(1.) HER. Until Arteber 1961 the MER had a good civilian and military organization. Immediately after the arreat of School Gonzalez, the national co-trainator, the local co-ordinator and almost all the members in the province sought asylug. The new co-ordinator is trying to reorganize the movement. There are still enough men of action, coming from the 26 of July Hyemont, but they have to re-establish contacts.

- (5) Rescate: Koscate has no members in this area.
- (6) DRS. The DRS was completely broken by the unsuccessful uprising of Alberto Muller and by the arrest in October of "El Fiera", provincial co-ordinator. The DRS still has great prestige in the area, and there are many who would follow its direction.
 - b. Northern Oriente Province

4-0000

- (1) MRR. The MRR is practically non-existent in northern Oriente Province, with the exception of a few personal contacts of Nino Dias.
- (2) NDC. The HDC is poorly organized and inactive.
- (3) 30 de Noviembro. It has a modiocre organization, for mombers, and is inactive.
- (L) MRP, Even before the debaols of October the MRP had a very poor organization in this area. Fito Ocmez ("Ricardo"), the co-omlinator, was arrested in the roundup at that time, but escaped and took asylum in the Ecusionnan Embassy. His successor and the military and civilian personnel are relatively capable.
- (5) Rescate. It does not exist in this area.
- (6) DHE. It does not exist in this area.
- c. Canaguay Province.
 - (1) MRR. At the beginning of April 1901 Caballero (fnu), the co-ordinator, whose nickname is "El Viejo", was arrested and condemned to 30 years on the Isle of Fines. Arango (fnu), who was named no-ordinator in August, has been forced to seek asylim in Hatana. The movement has been destroyed.
 - (2) FC. The MDC has an excellent co-ordinator, Blanco (fmu), who is responsible, discreet, with good connections. The MDC has a very good civilian organization and at present is concerned about its military organization, for which they already have some personnel. They work effectively and are trying to carry cut some military actions.
 - (3) 30 do Novie-bro. The civilian organization is relatively good. It has a small but offloative military force.
 - (4) <u>Mark</u> Canaginary is practically the only province in which the MAP was not Affected by the arrests of October. It has a good civilian organization and military forces of importance, which are under the consent of former officers of the Rebel Array. Arquimides Caballero ("Estebar"), its former co-ordinator, took asylum in the Brazilian Embassy; "Alcardo", his replacement, is very young (21 years old) but is considered very good.
 - (5) Restate. It has a poor organization. There are enough men, but they are inactive.
 - (6) DRE. Fow numbers of the DRE remain, and "Tronco" and Rafael Angel Quevedc, its directors, are known by 0-2. The novement has been destroyed.

- d. Las Villas Province. It is estimate that no movement has an effective organization in the province. A few men in each novement maintain this fiction of the existence of their organizations.
- A. Katanzas Province. This province has been used by the movements as a route for the entrance and exit of men and military equiment. The points used are under careful watch, and the personnel doing this work has been reduced to nothing. The MER, NDC, MEP, and, to a lesser extent, the 30 de Noviembre have civilian organizations with little or no effectiveness.
- f. Habana Province. Provincial organizations practically do not exist, since provincial work is absorbed by the national committees of the movements, all of which are in the City of Habana. The men of the first, second, and even third rank are, in almost all cases, either priseders, in asylum, or in exile. These who survive have succeeded because of the co-operation of these who, although not members of the movement, are opposed to the government.
- g. Pinar del Rio Province. It is estimated that no organized movements exist in Pinar del Rio.
- h. Hational directorates.
 - (1) MRR. "Ssteban", its present co-ordinator, is very young (23 years old), and lacks the necessary capability. Although he is courageous and generous, he becomes lost in small details. The group which makes up the national committee is ineffective, since this movement was largely destroyed after 17 April 1961.
 - (2) MC. The HDC is directed by politicans, little qualified for a clandestine fight which does not interest them. Alberto del Juneo, a man of action who succeed the inefficient Popin Fernandez ("Lucas"), had to take asylum in the Argentine Embassy.
 - (3) 30 de Neviembro. Fedro Forcada ("Villaroal"), the present co-ordinator, is the former secretary-general of the Federacion de Geres Quinices and has good contacts in the labor field. He knows how to work, but his attachment to women makes him forget his responsibilities frequently. In Kowaber this movement was the victim of a demunciation which resulted in the errest of over 10 members. The consequences of the demunciation are not known. It was attributed by some to Jose Reyes, Habana provincial financial secretary, and by others to an engineer who used to work on the national committee.
 - (4) MRP. The arrest of Reinol Gonzalez has left the MRP reduced to algost nothing. National leaders held by 0-2 are: Reinol Conzalez ("Antonio"), Fernando de Rojas ("Pablo") co-ordinator of Habana; Benteria (fnu) ("Rene"), co-ordinator of 'Matanzas; Hery Martines "Francisco", labor co-ordinator; Roberto Jimenez ("Fodro"), national student co-ordinator; and, in addition, 60 to 90 others were arrested. Those who took asylim are: Javier Chason ("Baul"), co-ordinator of Santiago de Cuba, and Arquinedes Caballero ("Estoban"), co-ordinator of Camaguey, in the Brazilian Embassy; Rafael Okmoz ("Ricardo"), co-ordinator of Holguin, and Jesus Rodrigues ("Gomes"), co-ordinator of Las Villas, in the Ecuadorean Embassy; Francisco Leon ("Pordomo"), successor to Reinol Conseles, and Manuel Castro ("Yeyo"), chief of military operations, in the Argentine Erbassy; "Agustin", national finance officer, in the Panamanian Embassy; Dr. Orizondo (Inu) (El Doctor"), who was in charge of contacts with professional classes, in the Colorbian Embassy. A person known by the nickname "Chiche" has been designated new national co-ordinator and is probably the most capable of those remaining. It is believed that in most cases he can regain 25 per cent of the movement's previous affectiveness.

