REF: HMMW 12297, 28 January 1964						
<p>1. The LIEMPT Project expires on 30 November 1964. Please forward the request for project renewal so that it reaches Headquarters by 1 November. In accordance with the questions raised during the past renewal period, as outlined in paragraph two of referenced dispatch, please clearly point out in the renewal that the value of all assets under this project have been reviewed, and list those agents who have been terminated. In referring to the justification of the retention of three photographic surveillance bases directed at LIMERICK, the Station may merely make the statement that they are justified, and refer to HMMA 23343 (which is available at Headquarters) for more details.</p> <p>2. Any examples of where the take from LIENTRAP, LICAILA, LILYRIC, LIMITED contributed directly to the success of any operation should be set out. With reference to LICALLA, and the statement in paragraph 2 of HMMA 23343 that LICALLA provides information which is of LAURICLE interest, please either provide more particulars or refer to specific dispatches forwarded Headquarters which the desk can trace, in order to provide additional justification for the project.</p> <p>3. Headquarters notes that the last progress report covered the period through April 1964, and that another one is due. In view of the close attention paid to operational reporting by the reviewing authorities, we suggest that another progress report be prepared for the next quarter (May through July) rather than waiting to include this period in the renewal request.</p>

1. The LIEMPTY Project was renewed on 17 January 1964 for the period 1 December 1963 through 30 November 1964 for a total of \$49,700; \$30,290 for FY 1964 and \$19,410 for FY 1965.

2. The Station is requested to make an overall effort to make maximum use of all agents, and to eliminate all marginal assets in order to streamline operations and to introduce economy measures. A separate dispatch has been prepared on Raymond H. GERENDE, suggesting that he be more fully utilized. With regard to the photo surveillance basehouses and basehouse keepers under the LIEMPTY Project, it is requested that during the next project year special attention be given to the value of the take from each of these bases keeping in mind the possibility of reducing the number of photo basehouses against the LIMERICK target to at least two basehouses without reducing the effectiveness of KUBARK's coverage of this prime target. If the Station finds that adequate coverage can only be obtained through the continued use of all the assets presently employed under the LIEMPTY Project, special detail should be presented in the next Project Renewal Request which would justify their continuance.
