CONTINUATION OF
DISPATCH

S E C R E T

BINMA - 35074

7. On 15 April 1968 LIFEUD-3, LIFEUD-5, LIFEUD-24, LIFEUD-15 and LIFEUD-13 were granted small salary increases. ALSO, LIFEUD-15 PARTRIDGE was placed on a monthly salary, which replaced his previous hourly pay rate. Amended Memorandums of Oral Commitments were forwarded to Headquarters.

8. As is normal in this Project, daily operational meetings were held with David A. WESTER and LIFEUD-24, in order to pick-up LIFEAT personnel and to discuss various operational aspects and the day-to-day continuation of activities.

BASEHOUSES

9. On 1 April 1968 LIRISK employees started extensive renovation work in the area around LIFEAT Annex 6. Because of this, the basehouse was shut down and all of the LIFEAT lines were removed. This renovation work was completed on 21 June and the basehouse was back in operation in early July.

10. LIRISK work in the area around LIFEAT Annex 8 caused the closure of this basehouse from 19 April until early May.

11. In June 1968 the Station made the decision to close down LIFEAT Annex 5 and move the basehousekeepers, LIFEUD-35 and 36, to another location. The reasons for this decision were two-fold:
A) LIFEUD-35 and -36 have four children and Annex 5 was too small for them, and B), the annex needed extensive repairs which the landlord refused to have done because he was planning to sell the building. A new basehouse, Annex 9, was located and Annex 5 was closed on 20 June. The basehousekeepers are now in Annex 9 and target coverage commenced in early July.

12. Paragraphs 7, 8 and 9 explain the reduced coverage provided by LIFEAT during the three month period under review.

SECURITY

13. No known security incidents occurred during this period.

PLANS

14. It presently appears that LIFEUD-5, basehousekeeper, will be transferred by his company to the Guadalajara area. If this occurs, we will accept the resignation of LIFEUD-5 and -15 and close down Annex 5. In view of this, Project Officers present will be looking for replacements and Operational Approvals will be requested as soon as suitable candidates are located.

29 August 1967

MEMORANDUM FOR: CI/CA
ATTENTION : Mr. Lally
SUBJECT : Amendment of OA for Antonio DOUBLETTE
(201-312729)
REFERENCE : Form 124 dated 22 November 1966

1. In accordance with Reference, Subject was granted an OA on 22 November 1966 to permit the WH/7/Haiti Desk to utilize Subject as a [] translator []. Subject was recruited in December 1966 and has been performing this function satisfactorily since that time.
2. It is now requested that Subject's OA be amended to permit WH/7/Haiti Desk to utilize his services to translate sensitive [] (LIFEAT) from the [] languages into English. To date the Mexico City Station has been providing Headquarters with a translation of the [] intelligence take, with Port-au-Prince Station assisting with translation of the [] portions. Recently, however, the Port-au-Prince asset departed Haiti and, at present, neither Station has the capability to translate the [] portions. Since it is believed that the [] portion may contain important operational information from a CI standpoint, the Haiti Desk proposes to utilize Subject to fulfill this gap. Subject will be polygraphed before he is given this added task. Your expeditious attention to the above request would be appreciated.

3. If you desire further information, please call [] WH/7/Haiti, x5595.

Robert W. Berg
Chief, WH/7/Haiti

ACTION REQUIRED REFERENCES

ACTION REQUIRED: Furnish new TVA for LIEFAT Project if necessary.

REFERENCES : A. LIEFAT Project TVA, dated 5 October 1965
 B. RTW-13013, dated 23 August 1965
 C. RTW-26216, dated 27 May 1965

1. Please furnish this Station with a revised LIEFAT Project TVA with a total of 7 (seven) vehicle authorizations, more than now listed on the TVA, if this increase is deemed necessary for the continuing transportation allowances/mileage reimbursement paid to 6 of the project agents as approved by reference B.

2. Paragraph I, 2) d. of the project renewal request forwarded by reference C included an annual amount of \$500.00 each for the use of LIEFAT-6, LIEFAT-8, and LIEFAT-24 PCV's; \$400.00 each for the use of LIEFAT-5 and LIEFAT-7 PCV's; and \$300.00 per year for mileage reimbursement to Carol K. CHRISTENSEN. These agents have been paid these amounts over the years in accordance with project approvals. However, in view of the PR-15-3F and PR-23-5 regulation revision in August 1974, which established the requirement for a TVA slot for PCV's used on a continuing basis, the question of the need for a TVA is raised to preclude a possible audit exception.

3. The PCV's are used by the agents in transporting times and other material between various operational points. Daily use averages from 20 to 50 miles per day and from 1 to 4 hours per day dependent upon the assignment. Use of pooled vehicles is not possible because of the widely separated points of contact, the need for simultaneous use and the impracticality of coordinating the use of pooled vehicles from a cover standpoint. Public transportation is not practical again because of the widely separated points of contact and government transportation cannot be used because of cover.

