JOHN GRADY; COOKIE, described as a very attractive girl with long dark hair, college type, about 22 years old, 5'8", medium build, 120 pounds; and another girl, ANTOINETTE, last name unknown, described as very Italian looking, long dark hair, dark eyes, slighter build than the other girl, about 21 years old, and 110 pounds.

HARDY related that in the first hour of conversation the two girls were not present and that most of the talking was done by GRADY. He felt that GRADY was sizing him up. GRADY related to him that he ran for the Senate in the Bronx in New York in 1955-56. He stated that he was a sociologist and had gone to college twice for four-year terms. He apparently spent four years in the Navy at the time of the Korean war. GRADY was not too clear about this. GRADY further related to him that he was involved in four previous draft board break-ins in Philadelphia a year and a half ago. GRADY bragged about how he helped to coordinate 50 to 60 people in these draft board break-ins. GRADY stated that he had been picked up about a year and a half ago and that the authorities had a difficult time finding out who he was. GRADY stated that it took them several months because, apparently, they did not run a fingerprint check on him.

HARDY described GRADY as a very dynamic individual but that he, HARDY, felt that he was a little crazy; but, nevertheless, he is the type of individual who inspires and motivates.

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

PH 52-7165
2

GRADY further related that he was involved in the Harrisburg draft record "thing". He did not state when or where but indicated that some of the people involved with him was a woman by the name of MARY CAIN. She, according to GRADY, was involved in Harrisburg and the Philadelphia draft board break-ins. GRADY spoke highly of this woman. He also said another person was involved, a GEORGE MC VEY. GRADY stated that he talked to MC VEY this week and that he, MC VEY, gave him a \$100.00 donation to buy food and "stuff". HARDY stated they are very short of funds.

HARDY advised Dr. ANDERSON's home is being used by GRADY and his people for the summer. Dr. ANDERSON is not there. He apparently is with his family at the shore. HARDY felt that Dr. ANDERSON's involvement with GRADY is to the extent that he is lending his home for meetings and possibly financial support.

GRADY further related that he is one of the original organizers of the East Coast Conspiracy to Save Lives. HARDY made the observation that JOHN GRADY and his two women companions appear to be very dedicated and that they have been involved in this sort of thing, namely draft board break-ins, for quite a while.

HARDY advised that GRADY and his group are doing a considerable amount of surveillance on the Camden Post Office for the particular purpose of watching the night watchman make his rounds inside the Post Office. HARDY felt that the break-in will occur sometime between 1:00 a.m. and 4:00 a.m. on a Monday morning.

HARDY advised that the break-in will occur within the next couple of weeks and that GRADY and his group are surveilling the Camden Post Office from the rooftop

PH 52-7165
3

of the Townhouse Apartments on Cooper Street, from the top of the new Rutgers Law School Building, and from surveillances on the street.

HARDY advised that ANTOINETTE has been able to get inside the Post Office on one occasion and from her observations got a rough floor plan of the fourth floor. This floor plan does not go into too much detail. He stated that when they go in they will hit the fifth floor but are apparently worried about the fourth floor for some reason or reasons unknown to him. He advised he did not know the exact details of how ANTOINETTE got into the building.

HARDY advised that he has been given an assignment to go into the Post Office and get a detailed floor plan of the fourth and fifth floors, specifically looking for any electrical tape alarm systems on the windows. HARDY made the observation that they are going to come into the Post Office through a window on the fifth floor. GRADY and his group are concerned about the key system as far as security measures are concerned. They want to know exactly where alarm systems are located. They also want to know how many windows and what windows line up with what offices on the fourth floor in order that they can check the guard's movements when they have the Post Office under surveillance.

HARDY related that they observe the lights going on in the various windows as the guard makes his rounds. Their purpose in watching the night watchman is to be able to say at any given time that the watchman is in a specific room, such as 428 or 422, when he turns on the lights.

PH 52-7165

4

HARDY advised that ANTOINETTE does all the filing on the accumulation of information but that GRADY actually runs the operation. COOKIE, HARDY observed, is a supplement to the team. HARDY made the observation that MIKE GIOCONDO is a more or less overpowered by GRADY's personality. HARDY feels that this is due to GRADY's magnetism and that it is of an intense quality so as to overcome the average person who is not ready to cope with it.

HARDY advised that the two girls are from Philadelphia and that they went to a Catholic high school. They are very good friends with a nun (not known) who is now involved in this underground thing. GRADY, he related, refers to it as the "underground movement".

HARDY advised that they mentioned several names during the course of this conversation but that he could not remember them.

HARDY stated that he felt he made a good impression on GRADY and his group and observed that the group is very free with their feelings. If they like you they do not hide it.

GRADY stated to HARDY that his wife and five children are due to come down from the Bronx this weekend and that they will be staying with GRADY for approximately one month at the ANDERSON home. GRADY said that his family is being evicted and that there is an arrest warrant for him in the Bronx. There is also an arrest warrant for him in Pennsylvania. GRADY did not specify the contents of the warrants.

At this point HARDY questioned GRADY as to the existence of the warrants in that there was a possibility that GRADY could be picked up, to which GRADY replied that the authorities did not know where he was and that they were

PH 52-7165

5

bureaucratic, implying that the authorities were ineffective. GRADY further related that this thing was just too big for the authorities and that could not catch up with all of the little people involved. HARDY made the observation that GRADY appears very sincere in what he is doing.

HARDY again questioned GRADY as to whether he would need sleeping quarters and places where meetings could be held for people coming into the Camden area. GRADY answered by stating that he was not totally sure about it and that he would confide in HARDY at a later date.

HARDY advised that GRADY and his group are living off MIKE GIOCONDO's pay, at least for the time being, and from other monies that are donated by supporters. MIKE GIOCONDO started a job with the Department of Health, State of New Jersey, in the drug abuse program and that he, GIOCONDO, reports to Trenton every day. GRADY refers to his wife as "SHAUGHNESSY". This is her maiden name.

HARDY then related that the 200 people figure that was mentioned was perhaps a little bit misleading in that this is a political ploy. He explained that GRADY was trying to present a picture of greater strength than he actually has. This is something that is developed from working in politics, such as a person promising to deliver a thousand votes and one knows that he cannot really deliver the votes.

HARDY was instructed by GRADY to go into the Post Office on June 30, 1971, to the fourth floor and get a detailed floor plan. He was instructed to ascertain, among other things, if there were window locks on the fire escape on the fourth and fifth floors and whether the locks could

PH 52-7165

6
be opened from the outside; and, if they have to be forced, what type of tools would be needed. GRADY also wanted him to check the alarm system again on the windows on the fifth floor as to whether there is or is not a system.

HARDY advised that he will attend another meeting at Dr. ANDERSON's house tonight and that he has been asked to put in his first night of surveillance, which will be Sunday night from 10:00 p.m. to 3:00 a.m. from the roof of the Townhouse Apartments. He stated that he was not sure with whom he was going but thought it would be with one of the more experienced people. He advised that at the moment GRADY and his group are not concerned with the FBI. They are mainly watching the back parking lot and the fourth and fifth floor windows at night in order to see the lights go on when the guard makes his rounds. They can apparently see the guard for about 20 seconds as he crosses from the fourth floor to the elevator and to the steps of the fifth floor. The pattern has developed that on Sunday nights the guard does not make his middle-of-the-night check. The guard is supposed to check at 1:00 a.m., 3:00 a.m., and 4:30 a.m. on Sunday nights. The guard makes the 1:00 a.m. and the 4:30 a.m. check but does not make the 3:00 a.m. check. GRADY and his group have been watching the pattern on Sunday nights in particular for about six to eight weeks.

HARDY advised that they do not want to make contact with any person in the Post Office. They just want to get to the draft board and possibly the office of Army Intelligence. They had made a point in instructing HARDY that he also check out the Army Intelligence Office when he is on the fourth floor. They also instructed him to obtain the telephone number of the public pay phone on the fourth floor in order that they, when they are in the building, can use it as a contact with the people outside.

PH 52-7165

7

HARDY advised that GRADY and his group do not utilize Dr. ANDERSON's home telephone. They use the public pay phone which is a block away in the park and they have pre-set times for people to call in.

HARDY further related that in his conversation with GRADY that GRADY stated to him that he has been involved in different movements for about 16 years. GRADY stated he was with PHIL and DAN BERRIGAN for a number of years before their arrest. He stated he was with them when they were arrested. HARDY made the observation that GRADY feels a very strong emotional tie to the BERRIGANS. GRADY also feels a very strong emotional tie to a Sister SCOBLOCK. GRADY related that she is presently under indictment for her part in the plot to kidnap Presidential Advisor KISSINGER.

GRADY advised that when they do hit a draft board, it will be at a set date and time. He did not believe that the situation would arise where he would walk in to a meeting and they would say let's go. HARDY stated they needed more information before they make their move. He stated that GRADY and his group have not stated how many people will be involved in the draft board hit but that JOHN GRADY, the two girls, and MIKE GIOCONDO will be the main thrust. There will be other people coming in to help them, possibly people who have been involved in this sort of thing before. HARDY offered the observation that GRADY is the type who starts things; but, when the actual action comes, he will be in a safe vantage point to run it and he will be in a position to not be caught.

HARDY went on to say that GRADY's group has made movies of the Post Office and that they will have a camera for tonight's meeting and will show films and slides and go over sketches of what they have done in great detail. They

PH 52-7165

do have the schedule for the guard from the Post Office. In some way they have managed to get this information but he does not feel that they have someone on the inside who is working with them.

HARDY stated the reason he thinks he has been approached to help with this action is on the recommendation of MIKE GIOCONDO. GIOCONDO knows from past experience that HARDY is efficient and has been able to muster the type of people and financial resources that can carry out a given task efficiently. HARDY has been able in the past to muster the necessary physical resources, such as trucks, cars and people.

HARDY advised that the men in GRADY's group are definitely the leaders. The women seem to be nothing more than tools or servants of the men. They seem to consist of religious and ex-religious; however, some of the religious and ex-religious women appear to be an exception to this rule. They seem to have some kind of controlling factor. He described the group as a loosely-knit organization over a large area and they are able to muster a certain amount of people at any given time if it is worked out and planned. It seems that most of the people are either under surveillance or have arrest records and, as such, makes it very difficult for them to freely move about. Most of the people of which GRADY speaks are "youth" who are freshly out of religious orders.

GRADY mentioned many people in the Philadelphia area who were involved in the four draft record incidents a year and a half ago who seem to be these ex-religious. He could not remember the names that were mentioned. GRADY, however, advised him that they would be coming in to help and he indicated that the people would be from Philadelphia and New York.

PH 52-7165

HARDY offered the opinion that GRADY and his group seem to specialize in draft boards and that they spend two to three months surveilling the place before the "action" actually takes place. GRADY stated they have been very successful in this endeavor and have been able to get away clean with a few minor pick-ups.

In offering a further opinion of GRADY, HARDY advised that GRADY is a very emotional type. He is the first generation of Irish immigrants and he still feels some kind of allegiance to Ireland and their revolutionary army, the IRA. He can remember with a great deal of passion the "tan and brown shirt brigade" (believed to be group known as Black and Tans) of the British Army, which consisted of convicts who were given full pardons in return for two years of service in Ireland in order to terrorize the Irish people. GRADY feels the same type of hatred in relation to law enforcement agencies here in the United States. He did not refer to any particular law enforcement agency.

FEDERAL BUREAU OF INVESTIGATION

Date 7/8/71

ROBERT WILLIAM HARDY, 65 South 29th Street, Camden, N.J., was interviewed and advised as follows:

On June 30, 1971, he went to a meeting at the home of Doctor ANDERSON, Harding Avenue and Cooper Drive, Collingswood, N.J. Present at this meeting were MIKE GIOCONDO, JOHN GRADY, COOKIE and ANTOINETTE, who is also known as ANITA. He questioned them as to how they were obtaining the food which they had every night. They eat at approximately 9:00 p.m. every evening, having a community meal. Apparently until last week when they were under surveillance by the FBI, fifteen or twenty people were meeting every night for the community meal. He learned from COOKIE and ANITA that they go out and steal food from a local supermarket so that they do not have to spend money for the food. They also told him that they go to local liquor fairs and steal the whiskey and wine which they have with their meals.

Their group at the meeting, was very well pleased with the floor plan that he was able to produce for the Selective Service office. The group plans that when they make the hit, they will go up the outside fire escape and through the window into the Draft Board office, thereby eliminating the need for keys or the need for anyone hiding within the building. The group desires that HARDY go back to the Selective Service office and attempt to determine where the files are kept for those registrants who are classified 1-A. The group has indicated that when hitting the Draft Board they will be concerned only with the 1-A classification files. At this time they are unsure as to whether or not they will carry the files from the office or whether they will destroy them on the spot. The group's second target, if possible, is to hit the Army Intelligence Office located on the fourth floor of the U.S. Post Office Building. They are interested in taking files such as the files that were taken from the FBI Office in Media, Pa. It was HARDY's impression from discussions with the group that the theft of the FBI files in Media, was looked upon as a great act of courage by the "underground", and that other groups are now trying to duplicate their efforts and release the files as the Media files have been released.

On 7/1/71 at Cherry Hill, N.J. File # Philadelphia 52-7165 Sub
 by SA MICHAEL M. RYMAN and SA TERRENCE P. NEIST TPN: ams Date dictated 7/7/71

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

During the meeting he heard mentioned the name of another individual who is involved with the group, her name is MARTHA SHEMLEY. SHEMLEY works for the Welfare Department in Camden, N.J. She lives in an apartment in Hi-Mella, N.J., where the group had been meeting for approximately two months, prior to the time at which the FBI surveilled the group in the vicinity of SHEMLEY's apartment. SHEMLEY is divorced and has one child. HARDY has known SHEMLEY for about one year as she has been a great help to him in some of his past political works. SHEMLEY was described by HARDY as being a White female, with thin build, rather attractive, and approximately 28 years old with blue or grayish eyes. HARDY has not seen SHEMLEY in about four months, but he last saw her she had short hair. He felt that probably her hair was longer at this time.

HARDY related that it appears that SHEMLEY's involvement with the group consists of her furnishing her apartment as a meeting place and also furnishing her car for surveillance work.

HARDY questioned GRADY as to the number of people involved and GRADY related that they had a list of 32 people in the Camden Area. He was able to observe a portion of this list, which GRADY keeps in a black notebook.

According to HARDY, SHEMLEY, will probably be part of the "outside team" when the Draft Board is hit. Plans called for five people to do the actual "inside work". The plans call for twelve people for outside surveillance work and also for five or six cars or trucks to block various streets in case something goes wrong. It was suggested at this meeting that HARDY could be in his truck and could pull it into the post office driveway, thus blocking off the driveway, in the event that those who go in the Draft Board would have to exit quickly. It was suggested that he could use the pretext of his truck being stalled. HARDY agreed to this phase of the plan. HARDY further related that MARTHA SHEMLEY's boyfriend is named either GENE NIXON or GENE DIXON and that he has some part in the plan. They have used DIXON's car in the past.

HARDY related that only GIOCONDO, GRADY, COOKIE and ANITA were present at the meeting and that the other members of the group have been "laying low" until they feel that things have "cooled Off" enough. From the meeting he learned that planning for the "hit" has been going on for approximately four months. From the amount of people that HARDY has seen and from the names that he has heard as being involved, he estimates that he knows about half of them. It is HARDY's opinion that these people who are involved would not be so involved were it not for the driving force and personal magnetism of JOHN GRADY.

During the meeting he heard mentioned the name of another individual who is involved with the group, her name is MARTHA SHEMLEY. SHEMLEY works for the Welfare Department in Camden, N.J. She lives in an apartment in Hi-Wella, N.J., where the group had been meeting for approximately two months, prior to the time at which the FBI surveilled the group in the vicinity of SHEMLEY's apartment. SHEMLEY is divorced and has one child. HARDY has known SHEMLEY for about one year as she has been a great help to him in some of his past political works. SHEMLEY was described by HARDY as being a White female, with thin build, rather attractive, and approximately 28 years old with blue or grayish eyes. HARDY has not seen SHEMLEY in about four months, but he last saw her she had short hair. He felt that probably her hair was longer at this time.

HARDY related that it appears that SHEMLEY's involvement with the group consists of her furnishing her apartment as a meeting place and also furnishing her car for surveillance work.

HARDY questioned GRADY as to the number of people involved and GRADY related that they had a list of 32 people in the Camden Area. He was able to observe a portion of this list, which GRADY keeps in a black notebook.

According to HARDY, SHEMLEY, will probably be part of the "outside team" when the Draft Board is hit. Plans called for five people to do the actual "inside work". The plans call for twelve people for outside surveillance work and also for five or six cars or trucks to block various streets in case something goes wrong. It was suggested at this meeting that HARDY could be in his truck and could pull it into the post office driveway, thus blocking off the driveway, in the event that those who go in the Draft Board would have to exit quickly. It was suggested that he could use the pretext of his truck being stalled. HARDY agreed to do this phase of the plan. HARDY further related that MARTHA SHEMLEY's boyfriend is named either GENE NIXON or GENE DIXON and that he has some part in the plan. They have used DIXON's car in the past.

HARDY related that only GIOCONDO, GRADY, COOKIE and ANITA were present at the meeting and that the other members of the group have been "laying low" until they feel that things have "cooled Off" enough. From the meeting he learned that planning for the "hit" has been going on for approximately four months. From the amount of people that HARDY has seen and from the names that he has heard as being involved, he estimates that he knows about half of them. It is HARDY's opinion that these people who are involved would not be so involved were it not for the driving force and personal magnetism of JOHN GRADY.

Most of those involved are either ex-religious people or priests or nuns or welfare workers.

HARDY was able to see on the list the name SILLMAN. He was unsure as to whether this name represented a man or a woman and he had never heard the name before.

Another name on the list was WEBER. He believes that this name represents BOB WEBER, who is the Roman Catholic Chaplin at Rutgers University, Camden, N.J.

He also observed POPPI SHARPE's name on the list. CHARLES "POPPI" SHARPE is the Leader of the Black Peoples Unity Movement (BPUM) in Camden, N.J. HARDY speculated that they may intend to use HARDY in obtaining manpower for the work connected with the hit. HARDY described SHARPE as a Negro male who has a prison record, and who ran for City Council in Camden last Spring.

Another name on the list was that of JOE MADEN (phonetic), who is a priest at Saints Peter and Paul, Camden, N.J., which is better known as El Centro. HARDY believes that MADEN was questioned by the FBI about two months ago with regard to the surveillance of the FBI Headquarters at the Post Office Building, Camden, N.J. This questioning "shook up" MADEN to the point where he dropped out of anything connected with the Draft Board hit.

Another person known by HARDY to be involved is a girl named NORMA, whose last name he was unable to recall at that time. NORMA is the editor for a suburban newspaper within the Cherry Hill, N.J. Area. She lives in Camden, N.J. He said she was involved in the Women's Lib Movement.

HARDY described NORMA as being about 28 years old, with a thin build. She has recently had all of her top teeth removed. She is not a very attractive girl. She is about 115 pounss in weight, about 5'6" with short "scraggly" hair. She often dresses in "hippie-type" outfits.

During the meeting, most of the conversation centered around the knowledge that HARDY was able to obtain while at the Draft Board the day before.

At the meeting, HARDY related to the group that he had gone into the U.S. Post Office Building to talk with one of the Marine Sergeant-Recruiters on the fourth floor.

He talked to him about a program, wherein WARDY is working with ex-convicts. He discussed with the Marine Sergeant, the possibilities of an ex-convict being able to enlist in the Marine Corps after being released from prison. He also related to the group how he had checked all the doors on the fourth floor to see if they were locked, and that he was unable to gain entrance to any of these rooms. He further related how he had gone to the fifth floor, making a mental notation as to where the emergency lights were located, the type of windows that were on the stairway and the number of doors on the left and right of the stairway. He told the group how he had stopped and talked to the guard who was making his rounds at the time. He noted that it was about 3:45 p.m. when the guard was making his rounds.

He also told the group how he had gone to the Selective Service Office and talked with the receptionist to find out who was in charge of the office. He then spoke with the woman in charge, who is Mrs. FURLONG (phonetic). He discussed with Mrs. FURLONG the draft status of ex-convicts upon their release from prison, and whether or not they had to sign up with the Draft Board upon being released or not. While he was there he was able to note the number of windows, the type of locks, and whether there were any type of electrical devices on the windows that would set off the alarm. He was unable to note any electrical devices and so related this to the group. He was able to see the fire escape window, through which the group intends to gain entry. He related all of the above information to JOHN GRADY at this meeting. The window which he referred to was the middle window on the fifth floor of the draft office, which would be on the Cooper Street or Alley side.

After leaving the Draft Board Office he checked the doors on the alley side of the Post Office Building attempting to see if he could gain entrance to any of these rooms. He was unable to gain entry to any of these rooms. At this point in the discussion at the meeting, GRADY said that when they made the Draft Board hits in Philadelphia, one of the hits was on South Broad Street. In referring to this hit, GRADY mentioned to the group that there was an alarm system on the door at this draft board and that because of this they proceeded to take an electric saber saw, with which they cut the door in half, thereby going through the bottom half of the door and not setting off the alarm. GRADY explained that they were going in from the outside, into the Post Office Building in Camden, due to the current security system at the post office.

HARDY explained that the plans call for using a portable electric drill with glass drills in gaining entrance into the Draft Board. The plans call for drilling a hole which would be large enough for one to put his hand through. Then this person would reach through the hole and swing open the lock on the window, and then open the window by pushing on it. This plan of entry was widely accepted by the group. The group requested that HARDY obtain a ten foot ladder so that they could use a boarded up building on the Fifth Street side of the post office for surveillance. They have noted that one of the windows on the second floor of this abandoned building has been kicked open. They feel that if they had a ladder that they could gain entry to this building and surveill the post office from there, thereby being able to learn the specifics of the guard's routine. HARDY agreed to so obtain a ladder.

HARDY observed that the group appeared to be very thorough and was willing to wait as long as need be to get all the necessary information, before actually going through with the plan. He questioned the group as to whether or not they were concerned about the possibilities of an informant due to the size of the group. They commented that they felt that there was an informer within the group, due to the fact that the FBI surveilled them in Hi-Nella, N.J. last week. However, rather than limiting the size of their group because of the fear for an informer, they desire to expand the group so that it would include more community leaders.

They had also requested he determine if there was a telephone on the fourth floor of the Post Office and if so what the number of the telephone was. He related to them that he had learned that there was not a public telephone on the fourth floor, nor was there one on the fifth floor.

HARDY was given instructions by the members of the group to see if he could obtain three walkie-talkies, as they desire to have one walkie-talkie in operation inside the Draft Board office, one on the roof top of the Town House Apartments, and one with the people on the street, so that they would at all times be ready to run and avoid detection.

JOHN GRADY mentioned that he was the one who helped engineer the four hits on Draft Boards in Philadelphia, Pa. GRADY mentioned that there would be outside help coming to Camden to assist in the hit. He did not mention any names of these people, however. GRADY did say that the people would be coming from Pennsylvania and New York.

6

GRADY requested that HARDY obtain the registration data with regard to a vehicle that was observed by members of the group during the last week. This license number was New York License XN6913. HARDY told them that he would attempt to learn this information from a policeman who was a friend of his.

GRADY also requested that HARDY obtain registration data for another vehicle, which has been noted by GIOCONDO in the area of GIOCONDO's apartment. The license number of this vehicle is New Jersey License PJM568, and the vehicle is driven by a tall, heavy set White male.

From discussions with the group, it has been indicated that the hit would not take place for several weeks as yet. They do not as yet appear to be prepared and need tools such as the portable drill and walkie-talkies before they could make the hit.

According to GRADY the slides and other stuff are currently being kept at NORMA's house in Camden.

It was also mentioned at the meeting that when COOKIE went out to make a call to some of the group from the pay phone, that they were going to meet later at KEN's House in Camden. It was not further stated as to the identity of KEN.

HARDY was asked to draw a large-scale sketch of the information with regard to the floor plan of the Post Office building. When HARDY left the building the members of the group were looking at this sketch and trying to add to it from what ANITA had seen when she had gone to the Post Office Building. It was about five minutes after twelve when HARDY left the meeting. They requested that on his way home he pass by the Police Garage which is located by the Sears parking lot and note how many civilian cars are parked there. HARDY explained that the group is trying to get an idea of how many police cars are on the third shift or midnight shift at any one time. They had mentioned to him that if they go into Camden they drive by the Police Garage and count the cars so that they will know how many black and white cars are on the street.

HARDY related that the surveillances of the Post Office building are conducted from the roof of the Town House Apartments, Camden, N.J., and that when conducting the surveillances GRADY and his followers use the roof as a back drop so that they can not be seen from the Post Office building. They use binoculars and cameras during the surveillance and when on surveillance dress in black suits, to avoid detection.

GRADY and other members of the group generally do not leave Doctor ANDERSON's house during the day, but when they do need a vehicle they call upon Father MICHAEL DOYLE at St. Joseph's Parish, Camden, N.J., or Father JOE MADEN from Saints Peter and Paul also in Camden. GENE DIXON also provides the use of his vehicle. They also have used NORMA's car in the past.

From discussions during the meeting it was apparent to HARDY that drawings, diagrams and photographs would very shortly be moved from NORMA's residence to the residence of Doctor ANDERSON in Collingswood, N.J.

GRADY, while at the meeting referred to the "hit" at the Media, Pa. FBI Office, as a rally point. GRADY stressed the need for the Draft Board hits to be successful, namely because the underground needs these shows of courage. GRADY also said that if possible the second target in Camden would be the office of Army Intelligence on the fourth floor of the Post Office Building. GRADY said that the purpose in hitting the Army Intelligence Office would be to learn from Army Intelligence records, the information that was on file, with regard to members of the group. GRADY has mentioned that the hit would take place on a Sunday night after midnight, which would actually make it a Monday morning. GRADY anticipates that it will take approximately an hour to carry out the hit.

HARDY learned while at the meeting that up until last Wednesday night, (when members of the group observed that they were surveilled by the FBI) MARTHA SHEMLEY and others had all been included in the meetings. However, from Wednesday night on the meetings have been confined to GIOCONDO, JOHN GRADY, COOKIE and ANITA. Last night was the first time that members of the group had contacted MARTHA SHEMLEY since that Wednesday night. Apparently the group feels more secure and intends to start calling other members of the group to the meetings again. GRADY had said that he would like to have the Camden Area group remain active even after he left.

HARDY advised that the next meeting is scheduled for the night of July 1, 1971 to take place from 9:00 p.m. to 12:00 midnight.

GRADY related to HARDY that his (GRADY) wife will be travelling over the weekend from the Bronx, N.Y. to East Orange, N.J. and that from East Orange, she will travel to Collingswood, N.J.

2

When the question of finances was brought up, members of the group said that they got the food by "ripping it off", explaining that they take the food from local supermarkets and liquor stores.

FEDERAL BUREAU OF INVESTIGATION

Date July 7, 1971

ROBERT WILLIAM HARDY was shown photographs of the following individuals:

KATHLEEN RIDOLFI
SARAH GLICK
ANNE MENZ
DINA PORTNOY
ANITA RICCI

HARDY picked the photograph of KATHLEEN RIDOLFI as being identical to "COOKIE". He advised that the photograph of ANITA RICCI was possibly identical to "ANTOINETTE".

by SA MICHAEL M. RYMAN and SA TERENCE P. NEISS BMR:smm Date dictated 7/6/71

FEDERAL BUREAU OF INVESTIGATION

Date July 8, 1971

ROBERT WILLIAM HARDY furnished the following information:

He advised that he attended a meeting on July 1, 1971, at the home of Dr. WILLIAM A. ANDERSON in Collingswood, N. J. Present at the meeting were JOHN GRADY, COOKIE ANTOINETTE, who has another possible name of "ANITA", MIKE GIOCONDO, MARTHA SHEMLEY and her boyfriend, GENE DIXON. He advised that SHEMLEY and DIXON were new faces at the meeting but that they were the same two individuals he observed earlier when he and MIKE GIOCONDO dropped JOHN GRADY off at the bus station in Camden.

MARTHA SHEMLEY is familiar to HARDY in that he has previously met her, the last time being in December 1970. He stated she is divorced and has a son by her previous marriage. She talks the talk of a street woman and freely uses four-letter words with no qualms. He described her as a little bit off the deep end and observed that perhaps she is emotionally unstable.

HARDY made the observation that she is the driving force in the relationship between her and GENE DIXON.

HARDY advised that DIXON volunteered to go with him into the draft board office next week to get the lay of the land. DIXON will accompany him on his first night of surveillance when they go on watch at 10 o'clock.

HARDY advised that GRADY and his group eat a community dinner at approximately 9 o'clock in the ANDERSON home. He stated that while they were eating GRADY received a telephone call from a person with the last name of MC BRIDE. He stated that this is the first time he has heard the name and did not pursue with GRADY the identity of MC BRIDE. GRADY took the telephone call personally and went into another room to talk with MC BRIDE. HARDY stated he was unable to hear what was said in the telephone conversation.

 SUB S

PH 52-7165-Sub S

HARDY advised that GRADY keeps a black notebook with a list of names in it and that at the time of this meeting it was laying on the dining room coffee table in a rather insecure way.

HARDY related that GRADY and the group for about the first two hours had a general discussion of the FBI surveillance on the Hi-Well, N. J., apartment complex where MARTHA SHEMLEY lives. He advised that the first consensus of opinion was that it was just a coincidental thing that someone was watching SHEMLEY's apartment. He stated that it was an assumption on the group's part that it was the FBI although they are not positive. The general discussion centered on the fact that eight to ten people were coming and going every night into SHEMLEY's apartment and that the neighbors became concerned over the amount of traffic and probably notified the police. He advised that one of the group, not recalled, had mentioned the fact that there was some kind of a leak before the incident at SHEMLEY's apartment. He further made the observation that there is no disharmony in the group and that JOHN GRADY tries to discourage disharmony or dissension in a gentle way.

HARDY advised that he has ascertained two more individuals who are involved in GRADY's group. They are PHIL KELLY, a religious from Sts. Peter and Paul in Camden, which is better known as "El Centro", and JOE MADDEN, another priest, both of whom apparently have dropped out of the group because they did not care for GRADY's ways and because MADDEN has an ulcer and does not have the stomach for this sort of thing.

HARDY advised that at about 10:30 p.m. Dr. ANDERSON paid a visit to the group. ANDERSON's support of GRADY is to the extent where he lets them use his house, car and, when needed, his office in Camden. He supplies small amounts of money and is the contact man for people coming into Camden from other areas. ANDERSON takes no physical part in the

PH 52-7165-Sub S

actual surveillance of the Post Office. HARDY described ANDERSON as a white male, 6'5" tall, 38 years of age, 200 pounds. ANDERSON appears to be in very good physical condition. ANDERSON is staying with his family at the shore for the summer at Sea Isle City, N. J. ANDERSON made the point while in HARDY's presence that he did not want people from "the movement" to come down to the shore and visit him. ANDERSON apparently is commuting from the shore to his Camden practice for the next ten days but that he will be taking the week after that off from his practice and will be staying full time with his family at Sea Isle City. ANDERSON, however, did stay at his home in Collingswood that night. ANDERSON drives a station wagon, make unknown, with New Jersey M.D. plates, the first three letters of which are "MD-C". The station wagon is light in color and could possibly be a Mercury.

HARDY related that at about 11 o'clock the girls prepared themselves for surveillance work at the Camden Post Office by changing into their street clothes. GRADY likewise changed his clothes. He, upon leaving the ANDERSON house, wore a dark jacket, sweater and trousers. At about the time they were changing into street clothes, Father MICHAEL DOYLE came in.

Father DOYLE and the two girls, COOKIE and ANTOINETTE, left at approximately 11:30 and were to proceed in DOYLE's car to the new Rutgers Law Building.

HARDY related that it was earlier decided that he was to familiarize himself with the different vantage points that have been previously established by GRADY's group in order to watch the Post Office. It was at this time that HARDY learned that last night the girls were unable to gain access to the roof of the new Rutgers Law School Building since locks have been put on the doors. Prior to the locks they simply took a piece of plywood off the doors and went up to the roof.

HARDY advised that before he left the ANDERSON home he was instructed to take a specific route which passes by the police garage or city garage, which is located behind the Sears store. He was instructed to be at the city garage at 12 midnight in order that he could check the civilian cars, black and white patrol cars, and unmarked police cars that are parked in the city lot. He stated this is not a good way to check to see how many cars are in action in view of the fact that he did not know how many were broken down and inoperable.

HARDY advised that he went by the police department, parked his truck across the street from the White Tower Restaurant on Market Street in front of the Parcai Building, and did about a half-hour stand on the street walking around the neighborhood just getting the feel of the surroundings so that he would not be ill at ease.

HARDY advised that GRADY parked in the Plaza Hotel parking lot. HARDY walked to meet GRADY and on the way picked up some coffee at the White Tower and said hello to a couple of people he knew who were in the restaurant. HARDY met GRADY in the Plaza Hotel parking lot and sat in the station wagon about 20 minutes while GRADY watched the traffic pattern and, in particular, watched for police patterns. HARDY noted that GRADY made no written notations but assumes that he made mental notes.

While sitting in the station wagon with GRADY, HARDY explained that GRADY began to talk of one of his past activities. GRADY stated that he was involved in the Trenton, N. J., draft board hit of a few months ago and that he helped organize it with people from Princeton. GRADY mentioned a girl by the name of MARIANNE, who is from Princeton. GRADY mentioned no other names but said the people at Princeton made the hit on the Trenton draft board.

PH 52-7165--Sub S

GRADY described these people as veterans of draft board hits. GRADY explained that everyone involved in this Camden action is new to this thing with the exception of PHIL KELLY and JOE MADDEN. GRADY did not go into any specific detail as to the involvement of MADDEN or KELLY in the Trenton action.

HARDY advised that he and GRADY, after a 20-minute period, left ANDERSON's station wagon in the parking lot and went to the alley behind the Post Office to get the feel of the alley. He explained this was done to lose any physical nervousness that one might have upon entering a strange area at night. HARDY explained he and GRADY walked down the alley, cut to the left into a little alley which is located behind the Brass Rail Restaurant, which is next to the Post Office building. They paused for a little while in this alley and observed the fire escape which is attached to the Post Office building. GRADY discussed with him how his group was going to bypass the alarm system on the fire escape. GRADY related to HARDY that he was there yesterday during the light hours and that he noticed that a wire runs along the wall to the fire escape. GRADY, at this time, seemed to think that the alarm was a fire-type alarm and not a burglar alarm, assuming that when it is pulled down, the alarm will go off.

HARDY and GRADY then left the alley behind the Brass Rail Restaurant and proceeded back towards the alley behind the Post Office where there is another little alley which goes behind an abandoned building that is closed up. This building is located on 5th Street. At this time GRADY stated that he has spent many hours in this building just watching the platform to see what time the employees usually come and go.

PH 52-7165-Sub S

HARDY explained that this little alley is a local hangout and haven for all the wineheads in the area. He explained that this is the spot that GRADY and his group will drop a 12-foot or 14-foot ladder a couple days before the hit in case they have to work their way around using the fire escape. He explained the original intention was to brace the fire escape steps. They then intend to put a ladder against it and the building so that they can just walk across it rather than pull the fire escape down and set off the alarm.

HARDY advised that a little later it was suggested by someone whom he does not recall that the group play basketball in the churchyard across the street and throw a basketball on the roof. They then intend to go inside the building and ask the guard if he could somehow get up on the roof so that they can retrieve their basketball. HARDY stated the reasoning behind this plan is that the guard will have to turn off the alarm before the fire escape steps can be pulled down. It was therefore decided that this coming Sunday night there will be a basketball game at about 8 o'clock. The participants will be GENE DIXON, JOHN GRADY, MICHAEL DOYLE and HARDY and probably two other men.

HARDY further related that after checking out the alleys, he and GRADY went back to the station wagon, crossed the driveway behind the Post Office, drove through the basketball courts behind the Methodist church on Cooper Street, and then proceeded around to check out where GRADY wants his security cars parked so that they can watch Cooper Street and 5th Street for the approach of police patrols.

HARDY advised that there will probably be someone in a car sitting on 5th and Cooper Streets on the north side of Cooper facing down 5th. He explained that in this way the person can watch Cooper Street both ways and look straight down 5th. GRADY is also thinking about putting

PH 52-7165-Sub S

another car down at 3rd and Cooper Streets so that the person can watch the traffic coming up 3rd Street towards Cooper. This is a main route. GRADY is also thinking of putting another lookout on Market Street in order that the lookout can see City Hall Police Station and most likely another lookout in the vicinity of the White Tower Restaurant. GRADY advised all in all they are going to have one on Market Street, one or two on Central between Market or possibly between the White Tower and the police department, plus the various lookouts on Cooper Street.

HARDY advised that the means of communication will be by a series of flashlight signals. GRADY figures that no one will pay too much attention to a light flashing for a split second. There will be other lookouts who are some of POPPI SHARPE's blacks. SHARPE will supply some of his people on points that are located further out on such vantage points as Federal Street and possibly Broadway. The flashing light signals will be used to relay messages.

HARDY then related that he and GRADY then went up to the roof of the Townhouse Apartments. He explained that there is a lock on the door but that it can be opened with nothing more than a plastic chargeplate or credit card. By using the card it simply pops the lock. HARDY noted that security is very poor in the apartment building. He and GRADY then took the elevator to the 5th floor and stated that one cannot ride the elevator to the 6th floor. In order to get to the roof, one must get off at the 5th floor and then walk upstairs to the roof.

HARDY then advised that a person he previously mentioned by the name of KEN was at one time a resident of the Townhouse Apartments. KEN, at one time, was approached by MIKE GIOCONDO to use his apartment on the 5th floor. KEN apparently let GRADY and his group use his apartment on one occasion; but, later when asked to join the group, KEN turned them down cold. HARDY advised he did not know KEN's

PH 52-7165-Sub S

apartment number but that a short time later, after being approached, he moved across the street. The reason given was that the rent was too expensive in the Townhouse and he could get a cheaper apartment across the street. HARDY advised that KBN is an employee of Legal Services.

Once on top of the Townhouse Apartments' roof, GRADY pointed out to HARDY the route of the night watchman. After about 10 minutes of observing the building, the first light went on on the second floor of the 5th Street wing. As the night went on, GRADY told HARDY what the watchman's route would be. HARDY related that the group is primarily interested in the watchman's pattern as he goes from floor to floor and across the floors.

HARDY stated that GRADY wants to watch the watchman's pattern and make sure he does not vary from it. GRADY times the watchman to see how long it takes him to go from floor to floor. GRADY and the group watch the illumination on the 5th Street wing which comes through the window as the lights are popped on in the main building.

At approximately 1:10 a.m., MICHAEL DOYLE came up to the roof and went back to the far end of the building to watch. At this point GRADY took HARDY around to the Cooper Street side of the elevator shaft and started to explain the pattern that this night watchman follows in order to familiarize HARDY with the whole situation.

In passing the time away, HARDY and GRADY spend about a half hour of heavy conversation regarding GRADY's activities over the past couple of years. GRADY advised that he was involved in the Chicago draft board thing. He was involved in the New York draft board action of approximately a few years ago. GRADY stated that one of the New York actions was successful and that the other one was not. GRADY stated that he went from New York City to

9
Jamaica, N.Y., and while he was there he was involved in another draft board action. GRADY then began to speak of the Philadelphia action, stating that he was involved in four hits in Philadelphia. At the time GRADY was involved in the Philadelphia actions, he stated he was talking with his people about Camden. It was at this time that GRADY said the FBI office in Media was unguarded and that the files were there in sort of a home-type atmosphere. He implied that it was very simple. GRADY did not mention any names involved in the Media FBI office burglary.

HARDY made the observation that because GRADY seemed to have so much detailed knowledge of the Media burglary, he thought GRADY was involved in the Media action. GRADY went on in his conversation to take credit for organizing these draft board hits which have occurred in the last three years.

GRADY stated that he took the East Coast Conspiracy to Save Lives and turned it from the jail sentence martyr action into a positive strike force.

HARDY made the observation from talking with GRADY that the East Coast Conspiracy to Save Lives is not a very tight group but is loosely organized and that the members of the group feel a very close loyalty to each other.

GRADY mentioned the BERRIGAN brothers and said something about some letters that PHIL BERRIGAN had written to a nun who supposedly is very close to this group. He said something about the letters being released and that the letters were really not very important, stating that they were very mild. GRADY implied that the effect of the letters was a big hot sensational thing, the kind of thing that appears in the dirty writings such as found in The National Enquirer. GRADY characterized this as the big

love letters that will sell a lot of papers. HARDY further observed that from the way GRADY talked he has been in contact with the BERRIGAN brothers or their lawyers off and on in the past six months.

GRADY then changed the topic of conversation to the possibility of hitting the Army Intelligence Office on the fourth floor in order to grab some of their personal records. GRADY seemed particularly interested in knowing if Army Intelligence keeps files on people like HARDY or other people in GRADY's group.

HARDY stated that he then tried to question GRADY as to his thinking about who is slated to go into the draft board. HARDY commented that it used to be thought that the Indians are expendable but that the chiefs have to be saved. GRADY answered this by saying that he does not buy that theory, but HARDY immediately got the impression that when the actual break-in occurs, GRADY will be far from the Post Office in a vantage point where he can successfully get away. GRADY then asked HARDY what his feelings were on going into the draft board himself, to which HARDY replied that he told GRADY to drop dead, that he was not an Indian but a chief. GRADY answered by saying, "I understand what you're saying".

HARDY advised that one of their main problems that he has been able to ascertain from the group is that they do not know of the exact location of the 1-A classification files and how many files there are. The present plan is to carry out all the 1-A files they can and, through some sort of symbolic gesture, destroy the remaining files. HARDY advised that from all indications the hit will occur on a Sunday night and that it is several weeks away. He stated that it will most likely occur between the hours of 12 midnight and approximately 4 a.m.

PH 52-7165-Sub S
//

HARDY related that while he was on the rooftop with GRADY, GRADY started to press him for supplying some of the equipment and information that he, GRADY, had earlier asked for. At this time GRADY stated that he wanted HARDY to go into the draft board office and get a more detailed floor plan of where the L-A files are located. GRADY also wanted him to acquire some walkie-talkies. GRADY approached him for some money, stating that he would need more money now that his wife and five children are coming down on Sunday afternoon. HARDY explained he was not sure if GRADY wanted him to go up to East Orange, N. J., to pick up GRADY's wife and family.

HARDY then explained that the pay telephone that he previously reported as being used by GRADY's group in ANDERSON's neighborhood sits on the corner of Harding Avenue between Harding and Gilfoil Avenues.

At this point HARDY commented on ANTOINETTE. He advised that ANTOINETTE is also called "ANITA" and that both ANTOINETTE and COOKIE are from South Philadelphia. He related an incident which occurred last night, at which time he asked ANTOINETTE for a glass of cold water. She was at that time in the kitchen doing dishes. He jokingly said that this was great because he is lost in the kitchen and that his wife usually does everything for him. ANTOINETTE answered by turning around sharply and telling him to remember one thing, "I'm doing this because I do it, not because I'm a woman." HARDY offered the observation that he had trespassed on women's liberation.

HARDY went on to relate that MIKE GIOCONDO is now staying at Dr. ANDERSON's home and that the group will be getting together tonight, tomorrow and Sunday night and that some new people will be present. The general impression that HARDY got was that larger meetings will take place and that GRADY feels it is necessary to include everybody involved in the planning sessions.

