3. We suggest that if you have not already included the ANSFELL intrusions in your planning for 26 July, you may vish to consider having ANSFELL prepare and air a special program for that date. If technically feasible, it would be very effective to intrude during the day at the height of CASTRO's festivities, either on an unused channel or preferably on a channel being used at the time to broadcast the celebrations in Havana.

٥,

4. Please explore this subject with ANSPELL and, if feasible, have them sponsor a program suitable to the occasion and the medium.
