PROJECT: REFLECTOR		CLASS: SECRET		FUNCTIONAL AREA:	
TO: Chief, MEXSPICE		XX		ACTION REQUIRED	
INFO: Chief, III Division; Chief, WOLCRR				ACTION REQUIRED	
FROM: Chief of Station, Mexico City				ACTION REQUIRED	
SUBJECT: AQUATIC REFLECTOR REFLECTION				ACTION REQUIRED	
ACTION REQUIRED: Deployment of Telephoto-lenses				ACTION REQUIRED	
<p>Reference: MEXICO CITY 18834</p> <p>1. Two of the Station photographic operations, REFLECTOR and REFLECTOR, have been using the launch and 1.5 inch Baiscope and Leica camera combination for approximately twelve years. These two operations provide valuable photographic coverage of two important targets and new equipment is required to improve the photographic quality and increase the capability for longer coverage during the day when light conditions are poor.</p> <p>2. The Baiscope in the REFLECTOR-1 CR has a 1.5 inch eyepiece and is located in a very small room. A full length tube telephoto lens of 1000 mm will not fit into the space without taking out a concrete wall partition. Therefore a compact catadioptric lens is required for the project.</p> <p>3. The Baiscope in the REFLECTOR-2 CR should also be replaced by the same type of lens system mentioned in paragraph 2. The Baiscope now in use is operated from the top of a table where REFLECTOR-2 must also stand to take pictures over a high wall in the foreground. The system must be removed from the table when not in use and stored in a locked foot locker. For these reasons the lens and camera should be light and compact to facilitate their use and storage.</p> <p>4. As can be seen from paragraphs two and three a light weight compact lens system is desired for both projects and the Station</p> <p style="text-align: right;">-continued</p> <p>Distribution: 2 - C/MEXSPICE 2 - C/WOLCRR 2 - C/WOACRE <i>see Y. T. 1/2/73</i></p> <p style="text-align: center;">63 COPY</p>

ACTION REQUIRED - REFERENCES

Action Required: Renew passports and return

Reference : HMMW - 13,672, 3 June 1965

1. Forwarded under separate cover in true name pouch are the WOACRE PBRUMEN passports for LIONION-1 and LIONION-2, issued by Reference. These passports have expired, and the Station understands that they can be renewed for another period. Due to the sensitivity of the LIONION operation, Subjects cannot obtain regular PBRUMEN documentation locally, and must have them in order to leave Mexico and return.

2. It is requested that WOACRE revalidate the passports and return them to the Station for re-issuance to Subjects.

DISPATCH

Audit Report

107-110067

November 1963, and we recommended that the matter be further
pursued. The current audit disclosed that little or no action has
been taken on this matter.

Recommendation: We recommended that the Station
determine whether PRBAPANE owes WAFER* for 1963
and compute profits, and notify PRBAPANE of the
results of the investigation.

Salonhouse Rent in Excess of Lease Not
Adequately Documented

The most recent lease for the LIONION telephone (MEXI-62)
was dated in 1962 and provides for monthly rental payments of
\$100.00. Since then, the rental payments have been increased to
\$1,250 per month, but the lease has not been changed because, in
accordance with local custom, the landlord is reluctant to enter
into a new lease due to the costs involved and the income tax
implications.

Recommendation: We recommended that a memorandum for
the record showing the revised rent be prepared and
approved by the Chief of Station or other designated
Station official.

Revision of Education Allowance Requires Adjustment
of Amounts Paid

Education allowances for Mexico City were revised for
some grades during the current fiscal year; however, the Station
did not retroactively adjust the allowances already paid, as
required by section 476 of the officialized regulations.

Recommendation: We recommended that education
allowances paid for the current fiscal year be
recomputed and adjusted to the revised allowances.

Proceeds of Property Sale Not Recorded in
Finance Records

In our review of property transactions, we noted two
instances (Vouchers 100 and 101) where responsibility was
dropped because, according to the property records, the property

AQUATIC/LIONION
 Technical Information

Reference: IDAMA 31767 dated 11 April 1967

1. LIONION 1 photographic results continue to be satisfactory for all concerned. It is therefore advisable that no changes in procedure be made at this time.