. Iss Villas

- (1) Corralillo Front. Campitos and Ton-Diki are the two leaders who have become well known in this zone. Campitos is no longer mentioned, although he still operates in this area, remaining hidden with some 20 poorly-armed men. Ton-Diki gained fame in the province as the result of killing some brizalistas and militiamen. About the middle of December 1961 it was removed that he had been captured.²
- (2) North Front (Yaguajay). For some months there have been groups which vary between 40 and 100 men, the total for the whole zone. There seems to be enough food to supply 200 men. In the last weeks (sarly December 1961) they have carried out some activities such as the brief capture of the towns of Menases and General Carrillo, acts which resulted in the arrest of a great number of civilians not connected with the uprising. Doctor Armanic Delgado, who served as the contact with the insurgents and was in charge of supplies, has taken anylum in the Ecuadorean Embassy. His second-in-command, Jimenez (frm), was arrested.
- (3) Escambray Front. The three best-known leaders of this front are Osvalio Ramirez, Congo Pacheco, and Pancho Villa. There is no discipline among the groups, and the front is very disorganized. It is estimated that the number of insurgents does not exceed 300, lacking arms and having little food. Ramirez' reputation among the lower class is good but not so among anti-Castro leaders because of his notorious criminality. The centers of supply of fool and munitions, such as Placetas, Sancti Spiritus, Trinidad, Santa Clara, Cienfuegos, and Manicaragua, have suffered many arrests. It is probable that this front will not grow because of the lack of organization of the national anti-Castro movements in Las Villas Province.
- c. Criente Province, Sierra Naestra Front. "William", former chief of action of the 30 de Noviembre, rose in rebellion about mid-1961 with a group of 50 men in the Niquero zone. With the aid of different movements organized in Manzanillo, the help of 50 militianen and 25 or 30 rebel soldiers, and the co-operation of a leader of the MRP whose name is unknown, he succeeded in uniting 200 men. Their lack of arms made possible the capture of 50 of them in August, and "William", who was among them, was executed. About 100 men remain at present. They have some arms but are inactive.
- Penetration of Military Units of the Cuban Government.
- a. Navy. Among the officers only a few have been conspiring and those have been retired from active service and named as administrators of co-operatives. The penetration is more effective at some naval posts, through which equipment can enter. Given the little importance of the Havy and the limited penetration within it, it is not believed that the Mavy would play an important part in any national anti-Jastro military operation.
- b. Pobel Army. The lack of a serious plan of the anti-Castro leaders who have made contact with the officers of the Rebel A my has prevented penetration of the Army from being a significant part of the anti-Castro struggle. It is estimated that 75 per cent of these afficers on active duty who fought in the hills during the struggle against Batista are now opposed to the government, but those officers now lack effective control and will not again have it. There have been some cases of a ficers providing arms and munitions, but it has happened only sporadically.
- c. Folice. Dissatisfaction maying the police can be considered of miniael importance because of the presence of militiamen in police stations and the assumption of police functions by the militias. Although some of the lowerranking members of the police force are against the regime, their supervisors are Communists.
