Subject: Iden A

Subject was interviewed and tested on 16 April 1964 at a safe site in the Miami area at the request of Henry P. REINHOLTZ. The interview was conducted in English.

Subject has been involved with KUBARK since 1959. For a period previous to that time Subject was cooperating with ODENVY in Cuba. He is currently being used by PW as a source of information on the Cuban exile community. The excuse for testing Subject was that he was being considered for training. The actual purpose of the interview was to resolve issues raised by JMWAVE/KUDESK which are detailed in WAVE 2672, dated 26 February 1964.

RESULTS

Subject has worked only for KUBARK and ODENVY. He has never cooperated in any way with any intelligence service of any other country. He has never been asked to cooperate with any communist controlled intelligence service. He does not make intelligence type reports to any one other than ODENVY. Subject has no plausible communication with anyone outside PERLINE. He is not in contact with anyone whom he suspects of being a Cuban agent. He has never taken part in any communist activity.

DETAILS

Subject stated that it is widely known among the Cuban exile community that he is in touch with KUBARK. The fact that this is known is partly what enables him to obtain information which is of interest to KUBARK. Subject stated that no more than four or five Americans know of his involvement with KUBARK. Among them is Iden B.

Subject was asked whether he communicated in any way with individuals living outside of PERLINE. He stated that the only individual in that category was a former Cuban CTC member by the name of Iden C who presently works for the Alliance for Progress. Iden C is now believed to be in Honduras. Subject stated that his wife communicates with her family in Cuba but subject stated that he is positive she does not discuss any of his activities in these communications.

Subject stated that his wife is fully knowledgeable of his KUBARK activities.

Subject was asked whether he had any agreement to cooperate with any of the exile organizations. He stated that in the formal sense of the word he had no such agreement but that he was ideologically committed to AMILBY/1 and the AMVICLU organization. Subject stated

that he has not had any contact with AMBIDDY/1 since he was told to sever his connection in February 1963. He does, however, occasionally see MESA and BARRIO. From his remarks it is quite obvious that Subject has a great deal of affection and respect for AMBIDDY/1. Subject stated that he has done nothing recently to actively support the AMWORLD group but that he would not hesitate to tell anyone, if they asked, that he felt AMWORLD was worthy of all the support that the inquirer could give.

Subject stated that he also has a great deal of respect for the 30th of November Movement. His contact with that group is Iden D. Subject has only known Iden D for about two months and that incidentally was the reason why Iden D's name does not appear on the list of Subject's contacts given to the Station in 1964.

In a discussion of whether or not Subject discusses KUBARK business with unauthorized persons, Subject stated that he did not believe he was privy to what might be considered classified information bearing on KUBARK activities. He pointed out that his information gathering activities necessitate a certain amount of give and take which involves bringing information to the attention of certain individuals in order to check their reaction to that information. Subject has not made any deliberate effort to obtain information regarding KUBARK activities from his contacts among the Cuban groups who work for KUBARK.

In the discussion of blackmail potentialities Subject stated that he had once been intimate with the wife of Iden E. He stated that as far as he knows Iden E is not aware of this, but that Iden E once told him that he had compiled derogatory information regarding Subject and forwarded it to KUBARK officials.

Subject stated that he knows at least the following KUBARKers by true name: Iden F, Iden G, Iden H, and Iden I.

Subject stated that he might recall others if he heard the names. Subject does not know the name or location of the KUBARK base in Miami.

Subject stated that he has always felt that KUBARK has considered him a Cuban rather than an American. He wished to make it very clear that he does not consider himself a Cuban but on the contrary considers himself an American.

Subject stated that he felt that KUBARK was not utilizing him to the fullest extent of his abilities. He stated that he desires to become a permanent KUBARK asset and that he would like very much to be utilized, after the appropriate training, in the PM field.
