A CANA CONTRACTOR OF A CONTRACT SUPJECT: nelay in sending the first cable about OSWALD

Line and a strength

1. Much has been written about the delay (by the Mexico Station) in sending the first cable requesting traces on the name Lee OSWALD. It was discussed in Dave Phillips book as a case of laziness on the part of the Soviet case officer (which in my view was unjust and unnecessary and indicates that Dave didn't know what he was talking about).

2. Normally, the Spanish transcript for the 1 October conversation would have been picked up on the forming of the 2nd of October. The Russian language portion would have gone to the Russian/English transcriber on the follow October. The translation would have been returned the following day (4th) at hich time, the Soviet case officer would have asked for the photographic coverage. That coverage would not have been in the station before the 7th since the film was still in the camera on the 3rd of October and the was picked up probably on the 4th, processed and passed to the Station on the next work day which would have been Normato 7 October. 3. Later the film was taken out of the camera every day but at that time, the film stayed in the camera until a full roll was completed to the might take three or four days. Th e

4. A name trace could have been requested on the bas is of the name alone but that wasn't the way Win Scott ran that Station. He wanted the photographic coverage tied in with the telephone coverage ... sometimes there was a U.S. automobile licens e number. It was also part of the "numbers game" of justifying a project by the number of dispatches, cables or reports produced.

### SUBJECT: Review of Mexico City Station Files at the Warrenton Record's Center

14-00000

JFK#056 Copy 10f7

1. On 2 May 1977 Chris Hopkins and Annie Goodpasture visited the (Warrenton) Record's Center to review old Mexico City files in search of additional photographs of the "unidentified man". We were unable to locate any such photographs. It appears that earlier photographs may have been destroyed in a purge of Mexico City Station files and that the folders for the destroyed material were re-used to forward more recent photographic material to Headquarters for retention. Following are the Job numbers of boxes reviewed and pertinent notations re re-use of the old folders:

Soviet compound and the LIMITED site was diagonally across a double laned street on the southeast corner of that block. (See attached diagram). LIMITED was the first photo base and operated strictly on an experimental basis in the early stages. This base, however, was closed when the Station received word that the photograph of the "unidentified man" was being released by the Warren Commission. LILYRIC was an alternate photographic base. It was located in an upper story of an apartment building on the same side of the street as the LIMITED site but in the middle of the block south. It had a planted view of the front gate of the Soviet Embassy. LICALLA, the third photographic site, was located in one of a row of four houses on the south side of the Soviet Embassy compound. This site overlooked the back garden of the Soviet Embassy compound. The purpose of this operation was to get good identification photographs of Soviet personnel. The three photographic sites were managed by a recruited agent who was a Mexican citizen, the son of an American mother and Mexican father (deceased). This agent collected the film from the LIMITED and LILYRIC sites three times a week. The film was then developed and printed into 8 x 10 contact print strips. LICALLA film was originally processed in the Station but in early (1959) due to the resignation of a technician, this film like that of LIMITED and LILYRIC was processed on the outside by a recruited agent.

Mobile surveillance was conducted by two American staff officers. These two officers organized a surveillance team of six recruited agents which used late model cars and a panel truck for surveillance. The team could be activated by radio from the LIMITED site whenever someone of interest left the gate of the Soviet Embassy. These agents were aware of the LIMITED site since they had been issued LIMITED photographs for identification purposes.

The Station also conducted a unilateral mail intercept operation, LIBIGHT, which was handled by an American case officer. A recruited Mexican agent, who had a semiofficial status, obtained selected letters from a subagent (employed by the Mexican postal system;

2. (Liaison) Coverage:

4-00000

14-00000

Liaison coverage was unreliable and insecure as characterized by the nature of the Mexican services at that time. The Mexican Direction of Federal Security (DFS), (with which we conducted liaison), was a hippocket group run out of the Mexican Ministry of Government. This Ministry was principally occupied with political investigations and control of foreigners. Their agents were  $\sqrt{\frac{bruttal}{bruttal}}$ , and corrupt. (A Station 7 officer trained a number of them in-name\_tracing and travel control. In 1958, at the instigation of a Mexican official, a joint telephone tap/ operation came into existence. The operation, which became known as

(LIENVOY, was run by a Mexican officer). The listening post had 30 lines connected at one time. The transcription room was staffed by Mexican Army officers. In 1961, because of mismanagement by the Mexican principals, the Station chief, himself, became the project case officer. A Station officer assisted him in the daily supervision of the listening post, and in picking up the transcripts and the tapes. There was also an American technician inside the listening post.