PH 52-7165-Sub S

12

HARDY advised that at about 1:30 a.m. he left the roof of the Townhouse Apartments, went down to Cooper Street and over to 4th Street. He then went down 4th Street over to Market, up Market Street to the White Tower and picked up his truck and went home.

HARDY desired to relate something which he thought was of particular importance concerning his conversations with GRADY while they were both in the alley behind the Post Office. He stated GRADY toyed with the idea of utilizing his, HARDY's, truck right below the fire escape so that when the people came out they could bring the files with them and, without being noticed, immediately get into the truck and depart the area. GRADY pointed out to him that on Sunday nights the platform lights are turned off, and GRADY felt that it would be a simple maneuver to get into the building provided the alarm system on the fire escape was taken care of.

FEDERAL BUREAU OF INVESTIGATION

Date July 9, 1971

ROBERT WILLIAM HARDY furnished the following information:

On Friday evening, July 2, 1971, he went to the residence of Dr. ANDERSON, located on Harding Avenue, Collingswood, N.J., arriving at approximately 8:45 p.m. Upon his arrival he noted that JOHN GRADY, COOKIE, ANTOINETTE, also known as Anita, MARTHA SHEMLEY and GENE DIXON were eating dinner. He joined them for dinner and after dinner a meeting took place.

In addition to those mentioned above, there were two new visitors to the ANDERSON residence on that night. Their names were GEORGE and LOUISE SLATER or SLATERY. He noted that upon the arrival of the SLATERS, all conversation with regard to the draft board hit ceased. He learned that the SLATERS are from Camden and are part of a Catholic Laymen's Association. When he left the meeting, he noted a Ford or Mercury station wagon which he had never seen at the ANDERSON residence before. He assumed that this vehicle belonged to the SLATERS. He noted the license number to be DEX-981 (New Jersey).

Before the arrival of the SLATERS, discussion had centered upon how GENE DIXON and he would go to the draft board in Camden on Tuesday or Wednesday afternoon for the purpose of gaining information as to the layout of the draft board. They had discussed what type of approach would be used in gaining entrance to the draft board and in talking with the members of the board.

At the meeting JOHN GRADY stated that the target date for the hit would be on a Sunday evening within the next three weeks.

HARDY learned that GENE DIXON is employed as a supervisor with Budd Company, Philadelphia, Pa., and that he is separated from his wife and has five children.

2

DIXON, on Wednesday evenings and often on Saturday afternoons, visits his children. DIXON is MARTHA SHEMLEY's boyfriend.

During the meeting a plan was discussed by which they could possibly learn of the alarm systems connected to the fire escape behind the U. S. Post Office Building. The plan called for JOHN GRADY, GENE DIXON, possibly MICHAEL DOYLE, and HARDY to go to the basketball courts behind the Post Office at 8 o'clock on the coming Sunday night and play basketball. The plan called for one of them to throw the basketball onto the roof of the Post Office Building and then for one of them to ask the guard if they could go onto the roof to get the basketball. In doing this they were hopeful that the guard would relate to them some information regarding the alarm system on the fire escape, possibly even mention where he would have to go in order to turn off the alarm system.

It was HARDY's impression, due to the fact that discussion of the plan ceased when the SLATERS arrived, that the SLATERS were not going to be involved in the draft board hit.

At about 10:30 p.m. HARDY said to GRADY that he did not feel he could be of anymore use on that night and that he would be leaving. He asked GRADY what his plans were for the evening. GRADY said that he and the rest of the group would be going down to Camden for their normal nightly watch routine, which would include observing the police station, the police garage, as well as observations from the roof of the Townhouse Apartments of the U. S. Post Office Building. GRADY then walked HARDY to his (HARDY's) vehicle where they sat and talked for about an hour.

During this conversation GRADY questioned him concerning his feelings of the people in the group because he (GRADY) was trying to decide who the informer within the group was. GRADY said to him that he felt that KEN MISNER, who had had an apartment at the Townhouse Apartments in Camden, could possibly be the informer. MISNER, who works

for Legal Services in Camden, was, according to GRADY, approached with regard to participation in the draft board hit. MISNER, however, was "completely turned off by everything" and indicated he did not want to be involved. GRADY stated that he is aware that MISNER had gone to his supervisor at Legal Services, PETE O'CONNOR. GRADY was aware of this because he was so told by MICHAEL GIOCONDO. However, neither GRADY nor GIOCONDO were aware as to whether or not MISNER went any further with the information.

GRADY said to HARDY that he had anticipated that the hit would have already been accomplished by this time and that he had not anticipated the inefficiency of the group. GRADY related to him that at this point, however, he was very enthusiastic about the plan. GRADY asked HARDY his opinion of the people because HARDY had known many of these people longer than GRADY had.

GRADY indicated to HARDY that he would bring in people from the outside, who are veterans at this sort of thing, to take part in the hit. GRADY, however, did not name these people at that time. GRADY told HARDY that he wanted him to drill the glass and pop open the window and "stuff like this". GRADY also indicated to him that he thought that he (HARDY) was sharp and desired that he continue working with GRADY after the hit. GRADY indicated to him that he was confident of being successful in the draft board hit because he had "pulled off" so many of them before. GRADY emphasized to him that he could use a man like him in his organization.

HARDY advised that he had seen GRADY's notebook again on that evening at Dr. ANDERSON's residence.

GRADY told HARDY how he had "opened pockets of resistance" to get the government to "wake up and realize that there are a lot of semi-professional and professional people in the country who are unhappy with the way things are."

GRADY indicated that the group would check the patterns of the police and the guard at the Post Office for the next two Sundays and on the third Sunday actually make the hit. GRADY indicated to HARDY that he believes the fire escape in the rear of the Post Office Building is alarmed. GRADY, however, is not completely sure of this, which is the reason for the basketball game and throwing the basketball onto the roof.

HARDY further related that while talking to GENE DIXON last night, DIXON seemed to have a lot of knowledge of the Princeton-Trenton draft board hit several months ago. DIXON indicated that he and MARTHA SHEMLEY did some observation work related to that hit. DIXON further related to HARDY that the draft board in Trenton was similar to the situation in Media where it was more or less an apartment type dwelling where it was natural for people to be coming and going. DIXON also related that there were no alarms at the Trenton draft board. GRADY indicated that he has more or less set the pace for this sort of thing (draft board break-ins) for the past two and a half years.

FEDERAL BUREAU OF INVESTIGATION

Date 7/7/71

ROBERT WILLIAM HARDY furnished the following information:

On July 3, 1971, he went to the residence of Doctor ANDERSON in Collingswood, N.J., for a meeting. When he arrived JOHN GRADY and his associates were not at the residence and MIKE GIOCONDO was at the residence taking a bath. He was able to gain access to the little black book which JOHN GRADY usually keeps in his possession. He noted several names which were listed in this little black book. One name was CALLAHAN. Another name was SUE BUCK. A third name was RUTH KRAUSE. A fourth name was DAVE FRANCES, who he believes to be a priest or an ex-priest. A fifth name was IRA KATZ. He explained that IRA KATZ works for Legal Services in Camden, N.J. He understands that KATZ was supposedly the first person to assemble all of the information as it comes in and tries to make a pattern out of this information. HARDY has not seen IRA KATZ since the week during which he had been involved with the group.

He also took notice of a box which was full of maps and notes which was kept in the children's television room. He also noted that Doctor ANDERSON's telephone number was 858-2923 which is an unlisted number.

He learned that COOKIE's name is KATHLEEN RIDDLES and that she lives at 540 Sigel Street, Philadelphia, Pa. COOKIE is a former Temple University student and had worked at the Resistance Book Store along with ANTOINETTE who is also known as Anita.

He talked with GIOCONDO asking him what background information he knew with regard to JOHN GRADY. GIOCONDO told him that GRADY has 11 credited draft board hits to his record, in which he has been involved either as an initiator or as a coordinator. GIOCONDO mentioned GRADY has been involved in draft board hits in Paterson, N.J.,

On 7/4/71 at Cherry Hill, N.J. File # Philadelphia 52-7165
 by SAS. TERRENCE P. NEIST and MICHAEL M. RYMAN TPN:pep Date dictated 7/6/71 SUB S

2

and Elizabeth, N.J. GIOCONDO mentioned that it was the Hoover Vacuum Committee that was responsible for the Paterson and Elizabeth, N.J., hits. GIOCONDO further related to him that GRADY had told him, GIOCONDO, that he has plenty of second hand information from his Philadelphia contacts with regard to the hit at the FBI Office, Media, Pa.

GIOCONDO further related to HARDY that the Philadelphia contacts have been in touch with COOKIE while they were staying at MARTHA SHEMLEY's house in Hi-Nella, N.J., where they were staying up until a month ago.

While conversing with GIOCONDO, JOHN GRADY, COOKIE, and ANTOINETTE, also known as Anita, returned from shopping. As they were unloading the groceries he asked COOKIE if they were concerned about the possibility of getting caught doing their shoplifting. COOKIE told him that she and ANTOINETTE had gotten caught the other day but there were no problems since they do not prosecute shoplifters any more. COOKIE explained that when they are caught they are able to talk their way out of the situation.

Shortly thereafter Father MICHAEL DOYLE came to the residence. During the discussion that followed HARDY learned that Father MICHAEL DOYLE, GENE DIXON, and MARTHA SHEMLEY were involved in a break-in in the Princeton - Trenton, N.J., area. He also learned Father MICHAEL DOYLE had been involved in this type of thing for about six months. He learned that about a year ago members of the group were in Philadelphia doing observation work and were asked if they would consider Camden as a target. Shortly thereafter they went to Camden and did some observation work for a few days and decided that it would be an easy hit. He explained that it was his impression that this is how the group first became acquainted with JOHN GRADY. It was around that time that GRADY came into the Camden area and was put into touch with MIKE GIOCONDO and MEL MADDEN, who is the brother of Father JOE MADDEN, who is a parish priest at Saint Peter and Paul's Church in Camden, N.J. MEL MADDEN is MIKE GIOCONDO's supervisor in a New Jersey state drug program which is headquartered in Trenton, N.J. From the conversation it was apparent that MEL MADDEN has been involved in some of the draft board hits in the North Jersey area. From the conversation he also learned that MADDEN lives in an apartment house in either Union City or Trenton, N.J.

The group laid out a street map which included the area around the U.S. Post Office in Camden, N.J. The hit is set for three Sundays from now. On the night of July 3, 1971, a meeting will be held at the residence of Doctor ANDERSON in Collingswood, N.J., at 7:00 p.m., at which time plans will be made with regard to the positions that the various members will assume on the actual night of the hit. Plans also called for intense observations within the next eight days from approximately 10:00 p.m., until 3:00 a.m. The purpose of these observations will be to determine information with regard to the police patterns and the patterns of the work crew, and the watchman at the Post Office Building.

HARDY and one other person will be situated at the corner of Fourth and Market Streets between Fourth and Third Streets, so that they can look out the rear window of HARDY's van and observe the light patterns on the windows as the watchman makes his nightly rounds. Three people will be on the roof of the Townhouse Apartments doing observations from that position. Another car will be stationed at Fifth and Cooper Streets on the northwest corner observing Fifth Street and Cooper Street with regard to the police and traffic patterns. Plans also call for a car to be located at Fourth and Cooper Streets observing police car patterns in that area. Plans also call for a person to be located on the roof of the Parkade Building, observing the traffic and police patterns in the vicinity of City Hall and along Market Street. At this point it is not determined as to how many people will actually be involved.

GRADY mentioned that his family would be coming in on that day by car and that they would get off at Exit Four on the New Jersey Turnpike and at that point run a pattern to see if Mrs. GRADY had been followed from the Bronx. A car driven by GIOCONDO or DIXON will be watching Mrs. GRADY to see if she has been followed.

GRADY said that he had a good friend in Rochester, N.Y., who is a dentist by the name of Doctor GEORGE MC VEY who provides money and supports him at times. According to GRADY, MC VEY has provided money to GRADY's family for rent, etc., when GRADY is away from home. GRADY bragged that his whole family was very active and that they can survive without having to worry a great deal about money.

HARDY noted that they had brought in about \$40.00 worth of groceries with a receipt for only \$10.00, indicating that they had stolen about \$30.00 worth of groceries. GRADY also referred to a hit at Dow Chemical at a location unknown to him when some tapes from computers were erased. GRADY indicated that the priest that was involved in this was picked up by the FBI but is now back living with his people in the country. GRADY mentioned that this priest was Father JOHN PEPITRONI.

GRADY mentioned that he would not be involved in the actual break-in of the Post Office but that he would be working from one of the vantage points. GRADY has indicated that he would probably be on the apartment house roof or on one of the lookout cars.

The group uses the pay telephone near Doctor ANDERSON's house for all incoming calls from GRADY's wife. GRADY's wife has a couple of phony credit cards that she uses in making these telephone calls. The group is beginning to feel more secure, however, and they have started calling in on the doctor's phone.

It was HARDY's impression that MICHAEL DOYLE, JOHN GRADY and most of the people in the group have been involved in similar activities throughout the state.

In referring to slides HARDY mentioned that GIOCONDO has not been able to locate these slides as yet but that MARTHA SHELLEY and GENE DIXON have them somewhere and that they will soon bring them to Doctor ANDERSON's residence.

HARDY mentioned that the group has possession of street maps which they use for familiarization with the area. Sketches have also been drawn with regards to the floor plans of the Post Office Building. The group has diagrams and extensive notes which they make during their nightly surveillances. They have developed a filing system that is kept in a cardboard box. This box is kept in the children's television room which is located off the main dining room.

PH 52-7165 SUB S

5
HARDY learned that GRADY had made several telephone calls to POPPI SHARP. He does not at this time, however, know the extent of POPPI SHARP's involvement in this matter.

No plans have been made as yet as to what will be done with the files once they are removed from the draft board. GRADY desires to first learn how many 1-A classifications there are before making this decision. GRADY desires that about five people go into the draft board and that each will have a shoulder type tote bag which they could use to carry out files.

Plans call for HARDY to drive his van truck up the alley so that those who go into the draft board could come down from the fire escape and enter his truck for the getaway. Plans could also possibly call for him to have his van parked right below the fire escape. Plans also call for a car being available in case the police will come up fourth street. This car would then swing in front of the alley, blocking it temporarily while they got the van onto the street and up Fifth Street. Then they will probably go south on Cooper Street.

GRADY has indicated that they will use his, HARDY's, van for the purpose of hauling away the files that are taken from the draft board.

FEDERAL BUREAU OF INVESTIGATION

Date July 13, 1971

ROBERT WILLIAM HARDY telephonically contacted SAs NEIST and RYMAN and advised as follows:

On July 4, 1971, he went to the residence of Dr. WILLIAM ANDERSON, Collingswood, N. J., arriving at 7:00 p.m. No one was at the residence at that time, and he later learned that the reason for this was that Mrs. GRADY and the GRADY family were late in arriving from New York City. It was HARDY's impression that the vehicle driven from New York by Mrs. GRADY was possibly stolen because he was asked by GRADY to obtain New Jersey license plates for the car so that it would not draw suspicion when in the driveway of Dr. ANDERSON's residence.

After GRADY's arrival a meeting took place. Present at the meeting were JOHN GRADY, MIKE GIOCONDO, COOKIE, ANTOINETTE, also known as Anita, GENE DIXON, MARTHA SHEMLEY and Father MICHAEL DOYLE. During the meeting plans were made with regard to hitting the draft board located at the Camden Post Office. The date of the hit was set for July 18th. GRADY indicated that on the night of the hit he will be located on the roof of the Townhouse Apartments from where he will handle the communications for the group. GRADY has indicated that two other people (not as yet designated) will be with him on the roof of the Townhouse Apartments. GRADY has indicated to him that at least five people will be going into the draft board.

GRADY desires that he, HARDY, go to the draft board on the coming Wednesday afternoon in order to obtain some idea as to where the 1-A draft records are kept. According to plans, GRADY has designated HARDY to be on the street in his van, to act as a pickup unit for the people who make the hit as they come from the Post Office into the alley. GRADY has indicated that the plans call for them to carry out as many of the files as they can by means of knapsacks which they will have on their backs.

2

GRADY has indicated to him that he wants to have walkie-talkies for use on the night of the hit and that the group will gain entry to the draft board by using a portable drill to drill through the glass windows of the draft board.

The group left the residence of Dr. ANDERSON at about 11:30 p.m. and went to their different positions within the Camden Post Office area. It was decided by GRADY that the hit will be made after midnight and that the group would consist of at least 18 people.

Upon his arrival at ANDERSON's residence that night, HARDY noted that there was a key to a car with a tag on it. The license number on this tag was PWF-936. There was also a telephone number on this tag, which was 963-4386. HARDY also saw a note which was apparently written by COOKIE wherein she had written that on July 2nd three white males were observed in a green car which passed Dr. ANDERSON's residence and that the car bore Pennsylvania license with the first three numbers being "926". At this point HARDY pointed out that he has learned that COOKIE sits on the front porch of Dr. ANDERSON's residence during the day and jots down license numbers of any cars which pass by and appear suspicious to her.

The surveillances which they conducted in the area of the Camden Post Office were terminated at approximately 3:45 a.m. The group left the Camden area in groups of one or two at a time. COOKIE and ANTOINETTE spent Sunday at their mothers' homes in South Philadelphia. ANTOINETTE had mentioned to him that about a month ago the FBI had visited both their homes trying to get information from their mothers.

HARDY indicated that his plans now call for COOKIE, ANTOINETTE and GENE DIXON to actually go into the draft board office. Plans call for MIKE GIOCONDO and Father MICHAEL DOYLE to be on the street as lookouts and for HARDY to be in his truck as a lookout.

While on the roof of the Townhouse Apartments conducting his surveillances with ANTOINETTE, she related to him that she had gotten involved in this sort of thing through a friend of hers who was involved in it. She mentioned that she and her friend (whom she did not identify) had done observation work in connection with prior hits. ANTOINETTE mentioned that this friend of hers was involved in the East Coast Conspiracy to Save Lives. She mentioned that she first became involved because of her friendship with this person; but, after three or four months of involvement, she began feeling a need to go further. She mentioned that if necessary she would go to jail for this cause. The surveillances, which are conducted from the rooftop, are conducted every night until 3:00 a.m. and the purpose of these surveillances is to determine the patterns of vehicles and the positions of people. They make note of the routine of the guard at the Post Office Building and also of the police patrol cars.

HARDY related that at the meeting last night the group sat down with a map and started initiating a detailed plan as to the various positions, the lookouts, the number of walkie-talkies, and the number of vehicles, etc.

On that night HARDY parked his van at 12:05 a.m. at 4th and Market Streets on the northeast corner. ANTOINETTE was in the van with him observing the police patterns on Market Street. After he parked the van, he got out and walked over to 4th and Cooper Streets in order to observe the police patterns at 4th and Cooper Streets.

PH 52-7165-Sub S

MIKE GIOCONDO was at 5th and Cooper Streets, kitty-corner from the Plaza Hotel, observing the 5th Street and Cooper Street traffic patterns.

GENE DIXON and MARTHA SHEMLEY were in the alley behind the Post Office Building, behind the boarded-up apartment house (located on 5th Street).

The plans called for Father MICHAEL DOYLE, COOKIE and JOHN GRADY to be on the roof of the Townhouse Apartments. GRADY will run the communications of the operation from that point.

GRADY's wife and five children are now staying with him at the residence of Dr. ANDERSON, Collingswood, N.J. GRADY's son is about 10 years of age and is named JOHN. He has three younger girls, ages approximately 8, 6 and 5 years.

GRADY mentioned that plans call for the possibility of POPPI SHARPE, leader of the Black Peoples Unity Movement, to have one of his blacks throw a firebomb at the tank located in front of the Army Reserve Center, Camden, N.J. This would, according to GRADY, serve as a good diversionary tactic drawing police department and fire department units away from downtown Camden and to the area of the Army Reserve Center.

The group has expressed concern as to how the FBI located them in Hi-Nella. They feel, however, that KEN MISNER, is probably the person who tipped off the authorities as to the meetings in Hi-Nella.

GRADY had mentioned that Dr. MC VEY from Rochester, N. Y., is a supplier of money and a contact for the Rochester, N. Y., area. It was also mentioned that MIKE GIOCONDO was in the New York area visiting his parents recently and, during this period of time, spent two days with Dr. MC VEY.

PH 52-7165-Sub S

5

GRADY has suggested that GENE DIXON and HARDY go to the draft board in Camden on the coming Wednesday afternoon in order to gain further information with regard to the floor plan and location of the files.

The notes that are made by the group during their surveillances are saved and are kept in the children's TV room at Dr. ANDERSON's residence.

FEDERAL BUREAU OF INVESTIGATION

Date 7/15/71

ROBERT WILLIAM HARDY telephonically contacted SAs TERRENCE P. NEIST and MICHAEL M. RYMAN and advised as follows:

On July 5, 1971, he went to the residence of Dr. WILLIAM ANDERSON, Collingswood, N. J. for a meeting. Before going to the meeting, he picked up MIKE GIOCONDO at his, GIOCONDO's, apartment, located at 3rd and Cooper Streets, Camden, N. J. Present at the meeting were JOHN GRADY, COOKIE, ANTOINETTE, also known as Anita, GENE DIXON, and MARTHA SHEMLEY. The group sat around the dining room table with their street maps, trying to pick out a corner where they could go on Sunday night for the purpose of watching the Post Office building.

The meeting ended at about 10:45 p.m., at which time members of the group went to downtown Camden to conduct surveillances of the Post Office. At about 11:10 p.m., MIKE GIOCONDO, ANTOINETTE, and he entered his truck and drove to Camden, parking at 4th and Market Streets. GIOCONDO and he then departed the truck and observed traffic patterns on Market Street. They walked by the U. S. Post Office and had a brief exchange with the General Service Administration (GSA) guard, who mentioned that he was waiting for his relief. He then left GIOCONDO and went to the Town House Apartments. He entered in the same manner by which the group always enters the apartment, that is, by using a credit card to spring open the lock. He met MARTHA SHEMLEY on the roof of the Town House Apartments and conversed with her. SHEMLEY told him that she, SHEMLEY, Father MICHAEL DOYLE, and JOHN GRADY worked on the "Trenton thing" (Trenton draft board hit). She mentioned that a ROBERT MENDINIO helped with the observations which were conducted prior to the Trenton draft board hit. She mentioned that MENDINIO is a student at Rutgers University, and that he, MENDINIO, was originally involved in the proposed Camden draft board hit; however, due to mutual agreement between he and GRADY, MENDINIO has dropped out of the group planning

On 7/6/71 at Hill-Kella, N. J. File # Philadelphia 52-7165-Sub S

by MICHAEL M. RYMAN TPN:caq Date dictated 7/12/71

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

the Camden hit. SHEMLEY also mentioned a man named KIRK, who is an accredited Philadelphia locksmith. SHEMLEY mentioned that KIRK has given instructions to the group with regard to "lock picking."

On that night, GENE DIXON surveilled from both the position in the alley at the U. S. Post Office and one of the positions on the roof of the Town House Apartments. HARDY explained that the group rotates their positions every 30 to 45 minutes. After about one half hour on the roof, JOHN GRADY came to the roof. He, HARDY, spoke with GRADY for about 20 minutes. GRADY mentioned to him that he, GRADY, was the "pro of the group." GRADY stated that he was involved in 14 of 18 actual draft board hits.

At about 1:45 a.m., GENE DIXON, MARTHA SHEMLEY, and he, HARDY, departed the roof of the Town House Apartments. DIXON and SHEMLEY walked to the alley behind the Post Office Building and he walked from the street to a playground area in the rear of the Post Office. All members of the group conducted their surveillances for the purpose of determining the routine of the guard and the traffic patterns in the area of the Post Office.

Shortly thereafter, they met at GENE DIXON's apartment, located at 5th and Penn Streets, Camden, N. J.

During the evening, GRADY gave to him the license numbers of cars that had been noted by the members of the group. GRADY told him that he desired that he have a license check on these cars to determine the owners. GRADY indicated that he and members of the group felt that these cars were possibly federal cars which were surveilling them. One license number was PXB-521, and another was SYX-389. Another car was one bearing license number UXF-411. All cars bore New Jersey license plates. GRADY had mentioned two of the cars were observed in the area nearby Dr. ANDERSON's residence, and one of them was noted by MIKE GIOCONDO in the vicinity of his, GRADY's, apartment.

HARDY advised that GRADY has mentioned that surveillance, on the night of the hit, will be initiated at about midnight.

The plans at present call for COOKIE to be one of those who go into the draft board on the night of the hit. Plans also call for the group to carry bags into the draft board and to put as many 1-A classifications files into these bags as possible. They intend to destroy those files which they cannot carry with them. As they leave the draft board, they will go to the truck in the alley.

GRADY mentioned to him that they cut a door in half in order to gain entry to a draft board that they hit on South Broad Street in Philadelphia. GRADY mentioned that in this hit, they obtained eight bags full of draft records. GRADY mentioned that the group making the hit had to wait for 18 minutes before they could leave, due to the location of the guard. When they did leave, they simply walked down the stairs and walked out the door of the building, carrying the bags of draft records with them. There were cars waiting outside the draft board which they used for their exit.

It was also mentioned during the last evening that KIRK, the locksmith from Philadelphia, had left a set of tools at MARTHA SHEMLEY's residence, Hi-Nella, N. J., and GENE DIXON's apartment at 5th and Penn Streets, Camden, N. J. It was also mentioned that KIRK had left some hand-written instructions, along with the tools so that members of the group could practice using the tools.

FEDERAL BUREAU OF INVESTIGATION

Date 7/15/71

ROBERT WILLIAM HARDY furnished the following information:

HARDY advised that he remembered something that he wanted to report which he had forgot to report yesterday. HARDY advised that two more names were mentioned by GRADY as, in HARDY's opinion, current sympathizers or in some way helping GRADY in his activities. Their names are MAUD and TOM O'DELL. These people live in Hi-Nella, N.J. GRADY mentioned that in case his group needed to rent a truck or U-haul, these people would do it, and he implied from GRADY's comments about the O'DELLS that they were a source of possible income.

HARDY advised that last night, July 6, 1971, he received a telephone call from MIKE GIOCONDO. JOHN GRADY had called him and asked him to come out a little bit earlier than when the group normally meets. GRADY stated to MIKE that he wanted to go over some slides and plans and to prepare GENE DIXON and HARDY for their entrance into the draft board this afternoon for the purpose of gathering more information.

HARDY advised, GIOCONDO picked him up at 8:30 p.m. and they went directly to Dr. ANDERSON's house in Collingswood, N.J., arriving at about 9 p.m. HARDY advised upon arriving, those present were GENE DIXON, COOKIE, ANTOINETTE, GRADY, MIKE GIOCONDO, and himself.

HARDY advised that Mrs GRADY retires to the upstairs bedrooms when the meetings commence.

HARDY advised shortly after Mrs. GRADY retired to the upstairs bedrooms, COOKIE and ANTOINETTE were drawing a pencil sketch of the back of the Post Office and were

On 7/5/71 at Hi-Nella, N.J. File # Philadelphia 52-7165 Sub S
 by SAs MICHAEL M. RYLAND
TERRENCE P. NEIST TMR:pad Date dictated 7/12/71

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

labeling all windows that they knew to be lined up with certain Government offices in the building.

Shortly after this, HARDY advised MIKE GIOCONDO set up a slide projector which he had borrowed from a mutual friend of theirs, a JOHN HENRY, who lives on South 5th Street across from the Cooper Hospital. HENRY used to be employed as the station manager for a Camden radio station. He has since quit his job and is one of those "underground characters of the city". HARDY made the observation that HENRY is not involved in GRADY's group, but that he merely loaned his projector to GRADY not knowing what its use was to be.

HARDY related that the group spent about an hour and a half watching slides and discussing the different rooms and windows of the Camden Post Office. It was at this time he noted that the group was somewhat nervous about the alarm system on the fire escape and the problem of getting from the roof to the fire escape without setting off the alarm.

HARDY advised that after viewing the slides, GENE DIXON engaged him in a conversation relating to the proposed visit by DIXON and HARDY to the draft board and that tentative arrangements were made to meet at the White Tower at 3 p.m. this afternoon. The plan was then to go to the Post Office and visit the draft board. HARDY advised that one of the things that they were instructed to find out while in the draft board is the physical geography of the front as far as the alarm system and fire escape is concerned. He noted that GRADY's group is only interested in the 1A classifications. One of the other things that they are to definitely observe is the location of the watchman's key. HARDY again related that they were instructed to check and see if there were any alarms on the doors and windows and to check the name on the filing cabinets so that GRADY could know the type of lock on the cabinets. He noted that there is a possibility that GRADY's group could obtain a master key from KIRK, a fellow in Philadelphia. They were also instructed to look for power sources in case the group that goes into the draft board decides to take electric drills.

HARDY advised that his second main objective, along with DIXON, is to check the second and third floors on the 5th Street wing. GRADY wanted to know the exact location and what offices are located where.

HARDY related that the third objective is to get down into the mail room and see if there is an alarm panel box for the fire escape and to see if it is clearly marked. HARDY made the observation that there is the possibility that someone from GRADY's group could get down into the mail room and turn off the alarm.

HARDY advised that he then left with MIKE GIOCONDO to go to the roof of the Town House Apartments. He explained that GIOCONDO was supposed to take photographs from atop the Town House Apartments in order to get shots of various angles of the Post Office. HARDY explained that GIOCONDO is very adept at using a camera and that he had previously taken shots of the Camden Post Office from atop the new Rutgers law school building. HARDY went on to say that prior to arriving at the Town House Apartments, he stopped off with MIKE GIOCONDO at Shorty's Newsstand on Collings Road and Mt. Ephraim Avenue in Camden to pick up some film for GIOCONDO's camera. They then proceeded to the Town House Apartments. GIOCONDO was supposed to take his photographs at about 5:30 in the morning.

HARDY advised that while he was on the roof of the Town House Apartments, ANTOINETTE was supposed to be on the northwest corner of Market and 4th Streets observing the traffic patterns. Her exact location was in front of the little camera shop below 4th on Market.

HARDY advised that when he arrived at the Town House Apartments, GRADY and COOKIE were already there and he noted that GRADY and COOKIE were having an argument, GRADY doing all the arguing and COOKIE doing all the listening. He noted that she was crying a bit and GIOCONDO went to more or less interfere. At this time GRADY told GIOCONDO that it was not his problem and that she could handle her own problems. A short time later, GIOCONDO told HARDY that he had interfered once before in this type of an argument, between GRADY and COOKIE, and that GRADY had again told him not to interfere.

HARDY related that while he was with GIOCONDO en route to the Town House Apartments, he had learned from GIOCONDO that GIOCONDO had met two of GRADY's people from the Philadelphia group, but that he only met them by their first names. HARDY learned that these two people are an ANNE (LNU) and a BETH (LNU). He explained that both are

white girls about 22 years old and that they work at the bookstore in the vicinity of Temple University. He explained that the reason the Philadelphia group has not been brought into this action is that they are more radical than GRADY and they dress in a more hippie type style, and that they play around with the drug scene a little bit. He explained that GRADY has a low opinion of them.

HARDY explained that another topic of conversation with MIKE GIOCONDO was the East Coast Conspiracy to Save Lives. He advised that he pressed GIOCONDO for more information about this group and the 200 people that were mentioned earlier. GIOCONDO answered the question by stating that he had pressed GRADY in the early stages of this thing but that GRADY had always pushed it aside and pushed GIOCONDO very hard to recruit people for this particular action. HARDY advised that at the meeting GRADY had stated to him that he was involved in the Dow Chemical action in Michigan. GRADY did not say what the names were of those involved but stated that it was a simple operation.

GRADY stated that the physical plant consisted of six or seven buildings and that the entrances were covered by closed circuit TV. GRADY stated that it was guarded by just one old man who was a watchman and that he had learned that the closed circuit TV cameras were ineffective within 100 feet of the buildings. GRADY then stated that it was a simple matter of conducting their surveillances in broad daylight next to the buildings. He noted that they just walked around like they owned the place. GRADY then related that there were only two men actually involved in erasing the computer tapes. GRADY implied that he had inside information from one of the engineers or scientists who worked at Dow Chemical because GRADY gave the impression that the people that actually went in to erase the tapes knew exactly where the tapes were and what the content was on the tapes.

HARDY advised that another topic of conversation with GRADY was that the Philadelphia group is supported by Quakers. GRADY did not say specifically which Quaker group it was but that the Philadelphia people were supported by Quakers.

HARDY further advised that GRADY related the circumstances of the Bridgeton, N.J., draft board action

PH 52-7165 Sub S

which never really got off the ground. GRADY told HARDY that he came into the thing in the last day or two and that he didn't like it at all. GRADY apparently had a personality bust with a person named KELLY and GRADY walked away from it. Consequently, the action fell apart and GRADY never took it seriously. HARDY made the observation that COOKIE was very upset and disappointed with the Bridgeton action.

FEDERAL BUREAU OF INVESTIGATION

Date July 14, 1971

ROBERT WILLIAM HARDY telephonically contacted SAs NEIST and RYMAN and advised as follows:

On July 7, 1971, at approximately 3:00 p.m., he met GENE DIXON at the White Tower Restaurant located at 5th and Market Streets, Camden, N. J. He and DIXON then proceeded to the Camden Post Office where they signed in with the guard. HARDY used his correct name, and he assumed DIXON also used his correct name since he introduced DIXON by his correct name to various people whom they met in the building on that day. After signing in they went to the office of the draft board for the purpose of making further surveillances of the floor plan, filing cabinets, windows, alarm system, etc. They spent approximately 15 to 20 minutes in the draft board office. They entered there under the pretext of talking about the "ex-convict program" which HARDY is working on. He asked questions of the draft board personnel dealing with the procedure for ex-convicts registering with the draft board upon their release from prison.

In order to gain some extra time while in the draft board office, HARDY asked for a key to the men's room which was supplied to him. He then left the office going to the men's room, leaving GENE DIXON in the draft board office. He spent about five minutes in the men's room checking the lock system, the physical makeup of the windows, and noting what could be seen from the men's room window. When he came back into the hallway, he noted that the General Services Administration (GSA) guard was getting ready to make his rounds. He stopped the guard, who remembered him from his visit of the week before, and talked with the guard for about five minutes. He obtained quite a bit of information from the guard during this talk concerning the physical makeup of the building, the rounds which are made by the guards, etc. He then walked with the guard to the draft board office.

On 7/8/71 at Hi-Nella, New Jersey File # Philadelphia 52-7165-Sub S
 by SA TERRENCE P. NEIST and SA MICHAEL M. RYMAN TPN:rumm Date dictated 7/14/71

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

PH 52-7165-Sub S

Once inside the draft board office, the guard went to the 5th and Market Streets corner of the room, where there is a key station, which is more or less hidden by a cabinet. This key station is one of the stations which the guard is required to check while making his rounds. While inside the draft board office, he noted that some of the handles on the windows are broken, making it impossible to lock these windows. He later related this information to members of the group. The group was very elated by this information.

After leaving the draft board office, he and DIXON went down to the 3rd floor in the area of the U. S. Attorney's Office. There they checked the physical layout of the floor in relation to the fire escape outside the windows. They then stopped in the courtroom and looked out the windows to see the makeup of the east wing of the Post Office building. They also checked the telephone number of the public telephone located in the hallway. They then went down to the first floor and talked to the GSA guard about the sign-in system and how effective this sign-in system was. The guard mentioned to him that very often people walk out without signing out. The guard said that at about 11 p.m. they lock the doors to the Post Office and at that time check over their list to see who has not signed out and that if they recognize the name, they generally just figure that the people had forgotten to sign out. The guard mentioned that they might make a light check of the building at this time to insure that no one has stayed in the building. It was HARDY's impression from talking to the guard that this would not be a very thorough check of the building.

HARDY and DIXON then went into the personnel office of the Post Office and spoke with the personnel manager concerning the possibility of ex-convicts being hired by the Post Office. The personnel manager was very helpful, taking them on a tour of the mail room and pointing out the security system and how postal personnel would be able to keep an eye on any ex-convicts who might be hired. The personnel manager took DIXON and him out onto the platform

PH 52-7165-Sub S

in the rear of the Post Office, thereby giving them a chance to obtain some first-hand views of the roof over the platform.

At approximately 4:05 p.m. DIXON and he left the Post Office and went to DIXON's apartment which is located at 517 Penn Street. DIXON's apartment is a third floor "walk-up". It is the only apartment on the third floor. MARTHA SHEMLEY and COOKIE were at the apartment when they entered. It was his impression that they rendezvoused at about 4:30 p.m. each day so that DIXON can either give MARTHA SHEMLEY a ride to Hi-Nella or give COOKIE a ride to Collingswood. He learned from COOKIE that she and ANITA have both been in the practice of going home every night after they have done their surveillance work on the roof and that they come back to Camden at about 4:00 p.m. or 5:00 p.m.

DIXON and he then began to put down on paper everything that they had learned while at the Post Office. DIXON then told him that he could not go to Dr. ANDERSON's house that night. Because of this HARDY then agreed to take the notes to Dr. ANDERSON's home.

At approximately 8:15 p.m., on July 7, 1971, HARDY left his residence for the meeting at Dr. ANDERSON's house. The meeting took place at approximately 9:15 p.m. at the residence of Dr. ANDERSON located on Harding Avenue and Park Drive, Collingswood, N. J. Present at the meeting were JOHN GRADY, MARTHA SHEMLEY, COOKIE, ANITA and himself. Father MICHAEL DOYLE was unable to attend the meeting as he had duty at his church and could not get away. MIKE GIOCONDO was not present due to the fact that he was in North Jersey for three days in connection with the State drug program on which he is working. GENE DIXON was not at the meeting due to the fact that he spends one night a week with his children. HARDY explained that DIXON is separated from his wife.

PH 52-7165-Sub S

As the meeting began, they started going over what had happened the day before. There was a very thorough question-and-answer period between GRADY, ANITA, COOKIE and himself. MARTHA SHEMLEY had very little to say. During the discussion it was mentioned that outside help would be needed. Members of the group referred to experienced people in this sort of thing as "the old actors". They mentioned that they were going to bring in some of the "old actors" for this hit. It was mentioned that when the time comes, possibly two nights before the hit, these "old actors" will be brought into the area.

A name that was mentioned in connection with the Princeton-Trenton draft board action was that of a Dr. BACON from Princeton who was the "key man" in that area. It was mentioned that BACON and his wife were both very involved in the Princeton draft board break-in.

At about 12:30 p.m., the meeting terminated and they left for their surveillances in downtown Camden. JOHN GRADY took ANITA and COOKIE with him to do the surveillance from the roof of the Townhouse Apartments. Later in the night he learned that GENE DIXON, who had apparently gotten back to Camden, was up on the roof when the two girls arrived there. Upon the girls' arrival on the roof, DIXON came down from the roof and picked up MARTHA SHEMLEY at the White Tower and then took her home to Hi-Nella.

HARDY mentioned that GRADY had decided that one of the things that he would like to have checked would be to see whether or not the employees of the Post Office actually sign out when they leave the Post Office for the day. GRADY had mentioned to him that it might be possible for several people to go into the Post Office together during the day and for all of them, except one, to hide in the Post Office while one of the group would leave and sign the entire group out at the register.

PH 52-7165-Sub 3

HARDY advised that all of the papers, documents, and slides are now located at Dr. ANDERSON's residence in Collingswood.

HARDY advised that during the meeting there had been mention of people from Philadelphia and upstate New Jersey who would be coming into the operation. No names were mentioned and these people were only referred to as the "old actors". He recalled that it was COOKIE who originally mentioned the "old actors", when he saw her at DIXON's apartment the day before. GRADY made mention several times during the meeting last night of the "old actors". It was JOHN GRADY who mentioned the BACONS and their involvement. HARDY has learned that the roof at Rutgers is no longer available to the group because it is completely under lock and key.

He has also learned that the group has discontinued using the roof of the Parcai Building for surveillance because they have found it to be an ineffective surveillance point. They have noted that only the front of the Post Office can be seen from the roof of the Parcai Building, and they have also noted that once a person is on the roof at night, he cannot get down from the roof until 8:00 a.m. when the Parcai garage opens.

GRADY related to him that he had been involved in many draft board break-ins, and because of this he felt that he would get sentenced to 20 years in jail if he were ever caught.

The target date is still set for a week from Sunday. It will take place on a Sunday night after midnight. Members of the group have noted a minor problem in that some Puerto Ricans generally sit on the front step of a building on 4th Street until about 12:30 a.m. or 1:00 a.m. From the steps where they are sitting, they are able to look right down the Post Office alleyway. Because of this, it was mentioned

PH 52-7165-Sub S

that the time of the hit will be possibly a little later than the time that they had originally planned.

GRADY mentioned POPPI SHARPE during the meeting last night, and it was apparent to HARDY that GRADY has been talking extensively with POPPI SHARPE from time to time. GRADY mentioned that POPPI SHARPE's favorite thought was that "you have to put the fear back into the man" (meaning the establishment). GRADY has mentioned how POPPI SHARPE feels that only when the authorities fear the people will they respect them.

HARDY mentioned that GRADY desires that he and DIXON go into the FBI Office in Camden under suitable pretext so that they might learn of information relating to the alarm and security systems of the FBI Office. He explained that they would use the pretext of trying to learn from the FBI the procedure used in investigating an ex-convict who applies for a job with the Post Office. MARTHA SHEMLEY and GENE DIXON also mentioned the prospects of going into the FBI Office. As the plans stand now, the draft board is target #1. Army Intelligence is possibly a second target and, if it is feasible, the FBI Office would be the third target.

From conversations with the group, HARDY has learned that COOKIE, ANITA and JOHN GRADY have been in other draft boards before when records were destroyed. He mentioned that GRADY related to him that he was involved in draft board hits when records were destroyed. From the conversations, it was also indicated that COOKIE and ANITA were involved in a draft board hit in Philadelphia.

FEDERAL BUREAU OF INVESTIGATION

Date 7/15/71

ROBERT WILLIAM HARDY telephonically contacted Special Agents NEIST and RYMAN to advise as follows:

On July 8, 1971, while talking with JOHN PETER GRADY, GRADY mentioned the "East Coast Conspiracy To Save Lives," and indicated that his (GRADY's) main contact with this group is in East Orange, N.J. According to the source GRADY said this group is a loose-knit organization of about 200 people.

On 7/9/71 at Hi-Nella, N.J. File # Philadelphia 100-51190
 by SA TERRENCE P. NEIST & SA MICHAEL M. RYMAN MMR/ELC Date dictated 7/14/71

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

FEDERAL BUREAU OF INVESTIGATION

Date July 15, 1971

ROBERT WILLIAM HARDY telephonically contacted SAs NEIST and RYMAN and advised as follows:

On July 8, 1971, he attended a meeting at the residence of Dr. WILLIAM ANDERSON, located on Harding Avenue in Collingswood, N. J. Upon his arrival JOHN GRADY and his (GRADY's) family were preparing for the evening meal. COOKIE and ANTOINETTE, also known as Anita, were also there. The group was still elated over the experience of DIXON and himself the day before at the draft board. The group was anxious to get started on the information obtained. He learned that GENE DIXON and MAETHA SHEMLEY had been at ANDERSON's residence for a short while before he arrived.