PROGRESS REPORT

100-100000
OCT 14 1965
CIA/CIA/CIA
CIA/CIA/CIA

Chief of Station, Mexico City

Chief, All Civilian Personnel

Logistics & Transportation Allowance for David WILSTED

Reference: A. HQNS-5605, 27 September 1965
B. HQNS-15913

1. Headquarters records indicate that Project LENOC was terminated 30 June 1965 as reported by reference B. WILSTED and HV-2539 were both transferred to Project LIFEAT. An amended TVA was forwarded to the Station by TM #0501524, dated 9 July 1965.

2. The establishment of a transportation allowance is predicated on a reduction in the number of Organization vehicles and a savings to ODYONE. Considering vehicle depreciation over a period of several years and charges for gas, oil and maintenance, it is deemed economical for ODYONE to pay the transportation allowance of \$50.00 per month. The availability of a POV, which is intended primarily for personnel transportation and used only incidentally for official use, makes it advantageous for the employee to receive a transportation allowance.

3. In the case at hand it is noted that 90% usage of a vehicle by WILSTED, representing 1500 miles per month and a proposed \$80.00 per month transportation allowance, is for official business. Since the vehicle is used almost exclusively and very extensively for official use, it seems more appropriate, as well as to the advantage of ODYONE and WILSTED, that it should be an official vehicle.

4. Headquarters appreciates Station's desire to reduce the number of QP vehicles. However, each case must be decided on the basis of the circumstances involved and, particularly, ODYONE interest. We request that the Station reconsider this case before we submit it to higher authority for approval.

<p>1. Authority is requested to pay David N. WILSTED a transportation allowance of \$10.00 per month for the use of a DOV for official business. It is planned to dispose of MV-2539, a 1962 Chevrolet Economy 4 door sedan that has been driven for approximately 50,000 miles in favor of a transportation allowance for WILSTED. The vehicle has been used for a total of 30 months with mileage averaging 1,665 miles per month, 90% of which was official business travel.</p> <p>2. The recommended transportation allowance is based on costs computed as follows:</p> <table> <tbody> <tr> <td>a. Gasoline: 1498 miles per month (1665 miles per month less 10% personal mileage) @ 15 miles per gal. 99.8 gallons @ \$.32. \$ 31.94</td> </tr> <tr> <td>b. Insurance: Approximately \$215.00 per year; less 10% for personal use (193.50 ÷ 12) 16.13</td> </tr> <tr> <td>c. Maintenance: Tire repairs, lubrication, oil change, washing, battery & tire replacement, estimated at \$6.00 per month less 10% for personal use. 5.40</td> </tr> <tr> <td>d. Depreciation: Estimated Cost.....\$ 3,200 Value after 30 months.. 2,000 Depreciation 1,200 less 10% (1000 ÷ 30) 36.00</td> </tr> <tr> <td></td> <td style="text-align: right;"><i>Sub Total</i></td> </tr> <tr> <td></td> <td style="text-align: right;"><u>\$9.47</u></td> </tr> </tbody> </table>				a. - CONTINUATION OF DISPATCH	CLASSIFICATION TOP SECRET	DISPATCH NUMBER 44-1925
Part 2		
<p>3. As recommended above, Mr. GUY will safely and extraordinarily high costs, although insurance costs are relatively low in Mexico City, but rather the great number of miles traveled by him every month in connection with UNRRA and other government business. It would seem to be sufficient on a mileage basis at a flat rate of \$10.00 a mile for a cylinder vehicle, he could be paid approximately \$144.00 per month based on past mileage. UNRRA will agree to an \$18.00 a month allowance in lieu of the mileage rate with the understanding that a periodic review of use and costs will be made, with resultant adjustments of the allowance if necessary.</p> <p>4. Since GUY will have to purchase his car in Mexico because of his cover status, he will have to pay an estimated \$15 more than the factory recommended retail price, approximately \$3,200 for the 1946 Ford Falcon, 4 door sedan he plans to purchase. It is requested that Headquarters advise in regard to the factory recommended retail price, as of August or September in 1947, of the above described vehicle, equipped with white side wall tires and radio, to facilitate the computation of the Station contribution to offset the higher cost of the vehicle in Mexico. This amount less the appropriate depreciation will be recoverable at the time the vehicle is disposed of.</p> <p>5. Considering the amount recoverable upon the disposal of the vehicle, the cost to GUY will be the same or less than the cost of shipping a P-51 to an overseas post, and will therefore be comparable to the costs of many staff employees overseas who use their P-51's for official business.</p>

