The declarations of Ambassador Stevenson upon his return from his visit to Latin America, when for the first time he divided the nations of Latin America into big and small powers, are already producing prejudicial results. The President of Argentina, Mr. FRONDISI, declared in Honolulu, Hawaii, that today it is indispensable to count on the favorable vote of Brazil and Mexico in the OAS so that an agreement may be executory, because they are the nations which have the largest population. This thesis contradicts the Charter of the Organization of the American States which recognizes and guarantees the equality of all Member Nations, and is different from the attitude adopted by Argentina in the United Nations where, without argument, it has accepted resolutions adopted by the Afro-Asiatic Bloc with populations numerically inferior to the Latin American nations. The thesis of President FRONDISI is juridically and politically unacceptable because we would have the case that Ghana should be more respected than Norway, Denmark, Panama, etc. because the latter have less population. The regulations of international law and the treaties must be complied with by large and small powers equally, or the world would turn into chaos. In New Orleans President FRONDISI declared that there could be no intervention in Cuba because the Cuban people has voluntarily accepted the Communist government existing in Cuba. It is a fact that Fidel CASTRO himself has publicly confessed that he never told the Cuban people that he was going to convert Cuba into a satellite of the Soviet Union and Red China. The Cuban people has not been consulted, nor can it be consulted when a tyranny, unparalleled in the history of the Hemisphere, has been established. I insist that if population is a determining factor, the United States, which has more inhabitants than Brazil and Mexico thrown together, should act with the

majority of the Latin American nations who are willing to accompany it,
or should not unilaterally, to save Cuba from international Communism.
The FRODIPSI thesis that a satellite nation in the Hemisphere is acceptable,
is contrary to the Charter of the United Nations, the Rio Treaty, and the
Declarations of Caracas, San Jose, Santiago and the Monroe Doctrine.
In the Cuban Case there is no dilemma: either the United States ends with
Castro by force, or Castro will destroy the United States.

Respectfully yours,