He learned that COOKIE and ANITA had made contact with some of the Philadelphia group. They have started calling them (the Philadelphia group) at certain times.

After the evening meal was finished, he went into the living room area with GRADY, ANITA and COOKIE, and they talked at length about the proposed break-in and the problems they have come up against during the past break-ins and what they were going to do to solve these problems. During the discussion, it was revealed that money will be supplied by people such as Dr. ANDERSON and CALLAHAN (no further identification on CALLAHAN). JOHN GRADY referred to "The East Coast Conspiracy group" and that their main contact with this group is in East Orange, N. J. According to GRADY, this East Coast Conspiracy group is a loose-knit organization of about 200 people. GRADY also referred to a JOHN NICHOLSON from Philadelphia, who is apparently a key man in this group.

GRADY, ANITA and COOKIE again made reference to the Philadelphia draft board break-ins. They again referred to a locksmith named KIRK from Philadelphia. It was mentioned that COOKIE and ANITA would have a truck rented

On 7/9/71 at Hi-Nella, New Jersey File # Philadelphia 52-7165-Sub S
 by SA TERRENCE P. NEIST and SA MICHAEL M. RYMAN TPN:mmm Date dictated 7/14/71

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

PH 52-7165-Sub S

for the coming weekend so that they could make a dry run. They intended to park this truck in the parking lot across the street from the rear of the Post Office so they can observe movements within the first floor receiving room of the Post Office.

GRADY mentioned he and his wife had a talk about this situation yesterday and that she, Mrs. GRADY, now understands "what's going on" and that she "will not be a hindrance". ANITA and COOKIE, in order to earn money, have today gone someplace outside of Trenton, N. J., to give lectures concerning drugs. This lecture is something that was set up by MEL MADDEN. MEL MADDEN is well aware of what the group is doing. GRADY will also be going up to give a lecture at this same group of meetings on Tuesday and Wednesday. Apparently, GRADY has given several lectures for MEL MADDEN in this area and is paid for these lectures. The lectures given by GRADY and the girls serve the purpose of adding funds to their operation. HARDY mentioned that the group does not really need that much money to live since they steal most of their food, liquor, milk, bread and clothing.

GRADY has mentioned that previous hits have always been "inside jobs", meaning that they have been able in one way or another get members of the group inside the target area and hide themselves until the time of the hit. This operation, GRADY mentioned, would be the first time they had actually entered the target area from the outside. GRADY feels that entering from the outside increases the element of risk but that if it could be "pulled off", it would be a morale boost for the East Coast Conspiracy group.

It was mentioned that ANN (last name unknown) from Philadelphia is picking up COOKIE and ANITA this morning to take them to North Jersey where they will deliver the lectures in connection with the drug program. It was mentioned that it is about a four-hour drive from Camden and that, therefore, it would be an all-day affair. It was HARDY's understanding that the group would be able, if necessary, to obtain large sums of money through the East Orange group.

PH 52-7165-Sub S

In referring to previous operations, COOKIE and ANITA have taken great pride in the fact that they have always been on the inside, picking up the draft records. They mentioned that they were involved in the Philadelphia hits and the Trenton hit. COOKIE and ANITA both said they were on the inside of the Philadelphia draft board break-in and that they have helped carry the records from the building. They (COOKIE and ANITA) mentioned that they carried the draft board records around in the trunk of their car for about a month before they actually destroyed them. Some of the records mentioned were ledger books that were used for cross-reference within the draft board system.

GRADY mentioned that he helped set up a talk by PHIL or DAN BERRIGAN at a Germantown (section of Philadelphia) church last year. GRADY mentioned that one of the BERRIGANS came to the church service on a Sunday morning. HARDY believed that it was DAN BERRIGAN he was referring to, but he was not certain. GRADY mentioned that about three years ago he was at a cocktail party with PHIL or DAN BERRIGAN. HARDY believed that in this instance GRADY was referring to PHIL BERRIGAN. At this cocktail party PHIL said to him (GRADY) and another friend (whose name he did not mention) that his brother DAN was going to pour blood on some draft records the next week. GRADY mentioned that he, GRADY, replied to this saying, "DAN must be flipping his (obscene) mind to do something like this." GRADY mentioned later a nurse came out and extracted blood from the arms of the men who were going to pour the blood on the records but that the nurse could not get enough blood out of their arms. Because of this they went to a butcher shop and bought some duck's blood and mixed their blood with the duck's blood. It came out in the newspapers that it was duck's blood that was poured over the draft records and that there was no trace of human blood. When they learned of this, they were very let down due to the fact that the newspaper account made no mention of human blood.

GRADY related this story with first-hand knowledge. GRADY again emphasized that he has been the key man in 14 out of 18 draft board hits within the last 2½ years.

PH 52-7165-Sub S

GRADY said that he was the one who developed the style for the break-ins. GRADY said he is now developing the style for outside break-ins.

Both GRADY and COOKIE again mentioned the idea of someone going into the FBI Office at Camden in order to gain information with regard to the security and alarm systems. As the plans now stand, the draft board is the first target, Army Intelligence is the second target, and the FBI Office, Camden, if feasible, would be the third target.

HARDY advised that the plans are kept in a four-inch by 30-inch by 30-inch box, which is generally located in the playroom or children's TV room. Also kept in this box are slides and a little cardboard filing box in which three-inch by five-inch cards are kept.

On Wednesday afternoon while in GENE DIXON's apartment, after returning from the Post Office, was the first time that COOKIE had mentioned the "old actors", referring to those who had been involved in draft board break-ins before. Last night the issue came up again and COOKIE said she had to call ANN (last name unknown) in Philadelphia last night after midnight. After midnight she did go to the public phone booth in front of the Camden County Police Office and made several phone calls. The procedure in making the calls is for COOKIE to call one number, where ANN will answer. ANN will then hang up and go to another phone booth, which has been predetermined, and COOKIE will call her there. They do this to insure that ANN is not being followed. ANN and another girl, whose name was not mentioned, were, according to COOKIE and ANITA, to pick them (COOKIE and ANITA) up and take them to Trenton or somewhere in North Jersey today for the lectures in connection with MEL MADDEN's drug program.

JOHN GRADY mentioned that this was the first time they tried to hit a draft board from the outside and that it was the first time they had tried to get community involvement. GRADY related to him that in the past they have gone into a community where there was some indication that there were sympathizers in the area. The sympathizers

PH 52-7165-Sub S

would then set up observations for three to four weeks. GRADY and his assistants would come into the area and spend another week doing detail work. The "old actors" would then come in and spend two or three-days assembling, conducting dry runs, and getting the general feel of the area. After this the hit would be made and they would then disperse, leaving three or four local people behind.

GRADY also mentioned that Brother PHILIP KELLY of El Centro, Camden, N. J., was GRADY's initial contact in this area. GRADY mentioned that KELLY had set up the initial meetings but later dropped out of the plan.

With regard to KIRK, the locksmith in Philadelphia, HARDY has learned that he, KIRK, is under 30 years of age. He has also learned that Father MICHAEL DOYLE has, through KIRK's instructions, become very proficient in lock picking.

HARDY mentioned that it was either COOKIE or ANITA who mentioned renting the truck for the weekend from one of her friends in the Philadelphia area.

The plan calls for someone to drive the truck into the alley behind the Post Office where they can use it as a lookout point, having direct observation into the receiving room of the Post Office.

GRADY mentioned that Dr. BACON was completely involved in the Trenton draft board break-in. GRADY did not actually say that BACON had gone into the draft board but indicated that BACON's guilt would have been as great as those who actually did go inside. GRADY also indicated that Dr. BACON's wife was totally involved in the Trenton draft board break-in.

PH 52-7165-Sub S

HARDY explained the procedure by which the group gains entry to the roof of the Townhouse Apartments. They use a credit card which has been cut in half lengthwise and slip it behind the bolt or tumbler of the door which leads into the lobby of the Townhouse Apartments. They then apply pressure to the left with the credit card while pulling on the handle of the door with their free hand. This causes the door to open. After doing this, they walk through the lobby and take the elevator to the 5th floor. Upon leaving the elevator, most of the people in the group take off their shoes. They then take the stairwell up to the 6th floor and onto the roof. It has been agreed upon within the group that the first person to arrive on the roof on any particular night will prop the door open by means of a bar.

There are a total of three lookout positions utilized by the group from the roof. One is in the back corner facing the Post Office. Another is at the elevator or at the rooftop entrance to the roof, and the third is at the front of the roof, facing the 4th Street corner of the building.

GRADY has mentioned that Dr. ANDERSON and CALLAHAN would probably be in vehicles on the street somewhere on the night of the draft board hit. GRADY also mentioned that Dr. ANDERSON's flat above his office will be made available for sleeping quarters for some of the "old actors" who will come in two or three days before the hit.

FEDERAL BUREAU OF INVESTIGATION

Date 7/15/71

ROBERT WILLIAM HARDY telephonically contacted SAs TERRENCE P. NEIST and MICHAEL M. RYMAN and advised as follows:

On July 9, 1971, as he was preparing to go to the residence of Doctor ANDERSON, Collingswood, N. J. for a nightly meeting, MIKE GIOCONDO telephonically contacted him and relayed the message that JOHN GRADY thought that the group was being watched. GIOCONDO related to him that Mrs. GRADY was sitting on the front porch of the ANDERSON residence and noticed a Volkswagen bus which was parked in front of the residence. The man sitting in this bus was staring at the house. This took place on July 8, 1971. GIOCONDO also related that after about ten minutes, the man in the Volkswagen bus left and that shortly thereafter, Mrs. GRADY observed a Volkswagen automobile which stopped in front of the house for a few minutes.

HARDY mentioned that earlier in the day of July 9, 1971, he saw COOKIE and ANITA, who stated that they had been talking with some of the "old actors" from North Jersey. They, COOKIE and ANITA, mentioned that some of these "old actors" would be coming down from North Jersey on Sunday night for a meeting at Dr. ANDERSON's residence in connection with the draft board hit. COOKIE and ANITA mentioned that there will be seven of the "old actors" from North Jersey coming down for the hit, and there will be three "old actors" from Philadelphia.

HARDY picked up MIKE GIOCONDO at 5th and Cooper Streets at approximately 8:45 p.m. GIOCONDO was very nervous about being followed and caused him to drive his vehicle around the block for about ten minutes to insure that they were not being followed.

They then drove to Dr. ANDERSON's residence. Also present at Dr. ANDERSON's residence were JOHN GRADY, Mrs. JOHN

On 7/10/71 at Hi-Nella, N. J. File # Philadelphia 52-7165-Sub
 by SAs TERRENCE P. NEIST and MICHAEL M. RYMAN TPN:caq Date dictated 7/14/71

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

GRADY, the five GRADY children, COOKIE, ANITA, MARTHA SHEMLEY, GENE DIXON, and one of Dr. ANDERSON's friends, JOHN LYNCH. JOHN LYNCH left the group shortly after his, HARDY's, arrival. Upon his departure, LYNCH mentioned to GRADY that he would be seeing him sometime over the weekend at his, LYNCH's, home, which is located off Warwick Road, Somerdale, N. J. Just before LYNCH left, a woman named MARNIE O'DELL arrived at the ANDERSON residence. MARNIE O'DELL is a very attractive woman, approximately 35 to 38 years old. O'DELL spoke with Mrs. GRADY for a while and then she and Mrs. GRADY sat on the porch, continuing their talk. At one point during the evening, Mrs. GRADY and Mrs. O'DELL left the front porch and took a walk around the block. It was HARDY's impression that the purpose of Mrs. GRADY and Mrs. O'DELL walking around the block was "to check things out."

During the meeting, GENE DIXON was asked to relate his version of what had transpired at the draft board on Wednesday afternoon, which he did. DIXON's talk lasted until about 11 p.m. HARDY observed that the entire group was "keyed up" due to the fact that things were going exceptionally well. COOKIE and ANITA had mentioned that while they were in North Jersey, MEL MADDEN had told them that he would come down on Sunday night at six o'clock, possibly with one or two of his people, to sit in on a planning session, and to possibly take a ride through Camden to get the feel of the situation.

GRADY mentioned that MADDEN's apartment in East Orange, N. J. is the headquarters for the East Coast Conspiracy to Save Lives (ECCSL). The target date was set for July 18, 1971 but it was indicated by GRADY that the date might have to be moved to July 25, 1971 in order to give MEL MADDEN time to set his schedule. GRADY stated that MEL MADDEN would be bringing down seven people in cars, to take part in the hit. GRADY also mentioned that MADDEN would provide enough money to support the physical needs of the group for the two or three days while they were in Camden doing the pre-hit surveillance.

The name of PAUL MEDIAN or PAUL MAYER was also mentioned. It was mentioned that he, MAYER, lives in the co-op apartment where MEL MADDEN lives.

A new lookout position has been established by the group. This position is the playground behind the Methodist Church which is across the street from the Post Office. The group has established that the General Service Administration (GSA) guard never comes into the Post Office area on the first floor and he almost never comes to the end of the windows on the wings of the Post Office building. Having noted this, GRADY and members of the group feel that it is quite safe to sit on the steps of the playground and to conduct surveillances of the Post Office building from there. They have also determined that it is safe to conduct surveillances from anchor fence which divides the school grounds from the Medical Arts building which is next door to it. GRADY likes to surveil from the courtyard. When surveilling from that spot, GRADY plays the "Irish drunk" scene, in which he sits or walks around in the playground area with a bottle of whiskey. If anyone notices him, he takes a drink from the bottle of whiskey and acts as if he is drunk. His, HARDY's, assignment was to take GENE DIXON and MARTHA SHERLEY to different positions in the church yard and then to go to the rooftop of the Town House Apartments. He did this. It was about 12 a.m. when they got to their positions. JOHN GRADY's position was to be in the playground area by the church. ANITA and COOKIE were to go to the roof of the Town House Apartments at about 1 a.m. At approximately 1:10 a.m., HARDY was to come down from the rooftop and walk through the Post Office alley to note the reaction of any passersby. As he did this, DIXON and SHERLEY were supposed to leave their positions.

When he came down from the Cooper Street side of the playground, GRADY made a whistle, calling him over. GRADY then engaged him in conversation until about 2:30 a.m. They talked about the different observations points and the

advantages and disadvantages of observing from the playground behind the church. As they were talking, a car pulled into the alley. Members of the group were very suspicious of this car and felt that it was possibly the authorities surveilling them. There were two men in the car.

At about 2:30 a.m., he, HARDY, went to his truck and then picked up DIXON and SHEMLEY, taking them to SHEMLEY's residence, 61 Hunter Drive, Fox Ridge Apartments, Hi-Nella, N. J.

During the evening, it was mentioned that COOKIE and ANITA were talking with ANN (LNU) who was involved in the Delaware draft board break-in. He did not recall her name but did recall that it appeared in yesterday's edition of "The Philadelphia Inquirer."

This girl, ANN, was brought into the conversation by GENE DIXON, who mentioned to ANITA and COOKIE that "one of their girl friends made the papers this morning." COOKIE initially ignored this comment and ANITA stated that nobody knows where she, ANN, is. MARNIE O'DELL replied that she felt sure that the girls, ANITA and COOKIE, know where ANN is. He, HARDY, overheard COOKIE and ANITA in a conversation in which they stated that they had better talk to ANN again. From the conversation he overheard, it was his understanding that neither ANITA nor COOKIE knew about the arrest warrant until it was mentioned in the morning paper.

In the conversation which he overheard, COOKIE and ANITA mentioned that they had better find a better place for her, ANN. It was his impression from these conversations that ANN was getting ready to leave the area.

HARDY noted that Mrs. O'DELL had driven down from New York in a borrowed car. This car was described by him as an "old junker," possibly a Plymouth. He also noted that MARNIE O'DELL often has the use of MIKE GIOCONDQ's car for local driving.

During discussion within the group, it was mentioned that they would rent a truck for use on the hit night. Plans tentatively call for parking the truck underneath the fire escape area to provide cover for those going up the fire escape. At this time, plans tentatively call for him, HARDY, to be in his van at around 4th Street to block the view (of the Post Office area) of the Puerto Ricans who generally sit on the steps at 4th Street.

He further advised that as requested to do so by GRADY, he had at 5 o'clock on July 9, 1971, observed the Postal employees as they left the Post Office building. GRADY's interest in the departure of the Postal employees was to determine if every individual was required to sign out before leaving. On that same afternoon, he saw COOKIE and ANITA downtown.

During the meeting, it was mentioned that he and GENE DIXON should go to the FBI Office in Camden, N. J., at about 3 p.m. on the coming Wednesday, for the purpose of developing information with regard to the alarm and security setup of the office. The pretext to be used in gaining entry to the office is that they are working with a program concerned with obtaining employment for ex-convicts. They mentioned that they were going to the FBI Office to find out the type of background investigation conducted on ex-convicts who apply for a job with the Post Office. GENE DIXON and JOHN GRADY are the members of the group who have come up with the idea of checking out the FBI Office.

It was mentioned during the meeting that the set of locks and tools have been brought to the residence of Dr. ANDERSON so that members of the group can practice with them there. Before being brought to Dr. ANDERSON's, part of the tools were at GENE DIXON's apartment and part of the tools were at MARTHA SHELLEY's apartment. He also learned that KIRK, the Philadelphia locksmith, also drives a taxi cab and is serving his apprenticeship as a locksmith. He has taught the group how to open file cabinets without going through a great deal of trouble.

PH 52-7165-Sub S

COOKIE and ANITA mentioned a small, thin man from Philadelphia who has the background and makeup to go into the draft board. They did not mention him by name but did mention that he had gone into draft boards in the past.

It is now planned for GRADY to be in the church yard on Sunday night, playing his "Irish drunk" scene, while doing his surveillance.

FEDERAL BUREAU OF INVESTIGATION

Date 7/15/71

ROBERT WILLIAM HARDY telephonically contacted Special Agents NEIST and RYMAN, and during the course of the conversation, advised that the apartment of MEL MADDEN in East Orange, N.J., is the headquarters for the East Coast Conspiracy To Save Lives.

On 7/10/71 at Hi-Nella, N.J. File # Philadelphia 100-51190
by SA TERRENCE P. NEIST & SA MICHAEL M. RYMAN MMR:ELC Date dictated 7/14/71

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

Date July 25, 1971

ROBERT WILLIAM HARDY telephonically contacted SAs NEIST and RYMAN and advised as follows:

He described JOHN LYNCH, whom he had previously mentioned, as a white male with "salt and pepper type" hair (black with some gray running through it), a mustache, and having something wrong with his teeth, that is, either a spreading of the front teeth or an overbite. LYNCH dresses very casually and HARDY is under the impression that he is in the medical profession. He lives off Warwick Road in Somerdale, N. J. He seems to be a very outgoing-type person.

JOHN LYNCH was present at the residence of Dr. ANDERSON, Collingswood, N. J., on July 10, 1971. JOHN GRADY, ANITA and COOKIE were also present. Dinner started at about 9:00 p.m. and was over about 10:15 or 10:30 p.m. At that time GRADY suggested that he (GRADY), ANITA and COOKIE would do the surveillances in Camden on that night. Father MICHAEL DOYLE from St. Joseph's Parish, Camden, N. J., came to Dr. ANDERSON's residence on that night about 9:30 p.m. and spent about a half hour with the group.

GRADY mentioned to HARDY that MEL MADDEN will be coming to Dr. ANDERSON's home on Sunday evening at approximately 6:00 p.m.

When GRADY goes to the rooftop for the surveillances, he carries with him a Pan American flight bag. He keeps a bottle of whiskey, binoculars, sandwiches and other things in this flight bag.

It is HARDY's understanding that GRADY's family came to Collingswood, N. J., because they had many problems in the Bronx. He understands that GRADY is about \$20,000 in debt and that there are warrants or some type of sheriff's notices against GRADY and his family in the Bronx area.

On 7/11/71 at Berlin, N. J. File # Philadelphia 52-7165-Sub S

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

82

It was also mentioned that a girl named ANN (last name unknown) from Philadelphia and the ANN for whom there is a warrant in Delaware both worked at the Temple Book Store with COOKIE and ANITA. From what GRADY said on Friday night, it appeared as if there was a draft board hit planned for the Trenton area that never came off as yet. It was mentioned by the group that they had already done the preparations for a hit in Trenton, but for some reason the hit was not made. They have talked of going back to Trenton after the Camden hit to make the hit at Trenton which had previously been worked out.

From the conversations, it was HARDY's understanding there were possibly two draft boards being surveilled in the Trenton area but only one of them was hit. It was mentioned that COOKIE and ANITA should go back to Trenton for the second hit.

GRADY is planning to run a surveillance with his people tonight. GRADY intends to surveil the Post Office Building from the churchyard. As he has done in the past, GRADY will play the role of the "drunken Irishman" if any passersby or police wander into the area. Plans call for the entire group to be on the scene at the surveillance.

Usually one or two people arrive for the surveillances at about 11:15 or 11:30 p.m. GRADY usually arrives about 12 midnight and COOKIE and ANITA generally come 15 to 20 minutes after GRADY. GRADY has come to feel very comfortable from his surveillance point in the churchyard where he sits on the ground during the surveillance. DIXON and SHEMLEY feel very uneasy about being on the roof of the Townhouse Apartments.

It has been mentioned that MEL MADDEN will definitely be involved in the hit and that there will be seven people from North Jersey and three additional people from Philadelphia who will also be involved.

HARDY related that the residence of Dr. WILLIAM ANDERSON is located on Harding Avenue and Park Drive in Collingswood, N. J., approximately two blocks from Custer Road and one block from the Camden County Park Office. The house consists of one floor with a second floor which has been added. There are three bedrooms and a bath on the second floor. It is a five-bedroom home with a total of two baths. The front door is on Park Drive and the address is 255 South Park Drive. The front door is almost always locked whereas the kitchen door and the Harding-Avenue doors are almost always unlocked. There are two other doors in the house, one on the sliding screen door that enters into the dining area from the back yard and another back door, which is almost always locked, adjacent to the back yard. There are a total of four exits, two of them in the back yard, one of them on the Harding Avenue side, and one on the Park Drive side. As you enter the Harding Avenue side kitchen door, the first thing you step into is a den-like area where there is a wall-to-wall fireplace to your immediate left. To your far left at this point is a sliding screen door which leads to the back yard. Immediately facing you would be a dining area and a kitchen area.

As one walks six to eight steps to his left, he would be able to see the backyard area. If one takes a look to his right after taking these six to seven steps, he would see the kitchen area proper and the screened-in porch. A person then making a half right turn would be able to walk directly into the main dining room area which then takes one through a door from the kitchen into the house proper. In the main dining area after stepping through the kitchen dining room door approximately six more paces, located on the left would be the TV room or game room. It is in this room where the box is kept which contains plans, notes, a slide projector and the film which has been mentioned before.

PH 52-7165-Sub S

The exterior of the house is brick with white and black trim. Most of the doors are painted black. There is quite a bit of landscaping on the lot with a very large pine tree in the corner of the lot on Harding Avenue and Park Drive. This pine tree is about 40 feet tall, very thick, and in the higher portion of the tree there are still some Christmas lights. There is a swing set, barbecue, a couple of trees, a dog pen and a tool shed in the backyard. The fence on the Harding Avenue side is a wooden, old English type, flat fence. There is a blacktop parking area off the Harding Avenue side of that residence. This parking area holds about four cars and measures 30 feet by 15 feet.

FEDERAL BUREAU OF INVESTIGATION

Date 7/13/71

ROBERT WILLIAM HARDY furnished the following information:

HARDY advised that at approximately 8 p.m., on July 11, 1971, MIKE GIOCONDO stopped at his residence, picked him up and took him to Dr. WILLIAM ANDERSON's house in Collingswood, N. J. HARDY stated that prior to leaving for Dr. ANDERSON's house he talked with MIKE GIOCONDO for approximately one-half hour. The topic of conversation was the forthcoming action at the Camden Draft Board. GIOCONDO then advised HARDY, which was a revelation to him, that GIOCONDO, after leaving the hospital with a previous heart condition, started to see a psychiatrist on a regular basis. GIOCONDO stated to HARDY that again he was not at all sure that he should be in this "thing," but that he is now in it and will continue through.

HARDY advised when he arrived at Dr. ANDERSON's house there were two new people present. These two new people were MEL MADDEN, the brother of the priest at SS. Peter and Paul, Camden, N. J. MADDEN is the head of the state drug program for the State of New Jersey and MIKE GIOCONDO works for him. The other individual was a white male named TERRY (last name unknown). He described TERRY as 5'6", 160 pounds, age about 28, medium build, with a vandyke type beard, black bush hair--almost afro-style. It was later brought out that he is married to a black woman. Also present at the meeting were JOHN GRADY, COOKIE, ANITA, JEAN DIXON, and MARTHA SHEMELEY. He advised MADDEN and TERRY live in Northern New Jersey.

HARDY advised in the course of the conversation MEL MADDEN stated he would provide a van and some people and would try to get some money from the Defense Committee. MADDEN brought up that there is always the possibility of one of the group "participating in the action" could possibly be picked up and that bail money would be necessary. At this time TERRY interrupted and said that someone by the name of YEAGER would be a financial touch for this thing. YEAGER is a member of the Scranton Defense Committee. From the gist of the conversation HARDY assumed there are several defense committees.

On 7/12/71 at Brooklawn, N. J. File # Philadelphia 52-7165 SUB
 by SA's MICHAEL M. RYMAN and
TERRENCE P. NEIST MJR/mam Date dictated 7/13/71

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

PH 52-7165 SUB S

The conclusion was reached that YEAGER, TERRY, and TERRY's brother, name unknown, and MEL MADDEN would provide another van, some people, and some money for the forthcoming Camden action.

HARDY advised next Sunday night, July 18, 1971, the group will have a dry-run so there will be trucks in the area and people participating in this dry-run. The plan is to attach an experienced person to one of the newcomers and familiarize the newcomers with the area in and around the Camden Post Office, which will be assigned to that person for the evening of the hit. The consensus of opinion is that 18 people will be needed to carry out the action successfully.

HARDY advised that POPPI SHARPE had been contacted apparently by GRADY during the past week and that he has committed eight people for the exterior defense on the night of the action. SHARPE's people are to create some kind of a problem if it is needed. HARDY explained this would be some sort of diversionary tactic to call attention away from the post office. Nothing more was said about the napalming of the army tank in front of the Reserve Center in Camden, although it had been referred to during the course of the discussion some half a dozen times.

HARDY advised another name was brought up. This person might possibly become involved in the action and from GRADY's comment this person has experience and has participated in past actions. GRADY mentioned the name BUSBUY or BUZZARD. HARDY advised GRADY did not go into detail regarding BUSBUY.

HARDY advised next Sunday, July 18, 1971, at 6 p.m., MEL MADDEN and TERRY, along with those people they will be able to bring, will report to the ANDERSONS' home for a briefing and will then be paired off with some of the people who are already involved in the Camden action. The tentative "hit time" is going to be between 11:30 p.m., and 12:30 a.m. As yet GRADY and his group have not set the time for sure. HARDY advised while participating with the group in the surveillance last night the group could have gone in at 11:30 p.m., and 12:30 a.m. He explained the surveillance workings as follows:

The surveillance commenced at 11:30 p.m., with everyone in the pre-arranged checkpoints. Observations were made for a

full ten minutes and then at 11:40 p.m., observations were again made as if 11:30 did not happen. These are carried out every ten minutes until approximately 12:20 a.m. This information which is compiled by each member of the surveillance is then discussed the next evening and each person at the prescribed times states what was seen. For example, there was a patrol car on Market Street at 11:30 p.m., so that would knock out the 11:30 to 11:40 time frame. Another example given by HARDY was that at 11:50 p.m., the watchman looked out the bathroom window.

HARDY explained these observations had been gone over in great detail; the general consensus for last night was that the group could have gone in at three different times without any problems.

HARDY made the observation that it is no wonder these people have been very successful in their attempts to hit draft boards. He observed that the more experienced they get the more proficient they become and new ideas and innovations are arrived at.

HARDY stated that GRADY mentioned the Wilmington, Del., draft board break-in in the context that he was showing MEL MADDEN and TERRY that he and his group had gone to some extremes to make this action successful. GRADY related in the men's room in the building where the draft board is located there is a suspended ceiling. GRADY related some of his group lifted the panels out and slung hammocks in the ceiling. On the night of the action four men went into the men's room and hung in the hammocks for about six hours. Then, after closing hours, it was just a matter of dropping through the ceiling and then proceeding to the draft board. GRADY related that TONY SCOBlick was the person who actually picked up the people who were inside the building in a van. The people knew they had until 4:45 in the morning to do their job on the draft board because from previous surveillances GRADY knew that the State Police only checked the building at 4:35 a.m. GRADY went on to say that the group inside the draft board was originally supposed to come out the front door and that they put plywood panels against the glass in the front door so no one could see in the draft board offices. He went on to say after closing hours one of the persons inside had a power drill and was attempting to drill the lock out but that he had a bad bit, so this person went to the back door and just popped it open and then the van pulled up from around back and everyone who was in the draft board got into the van and drove away. GRADY mentioned PAUL COUNING as a participant in the Wilmington, Del., Draft Board break-in.

GRADY went on to relate the FBI had talked to Dr. BACON and his wife concerning some of the actions. HARDY advised this was just brought out as a side line to the general discussion.

HARDY advised that COOKIE has apparently been staying with ANNE MENZ, the girl who was mentioned in the Philadelphia Inquirer as having been indicted for her participation in the Wilmington Draft Board break-in. He went on to say that COOKIE apparently makes contact with her family only through friends.

HARDY advised that GRADY has asked him to drive him (GRADY) to Fairlawn, N. J., on Wednesday, July 14, 1971. GRADY is to speak to a group of educators in conjunction with MEL MADDEN's drug abuse program.

HARDY advised some of the things that came up as a matter of conversation concerned POPPI SHARPE. Apparently SHARPE still has some indictments against him and that he is looking for a place to "drop out" and hide for a while. GRADY stated he has some contact in New York, a doctor, who said SHARPE would be able to hide out on his farm in Vermont. From the gist of the conversation the charges against SHARPE are serious and SHARPE expects to be arrested and go to jail sometime in the near future.

HARDY advised the Army Intelligence Office was mentioned again as a second shot. HARDY advised JOHN GRADY and MADDEN stated that if the group goes into the Army Intelligence Office they should start thinking about what they should do with the information that they get out of the office.

HARDY advised he will attend another planning session meeting tonight at Dr. ANDERSON's home.

Date July 14, 1971

ROBERT WILLIAM HARDY was interviewed and advised as follows:

Plans for the hit at the draft board in Camden, N. J., as discussed by JOHN GRADY, call for entry to be made by driving a van, with the hit team inside, up to the back of the Post Office. A member of the team would then use a ladder as a brace against the fire escape. Members of the team would then enter the fire escape and go up the fire escape to the point where the fire escape leads to the window of the local draft board. Plans call for one walkie-talkie to be with the people who are on the roof of the Townhouse Apartments and for one walkie-talkie to be with the group that goes into the draft board.

TERRY (Last Name Unknown), whom he has previously mentioned and who is an employee of the State of New Jersey, has indicated that he will probably have a New Jersey State vehicle (probably a van or truck) for use on the night of the hit.

HARDY mentioned that the idea of hitting the Army Intelligence office was brought forth by COOKIE. Upon this being mentioned, GRADY made some mention that it would be important to figure out how the Army Intelligence files could be distributed after they were obtained.

HARDY mentioned that the papers and notes, etc., are still located in the playroom or children's TV room of the ANDERSON residence.

At this time the plans call for Dr. ANDERSON being on the street, possibly as a lookout, on the night of the hit.

At the last meeting (July 12, 1971) at the ANDERSON residence, Dr. ANDERSON said "he felt that he had come a long way to be doing what he is doing now". For transportation

PH 52-7165-Sub S

JOHN GRADY has access to MIKE GIOCONDO's personal car (a red Fiat) since MIKE GIOCONDO drives a New Jersey State car.

HARDY was given a xerox copy of a diagram showing the area of Camden, N. J., surrounding the U. S. Post Office. He made notations on this map which indicated the positions of the various members of the group as called for in the plans which had been made by GRADY up to this point. Each number written by him indicates a position occupied by one person, with the exception of position #7 which will be occupied by two people. The points marked with X's indicate proposed positions. The points which he had marked with squares indicate the position of vehicles. He indicated that 18 people in all will be involved and that five people will be going into the draft board.

Attached is a xerox copy of the chart upon which HARDY made the notations.

FEDERAL BUREAU OF INVESTIGATION

Date 7/15/71

ROBERT WILLIAM HARDY furnished the following information:

HARDY advised that he attended a meeting at Dr. ANDERSON's home in Collingswood, N.J., on July 12, 1971. He advised that he arrived at approximately 8:30 p.m. and that upon arriving the following persons were present:

JOHN GRADY
GENE DIXON
MARTHA SHEMELEY
COOKIE
ANITA
Dr. WILLIAM ANDERSON

HARDY advised that ANDERSON comes home on Monday nights from his office, although he stays with his family at the shore while GRADY and his group are using his house. He advised that Dr. ANDERSON attends Monday night meetings with other doctors in the area. He advised that Dr. ANDERSON did stay the night in his home in Collingswood.

HARDY advised that ANITA, COOKIE, and MIKE GIOCONDO now have their own places to stay and do not stay at the ANDERSONS' house any longer.

HARDY advised that upon arriving the group immediately went over the plans and sketches that have been developed to date. He noted that notes are now being translated to a large master sheet. The purpose of this is to develop a real pattern for traffic and other comings and goings in the vicinity of the Camden Post Office. He noted that GRADY was a little upset about the change in police patrol patterns from the previous night. At this

On 7/13/71 at Berlin, N.J. File # Philadelphia 52-7165 Sub S
by SAs MICHAEL M. RYAN

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

93

point, Dr. ANDERSON stated that this is not unusual since the police increase their numbers on the streets during the Summer months.

At approximately 11 p.m., MARTHA SHEMELEY and GENE DIXON went home and were not able to do observation work last night.

HARDY related that at approximately 12:00, he, ANITA and COOKIE left the ANDERSON house with two walkie-talkies which had previously been obtained. The plan for last night was for ANITA and COOKIE to go to the rooftop of the Town House Apartments and test the walkie-talkies. HARDY noted that after testing the walkie-talkies the general consensus was that they were satisfactory.

HARDY related that it was further noted by the group that in order to successfully hit the draft board, control of Market, Cooper and 4th Streets must be covered and in a sense controlled. He noted that the group feels that if they can cover or control those streets for two minutes that would be enough time for the group actually going into the draft board to get up the ladder onto the top of the roof and into the Post Office. It is generally felt by the group that the two minute control is necessary to get the people into the building without any problems.

HARDY went on to explain that each night checks are run at ten-minute intervals. He stated for example that the group would start at 11:40 p.m. and if all points check out this is noted, then the group will start over again at 11:50, and then 12, 12:10, and 12:20 down to about 1:30 p.m. He advised these checks are run in ten-minute patterns and that different things or procedures are tried out as far as control and tests are concerned.

HARDY advised that GRADY's position is now in the churchyard next to the Methodist Church, 15th and Cooper. HARDY explained that GRADY, from the churchyard, can observe the platform of the Post Office.

HARDY went on to relate that GRADY usually stays in the churchyard or on surveillance until about 8:30 in the morning and that COOKIE and ANITA stay until about 3:30 or 4 a.m. HARDY made the observation that GRADY and his group are very dedicated to what they are doing.

PH 52-7165 Sub S

HARDY advised that he had been approached by GRADY to drive GRADY to North Jersey on Wednesday, July 14, 1971, and that he has consented to take GRADY on the trip. HARDY explained that GRADY will give a lecture in Fairlawn, N.J., to a group of educators. This lecture was set up by MEL MADDEN and GRADY will contact MADDEN while in North Jersey.

In regard to the Wilmington draft board action, HARDY advised that GRADY told him that the action did not come off as planned. The original plan it seems was that GRADY was a couple of blocks away from the draft board and was supposed to pick up the rest of the team and then proceed to the draft board to pick up those who went in. In the meantime, TONY SGOBLICK had already picked up the group who had gone inside the draft board. He related that the situation was sort of funny in view of the fact that some of the participants were drinking coffee at a Dunkin' Donuts Shop within a couple of blocks of the draft board, and that a state policeman came in and engaged some of the people in a conversation. GRADY went on to relate that some of the people who had gone into the Shop were very up-tight about the policeman.

HARDY advised that GRADY related this story in a humorous vein.

FEDERAL BUREAU OF INVESTIGATION

Date 7/16/71

ROBERT WILLIAM HARDY telephonically contacted SA TERENCE P. NEIST and SA MICHAEL M. RYMAN, and advised as follows:

On July 13, 1971, he went to the residence of Dr. WILLIAM ANDERSON, Harding Avenue and South Park Drive, Collingswood, N. J., for a meeting. Upon his arrival there he met a ROBERT GOOD. GOOD is approximately 5'8" in height, 160 pounds, and is a former seminarian. GOOD dropped out of college in his sophomore year and is approximately 22 years of age. He has been "more or less drifting around" and is with the underground system. GOOD attended all the trials regarding draft board break-ins and the burning of draft cards within the last six months to one year. He is a white male and has curly brown hair which is slightly longer than the average hair style. He is good-looking, has thin features and is of medium build. He is from a town outside of Pittsburgh, Pa. While talking to GOOD, he (GOOD) mentioned that he was involved in the "Trenton action" that took place within the last six months.

GOOD also talked about the attempted break-in at the Garden City, Long Island, FBI Office. GOOD indicated that he was in some way involved in this attempted break-in (Garden City FBI Office). GOOD also mentioned that people from Brooklyn, N. Y., were tied in with the "Garden City action."

GOOD related to him about his (GOOD's) brother, an ex-Peace Corps worker, who is also involved in the underground.

GOOD also mentioned to him that he (GOOD) was in contact with some people in Buffalo, N. Y., who are planning an action against the draft board in that area. They are, however, only in the initial planning stage with regard to this action.

On 7/15/71 at Berlin, N. J. File # Philadelphia 52-7165 Sub S
 by SA TERENCE P. NEIST

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

2.

GOOD mentioned a woman by the name of ANN who is from New York and who would possibly be interested in coming down for the Camden hit. ANN, according to GOOD, is living with someone by the name of FRANK on 121st Street in New York City.

He learned from GOOD that he (GOOD) is with the Defense Committee and that he has done an extensive amount of traveling throughout the country and checking on the Defense Committees throughout the country. GOOD specifically mentioned traveling to the West Coast and that he had stopped at four different Defense Committee offices in California, and then went to Seattle, Wash., and spent some time there before returning to New York City.

GOOD also talked about a nun or ex-nun by the name of ROSE in New York City who is very active as a militant member of the underground.

JOHN GRADY questioned GOOD as to what the Defense Committee would do with regard to the proposed hit in Camden. GOOD told GRADY that the Defense Committee was totally uninterested in anything that JOHN GRADY is doing at the moment. It was brought out during the conversation that a man named PAUL, whose last name begins with "M" (HARDY could not recall the last name), is on the Defense Committee in New York. GOOD mentioned that there was at least \$100,000 in the war chest of the Defense Committee in New York City and that this money is kept in a bank. Upon learning this, GRADY became very upset, since he is almost \$20,000 in debt due to the failure of three or four book stores which he had run.

After the meeting, BOB GOOD and GRADY left for the Camden area so that GOOD could become familiar with the Camden area and the group's plan of operation.

About five minutes after GOOD and GRADY left, ANITA, COOKIE, and HARDY also left for Camden. He (HARDY) dropped off ANITA and COOKIE at the Townhouse Apartments. COOKIE and ANITA had a walkie-talkie with them. The group tested the walkie-talkies on that night. COOKIE and ANITA were on the

rooftop in positions number two and three and he was at different points within a half-mile of the Townhouse Apartments. At about 1:30 a.m., he left the area. He later found out that BOB GOOD had on that night been on the rooftop of the Townhouse Apartments, in the alley and on the street, getting the general feel of the area. He also learned that GOOD, after the surveillance, went to the apartment of MIKE GIOCONDO, located at Third and Cooper Streets, where he (GOOD) will be staying as long as he is in the area. GOOD has been pressing for GENE DIXON or COOKIE to set up a meeting with KIRK, the Philadelphia locksmith so that he (GOOD) could learn information as to "lock picking." HARDY also added that others in attendance at the meeting were JOHN GRADY, COOKIE, ANITA and Mrs. GRADY. Mrs. GRADY sat in on the meeting for about a half-hour listening to conversations which centered on the whereabouts of old friends such as ROSE from New York, ANN and FRANK, and BOB's brother, JIM.

The meeting of July 13, 1971, started at about 9 p.m. and terminated at about 11:30 p.m., the time at which the group left for Camden.

On July 14, 1971, he (HARDY) went to the residence of Dr. ANDERSON in order to pick up JOHN GRADY for their trip to North Jersey. He drove to Dr. ANDERSON's in Father MICHAEL DOYLE's automobile. At about 8:30 a.m. he and GRADY left Fairlawn, N. J., traveling in Father DOYLE's automobile. They went to Jefferson High School in Fairlawn, N. J., where MEL MADDEN is running a drug seminar for local high school principals and educators in the area. This is an eight-day program. During the trip, conversation was generally "small talk" dealing with attitudes of the people involved in the group and GRADY's activities over the last 15 years. During these conversations, GRADY mentioned that DANIEL and PHIL BERRIGAN had a lot to do with his attitude with regard to the draft board hits and other matters.

They arrived at Fairlawn, N. J., at approximately 10:30 a.m. MEL MADDEN greeted them at Jefferson High School. With MADDEN were two people connected with this drug program whose names were STEVE and JIM. MIKE GIOCONDO was also at the high school. ERNIE BUSBY (or BUSBY), a Negro male from

Camden, was also there. BUSBY has been taken into the drug program as an apprentice and was there for that reason.

During the lunch break he conversed with MEL MADDEN. MEL MADDEN mentioned to him that it was the feeling among the East Orange, N. J., people and some of the New York City people that most of them do not want to be involved in the JOHN GRADY craft board action in Camden. MADDEN stated two reasons for this. One reason was that GRADY has been through 14 successful craft board hits and has not as yet been caught. They feel that "his time is coming." Another reason is that they feel that GRADY is on an "ego trip" following the Trenton hit which was not as successful as they would have wanted it to be. It is the opinion of MADDEN and many of his people that GRADY feels that he must do something for himself in view of the unsuccessful action in Trenton. MADDEN mentioned to him that on Sunday night, he (MADDEN) and some of his people will attend the meeting at Dr. ANDERSON's in Collingswood, N. J., and will confront GRADY with regard to the feasibility and desirability of the proposed Camden hit. MADDEN stated that the only reason that he and his people will be going to Camden is because they feel a commitment of some kind to GRADY.

At about 1:15 p.m. GRADY and he (HARDY) left the seminar. As they were walking through the parking lot they saw one of GRADY's old friends, JERRY MESHNICK. MESHNICK is about 50 years of age, he is a white male, thin build, 140 pounds, 6' in height. He has thin blond with grey hair which is worn long and is receding in the front. He has a "hawk-like nose" and blue-grey eyes. MESHNICK drives a late model air-conditioned station wagon. MESHNICK is with the World Federalist program, which is a group that is pushing for a world government. He has an office in New York City. JERRY MESHNICK's brother, GEORGE MESHNICK is in prison in connection with previous draft board actions.

