2. These names were obtained from Mr. Crowell Riches, Executive Secretary of the Board of Examiners for Foreign Service. He is aware of our interest in these candidates and has assisted our office in screening the individuals from the files of those persons who are awaiting appointment to the Foreign Service. OPC has been dealing directly with these individuals with the hope that in selected cases they might be employed in a covert capacity. This possibility apparently no longer exists, however, and your office is therefore being informed of the past history of our dealings with these candidates.