2. It is apparent that LIONION 1 relayed the incorrect developing formula for the pulse camera film. Perhaps this error is due to his inactivity in processing such film for over a year. Since the conception of this operation all pulse camera film has been developed in Microdol X. On the other hand, Tri X film used in the LIONION 2 operation (Pentax camera and Balscope) has traditionally been developed in Acufine.

3. All pulse camera film is processed at Headquarters by an automatic Huston system. Time and temperature information which the lab uses would be of little value to your development procedure. The results of your recent test indicate that it should be satisfactory for an occasional check on the equipment.

4. The difference between Plus X Negative and Plus X Pan film is worth only one half "f" stop, which should cause no problem if you decide to use the latter.

INFO.	Chief, WH; COS, Panama City (Clement L. BROCK)		NO INDEXING REQUIRED
FROM	Chief of Station, Mexico City		ONLY QUALIFIED DESK CAN JUDGE INDEXING
SUBJECT	AQUATIC/LIONION Pulse Camera		
ACTION REQUIRED - REFERENCES			
<p>Action: See paragraph 5.</p> <p>1. The LIONION Pulse Camera has been working for well over a year with no major technical problem. A few months ago the 100 foot film magazine had to be repaired because the supply spindles had tightened and put an excessive strain on the motor.</p> <p>2. More recently, the battery supply had dropped to about 22.5 volts or so causing erratic operation. The sensor relay between the VLS-2 and the camera suffered the most because of chattering and consequently arcing between the points.</p> <p>3. To prevent failures of this type in the future, Raymond L. BARCENAS is making a small battery charger at a nominal cost that can be floated across the batteries keeping them fully charged. We are doing it this way rather than ordering a DC power supply because it is less expensive than a commercial model and will not be bothered by house current interruptions or fluctuations. If however, WOACRE/PB foresees any problems by doing it this way, please inform us.</p> <p>4. On a recent visit to LIONION and a check of the equipment, it was found that the lens of his FOCOMAT 1C enlarger has a fungus like smudge between the elements. We cannot detect any degradation in print quality but would like to have a new one in case this is a fungus and it gets worse.</p> <p>5. In summation it is requested that WOACRE/PB provide the following to Mexico City, charge 7135-2403.</p> <p>a. Sensor Relay believed to be a Potter-Bromfield 5A5089 but please check;</p> <p>b. Comments on the power supply;</p> <p>c. Lens for a Leitz FOCOMAT 1C.</p>

SUBJECT AQUATIC/PBRUMEN/LIONION -- Transmittal of 35mm Pulse Camera					
ACTION REQUIRED - REFERENCES					
Reference: MEXI-3960					
<p>1. The attachment contains the defective 35mm Pulse Camera previously reported in referenced cable. Very little additional information can be supplied, concerning this mechanical failure, other than that reported in the reference. This particular camera was installed on 16 June 1965 and operated normally from that date until the afternoon of 28 June, at which time it began to continually blow fuses. Hugh T. FRANCOTTE entered the LIONION photographic basehouse that night, and when it was found that the problem could not be corrected on the scene, the camera was removed and taken to MKCHARITY for further troubleshooting. It was finally discovered that the shutter motor was malfunctioning and partially burned-out. Joseph M. RESCIGNO stated that since there was a definite "short" in the motor, this would cause the camera fuses to constantly blow.</p> <p>2. Also included in the attachment are two (2), one hundred foot capacity, film magazines. Both of these magazines are faulty, causing the film to jam. They were both in use with the previous Pulse Camera which became inoperative during late May and was forwarded to KURIOT Headquarters for repair. FRANCOTTE had two (2) new magazines in stock, and they were issued to LIONION/1 for use with the camera presently being returned for repair or replacement.</p>

ACTION REQUIRED - REFERENCES

ACTION REQUIRED: Paras 2, 3**REF: HMMA-26017, 4 May 1965**

1. New passports were issued for LIONION -1 and for LIONION -2 in accordance with your request. These documents as well as the 2 old passports are being sent to you in true name pouch.

2. The documents have a validity period of 5 years from date of issue; however, please return them to KURIOT after the passports have served their purpose. Please sign one copy of the document receipt form accompanying the documents.