MESHNICK, GRADY and he (HARDY) then went to Hawthorne, N. J., to see a man named PAUL (LNU) who has an automobile dealership in Hawthorne, N. J., known as "Paul's Motors" or Paul's Cars.

Upon their arrival at "Paul's Motors," MESHNICK went to the service area, followed by GRADY and himself. PAUL appeared very happy to see MESHNICK but when he saw GRADY his expression changed. Upon greeting GRADY, PAUL related that the FBI had been to see him (PAUL) on Tuesday wanting to know the whereabouts of JOHN GRADY, and also wanting information regarding a car bought by GRADY from him about a year and a half ago. It was PAUL's impression that the FBI has this vehicle in their possession at this moment in the Philadelphia area and that this car came to the FBI's attention with regard to the Philadelphia draft board actions. PAUL also believes that he (PAUL) is under surveillance due to the fact that he has been a financial supporter of JERRY MESHNICK in his World Federalist group and also due to the fact that for the last couple of years he has been a supporter of the East Coast Conspiracy to Save Lives and also a supporter of various draft board actions. PAUL indicated that he had provided financial support and also transportation in connection with previous draft board hits. After leaving "Paul's Motors," which is a Volvo dealership, they went to East Orange, N. J., to MEL MADDEN's apartment. GRADY had considered going into New York City instead of East Orange because he desired to confront some of the people on the Defense Committee who were, in his (GRADY's) words, "playing around with his money." But upon learning about the FBI looking for him, GRADY decided that it would be unwise to go to New York City and decided instead to go to East Orange. They were careful in driving to MADDEN's, parking approximately a block away from MADDEN's apartment. As he (GRADY) came out of the apartment, Mrs. ELIZABETH MADDEN was driving up in her vehicle. When GRADY saw her he got out of the car and called her and they all went into MADDEN's apartment. ELIZABETH MADDEN is an Irish girl with dark black hair. She has a small daughter about eight months old named COLLEEN. ELIZABETH MADDEN will be going to Ireland for four weeks this coming Friday. She appeared to be knowledgeable as to her husband's involvement with the group.

MEL MADDEN and MIKE GIOCONDO and BUSBY arrived shortly thereafter. A man by the name of STEVE, who lives in the same apartment house on the first floor and who works in the drug program with MADDEN, also came to the apartment.

6

A man named DICK, who lives on the first floor of the apartment house, also came into MADDEN's apartment. The man named DICK had checked to see whether or not there was an indictment or warrant out on GRADY's arrest. He was unable to learn complete information with regard to this, but did indicate to the group that the information with regard to the arrest warrant for GRADY was something that he had heard while at the Defense Committee headquarters in New York City. The group talked about the Massachusetts draft board break-in which had happened on Tuesday of this week. GRADY, who had read about it in the "Philadelphia Inquirer" on the way to New Jersey, had expressed a great deal of surprise when reading about it. MADDEN and the other men at the apartment were equally surprised. It was his (HARDY's) impression that there was no relationship between the Massachusetts draft board action and the contemplated action planned for Camden. The group engaged in small talk until about 4:30 or 4:45, at which time GRADY and he (HARDY) left for South Jersey.

HARDY stated that while at MADDEN's apartment it was pointed out that if the GRADY family needed an apartment to live in for a while they could have the use of the MADDEN's apartment, since Mrs. MADDEN was going to Ireland and MEL MADDEN would be working at Cape May Courthouse for ten days starting the next Wednesday. It was mentioned during this conversation that Dr. ANDERSON and his family will be coming back to Collingswood, N. J., on August 1. In reply to MADDEN's offer of housing, GRADY said that he and Mrs. GRADY had already planned on going camping for the month of August somewhere in the South Jersey seashore campground area. Upon arrival at the ANDERSON home at approximately 7:15 p.m., HARDY mentioned a campground guidebook for New Jersey by the telephone, which evidenced at that time Mrs. GRADY was doing some planning with regard to the camping trip. It had been mentioned that camping equipment is stored someplace in North Jersey and when they need it someone would bring it down to the GRADY family.

After leaving the ANDERSON residence at approximately 7:20 p.m., HARDY returned Father MICHAEL DOYLE's vehicle to him at St. Joseph's parish in Camden. He spoke with Father DOYLE for a few minutes at this time.

7

HARDY mentioned that the address of MADDEN's apartment was 546 Park Avenue, East Orange, N. J., and that the apartment is on the second floor front.

HARDY described BUSBY as a Negro male, about 5'8" in height, 140 pounds in weight, with an Afro type haircut. BUSBY usually wears a knitted cap which is red, yellow and green. He is 24 to 25 years old and very young looking. He has deep set eyes and two distinct lines under each eye. BUSBY's first name is either ERNIE or IRVIN. At this point BUSBY appears not to be involved in the proposed Camden action.

At 9:15 p.m. on July 14, 1971, he returned to the residence of Dr. WILLIAM ANDERSON, Collingswood, N. J. Present upon his arrival were ANITA, COOKIE, BOB GOOD and JOHN GRADY. GRADY's morale was low due to lack of sleep, longer hours, the long drive to New York, the information with regard to lack of finances forthcoming to the New York Defense Committee, and also due to the fact that he had learned that the FBI was looking for him in Hawthorne, N. J.

He (HARDY) talked with BOB GOOD for about 20 minutes. GOOD related to him that he had gone to Havana, Cuba, for four to six weeks last fall with a group of 400 people who left from Canada. While in Cuba these people worked in the sugar cane fields. He learned from GOOD that he (GOOD) has been involved in the underground with the East Coast Conspiracy to Save Lives. He also learned from GOOD that he (GOOD) is on the payroll of the New York City Defense Committee.

BOB GOOD related to him that he (GOOD) was part of a group that tried to have a citizens' arrest of the man in charge of the Selective Service System in Washington, D. C. GOOD mentioned that he and five other people from the East Coast Conspiracy to Save Lives took part in this. GOOD mentioned that they walked in on a press conference he was having and reading a proclamation that they were going to arrest him because he was a war criminal. JIM GOOD then went over to the man and tried to arrest him. The Selective Service Director then stood up, showing that he was approximately 6'6" in height and 240 pounds. The Selective Service Director then gave JIM GOOD a backhand, knocking him down. BOB GOOD

mentioned that he then went over and tried to grab one of the arms of the Selective Service Director, who then gave him a backhand. GOOD said that, being unsuccessful in their arrest, they handcuffed themselves together hoping that the police would come and arrest them. The building guards then came in and took the six people out of the building, leaving them on the front steps. GOOD mentioned that reporters then came and that neither JIM GOOD nor BOB GOOD knew what to say to the reporters. After sitting a while, hoping that the police would come and arrest them, they simply unhandcuffed themselves and left the area.

GRADY mentioned that he felt that there was a secret Grand Jury in session in Philadelphia that was going to issue a material witness arrest warrant for him in connection with the Harrisburg or Philadelphia draft board incidents. He is concerned that once arrested the bail will be set at such a high figure that he will not be able to raise it and the Defense Committee will not justify putting up that much money for him.

The group then went over what had been done on Tuesday night in connection with the surveillance and the checking out of the walkie-talkies. GRADY spoke of how he surveils from the playground area behind the church, adjacent to the alley behind the post office. GRADY indicated that he feels very comfortable at this observation point doing his "Irish drunk thing." HARDY explained that GRADY always keeps a half-bottle of whiskey in his little blue flight bag and that he takes a drink out of this bottle whenever anyone notices him.

It was established during the meeting that GRADY would go to bed early that night rather than going into Camden for the surveillance so that he could get a good night's sleep. It was decided that BOB GOOD, ANITA and COOKIE would go into Camden and do the surveillance for the evening.

He left the meeting at approximately 11:15 p.m.

The maps, notes, slides, etc., were still located at the ANDERSON residence but are located between the small television room and the crib, which is in the first floor bedroom area.

PH 52-7165 Sub S

2
HARDY advised that the plans call for the van which carries the hit team to the fire escape area to stay there while the people are inside the draft board.

HARDY advised that BOB OBERKIRK's "Half Way House" is located on the northwest corner of the intersection of Third and Market Streets, Camden, N. J. It is located across from Bird (phonetic) Wall Paper and across from Humphrey's Real Estate.

Date 7/19/71

ROBERT WILLIAM HARDY telephonically contacted SAs TERRENCE P. NEIST and MICHAEL M. RYMAN and advised as follows:

On July 15, 1971, he was supposed to meet GENE DIXON at 3 p.m. at the White Tower Restaurant, Fifth and Market Streets, Camden, N.J., for the purpose of going to the second floor of the Post Office Building where they could "case" the second floor and possibly gain entrance to the FBI Office.

He waited until 3:12 p.m. and when DIXON did not arrive he proceeded to go into the building for the above mentioned purposes.

After leaving the Post Office Building he encountered COOKIE and BOB GOOD at the White Tower Restaurant.

At approximately 9:15 p.m. on July 15, 1971, he arrived at the residence of Dr. ANDERSON, Harding Avenue and South Park Drive, Collingswood, N.J. Those present at his arrival were JOHN GRADY, GRADY's wife and family, BOB GOOD, COOKIE and ANITA. MARTHA SHEMLEY and GENE DIXON arrived at approximately the same time he did. About ten minutes after his arrival GEORGE and LOUISE SLATER arrived. Shortly after the SLATERS arrived Dr. ANDERSON came to the residence. GENE DIXON made mention that he did not show up for the three o'clock meeting for that day because he had not been feeling well and had to take a couple of days off from work.

BOB GOOD, ANITA, SHEMLEY, DIXON, COOKIE and JOHN GRADY went into the basement while he (HARDY) stayed upstairs with the SLATERS and Dr. ANDERSON while they had dinner. At about 11:30 p.m., JOHN GRADY came upstairs from the basement and told him (HARDY) that he wanted him to come down to the basement for the discussions.

105

He (HARDY) went down to the basement at approximately 11:50 p.m. and joined ANITA, GOOD, SHEMLEY, DIXON and COOKIE. Those mentioned were in the process of putting all of the group's notes, diagrams, drawings, slides and pictures down on papers and charts and assembled their notes. They were preparing everything so that it would look very professional on Sunday night when MEL MADDEN came down for the meeting from North Jersey.

While in the basement he (HARDY) noticed that BOB GOOD had made up a tentative list of names of people from the New York area whom he had either approached or was going to approach with regard to participation in the hit. He managed to determine the names that were on this list, which were as follows:

RORO
ANN DUNHAN
FRANK PINAMOAZATA
JUDY SWIGLISH
ED MC DOVNER

He mentioned that the spellings of the various names mentioned were probably not exact since he had to read them from GOOD's handwritten notes.

While in the basement the group continued to discuss the notes, drawings etc. At about 12:15 a.m., JOHN GRADY and Dr. ANDERSON came down to the basement and stated that the SLATERS had left. The group then viewed slide projections of some of the new slides that MIKE GIOCONDO had recently gotten developed. They went over the diagrams again until about one o'clock a.m.

As he left it was mentioned that GENE DIXON and MARTHA SHEMLEY were going to Camden that night to do surveillance on the roof of the Townhouse Apartments. It was also mentioned that COOKIE, ANITA, GRADY, and GOOD would also go into Camden for surveillance work.

The members of the group have made observations with regard to the police patrol car patterns in downtown Camden.

These observations are noted in their notes. For instance, they have noted that from the corner of Fourth and Cooper one can see from the underpass going from North Camden on Fourth Street, only to market Street. They have noted that from Sixth and Cooper to Second and Cooper they are also able to distinguish an approaching vehicle such as a police car. They have estimated the traffic light pattern in regard to the length of the red lights. They have noted that if a police car hits the green light at Third and Cooper that they will also make a green light at Fourth and Cooper and that if this car travels hurriedly it would also make the light at Fifth and Cooper enabling the car to pull up in front of the White Tower Restaurant. They have also noted that if a police car would catch a red light when coming off of third on to Cooper that this car would also catch the red light at Fourth and Cooper.

It was mentioned during the meeting that BOB GOOD would be leaving the area in the morning and go to New York City where he will be until Sunday.

As the plans now stand the look-outs on the night of the hit will be in vehicles.

During last night's meeting COOKIE mentioned that she has been in contact every day with ANN (from Philadelphia). COOKIE also mentioned that two or three of her friends will be coming into the operation, to serve as look-outs.

FEDERAL BUREAU OF INVESTIGATION

Date 7/20/71

ROBERT WILLIAM HARDY telephonically contacted SA TERRENCE P. NEIST and SA MICHAEL M. RYMAN and advised as follows:

On Friday evening, July 16, 1971, he and MIKE GIOCONDO went to the residence of DR. ANDERSON, located in Collingswood, N.J. Upon their arrival, he noted that those present at the residence were JOHN GRADY, GRADY's family, MARTHA SHEMELEY, GENE DIXON, COOKIE and ANITA. Also present were COOKIE's mother and COOKIE's mother's boy friend, who stayed for only about ten minutes. It was indicated that she, COOKIE's mother, had done some shopping and was at the residence only because she had dropped off COOKIE there.

After about 10 or 15 minutes of general small talk, the group went into the basement of the ANDERSON residence to work on drawings and notes which had been accumulated to date.

HARDY observed that GRADY appeared very moody and "blew up" saying that he was tired of being in charge of everything, and that he wanted the other members of the group to take more initiative. He directed these comments to COOKIE and ANITA.

The other members of the group then determined what positions would be taken for their nightly surveillance. It was determined that COOKIE and ANITA would take the positions on the roof of the Townhouse Apartments, and that MIKE GIOCONDO would go to the 5th and Cooper Streets corner of the Church where he would set on the steps and observe the police patterns on Cooper Street, 5th Street and Market Street.

He (HARDY), was supposed to go to the playground area behind the Church and watch the Post Office Building. SHEMELEY and DIXON were unable to work the surveillance on

On 7/17/71 at BERLIN, N.J. File # PHILADELPHIA 52-7165 SUB S

108

that night, but they did stay at ANDERSON's until at least 12:00 midnight at which time he, (HARDY), left. When he left, SHEMELEY, DIXON and the other members of the group were working on the drawings, diagrams and notes.

The meeting consisted generally of transcribing the notes into charts which would indicate the days of the week, the dates and times of observations. It was the group's intentions to summarize all data which had previously been accumulated.

Upon arriving in Camden, GIOCONDO took him, (HARDY), to pick up his truck. GIOCONDO then went into Camden so that he might change into darker type clothes. He, (HARDY), drove his truck to the White Tower restaurant located on Market Street in Camden and then walked up to the steps where GIOCONDO was, by that time, located. He exchanged a few words with GIOCONDO and then went around to the playground area behind the Church located at 5th and Cooper Streets. Due to a vehicle being parked there, with a boy and girl inside, he was unable to set up his surveillance at that point and, therefore, went back to where GIOCONDO was. He then spoke to GIOCONDO for about an hour and a half, during which time three different police cars passed them. He, (HARDY), personally knew the police officers driving these vehicles, and those officers said hello to him.

He, (HARDY), noted that GIOCONDO was getting a bit nervous about the surveillance, and he, (HARDY), mentioned that he would walk through the neighborhood. He, (HARDY), walked down Cooper Street, up 4th Street, and checked out the roof top of the Townhouse Apartments, observing from the street, seeing if he could observe any of the people on the roof.

He then went up Markly (phonetic) Alley, which is an alley behind the Post Office, got into his truck and left the area. The time at this point was approximately 1:15 to 1:20.

HARDY related that after "blowing up", GRADY left the basement area during the meeting and was not seen by the other members of the group for the remainder of the evening. He mentioned that GRADY has been sick with an ear and throat infection for the last two or three days, and that DR. ANDERSON examined him on Thursday night and had prescribed some medicine for him. He also observed that GRADY is very tired due to the

fact that he has been getting very little sleep recently. The incident that caused GRADY to "blow up" was when COOKIE asked him what the positions would be for the night surveillance. It was at this point that GRADY said to COOKIE that he was tired of being the "professional manager" of the group, and that other members of the group should also assume some initiative.

During the meeting, COOKIE mentioned that she had been talking with the New York City Defense Group sometime on the day prior.

HARDY overheard COOKIE mentioning to GRADY that the New York City Defense Group was going to send some money down to someone by the name of DAN in Woodbury, N.J. It was also mentioned during this conversation that DAN has some filing cabinets from the Philadelphia bookstore in his home in Woodbury and that COOKIE was going to make some arrangements to pick up these filing cabinets during the weekend. It was mentioned that she would probably bring them to DR. ANDERSON's residence.

HARDY also mentioned that while he was riding with MIKE GIOCONDO, GIOCONDO mentioned that the CALAHAN previously referred to is JACK CALAHAN who lives in Merchantville, N.J., and is an Auditor for Governor CAHILL in connection with a state-wide program dealing with budgets. It was mentioned that CALAHAN is either in charge of or second in command in this agency. GIOCONDO mentioned that CALAHAN was very active in the group until about two or three weeks ago.

HARDY mentioned that upon further observation of DR. ANDERSON's residence, he has noted that the house is of wood except for the rear of the house which is of brick. He noted that the house is painted white with black trim.

It was also mentioned during the meeting that DIXON would possibly attempt to gain entry to the FBI Office in Camden using the pretext of gaining information with regard to the Ex-Convict Program.

FEDERAL BUREAU OF INVESTIGATION

Date 7/20/71

ROBERT WILLIAM HARDY telephonically contacted SAs TERRENCE P. NEIST and MICHAEL M. RYMAN and advised as follows:

On July 18, 1971, he went to the residence of Doctor WILLIAM ANDERSON, Collingswood, N. J., arriving at approximately 8:30 p.m. Upon entering the residence, he noted that those in attendance were JOHN GRADY, MEL MADDEN, GENE DIXON, MARTHA SHELLEY, MIKE GIOCONDO, BOB GOOD, ANITA, and COOKIE. He noted that the conversation as he entered was centered upon the fact that the target date had been tentatively set. It was mentioned by members of the group that they did not want anyone outside of those in attendance on that night to know any further details regarding the hit. When MEL MADDEN questioned GRADY with regard to the definite time and date of the hit, GRADY replied that the hit would take place within the next ten to fourteen days. GRADY also mentioned that if the hit was not made within the next fourteen days, then it would have to be cancelled. ANITA mentioned that a prime consideration within the underground movement is that individuals must be patient, especially with regard to the "casing" of a draft board.

MADDEN stated that after the draft board hit was completed, the group should sit down and discuss what further activities would be undertaken by this particular segment of the East Coast Conspiracy group. MADDEN indicated to the group that he felt that the time for draft board hits was over. From what MADDEN said, it was his, HARDY's, impression that the draft board hit in Trenton either apparently "Did not come off" or that it was unsuccessful.

A slide projector was then brought forth and slides were shown. These slides were slides of the Post Office which MIKE GIOCONDO had taken. The members of the group then discussed the different ways by which they could gain access to the draft board window. While this was being done,

On 7/19/71 at Berlin, N. J. File # Philadelphia 52-7165-Sub S

by SAs TERRENCE P. NEIST and MICHAEL M. RYMAN TPN:caq Date dictated 7/20/71

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

COOKIE and ANITA were setting up the chart which dealt with the commitments for the surveillance for that night. A new surveillance point is now being used by the group. This point is a small parking lot on 4th Street, between Cooper and Market Streets, on the west side of the street. DIXON and SHIMLEY drove their car to this parking lot on the night of July 18, 1971, parked it there, and from there were able to observe a portion of the Post Office mailing platform.

During their nightly surveillance, members of the group make note of license numbers of vehicles which they believe to be unmarked police cars, carrying plainclothes detectives.

It has been his, HARDY's, observation during recent meetings, that GRADY is pushing some of the responsibility for the action on COOKIE and ANITA.

On the night of July 18, 1971, he, HARDY, took his van to the area behind the Post Office building and parked it in the United States Attorney's (USA) parking space. It had been determined by the group that they would leave the vehicle parked in the alley to see if anyone would have any objection to having it parked there for the night. It was decided that on several nights, he would leave the vehicle parked there until 6 o'clock in the morning, at which time he would pick it up.

On the night of July 18, 1971, JOHN GRADY passed by the police garage, and City Hall, noting license numbers which could possibly be unmarked police cars.

During the surveillance, BOB GOOD and MEL MADDEN were on the roof of the Town House Apartments with GOOD being at the rear of the building in the position referred to by the group as position number one. MEL MADDEN was with GOOD for the purpose of getting the feel of the situation and so that GOOD might explain to him what is looked for during the surveillances. MADDEN stayed with GOOD for the first hour of the surveillance. For the second hour of the

surveillance, MADDEN was with him, HARDY, in the front position.

COOKIEE drove with GRADY for the first hour of the surveillance, noting the license numbers of the vehicles in the area.

ANITA gained entrance to either the roof or the fifth floor of the new Rutgers Law School building, and conducted surveillance from that point. It was noted by HARDY that there are two doors to this building, one on 5th Street and one on 4th Street.

MIKE GIOCONDO surveilled from the steps of the church, near 5th and Cooper Streets. The members of the group have decided that if they are questioned by a policeman with regard to their activities on the street, at any time during the surveillances, they will say they are waiting for the number 53 bus to Clementon (which only runs every two or three hours).

A radio check was conducted at 1 a.m. by ANITA (who was on either the fifth floor or the roof of Rutgers Law School) and two individuals on the roof of the Town House Apartments. Another radio check was to have been conducted at 2 a.m.; however, since he, HARDY, left at 1:45 a.m., he was unaware of the results of the second radio check. GRADY was displeased with the reception on the radios, due to the fact that there was much static received.

It was mentioned during the evening that BOB GOOD had done his job well in New York, and that several of the people whose names were on his list were coming down from New York for the action. GOOD stated that BORO would be coming down for the action. GOOD stated that BORO was ROSEMARIE REILLY. GOOD mentioned that on Tuesday he would return to New York and continue a recruitment drive. GOOD asked him, HARDY, if he would like to go to New York City after the action was completed and "make the underground scene" and meet some of the people involved in the underground.

remain open for about 90 seconds, that they will be successful in getting all their people from the van onto the roof of the Post Office building. Plans call for two cars to be used to block those intersections, in the event of the approach of a police car, while people are gaining entry to the Post Office building. Plans would call for one car to begin a turn while the other car would start to signal for another turn, which would result in blocking the street. The driver of one of the cars would then get out of his automobile and go to the police car, and ask directions for Fairview Street or some other street.

Plans as they stand now call for gaining entry to the building by means of placing a ladder against the building in such a manner that it would give entry to the platform roof. From the platform roof, the hit team would be able to gain entry to the second floor roof.

Plans call for the hit to take place after midnight since a group of Puerto Ricans usually sit on the front steps on 4th Street, looking down the alley every night until about midnight.

BOB GOOD stays at MIKE GIOCONDO's apartment at night. During the day, GOOD and COOKIE walk around Philadelphia, Pa., and visit some of their mutual friends. It has been mentioned that GOOD has seen the locksmith known as KIRK.

It was pointed out during last night's meeting that there was only one action, out of the fourteen draft board actions, wherein the group feels that someone informed to the police. It was mentioned that there was one wherein the police were waiting for "the hit team" as they went to the draft board.

The papers and notes, diagrams and charts are located in the crib in one of the bedrooms, the first floor bedroom, and the TV room. Everything was taken out of the basement last night and brought upstairs, due to the fact that work is now being conducted in the kitchen.

It was mentioned that if the group is able to determine a stable pattern, that they possibly will be able to get six or seven people onto the roof, and that perhaps one or two of them could "take a shot" at the Army Intelligence Office or even the FBI Office.

The group is now considering a Saturday night as well as Sunday night as the possible night for the hit. The reason for this is that from their surveillance, they have found that the various patterns on Saturdays would possibly be more conducive for a successful hit than those on Sundays. It was mentioned that DIXON's apartment would be used as sleeping quarters for some of the "old actors" who would be coming in for the hit. Dr. ANDERSON's flat on Broadway and Royden, above his office, and MIKE GIOCONDO's apartment would also be used as sleeping quarters for those "old actors" who would be coming in for the hit.

Those members of the group who conduct surveillances from the Rutgers Law School are able to gain entry through the door on the 5th Street side. This is a door with a plywood panel which is wired. They have snapped the wires and re-wrapped them with their fingers, making it possible with very little effort for them to lift the panel and thereby gain entry. Surveillances from the Law School are conducted either from the fifth floor, south side offices, or from the rooftop itself. ANITA mentioned that from the Law School, that she could see his, HAROLD's, van, which was located in the alley behind the Post Office. She also mentioned that she had a very good view of the Post Office building.

GOOD had mentioned that he was able to recruit four or five people from New York for this operation.

GRADY still plans to be on the rooftop of the Town House Apartments at the time of the hit.

The members of the group feel that the critical corners are the 4th and Market Streets corner and the 4th and Cooper Streets corners. They feel that if these corners

In making notes, the group uses a coded system. They do this so that if they are picked up by the police, the notes will not be understandable to the authorities. He explained that, for instance, instead of writing "3 a.m.," they would write 85, knowing that this would mean 8-5, therefore, 3. Every person in the group has his own personal code, thereby making it very confusing to anyone who would try to translate. When the group gets together to assemble the information, each member of the group translates their code to either ANITA, COOKIE, or MARTHA, so that all information can be compiled on charts, in such a way as to be understandable to all. They also use the code in referring to streets. For instance, Market Street is indicated as F. Cooper Street is G. A police patrol car is Z.

FEDERAL BUREAU OF INVESTIGATION

ROBERT WILLIAM HARDY telephonically contacted SAS TERRENCE P. NEIST and MICHAEL M. RYMAN and advised as follows:

On Saturday, July 17, 1971, he went to the residence of Dr. ANDERSON, Collingswood, N. J., arriving at approximately 8:30 p.m. He left the residence at 9:10 p.m., and returned at 12:30 a.m., July 18, 1971, at which time he noted that COOKIE and ANITA were leaving the residence. He had a brief exchange of conversation with them and they indicated they were going to Camden, N. J., for their nightly surveillance.

FEDERAL BUREAU OF INVESTIGATION

Date 7/21/71

ROBERT WILLIAM HARDY telephonically contacted Special Agents TERRENCE P. NEIST and MICHAEL M. RYMAN and advised as follows:

On July 19, 1971, he picked up MIKE GIOCONDO at approximately 8:30 p.m. in front of the Walt Whitman Hotel in Camden, N. J. They then went to the residence of Doctor ANDERSON, Harding Avenue and South Park Drive, Collingswood, N. J., arriving at approximately 8:45 p.m. Upon arrival he noted that those present at the ANDERSON residence were MARTHA SHEMELEY, GENE DIXON, COOKIE, ANITA, JOHN GRADY, GRADY's family, and BOB GOOD. All members of the group were in good spirits due to the fact that they felt that the Sunday night surveillance had gone exceptionally well.

At about 9:30 p.m. to 9:45 p.m. all members of the group went into the basement of the residence where the maps and drawings are kept on the ping-pong table. It was at about that time that Doctor ANDERSON came to the residence. He had something to eat and after that joined the rest of the group in the basement.

JOHN GRADY has devised a plan that calls for several cars to block key intersections at the time of the hit to insure that the hit team has sufficient time to go unnoticed from the alley to the roof of the Post Office Building.

BOB GOOD mentioned that RO RO. is ROSEMARIE RILEY (phonetic). GOOD also mentioned that he is leaving for New York on Tuesday morning and will spent a couple of days there contacting others who are experienced in actions of this type. GOOD mentioned that he did not feel that it would be any trouble to get additional "old actors" to come down for the hit.

On 7/20/71 at Berlin, N. J. File # Philadelphia 52-7165 SUB S
 by SAs TERRENCE P. NEIST and MICHAEL M. RYMAN ^{TPN} TPN/tac Date dictated 7/21/71

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

It was mentioned that GENE DIXON has taken a week off from his job in order to do some daytime surveillance work in Camden. It was his (HARDY) impression, from what was said, that DIXON would possibly be coming back into the Post Office Building to look around a bit more. It was also mentioned that possibly one person would go into the Post Office Building the day before the hit and stay there until the hit took place. JOHN GRADY mentioned that he liked the idea of someone spending the night prior to the hit in the Post Office Building.

ANITA gave her report as to what was seen by her from the Rutgers Law School roof and from the fifth floor offices of the Rutgers Law School. This information was of assistance to the group in determining the night watchman's pattern.

Last night the group started dry runs with regard to the working out of the signals that will be used enabling the person on the roof of the Towne House Apartments to know whether or not Cooper Street, Market Street, Fourth Street, and Fifth Street are clear. The procedure is for the person who is on foot at Fifth and Market Streets, on the southwest corner in front of the drugstore, to make the determination as to whether or not Market Street is clear of police patrol cars. When he has determined that Market Street is clear he will walk caddy-corner from the drugstore to the White Tower Restaurant (located at Fifth and Market Streets). A person who will be at Fifth and Penn Streets will be able to observe the person at Fifth and Market Streets as he crosses the street. The person at Fifth and Penn Streets will be equipped with binoculars and a walkie-talkie. The person at Fifth and Penn Streets will, upon noting the individual cross the street, signal by radio to the individuals on the roof of the Towne House Apartments. At the same time those on the Towne House Apartment roof will have Cooper Street under surveillance. A third point which the group will have to insure is clear is Fourth Street. They will have someone located at Fourth and Arch Streets with a walkie-talkie who will be able to give a signal. The radio transmissions should not take more than five seconds. Once the signal is "go" the man or woman on the roof (who is in charge of communications) will send a signal down to the alley for the team to come out of the van. The group feels that they would need a full minute of protection in order to insure safe passage from the alleyway to the roof of the Post Office Building. Plans call for a sufficient number of cars to be on the street in order to block the intersections at Fifth and Market Street, Fourth and Cooper Streets, and Fourth Street near Arch Street. The individuals who are in

the cars will block the traffic flow by stopping their cars and talking from one car to another as if obtaining street directions. If the police approach them they will wait in the cars until the police come to them to attempt to move them.

HARDY stayed at the meeting until about 11:15 p.m. at which time he left.

Plans currently call for a walkie-talkie to be with someone in the alley. GRADY has mentioned that he wants two more walkie-talkies which would be of a better quality than those which they have already obtained. He desires this so that the person on the roof of the Towne House Apartments can receive the transmissions from the person at the Fifth and Penn Streets corner. During the radio check it had been determined that there was quite a bit of interference due to the buildings which came between the rooftop and the person on the street.

GRADY mentioned again last night that the hit would have to take place before August 1st since Doctor ANDERSON's family was returning to the residence on that date. GRADY also mentioned that the hit would take place well in advance of August 1st, and that August 1st was the "outside date."

If it is determined that a person will be sent inside the building on the day before the hit, it will be necessary for the hit to take place on Saturday night. This is due to the fact that it is not possible to gain entry to the second floor of the Post Office Building on any day other than a weekday. If a member of the team does go into the Post Office Building on the day prior to the hit this person would go to the fifth floor and step out the hallway window and go around to the Fourth Street side of the Fifth Street roof. There is a six foot wall which goes all the way around the top of the fifth floor. There are no windows on that side. It is his impression that either COOKIE or ANITA would be the individual who would go into the building on the day before the hit (if it is determined that this should be done).

Members of the group were saying on Sunday night that all unnecessary chatter should be eliminated while they were working on the plans and that nothing regarding the plans should be mentioned to anyone outside the group.

PH 52-7165 SUB S

He (HARDY) talked with Mrs. GRADY who said to him that she feels that JOHN GRADY is going to have problems this time. She indicated to him (HARDY) that she has a very bad feeling about this operation.

FEDERAL BUREAU OF INVESTIGATION

7/22/71

Date _____

ROBERT WILLIAM HARDY was interviewed and advised as follows:

He would present the present plans for the Camden "Draft Board action" as told to him on July 19, 1971, at Doctor ANDERSON's residence, Collingswood, N. J., by JOHN GRADY, ANITA, and COOKIE.

The plan involves about 22 people, approximately 10 automobiles, and 4 walkie-talkies (which are referred to as "headsets" by members of the group). The plan is initially concentrated on three points. The first key point is the "number two position" on the Townhouse Apartment roof. There will be four people on the roof of the Townhouse Apartments. One will be at the rear of the building looking toward the alley behind the Post Office Building. The "number two position" is the key position of the entire operation. The person in the number two position will be the individual who gives the signal to start or stop the operation depending on the situation as seen by the lookout. The "number three" and "number four" positions are "lookouts" who will be on the Townhouse Apartment roof looking east and west on Cooper Street. These individuals will be within walking distance of the number two position. Plans call for JOHN GRADY to have the number two or key position.

A second key position is an automobile which will be parked by the Ben Franklin Bridge on Fifth Street in the vicinity of Fifth and Penn Streets. The individual in this vehicle will have a direct view of the third key position which will be a person standing on the southwest corner of Fifth and Market Streets, directly opposite the White Tower Restaurant.

On 7/20/71 at Berlin, N. J. File # Philadelphia 52-7165 SUB S
by SAs TERRENCE P. REIST and MICHAEL M. RYMAN TPN/tac Date dictated 7/22/71

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

There will be two cars on Market Street at Fifth.
There will be two cars on Fifth Street at Market.

When the individual located on the southwest corner of Fifth and Market Streets (who is referred to as key position number three) steps from the corner and walks diagonally across the street to the White Tower Restaurant he can be seen by the man in the vehicle who is in the vicinity of Fifth and Penn Streets. The man on Fifth and Market Streets will cross the street to the White Tower as so indicated when he has determined that Market Street and Fifth Street are clear of any police cars.

There will be two individuals in the car located at Fifth and Penn Streets. When the individuals in the car observe the man to cross the street, they will say "go" over the walkie-talkie. This will be received by JOHN GRADY, the "key man" on the roof of the Townhouse Apartments. When GRADY hears the word "go" as transmitted from the car at Fifth and Penn Streets he (GRADY) will look to the people at the number three and number four positions. If they indicate to him that Market Street is clear he (GRADY) will then say "go" into the walkie-talkie. These are the only walkie-talkie transmissions which will take place on the night of the action.

One of the individuals in the van which will be parked in the alley behind the Post Office Building will also have a walkie-talkie. This individual will be able to hear the signals of both the lookout at Fifth and Penn Streets and GRADY. When the man in the van with the walkie-talkie hears the second "go" the back doors of the van will open up and those in the van will exit from it carrying with them a nine foot ladder. This ladder will be placed against the overhanging roof on the platform behind the Post Office. The "hit team" will then go on to the roof of the platform from the side position. They will be entering the roof from the Fifth Street side of the roof. There will be six people who will be going into the building. These individuals will go up the ladder and the first man up will turn around and pull up an additional nine foot ladder which he will place against the wall from the platform roof to the second floor roof. He will proceed to go up the ladder

followed by the others. When the last individual goes up the ladder onto the platform roof the individual who remains with the van will take the ladder down and put in in the van. He will then either lock the van and walk away from the area or he will drive away in the van. At this point it would appear most likely that he would lock the van and walk away from it.

As the last man goes over the second floor roof he will pull the ladder up behind him so that it will not be visible. They have determined that they need about sixty seconds to get the people from the van onto the roof.

While members of the "hit team" are going up the ladder the cars if need be, will start moving down Market Street, down Fifth Street, across from Fourth and Cooper Streets, across from Fourth and Market Streets so that they will effectively block off all entrances so that no one can see the van.

Two cars will be parked by the White Tower Restaurant, Fifth and Market Streets, waiting for the light on Market Street. Two cars will be parked on either side of the street on Fifth Street pulling out after the man (Fifth and Market Streets) gets halfway across the street. In other words this gives the man at the key position located at Fifth and Penn Streets clear vision of the man crossing the street.

The two cars on Fifth Street will then pull out so as to effectively cut off Fifth Street from any Market Street approach. The traffic light signal will dictate which of the two cars will start down Market Street first.

At the same time a car will be on Fourth Street waiting for the light at Fourth and Market Streets. This vehicle will be on the southeast corner of that intersection. There will also be another car between Market Street and Markley Alley.

Another car will be at Fourth and Cooper Streets on the southeast corner of that intersection. Another car will be at Fourth and Cooper Streets on the northwest corner facing south.

If the need arises those individuals in these cars will drive around the block in order to give the hit team the necessary protection in order to get into the building. If necessary these vehicles will block the corners of Fourth and Cooper Streets, Markley Alley, the corner of Fourth and Market Streets, and if necessary the corner of Fifth and Market Streets. All of this will take place within a time span of sixty seconds.

There will also be a group of "out riders," that is other cars which will be in the area at a distance further away from the Post Office Building. At this point there has only been one "out rider" that has been designated and that is one that will be at Third and Federal Streets facing east. It has not as yet been determined what the function of this individual in this car will be.

The general thought of the group with regard to the plans would be that if something happens after the second "go" the cars will return to their original positions.

The group has been operating on ten-minute intervals while "casing" the Post Office. During the surveillances the group makes notations for each ten-minute interval; for instance, from 11:50 to 12 o'clock midnight. They are attempting to learn of a thirty-minute time frame wherein the traffic and police patterns would be suitable for their gaining entry to the building. They then plan to take the ten minutes from the middle of this thirty-minute frame and use this ten-minute frame for the hit.

The driver of the van after locking the van (after the hit team has entered the building) would walk away to a pre-determined position which would most likely be the churchyard behind the church located at Fifth and Cooper Streets.

In order for the operation to be initiated, the conditions at the three key points have to be met. That is, the man at Fifth and Market Streets after observing that all was clear must step off the curb and walk directly across the street to the White Tower. The man in the car at Fifth and Penn Streets would have to note this and signal the first "go." GRADY on

the rooftop of the Townhouse Apartments then would check out number three and number four positions visually to see if he had the all-clear signal from them. If he does he would then give the second "go." The two "go" signals should be heard within a five to ten second interval. If a second "go" signal is not given the vehicles will return to their original positions and wait another ten minutes in order to set everything up again. For instance, if it is originally planned to initiate the action at 11:50 but the second "go" signal is not received, everyone will return to their original positions and wait until 12 o'clock midnight. At 12 o'clock midnight then the man on Fifth and Market Streets would make his determination as to whether the area is clear or not clear and he would again step off and cross the street and thereby initiating the cycle.

The critical man is the man at the corner of Fifth and Market Streets. If he does not step off from the corner nothing is initiated.

Other than GRADY, it has not been firmly set up as to what individuals will be in what position. He believes, however, that COOKIE and ANITA will be part of the team that goes up on the roof.

The procedure for coming out of the building will be the same as the procedure followed when going into the building. The cars will line up in their original positions and the "go" signal will have to be given so that the man on the roof or the man in the van has some way of knowing that all is clear. The cars will again block the intersection. It is anticipated that since the hit team will be carrying bags or back packs with possibly forty to fifty pounds of files that it will take longer for them to exit than it did for them to enter. At this point it is anticipated that the hit team will use back packs since this would give them the freedom of their hands for use in descending on the ladder.

On Sunday night they were able to gain entrance to the Rutgers Law School but at this time it is not planned for anyone to be on the Rutgers Law School roof on the night of the

hit. The roof of the Rutgers Law School offers a very good vantage point of the rear of the Post Office Building.

JOHN GRADY told him the other night (he was unable to recall exactly which night this was) that he (GRADY) has been getting money from a millionaire who had shared the jail cell with one of the BERRIGAN brothers. He (HARDY) did not recall which BERRIGAN brother it was but did recall it was the BERRIGAN brother who went to jail first. This millionaire was in jail for some sort of stock manipulations and while in jail BERRIGAN was successful in making this man a believer within the BERRIGAN system. This millionaire supported GRADY when he (the millionaire) got out of jail by sending him a certain amount of money on a weekly or monthly period. This man's name was unrecalled. GRADY mentioned that this man, upon his release from jail, did not have as much money as he did when he was first imprisoned. GRADY has been instrumental in obtaining employment for this man who now works in the New York area. GRADY said that he last received money from this man about four to six weeks ago when he received \$100 from him. GRADY also said that DAN BERRIGAN had been supporting him (GRADY) from royalties received from BERRIGAN's book. GRADY indicated this was how he and his family had been able to live over the last two years during which time GRADY had never worked other than giving some lectures in connection with the drug program.

Last night GRADY said to him that he would need more "headsets" (walkie-talkies) and that he would like to get better ones than the ones that had already been purchased. GRADY indicated that he would be receiving money which he could use to purchase these walkie-talkies.

BOB GOOD had previously mentioned that RO RO was ROSEMARY REILLY. GOOD also said that he was going to see ED MC GOVERN (or MC DOVERN) today. GOOD said that he would be going to New York City this morning and that he would return tomorrow evening (Wednesday). GOOD mentioned that on his return he would be able to say how many more people would be coming down for the action.

Yesterday morning at about 3:30 a.m. (Wednesday morning), a Camden City policeman stopped JOHN GRADY who was parked in MIKE GIOCONDO's car in front of the Health and Welfare

Building, Third and Cooper Streets, Camden, N. J. The policeman asked GRADY for the registration which GRADY was able to furnish. GRADY, however, does not have a drivers' license but was not asked for one by the officer. The officer did ask for a registration and GRADY was able to produce the registration which was in the name of MIKE GIOCONDO.

The general plan at this moment calls for the "old actors" to be coming into the area and helping with the surveillances at least a day to two days before the time of the hit. They will drive their routes and gain a general familiarization with their assignments. They will get the feel of the area so that if they are "cut off" quickly they will be able to have a knowledge of escape routes.

GRADY mentioned that he was able to find out the information with regard to the TV cameras at the Dow Chemical plant (where they had erased the computer tapes) simply by talking with the guard. Last night while in the basement of Doctor ANDERSON's residence, GRADY cited this instance as well as information obtained from the GSA guards by way of a lesson as to the information that can be readily obtained just by talking to security guards at the locations of proposed hits. GRADY indicated that knowing how to obtain information thusly would be valuable in future actions.

GRADY mentioned that this was not the first time that they had used walkie-talkies. GRADY related an incident in Wilmington, Del., where he and SCOBlick were in the car outside the draft board waiting for the "inside team" to drill a hole in the door or to drill the lock out of the door in order to gain exit through the front door. When they were not able to do this the idea was passed between GRADY and those on the inside by walkie-talkie that they should go around the rear exit of the building. GRADY mentioned that he listened over the walkie-talkie as they went through the building and that he heard a loud sound that sounded much like a shot. On hearing this GRADY assumed that the "inside team" had kicked the glass out of the back door because they were unable to get it unlocked. At this point he decided to go to the rear of the building in

order to pick them up. In their haste to do this SCOBlick broke off the antenna without realizing that he had done so. He broke the antenna either when he wound up the window or when he pulled it in. They were then puzzled as to why they could not get a reading on the inside activity and it was ten minutes before they discovered that the antenna was broken.

GENE DIXON has recently mentioned again that he desired to go into the FBI Office in Camden to learn information regarding the security of the office. If DIXON were to do so he would use the pretext of working with the ex-convict program.

COOKIE and ANITA also wanted to know more about the FBI Office because they feel that if they can be successful in hitting the draft board they can also be successful in hitting the Army Intelligence Office on the fourth floor of the Post Office Building and the FBI Office on the second floor. They feel that they could enter the FBI Office by sawing the door in half or by cutting a panel out of the door which is what they had done in the draft board action at Broad Street in Philadelphia.