3. Oswald Coverage:

In mid-1962, the Mexican officer in charge of LIENVOY (the Sjoint tap operation) asked the American officer at the LIENVOY listening post for the telephone numbers of the Soviet, Cuban and Satellite Embassies in anticipation of possible coverage. The Station immediately disconnected all of the unilateral telephone taps on these Embassies so that they would not be discovered when the Mexicans hooked up their taps. The Mexicans soon thereafter connected five Cuban lines, five Soviet lines, three Czech lines, two Polish lines, and one Yugoslav line. At the listening post, a live monitor made short summaries of conversations of interest which were then included in a daily resume for the Chief of Station. Later, when a reel was completely recorded, full transcripts were typed and passed to the Station; however, there was usually a time lag of a day or two. Reels which contained Russian

As soon as the Station learned that an American identifying himself as Lee Oswald phoned the Soviet Embassy, Miss Ann Goodpasture of the Station started screening all photographs. However, here again, there was a backlog because the photographs were picked up three times a week but those picked up were usually for dates a few days before since the technician who was processing the film, did so on a night-time basis. Further, photographs were not made initially until a complete roll of film was used. Later this was changed and the operator cleared the camera at the end of each day regardless of amount of unused film remaining. The instructions were to cover the entire work day (office hours) and to photograph all Soviets, their families, all foreigners, and cars with foreign license plates. Human error did occur but generally the agents were conscientious. The Cuban Embassy coverage had more sophisticated equipment using a pulse camera which frequently developed mechanical difficulties.

Oswald came to the attention of the listening post operators from a tap of the Soviet line. It was picked up and taken to Mr. Boris

Subject: Background on Mexico Station Support Assets (Coverage of Soviet and Cuban Embassies)

1. Unilateral) coverage. From the time the real tion was opened in (April 1947) (by Bill Doyle) until araita In Scott as COS in 1955, Charles Anderson III (still in LA/HQ) had developed a support apparatus to exploit leads from the Soviet Embassy. This umbrella type project (LIFEAT) consisted of multi line phone taps, three photo sites, a mobile surveillance team and a mail intercept operation.

> a. Fhone taps were placed (by an employee of the telephone company) ( Rotine of ( who was) handled by David WILSTED (pseudo). The number of lines tapped was limted by availability of a listening post nearby (since the taps were not made in the main central) and English/ Spanish (Soviet, Polish, Czech, etc) transcribers. Generally these agents (mostly Mexican or Mexican American) were related (which the station at that time felt was good security in that if they talked about shop, they would talk to each other.)

Three photo sites were handled by Anderson with the help Ъ. of Harry Mahoney (retired, living in Chicago) and TDY TSD people checking the best type of camera, film, and concealment devices. These had sub-cripts under LIFEAT (LIMITED, LILYRIC, and LICALLA). LIMITED was a fixed site bang opposite across the street from the front gate of the Soviet Embassy which had both a vehicle and foot entrance. The Soviet gate was on the NorthWest corner of their compound and LIMITED was diagonally