MEMORANDUM FOR: Chief of Station, Mexico City

FROM : Andrew S. PARMERS
SUBJECT : Completion of Training Report on
David M. WILSTED

1. In a Mexico City Station Safesite, Subject received training on a part time basis from 17 through 27 May 1967. The instructor was Andrew S. PARMERS (known to trainee as Pablo ZELAYA) from KUROAE, Headquarters. Subjects covered were clandestine communications, operational security, Soviet Bloc intelligence activities, and operational reporting.
2. As a student, Subject was cooperative, participated with enthusiasm, and performed all requirements well. Although he has had very little previous formal training, he has had much practical experience and assimilates theory rapidly.
3. As a person, Subject is mature, calm, friendly, has a sense of humor, practical, a doer rather than a thinker, aggressive, and confident. He has broad area knowledge, is satisfied with his cover employment and with his KUBARK employment. He has no complaints and showed good emotional stability. He likes Mexico and Mexicans, and speaks excellent Spanish.
4. He has a very limited knowledge of KUBARK functions and organization, but he considers himself to be a careerist in this organization.

(REFERENCE(S))			

1. Enclosed is a clipping advertising a UNIBATH developer, one step photo developing solution, that replaces the three separate solutions now used by the operational darkroom technician who processes the take from the LIMERICK basehouses.
2. We now have a time lag of one to two weeks in receiving the take from these basehouses. Most of this time lag is caused by the lengthy developing process in use. If there is anything to the UNIBATH developer, its use in our outside darkroom would be a decidedly worthwhile investment. Inquiries at the local photographic stores revealed that they had never heard of this product. It is requested that a sample of this developer be sent to the Mexico Station, marked: For Quinton CUSLER so that it will reach the proper basehouse processor. If it proves successful, arrangements will be made through a local firm to place an order for the quantity necessary to meet the operational requirements.

ATTACHMENT TO MEMO

The World's Only Correspondence Course in Wire Tapping

A complete course in Electronic and Photographic Surveillance techniques illustrated with photographs, drawings, and schematic diagrams.

This course written for professional detectives, presents many new techniques in Wire Tapping and Bugging and includes

new developments in electronic techniques. A complete kit is included.

Each lesson is completed with a action story example showing

the practical uses of the material of that lesson. Answers and

questions asked, a certificate of completion is awarded.

The following is an outline of the course:

LESSON I. "Wire Tapping"

The Sled Tap

Wireless Wire Tapping

Fiction "Tom Makes A Tap"

LESSON II. "Bugging"

Wire Bugs

Wireless Bugs

Directional Microphones

Recording Equipment and Techniques

Fiction "All Hell Breaks Loose!"

LESSON III. "Micro & Infra Photography"

Microphotography

Infra Photography

Telephoto Photography

Remote Photography

Fiction "Tom and the Radio Spy"

LESSON IV. "Telescopic Photography"

Serial Photography

Telescopic Photography

Geometric Foundations of Aerial Photography

Fiction "Tom Spots An Old Friend"

LESSON V. "Tailing"

The Wireless Tail

Radio Direction Finders

Fiction "The Colour Co-Artist"

The FULL COURSE just \$22.50, Complete.

ACTIONS REQUESTED: Destroy or return all copies of the attachment to reference A to Headquarters.

In view of references B and D, it is requested that the copy, or copies, of the attachment to reference A be destroyed by the Station or returned to Headquarters. If destroyed by the Station, please advise Headquarters by dispatch as to the date of destruction. This procedure is necessitated to insure the security of the service should KJRIOT later use the bookcase in another area.

b. Chief, WMR

- Administrative/LP&MT
- Personnel for AD 100 reporting

8 FEB 1959

REF ID: A64-9069, 31 December 1957

ACTION REQUESTED: None, for information only.

1. The Station's request for the assignment of either a P-5 or P-7 clerk-typist experienced in R/T/P reporting has been discussed with the SH Division. Both the SF and SH divisions recognize the station's need for such an individual; however, it is at this time impossible to acquire an additional slot for the PCS assignment of an employee and it is not believed feasible to assign individuals on an extended OY basis.

2. Although the rotational field training program suggested by the Station would appear initially to be an excellent way to relieve the referenced problem, Headquarters believes that the long-run effect would not achieve the desired results. This opinion is based primarily on the lack of qualified Headquarters employees available for such a rotation. Also significant is the fact that each return of the employee will have to provide a slot for the local employee, thereby reducing by one the total slots normally available to the office - a troublesome problem under the present personnel ceiling.

3. The SH division has suggested that they would be glad to provide R/T/P training to the next competent lady employee scheduled for PCS assignment to the Station. This, of course, would not increase the Station's OY; it would only transfer an employee from one station job to another. Should you have any desires along this line, please advise Headquarters.