HARDY related that at one time in the past he had mentioned that GENE DIXON had talked to someone whom he had met in Harrisburg. He has recently learned that this individual was PAUL COUMING. DIXON in relating the story to him said that he was in Harrisburg for some reason and that while there he ran into COUMING on the Post Office steps. COUMING asked DIXON if he knew anyone who was "not so non-violent." It was DIXON's impression in other words that COUMING was looking for someone who would be capable of performing violent acts. DIXON had suggested to him (HARDY) that COUMING could possibly use someone like him.

He has also learned that (first name unknown) FRANCIS, whose car has been used by GRADY on many nights in the past, was in an accident last Friday in Philadelphia. FRANCIS' car was smashed up and he (FRANCIS) broke his pelvis bone. FRANCIS is in the Hannaman Hospital.

FEDERAL BUREAU OF INVESTIGATION

FEDERAL BUREAU OF INVESTIGATION

Date July 23, 1971

ROBERT WILLIAM HARDY telephonically contacted Special Agents TERRENCE P. NEIST and MICHAEL M. RYMAN and advised as follows:

On July 21, 1971, he went to the residence of Doctor ANDERSON, Collingswood, N.J., for a meeting, arriving shortly after 8:00 p.m. Upon arrival at the ANDERSON residence, he noted that JOHN GRADY and GRADY's wife and family, and BOB GOOD were there. It was explained that COOKIE and ANITA were out shopping at the time. COOKIE and ANITA returned to the residence at approximately 9:00 p.m.

Before COOKIE and ANITA arrived, GRADY, GOOD, and HARDY talked about their (GRADY and GOOD's) experience the previous night in Camden. GRADY and GOOD explained that they have gained access to the Rutgers Law School Building once again. They mentioned that from the roof top of the Law School they are able to have a good vantage point overlooking the Post Office Building.

During the conversation, HARDY learned that Mrs. GRADY had received money over the weekend from whoever it is that represents DAN and PHILIP BERRIGAN. She recieved \$500 from this source, which was to serve as expense money for the needs of the GRADY family. GRADY expects additional money to come from the Defense Committee in the New York City area.

After dinner they discovered that MIKE GIOCONDO's Renault had a flat tire. It was mentioned that the girls (COOKIE and ANITA) would need GIOCONDO's car to get into Camden that night. Because of this, BOB GOOD and HARDY changed the tire and had the tire fixed at the service station.

At approximately 11:45 p.m., they say down and started their planning session for the night.

On 7/22/71 at BERLIN, N.J. File # PHILADELPHIA 52-7165 SUB S

by SA MICHAEL M. RYMAN
SA TERRENCE P. NEIST rav

Date dictated 7/23/71

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

The plan that HARDY had presented to the interviewing agents on Tuesday night, was slightly changed. Some vehicles and people have been moved from their previously designated positions.

They left the ANDERSON residence at 12:30 a.m., going into Camden.

GRADY and ANITA went into the new Rutgers Law School Building and were to be followed by COOKIE, BOB GOOD, and HARDY. HARDY parked his truck behind the Post Office and then joined GOOD and COOKIE. As they approached the Law School Building and were about to enter through the predesignated door, a police car, which appeared to come out of nowhere, came into the vicinity.

COOKIE and HARDY were able to get into the door and BOB GOOD ran west passed the Law School Building, through the open construction area. Once inside the building they encountered GRADY, who was very upset. GRADY had feared that they had been apprehended by the police. GRADY admonished them for not doing careful observation work before entering the building.

After a bit of maneuvering, GOOD was able to get back to the building and enter it. They then went to the fifth floor to the corner office, which is located on the Fifth Street side. They did observation work from there. GRADY attempted to convey to GOOD and HARDY what had been seen the night before from the Law School Building.

At this point, HARDY pointed out that GOOD did not go to New York on Tuesday morning as he was supposed to. GOOD is, however, planning to leave this morning (July 22, 1971) and he has packed his bags and made up a sign for hitchhiking to New York City. He supposedly will leave GIOCONDO's at 11:00 a.m. on July 22, 1971.

It was mentioned by GRADY that they had used headsets (walkie-talkies) before in the Wilmington, Del., and Bridgeton actions. GRADY mentioned that COOKIE used a headset in the Bridgeton action. GRADY also mentioned that they had used the "flashlight signal system" in the Bridgeton action. This is the method by which they tape the face of a flashlight leaving only a quarter inch hole so that they can get a high intensity beam of light from one point to another without actually showing the full ray of light from the flashlight.

HARDY has noted that GRADY is getting "super sensitive" about security. He also noted that it "really shook him (GRADY) up" when the members of the group had the near confrontation with the police upon entering the Law School.

HARDY has noted that when GRADY "blows his stack" at the group, that he is really directing it towards COOKIE and ANITA, since they are more or less taking training lessons from him.

COOKIE said that after the Camden hit was completed that she would possibly go to New York City. It is the understanding that ANITA will be going to Boston. COOKIE said that neither she nor ANITA had any idea where GRADY would be going after the Camden hit.

Father MICHAEL DOYLE has not been seen by the group for a good while. Father DOYLE has been filling in for other priests at St. Joseph's Parish while they are on vacation. It is HARDY's understanding that after the weekend Father DOYLE will be back in the operation.

BOB GOOD mentioned that he had several appointments to keep in New York City this afternoon between 4:00 p.m. and late in the evening, and that these appointments were connected with the Camden operation.

GRADY mentioned that he would today be getting in touch with DIXON and giving DIXON some money so that he could buy some two or three new headsets (walkie-talkies). GRADY said that DIXON will be getting radios from the Radio Shack located on Route 130 and Browning Road, Pennsauken, N.J.

At the meeting last night, those in attendance were GRADY, COOKIE, ANITA, GOOD, and himself.

COOKIE believes that there is a warrant for her arrest because the FBI has been to her place in Philadelphia periodically asking questions of her mother.

One change that was made in the plans is that there will no longer be a car located in the vicinity of Fifth and Penn Streets. This position was eliminated because it has been determined that if a car pulls off Penn Street onto Fifth Street and catches the red light there it would effectively

PH 52-7165 SUB S

block the line of vision of the people in the car at Fifth and Penn Streets.

Instead of having the car at Fifth and Penn Streets, there will be someone on the roof of the new Rutgers Law School Building, where they would have an excellent view of the entire situation.

It was mentioned that GOOD would return to the Camden area on Friday night or Saturday morning, more than likely Saturday morning.

GRADY is beginning to drink quite a bit again. He had slowed down quite a bit on his drinking when his family first came into town. He still carries the fifth of whiskey with him in the tote bag (Pan Am flight bag). He brings this tote bag with him every night and keeps within it his glasses, a can of soda, a bottle of whiskey, a screwdriver, "and stuff like that."

The papers, overlays, notes, etc., are still located in the crib, in the bedroom, and occasionally in the basement of ANDERSON's residence.

The box with the bigger charts is still located in the television room.

FEDERAL BUREAU OF INVESTIGATION

Date July 26, 1971

ROBERT WILLIAM HARDY telephonically contacted Special Agents TERRENCE P. NEIST and MICHAEL M. RYMAN and advised as follows:

On July 22, 1971, he went to the residence of Doctor ANDERSON, Collingswood, N.J., arriving at approximately 8:30 p.m. Upon arrival, he noted that those present were JOHN GRADY, GRADY's wife and family, Doctor ANDERSON, ANITA, and COOKIE. He learned that BOB GOOD had left for New York City on that day.

There was discussion among members of the group concerning the fact that GENE DIXON had not shown up this week. DIXON had taken the week off from work in order to do more casing and observation work, but he has attended only one meeting this week and has been out of touch by telephone from other members of the group. It was discussed that DIXON had not performed his duties with regard to the purchasing of headsets (walkie-talkies).

GRADY gave him (HARDY) \$150 and told him to buy some walkie-talkies.

After the discussion concerning DIXON, JOHN GRADY mentioned that this would no longer be a "Camden action" because he (HARDY) was the last person from Camden who was actually physically involved. GRADY said that they would definitely have to bring in outsiders to perform the hit. GRADY mentioned that this was in keeping with past experiences, where they had been able to get very little "community involvement."

Doctor ANDERSON appeared to be very unhappy with the fact that "things were almost over."

ANITA and COOKIE left last night at approximately 11:30 p.m., to go down to Cape May Courthouse, (N.J.) for MEL MADDEN's Drug Program. They will give lectures connected with this Drug Program today. COOKIE and ANITA intend to

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

spend the day at Cape May Courthouse and while down there, will look for camp sites for Mrs. GRADY and the GRADY family. Mrs. GRADY and the GRADY family will be going to the area of the Jersey Shore during the middle of next week to do some camping.

While talking last night with GRADY and Doctor ANDERSON, Doctor ANDERSON asked GRADY what he (GRADY) would be doing after this action and to where he would be going. GRADY replied that he did not know and that he had "no plans at all." GRADY said that it was just a matter of knowing how to adjust to his environment at the moment. GRADY said that he had been living on a day-to-day basis for the last year and that it is hard for him to make plans from one week to the next.

COOKIE and ANITA seemed very pleased that things are coming to an end and feel certain that the action will "come off."

He, (HARDY), stayed at the ANDERSON residence until about 12:30 a.m. When he said good night to the group, GRADY said that he would be going to the Law School Building to do some observation work by himself. GRADY walked with him about one-half way to where his (HARDY's) car was parked and while doing so, told him that he would really like to have him think about becoming more involved in this type of thing. GRADY told him that he had the type of talent that was needed in the underground.

This morning he went to the ANDERSON residence at about 8:15 a.m., and spoke with GRADY for about ten minutes. GRADY, at this time, again mentioned that he really needed someone like him in his organization.

The papers, notes, and slides are still located at the ANDERSON residence. They are located in the crib, at times on the pingpong table (in the basement), and at times in the back bedroom on the first floor. Some of this material is also kept in the den and the TV room.

When GRADY gave HARDY the \$150 for the purchase of "headsets," he (GRADY) told him that if he had to he could spend the entire amount for the headsets. GRADY also told him

that the money is part of the money that Mrs. GRADY has received from DAN and PHILIP BERRIGAN. GRADY also said that money would be coming in from the Defense Committee.

Doctor ANDERSON had related that he felt it had been a great experience dealing with the different people who were members of the group.

BOB GOOD apparently had made a phone call to New York City during the middle of the week to set up appointments with different people that he was to meet on Thursday, in connection with the proposed action.

HARDY advised that the name (FNU) HOOD has been mentioned by GRADY, but he was unable to recall how the name was first mentioned. HARDY stated that the following cars have been used by GRADY:

MICHAEL GIOCONDO's Renault

Mrs. GRADY's Comet

Doctor ANDERSON's car, a station wagon

BILL FRANCIS' car (before it was damaged in a recent accident)

Brother PHILIP KELLY's car (during the early days of planning)

Father MICHAEL DOYLE's car (has been used to go to New York City and also has been used to see his friends while they were doing the Trenton surveillances)

When going into Camden for his nightly surveillance, GRADY usually parks his car in North Camden, in the area of Fifth Street and the underpass. Sometimes GRADY will park by Second Street and walk over Second Street from North Camden. Sometimes he will parks his car on Third Street.

FEDERAL BUREAU OF INVESTIGATION

Date July 28, 1971

ROBERT WILLIAM HARDY telephonically contacted Special Agents TERRENCE P. NEIST and MICHAEL M. RYMAN and advised as follows:

On July 23, 1971, he went to the residence of Doctor ANDERSON, Collingswood, N.J., after picking up MIKE GIOCONDO from in front of the Walt Whitman Hotel, Camden, N.J. He arrived shortly after 8:45 p.m. Upon arrival he noted that those present were JOHN GRADY, Mrs. GRADY, the GRADY family, COOKIE and ANITA. GRADY and HARDY completed the group.

Prior to their arrival, the group had been working on transferring their notes to charts. The records are very complete, to those who can read them. ANITA and COOKIE spent quite a bit of time in maintaining these records.

The group discussed the traffic patterns they would run on their nightly surveillance. They also discussed the use of the "headsets" (walkie-talkies).

At about 12:00 midnight, Father MICHAEL DOYLE from Saint Joseph's Church, Camden, N.J., arrived. Father DOYLE said that he would be available to help with a few nights of surveillance.

On 7/24/71 at BERLIN, N.J. File # PHILADELPHIA 52-7165 SUB S
by SA TERRENCE P. NEIST
SA MICHAEL M. RYMAN TPN/rav Date dictated 7/27/71

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

The surveillance plan as of last night was for Father MICHAEL DOYLE, MIKE GIOCONDO, JOHN GRADY, and ANITA, to go to the roof of the new Rutgers Law School Building with one "headset." The plans called for COOKIE to go to the roof of the Townhouse Apartments with one "headset," and for HARDY to drive around the city and conduct radio checks from various points so that the group could determine the range of the walkie-talkies and also what type of interference would be encountered.

During the discussions, a telephone call was received from BOB GOOD, who was in New York City. GRADY explained the procedure by which GOOD makes his telephone calls. GRADY explained that GOOD will call GRADY using a fictitious name. This alerts GRADY to the fact that the call is from BOB GOOD. GRADY will then reply to the operator that the person who has been asked for is not there. GRADY will then go to the pay phone, located in front of the Camden County Park Police Headquarters and make a station-to-station call to BOB GOOD.

GRADY told the group that the message from GOOD was that ANNE and MURPH would be down tonight to look over the scene and to see what they could add to the plan. GRADY also mentioned that GOOD had advised him that ED MC GOWAN was in Toronto, Canada, and was not available at the moment. It was also mentioned that ROSEMARY REILLY, also known as RO RO, was in Buffalo, N.Y., at the time and that they were not sure as to her availability for the action.

During the surveillance, the group spent their time in going over the four check points and the positions where various people would be and what the jobs of the people would be. He (HARDY) started at Fifth and Pearl Streets (by the bridge) and conducted a radio check with the people on the roof of the Law School and those on the roof of the Townhouse Apartments. He then went to Broadway and Market and parked on the corner by Lit Brothers to conduct a visual contact. He explained that this position is one of the key points at the moment. HARDY's third check point was Third and Federal Streets, where he parked on the corner and checked transmission over the "headsets." The fourth check point was

on Fourth Street, north of the underpass. Good radio reception was received at three of the check points. At the fourth check point there was a little bit of static. Members of the group compiled notes as to the radio reception received from the various check points.

During discussions last night, GRADY said that the group was not ready for the action as yet. ANITA concurred in this opinion. GRADY said that things were "just not tight enough."

During the middle of next week, GRADY's family is leaving the ANDERSON home and going to a camping site in the Wildwood Crest or the Cape May Courthouse area (New Jersey). Doctor ANDERSON's family will be coming back into town next Saturday.

He (HARDY) left the surveillance area at approximately 4:00 a.m., after completing the last radio check. COOKIE, Father MICHAEL DOYLE, MIKE GIOCONDO and JOHN GRADY intended to stay on the Law School Building until at least 6:00 a.m. At about that time they walked the streets and tried to determine ways of going in and out of the building.

GRADY has mentioned that when the action takes place it will be on a Saturday or Sunday night. Last night GRADY said that they will need twelve cars, six with drivers and six parked. GRADY told members of the group last night that they should start thinking about where they could get extra cars. GRADY indicated that these cars would be used to effectively block off different area, if need be.

The group has a list of unmarked cars that have been in the area during their nightly surveillances. They are attempting to determine who the regular occupants of these vehicles are by "just driving around" and looking into the White Tower Restaurant and the various other spots where plain-clothed detectives would normally make their stops.

HARDY then advised that the following vehicles have been used by members of the group in connection with the operation:

Father FRANCES' (St. Peter and Paul, also known as El Centro) car has been used in the past exclusively by GRADY.

Doctor ANDERSON's car has been used exclusively by GRADY.

GIOCONDO's Renault has been used by GRADY, COOKIE, and ANITA.

Father MICHAEL DOYLE's car has been used by GRADY and ANITA.

Mrs. GRADY's Comet, which bears New York license plate, has been used by GRADY and COOKIE, for transportation into North Camden. They do not use this car on surveillances because they are concerned that it will draw suspicion due to having a New York license plate.

GENE DIXON's Ford has been used by DIXON, MARTHA SHEMELEY, and ANITA.

He (HARDY) does not believe that they have used MARNIE O'DELL's car as yet; however, GRADY has mentioned that they would be able to use this car if they so desire.

GRADY also mentioned that they were going to ask GEORGE and LOUISE SLATER if they could use their car on the night of the action. GRADY also mentioned that they would ask the SLATERS if they would drive the car on the night of the action.

ANITA has started making up a list of names of people that she would be able to contact concerning the use of the cars on the night of the action. These names are written in a brown notebook, which is approximately four inches by seven inches. He saw this notebook but was unable to retain the names of the people on the list.

ANITA also has a list containing names of twelve different people who she will contact outside the city. (HARDY was unable to furnish any of these names.)

PH 52-7165 SUB S

It was HARDY's opinion GRADY is "dragging this thing out" because he has nothing to do after this action. He has also observed that GRADY is very security conscious at this point.

GRADY has indicated that he will stay in the area after his family goes camping at the shore.

ANDERSON and GRADY both have indicated that they feel that plans are "almost down pat" and that they will have to wait a little longer before actually conducting the action.

The papers and notes are still located in the ANDERSON residence.

FEDERAL BUREAU OF INVESTIGATION

Date July 28, 1971

ROBERT WILLIAM HARDY contacted Special Agents TERRENCE P. NEIST and MICHAEL M. RYMAN telephonically and advised as follows:

On July 24, 1971, he went to the residence of Doctor ANDERSON, Collingswood, N.J., arriving between 8:30 p.m. and 8:45 p.m. Upon arrival, he noted that those present were JOHN GRADY, Mrs. GRADY, the GRADY family, MIKE GIOCONDO, BOB GOOD, ANITA, ANN DUNHAM and NED MURPHY.

ANN DUNHAM is a white female, 5' 2" in height, 145 pounds in weight, heavy set, long dark brown hair, age approximately 23 years.

NED MURPHY is a Jesuit Priest from New York City. He is 5' 8" in height with long black hair and heavy sideburns. He is 170 pounds in weight with a heavy build. He has a light complexion, appearing Spanish--Puerto Rican.

MURPHY told him (HARDY) that he had been involved in the "New York Eight" and that he is involved in the "Harrisburg Conspiracy." MURPHY said that he is a Jesuit Priest, but that he has not actually been doing any church work, but that he has been working in the peace movement. MURPHY explained that the church has given him and three other Jesuit Priests a leave of absence, whereby they retain their priestly status but do not get paid by the church.

MURPHY said that the charges against the BERRIGANS, in connection with the conspiracy to destroy draft board records, are true. He said that the conspiracy to kidnap KISSINGER was something that was talked about but not in a serious vein. MURPHY said also that the plot to bomb the heating system in Washington, D.C., was also something that was talked about, but not seriously.

MURPHY said that the plans and detail work that has been done in connection with the Camden action is the best work that they have seen, with regard to an action.

On 7/25/71 at BERLIN, N.J. File # PHILADELPHIA 52-7165 SUB S
 by SA MICHAEL M. RYMAN
SA TERRENCE P. NEIST TPN/rav Date dictated 7/27/71

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

It was mentioned that ANN DUNHAM has been involved with some nuns in "the Brooklyn thing."

The name of TED GLICK was also mentioned during the evening's conversation. His name was mentioned with regard to participation in the North Broad Street (Philadelphia) draft board action. MURPHY also mentioned that he (MURPHY) was involved in that action.

It was mentioned that they would like to have TED GLICK as a participant in the Camden action.

MURPHY questioned GRADY with regard to how GLICK was doing. GRADY responded that GLICK was doing fine, and that COOKIE had been in touch with him (GLICK), and that GLICK might be with them in the Camden action.

MURPHY related how GLICK had gotten picked up in Philadelphia after jumping over a turnstile in a subway station. MURPHY mentioned that when GLICK was arrested for this that he had in his pocket, material from the Broad Street Draft Board.

Father MICHAEL DOYLE from Saint Joseph's Church, Camden, N.J., came to the meeting later in the night.

The group then proceeded to lay out the maps and start work on a better plan of action than the one they had been using.

They left the ANDERSON residence in four different cars; GIOCONDO's Renault, DOYLE's Chevrolet, GRADY's Comet, and the Pontiac which belonged to his (HARDY's) mother.

GRADY drove in the Comet and parked his vehicle in North Camden.

At 12:15 a.m. (this morning) all members of the group were in position and they ran a two minute test throughout the area with GRADY and ANITA on the Law School roof, equipped with binoculars; COOKIE and ANN on the Townhouse Apartment roof equipped with binoculars; and himself (HARDY) in his vehicle at Broadway and Market Streets. He (HARDY) was

actually out of the car with the trunk open, having a direct view of the Law School Building from Broadway and Market. The plans call for HARDY to have the trunk open and to close the trunk if he sees a police car.

GRADY is located on the Law School roof, having a direct view of the Townhouse Apartments. The people on the Townhouse Apartment roof have a flashlight that is taped so that only a one-half inch center beam is given forth.

MIKE GIOCONDO was sitting at the Fourth Street underpass in North Camden with a "headset" talking to ANITA, who was on the roof of the Law School Building, and COOKIE, who was on the roof of the Townhouse Apartments.

GIOCONDO gave a clear signal at 12:15 a.m. At that time HARDY opened the trunk of his car. (MURPHY was standing at the telephone booth located directly across from the City Hall parking lot, by Kenny's Restaurant. MURPHY noted the activities from that position.) The plans call for MURPHY, if he saw anyone hurrying out of City Hall, to bend over and tie his shoe. This could be seen by HARDY at Broad and Market Streets. Plans called for HARDY, upon seeing this, to close the trunk to his car. This would serve to advise GRADY that there was some action on Broadway or that something was wrong. MIKE DOYLE was parked on the corner at Fourth and Market Streets.

Although no one was at Fourth and Federal Streets during last night's surveillance, the plans call for someone to be in that position.

Plans also call for someone to be at Fourth and Marklay Avenue.

The van will be parked by the Post Office platform with six people inside the van. Plans, at this point, call for HARDY to be driving the van on the night of the action.

On conducting "dry runs" members of the group exchange positions so that each will have the feel of the positions handled by the others.

PH 52-7165 SUB 5

When everything is clear, the signal will come down from the roof of the Townhouse Apartments to the man driving the van, indicating that all is clear. Also, a signal will come from the person at Fourth and Markley to someone who will be looking out the window of the van. The person in the van with the "headset" will get the signal from GRADY while a signal transmission will be heard from GIOCONDO to COOKIE as "Go!"

The two people on the Townhouse Apartment roof will be viewing Cooper Street. When all these conditions are clear, and say "Go" at 12:15 a.m., the group will know that they have the two minutes to get the people on the roof.

Meanwhile, if there is some problem, they will still have people in cars who can block Markley Street, Fourth Street, and Cooper Street.

Plans now call for the action to take place on a Saturday night between 11:30 p.m. and 12:15 a.m., (Sunday morning). GRADY feels that the police activity at this time would be the minimum, due to the changing of the shifts.

During last night's surveillance, they went through four different times, starting at 12:15, 12:20, 12:25, and 12:30. They noted that at each time they would have had the necessary two minutes to get the group into the building. They noted, in fact, that they would have had a complete twenty minutes, if necessary.

BOB GOOD mentioned last night that he would be going to New York City on Tuesday or Wednesday to talk to some more people.

Apparently, COOKIE has been contacting some more people in Philadelphia.

GRADY now feels that he has better control of the situation from the roof of the new Rutgers Law School Building. GRADY has noted that from that position, he can see Broadway and Market Streets, the Post Office alley, the van, the Townhouse Apartments, and the Fourth Street underpass.

NED MURPHY and ANN DUNHAM will be going back to New York tonight.

It was HARDY's impression that MURPHY and DUNHAM were very impressed and that they would probably be bringing someone back with them when they would return from New York.

MURPHY mentioned the name of JOE O'ROURKE from the New York area. MURPHY mentioned that, either in the context, O'ROURKE was involved in the "New York Eight" action or the "Harrisburg Conspiracy" trial action.

HARDY left the surveillance at approximately 1:15 a.m. It was his understanding that the rest of the group would remain until six in the morning.

MURPHY also mentioned that if the group was inside the building long enough that it would be no trouble to take a look at the Army Intelligence Office and the FBI Office. MURPHY mentioned that it was very unusual for an Army Intelligence Office to be in an area of this type, and that because of this, he felt that there must be some important records in that office.

HARDY went over the positions of various members of the group during the surveillance of last night. COOKIE and ANN DUNHAM were on the Townhouse Apartment roof; GIOCONDO was in a vehicle on Fourth Street at the underpass on the North Camden side of the bridge; ANITA and GRADY were on the Law School roof; BOB GOOD was at Fourth Street and Marklay Alley; MIKE DOYLE was at Fourth and Market, parked on the corner so that he had a good view of Market Street and Fourth Street. MURPHY was in the telephone booth directly across from City Hall. He (HARDY) was at Broadway and Market Streets by the corner of Lit Brothers. He stayed there for twenty minutes and at every five minute interval he would open his trunk for a few minutes.

It was mentioned last night that a woman who was the head of the Illinois Nursing Association, who was the person who ran the Dow Chemical action. It was mentioned that she was the key person in this action. It was also indicated that she is unmarried and about 45 years old. All members of the group spoke of her with admiration. He (HARDY) did not recall her name but feels that he would be able to recognize the name if he heard it.

The plans currently call for six cars moving and six cars parked on the night of the action. All of these vehicles will be coming from the general area of ANDERSON's residence. Some of the cars will be coming from Philadelphia. The cars coming from Philadelphia would be the cars that were obtained by COOKIE and ANITA from the list of names they have concerning Philadelphia people.

Most of the cars would come into Camden from Route 130 on the Admiral Wilson Boulevard, taking either the Sears and Roebuck turn-off or going to Seventh and Linden, where they would make a left turn and come down to either Cooper or Market Streets. The cars will move at a predesignated time.

The people who will be on the rooftops will probably come into Camden at about 11:15 p.m. on the night of the hit. Those driving vehicles will probably come in at about 11:30 p.m.

It has been noted that it is a nine minute drive (driving at forty miles per hour and catching the red lights in front of the Post Office) from ANDERSON's residence to the Post Office Building.

The charts, papers, and notes are still located in the ANDERSON residence.

Last night slides were shown for the benefit of MURPHY and ANN DUNHAM.

FEDERAL BUREAU OF INVESTIGATION

Date 7/30/71

ROBERT WILLIAM HARDY telephonically contacted Special Agents TERRENCE P. NEIST and MICHAEL M. RYMAN and advised as follows:

On July 25, 1971, he went to the residence of Doctor ANDERSON, Collingswood, N. J., arriving at approximately 7:15 p.m. Upon arriving, he noted that those present were JOHN GRADY, Mrs. GRADY, the GRADY children, MIKE GIOCONDO, BOB GOOD, ANITA, COOKIE, and ANN DUNHAM.

At approximately 7:30 p.m., the group laid out their street plans and started going over their notes and discussing their plans.

During the discussion, he learned that after he had left the surveillance on Saturday night, the group had encountered what they considered to be a problem. He learned that at approximately 4:00 Sunday morning, three people were observed in the Post Office Building. These people were seen in the mail room and on the mail-loading platform. Members of the group mentioned that this is the first time that any postal employees have been observed in the Post Office during the early morning hours. This incident threw a scare into the group, and GRADY and ANITA said that this incident "just about threw all their Saturday and Sunday casing plans out the window."

Because of this incident, the group conducted casing and observation last night rather than going through additional dry runs. Last night, the group set up and occupied a few more observation points so that they would be able to get a better look into the building.

GRADY and GIOCONDO left the surveillance at about 1:00 this morning, because GIOCONDO had to leave for work at Cape May (N. J.) early this morning. GRADY and Mrs. GRADY will be going to Cape May this morning to look at the camp site, where Mrs. GRADY and the family will be going on Thursday.

PH 52-7165 (Sub S)

During the discussions last night, it was mentioned by ANN DUNHAM, BOB GOOD, ANITA, and COOKIE that they were sure that the action "was going to come off."

GOOD said that he would be going back to New York City on Tuesday and that he was pretty sure that JOE O'ROURKE would be coming down to Camden this week. GOOD also said that JOE O'ROURKE and NED MURPHY are two people, who he is quite sure will be involved in the Camden draft-board hit. It was mentioned that O'ROURKE would be the driver of one of the cars on the night of the hit. GOOD said that NED MURPHY had mentioned to him that he (MURPHY) would like to be part of the team that actually goes into the building. GOOD said that this was not unusual, because MURPHY was part of the team that went into the buildings on the Bronx and Queens draft-board hits connected with the "New York 8 thing" in August of 1969 and that he (MURPHY) was personally responsible for carrying out approximately 175,000 files during these hits. It was mentioned that MURPHY was also helping with the observation in the recent Trenton action. It was mentioned that GRADY and MURPHY had been together for at least two years working on draft-board actions.

At approximately 10:00 p.m., GRADY came down from the upstairs, where he had been sleeping. At this time, members of the group set up positions for a better surveillance of the Post Office Building so that they would be able to learn at what time the guard went into the building and at what time the guard's relief came, etc.

The new positions that were occupied last night were as follows:

ANITA and ANN DUNHAM were on the law school roof; GIOCONDO was on the Townhouse Apartment's roof; GOOD and COOKIE sat on the steps at 4th and Markley Avenue; He (HARDY) sat in his car on Market Street between 4th and 5th Streets on the South side. His job was to watch the front door of the Post Office Building and to determine when the guards change shifts. GRADY did not have a fixed position but "roamed around," as he normally does.

After doing his surveillance, he (HARDY) went to the roof of the Townhouse Apartments and turned over the results

PH 52-7165 (Sub S)

of his observation to MIKE GIOCONDO. At that time, they made radio contact with the people on the roof of the law school. They then continued their surveillance, and he (HARDY) went back onto the street to make a physical check of the traffic light patterns and driving patterns of the exits from the city. He left the area at about 1:30 a.m. GRADY also left about that time, because he was going down to Cape May the next day to check the camp sites.

With reference to the postal employees, who were seen working in the mail room, it was noted that there was a United States Mail tractor trailer parked behind the Post Office. It was assumed by members of the group that the postal employees were there for the purpose of unloading this mail.

HARDY mentioned that ANN DUNHAM is definitely the ANN, whom he previously referred to as living on 121st Street, New York City, with a man named FRANK. He has learned that FRANK is her boyfriend. FRANK's name was referred to last night by BOB GOOD and ANN DUNHAM. ANN DUNHAM said that she was not sure, at this point, whether or not FRANK would be involved in this action.

There was some mention of contacts made with the Defense Committee in New York City. It was indicated that the Defense Committee has offered to pay some of the bills that have been acquired by GRADY people in Camden. The Defense Committee has asked for stationery receipts so that they can legitimately put these expenses "on the books" and reimburse GRADY for the money spent. GRADY and ANITA asked him (HARDY) if he could get some "bill heads" so that they could send bills into the Defense Committee and get reimbursed for the purchase of the radios, gasoline, and other things, which they have had to pay for out of their own pockets.

GRADY said that he thinks that they will rent some cars for use by GRADY for a couple of weeks. GRADY indicated that this will be necessary, because his wife will have their Comet with her at the camp site. GRADY feels that GIOCONDO's Renault is a bit too unusual and would be noticed if he used it quite a bit while driving around the city. It was also mentioned by GRADY that, possibly, JOE O'ROURKE will rent a car for GRADY to use and bring it down with him from New York.

PH 52-7165 (Sub S)

The following code is used by members of the group when conducting radio transmissions during the surveillances:

Theatre - Broadway and Market by Lit Brothers;

Garden - The City Hall Annex or parking area between the Parkside Building and City Hall;

DJ - Intersection 4th and Federal Streets;

DH - Intersection 4th and Market Streets;

G1 - Front steps at 4th Street and Markley Avenue;

G2 - The right-hand side (as observed from the Townhouse Apartments) of the loading platform behind the Post Office Building;

G3 - The left-hand side of the loading platform;

G4 - Opening between the two abandon buildings in the alley on the 5th Street side;

G5 - 5th Street end of Markley Avenue (alley);

The Filmore Hotel - The Townhouse Apartments;

The Oliver - The roof of the new Rutgers Law School;

Carolina is North Camden by 4th Street and the underpass;

Pierce - Code name for MIKE GIOCONDO last Saturday night (temporary, no longer used);

Moses - Code name for HARDY;

Party - Post Office Building;

Landlord - The watchmen at the Post Office Building;

Neighbor - People walking through the area;

Neighbor with a Dog - Person driving through the area.

PH 52-7165 (Sub S)

Members of the group went into Camden for the surveillance last night, at 10:30 p.m. Most members of the group were in Camden by 10:30 p.m.

It was mentioned that some of the "old actors" would be called in during the week by COOKIE and ANITA. It was also mentioned that GOOD and ANN DUNHAM would be contacting "old actors" in the New York area. It was also indicated that GRADY has been making phone calls on his own during the day for the purpose of bringing "old actors" into the action.

Members of the group say that this action will be the most difficult one that they have ever performed.

The members of the group desire that the people in key positions on the night of the hit will be people who have worked at these positions during the surveillances and dry runs.

The papers and notes and slides are still located at the ANDERSON residence in Collingswood.

GRADY mentioned that yesterday, his family left for the camp site, that he would possibly set up shop at Doctor ANDERSON's apartment, located at Broadway and Royden Streets, Camden, N. J. GRADY mentioned that he could use the apartment as living quarters and could use the doctor's office (which is below the apartment) as a meeting place for the planning sessions.

FEDERAL BUREAU OF INVESTIGATION

July 29, 1971

ROBERT WILLIAM HARDY telephonically contacted Special Agents MICHAEL M. RYMAN and TERRENCE P. NEIST and advised as follows:

On July 26, 1971, he went to the residence of Doctor ANDERSON, Collingswood, N.J., arriving at approximately 8:30 p.m. Upon arrival, he noted that those present were BOB GOOD, ANITA, COOKIE and JOHN GRADY. They were sitting around the table in the living room, looking at street maps. Mrs. GRADY and the GRADY children were upstairs.

Members of the group asked him (HARDY) to relate the experience that he had had the night before with regard to observation in front of the Post Office Building. He did this.

GRADY then said that they should do much more casing of the front of the Post Office Building so that they could have more complete data with regard to the patterns.

COOKIE and ANITA pointed out that the night watchman probably has a different schedule for the week days, which is different from his weekend schedule.

After about one-half hour discussion, GRADY excused himself and went into talk to his wife.

The other members of the group continued the preparation of their work schedule for last night's surveillance. At that point, GRADY went into the bedroom and went to sleep for the night. This was at about 10:15 p.m.

Mrs. GRADY then came in and talked with members of the group for a while.

On 7/27/71 at BERLIN, N.J. File # PHILADELPHIA 52-7165 SUB S
by SA MICHAEL M. RYMAN
SA TERRENCE P. NEIST TPN/rav Date dictated 7/29/71

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

The members of the group then decided that he (HARDY) and BOB GOOD would take his truck into Camden and park it in front of the Post Office Building, so that GOOD could observe the Post Office Building from the front, and determine what activities took place from 11:15 p.m., until 12:30 a.m.

He (HARDY) then drove his truck, with GOOD as an occupant, into Camden, parking it as had been previously determined. He (HARDY) then got out of the truck and went to the roof of the Townhouse Apartments, equipped with a radio and a pair of binoculars.

At about 10:15 p.m., Father MICHAEL DOYLE came to the residence of the ANDERSONS' and said that he could do a couple hours of surveillance on that night.

DOYLE then brought ANITA and COOKIE into Camden. He dropped off ANITA and helped her get into the Law School Building, and that he (DOYLE) and COOKIE, then went to the corner of Fourth Street and Markley Alley, where they parked for the purpose of observing activities taking place in the rear of the Post Office Building.

When he (HARDY) got onto the rooftop of the Townhouse Apartments, he watched for ANITA to get onto the roof of the Rutgers Law School Building. HARDY explained that when watching the roof of the Law School from the Townhouse Apartment roof, that when the glass door onto the roof is opened one can observe the silhouette of the person entering the roof. He further explained that there is a hallway light that gives off enough light so that a person passing in front of the light can be observed.

According to the plans, ANITA was supposed to be up on the roof at 12:00 midnight. He (HARDY) observed the roof of the Law School and noted that it was exactly 12:00 midnight when ANITA came to the door leading to the roof.

At about 12:05 a.m., he (HARDY) made radio contact with ANITA.

They both tried to make radio contact with BOB GOOD, who was in the van, but he (GOOD) did not receive them well. They did not receive GOOD.

At 12:30 a.m., he (HARDY) came down from the roof of the Townhouse Apartments, as pre-planned, and picked up his van. He then drove the van, with GOOD as an occupant, to Third and Linden Streets, where he dropped off GOOD, giving him his observations for the night. He (GOOD) then went back to the Townhouse Apartment roof to finish the surveillance.

COOKIE was supposed to come to the roof of the Townhouse Apartments at 1:00 a.m., and Father MICHAEL DOYLE was supposed to leave the area for his rectory at that time.

He (HARDY) left the area at that time. Plans called for COOKIE and GOOD to be on the roof of the Townhouse Apartments for the next several hours, and for ANITA to remain on the roof of the Law School.

GRADY plans to leave Collingswood this morning at approximately 8:00 a.m., to go to the Cape May Drug Center, where he will give a talk in connection with MEL MADDEN's Drug Program. These classes are to start at approximately 10:30 a.m.

It was planned that Mrs. GRADY would be going with him, and that they would be checking out a camp site that COOKIE and ANITA had rented for them.

The papers and notes and other material are still at the ANDERSON residence.

Information with regard to most of the casings, has been transferred to files that are kept in a two inch by four inch gray filing box, which is kept in the crib in one of the bedrooms.

Mrs. GRADY will be using the Comet, which bears New York license tag, when she and JOHN GRADY go to Cape May today.

The GRADYS plan to go by the camp site, after JOHN GRADY gives his lectures, which are connected with the Drug Program. They also intend to stop at the ANDERSON's summer home in Sea Isle City, N.J., before they return to Collingswood.

GRADY has said that if the action does not take place within ten days, that he would leave the area.

GRADY indicated that he has a problem with the Defense Committee in that they (the Defense Committee) want to work only with the defense of people who have been arrested in connection with the various actions, whereas GRADY wants them to provide money for offense, that is the actual performing of actions.

GRADY has indicated that the Defense Committee is more interested in coming in after the action is over and helping the people who have been charged and arrested.

GRADY has said that he was one of the main organizers of "this thing," two and one-half years ago, but that new people have come into the organization and taken over. GRADY said that these people do not have the same feeling in respect for GRADY's thoughts as he would prefer them to have.

GRADY indicated that he made a break with the group several months ago, and that now he is attempting to retain his position within the group. GRADY indicated that he is doing this because he feels that he needs the group.

FEDERAL BUREAU OF INVESTIGATION

Date August 2, 1971

ROBERT WILLIAM HARDY telephonically contacted Special Agents TERRENCE P. NEIST and MICHAEL M. RYMAN and advised as follows:

On July 27, 1971, he went to the residence of Doctor WILLIAM ANDERSON, Collingswood, N.J., for the nightly meeting with JOHN GRADY's group. Upon arrival, he noted that those present were BOB GOOD, ANITA, and COOKIE. JOHN GRADY and Mrs. GRADY were still at the shore.

Members of the group sat down with their street maps and started to lay out their plans for the surveillance of that night.

It was mentioned that JOHN GRADY was due back to the ANDERSON residence by 9:00 that evening. At 11:00 p.m., when GRADY had still not returned, the members of the group decided to go into Camden for their surveillance work.

BOB GOOD, during the meeting, mentioned that he would spend another month in Camden because "things that he had going for him in New York City are still in the talk stage."

GOOD offered to take him (HARDY) to New York City for a couple of days the next time that he went there.

COOKIE commented that during the two years that she has known GRADY, that this is the most "strung-out," tired, irritable, and short tempered, that she has ever seen him. COOKIE said that she has never seen GRADY at such a low point. COOKIE felt that this was due to the heavy effects of the surveillances, or casings; the fact that he has had to spend much time away from his family; and other factors. COOKIE felt that another reason for GRADY's low morale was the fact that he has not been getting any real physical help from the Defense Committee in New York City.

On 7/28/71 at BERLIN, N.J. File # PHILADELPHIA 52-7165 SUB S
 by SA TERRENCE P. NEIST ^{TPN}
SA MICHAEL M. RYMAN ^{TPN/rav} Date dictated 8/2/71

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

GRADY was going to the shore yesterday with his wife because he had to go to Cape May, N.J., for a lecture which he would deliver in connection with MEL MADDEN's Drug Program. GRADY and his wife intended to look at the camp sites, after GRADY's lecture, and then go to Doctor ANDERSON's summer home in Sea Isle City, where they would have dinner and drinks with Doctor and Mrs. ANDERSON.

That night, upon leaving for the surveillance in Camden, the group left BOB GOOD at the ANDERSON residence so that he could take care of the GRADY children, who were there, and also so that GOOD could get a good night's sleep since he was leaving early in the morning for New York City.

He (HARDY) , ANITA, and COOKIE left in his truck. They stopped by the new Rutgers Law School Building where ANITA exited the truck in order to enter the Law School Building. After ANITA was safely inside of the Law School Building, COOKIE and he went to the South side of Market Street, in front of the little Bazaar, located across from the Post Office Building in Camden. COOKIE remained in the truck to do her observation work from the front of the Post Office Building, (referred to by the group as the "lawn side" of the building).

He then walked to the White Tower, picked up a cup of coffee, and then proceeded to walk down Fifth Street, north of Cooper Street to Fourth Street and back down Fourth Street, where he sat on a step opposite Fourth Street and Markley Avenue. He observed the Post Office from that point. He stayed there until 12:40 a.m., at which time he returned to his truck, where COOKIE had been sitting.

The two of them drove around in his truck, checking out the police garage behind Sears, and counting the black and white cars, as well as the unmarked cars. They then returned to the area of the Post Office and went to the City Hall Parking Lot, (which is referred to by the group as "garden").

While by the City Hall Parking Lot, they counted the rest of the patrol cars (black and white cars). After counting the marked cars at the two locations, they were able to account for all of the patrol cars, except for three, during the evening. They felt that they knew where twenty-two of the police cars where.

They then went to the gasoline station located at Seventh and Cooper Streets, where COOKIE picked up some cigarettes. They then went to Friends Avenue, where he dropped off COOKIE so that she could go to the roof of the Townhouse Apartments, (referred to by the group as Filmore).

COOKIE went to the rooftop at approximately 1:30 a.m., at which time he left the area. The plan was for COOKIE and ANITA to stay on the rooftops, making radio contacts with each other and observing the buildings until 4:00 a.m., at which time they would both leave the area.

HARDY mentioned that ANITA now returns home many nights during the week, while COOKIE spends the night either at GENE DIXON's apartment (517 Penn Street, Camden, N.J.) or at MIKE GIOCONDO's apartment (Third and Cooper Streets, Camden, N.J.). Sometimes COOKIE spends the night in Philadelphia, at a place unknown to him. COOKIE has said to him that she does not go home at night.

During the course of the surveillance last night, it was mentioned that ANN DUNHAM would be coming back from New York City today, and that NED MURPHY would also possibly be returning.

In the past, GRADY and MURPHY have both mentioned that JOE O'ROURKE would be involved in some way in this action.