3. When the LIONIONS -1 and 2 have received their immigration papers, please try to send the original documents to KURIOT for a brief examination. If they cannot be sent, KURIOT would like to have color-annotated photocopies of them.

MICROFILMED

1. Attached (USC) are the expired genuine PBRUMEN passports of LIONION-1 and LIONION-2 together with two photographs and five signature specimens of each agent.

2. It is requested that new PBRUMEN passports be prepared by KURIOT and pouched to the Station as soon as possible.

3. The assumption of reference B that passports obtained at the PBRUMEN Embassy in Mexico City are actually issued in the PBRUMEN Capitol City is correct.

4. The old passports should be returned to the Station as the Mexican immigration visas appearing of pages 11 and 19 of the LIONION-1 and LIONION-2 passports, respectively, must be in the possession of the Subjects until they are granted their final immigration documents.

1. PBRUMEN ORDINARY PASSPORTS FOR LIONIONS 1 AND 2 HAVE EXPIRED. SUBJS CANNOT TRAVEL FROM MEXI BECAUSE MEXI GOVERNMENT WILL NOT ISSUE REENTRY PERMIT IN EXPIRED PASSPORT, PSPRIME GOVT WILL NOT ISSUE VISA IN ABSENCE MEXI REENTRY PERMIT. MEXI GOVT STANDS PAT EXPLAINING, RIGHTLY, THAT PBRUMEN EMB WILL ISSUE NEW PASSPORT TO ANY PBRUMEN CITIZEN REGARDLESS OF POLITICAL LEARNINGS HENCE LIONIONS MUST GET NEW PASSPORTS.
2. FOR REASONS OPERATIONAL SECURITY LIONIONS CANNOT VISIT EMB FOR NEW PASSPORTS SINCE THEY KNOWN BY SIGHT TO EMB PERSONNEL AS MEXICAN NEIGHBORS. THIS SITUATION RESULTED IN COMPLICATED AND EXPENSIVE CXO ESCORTED "BLACK" BORDER CROSSINGS BY LIONIONS LAST YEAR WHEN THEY VISITED RELATIVES IN PSPRIME.
3. CAN HQS OR JMWAVE ISSUE NEW PBRUMEN PASSPORTS FOR BOTH AGENTS? PLS CABLE PROCEDURE. MEXI PREPARED POUCH OLD PASSPORTS AND SPARE PHOTOS. LIONIONS WISH TRAVEL SOON.
4. FYI JMWAVE: LICRAFT-1 RECENTLY PURCHASED TWO EXCELLENT NEW PBRUMEN PASSPORTS IN JMWAVE AREA FOR HIS SONS, AT COST 75 DOLLARS

INFO.	Chief, WH Division		NO INDEXING REQUIRED
FROM	Chief of Station, Mexico City		ONLY QUALIFIED DESK CAN JUDGE INDEXING
SUBJECT	AQUATIC/Operational -- Availability of the Nikon Television System		
ACTION REQUIRED - REFERENCES			
<p>1. At the time of Hugh T. FRANCOTTE's departure from Headquarters, KURIOT had recently begun an extensive evaluation of the Nikon closed circuit television system. If this particular system is now considered "operational", FRANCOTTE wishes to be so advised, as there may be a possible application for it in support of an operation at the Mexico City Station. Lawrence F. BARKER was recently briefed by FRANCOTTE on the Nikon system, and is now interested in obtaining additional facts concerning it. BARKER, who is responsible for the LIONION Project, foresees a possibility for its use in the LIONION photographic basehouse.</p> <p>2. It was thought that perhaps the system could be further "operationally tested" at this basehouse, and at the same time, the Station could examine the possibility of a permanent installation. Presently, LIONION/1 is utilizing a Balscope and Pentax camera for obtaining photographic coverage of the entrance to the PBRUMEN Embassy. Provided the television camera could be equipped with a telephoto lens of about the same focal length as the combination of the Balscope and 20X eyepiece, this system might be a suitable substitute for the equipment now in service.</p> <p>3. It is requested that the Mexico City Station be advised if the Nikon television system is available, and Headquarters thoughts concerning the testing of it at the LIONION basehouse.</p> <p style="text-align: right;">Willard C.
