

12 March 1954

MEMORANDUM FOR: CHIEF OF SECURITY *gn*SUBJECT: Mrs. David Morales

1. Mrs. Morales called the office at 1130 on the above date to inquire if any mail had been received from her husband and to advise that \$67.50 had been deposited to her account so she would not be able to repay the \$400 advance at this time. I advised her that there was not any mail and that the \$400 had already been deducted from her deposit, thus the low sum of \$67.50.

2. She then asked if she could have Bill's number as she had mislaid it. As I was looking it up a very definite click was heard over the telephone as if someone had lifted the extension phone. I asked her if there was anyone at her house to which she replied no. I then checked the extension on my phone but there was no one on that phone. When I returned to my phone I asked Mrs. Morales if she was on a party line to which she replied that she was not but there was still someone on the line so perhaps I should call back later. I told her I would.

3. Since I will not be in the office this afternoon to receive instructions from you, I will call her from an outside phone and tell her not to call the office again unless she receives further instructions to the contrary. I will advise her of Rip's number but tell her not to give her last name when making a call.