MURPHY had indicated that he would possibly be bringing someone back with him when he returned to Camden. MURPHY also indicated that ANN was going to New York City in order to get some commitments from some other people who would be involved in the action. BOB GOOD, who left for New York City this morning, is due to be back in Camden on Thursday.

The walkie-talkies were used last night for contact between COOKIE and ANITA, from their positions on the Townhouse Apartments and the Law School Building, (referred to by the group as "Oliver"). Radio contacts were to be made by them after 1:30 a.m. No contact was made before that time.

The following is a code that has been devised by the group to be used when making radio contact:

<u>Code Word</u>	<u>Meaning</u>
Theater	Lit Brothers. Broadway and Market Streets
Garden	Parking lot between City Hall and the Parkade Building
Lawn	Market Street In front of the Post Office Building between Fourth and Fifth Streets
D.J.	Fourth and Federal Streets
H.	Market Street
G 1	Fourth Street and Markley Avenue (alley behind Post Office)
G 2	The Fourth Street side of the Post Office platform
G 3	Fifth Street side of the Post Office platform
G 4	The opening between the abandoned building on Fifth Street by Markley Avenue
G 5	Fifth Street and Markley Avenue

cont'd)	<u>Code Word</u>	<u>Meaning</u>
	Filmore	Townhouse Apartments
	Oliver	Roof of the new Rutgers Law School Building
	Carolina	North Camden Between Fourth Street and the underpass
	Porch	Platform in rear of Post Office Building where mail is handled
	Landlord	Night watchman at Post Office Building
	F.	Cooper Street
	G.	Markley Avenue (alley)
	H.	Market Street
	I.	Arch Street
	J.	Federal Street
	Jack	BOB GOOD
	Moses	HARDY
	Party	Post Office Building
	Party-pooper	The police
	Neighbor	Stray person coming into area on foot
	Neighbor with his dog	Stray person coming into area by automobile
	Pearce	MIKE GIOCONDO

Last Monday, GRADY said if the action does not "come off" within the next ten days or so, that he would get away for a while. COOKIE and ANITA have voiced the same sentiment.

GRADY said that he was not sure what they would do with the material which they obtain from the draft board. GRADY did say, however, that they normally burn the material, and that they often find an abandoned farm some place and make a big fire with the material.

During discussions of the action, GRADY and NED MURPHY mentioned the possibility of going into the Army Intelligence Office. COOKIE, ANITA, BOB GOOD, and in this instance, MURPHY, have at times interjected the thought as to hitting the Army Intelligence Office. MURPHY said that there is no reason for having an Army Intelligence Office in the Camden Post Office Building, and that "they must have something very good in there that would be helpful to the group".

It was mentioned that they would probably destroy those records that they were not able to carry away from the draft board. It was mentioned that they would probably "rip up" those files. It was also mentioned that at a previous action they had taken a paper cutter into the draft board for the purpose of destroying the files, but that someone left the paper cutter and fingerprints were found on it.

BOB GOOD mentioned that over eight hundred files were taken during the recent Massachusetts Draft Board action. GOOD also mentioned that these files were mailed to the registrants. COOKIE said that they had done the same thing once before, mailing a couple of hundred files to the respective registrants. GOOD did not relate subsequently as to how he acquired the knowledge regarding the Massachusetts action, but he (GOOD) indicated that information concerning that action is now common-knowledge within the underground movement.

It was mentioned by members of the group last night that during the surveillances prior to the Trenton Draft Board action, that the group used a code when talking over the radios.

It was mentioned that this code was made up of various medical terms connected with hospitals. This code was as follows:

<u>Code</u>	<u>Meaning</u>
Hospital	Building were Trenton Draft Board located
Surgeon	Night watchman
Intensive Care Unit	Trenton Draft Board

The paper work, such as maps, files, etc., is still located in the crib, in the back bedroom on the first floor of the ANDERSON residence. Some of the notes are in bigger boxes in the TV room. The "headsets" (walkie-talkies), binoculars, and flashlights are kept by the fireplace in the den. All of the equipment is tagged and numbered and a list is maintained as to what members of the group used what equipment on a given night.

The first two "headsets" that were purchased at the Radio Shack in Pennsauken will be used on the Law School, the roof of the Townhouse Apartments, and in his (HARDY's) van.

FEDERAL BUREAU OF INVESTIGATION

Date August 2, 1971

ROBERT WILLIAM HARDY telephonically contacted Special Agents MICHAEL M. RYMAN and TERRENCE P. NEIST and advised as follows:

On July 28, 1971, he went to the residence of Doctor ANDERSON, Collingswood, N.J., arriving at approximately 8:00 p.m. Upon his arrival, he noted that those present were JOHN GRADY, Mrs. GRADY, the GRADY children, ANITA, COOKIE, and JACK SHAUGHNESSY. Later in the evening, ANITA and COOKIE went out to pick up ANN DUNHAM, who had come in from New York. After doing this, the three of them returned to the residence.

JACK SHAUGHNESSY is Mrs. GRADY's brother. He is a priest from Detroit, Michigan, and was in the area for a few days.

At approximately 11:30 p.m., members of the group left for their observation work in the area of the Post Office, Camden, N.J. ANITA and ANN DUNHAM went to the new Rutgers Law School Building. COOKIE went to the roof of the Townhouse Apartments. GRADY took his brother-in-law, JACK SHAUGHNESSY, into Camden to "show him the lay out of the thing."

At approximately 1:15 a.m., he (HARDY) made contact with COOKIE, turning over his notes for the evening to her, and explaining what had been seen by him from the front of the Post Office Building.

It was mentioned that COOKIE and ANITA were caught shoplifting at Wanamakers, Morristown Mall, Morristown, N.J. They, however, were able to talk their way out of the situation and no charges were brought against them.

The papers and notes and plans, etc., are still located at the ANDERSON residence. Everything is now located in the crib in the bedroom. The "headsets," binoculars, and other equipment are still located by the fireplace.

HARDY explained that JACK SHAUGHNESSY had come down from New York City, where he had been for a funeral. He intends to leave this morning, flying from the Philadelphia Airport back to Detroit, Michigan. JACK SHAUGHNESSY appeared to be well aware of the proposed draft board hit.

FEDERAL BUREAU OF INVESTIGATION

Date 8/2/71

ROBERT WILLIAM HARDY advised the following information:

Last night, July 29, 1971, he went to the home of Dr. ANDERSON, Collingswood, N. J., arriving at approximately 8:30 p.m. Upon his arrival those present were Mrs. GRADY and family, ANITA, ANN, and JACK SHAUGHNESSY, Mrs. GRADY's brother. Approximately 15 to 20 minutes later JOHN PETER GRADY and COOKIE came in. They had been out shopping. HARDY advised that JACK SHAUGHNESSY was supposed to have left the residence yesterday but that he put it off another day. HARDY advised that they sat down and had supper and went over their plans until approximately 11:30 at which time he was to go down to the vicinity of the Camden Post Office, parked on the south side of Market Street across from the Post Office. He advised that COOKIE, who had come down with a virus, was to stay inside the van on Market Street which is referred to as the "lawn" side.

HARDY advised that after he parked his van with COOKIE in it, he went around to Cooper Street and up to the roof of the Townhouse Apartments, which is known to the group by the code name "Fillmore." He noted that GRADY and ANITA came in MIKE GIOCONDO's Renault and parked at Fourth and Markley Avenues, known in code to the group as "G One." HARDY advised that ANN DUNHAM had picked up NED MURPHY who had called earlier in the evening. They came over to the roof of "Fillmore." He stated that they did their surveillance work until approximately 12:30 at which time he left the roof, picked up his truck with COOKIE in it, and went out and did a surveillance of the police at the garage located behind Sears in the plaza. He advised that he stopped at an all-night drugstore and picked up some throat lozenges for COOKIE. They then went back to the "Fillmore" and went to the roof.

HARDY advised that upon arriving at the roof of the "Fillmore" he met GENE DIXON and then shortly thereafter GRADY came. This was approximately 1:30 and at this time the following people had congregated on the roof: JOHN GRADY, ANITA, COOKIE, GENE DIXON, and NED MURPHY. The group then had a 15-minute conference talking over what all they had seen in the surveillance. At this time it was decided that since GRADY was taking his family down to the campsite NED MURPHY, ANN DUNHAM, and ANITA would stay at the ANDERSON home and that COOKIE would go to GENE DIXON's apartment. It was further decided that the group would meet at Dr. ANDERSON's home that night at 7 p.m.; that they would start out early in the evening to go over the plans in order to prepare for a full dry run Saturday night.

HARDY explained that the group was planning to establish surveillances at 10 o'clock Friday night rather than 11 because there had been changes in the shifts of the people working inside the Post Office and they wanted to gather more information regarding people going in and out of the Post Office.

HARDY explained that the group expected BOB GOOD to be back along with MIKE DOYLE, MIKE GIOCONDO, and possibly MEL MADDEN.

HARDY further explained that the group did not go to the Rutgers Law School Building last night because the building is now pretty well lighted and that it is impractical to do any surveillance work there. GRADY said that he did not feel that it was such a crisis (implying that they will no longer be able to use the law school). GRADY explained that he was doing a little riding around and parking in his car and said that he got down to Third and Market and was able to get a pretty good shot at the Fourth and Market Street sides of the Post Office. GRADY felt that this was sufficient for the group's needs.

In regard to the early surveillance time, the group is concerned about the fact that there are cleaning people in the building past midnight. He explained that these people are there sometimes until 2 or 3 in the morning so apparently they are coming in at 9 or 10 and the group is not observing them when they go in.

HARDY advised that the papers and plans are still in the crib in the ANDERSON home with the exception of the slide projector which is located in the room; however, the slides are in the crib. HARDY briefly described the collection of documents and plans as being ten large 24 by 36 sheets of poster board containing street maps with plastic overlays on them so that the group can write down their observations and then as developments arise they can later erase them. There are a half dozen assorted notebooks and a small filing box.

HARDY stated that a full dress rehearsal will be conducted Saturday night. He described this as cars moving in the area with the ideal thing being that people will actually fill the observation and surveillance spots that will be occupied during the actual hit.

HARDY noted that GRADY seems to be well rested now and is thinking clearly. He is not drinking as much as he has in the past and is his normal self. HARDY explained he is much the same person he had met the first time.

HARDY advised that when COOKIE and ANITA were arrested the other night for shoplifting, he believes the place to be Wanamaker's Department Store at the Moorestown Mall. He further advised that at the time that they were picked up at Wanamaker's they were photographed and then let go.

FEDERAL BUREAU OF INVESTIGATION

Date 8/3/71

On July 30, 1971, ROBERT WILLIAM HARDY telephonically advised Special Agent TERRENCE P. NEIST that JOHN GRADY had on that date requested that he put into his truck GRADY's personal effects and the plans, slides, and documents which had been prepared and used by GRADY's group in connection with the proposed Camden Draft Board hit. He further advised that GRADY had requested that he retain these items until sometime during the day of July 31, 1971, at which time he should take them to the apartment of EUGENE DIXON, 517 Penn Street, Camden, N. J.

HARDY advised that he had done as so instructed by GRADY; that the materials were now in his truck, and that he would make these materials available to the FBI.

On July 31, 1971, HARDY furnished the above-mentioned materials, which included JOHN GRADY's personal notebook, to Special Agents TERRENCE P. NEIST and MICHAEL M. RYMAN.

On the same date these items were immediately taken to the Philadelphia Office of the FBI where they were photographed.

On the same date, after the photographing, the materials were returned to HARDY and placed in his truck.

FEDERAL BUREAU OF INVESTIGATION

Date 8/3/71

ROBERT WILLIAM HARDY telephonically contacted Special Agent TERRENCE P. NEIST and advised as follows:

On July 30, 1971, he went to the residence of Doctor WILLIAM A. ANDERSON, Collingswood, N. J. Upon his arrival he noted that Doctor ANDERSON's family had returned from their summer home in Sea Isle City, N. J., and that the GRADY family was in the process of moving out of the ANDERSON residence and getting ready to leave for their campsite at the shore.

As he drove up to the residence, JOHN GRADY called and signalled for him to back his truck up to the ANDERSON residence. GRADY then told him to put GRADY's personal effects, as well as the plans, documents, and slides relating to the proposed Camden Draft Board hit, into his truck and to, sometime during the next day, take these materials to the apartment of EUGENE DIXON, 517 Penn Street, Camden, N. J., where they would be sorted out at a later date.

GRADY said that he would probably be staying at DIXON's apartment for the next week and that they would have plenty of time to sort out the various documents and put them in their proper places.

HARDY did as he was instructed by GRADY and loaded the various materials into his truck. GRADY told HARDY to take charge of the group for the Friday night observation of the Camden Post Office.

At approximately 8 p.m. on that night JOHN GRADY, COOKIE, ANITA, ANN DUNHAM, Mrs. GRADY, and the GRADY children left the ANDERSON residence going to the campsite area. GRADY, COOKIE, ANITA, and ANN DUNHAM indicated that they would spend

176

the night at the shore and set up the campsite the next morning and then return to the Camden area around lunchtime.

Before the GRADY family had left; COOKIE, ANITA, ANN DUNHAM, and MIKE GIOCONDO took Mrs. GRADY's brother, Father MIKE SHAUGHNESSY, to the Philadelphia Airport where he would take a flight to Washington, D. C., enroute to Detroit, Mich.

HARDY and NED MURPHY left together and met with MIKE GIOCONDO at GIOCONDO's apartment, Third and Cooper Streets, Camden, N. J.

While enroute to GIOCONDO's apartment, HARDY asked if any other people would be coming down for the action. MURPHY replied that there would be nothing to worry about because plenty of people would be coming here for the action when the time came. MURPHY indicated that the only thing that was necessary was for GRADY to set the time and that once the time was set the people would respond to GRADY's call.

Before ANN DUNHAM left, she asked HARDY to leave his phone number with Doctor ANDERSON so that when her boyfriend FRANK (last name unknown) arrived in the Camden area on Saturday he would be able to get in touch with him.

Last night GIOCONDO said that GRADY had told him (GIOCONDO) that he (GRADY) would be sleeping at Doctor ANDERSON's "flat" and would more than likely hold the group meetings there rather than at GENE DIXON's apartment.

Last night he went to GIOCONDO's apartment at approximately 9:45. When he arrived MURPHY and GIOCONDO were there. They decided upon three observation positions to be used on that night. One position was in his (HARDY) van, which will be parked in front of the Little Bazaar which is located between Fourth and Fifth Streets on Market Street directly across from the United States Post Office Building. It was determined that HARDY would make observations as to when the night watchman arrived and if and when he came out of the building. GIOCONDO was to be in GRADY's Comet (with New York license tags) parked at Fourth Street and Markley Avenue (alley). GIOCONDO was to observe the night watchman with regard to his entering the mail platform in the rear of the Post Office building. NED MURPHY

was to be on the roof of the Townhouse Apartments where he would observe any movement on the wings of the Post Office building on the third, fourth, and fifth floors.

At 12:30 a.m. it was planned for HARDY to start his truck and travel on Fourth Street toward Cooper Street. MURPHY would see the truck coming and would then come around the corner. GIOCONDO would also see the truck and the three of them would then rendezvous at GIOCONDO's apartment.

They performed their observations that night according to the above-mentioned plans.

During the observations they learned that at 10 p.m. when HARDY drove to the front of the Post Office building the guard was standing by the doorway. HARDY went over to the guard and talked to him on the pretext of buying some stamps from the stamp machine. He found out from the guard that he is relieved at 11:45 to 12 midnight. After this, the group performed two and one half hours of observations.

At approximately 12:30 a.m. HARDY made the right-hand turn onto Fourth Street, according to the plans, and subsequent to that met GIOCONDO and MURPHY at GIOCONDO's apartment. When they met they discussed what had been seen by the three of them during their observations. It was agreed upon that whichever of them first heard from GRADY during the day of Saturday, July 31, 1971, would contact the others.

HARDY advised that during previous talks with MURPHY, ANITA, and COOKIE, it was mentioned that the group would conduct a dry run on Saturday night (July 31, 1971) on a large-as-possible scale with as many people as possible involved.

When HARDY left the meeting he took NED MURPHY to GENE DIXON's apartment located at Fifth and Penn Streets, Camden, N. J.

GRADY took MIKE GIOCONDO's Renault to the shore.

PH 52-7165 SUB S

Before leaving last night GRADY told him that he had gotten a letter from DAN and PHIL BERRIGAN and said that the letter was very encouraging and that money was received with the letter.

It was mentioned that the person from North Jersey who would be bringing down the camping equipment for the GRADY family would be Father JOE SHUSTER. From the conversation it was apparent that SHUSTER is a friend of the GRADYs from either East Orange, N. J., Union, N. J., or one of the northern New Jersey cities. It was also apparent from the conversation that he is a priest. HARDY recalled that Mrs. GRADY said that "Father JOE is bringing our camping equipment down." HARDY then inquired of Mrs. GRADY as to the identity of Father JOE. Mrs. GRADY replied that he was Father JOE SHUSTER.

FEDERAL BUREAU OF INVESTIGATION

Date August 5, 1971

ROBERT WILLIAM HARDY telephonically contacted Special Agents TERRENCE P. NEIST and MICHAEL M. RYMAN and advised as follows:

On July 31, 1971, at approximately 5:00 p.m., BOB GOOD, MIKE GIOCONDO, NED MURPHY, and FRANK (last name unknown - believed to be PARMAGON (ph), who is the boyfriend of ANN DUNHAM) came to his (HARDY's) residence for dinner. It was mentioned that JOHN GRADY, ANITA, COOKIE, and ANN DUNHAM were still at the shore helping Mrs. GRADY in the setting up of the camp site.

Through conversation with FRANK, he learned that he (FRANK) is a lawyer with "The Model City's Program" in New York City, and that he was formerly with VISTA (Volunteers In Service to America). He also mentioned that he worked in Alaska for a couple of years before he went to work for VISTA.

FRANK is a white male, 5'10" in height, 150 pounds, with long dark hair, (not exceptionally long, but "collar length,") thin frame, and approximately 25 years of age.

FRANK mentioned that he was involved in the Trenton surveillances, and that he has been involved in "other actions."

At about 8:00 p.m., they went to MIKE GIOCONDO's apartment in order to set up their plans for the night. At this point, they had not as yet heard from GRADY.

They determined upon positions and set up the positions as follows:

On 8/1/71 at BERLIN, N.J. File # PHILADELPHIA 52-7165 SUBS

by SA MICHAEL M. RYMAN
SA TERRENCE P. NEIST TPN/rav Date dictated 8/5/71

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

PH 52-7165 SUB S

HARDY's van would be in front of the Post Office Building on Market Street, between Fourth and Fifth Streets.

GIOCONDO would be in the position known to the group as G-1; that is Fourth Street and Markley Avenue (alley).

BOB GOOD would be inside HARDY's van.

HARDY and FRANK would be on the roof of the Townhouse Apartments.

NED MURPHY would stay at GIOCONDO's apartment to await any calls from GRADY.

At approximately 9:00 p.m., GRADY called from the shore and said that they were leaving at that time. GRADY asked him (HARDY) what had been planned for the night. HARDY instructed GRADY as to the plans for the night and GRADY indicated that the plans, as they had been set up, were fine.

They went into their positions at approximately 10:00 p.m. BOB GOOD was in the van. GIOCONDO was at the position known as G-1 (Fourth and Markley), alternating between that position and G-3, which is the church yard behind the Methodist Church on Cooper Street. FRANK and HARDY were on the roof of the Townhouse Apartments.

HARDY was equipped with a "head set" (walkie-talkie). BOB GOOD had a "head set" and NED MURPHY, who was at GIOCONDO's apartment, Third and Cooper Street, also had a "head set."

At approximately 10:30 p.m., GRADY and the members of the group who were at the shore, arrived in Camden. COOKIE and ANITA went to the roof of the Townhouse Apartments and took up other positions so that they could better observe the Post Office Building. ANN DUNHAM also came up to the roof.

The members of the group retained these positions until approximately 1:00 a.m. At that time GIOCONDO, GRADY, and Father MICHAEL DOYLE came to the roof, at which time Father DOYLE and ANITA remained on the roof to observe the Post Office Building, and the remainder of the group went to GIOCONDO's apartment.

He (GRADY) then went to pick up his van and brought BOB GOOD to GIOCONDO's apartment. They then went into GIOCONDO's apartment and reviewed with GRADY what had transpired on Friday night and what had been seen on Saturday night before GRADY's arrival.

Members of the group seem to think that "everything was back to normal," and that the observations were coming along very well.

While with BOB GOOD earlier in the evening, GOOD said that RO RO and MC GOWAN would be coming down early in the week, possibly Tuesday or Wednesday. GOOD said that he had talked to MC GOWAN on Thursday night, and that MC GOWAN had indicated that someone else would possibly be coming with him.

While in GIOCONDO's apartment, at about 1:45 a.m., GRADY said that MICHAEL DOYLE should be relieved from his position at that time, and then he, (GRADY) and ANITA went to the roof to relieve DOYLE. GRADY also indicated that FRANK and ANN DUNHAM should also take positions with them on the roof.

Before GRADY left for his position on the roof, GRADY and source went to MICHAEL DOYLE's car in order to transfer some material which was kept in that car, such as personal belongings, to GRADY's Comet. While doing this, GRADY talked with him for about twenty minutes.

During this conversation, GRADY said that he felt things looked pretty good, but that if he could not see things clear between now and next weekend, that the "action" would be "called off" for a couple of months. GRADY indicated that he was "tired" and "worn out," and that all members of the group were also tired. GRADY indicated that if the action

182

could not be "pulled off" by the next weekend, that taking a couple of months off would enable members of the group to return to the area with a fresh outlook.

GRADY asked him to start looking around for a van that could be rented by the group. GRADY said that he would like to have someone other than HARDY drive the van that would go into the alley. GRADY said that his reason for this was that they could afford to lose "the other indians", but that they could not afford to lose him (HARDY) because he was needed in the movement. GRADY told HARDY that there were very few people in the movement who could think and work at the same time, and that HARDY was one of these people.

At approximately 2:30 a.m., GRADY said that he would be going out to Doctor ANDERSON's, Collingswood, N.J., staying there that night and the next couple of nights.

GRADY mentioned that the group will be meeting at GIOCONDO's and advised that members of the group should park their vehicles at least two blocks away from GIOCONDO's apartment building there so as not to draw attention to the area.

It was mentioned during the evening that FRANK and NED MURPHY would be taking a bus back to New York City sometime today.

While he (HARDY) was at GIOCONDO's apartment last night with MURPHY, GOOD, GIOCONDO, and FRANK, at approximately 9:00 p.m., the subject of the burglary of the FBI Office in Media, Pa., was brought into the conversation. NED MURPHY spoke with some authority with regard to the burglary of the Media FBI Office. MURPHY said that everytime that something happens to an FBI Office, the FBI in New York City goes immediately to his mother's house and inquires as to his (MURPHY's) whereabouts. MURPHY seemed to have quite a bit of knowledge with regard to the Media FBI Office burglary and Harrisburg.

It was mentioned during the night that MURPHY has been involved in "actions" for almost four years.

HARDY sensed a "knowing glance" between FRANK, GOOD, and MURPHY, when the subject of the Media break-in was introduced into the conversation.

On Saturday afternoon, July 31, 1971, he (HARDY) picked up GRADY at GIOCONDO's apartment and they went to GENE DIXON's apartment, 517 Penn Street, Camden, N.J., where MURPHY was staying. The three of them carried the materials, in HARDY's truck into GENE DIXON's apartment. The material, which they took to DIXON's apartment, included the "head sets," personal effects of GRADY, binoculars, plans, drawings, slides, and various notes and documents prepared by the group in connection with the proposed "action."

MURPHY, GIOCONDO, and HARDY then went to GIOCONDO's apartment. BOB GOOD was waiting for them at GIOCONDO's apartment.

It was mentioned during the evening that there was a proposed draft board "action" planned for Trenton, which had to be abandoned because of problems encountered. It was mentioned that all surveillances and observation work had already been completed with regard to this "action," and that eventually, the group will return to Trenton for completion of that "action." Both GRADY and MURPHY made mention of this during the evening.

HARDY explained that the members of the group are able to gain access to DIXON's apartment because various members of the group have keys to that apartment. COOKIE has a set of keys for both GIOCONDO's apartment and DIXON's apartment. NED MURPHY has a set of keys for both apartments. GRADY has a set of keys for both apartments; and GOOD has a set of keys for GIOCONDO's apartment.

During the evening, FRANK said that he was involved in the surveillances in Trenton and that he had spent quite a bit of time at Trenton and in other "actions," (not specified.) FRANK said that he had spent quite a bit of time "casing" draft boards in Trenton and that all surveillances conducted in Trenton were done from the inside of cars. FRANK said

PH 52-7165 SUB S

that they had used a Volkswagen Van, which they parked in a parking lot, to conduct the surveillances of the Trenton Draft Board.

During last night's surveillance, GRADY spent a bit of time walking around on the street and then came to the roof of the Townhouse Apartments at approximately 1:05 or 1:10 a.m.

185

FEDERAL BUREAU OF INVESTIGATION

Date August 6, 1971

ROBERT WILLIAM HARDY advised the following information:

HARDY advised that he met MIKE GIOCONDO on August 1, 1971, at 3rd and Cooper Streets, Camden, at approximately 7:15 p.m.; whereupon, by previous instructions, they were to walk around the Post Office up and down Market Street in order to see just what kind of activity was in the vicinity of the Post Office area. He stated that this was per GRADY's instructions in that he wanted to gain new insight into the earlier activity in the vicinity of the Post Office.

After doing the walk around, they parted company and he proceeded to GENE DIXON's apartment and arrived at approximately 8:10 p.m. GIOCONDO arrived about five minutes later.

Present in DIXON's apartment were JOHN GRADY, ANITA, COOKIE, ANN DUNHAM and BOB GOOD. They were in the midst of preparing their dinner and getting things ready for the nights casing. HARDY noted that GRADY was giving his normal school teacher lecture to those present and telling them how to be more efficient. He noted that girls do not do anything unless GRADY tells them to do it. He also included BOB GOOD in this.

After the lecture, the group started to set up the program for the night.

GRADY instructed HARDY to be at the Townhouse Apartments as close to 9 p.m., as possible and observe the activities within the Post Office, MIKE GIOCONDO was instructed to do a walk around thing on Market Street, 4th Street, Cooper Street, and 5th Street. The purpose of GIOCONDO's walk around was to sort of drift into the area looking for license tags on cars that the group knows belong to employees in the Post Office and to the various guards. HARDY stated that this time period of GIOCONDO's walk around was from 9:30 p.m., to 10:30 p.m. BOB GOOD and ANN DUNHAM arrived at the Townhouse Apartments at approximately 10:15 and about the same time COOKIE, ANITA, and JOHN GRADY did a "drive around" contacting HARDY on the headsets

On 8/2/71 at BERLIN, N.J. File # PHILADELPHIA 52-7165SUB S
 by SA TERRENCE P. NEIST
SA MICHAEL M. RYMAN MMR/rav Date dictated 8/5/71

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

from different points within the city area mainly within two blocks of the Post Office. HARDY noted that GRADY now parks his car at 3rd and Market. A short time later, everyone reported up to the Townhouse Apartments and GRADY held a small conference in which the participants related what each had seen.

HARDY noted that all information is put down on 3 X 5 file cards and then the group compares notes. He stated that last night GRADY was interested in the particular time slots when the group would be completely safe to go into the building. HARDY noted that at approximately 11 o'clock Sunday night it was clear from 10:45 to 11:40. It was noted that there was a 25 to 30 minute cushion whereupon nothing happened. He went on to say in other words there was no police activity, there were no neighbors walking around, there was no watchman observed in the Post Office building and there were no private cars or postal employees in the area.

HARDY noted that the group will do this every night this week in an effort to tighten up the present surveillance information they have already gained.

HARDY stated that things are less haphazard and that people are now given different assignments by GRADY as to what to look for. He further noted that GRADY has tightened up security and that he is a little more conscious of what the group is doing and not wasting time.

At approximately 1:15 a.m., GIOCONDO, HARDY and GRADY came off the rooftop. GIOCONDO then left the three, leaving GRADY and HARDY in the truck.

While inside the truck, GRADY related that the group was going to run this thing this week as far as operational procedures were concerned and that he wanted to get the girls and GOOD and everyone involved just a little bit tighter as far as the work schedule and job assignments went.

It was at this time that GRADY instructed HARDY to be at Dr. ANDERSON's apartment on Broadway at 6 o'clock p.m., on August 2, 1971. GRADY advised him that he, GRADY, and the two girls had spent the whole day there cleaning a good portion of the apartment. HARDY noted there is no furniture and that the apartment is empty. GRADY stated that he wants to set up one room of the apartment as a chart room in which he wants to place

large charts and maps on the walls. GRADY wants to have a large rigid system whereby the group can put down on the charts the activities of every night's surveillance and thereby fill in any empty gaps in regard to job assignments for each night.

HARDY advised that GRADY also mentioned a plan which he has been thinking about in regard to the break-in of the draft board. GRADY would like to get someone inside the building in order that this person could at a prearranged time open the side door on the 4th Street side of the Post Office and thereupon let the people who are actually going into the draft board into the building.

HARDY explained that the guard goes out the front door at approximately 11 o'clock in order to lock the six front doors of the Post Office. He explained that in order to lock these doors the guard has to step outside for several minutes. During this time, he explained, the people would then enter the Post Office, go up the stairwell to the 5th floor where the draft board is located. At the 5th floor, it would be simply a matter of stepping out onto the window ledge, walk around the roof and step into the draft board through the windows eliminating the need to cut or force the draft board door open.

HARDY explained that the route of exit for this plan would be for the group which goes into the draft board to come down the fire escape and off the roof which overhangs the mail platform.

HARDY stated that the equipment, including headsets, binoculars, drawings, plans and file cards are at GENE DIXON's apartment located in the front room.

FEDERAL BUREAU OF INVESTIGATION

Date 8/6/71

ROBERT WILLIAM HARDY advised the following information:

On August 2, 1971, at approximately 6 o'clock, he went down to MIKE GIOCONDO's apartment and picked up JOHN GRADY. From GIOCONDO's apartment he and GRADY went to Dr. ANDERSON's office at Broadway and Royden and proceeded to change some locks and generally prepare the apartment for GRADY's people who are coming down for the draft board action. GRADY referred to it as a "crash hut." GRADY intimated that he intends to keep all of his people there when the time comes.

HARDY noted that GRADY stated that things were shaping up and that the actual hit date was definitely getting close. GRADY however did not elaborate on the point.

After finishing up at Dr. ANDERSON's apartment, it was approximately 9 o'clock, Dr. ANDERSON himself came up and told GRADY that he had left some of his personal effects at the ANDERSON home and inquired if GRADY wanted to go with him to pick them up.

At approximately 10:15, HARDY went to MIKE GIOCONDO's apartment. Those present when he arrived were MIKE GIOCONDO, COOKIE and BOB GOOD. They had already been out on the street doing their surveillance work. HARDY noted that there were some more charts with a little more detail on them in the GIOCONDO apartment.

GRADY had remarked to HARDY that he wanted to get out of GENE DIXON's apartment as fast as possible. He stated that he would like to be able to be in ANDERSON's apartment by Wednesday or Thursday.

At approximately 11 o'clock, HARDY went to the roof of the Townhouse Apartments and upon arriving there saw MIKE GIOCONDO and GRADY. A short discussion was held at which time COOKIE came up to the roof. At approximately 11:30 BOB GOOD came up to the roof. There was then a short conference till

187

about 12:15 a.m., at which time GRADY and HARDY went down to transfer bags and personal items which GRADY had picked up from ANDERSON's house.

HARDY noted that while he was helping GRADY transfer the bags, he noticed two or three notebooks and other papers.

They then drove around for a little while, at which time GRADY said he was going to the shore today and would return later in the evening.

HARDY then dropped GRADY off at 3rd and Market Streets at approximately 1:20 a.m., at which time GRADY said that he was going up to GENE DIXON's apartment to get something to eat, and then he intended to go back to the Townhouse Apartments and check with BOB GOOD and COOKIE.

HARDY advised that GRADY still carries his flight bag with him at all times. He went on to say that if GRADY does not have it with him physically it is in his car.

FEDERAL BUREAU OF INVESTIGATION

Date August 6, 1971

ROBERT WILLIAM HARDY telephonically contacted Special Agents MICHAEL M. RYMAN and TERRENCE P. NEIST and advised as follows:

On Tuesday afternoon, August 3, 1971, he went to the office of Doctor WILLIAM ANDERSON, Broadway and Royden Streets, Camden, N.J., in order to fix the lock on the apartment above the office, as was so requested by JOHN GRADY.

He went into the apartment, which is above Doctor ANDERSON's office, and observed notes, which had been made by GRADY, which included notes with regard to surveillances of the Camden Post Office area.

When he left the apartment, he stopped at Doctor ANDERSON's office and conversed with Doctor ANDERSON. ANDERSON said that GRADY and COOKIE had just left his (ANDERSON's) residence in Collingswood, N.J., going to the camp site area, where Mrs. GRADY is staying. ANDERSON stated that GRADY had been to the ANDERSON residence to pick up some medicine and other things which he would take to his wife. It was about 2:30 to 3:00 p.m., when GRADY left the ANDERSON residence.

At approximately 8:30 p.m., he went to the apartment of MIKE GIOCONDO, Third and Cooper Streets, Camden, N.J. As he arrived there, GIOCONDO and BOB GOOD were just finishing their dinner. They said that they had received a telephone call from Doctor ANDERSON, who told them that someone by the name of MIKE DARBY (ph) was on his way to the Camden, N.J., area, and had called ANDERSON from a service station somewhere along the New Jersey Turnpike. DARBY had related to ANDERSON that he would be in the area later in the evening. They also indicated that they had heard from ANN DUNHAM, who was also due in shortly.

PH 52-7165 SUB S

The three of them then proceeded to lay out their plans for the night. At approximately 9:00 p.m., ERNIE BUSHBY (ph) stopped by GIOCONDO's apartment. BUSHBY sold some hashish and marijuana to MIKE GIOCONDO. BUSHBY, GIOCONDO, and GOOD split "a couple of sticks," that is, they smoked a couple of "joints" of marijuana.

HARDY, at that time, left the group saying that he would go to the roof of the Townhouse Apartments. Arrangements were made that he would be relieved from that position at 10:30 p.m., at which time he would go to the front of the United States Post Office and conduct surveillance from that point.

He went to the roof of the Townhouse Apartments at approximately 9:30 p.m. He made radio contact at 9:35 p.m. with MIKE GIOCONDO, who was at his apartment. The code name GINO's is used by the group during radio transmissions when referring to GIOCONDO's apartment.

At approximately 10:00 p.m., he conducted another radio check with GIOCONDO's apartment, using the code name GINO. At approximately 11:00 p.m., BOB GOOD came to the roof of the Townhouse Apartments. At that time, they again checked in with GIOCONDO, at which time it was determined that he (HARDY) would not go down onto the street until 11:25 p.m., and that GIOCONDO would come to the roof of the Townhouse Apartments at approximately 11:45 p.m. They determined upon this plan because they felt that someone should be in GIOCONDO's apartment until the other members of the group either called in or arrived in the area.

At approximately 11:25 p.m., he went to the street and drove his van to the front of the Post Office Building, parking on the south side of the street, from where he was able to observe the relief of the night watchman and the exit of the cleaning woman.

At approximately 11:50 p.m., he left from the area in front of the Post Office and went down Third Street towards Cooper and parked his van. He went to GIOCONDO's apartment and noted that ANN DUNHAM and GIOCONDO were in his apartment, getting ready to go to the roof of the Townhouse Apartments. He gave GIOCONDO his notes concerning the nightly surveillance.

GIOCONDO told him that he had just heard from JOHN

GRADY, who told him that he had left the shore at approximately

PH 52-7165 SUB S

3

11:25 p.m., heading for the Camden area. GRADY had indicated that COOKIE was with him.

ANN DUNHAM and GIOCONDO went to the roof of the Townhouse Apartments at approximately 11:55 p.m. He left at that time and went to the front of the Post Office Building so that he might observe the watchman, who worked the 4:00 to 12:00 shift, as he left the Post Office Building. He (HARDY) left the area at approximately 12:30 a.m.

While talking to GOOD on the rooftop of the Townhouse Apartments last night, GOOD said to him that JOHN GRADY was indeed serious about "pulling this thing off," and that he (GOOD) expected that the action would take place "very soon."

During the evening, while at GIOCONDO's apartment, GOOD said that there were several people who would definitely be coming to the area last night or this morning (Wednesday). GOOD said that MIKE DARBY (ph), MCGOWAN, and RO RO would be coming into the area sometime either last night or this morning. ANITA is still at home sick, according to other members of the group, with the virus. GOOD had said that COOKIE had related to him that it would be another day or so before ANITA would be back with the group.

193

FEDERAL BUREAU OF INVESTIGATION

Date August 5, 1971

ROBERT WILLIAM HARDY furnished the following information:

On a recent night, MIKE GIOCONDO and BOB GOOD were talking about surveillances they were conducting in connection with the Trenton, N.J., Draft Board break-in. During this conversation, GIOCONDO related the following information, which had been told to him by JOHN GRADY:

In the spring of 1971, while conducting a surveillance in connection with the Trenton Draft Board break-in, JOHN GRADY was sitting on the passenger side, front seat, of a vehicle driven by GENE DIXON. Two girls (not named) were in the back seat. A police officer approached the vehicle and asked for identification of DIXON, which was furnished to the officer. When the officer asked for identification from GRADY, GRADY replied, "What for?" The police officer explained that it was a routine inquiry, but GRADY still refused to furnish any identification.

The police officer then took GRADY to the police station and "booked him" on some charge, deriving from the fact that GRADY would not identify himself. (It was HARDY's impression that the charge was something along the line of disorderly conduct.)

One of the members of the group posted \$25 bail for GRADY on that night and GRADY was subsequently released pending a hearing.

The members of the group spent the next couple of nights at El Centro, (Camden, N.J.) determining as to what "story" they would give at the forthcoming hearing.

Father MICHAEL DOYLE arranged for JOE RODRIGUEZ, a Camden, N.J., attorney, to represent GRADY at the hearing. GRADY gave the agreed upon "story" to RODRIGUEZ when RODRIGUES

194

PH 52-7165 SUB S

undertook to represent him. RODRIGUEZ was not advised as to the plans regarding the proposed break-in. RODRIGUEZ is unaware of any of the "actions" either conducted or planned by GRADY's group.

A hearing was held and the charges against GRADY were dismissed.

195

FEDERAL BUREAU OF INVESTIGATION

Date August 6, 1971

ROBERT WILLIAM HARDY telephonically contacted Special Agents MICHAEL M. RYMAN and TERRENCE P. NEIST and advised as follows:

On Wednesday, August 4, 1971, he went to the apartment of MIKE GIOCONDO, Third and Cooper Streets, Camden, N.J., arriving at approximately 8:00 p.m. Upon arriving, he noted that those present were JOHN GRADY, MIKE GIOCONDO, BOB GOOD, COOKIE, and ANN DUNHAM.

BOB GOOD related that he had called New York and learned that RO RO, MC GOWAN, and JOE O'ROURKE would be coming down to the Camden area for participation in the surveillances.

GRADY mentioned that he would possibly be taking another trip to the shop this afternoon or tomorrow morning.

GRADY asked him (HARDY) if he would stop by Doctor ANDERSON's apartment, above his office, this morning and do some more work in preparing the apartment for use by the group. GRADY furnished him a key for this apartment.

The name of JIM FARLEY (ph) was mentioned last night in the context that he would probably be stopping down sometime this week.

The papers, notes, documents, slides, and other materials used by the group in connection with the planning of the "action" are still kept in the apartment of GENE DIXON, 517 Penn Street, Camden, N.J.

The "head sets" (walkie-talkies) and "three by five" cards which contain information regarding surveillances, were at GIOCONDO's apartment last night. One large piece of paper with information from the surveillance notes was also kept at ANDERSON's office last night.

FEDERAL BUREAU OF INVESTIGATION

Date 8/6/71

ROBERT WILLIAM HARDY telephonically contacted SAs TERRENCE P. WEIST and MICHAEL M. RYMAN and advised as follows:

On Thursday, August 5, 1971, at 6:30 p.m., JOHN GRADY, COOKIE, ANITA, ANN DUNHAM, BOB GOOD and MICHAEL GIOCONDO came to his (HARDY's) house at 65 South 29th Street, Camden, N. J., for dinner.

After dinner and at about 8:15 p.m., until approximately 9:10 p.m., GRADY, ANITA, COOKIE, ANN DUNHAM, BOB GOOD and MICHAEL GIOCONDO practiced going up the ladder which was in the back yard of his residence. They went up the ladder onto the back roof of his residence and then went through the back bedroom window. They did this so that they might determine how long it might take the slowest member of the group to go up the ladder.

After this they talked at his house until about 9:15 or 9:30 p.m. He observed that GRADY was at a "high point" and appeared to be feeling great physically. He observed that GRADY seemed to feel that everything with regard to the action was going well.

He learned that GRADY and other members of the group had spent the entire day at Dr. ANDERSON's apartment located on Broadway and Royden Streets setting up charts on the walls and putting down time sequences which set forth surveillance times until next Wednesday. The charts were put up in the front living room of the apartment, which is on the second floor of the building.

GRADY said to him that he has "everything down" to the point where he can predict where everyone is at any particular time. GRADY also told him that he has started changing some of the look out or vantage points in an effort to try to find things that might be wrong with his plans. GRADY indicated that he feels very sure of himself but that he is attempting to find if he should have any reasons for not being so sure of himself.

197

GRADY related this to him while at Dr. ANDERSON's apartment last night.

At approximately 1:30 p.m., the members of the group left his (HARDY's) residence and went to the apartment of Dr. ANDERSON, Broadway and Royden, Camden, N. J. It was determined that they would spend a half hour at that apartment in the front living room, which is called the "work room." They did this and within 15 or 20 minutes all members of the group were at the "work room" relating to each other information which had been learned during surveillance and what they would be looking for in the surveillance during the surveillance of last night.

At that point, GRADY said that he would like to initiate a new vantage point which would be the Episcopal Church, which is on Market Street between 4th and 5th Streets directly across from the Post Office building. GRADY mentioned that if an individual were able to go through the gate and gain entrance to the church yard, that the individual would be able to sit virtually undisturbed throughout the entire night if he so desired.

GRADY said that he had been talking with Father MICHAEL DOYLE during the day and that DOYLE would be down to help with the surveillance work.

GRADY assigned him (HARDY) to do surveillance work from the roof of the Townhouse Apartments. GRADY instructed him to leave between 10:45 p.m., so that he might arrive at the Townhouse Apartments between 11:00 and 11:15 p.m. GRADY assigned GOOD and GIOCONDO to observe the front of the Post Office building from about 11:20 p.m., until 11:50 p.m.

Later in the night he learned that Father MICHAEL DOYLE arrived at the church yard of the Episcopal Church at approximately 11 p.m.

At 12 midnight, ANITA was to meet DOYLE.

GOOD and COOKIE were to come to the roof of the Townhouse Apartment and assist HARDY in the surveillance until about 1 a.m., when HARDY was to leave. GIOCONDO was also supposed to come to the roof of the Townhouse Apartments

and to stay until 1 a.m., at which time he would leave.