across a double barrelled street on the Southeast Ser Judge or hage 10

LIMITED was the first base and it operated strictly on an that block. ex erimental basis in the early stages. I think the Mexi Station bought one storey this property (a/Spanish Colonial stone house) through LIMOUSINE (check to be sure). Later this house began to fall apart. This base was closed when the Station got word that the photo of "uniden man" was being released to the public by the Warren Commission. The photo operators were moved to another apt nearby. The property was sold (under an operational agreement with LIMOUSINE for a long term lease on the top floor of a new apartment blding to be built on this site). LILYRIC was planned as an alternate base to LIMITED. It was in an upper storey (3rd floor -check) on the Sale side of the street as LIMITED but in the middle of the block South Sit had a slanted view of the front gate of the Soviet Embassy. The agents in LIMITED and LILYRIC (both to not acquainted with each other. Mexican families) as far as we knew A, the third photo site, was located LILYRIC was a rented apartment. in one of a row of four house the South side of the Soviet Embassy compound which the Mexico Station presented in about 1958 (check date), also using LIMOUSINE as the purchaser (check). This site overlooked the back garden of the Soviet Embassy compound. The purpose of this operation was to get good identification photographs of the Soviet personnel (who at that time were largely unidentified in Mexico Station records). The three photo sites were handled by (Ramon Alvarez) (Mexican citizen of U.S. mother Who taught elementary level at) (the American School). (Ramon) collected the film collected the film collected the film and LILYRIC three times a week. His sister's husband, (Carlos (Mexican doctor)) developed and printed the film into 8x10 contact print strips. The master plan was for LICALLA film to be processed inside TSD man from 1957 to 1959 (Harper) (Holt - resigned) could not handle the volume and as the unprocessed film began to accumulate, the inside CO (Mahoney) became disgusted and took the film out for (Ramon's brother-in-law to process (probably early 1959). Thus (Ramon) became the handler for all three photo bases. A sensitive staff D monitoring operation 1326121

was run out of another one of these houses (crypt for the four houses was LINUST/1, etc). This was handled by Glen WIDDEN (outside TSD officer) and Mahoney using HQ TDY teams for monitoring. This operation was also separate from LICALLA. The two houses in between were rented to unsuspecting tenants.

c. Mobile surveillance was developed by Anderson and later placed under Mahoney and Joseph Sancho. This team consisted of a half dozen or so agents who used three to four late model cars and a panel truck (which could be used on stake outs for thoto coverage). The plan was to activate this group by radio LAMITED BASE) when someone of interest left the/Embassy hd stay with them until they made their meetings. These agents knew about the LINITED BASE because they had LINITED whom for identification purposes. This worked fairly well about the middle of 1958 (check date) when one of the survey ance agents got too close to his target and was arrested by the Mexican transit police and turned over to the Mexican Secret Service. By the time the Station could arrange through a cleared attorney to bail him out (Judd Austin of the Goodrich) (Little and Riquelme firm), the agent had identified Sancho (who was evacuated across the border at Nogales by Bob Shaw) and the insidephone number of Mahoney (who was subsequently replaced by Louis Puckett). As a result of this flap, the LIFFAT project was broken up into several others. The agents were not changed but were given Frank new crypts. /Estancona and Peggy Maggard replaced Anderson in handling the unilateral) phone taps. Puckett replaced Mahoney and handled the surveillance team (LIENTRAF) and the photo bases through (Remon.)

d. LIBIGHT was the crypt used for a unilateral (originally) mail intercept handled by Charlie Anderson III, (The agent (Mexican) had a semi official status and arranged to obtain\_selected letters from

(a sub-agent in the postal system (I think at the airport). His case officers Alfonso Spera, were later/Puckett, (Robert Foldmann) and Alan White.

2. [Haison coverage] was unreliable and insecure as characterized by the nature of the Mexican services at that time. (The Mexican DFS (Direction of Federal Security) with which we dealt was a hip pocket group <u>Fun out of the Ministry</u> Of <u>Government</u>. This <u>Ministry spent a major part of its time expented of</u> foreigners and <u>rolitical investigations</u>. Their agents very functions, venal corrupt extortionists) (Robert Melberg) established of with with one of them [Inq? <u>Levine De Leon</u> (later LIFIRE group) in about 1960 or 51. He gave them some training (a group of about five surveillage stress) (in travel control vorking the airport as well as file searches (Now and then, however, some useful information was developed but it could not be depended upon. (Melberg was replaced by Phil Roettinger (resigned and remained in Mexico), Mahoney, Thomas Hazlitt, and Robert Feldmann (con equation of the file of the file of the Hazitt, and Robert Feldmann (con equation of the file of the file of the Hazitt, and Robert Feldmann (con equation of the file of the

