RATS

13. (Unclassified - LLM) LIAISON Ken Brooten, on the staff of the House Select Committee on Assassination, called requesting any summary information the Agency might have on the Kennedy assassination. I told Brooten that I had met with Richard Sprague, also on the Committee staff, yesterday and Sprague had asked for the same information and that I was in the process of determining if it exists. Brooten was unaware that Sprague had requested this information.

14. (Secret - PLC) BRIEFING Attended a pre-trip briefing of George Murphy, Executive Director, Joint Atomic Energy Committee, given by Bob Ames, NE Division, and [redacted] (Israeli) Desk/DDO. Murphy is accompanying a group of Members from the Committee who will be visiting Cairo, Israel and Iran. Certain material was requested which Ames will pull together. See Memorandum for the Record prepared by Ames and [redacted] B

15. (Secret - PLC) LIAISON Met with Frank Slatinshek, Chief Counsel, House Armed Services Committee staff, and gave him a copy each of the classified and unclassified letters to the Agency from the House Select Committee on Narcotics Abuse and Control and we discussed the sensitivity of the information requested. Slatinshek said we should try to respond without disclosing sensitive operations or sensitive liaison relationships. He said he would assist if we have problems. I gave him the letter from the Director expressing appreciation for his appearance before the Intelligence Process Course. He asked for a rundown of past members of the PFIAB and any history as to its creation.

16. (Confidential - PLC) LIAISON Met with Claudia Wrazel, in the office of Senator Alan Cranston (D., Calif.), and discussed the background of the request from their constituent Kamal Kapur. She said she felt assured that the Agency had not in any way investigated Kapur and will so advise him. She will call me if anything further develops.

21287

17. (Confidential - PLC) TRAVEL Met with Frank Sullivan, Senate Armed Services Committee staff, and clarified an incoming cable from 27, 15-13 (Chief of Station in Bonn) stating that an advance itinerary from the Air Force of Senator Sam Nunn's (D., Ga.) upcoming trip included a visit with the 24 ("FRG Intelligence Chief.") (COS Bonn) 27, 15-13 noted that there is no such position in the German government as intelligence chiefs are only within the various services. Sullivan said this was probably a slip-up by the Air Force here. What is to be scheduled is an intelligence briefing by the German Ministry of Defense. Sullivan will straighten the matter out. Sullivan said Senator Nunn will not have enough time to meet with (COS Bonn) 27, 15-13. He felt that (Paris) 15-4 would probably be the best (station) 28 to visit. I said I would check and let him know. Mo Sovorn, SA/DO/O was called and will finalize arrangements.