GRADY was to be in GIOCONDO's Renault circling the area and checking the "headsets" (walkie-talkies) from different points. GRADY is using GIOCONDO's Renault because he left his Comet at the shore with his wife.

From talking with GRADY, it is HARDY's impression that GRADY is trying to find things wrong with the plan.

Radio checks were conducted from the rooftop of the Townhouse Apartments last night.

He (HARDY) arrived at the rooftop of the Townhouse Apartments at 11:15 p.m. He parked in the parking lot of the Plaza Hotel on 5th Street between Cooper and Market Streets.

GRADY indicated that he would be on surveillance until 4:30 a.m. The charts which are set up in the "work room" schedule surveillances from 9:30 p.m., until 4:30 a.m. GRADY is attempting to find time slots during which the group would be completely free of any interference. From the surveillances thus far it appears to GRADY and members of the group that the time slot from 10:50 until 11:25 appears to be generally free of any interference. For the last several nights the group has been able to determine that they would have at least 25 minutes of time free from any interference. GRADY and members of the group have observed that on several nights they would have had sufficient time to go onto the rooftop in the rear of the Post Office building with no trouble whatsoever.

When he (HARDY) arrived at the Townhouse Apartments rooftop at 11:15 or 11:20 p.m., last night, he attempted to make a radio contact with "GINO", which is the radio code word now used by GRADY. GRADY had not turned on his radio set and because of this he was unable to make the radio contact.

When GIOCONDO came to the roof, he (HARDY) then made radio contact with GRADY. It was at 11 p.m., when he finally made this radio contact.

At 11:25 p.m., GIOCONDO and GOOD parked near the intersection of 4th and Market Streets. At 11:50 p.m., BOB GOOD got out of the vehicle and GIOCONDO pulled away. GIOCONDO was driving a State of New Jersey Government car. After

driving away, GIOCONDO parked the car and came to the rooftop of the Townhouse Apartments.

ANN DUNHAM did not go on surveillance last night because she was tired. He believes he (HARDY) that she slept in GENE DIXON's apartment.

At 12 midnight, ANITA and COOKIE arrived on the rooftop. GIOCONDO was also on the rooftop at that time. GRADY called ANITA and asked her to come back down because he wanted her to go someplace else. Later, (HARDY) learned that ANITA went with MICHAEL DOYLE to the church yard of the Episcopal Church.

GOOD arrived at 12:45 a.m., on the rooftop of the Townhouse Apartment. At that time, he (HARDY) left the rooftop. Upon descending to the street, he encountered GRADY who was driving around in GIOCONDO's Renault. He drove around with GRADY for a while and talked with him.

At 1:45 a.m., they pulled into the parking lot of the Plaza Hotel, at which time (HARDY) left the vehicle and got into his truck.

GRADY told him that at the end of the surveillance last night, that everyone would go to ANDERSON's apartment on Broadway where they would discuss the information learned during the surveillance, fill in the charts while everything was still fresh in their minds. GRADY said that he would be going to the shore today to visit with his family at the camp site. GRADY requested that he (HARDY) handle the meeting and surveillance tonight (Friday) until GRADY got back to the area. GRADY said that he would have everything "programed out" for them so that it would just be a matter of arranging for the people to get into their positions.

GRADY indicated that he had yesterday talked to some of the people from out of town who would be involved in the action. GRADY said that he was not overly concerned about these people not being present at the moment and as far as he was concerned last night's surveillance is one of the best nights he has had since the surveillance started. GRADY said that he felt very confident about the group "pulling it off."

The members of the group moved the plans, notes, documents, etc., from DIXON's apartment to Dr. ANDERSON's apartment.

While the members of the group were practicing going up the ladder last night, one of his (HARDY's) neighbors, who was hanging clothes on the clothes line observed them.

The purpose in observing from the new position, by the Episcopal Church, is so that the group will be able to determine further patterns as to the activities of the guard.

GRADY is due back from the shore tonight.

The code words GINO and OLIVER are now used when referring to GRADY.

Last night the code word PEARCE was used in referring to MICHAEL DOYLE.

The group used "Z Square" to refer to the four streets surrounding the Post Office building. In other words, "Z Square" would refer to the area which is bounded by Cooper, 4th, Market and 5th Streets. The group is only concerned with any car that touches two of these streets. In other words if an unmarked or police car comes down 5th Street and makes a right onto Market, the group would mention that there was a car in the "Z Square." They would send out a radio transmission such as "we are at the card game, somebody is in the "Z Square."

The members of the group attempt to take down license numbers for any vehicle that enters the "Z Square."

FEDERAL BUREAU OF INVESTIGATION

Date August 10, 1971

ROBERT WILLIAM HARDY telephonically contacted Special Agents TERRENCE P. NEIST and MICHAEL M. RYMAN and advised as follows:

On August 6, 1971, he went to the apartment of MIKE GIOCONDO, Third and Cooper Streets, Camden, N.J., arriving at approximately 8:15 p.m. Upon arrival he noted those present were BOB GOOD, ANITA, and MIKE GIOCONDO. He learned from members of the group that COOKIE, ANN DUNHAM, and RO RO REILLY had just taken Father MICHAEL DOYLE out to Saint Joe's (Saint Joseph's Rectory, Camden, N.J.), so that the group might have the use of DOYLE's car for the evening. GRADY is using DOYLE's car to go to the shore because GIOCONDO's Renault is not running well enough to make the trip.

About twenty minutes after his (HARDY's) arrival, COOKIE, ANN DUNHAM, and RO RO REILLY returned to GIOCONDO's apartment.

RO RO REILLY is a white female, approximately 5'6" in height, approximately 150 pounds in weight, with black "scraggly" hair. She has a protruding type face, hawkish nose, and dark eyes. She was wearing a skirt and blouse. She is of husky build, and "large boned."

After about another twenty minutes, the group started on their nightly assignments.

The girls went to GENE DIXON's apartment at approximately 9:30 p.m., so that they might change from skirts to their working clothes. It was planned that after changing at DIXON's apartment, the girls would go to Doctor ANDERSON's apartment at Broadway and Royden, so that COOKIE and ANN DUNHAM could brief REILLY, show her the maps and charts, and generally give her an idea as to their plans. After that, the girls would then go to the roof of the Townhouse Apartments so that REILLY could "get the feel of things." The girls did as was planned.

On 8/7/71 at BERLIN, N.J. File # PHILADELPHIA 52-7165 SUB

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

202

As the girls were leaving, a friend of MIKE GIOCONDO's named MILO BILLMAN stopped by GIOCONDO's apartment. BILLMAN lives on Fourth Street, between Cooper and Arch Streets. From the conversation, it was apparent that BILLMAN is well aware of the plans with regard to the proposed hit.

BILLMAN is a white male, approximately 34 years of age. He has a very bushy beard, a very full head of hair, and "looks like Moses." He is a Presbyterian Minister and works for the Camden Metropolitan Ministry. He works with another minister named SAM APPLE (ph).

BILLMAN left at approximately 10:15 p.m. At that time NED MURPHY and ED MC GOWAN arrived at GIOCONDO's apartment. They said that they would be in the area until Sunday night.

MC GOWAN expressed his disappointment when he learned that GRADY was down at the shore and indicated that he desired to talk to GRADY. It was mentioned that he (MC GOWAN) would possibly ride down to the shore to see GRADY and GRADY's family. It was apparent from the conversation that MC GOWAN is an old friend of the GRADY family.

It was decided that he (HARDY) would take NED MURPHY and ED MC GOWAN to Doctor ANDERSON's apartment, so that MC GOWAN could "get the feeling of what is going on here."

At that point BOB GOOD was on the roof of the Townhouse Apartments, having come there at approximately 10:00 p.m. COOKIE was supposed to be picking up Father MICHAEL DOYLE at 10:45 p.m., and was to leave him and ANN DUNHAM in the church yard across the street from the front of the Post Office Building.

During the conversations last night, it was mentioned that MURPHY and MC GOWAN had been involved in several actions in the past. As MURPHY introduced MC GOWAN he said, "ED has been around for quite a while. He has been involved in several actions with us, and we would like him to see what's going on so that he can get the feel of it."

MC GOWAN is a white male, 5'10" in height, 155 pounds in weight, with a "heavy head of hair," well groomed. His hair extends over his ears, but not down to the collar of his shirt.

He has brown hair and sideburns to the mid ear. He wears horn-rimmed glasses with dark frames. (The new style with large glass in them.) Last night he wore a pair of Levis, a sport shirt, and loafers without socks. He seemed to be quiet and observant. For instance, when he entered his (HARDY's) truck; he immediately noticed the type of work that HARDY does.

He (HARDY) left GIOCONDO's apartment in his truck with MC GOWAN and MURPHY. They went to Doctor ANDERSON's apartment so that MC GOWAN could see "what was going on." Upon arriving at ANDERSON's apartment, however, they were unable to gain entrance to the building. This was due to the fact that no one answered the telephone or door bell when they called.

After that, they went to the roof of the Townhouse Apartments, arriving at approximately 11:30 p.m. Also present on the roof at that time were BOB GOOD and MIKE GIOCONDO. After a period of time on the roof HARDY left the roof and got back into his truck.

Last night a new name was mentioned. HARDY was unable to recall exactly the name of this person but believed it was something like "LENA MOSER or MUSHER." It was mentioned that this girl was due in today. According to the conversation, she is from New York.

It was mentioned that REILLY had been in Buffalo prior to coming to the Camden action. It was indicated that she was in Buffalo to work in connection with the "action," which GOOD has previously talked about, which is planned for in Buffalo.

It was mentioned that FRANK POMMERSHEIM would be coming in during the weekend.

The papers, plans, etc., are at Doctor ANDERSON's apartment at Broadway and Royden, Camden, N.J. He (HARDY) saw them there on Thursday night, August 5, 1971.

The "headsets" (walkie-talkies) are at GIOCONDO's apartment and Doctor ANDERSON's apartment.

The girls are sleeping at DIXON's apartment, while the men are sleeping at GIOCONDO's apartment.

PH 52-7165 SUB S

HARDY advised that the group planned to conduct meetings and surveillances tonight (August 7, 1971). It is expected that the following people will be present for these meetings and surveillances:

MIKE GIOCONDO

BOB GOOD

ANITA RICCI

KATHLEEN RIDOLFI

ANN DUNHAM

RO RO REILLY

FATHER MICHAEL DOYLE

ED MC GOWAN

FRANK POMERSHEIM

JOHN PETER GRADY

J

205

FEDERAL BUREAU OF INVESTIGATION

Date 8/11/71

ROBERT WILLIAM HARDY telephonically contacted Special Agents TERRENCE P. NEIST and MICHAEL M. RYMAN and advised as follows:

On Saturday evening, August 7, 1971, he went to the apartment of MICHAEL GIOCONDO, Third and Cooper Streets, Camden, N. J., arriving at approximately 8:00 p.m. He observed that there was a note on the door instructing him to go to GENE DIXON's apartment since other members of the group were there for dinner.

He then went to DIXON's apartment, 517 Penn Street, Camden, N. J., arriving at approximately 8:45 p.m. Upon his arrival he noted those present were COOKIE, ANN DUNHAM, RORO, NED MURPHY, ED MC GOWAN, MIKE GIOCONDO, and BOB WILLIAMSON.

WILLIAMSON is a white male; thin-framed; approximately 135 pounds; approximately five feet, six inches in height. His face is very pock-marked. He has long black hair. It was mentioned that WILLIAMSON had won some kind of American Legion Public Speaking Award at one time.

COOKIE and ANITA had talked about WILLIAMSON in the past, describing him as a very dependable person. It had been indicated by ANITA and COOKIE that WILLIAMSON had "a lot of guts" and that he would probably be part of the "entrance team." COOKIE and ANITA had previously mentioned to him that WILLIAMSON was involved in the Broad Street Draft Board action in Philadelphia. It had also been mentioned that he was involved in some way with the "Harrisburg thing."

On 8/8/71 at Berlin, N. J. File # Philadelphia 52-7165 SUB S
 by SAs TERRENCE P. NEIST and MICHAEL M. RYMAN TPN/tac Date dictated 8/11/71

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

206

Last night WILLIAMSON said that he was in Harrisburg with someone by the name of JOE.

Later in the evening while he (HARDY) was on the roof with BOB GOOD and BOB WILLIAMSON, WILLIAMSON said that it looked like everything was laid out properly and that he could see very little wrong with the plan.

It was mentioned by RORO REILLY at approximately midnight while in GIOCONDO's apartment that she and WILLIAMSON had taken a few "acid trips together."

The conversations at DIXON's apartment lasted until about 9:30 p.m. at which time it was decided upon as to what positions would be taken by the group on that night prior to GRADY's arrival.

GRADY actually arrived in Camden at about 11:45 p.m. and went to ANDERSON's apartment on Broadway and Royden. At that time RORO, ANN DUNHAM, and GIOCONDO were there. GRADY told them to leave for the surveillance and that he would follow shortly. GRADY never did arrive on the surveillance scene.

The "plan of action" for last night was as follows:

BOB GOOD and ED MC GOWAN would go to the roof of the Townhouse Apartments at approximately 9:30 to 9:45 p.m. COOKIE, ANN DUNHAM, RORO REILLY, and MIKE GIOCONDO would go to Doctor ANDERSON's apartment in order to do some "chart work" and to start deciphering some of the notes that had been taken and putting them into the so-called master plan. NED MURPHY and HARDY would be in HARDY's truck checking out "the plaza" and "the garden" for license numbers of vehicles. Before doing this HARDY and MURPHY were to call Father MICHAEL DOYLE and make arrangements for picking him up and bringing him into Camden later in the evening.

At 9:30 p.m. GOOD, MC GOWAN, MURPHY, and he (HARDY) left DIXON's apartment. MURPHY and HARDY left approximately three minutes before GOOD and MC GOWAN.

He (HARDY) and MURPHY got into his (HARDY's) truck which was parked at the White Tower Restaurant on Fifth Street.

HARDY called DOYLE and made arrangements to pick him up at 10:00 p.m.

They then drove through City Hall parking lot (known as "the garden") noting license numbers of vehicles parked there. At approximately 10:00 p.m. they went to Saint Joe's Church, Camden, N. J., and picked up Father MICHAEL DOYLE. They then came back into Camden and counted the civilian and "black and white" cars parked at the police garage behind the Sears parking lot.

They then went to Doctor ANDERSON's apartment on Broadway and Royden.

COOKIE, RORO REILLY, ANN DUNHAM, GIOCONDO, and WILLIAMSON were at the apartment when they arrived. GIOCONDO was briefing WILLIAMSON on the slides and maps and filling him in as to the plans.—This lasted until approximately 10:50 p.m. At that point MURPHY, DOYLE, COOKIE, WILLIAMSON, and he (HARDY) left ANDERSON's apartment, got into his truck, and went to downtown Camden.

He dropped off WILLIAMSON, COOKIE, and MURPHY at Friends Avenue and Cooper Street between Second and Third Streets on the north side. MURPHY was to go to GIOCONDO's apartment while WILLIAMSON and COOKIE were to go to the roof of the Townhouse Apartments to arrive at approximately 11:00 p.m. COOKIE was to leave WILLIAMSON on the roof and to bring MC GOWAN down with her whereupon she and MC GOWAN would surveil from the churchyard of the Episcopal Church located on Market Street directly across from the U. S. Post Office Building. This was done by MC GOWAN and COOKIE.

MIKE DOYLE and he then went up Fifth Street and as they came south on Cooper, DOYLE got out of the truck and was to walk up to the White Tower Restaurant where he would watch for the arrival of the night watchman. The night watchman arrives by bus at approximately 11:20 p.m. DOYLE was also to note the police patterns (Z patterns) on Market Street and Fifth Street.

He (HARDY) parked his truck behind the White Tower Restaurant in the parking lot of the Plaza Hotel leaving the door unlocked so that DOYLE could sit in the truck once in a while if he desired to get off the street.

He (HARDY) left his truck at approximately 11:10 p.m. and went to the rooftop of the Townhouse Apartments. Upon arrival at the rooftop he noted that those present were BOB WILLIAMSON and BOB GOOD. Approximately two minutes later NED MURPHY came to the roof with a "headset" (walkie talkie). The "headset" which they had on the roof was not working properly and COOKIE had asked them to replace it and to take the one that wasn't working too well down to GIOCONDO's apartment. This was done.

From the rooftop they tried to make contact with COOKIE (who was in the churchyard) but they were unable to make this contact at that time.

While they were on the roof MC GOWAN and COOKIE were in the churchyard of the Episcopal Church; MIKE DOYLE was in the vicinity of Fifth and Market Streets; and NED MURPHY was in GIOCONDO's apartment. GIOCONDO, ANN DUNHAM, and RORO were still at ANDERSON's apartment. Their (GIOCONDO, DUNHAM, and RORO REILLY) assignment was to work until approximately 11:45 p.m. at ANDERSON's apartment. They were then to go to GIOCONDO's apartment and make radio contact with Fillmore (roof of the Townhouse Apartments). At that time they would decide what changes in positions would be made.

At approximately 11:50 p.m. BOB GOOD asked him to go to GIOCONDO's apartment and to obtain a bottle of cold water so that one of the girls could bring this to the roof when they came there. He then went to GIOCONDO's apartment at approximately 11:55 p.m. and while there talked with NED MURPHY for a while.

MURPHY said that JOHN GRADY ran the draft board actions and that not everyone in New York City was of the same mind concerning the draft board actions.

At approximately 12:10 a.m. GIOCONDO pulled up to the street in front of his apartment driving a State of New Jersey Government car. He came to the apartment and said that JOHN GRADY had arrived at the apartment of Doctor ANDERSON, Broadway and Royden, Camden, N. J., at approximately 11:45 p.m. GIOCONDO also related that GRADY had said that he would be down later in the evening for a meeting at GIOCONDO's apartment. HARDY then radioed the members of the group on the rooftop of the Townhouse Apartments and said that their friend from the seashore had returned and was down at "Billie Boy's place."

At that point RORO REILLY and ANN DUNHAM came into the apartment and sat down for a couple of minutes. It was at this time that MURPHY commented that BOB WILLIAMSON had given the first two lines of the speech that had won him the American Legion Award college scholarship money. The members of the group thought that this was rather hilarious and REILLY said that she has never been able to get WILLIAMSON to recite these lines unless he is on an "acid trip." It was at this point that REILLY mentioned that she and WILLIAMSON had had some "acid trips together."

At approximately 12:15 a.m. GIOCONDO told him that they had sufficient people to handle the surveillance and that he could leave if he so desired. At approximately 12:28 a.m. MURPHY also suggested that he could leave if he so desired. At this point he left.

The papers, documents, plans, notes, etc., are in the living room of Doctor ANDERSON's apartment, second floor, Broadway and Royden Streets, Camden, N. J.

The "headsets", a street map, and approximately a dozen 3 x 5 cards with surveillance notes on them are at GIOCONDO's apartment.

Last night while at DIXON's apartment at approximately 9:15 p.m. COOKIE was giving more or less an oral examination to MC GOWAN with regard to what he had learned from the night before.

MC GOWAN was able to, without a mistake, answer all questions with regard to code names, maps, slides, and other information. MC GOWAN answered approximately 30 or 40 questions without a mistake.

DIXON's apartment is being used as sleeping quarters for the girls.

The men are staying at GIOCONDO's apartment.

GRADY normally stays at ANDERSON's apartment, Broadway and Royden.

Yesterday GRADY drove Father DOYLE's car to the shore and returned from the shore in this vehicle, taking it to ANDERSON's apartment. When he arrived at ANDERSON's apartment ANN DUNHAM, REILLY, and GIOCONDO were still there and had the keys for the Renault (GIOCONDO's car). At this point GRADY told DUNHAM and REILLY to use DOYLE's car to go to downtown Camden so that it would be returned to DOYLE. GRADY then would use GIOCONDO's vehicle.

About two or three nights ago members of the group started using GIOCONDO's tape recorder to record the results of their surveillances. It is a portable tape recorder and members of the group use it on the rooftop and in the churchyard of the Episcopal Church rather than writing notes. They speak into the recorder giving the information learned from their surveillances. MIKE GIOCONDO purchased a second tape recorder, a small Japanese tape recorder, for approximately \$16 yesterday. These tape recorders are used every night and are supposed to be returned to ANDERSON's apartment after the surveillance.

The materials kept in ANDERSON's apartment are kept in the small closet in the living room. The radios, binoculars, and tape recorders as well as the notes and documents are kept there. The only thing which ordinarily would not be at that location would be equipment which was used by members of the group the night before and for some reason not returned.

all

7

The code word "Gino's" can refer to DIXON's apartment or GIOCONDO's apartment. The code word "Gino" can also refer to GRADY.

When referring to ANDERSON's apartment over radios they refer to it as "BILL's place."

2/2

8/12/71

Date

ROBERT WILLIAM HARDY telephonically contacted Special Agents MICHAEL M. RYMAN and TERRENCE P. NEIST and advised as follows:

On August 10, 1971, he went to the apartment of MIKE GIOCONDO arriving at approximately 9:00 p.m. GIOCONDO told him that JOHN GRADY, ED MC GOWAN, and COOKIE had gone to the shore yesterday and would be returning tonight. GIOCONDO also said that ANN DUNHAM had gone to New York City yesterday and that she would return to the Camden area either tonight or tomorrow. GIOCONDO also said that RORO REILLY had gone over to Philadelphia in order to find BOB WILLIAMSON and to make some telephone calls. GIOCONDO said that BOB GOOD was at GENE DIXON's apartment and that ANITA was still sick.

At that point of the conversation NED MURPHY arrived at GIOCONDO's apartment. MURPHY had with him \$180 from the Defense Fund which he was bringing down for GRADY. MURPHY said that he was only staying for a couple of hours and that he would be returning to New York. MURPHY carried the money inside of his shoe. The money was in \$10 bills which appeared to be pressed or folded in half and were in a white envelope.

MURPHY, GIOCONDO, and he talked for about an hour concerning the Defense Committee. MURPHY said that he was involved in the "New York Eight" action. MURPHY also said that to the best of his knowledge no one in the area knows the identity of the persons who performed the burglary of the Media FBI Office. MURPHY said that he had no personal knowledge of the Media action.

MC GOWAN indicated that there was a definite split within the Defense Committee with regard to the direction that

On 8/11/71 at Berlin, N. J. File # Philadelphia 52-7165 SUB S

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

2/3

should be taken. MC GOWAN, because of this split, resigned from the "Board of Directors" of the Defense Committee. MC GOWAN is associated with the radical element within the Defense Committee.

At approximately 11:00 p.m. RORO REILLY came to the apartment and it was apparent that she was "all charged up." REILLY explained that she had been in Philadelphia talking with WILLIAMSON and that they had gotten a commitment for three people for this weekend. REILLY said that GRADY had told them that the group would have either a "full dry run" or the actual hit this Saturday night. REILLY said that one of the people from Philadelphia "will act." HARDY explained that this means one of the people from Philadelphia will be actually going into the draft board during the action. He explained that the phrase "doing the act" refers to the going into the draft board.

REILLY had also indicated that they had commitments from one person from Washington, D. C., and one person from Boston, Mass. REILLY also indicated that she had made a call to Buffalo, N. Y., with regard to obtaining personnel for the action but she had not received an answer from Buffalo.

It was mentioned that ANN DUNHAM and FRANK POMERSHEIM would be returning to the Camden area this weekend. It was also mentioned that MC GOWAN would be down for the weekend. It was mentioned that MURPHY had made some other plans and it was not sure at this time as to whether or not he would be in the Camden area this weekend.

During the conversation it was mentioned that JOHN GRADY had gone into the Post Office Building at approximately 5:30 a.m. yesterday morning. GRADY spoke with the General Service Administration (GSA) guard for about one half hour. GRADY told the guard his father used to work for the Post Office for twenty years. This comment seemed to establish some rapport between GRADY and the guard and GRADY went on to converse at length with him. GRADY learned from the guard that the watchman's clock is broken and that because of this the guards have

not been making their rounds at night. The guard that GRADY talked to was a Negro male who was on duty yesterday morning from 12 midnight until 8:00 a.m. He is off duty today, tomorrow, and will be back on duty Friday night at midnight. He will work Friday, Saturday, Sunday, Monday, and Tuesday starting at midnight. GRADY learned that this guard is 68 years old and that he collects silver dollars for his grandchildren. GRADY told the guard that he would give him a couple of silver dollars. It was indicated that GRADY would possibly stop by to see the guard on Friday or Saturday morning in order to obtain further information from him.

All members of the group were quite elated with the information which GRADY had learned from the guard.

REILLY also mentioned that she would be contacting her sister and another friend today to see if she could get them to come down for the action. RORO indicated that she will be going to New York today.

REILLY said that it was JOHN GRADY who told her that either a "full dry run" or the actual hit would take place this Saturday.

8/11/71

Date

ROBERT WILLIAM HARDY telephonically contacted Special Agents TERRENCE P. NEIST and MICHAEL M. RYMAN and advised as follows:

On Sunday, August 8, 1971, at approximately 3:30 p.m. he went to the apartment of MICHAEL GIOCONDO. Those present at the apartment at that time were COOKIE, ANN DUNHAM, RORO REILLY, NED MURPHY, ED MC GOWAN, and MIKE GIOCONDO. While there he learned from members of the group that JOHN GRADY had fallen asleep the night before and did not awaken until 5:30 a.m. He learned that this was the reason that GRADY did not appear in Camden that morning for the surveillance.

While at GIOCONDO's apartment GOOD mentioned that Saturday night was a very good night and that no movement had been noted in the Post Office Building. Members of the group all seemed in agreement that they were ready to perform the action at this point.

At approximately 4:00 p.m. he went to Dr. ANDERSON's apartment, Broadway and Royden, Camden, N. J., and spoke for approximately twenty minutes with JOHN GRADY. While there he noted that the drawings, maps, documents, equipment, etc., were still at ANDERSON's apartment.

216

Date August 11, 1971

ROBERT WILLIAM HARDY telephonically contacted Special Agents TERRENCE P. NEIST and MICHAEL M. RYMAN and advised as follows:

On Monday, August 9, 1971, he went to the apartment of Doctor ANDERSON, Broadway and Royden Streets, Camden, N.J., arriving at approximately 7:45 p.m.

JOHN GRADY was at the apartment and he talked with GRADY for about an hour. GRADY mentioned to him that there were many things that he (HARDY) could do within the East Coast Conspiracy group. GRADY talked of his (GRADY's) background and related as to the history of the BERRIGANS and how he (GRADY) stood with them.

GRADY said that ED MC GOWAN was a "very cool operator under fire," and that he (GRADY) and MC GOWAN had been in the draft board carrying out the files in the "New York Eight" action.

GRADY mentioned that a Jesuit Priest by the name of MARTIN or MEYERS, who was ordained last June, was also involved in the destroying of the computer tapes at Dow Chemical in Washington, D.C., last year.

GRADY mentioned that they had some very stable and sophisticated people in the group at this time and that it would not be difficult to see the operation through.

At approximately 9:00 p.m., GRADY and HARDY left ANDERSON's apartment and went to the roof of the Town House Apartments. They arrived there at approximately 9:15 p.m.

After they were on the rooftop for a while, ED MC GOWAN and COOKIE came to the rooftop. They observed the Post Office Building for a while and determined that the activities were normal there. GRADY then suggested that MC GOWAN, COOKIE, and HARDY go to DIXON's apartment to get something to eat, while the others did observation work.

On 8/10/71 at BERLIN, N.J. File # PHILADELPHIA 52-7165 SUB

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

217

They then went to DIXON's apartment on Penn Street and while COOKIE prepared dinner, they made radio contact with GIOCONDO at his apartment. They told GIOCONDO to send two people up to the roof of the Townhouse Apartments and to send someone over to the churchyard of the Episcopal Church, across from the front of the Post Office Building. GIOCONDO replied that he would do this.

They (MC GOWAN, COOKIE, HARDY and GRADY) stayed at DIXON's apartment drinking, talking, and eating until 11:15 p.m. At that time he (HARDY) went to the front of the Post Office Building in his van in order to do the observation work.

At 12:00 midnight he left the area.

GRADY indicated that he would be going to the shore today to be with his family.

It was mentioned that MC GOWAN, REILLY, BOB GOOD, and ANN DUNHAM would be staying for a while.

GRADY mentioned that he did not want HARDY in the alley on the night of the action because he did not want him to "get busted" on his first action. GRADY indicated that he desired HARDY to help control the streets as far as the traffic flow because he knew the streets in the area.

It was mentioned that ANITA is still sick at home. COOKIE said that she had been in contact with ANITA, and that ANITA would not be around for a few more days.

The papers, notes, and documents are now at the ANDERSON apartment.

The "headsets" and binoculars are at GIOCONDO's apartment. The tape recorders are at GIOCONDO's apartment. They do not save the tapes, but record over the tapes from previous nights.

With regard to the "New York Eight" action, GRADY said that he and MC GOWAN were in the building while there was a policeman at the front door and a policeman at the back door.

PH 527165 SUB S

Because of this, GRADY and MC GOWAN had to wait until the police moved out of the area before they could walk out of the area. GRADY said that they had to wait for a period of several hours.

GRADY also said that he was one of the two people who destroyed the Dow Chemical tapes in Washington, D.C.

Last night there were two groups operating. GRADY, MC GOWAN, COOKIE and himself (HARDY) were in one group. The other group consisted of GIOCONDO, RO RO REILLY, BOB GOOD and ANN DUNHAM. It was GIOCONDO's group that was actually doing the surveillance work that should have been out there, according to the plans, around 10:00 p.m.

COOKIE, MC GOWAN, GRADY, and himself (HARDY) met at DIXON's apartment.

Two of the people from GIOCONDO's group should have been on the rooftop last night and two from GRADY's group should have been in the churchyard, according to the plans. The two who were to be in the churchyard were scheduled to be there at approximately 10:50 p.m.

GRADY mentioned that the Jesuit priest, named MARTIN or MEYERS, was ordained last June in New York during ceremonies presided over by Cardinal COOK. GRADY said that MARTIN (or MEYERS) refused to give the Cardinal the "kiss of peace" when the appropriate time came in the ceremony. Instead of this, MARTIN (or MEYERS) went to the pulpit and said something to the effect that he could not give the "kiss of peace" to Cardinal COOK.

FEDERAL BUREAU OF INVESTIGATION

Date August 13, 1971

ROBERT WILLIAM HARDY telephonically contacted Special Agents TERRENCE P. NEIST and MICHAEL M. RYMAN and advised as follows:

On Wednesday, August 11, 1971, he went to the apartment of MIKE GIOCONDO, Third and Cooper Streets, Camden, N.J. MIKE GIOCONDO was at the apartment waiting for BOB GOOD and RO RO REILLY.

After being in the apartment for a few minutes, the doorbell rang and BOB WILLIAMSON and two of his friends from Philadelphia came into the apartment.

One of these was TERRY BUCKALEW. BUCKALEW is a white male, who is originally from Wildwood, N.J. He is 5'10" in height, 180 pounds in weight, has light curly hair, wears glasses, and works with a Draft Counseling Service in Philadelphia, Pa., that was formerly run by the Quakers. He is approximately 22 years of age and is married.

The other individual is KIRK (or possibly KEITH). KIRK is a white male, 135 pounds, 5'8" in height, with long straight black hair. He drives a Yellow Cab, working the second shift. He studies locksmithing during the day and appears to be very knowledgeable with regard to locks.

BUCKALEW mentioned that his father was a carpenter who worked in the Wildwood, N.J., area.

BUCKALEW said that he had many blank birth certificates, blank drivers licenses, blank draft cards, and other blank cards which could be used to provide new identification for an individual. He mentioned that these blank cards were kept at his residence.

During the conversation he (HARDY) learned that BOB WILLIAMSON is a case worker in Philadelphia, Pa.

On 8/12/71 at BERLIN, N.J. File # PHILADELPHIA 52-7165 SUB S
by SA TERRENCE P. NEIST
SA MICHAEL M. RYMAN TPN/rav Date dictated 8/13/71

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

BUCKALEW mentioned that they had come to the meeting in his pickup truck.

Later in the evening he (HARDY) drove around the area trying to spot a pickup truck that generally fit the description of BUCKALEW's truck. He noted a blue Chevrolet pickup truck, either a 1964 or 1965 model, bearing Ohio 1971 license plate 4L-2610. This truck generally met the description of BUCKALOO's truck. This truck had a wooden camper built on the back of it.

Although he felt that the truck with the Ohio license plate might be BUCKALEW's truck, he noted another truck that came close to meeting the description. This truck was a blue Chevrolet van-type pickup, which bore license CW-31004.

During the conversation, WILLIAMSON asked GIOCONDO how RO RO REILLY had been doing with regard to making the contacts with people outside the area. GIOCONDO said that RO RO REILLY had contacted PAUL COUMING and that PAUL COUMING would definitely be coming down this weekend. GIOCONDO also said that ANN DUNHAM had called from New York and said that she and FRANK POMERSHEIM would definitely be down Friday afternoon. GIOCONDO said that the contact from Buffalo, N.Y., had not as yet given an answer as to whether or not anyone from Buffalo would be coming to the area.

They then left and went to Doctor ANDERSON's apartment, Broadway and Royden Streets, Camden, N.J. When they arrived, they noted that BOB GOOD and RO RO REILLY were at the apartment working on the charts.

WILLIAMSON, BUCKALEW, and KIRK remained at ANDERSON's apartment with GOOD and REILLY, while GIOCONDO and HARDY went back to the area of the United States Post Office Building so that they could watch the front of the building. They (HARDY and GIOCONDO) stayed in front of the Post Office Building until about 10:45 p.m., at which time they went back to ANDERSON's apartment and picked up everyone and brought them all to GENE DIXON's apartment. RO RO REILLY had left her binoculars and radio at DIXON's apartment the night before when she slept there.

It was at approximately 11:00 p.m. when they left ANDERSON's apartment for DIXON's apartment. They picked up some equipment at DIXON's and then went to GIOCONDO's apartment, arriving at approximately 11:05 p.m.

He (HARDY) dropped off everyone there and it was planned that TERRY and KIRK would go to the rooftop with either GIOCONDO or REILLY, in order to observe from there.

He (HARDY) then drove around Market Street to the front of the Post Office Building to do surveillance work. He later learned that none of the new people (BUCKALEW, KIRK; and WILLIAMSON) went to the roof on that night since they had to get back to Philadelphia, Pa. It was mentioned that BUCKALEW and KIRK had been up to the roof sometime approximately three or four months ago.

It was mentioned by GOOD that BUCKALEW and KIRK had been to the rooftop of the Townhouse Apartments in the past. GOOD said that about a year ago while they were planning the Broad Street Draft Board Action (Philadelphia, Pa.) that on a couple of nights they came over to Camden to look around. GOOD mentioned at that time they were surveilling from the playground at Fifth and Cooper Streets, and that one night ANITA, GRADY, and a third person, on Sunday, went to church service at the Methodist Church behind the Post Office Building and after church, they hid in the back of the church and stayed there all night observing the Post Office Building. Apparently BUCKALEW was part of the group that did this.

It was mentioned by GOOD that KIRK was in the past over here giving "lockpicking" instructions at ANDERSON's residence, at which time he spent one night on the rooftop of the Townhouse Apartments with a couple members of the group.

He (HARDY) stayed in front of the Post Office Building until approximately 12:05 so that he might observe the changing of the guard. BOB GOOD was supposed to relieve him at that time by going into the church yard of the Episcopal Church, which is across from the front of the Post Office Building. GOOD did not show up at the church yard.

He (HARDY) then drove around the area and went to GIOCONDO's apartment. Upon arriving at the apartment, he learned from RO RO that JOHN GRADY has just called in by telephone and said that there was a torrential downpour at the shore, which had almost washed away GRADY's tent. RO RO explained that GRADY told her that he could not leave that night, but would be leaving early this morning (August 12, 1971).

RO RO said that GRADY told her to tell HARDY that they would need the truck for this weekend, whether it was a dry run or the actual hit. GRADY mentioned to RO RO that they would need the truck on Saturday night, and possibly on Sunday night, if the action did not take place on Saturday.

RO RO REILLY asked GRADY if MC GOWAN was still with him. GRADY, according to REILLY, said that MC GOWAN had left for New York City yesterday, and that he would return to the Camden area this weekend.

REILLY told GRADY that NED MURPHY was not in the Camden area, and that he (MURPHY) had said that he was going to Rochester for the weekend, but that he (MURPHY) would come to Camden, if the hit is going to take place this weekend.

REILLY also told GRADY she had contacted others as GRADY had instructed her to do. She told GRADY that she received positive responses from most of those whom she had contacted.

After REILLY finished talking with GRADY, he (HARDY) took GOOD in his truck and dropped him off at his (GOOD's) surveillance point. After doing this, HARDY left the area.

During the afternoon, while at Doctor ANDERSON's apartment, he (HARDY) noticed a file card which was lying on the floor. He picked up this card and has retained it. Written on the card is "Mc Hugh, Lansdale, Pa." It would appear that the writing on this card was done by COOKIE.

Last night, while talking with GIOCONDO in front of the Post Office Building, GIOCONDO said that he saw MEL MADDEN yesterday, and that MADDEN said that he would probably come down Saturday if the "real thing" was going to take place.

GIOCONDO also said that MADDEN had related to him that he (MADDEN) and his wife and child are going on a vacation

PH 52-7165 SUB S

starting Sunday or Monday for a couple of weeks.

The papers, documents, charts, etc., are at ANDERSON's apartment.

The radios and binoculars are at GIOCONDO's apartment.

Normally, the radios and binoculars are kept at ANDERSON's apartment, but taken back to GIOCONDO's apartment after the nightly surveillance. BOB GOOD then, usually takes this equipment back to ANDERSON's apartment sometime during the day.

0 8 7

Date 8/13/71

ROBERT WILLIAM HARDY telephonically contacted SAS TERRENCE P. NEIST and MICHAEL M. RYMAN and advised as follows:

On August 12, 1971, at approximately 8:30 p.m., he went to the apartment of MIKE GIOCONDO, 3rd and Cooper Streets, Camden, N. J. Those present at the time of his arrival were RORO REILLY, BOB GOOD and MIKE GIOCONDO.

They talked for a few minutes and it was the general concensus of the group that GIOCONDO, RORO and GOOD would be able to handle the surveillances for that night.

They mentioned that they had not heard from JOHN GRADY as yet but that they had heard from some other people who would be coming down this weekend.

REILLY said that she had called her sister and that her sister and one of her girl friends would be coming down for the weekend to participate in the surveillances.

BOB GOOD said that he had done a "head count" and determined that there would be 14 to 15 people present this weekend. GOOD said that it was now just a matter of GRADY giving the signal.

REILLY and GOOD said that they worked together in the "Princeton action" and that they had known each other for about a year and a half.

GOOD said that he wanted to be part of the "entrance team", that is the team that would actually go into the draft board. It was speculated by those members of the group present that BOB WILLIAMSON, COOKIE and perhaps MIKE GIOCONDO or Father MICHAEL DOYLE would also be part of the "entrance team."

HARDY left GIOCONDO's apartment at approximately 10:30 p.m.

~~It was planned that GOOD, REILLY and GIOCONDO (2 of~~

the 3) would be on the rooftop of the Townhouse Apartments for surveillance beginning at 11 p.m., that night.

No changes have been made with regard to the positions to be taken by various members of the group at the time of the hit.

The papers, plans, documents and charts are at ANDERSON's apartment.

They have been doing alot of work transferring their notes and the information from the tapes onto charts. This work is being done at GIOCONDO's apartment. Yesterday, he noted that there were three or four charts at GIOCONDO's apartment.

The headsets and binoculars, which were used during the surveillance of the night before, were at GIOCONDO's apartment last night. There were also some 3 X 5 index cards with surveillance notes written on them at GIOCONDO's apartment.

REILLY had said that she destroys the notes after she has transferred them onto the main papers. No further word has been heard from ANITA.

Date August 16, 1971

ROBERT WILLIAM HARDY telephonically contacted Special Agent TERRENCE P. NEIST and advised as follows:

At approximately 3:30 - 4:00 p.m., on August 14, 1971, he was at the apartment of GENE DIXON, 517 Penn Street, Camden, N.J. Also at DIXON's apartment at that time were RO RO REILLY, PAUL COUMING, JAMETTE (girlfriend of PAUL COUMING) COOKIE, JOAN REILLY (sister of RO RO), ANN DUNHAM, LEE ANN MOSHER, JOHN SWINGLISH, MIKE GIOCONDO, BOB GOOD, and JOHN GRADY.

GRADY told members of the group to "get everything together as if we're going tonight." GRADY also indicated that he wanted them to get the ladders so that members of the group could practice on the ladders.

Later in the meeting, RO RO REILLY said that if the group did not go on that night (Saturday), that they would go on the next night, which would be Sunday.

MIKE GIOCONDO said that NED MURPHY would be called if the hit was going to take place on Sunday night, so that MURPHY would be able to arrive in time for the action.

GRADY gave the following instructions to members of the group:

He instructed MIKE GIOCONDO to go to the Radio Shack, Route 130, Pennsauken, N.J., and obtain another walkie-talkies. GIOCONDO did this.

GRADY said that he (GRADY) and COOKIE would get the knapsacks.

GRADY instructed TERRY BUCKALEW to go to the United States Post Office in Philadelphia, Pa., and to obtain mail bags.

During the meeting, JOHN GRADY and COOKIE said that the group would also attempt to gain entry into the Army Intelligence Office located in the Post Office Building.

8/16/71

Date

ROBERT WILLIAM HARDY furnished the following information:

HARDY advised on August 13, 1971, he went to the apartment of MIKE GIOCONDO in Camden, N. J. at approximately 8:30 p.m. As he was about to enter the residence he met the following individuals at the front door: MIKE GIOCONDO, BOB GOOD, TERRY BUCKALEW, BOB WILLIAMSON, COOKIE, ANN DUNHAM, and RORO REILLY. He advised that the three girls and GOOD had just returned from shopping.

MIKE GIOCONDO, TERRY BUCKALEW, and BOB WILLIAMSON were apparently coming out of the apartment and were about to go to Doctor ANDERSON's apartment. As a result of the meeting all returned to GIOCONDO's apartment and prepared the evening dinner.

HARDY advised that once inside he was told that COOKIE and JOHN had gotten in late that evening, about two or three in the morning; that they had come down to Camden to do surveillance work at approximately 4:00 o'clock.

While at GIOCONDO's apartment, HARDY learned that BOB GOOD and KIRK from Philadelphia had gone into the draft board on the following pretext: GOOD inquired from the draft board personnel as to his status as a draftee if he were to transfer from New York City to Camden, N. J. GOOD, it seemed, used the pretext that he was about to attend Rutgers University to resolve his draft status.

While GOOD was doing the talking KIRK did the "eyeball thing" with all the locks. He made sure the alarm systems were clear and other things that were pertinent to their needs.

MMR/sac

Date dictated

8/16/71

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

During the course of the conversation at GIOCONDO's apartment it was brought out that the following individuals were to come in for the Camden action: LEANN MOSER (phonetic), RORO REILLY's sister JOANN REILLY, PAUL COUMING from Boston, and JOHN SWINGLISH from Washington, D. C. SWINGLISH had called earlier and said that he was getting ready to get the bus and that he would eventually show up.