During 1958, Win Scott met socially some of the chronies of the Mexican President elect, Adolfo Lopez Mateos. During this period, the U.S. Ambassador Robert C. Hill (reflecting the policy of then Sec State J.F. Dulles) was energetic in organizing groups to "fight communism". One of these seeds grew into a proposal Miguel Aleman (jr. son of former Mexi President), acting for Lopez Mateos, made to Win Scott for a joint telephone tap operation.) This project (LIENVOY) went through about four distressing years of a shakedown. The Mexican in control (LIELEGANT) was inexperienced, old, and greedy. His son (LIENVOY-2) was a masterpiece of deceit and corruption. LIELEGANT also manipulated control over the principal agent of LIBIGHT mail intercept. The first case officer was Alfonso Spera inside with Turner Smith (retired) outside and John (TSD training officer for surveillance and head of the listening post where thirty telephone lines would connect as well as a transcription room

staffed by (Marican army officers?) Initially the station tried to met every demand made by the Mexicans). Both Smith and John had language difficulties and personal problems associated with being outside the station so that the Mexicans (vere virtually uncontrollable, spendi g money as they pleased, squirrelling away) equipment at enormous costs, and neglecting their part of the bargain (in the) production of transcripts or placing taps which we wanted! Spera was replaced by Jack Brady who found himself in the same pincer provent of having Scott approve a request by LIELEGANT that Brady had tu own by the son, LIE-VOY-2. Finally when the cost became exhorbitant and there was little to show for it, the project was revamped. [Smith] and Josh reburned to the U.S. and were replaced by a TSD officer, Charles Flick, who has but inside the listening post Brady was reassigned to other duties pending a transfer. ut inside the listening post to maintain project as case officer meeting with LIELEGANT. He designated Ann Goodpast to meet deiling with Flick for routine supervision of the listening post, pixing up transcripts and tapes. Goodpasture had no (dealing; with the Mexicans) except when Scott was ill or out of town. Generally, all decisions were made by Scott. This was about late 1961. 3. My memory is a little vague about the origins of the Cuban Embassy but I think the staff first developed from a pro-Castro group celebrating on New Years eve 1959. As I recall, it was a makeshift arrangement of volunteers through most of 1960 and 61 with Tom Hazlitt producing voluminous reports on their activities and recruiting agents right and left emong Cuban nationals in Mexico City.

4. Personnel assignments. Of interest to us now is who was in Mexico during the period prior to Oswald's visit and the subsequent investigation by the Warren Commission. To determine who was there and what they were doing I have grouped persons together chronologically with areas of their assignment as the covering from (1950) to 1969 so that if we have pop up, one can tell what period they were in Mexico and their assignments, at the time.

About mid 1962 (check date) LIFNVOY (outside Mexi rept asked) G for the telephone numbers of the Soviet, Cuban, and Satellite Embassies. With this forewarning; LIFEAT (unilateral coverage) was disconnected. However, (as I recall, the Mexicans) connected 5 Cuban lines, 5 Soviet lines, 3 Czech, 2 Polish, and 1 Yugoslav line. The basehouse listening post had a live monitor who made short summaries of interesting conversed of for a daily resume which was received each day around 8 a.m. (which by (Flick) to Goodpasture to get to Scott before 9 a.m.) Later (when the was completely recorded) full transcripts were typed and passed to station in the same way, however, there was usually a time lag of a day or so. Those transcripts which had Russian or another language been the branish or English went out of the listening pt (of other conversations on the reel)was post the day after the tro typed. These reels were taken to another location where they were translated and typed. In the case of the Russian translations, Boris Tarasoff usually ran about a week behind the date of the conversation because of the volume of Russian conversations among the members of the Soviet Eubassy. During this period (fall of 1963) the reels were probably being brought into the station and carried to Boris by one of the people from the Soviet Section or they may have been carried to him by (Flick ) but I think I brought the reel in and gave it to Herbert Manell to take to Boris. (Herbert Manell and his wife Berbara handled all of the processing of Soviet transcripts. My job involved screening the photographs as soon as we learned that the man calling himself Oswald was probably an American. However, here again there was a backleg because the photos were picked up three times a week but the ones picked up were usually for dates a few days previously because (the doctor) processed the film on a night time basis. Photographs were made usually until one roll was used but later we got it changed to one day coverage on each roll - in other words the operators cleared the camera each day whether there was any fixmany a full roll of film exposed. I am certain that the Oswald call came to ear attention from the Soviet line. It was picked up and taken to Bortship' a translation because the caller was trying to speak Russian. Any delay was caused by waiting to compare the photographs with the type transcript. There were no copies of transcripts every made in languages other than Spanish or English because Win Scott could read only those the Languages and he personally screened the transcripts for operational leads he wanted pursued.

