MEMORANDUM FOR THE RECORD

DATE

17 August 1976

SUBJECT

03

FILE NUMBER

43 980

(Thomas Earl Evans)

From approximately July 1964 until June 1966, Subject was under non-official cover in the Washington, DC area. During this period subject was ostensibly employed by Robert A. Maheu Associates. At that time Robert A. Maheu Associates was attempting to build up trade relations between the USSR and the USA (and Subject used this as a cover to enable him to meet with various Soviet officials.)

As a result of the Watergate incident and the involvement of Robert A. Maheu in Agency plotting to assassinate Fidel Castro, the relationship between Maheu and the Agency has received widespread publicity.

The purpose of this memorandum is to record the fact that the Agency's former relationship with Maheu and his company is widely known in case this should in some way be significant in some future assignment Subject may be considered for.