3 Feb 58

WASH, D.C.-2N9, 21 December 1957

ATTENTION: Director, for information only.

1. The Station's request for the assignment of either a PA or TTY clerk-typist experienced in M-12 reporting has been discussed with the WH Division. Both the CH and WH Divisions recognize the Station's need for such an individual; however, it is at this time impossible to acc. 1/a an additional slot for the WH assignment of an employee and it is not believed feasible to assign individuals on an extended COB basis.

2. Although the rotational field training program suggested by the Station would appear initially to be an excellent way to relieve the referenced problem, Headquarters believes that the long-term effect would not achieve the desired results. Headquarters is faced primarily w/ the lack of a sufficient number of slots in its long range field assignment. Also, it is different in the fact that a rotation scheme will have to provide a slot in the WH Division, thereby reducing by one the total slots normally available to that office - a troublesome problem under the present personnel ceiling.

3. The WH Division has suggested that they would be glad to provide M-12 reporting training to the most competent lady employee established for WH assignment to the stations. This, of course, would not increase the Station's COB; it would only transfer an employee from one civilian job to another. Should you have any questions along this line, please advise Headquarters.

FROM : Chief, WHD

SUBJECT { GENERAL - Operational/LINET Support
 SPECIFIC - Concealment Device for Use by Daniel K. KING

(201-210541)

1. In answer to a special request by Daniel K. KING and approved by the WH Division, KRIOT has constructed a bookcase containing a concealment area for his use in connection with the LINET Project. This bookcase is now being packed for shipment. The Station will be advised later of the method of shipment and the ETA. Instructions for its use are u/s/c. If the Station has no objection to its use by KING it is requested that it be delivered to him.

2. If the Station believes that additional similar concealment devices would be of use under LINET Project, it is requested that you forward to Headquarters your suggestions and comments, furnishing details as to quantity, size and prospective use. Your request will then be referred to KRIOT.

MEMORANDUM FOR: WH/Logistics

SUBJECT : Purchase of Metal Storage Cans and Deluxe Carrying Cases

1. The Mexican desk has received an oral request from the field for metal cases to replace the cardboard boxes which are now used for [redacted] the LIFEAT Project. The cardboard boxes used [redacted] cut in a very short time because of the frequent handling which they receive at the Station.

2. It is requested that you purchase and ship to the Mexican Station, the following items which can be purchased from LAFAYETTE RADIO, 165-08 Liberty Avenue, Jamaica 33, New York (seen in catalog 305):

100 Metal Storage Cans for 7" 1200 foot reels \$.39 each (in lots of 6)

3 Deluxe Carrying Cases - hold 35 reels in case \$5.40 each

3. The costs of the above items should be charged to Project LIFEAT.

FROM Chief of Station, Mexico

SUBJECT: GENERAL— Operational/LIFEAT

SPECIFIC— Supplies

DATE: 7 August 1957

It is requested that the following supplies for LIFEAT be forwarded to this Station:

- a. 100 Shaeffer ball point pen refills for Panacoustic dial recorders;
- b. 50 rolls Scotch mending tape for magnetic recording tapes;
- c. 100 rolls paper for Panacoustic dial recorders;
- and d. Six Amplicorp Model 200C Degaussers. It is planned that one Degausser will be placed at each LIFEAT base for emergency purposes.

- LITAT

- Serialize Mexico City Telephone Directory

References: TOWA-7337, 3 July 1957 (50-1-12/3)

1. Reference requested serialization of the Mexico City telephone directory by street address. The matter was discussed with the Headquarters units concerned with this type of work. Due to the time required to complete this job and because of the existing heavy work load, they are unable to undertake this requirement. The requirement could be filled by another government agency after the directory was reduced to abstracts based on a numerical coding system. The outside agency would then punch the coded addresses and indices onto cards at a cost of \$75 per thousand or \$6,250 for 110,000 addresses. A full time person with a knowledge of Spanish would have to be assigned by WHD for this work.
2. The major part of the job would be the first step—the coding—which I estimate would require a person's full time for eight to ten months. The second step—the key punching—will take about two months. The third step—a machine listing—would be a fairly rapid process.
3. Because of the cost and the shortage of personnel, Headquarters regrets that it is unable to undertake the serialization job at this time.

SUBJECT: GENERAL— Administrative/LIFESAT

SPECIFIC— Request for Vacuum Tubes

ACTION REQUESTED: Pouching of Vacuum Tubes

1. It is requested that the following vacuum tubes be pouched to this Station:

50 AU 6
50 6K6
50 6X5
50 6J5

2. Whereas at times these tubes, or some of them, can be purchased locally, the local market often deals in "seconds" which are unsatisfactory for our work.