At 1626 hours, A Soviet calls from the Soviet Embassy Chancery to the Cuban Consulate and asks for Sylvia DURAN. He asks DURAN if the american has been there.

DURAN: Yes, he is still here.

SOVIET: According to the letters that he showed them from the (Soviet) Consulate in Washington, he wants to go to the USSR to stay a long time with his wife who is Russian, but also the answer had not been received (by him) regarding his problem. That accordingly these transactions take 4 or 5 months but without prior approval from the USSR, they have to request and even then, they could not issue the Ussa, they have to request and even then, they could not issue the Usa here (in Mexico City) without asking Washington. Yet the could not the first (the American), showed him a letter in which he (the American) is a member of an organization in favor of Cuba and said that the Cubans could not the him the visa without the Russian visa and now the Source doesn't know what to do with him, because he has to waits for the answer from Washington Washington.

DURAN:

Washington. ...with them also, because the problem with him (the American) is that he doesn't know appone in Cuba and in that case it is very difficult to give him a visa, because he was thinking of processing his visa, because he knew it was going to take a long time waiting for the Russian visa in Cuba, and there is no to the USSR. ..that the third is that if his (the American) wife were now in Washington (and) going to receive the visa right now or the permission from the USSR to return to her country, (if) she is going to receive her visa in Washington then having

SOVIET: she is going to receive her visa in Washington, then having this visa, she can communicate to whatever place, this permission, for example, here or in any other place (he) can receive it, but right now they do not have them. ...certainly and neither can (the Cubans) give him a letter because they do not know if the visa will be approved. SOVIET: They can only give the visa according to instructions. Then that is what she will put on his application. SOVIET: Neither can I give him any letter of recommendation because I don't know him and pardon me for bothering you.

An unidentified man (speaking Spanish) calls the Soviet Embassy Consulate at 1037 hours and asks for the Consul. He is told that the Consul is not there. The unidentified man asked what is needed to get visas to go to Odessa. He is told to call back at 1130 hours.

#### Item 137, page 2

At 1235 hours a man named ALATRISTE (not a Soviet) from inside the Soviet Embassy Consulate calls out to number 45-37-72 (Colonial America, probably a pension or hotel but number not listed in the telephone directory) and speaks with a man named SAN ROMAN. ALATRISTE says that he is in the Russian Embassy and they need to know what day the boat "KALONIA" will arrive in Odessa, that the Soviets will also need copies of the passenger manifest a

(One concludes that ALATRISTE and SAN ROMAN and shipping representatives for the boat "KALONIA", and needed routine visa information. First a call was made to the first listing for the Soviet Embassy in the Mexican telephone directory (which turned out to be the Military Attache). They got the phone number for the cassulate and the address. After making a call to the Concepting and learning that it would not be open until 1130 hours, ALATINE whit to the address to get the needed information.)

### Item 395, pages 7 and 8

Just after 1600 hours, the Soviet Consulate received a call from the Cuban Consulate (Sylvia DURAN) who said she had there a U.S. citizen who had requested a transit visa to Cuba because he is going to the USSR. DURAN wants to know with whom he spoke at the Soviet Embassy because she sent him over to them telling him that if the Soviets approved the visa then the Cubans would give him one without anything more, advising the (Department of) Immigration in Cuba. She wants to know with whom he spoke because he says that he doesn't know either with what person and who told him that certainly there would be no problem. The Soviet asks DURAN to wait a minute. After a short wait DURAN explains the same thing to another Soviet. This Soviet tells her to leave her telephone (number) and her name and someone will return the call. DURAN gives her name and telephone number 11-28-47 then says as a personal thing, she has moved and has not advised them of a change of address so will not receive their Bulletin and can give it to them now. The Soviet asks her to call KOUKHARENKO in order to change that address and asks for the name of the (Cuban) Cultural Attache. DURAN says it is Teresa PROENZA whose number is 14-13-26. The Soviet thanks her.