It was also mentioned by TERRY BUCKALEW that he had participated in the North Broad Street action with a RALPH (last name unknown) and COLLINS (phonetic). BUCKALEW related that he and the other two actually went in and that the three of them apparently had to kick the panels in on one of the doors to the draft board. He stated that RALPH and COLLINS held the door while he, BUCKALEW, kicked the panels through.

HARDY advised that at 11 o'clock all of the individuals at GIOCONDO's apartment went to their respective positions for the surveillance. He advised that he returned to GIOCONDO's apartment at approximately 1:00 a.m.

Upon returning to the apartment he met JOANN REILLY and JOHN SWINGLISH.

HARDY advised of the following description for JOHN SWINGLISH: white male; approximately five feet four to five inches; 130 pounds; between 26 and 28 years of age; dark brown hair, sort of longish but very well kept; goatee and mustache; general appearance of very neat looking. He wore sandals, a necklace, and a flower-type belt.

HARDY advised of the following description for JOANN REILLY: white female; five feet six inches; one hundred pounds; thin build; white, mild complexion; long brown hair, worn in a frizzy-type hairdo; heavy makeup; approximate age 23 to 24 years.

HARDY advised that he did not meet LEANN MOSER. She had gone to the Townhouse Apartments with TERRY BUCKALEW and BOB WILLIAMSON.

HARDY further advised that he overheard a conversation between JOHN SWINGLISH and RORO REILLY. SWINGLISH inquired as to what was happening in Buffalo whereupon RORO answered that the last time she talked to them was last weekend and that they were planning their action for next weekend, next Saturday night. HARDY advised that SWINGLISH and REILLY did not go into detail as to the location of the draft board in Buffalo.

HARDY advised that the initial plan is still in effect and highlighted the plan by saying that there would be someone at Fifth and Market Streets just to keep an eye on City Hall and the Fifth Street traffic as far as "swinging the corner" there. They will use their "cut-off cars" as planned; however, the cars have not been arranged for as yet. HARDY advised that four or five large charts, three headsets, binoculars, and some three by five cards are in the front living room of GIOCONDO's apartment. HARDY advised that the other papers are at Doctor ANDERSON's apartment.

HARDY advised that sometime during the night, but he could not remember the exact time or place, he was told by COOKIE that JOHN GRADY was very ill having a very bad cold or a light case of pneumonia. She stated that he was just trying to get some rest. HARDY noted that GRADY was not in attendance at the meeting or the surveillance.

FEDERAL BUREAU OF INVESTIGATION

August 16, 1971

Date

ROBERT WILLIAM HARDY telephonically contacted Special Agents MICHAEL M. RYMAN and TERRENCE P. NEIST and advised as follows:

On August 14, 1971, at 2:00 p.m., he went to the apartment of MIKE GIOCONDO, Third and Cooper Streets, Camden, N.J. He met BOB GOOD there and they then went to GENE DIXON's apartment, 517 Penn Street, Camden, N.J.

Upon arriving at DIXON's apartment, he noted that those present were MIKE GIOCONDO, BOB GOOD, PAUL COUMING, JOHN SWINGLISH, JAMETTE (girlfriend of COUMING), COOKIE, LEE ANN MOSHER, JOANN REILLY (sister of RO RO REILLY), ANN DUNHAM, and TERRY BUCKALEW. It was mentioned that BOB WILLIAMSON had just come to Doctor ANDERSON's apartment in order to pick up JOHN GRADY.

The members of the group was discussing what was needed in order to enter the building. A "tool list," which included such items as a portable drill, drill bits for glass, and ladders, was given to HARDY. A "clothing list" was made up which indicated that dark clothing should be worn. This list also included knapsacks and mail bags. The members of the group had agreed that the "entrance team," that is the team actually going inside the draft board, would consist of BOB GOOD, RO RO REILLY, COOKIE, MIKE GIOCONDO, and BOB WILLIAMSON, and MICHAEL DOYLE.

It was agreed that TERRY BUCKALEW would drive the Avis rental truck, with the "entrance team" inside, to the back of the Post Office. The Avis rental truck was rented by HARDY as he was so instructed to do by GRADY.

At approximately 3:30 p.m., JOHN GRADY and WILLIAMSON arrived at the apartment. GRADY said "lets get everything together as if its going tonight." GRADY then pressured HARDY for equipment and a place where they could practice going up the ladders.

GRADY said that he (GRADY) and COOKIE would get the knapsacks. GRADY instructed ANN DUNHAM, RO RO REILLY, LEE ANN MOSHER, and JAMETTE, to do some shopping and to prepare dinner.

On 8/16/71 at HI-NELLA, N.J. File # PHILADELPHIA 52-7165 SUB
 by SA TERRENCE P. NEIST TPN
 SA MICHAEL M. RYMAN TPN/rav Date dictated 8/16/71

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

GRADY instructed BOB GOOD, JOANN REILLY, and JOHN SWINGLISH to "walk around the Post Office for an hour or so."

It was HARDY's impression that GRADY and SWINGLISH are assuming command of the operation.

At approximately 4:00 p.m. HARDY went, as instructed by GRADY, to obtain the portable drill and drill bits.

GIOCONDO, as instructed by GRADY, then went to the Radio Shack, Route 130, Pennsauken, N.J., to obtain a walkie-talkie and small tape recorder.

After he had obtained the drill and drill bits, he (HARDY) drove to his residence (in his van), followed by BUCKALEW (who was driving the rental van) and WILLIAMSON and GRADY (in BUCKALEW's pick-up truck.) At HARDY's residence, the ladders were put into the Avis rental van.

They then went to a two-story garage located on Friends Avenue, between Penn and Linden Streets. This two-story garage is owned by PHIL MURRAY, who is a friend of HARDY's. HARDY had received permission from his friend to use this garage to practice going up the ladders.

BUCKALEW drove the Avis rental truck into the alley and put the ladders up against the garage. The members of the "entrance team" (less MICHAEL DOYLE) then practiced going up the ladders for approximately one and a half hours.

HARDY left at approximately 7:45 p.m., and returned to his residence.

At approximately 9:30 p.m., he went to the apartment of GENE DIXON, 517 Penn Street, Camden, N.J. All members of the group (thirteen individuals in all) were there at the time. As he entered, there was a discussion with regard as to why there had been no real community involvement in this planned action.

Within ten minutes after his arrival, all members of the group, except for COOKIE, BOB GOOD, and JAMETTE, left for Doctor ANDERSON's apartment. COOKIE, at that time, left to go to the roof of the Townhouse Apartments. GOOD and JAMETTE left at that time in order to go to the church yard of Saint Paul's

Episcopal Church across from the Post Office Building, from where they would surveil the Post Office Building. COUMING, JOHN SWINGLISH, JOANN REILLY, LEE ANN MOSHER, and HARDY went in his (HARDY's) van and drove to the area of ANDERSON's apartment. He parked on Royden, off Broadway.

Within fifteen minutes, all members of the group arrived at ANDERSON's apartment. While there, they discussed that night's operation.

At approximately 11:00 p.m., GRADY asked HARDY to take WILLIAMSON, MOSHER, and COUMING to the roof of the Townhouse Apartments, where they would occupy positions No. 2 and 3, and from those positions, surveil the "Z traffic," (that is the patterns of the police cars.)

By the time that they were in the van enroute to the Townhouse Apartments, he noted BUCKALEW and RO RO REILLY, who were in the Avis rental truck, which was parked at position G-2, that is Markley Alley at the Fourth Street side of the mail platform.

When he left ANDERSON's apartment, GRADY, SWINGLISH, ANN DUNHAM and MIKE GIOCONDO remained there.

HARDY stopped on Third Street, between Market and Cooper Streets, and allowed the passengers to exit from his van. He then drove to the White Tower Restaurant and parked on Fifth Street, near the Plaza Hotel. At this time he called the Philadelphia Office of the FBI to relay information that he had learned up to that point.

He then went to the roof of the Townhouse Apartments. At approximately 11:50 p.m., he saw COOKIE and PAUL COUMING, who were walking on Cooper Street, between Third and Fourth Streets.

HARDY stayed on the roof of the Townhouse Apartments until 1 p.m. On the roof with him were WILLIAMSON and LEE ANN MOSHER. At approximately 12:45 p.m., COOKIE and PAUL COUMING also came to the roof of the Townhouse Apartments.

At 1:00 a.m., he went to GIOCONDO's apartment. He had noted that at approximately that time, the lights went on at GIOCONDO's apartment.

While at GIOCONDO's apartment, he spoke with GIOCONDO and GIOCONDO said that he would be going to the roof of the Townhouse Apartments.

GIOCONDO also said that RO:RO REILLY and BUCKALEW were parked in the rental van in Markley Alley. GIOCONDO told him that BOB GOOD and JAMETTE were in the church yard of Saint Paul's Episcopal Church. GIOCONDO said that GRADY, LEE ANN, and ANN DUNHAM were at the apartment of Doctor ANDERSON.

After leaving GIOCONDO's apartment, he (HARDY) went to his truck, which was parked on Fifth Street. He then called the Philadelphia Office of the FBI, relaying the latest information wired by him and then went to his residence.

On August 15, 1971, at approximately 1:15 p.m., he went to the apartment of MIKE GIOCONDO, Third and Cooper Streets, Camden, N.J.

He called GIOCONDO by phone later in the day and GIOCONDO at that time told him that he (GIOCONDO) would be going to DIXON's apartment where they would have a little snack and would say good-bye to the people who were leaving. GIOCONDO said that MOSHER, JAMETTE, and JOHN SWINGLISH would be leaving on buses at approximately 4:30 p.m. from the Trailways Bus Station, Camden, N.J.

Last night (August 14, 1971) while at DIXON's apartment, GRADY also mentioned that they needed more "interior investigation" of the draft board, "like when GOOD and DORSYTHE went into the draft board on a Friday afternoon." HARDY had previously mentioned that KIRK and GOOD went into the draft board on Friday afternoon. It was apparent from GRADY's comment, that DORSYTHE is KIRK's sir name.

HARDY described PAUL COUMING as follows:

Race	White
Sex	Male
Height	5'3" tall
Weight	130 pounds
Age	Approximately 24 years of age

Hair Light brown
Distinguishing Characteristics: Young features
Ears pierced, wears earrings
(gold button or glass button).

HARDY described JAMETTE as follows:

Race White
Sex Female
Height 5'6" tall
Weight 150 pounds
Age Approximately 23 years of age
Distinguishing Characteristics: Long dark hair (clean looking)
"Big boned"
Wears dark-rimmed glasses.

HARDY described LEE ANN MOSHER as follows:

Race White
Sex Female
Height 5'4" tall
Weight 160 pounds
Build "Chunky"
Hair Long, wears in single pigtail
Complexion Dark
Employment Secretary
Defense Committee
New York City, N.Y.
Age Approximately 22

MOSHER mentioned that this was her
"second involvement."

The group plans to meet tonight at 8:30 - 9:00 p.m.

On August 14, 1971, while at GENE DIXON's apartment, HARDY observed the surveillance notes, "headsets" (walkie-talkies) and binoculars.

At 9:15 p.m., on August 14, 1971, these materials were moved to the apartment of Doctor ANDERSON.

On August 15, 1971, while at GIOCONDO's apartment, he observed surveillance notes, charts, at least one walkie-talkie, and at

PH 52-7165 SUB S

least one tape recorder.

On August 14, 1971, while at ANDERSON's apartment, he observed charts, walkie-talkies, surveillance notes, and binoculars.

Date 8/16/71

ROBERT WILLIAM HARDY was interviewed and furnished the following information:

On August 15, 1971, at 8:30 p.m., he went to the apartment of MIKE GIOCONDO, 3rd and Cooper Streets, Camden, N. J. RO RO REILLY and ANN DUNHAM, who were there, told him to go to DIXON's apartment. He then went directly to DIXON's apartment at 517 Penn Street, Camden, N. J., arriving within ten minutes.

Upon his arrival at DIXON's apartment, he noted that those present were PAUL COUMING, BOB GOOD, BOB WILLIAMSON, TERRY BUCKALEW, JOHN GRADY, MIKE GIOCONDO, JOHN SWINGLISH, COOKIE, ANN DUNHAM and RO RO REILLY.

He learned from members of the group that JOANN REILLY and LEANN MOSHER had left for New York from the Trailways Bus Station in Camden, N. J., at approximately 4:30 p.m., that date.

He also learned that JAMETTE had left that day at about 4:30 p.m. from the Trailways Bus Station, Camden, N. J., for Boston, Mass.

While at DIXON's apartment, the group held what was referred to as a "sensitivity session" until approximately 10 p.m. Members of the group confronted each other with the fact that various members were not doing their jobs. They discussed the problems and questioned as to why things "were not moving along."

At approximately 10 p.m., SWINGLISH said that he would leave Monday morning for Washington, D. C., and that he would return Monday night. SWINGLISH said that he would then stay in the Camden area until Thursday, at which time he would again go to Washington, D. C., this time returning Friday morning.

SWINGLISH said that he was a truck driver in the Washington, D. C. - Baltimore area. SWINGLISH said that he was

On 8/16/71 at CHERRY HILL, NEW JERSEY File # PHILADELPHIA 52-7165 Sub

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

personally involved in every draft board action which took place last year in the State of Delaware.

COUMING said that he would stay all week, "until the draft board action was over." COUMING said that he would not be actually going into the draft board but that he wished that he would be able to since he has not actually gone into the draft board since the "Boston 8 Action." COUMING said that he would not be part of the entrance team because JOHN GRADY had told him that he would be needed on the street.

COUMING and SWINGLISH both mentioned that they would call some other individuals during the week with regard to their coming to the area for the action.

Neither COUMING nor SWINGLISH identified the people who would be called but COUMING referred to them as "good women."

GRADY mentioned that there are few women in the movement like ANN CAIN. GRADY mentioned this as if giving the young girls in the group something to aspire to.

At 10:30 p.m., members of the group went out on their assignments. The assignments had been set up or coordinated by COOKIE and are subject to GRADY's approval.

The assignments for last night were as follows:

BOB GOOD and ANN DUNHAM did surveillance from the church yard from St. Paul's Episcopal Church.

GIOCONDO would surveil from the roof of the Townhouse Apartments.

SWINGLISH would surveil from his (HARDY's) van which would be parked on 5th Street between Market and Cooper Streets. SWINGLISH would be equipped with a walkie-talkie.

HARDY was to drive the Avis rental van into Markley Alley and leave it there for the night.

BUCKALEW and WILLIAMSON indicated that they would return home to Philadelphia.

COOKIE, RO RO REILLY, JOHN GRADY and PAUL COUMING were to remain in DIXON's apartment and at a later time in the evening relieve those members of the group already on surveillance.

COUMING was to relieve SWINGLISH in HARDY's van.

COOKIE was to relieve ANN DUNHAM.

GRADY, last night, instructed HARDY to arrange for a location where the group could again practice going up and down the ladders. GRADY also instructed HARDY to, on Tuesday night, be prepared to give instructions with regard to cutting glass with the drill.

HARDY was on the roof of the Townhouse Apartments between 11:20 p.m., and 11:50 p.m. GIOCONDO was also on the roof at that time.

Last night GRADY said, "We're tooling up for Saturday night. If it doesn't go Saturday or Sunday, we're all leaving town."

GRADY also said that he had talked with the GSA guard again. GRADY said that he has learned quite a bit about the guard. GRADY said that he has learned that the guard is blind in one eye. GRADY indicated that he talked to the guard the morning of August 15.

Last night, while speaking to members of the group, GRADY said that many people in the group if arrested would start to cry. He said that this is what had happened "in Harrisburg."

FEDERAL BUREAU OF INVESTIGATION

Date August 18, 1971

On August 16, 1971, ROBERT WILLIAM HARDY telephonically contacted Special Agent TERRENCE P. NEIST at Hi-Nella, N.J., and advised as follows:

On August 16, 1971, at 5:10 p.m., he was telephonically contacted at his residence by JOHN GRADY. GRADY told him that he wanted to have "ladder practice" for members of the group that night.

He (HARDY) called his friend PHIL MURRAY and arranged to use MURRAY's two-story garage, located on Friends Avenue, between Penn and Linden Streets, Camden, N.J. He did not furnish to MURRAY any information with regard to why he wanted to use his garage for a place for people to practice going up the ladders.

At 6:05 p.m., on August 16, 1971, HARDY went to the apartment of Doctor ANDERSON, Broadway and Royden Streets, Camden, N.J. He met JOHN GRADY, JOHN SWINGLISH, PAUL COUMING, BOB GOOD, ANN DUNHAM, RO RO REILLY, COOKIE, and BOB WILLIAMSON at ANDERSON's apartment. He then transported these people, in his van, to MURRAY's garage on Friends Avenue, stopping along the way and picking up MIKE GIOCONDO at GIOCONDO's apartment.

When they arrived at MURRAY's garage, the ladders were put up against the garage and all members of the group who were present, except for GRADY, SWINGLISH, and himself, practiced going up and down the ladders.

GRADY timed the members of the group. The members of the group were able to ascend the ladders in approximately forty seconds; they were able to descend the ladders in approximately forty seconds. In practicing on the ladders, they went to the second floor of the garage and then back to the ground level.

PHIL MURRAY was present for part of the time while the people were practicing on the ladders. At no time, however, did anyone present reveal to MURRAY the purpose for which they were practicing going up and down the ladders.

On 8/16/71; at HI-NELLA, N.J.; File # PHILADELPHIA 52-7165 SUB S
~~On 8/17/71~~ at BERLIN, N.J.
 by SA TERRENCE P. NEIST ^{TPN}
 SA MICHAEL M. RYMAN ^{TPN} TPN/rav Date dictated 8/18/71

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

They practiced on the ladders until approximately 7:30 p.m., at which time they went to the apartment of Doctor ANDERSON. While at ANDERSON's apartment, HARDY observed binoculars, walkie-talkies, surveillance charts, and surveillance notes, which were located in the front room and middle bedroom of the apartment.

When HARDY had conversed with GRADY on the telephone that day, GRADY had mentioned that members of the group had spent approximately four hours at ANDERSON's apartment on that day, "bringing the notes and charts up to date."

SWINGLISH said that he (SWINGLISH) and PAUL COUMING went inside the Draft Board on the Wilmington, Delaware, Draft Board job.

COUMING said that he (COUMING) was the initiator and ran the entire operation in the Somerville, Mass., Draft Board action.

COUMING said that after performing the Somerville, Mass., Draft Board action, that they mailed out 700 to 800 pieces of communication, which contained literature and excerpts from the stolen Selective Service files.

SWINGLISH said that he has been involved in mailing out communications, which contain excerpts from the stolen files in past draft board actions. SWINGLISH said that after one action he went from Boston to Washington, D.C., mailing these letters in every major city between the two points. He mentioned that the newspapers had mentioned that these letters contained postmarks from the various cities along the northeastern sea board.

On August 17, 1971, ROBERT WILLIAM HARDY was interviewed by Special Agents TERRENCE P. NEIST and MICHAEL M. RYMAN at Berlin, N.J., and again related the information as set out above.

In addition to the information set forth above, he furnished the following additional information:

When COUMING and SWINGLISH were referring to the mailing out of letters with stolen draft board records, they mentioned that these letters had been mailed out within eighteen hours of the action. They mentioned that they used "phony" return addresses and that they destroyed the typewriter after preparing the letters. They also indicated that it took them seventeen hours to prepare the letters.

On Sunday, August 15, 1971, JOHN GRADY mentioned that he had talked at length with the General Services Administration (GSA) guard at the Post Office Building. GRADY mentioned that he thought it would be possible to simply have members of the "entrance team" walk out of the Post Office, after performing the action, while GRADY was conversing with the guard. GRADY had learned that the guard is blind in one eye and 68 years old. Because of this, GRADY feels that it would be feasible for members of the group to walk out of the building in the guard's presence.

8/18/71

Date

ROBERT WILLIAM HARDY furnished the following information:

HARDY advised that he went to GENE DIXON's apartment at approximately 9:00 p.m. on August 17, 1971. Upon arriving there the following individuals were present: JOHN GRADY, PAUL COUMING, BOB GOOD, TERRY BUCKALEW, MICHAEL DOYLE, MICHAEL GIOCONDO, JOHN SWINGLISH, COOKIE, ANN DUNHAM, and RORO REILLY.

While at the meeting he learned that the group's practice with the ladders was going well at PHIL MURRAY's place on Friends Avenue, Camden, N. J.

The consensus of the group was that they were very interested in learning how to cut or break glass and asked him to leave an electric drill in order that they could practice with it.

HARDY advised that the drill was left with the group along with bits and other tools that they had asked him to get for them. He advised that he also left a couple of old casing windows and trim metal frame windows for them to practice on. He advised that they were very insistent about his leaving these materials.

While attending the meeting TERRY BUCKALEW advised him that three or four other people had been contacted and that they were coming down for the action this weekend. BUCKALEW did not mention any specific names but said the people were from New York and Washington, D. C.

HARDY also learned from MIKE GIOCONDO that MEL MADDEN for one reason or another feels that he should come down this Saturday.

On 8/18/71 at Berlin, N. J. File # Philadelphia 52-7165 SUB S
 by SAs TERRENCE P. NYST and
MICHAEL M. RYMAN ^{TPN} MMR/tac Date dictated 8/18/71

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

HARDY further advised that the group is intensifying their surveillance of the Post Office Building.

He stated that the group is trying to start their surveillances from 11:00 p.m. until 6:00 a.m. with four or five different people. He characterized this as sort of a split shift whereupon half of them work until 3 a.m. and then the other half comes in and relieves them until about 5:30 or 6 a.m.

HARDY learned that MIKE DOYLE and MIKE GIOCONDO were on the "Fillmore" last night at about 11:00 p.m. He stated that the plan also called for TERRY BUCKALEW and COOKIE to go to St. Paul's Churchyard on Market Street. JOHN SWINGLISH and PAUL COUMING were to rotate their surveillance watch in the truck which was to be sitting at Markley Alley and Fifth by the White Tower. JOHN GRADY and RORO were to relieve those on "Fillmore" sometime during the night. He believes someone said that GRADY and RORO were to be in position around 3:00 a.m. although the plan called for GRADY to roam around the area a little more.

HARDY noted that when he arrived at the apartment they had lapsed from their normal routine in that they were preparing dinner at approximately 9:00 p.m. but were supposed to have dinner at 7:00 and be at their surveillance positions around 10:00 p.m.

HARDY also noted that JOHN GRADY said that transportation is now their main problem. He noted that GRADY was to get some money from the Defense Committee to rent cars but that GRADY had not heard from MURPHY and MC GOWAN. He noted that MURPHY and MC GOWAN are the ones who usually bring the money.

HARDY advised that all the charts, documents, notes, radios, binoculars, and other equipment is now at Doctor ANDERSON's apartment.

HARDY stated that the original plan agreed upon for the action is still in effect but that it is not as great as it was before, explaining that because of the lack of cars the requirement for the number of cars originally planned for are at the present time unresolved.

Date 8/20/71

ROBERT WILLIAM HARDY furnished the following information:

HARDY advised that he went to a meeting at GENE DIXON's apartment at approximately 3:30 p.m. on August 18, 1971. Upon arriving BOB GOOD and JOHN GRADY were there. He learned upon his arrival that ANN DUNHAM, RORO REILLY, and COOKIE were up to the Camden Draft Board checking the physical area under the pretext of belonging to an organization called "Women's Organization for Draft Resistance."

HARDY advised that at approximately 5:00 p.m. the three girls came back to DIXON's apartment. A short time later TERRY BUCKALEW came in from Philadelphia and PAUL COUMING and JOHN SWINGLISH also came in.

A short time later, HARDY advised, all those present in DIXON's apartment went over to Doctor ANDERSON's apartment at which time they took all their gear.

GRADY stated that he did not want to use DIXON's or GIOCONDO's apartment for anything but eating or sleeping. He wanted everything kept at ANDERSON's from here on out. At this point PAUL COUMING interjected and said that he had talked to two people up in Baltimore yesterday and that they will definitely come down Friday night. COUMING did not give any names. JOHN GRADY then stated that he had talked with MURPHY and MC GOWAN in New York and that they would also be coming down Friday night.

At about 7:00 p.m. MIKE GIOCONDO arrived and HARDY learned that MEL MADDEN would be in Saturday afternoon at about 1:00 p.m. It was in this general time frame that HARDY learned from RORO REILLY that she had called her sister JOANN last night and that she and another girl would be coming down Friday night.

On 8/19/71 at Berlin, N. J. File # Philadelphia 52-7165 SUB S
 by SAs TERRENCE P. WEIST and MICHAEL M. RYMAN MMR/tac Date dictated 8/20/71

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

HARDY advised that upon his initial arrival at the ANDERSIN apartment, the girls, RORO, COOKIE, and ANN, immediately started to put down on paper what they saw at the draft board. He learned that the girls were able to find out where at least half the files are kept and that they will also go back into the draft board again today at about 3:30.

HARDY advised that TERRY BUCKALEW worked on the personnel problems as far as where people would be sleeping and also on the entrance into the draft board. He stated that a little later in the evening RORO helped him with this task.

HARDY advised that he ascertained the following operational procedure from TERRY BUCKALEW for the actual "entrance team":

There will be a team of eight people with TERRY BUCKALEW acting as the driver of the truck. Those people comprising the entrance team are MIKE GIOCONDO, MIKE DOYLE, BOB GOOD, BOB WILLIAMSON, PAUL COUNING, COOKIE, RORO REILLY, and ANN DUNHAM. The entrance team will be broken up into three smaller teams. One team will be MIKE DOYLE, BOB GOOD, and COOKIE. They have the responsibility of handling Draft Board Number 9 which is in the Fifth and Market Streets corner of the draft board room. The second team will be MIKE GIOCONDO, RORO REILLY, and BOB WILLIAMSON. They will handle Draft Board Number 8 which is in the Markley Avenue and Fifth Street corner of the draft board room. The third team will be ANN DUNHAM and PAUL COUNING. COUNING's main job is to handle the radio contact with the outside.

While they were going over the entrance team's duty it was brought up that there is a conference room off of the draft board area which is part of the draft board and has a set of windows. The draft board employees use this for their conferences. It came out in the meeting that it might be easier to make entry into the draft board through the conference room windows rather than waiting around for about twenty minutes to drill the glass windows in the draft board itself. It was the consensus of the group that this should be explored and checked out. HARDY explained that the group is interested in the draft board conference room because they are worried that

3

the guard may see broken glass if they attempt to enter the draft board by breaking one of the windows. HARDY explained that the guard does not have access and cannot see from the draft board area the windows which are in the conference room.

At approximately 7:30 p.m. BOB WILLIAMSON came in.

At about 8:30, HARDY advised, the group finished eating some sandwiches and shortly thereafter JOHN SWINGLISH worked on developing a new and simpler code which will be used over the radio.

Shortly thereafter the consensus of the group was that the members of the entrance team should go and practice on the ladders at PHIL MURRAY's, located at 312 Friends Avenue, Camden, N. J.

The group did go to MURRAY's and practiced on the ladders for about twenty minutes after which they returned to ANDERSON's and practiced with the glass drill with BOB GOOD doing the instructing.

At approximately 9:15 MIKE DOYLE came in for about an hour or so. When he arrived GRADY asked DOYLE if some of his priestly friends who said that the group could use some of their cars were still up to it. DOYLE said no, and that they had all backed out.

At approximately 10:00 p.m. the group went to the front room of Doctor ANDERSON's apartment facing Broadway whereupon COOKIE started to explain what the team action would be once they were inside the draft board. While COOKIE was explaining the entrance team's duties, RORO REILLY and TERRY BUCKALEW were setting up a "card system" that would indicate who would be staying where.

HARDY learned that MIKE GIOCONDO had taken the day off and will take tomorrow off in order to locate a suitable truck sufficient for the group's needs. HARDY explained that it was now decided that the group wants sort of a steak-body like truck with at least six-foot walls. He explained that they want the open-bed truck because they want to be able to just flip the ladders onto the roof and in that way the entrance team will not have to get out of the truck to get up the ladders.

HARDY also learned that MIKE GIOCONDO and MIKE DOYLE are going into the draft board today at approximately 10 o'clock this morning to see what they can. The idea was to just get the physical lay-out of the room. GRADY would like everyone who is going into the building on the actual night of the action to get in there at least once before the action so that they will be a little bit familiar with the floorplan.

At this point PAUL COUNING said that on the afternoon of the night of the "Boston Eight" action he went into the draft board and talked to the lady there about his draft records. That night the group went in and destroyed his draft records and a week later he surfaced and claimed the responsibility for this thing. The question was raised that it was risky to go into the draft board; however, COUNIGN said that he was never questioned about it.

HARDY advised that JOHN GRADY and PAUL COUNING would be going to the Radio Shack on Route 130 at 12 o'clock in order to exchange one of the headsets that is not working at the moment. It seems that something is wrong with the power system.

A little later BOB WILLIAMSON said that he had talked to some people in Philadelphia about using their cars and that he was able to guarantee at least three cars from Philadelphia. At this time he mentioned two names of people who will be involved in the action. One is DAN DOUGHERTY and the other is an EMILY. EMILY has a Volkswagen which the group will be able to use.

At the present time the following persons' cars will be used: MIKE DOYLE, MIKE GIOCONDO, BILL ANDERSON, TERRY BUCKALEW, and MEL MADDEN.

It was also mentioned by MIKE GIOCONDO that he had been talking to MILO BILLMAN. BILLMAN lives at Fourth Street between Cooper and Arch and has agreed if needed to be of some help Saturday night. The idea is that at the time of entrance, BILLMAN will back his car out of his alley onto Fourth Street and thereby block Fourth Street for two minutes. HARDY explained that this would successfully eliminate any traffic pattern on Fourth Street from South Camden which is one of the group's main runs. He explained that BILLMAN drives a green Volkswagen.

HARDY advised that he has been asked to go into the Army Intelligence Office in the Post Office to gather additional information. It is felt by the group that they will have plenty of time to also break into the Army Intelligence Office. HARDY explained that the group knows that they will have at least three hours Saturday night in the draft board and that the break-down is that they will break into six filing cabinets each. He explained that certain filing cabinets they will not have to touch because they know that they are just out-dated records. He stated that they know which ones they want. Because of this they feel very confident about breaking into the Army Intelligence Office.

HARDY explained that they have all the tools they need to break into the filing cabinets. These tools consist of a floor chisel, a flat pry bar, and a large screwdriver.

HARDY advised that he left the ANDERSON apartment approximately 11:30 p.m. and that the tentative surveillance schedule was the following:

BOB GOOD and ANN DUNHAM would be in Saint Paul's Churchyard across the street from the Post Office. PAUL COUNING and JOHN GRADY would be sitting in a truck on Fifth Street and Markley as they had done the night before. HARDY advised that JOHN SWINGLISH was to go back to Washington, D. C., last night but that he will be back late tonight or early tomorrow morning. It seems that he has some classes that he has to go to on Thursday evenings.

FEDERAL BUREAU OF INVESTIGATION

Date 8/20/71

ROBERT WILLIAM HARDY telephonically contacted SAS TERRENCE P. NEIST and MICHAEL M. RYMAN and advised as follows:

On August 19, 1971, he picked up BOB GOOD at 3:15 p.m., at Broadway and Market Streets in front of Lit Brothers. They then proceeded to the residence of Dr. WILLIAM ANDERSON, Collingswood, N. J., where they picked up a refrigerator which was to be transported to Dr. ANDERSON's apartment located at Broadway and Royden Streets, Camden, N. J. Due to the heavy rain fall, the trip from Collingswood to ANDERSON's apartment took approximately 1 1/2 hours.

When they arrived at ANDERSON's apartment, they took the refrigerator to the apartment. Upon arriving they noted that those present were: RO RO REILLY, ANN DUNHAM, MIKE GIOCONDO and JOHN GRADY. He learned from the members of the group that COOKIE and PAUL COUMING were out doing some shopping. He also learned that JOHN SWINGLISH had not as yet returned from Washington, D. C., but that he was due to arrive early Friday morning.

GIOCONDO indicated that he had been able to "line up" a truck that would suit the needs of the group. It was also mentioned that members of the group had picked up additional equipment such as glass drills.

It was mentioned that COOKIE, RO RO REILLY and ANN DUNHAM were unable to go to the draft board yesterday as planned, due to the weather, but that they intended to go to the draft board today. It was mentioned that COOKIE, RO RO and DUNHAM preferred to go into the draft board at approximately 3:45 p.m., because the draft board personnel at that time usually are beginning to lock things up for the evening, thus giving them an opportunity to determine such information as which cabinets are locked and where various files are kept.

At 6:30 p.m., he left the ANDERSON apartment.

At approximately 11:30 p.m., he picked up MILO BILLMAN

PH 52-7165 Sub S

and the two of them proceeded to Dr. ANDERSON's apartment. Upon arrival, he noted that those present were: JOHN GRADY, RO RO REILLY, ANN DUNHAM, COOKIE, BOB WILLIAMSON and MIKE GIOCONDO.

There were two newcomers also present at the apartment. It was indicated by members of the group that these two people had come in from Baltimore.

One of the newcomers was named BARRY (last name unknown). He is a white male, approximately 5'6" in height, approximately 140 pounds in weight. He has black, curly hair, a beard and is approximately 22 years old.

The other was his girl friend, SARAH (last name unknown). She is approximately 5' 2" in height, approximately 95 pounds in weight, has light brown hair, which she wore in a bun on top of her head. She was wearing large, round glasses, dungarees and a blue denim shirt. She is approximately 21 years of age. She is attractive and gives the appearance of a "cute high school senior or a college freshman."

It was indicated that the two newcomers had come from Baltimore at COUMINGS request.

It was mentioned by members of the group that they (the group) had been to PHIL MURRAY's earlier in the evening and at that time had practiced ascending and descending the ladders. They mentioned that they had arrived back at ANDERSON's apartment after the ladder practice about a half an hour before his arrival.

At approximately 12:30 p.m., he and MILO BILLMAN left ANDERSON's apartment.

During their stay at ANDERSON's apartment, it was mentioned by members of the group that they had worked on the plans and charts most of yesterday afternoon.

While at ANDERSON's apartment, he observed the plans, binoculars, walkie-talkies and surveillance notes.

It was mentioned by members of the group that NED MURPHY and ED MC GOWAN are due to arrive in Camden today.

It was mentioned that the truck which GIOCONDO has "lined up" is a 14' step van with a power tailgate section.

5 |

PH 52-7165 Sub 3

Members of the group intend to put the ladders on the power tailgate section thereby giving greater height to the ladders. GRADY has proposed this concept.

Date 8/23/71

ROBERT WILLIAM HARDY telephonically contacted SAS TERRENCE P. NEIST and MICHAEL M. RYMAN and advised as follows:

On August 20, 1971, he went to Dr. ANDERSON's apartment, Broadway and Royden, arriving at approximately 6 p.m. Upon his arrival, he noted that two "new people" were there.

One of the "new people" was PETER FORDI. FORDI is a Jesuit priest from New York City. He is a white male, age 30, approximately 6' in height, thin frame, 165 pounds with long sideburns and mustache. He has brown hair and is slightly bald on the top of his head.

The other new comer was a white female named MARGE (last name unknown). MARGE is approximately 170 pounds in weight, approximately 5' 8" in height, very "heavy featured", wears dark rimmed glasses, is approximately 25 years old and has long hair. She is from Boston and it was indicated that she had come to the area at PAUL COUMING's request.

In addition to the above mentioned new comers, the following were present at ANDERSON's apartment: JOHN GRADY, BARRY (last name unknown), BOB GOOD, BOB WILLIAMSON, PAUL COUMING, RO RO REILLY, ANN DUNHAM, TERRY BUCKALEW, JOHN SWINGLISH, MIKE GIOCONDO, COOKIE and SARAH (last name unknown).

HARDY related to the group that he had been to the Army Intelligence Office on that day as he had so been directed by GRADY. He related to the group the information he had learned with regard to the layout of the Army Intelligence Office.

After he did that, the members of the group mentioned that MARTHA SHEMELEY had stopped by the ANDERSON apartment on that day and had offered the services of EUGENE DIXON, herself and the use of their car. It was mentioned that SHEMELEY appeared highly nervous. Members of the group indicated that they were reluctant to talk to her and that they were sorry that she had come by the apartment. They mentioned that they told her quite frankly that

253

it was too late in the game and that it would be too much for her to absorb the plans. It was COOKIE, RO RO and ANN DUNHAM who related this information with regard to SHEMELEY.

GRADY then mentioned that he had encountered GENE DIXON in the area of Penn Street, Camden, New Jersey, on that day and that DIXON had told him that they (DIXON and SHEMELEY) were ready to come into the "action." GRADY said that he told him to "forget it" that they could not "use them" and "thanks anyway."

HARDY was unaware as to whether or not SHEMELEY actually gained entry into the apartment during her visit or whether the girls simply talked to her while she was at the front door.

At this point, members of the group expressed a great distrust with regard to SHEMELEY and DIXON. Members of the group said that they felt SHEMELEY and DIXON were "too shakey."

While walking across the street with BOB GOOD last night, he noted that GOOD took from his wallet a list of 30 to 40 names and telephone numbers with names and phone numbers of people from all over New Jersey, New York and Pennsylvania.

At approximately 10:30 to 10:45 p.m., last night, members of the "entrance team" went to the 3rd floor of ANDERSON's to start practicing on the drilling of the windows.

While the members of the "entrance team" were upstairs practicing, other members of the group were given specific assignments. PETER FORDI and ANN DUNHAM were instructed to go to the church yard of St. Paul's Episcopal Church and conduct surveillance from 11 p.m. to 1 a.m. WILLIAMSON and SARAH (last name unknown) were instructed to go to MILO BILLMAN's driveway in BUCKALEW's pickup truck and surveill from there from 11 p.m. to 1 a.m.

JOHN SWINGLISH has been given the responsibility of devising a new code system for tonight's "action."

It is expected that surveillances of the Post Office would begin at approximately 2:30 to 3 p.m., today.

It was mentioned by members of the group that NED MURPHY,

54

and ED MC GOWAN would be coming in sometime today.

FRANK POMERSHEIM arrived in the area late last night. He was also present at ANDERSON's apartment last night.

At the present time, the group has available to them seven automobiles.

Plans call for JOHN GRADY to be in Markley Alley tonight acting as a lookout in TERRY BUCKALEW's pickup truck. GRADY plans to be parked in the truck at 4th and Markley Alley facing 4th Street with the "high beams" shining towards 4th Street.

Last night while at the meeting, GRADY said, "We'll be going in at 11:15 tomorrow night." GRADY indicated that by this he was referring to the hit of the draft board.

GRADY said that members of the group would be in position at 11:10 p.m., and at 11:15 p.m., everyone would move. His plans call for the blocking of the streets around the Post Office building, while the entrance team puts the ladder against the side of the Post Office building and ascends the ladder to the top of the roof. GRADY's plans call for radio contact between the van and the rooftop and perhaps the church yard.

At this time, it has not as yet been determined by GRADY as to who specifically will man the various positions.

Prior to 11:05 p.m., tonight, the group plans to be at ANDERSON's apartment.

All those present last night, as well as MC GOWAN, MURPHY and JOANN REILLY are expected to participate tonight.

HARDY observed papers, notes, charts, walkie-talkies and binoculars at ANDERSON's apartment last night.

Yesterday, after departing from the elevator at the U. S. Post Office building subsequent to going into the Army Intelligence Office at approximately 3 p.m., HARDY saw PETER FORDI.

PH 52-7165 Sub 3

ANN DUNHAM, RO RO and COOKIE went to the draft board yesterday but were unable to get in since it was already closed by the time they arrived.

GRADY said that if "anything goes wrong" that they should call CARL POPLAR (PH), a local lawyer who lives in Haddonfield, New Jersey. GRADY also furnished this attorney's telephone number as 428-1813.

8/23/71

Date

ROBERT WILLIAM HARDY was contacted at the Chaney Hill Mall, Cherry Hill, N. J. He furnished the following information:

The plans, as formulated by JOHN GRADY with regard to the "hit" of the Camden, N. J., Draft Boards, planned for the night of August 21, 1971, are as follows:

A van-type truck driven by TERRY BUCKALEW and with the "entrance team" inside of it will take position in Markley Alley behind the United States Post Office at 11:10 p.m. At 11:15 p.m. the ladders will be taken out of the truck, placed against the side of the United States Post Office Building, and the entrance team will ascend the ladders and gain entry to the draft board.

JOHN GRADY will be in TERRY BUCKALEW's pickup truck, parked in Markley Alley facing Fourth Street. He will have the lights of this truck "on high beam" thereby impairing the visibility of anyone on Fourth Street who would be looking toward the alley.

A car with driver will be parked on Cooper Street near Fourth Street facing east turning onto Fourth Street.

A car with driver will be parked on Market Street turning onto Fourth Street.

A car with driver will back out of "MILO BILLMAN's alley" located on Fourth Street between Arch Street and Market Street directly across from the Hertz Rental lot. The driver of this car will cause the car to be positioned in such a way as to "straddle" Fourth Street.

On 8/21/71 at Cherry Hill, Pa. File # Philadelphia 52-7165 SUB S
by SA TERRENCE P. NEIST /tac Date dictated 8/23/71

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

A car with driver will be coming down Fourth Street from Federal Street moving toward the United States Post Office. This car will make contact, possibly merely by touching bumpers, with the car that comes out of BILLMAN's alley. An accident will be simulated between these two cars.

A car with driver will be on Fifth Street making a left-hand turn onto Cooper Street.

An unmanned car will be parked at Fifth Street and Markley Alley on the same side of the street as the White Tower Restaurant.

If necessary another car will be parked on the corner of Markley Alley and Fifth Street on the United States Post Office side of the street.

A car with driver will take a position between these two cars thereby effectively blocking Fifth Street.

HARDY's van will be parked behind the White Tower Restaurant and will turn onto Market Street in such a way so as to effectively block that street.

All cars will be in position by 11:10 p.m. At 11:15 p.m. all cars will perform their blocking action and the entrance team will enter the building by means of the ladder.

The plans tentatively called for individuals to be on the roof of the Townhouse Apartments at 11:15 p.m. The plans also called for surveillance by two people from the churchyard of Saint Paul's Episcopal Church, Market Street, Camden, N. J.

At 11:15 it is planned that GRADY would depart the pickup truck and give a hand signal to the entrance team. This hand signal would be in the form of a wave and would be their signal to put the ladders up against the building and to enter the building.

The plans as set forth above were formulated by GRADY during a meeting last night. GRADY completely dominated this meeting.

All those individuals who were at the meeting last night (whose names were furnished by HARDY to the interviewing agents at an earlier contact during the day) will be participating in the draft board hit. This was so indicated during the meeting of last night.

It was also indicated that members of the group expected that JOANN (or JOAN) REILLY, sister of ROBO REILLY, ED MC GOWAN, NED MURPHY, and LIANNE MOSHER would be coming into Camden during the day and that they might also participate in the "action" planned for that night.

HARDY furnished the following items to Special Agent NEIST:

A 3 x 5 card which had written on one side "MC HUGH" and "Lansdale, Pa." On the reverse side of this 3 x 5 card were written the following numbers: "135-157" and "345-404."

HARDY also furnished to Special Agent NEIST a diagram which was drawn by him which sets forth the positions to be taken by GRADY's people.

HARDY also furnished to Special Agent NEIST a floorplan of the second floor of the United States Post Office Building, Camden, N. J. He said that this plan had been handled by GRADY and that he believed that it was drawn by COOKIE.