14-00000 **CIA HISTORICAL REVIEW PROGRAM** RELEASE IN FULL 15 Cotober 1963 1999 MERORANDIAN FOR : The Antassedor 7302M -: Winston M. Scott bassador Notified by cos Manuel with the Souter Bringsy SUBJECT 1. The following information was received from a usually valiable and extremely consitive sources On 1 October 1963, an American rule contacted the Soviet Decasey and identified hizself as Loc OSHALD. This officer determined that OFULD had been at the Soviet Incasey on 25 Ceptenber 1965 and had talked with Valeriy Vladimirivoch KOSTIKOV, a manher of the Consular Bection, in order to learn if the Soviet Extracty had received a reply from Mashington concerning his request. We have no clarifying information with regard to this request. 2. Cur Beachuarters has informed us that the WALD above is probably identical with Les Henry OSWALD, born on 100 offerer 1959 in New Orleans, Louisiana, a former rular operator in the Will Marine Corps who defected to the Seviet Union in Ortober 1950 to the Soviet Union in October 1959. 3. This office vill advise for additional information on this matter is received. 86331 CLASSIFICATION REVIEW CONDUCTED ON 1 6 APK 1 Orig - The Ambesseder Teo Minister ELASIMPDET CL BY C12205 Counselor for Political Affairs Regional Security Officer - FLEASE ARTURN TO THE 9th FLOOR. 1. AFTER ANALYZING ALL THE TRAFFIC AND READING THE STATEMENT OF SILVIA DURAN, ONE IMPORTANT QUESTION, STALL DUZZLES US. WHEN LEE OSWALD WAS IN MEXICO CITY IN LATA SUPERBER AND EARLY OCTOBER TO GET A SOVIET VISA AND A CLEAN TRANSIT VISA, DID HE WANT TO TRAVEL TO CUBA RIGHT AWAY, ALONE, OR HAVE HIS WIFE JOIN HIM THERE AND THEN LEAVE FOR CUBA, OR DID HE PLAN TO RETURN TO THE STATES FIRST AND THEN LEAVE LATER. ALTHOUGH IT APPEARS THAT HE WAS THEN THINKING ONLY ABOUT A PEACEFUL CHANGE OF RESIDENCE TO THE SOVIET UNION, IT IS ALSO POSSIBLE THAT HE WAS GETTING DOCUMENTED TO MAKE A QUICK ESCAPE AFTER ASSASSINATING THE PRESIDENT.

BY WHICH WOULD NOT HIMSELF HAVE TO VISIT SOVEMB. FAILURE HIS REAL OR IMAGINED INSTRUCTIONS WORK SMOOTHLY CAUSED HIM BECOME RUDE TO SOVIETS. (COMMENT: PARA IC OF MELLY 933 PARTIALLY BEARS THIS OUT BUT STATION DEFENSE NO SIGNS RUDENESS IN OSWALDS TALKS WITH SOVS. FURTHER DETAILS DURAN INTERROGATION MAY REVEAL OSWALD BECAME ADDITIVE IN CUBAN EMB AS RESULT HIS FRUSTRATION BY SOVS.)

F. HER IMPRESSION HE SIMPLY "COMRADE" WHO COULD NOT LIVE COMFORTABLY UNDER RIGORS OF CAPITALISM AND WISHED RETURN TO SPIRITUAL HOME IN USSR.

G. DURAN KNOWS NOT WHETHER HE GOT USSR VISA OR CUBAN TRANSIT VISA BUT IF HE DID SHE HAD NO PART IN IT.

H. IF OSWALD TALKED ANYONE ELSE IN CUBAN EMBASSY
 SHE UNAWARE.
