LIFEMT Progress Report/August, September, October 1963

ACTION REQUIRED REFERENCES

Ref: DSA-22329

Action: For your information

1. The following report is submitted in accordance with CAVIB-F 52-6-1, section V, paragraph 2 (d) (1).

**A. EXPLOITATION OF LEADS**

(1) LIFEMT/Cuban In the course of the reporting period LIFEMT covered two targets of ZRKMTK interest. One of these lines was considered productive of operational leads but was temporarily discontinued for operation reasons. Coverage of the second line was terminated for lack of production. The only lead produced from this line was reported on in DSA-22164. LIFEMT is estimated to cover two lines in connection with the AIGTHM operation. The product of this coverage is of interest to Special Affairs Staff and JMWAVE as its take is forwarded weekly to these customers. Recently this particular coverage has provided information of interest on the relationships within the family of Fidel CASTRO and the continuing deterioration of these relationships. Coverage of the home phone of a Cuban official was instituted at the request of a Special Affairs Staff officer to support the sensitive ANROC operation.

(2) LIFEMT/Soviet LIFEMT continued its coverage of the home phones of two known Soviet intelligence officers. Product and use continues as reported in reference. Coverage of one of these lines was discontinued during the recent absence from Mexico of one of these targets. This coverage is now being reinstated.

(3) LIFEMT/Polish Recent LIFEMT information from coverage of this target has indicated that a senior Polish official in Mexico is conducting an affair with the wife of another Polish official. The LIFEMT lead was the basis for further Station action in this case. LIFEMT has increased its coverage in support of this possible future recruitment attempt. Also in the Polish file LIFEMT provided coverage of a suspected Polish illegal residing in Mexico.

(4) LIFCAT/Czech LIFCAT activity in this area has been limited to coverage of the home phone of a Czech intelligence officer. Unfortunately to date little of operational value has turned up on this line other than biographic data of interest.

(5) LIFCAT/Bulgaria LIFCAT's continuing coverage of KGBAR-1 has provided information of interest to KGBAR on R-1's planned travel and the delays to that travel as well as his future type and place of employment. Coverage of Judith PEREIRA Caprara provided the lead on which the recruitment of LIFCAT-1 was based. L-1 was recruited as an access agent to PEREIRA for possible future recruitment attempts of her. This coverage has also enabled this station to advise another station of the possible susceptibility to recruitment of a Communist from the country of concern to that station.

(6) LIFCAT/PCN In addition to the PEREIRA coverages mentioned in paragraph 1.A. (5) above, coverage of a member of the PCN Central Committee, Maria CHAPA Tijerina has yielded good information on the pro-Chinese/pro-Cuban infiltrating in the PCN as well as target analysis information on various PCN officials.

(7) LIFCAT/American Communist Group in Mexico (ACGM) The information provided to the local GOMBY office from the coverage of David HEDDER, Charles COULL (aka GOMBY) and Ruth and Anne STIBER has been evaluated as valuable by that office. It is particularly useful in covering movements of American leftists and Communists who travel to Mexico and frequently on to Cuba.

(8) LIFCAT/Miscellaneous LIFCAT coverage of a former FMDD agent is of interest to GOMBY Headquarters and the senior GOMBY officer in Mexico. This and the coverage of a related line enable the interested customers to maintain a check on the former FMDD agent's activities which are against the best interest of FMDD.

#### B. PROCESSES OF TIME

No change.

#### C. PERSONNEL

LIFCAT-1 has managed to extend his "commission" as investigator of personnel for the telephone company. See SECRET section below.

During the reporting period special drug was provided by Headquarters for the treatment of a child of LIFCAT-5. This drug was not available locally and LIFCAT-5 was most grateful for the assistance of his "friends" in obtaining this material.

#### D. LIABILITIES

No change from previous reports.

#### E. SECURITY

LIFCAT-1's efforts to extend his investigative concession to cover employees of the telephone central has proven successful. This greatly increases the access of LIFCAT and somewhat reduces the security threat to the LIFCAT licensee and central crew when working on installation, repair or removal of LIFCAT crosseys. This latter can not be fully negated since it is now apparent that in his retired status LIFCAT-1 can never provide the personal back up protection to these LIFCAT personnel that he could prior to his retirement. Although the risk inherent in a LIFCAT type operation can not be completely eliminated, it is felt that it can be reduced to a workable level.

The coverage of the Hugoalvar Brusney lines has been assumed by LIFCAT. Therefore LIFCAT will not have to run the particular risk of re-establishing the coverage. It was the necessarily complicated "jump" from one central scene to another that alerted the telephone company crew to check the tap line resulting of this coverage described in paragraph 1.B. of reference.

**P. TACTICAL**

No change from previous reports.

2. The coverage provided by LIDDET during the reporting period totaled 24 separate lines. A breakdown by target is as follows:

1. Alaksova O. 612630V
2. Strylolev P. 61262730V
- 3, 4, 5 and 6. Polish Embassy and Commercial Office
7. and 8. AMERTEX Operation
9. Loss of a Cuban Commercial Attaché
10. Loss of a Czech intelligence officer
11. and 12. Homes of suspected Polish KB agents.
13. and 14. Targets of ZEMINX interest
15. and 16. Juan Jose Arvelo and related line
17. and 18. Loss of SCOT agent and related line.
19. Suspected Czech KB agent
20. Judith FORTESO Segura
21. Maria Ester CHAPA Tigrina
22. Rich SEIBER
23. David MUSCAT
24. Charles GALL (aka 51011007)

3. During the reporting period a number of messages were prepared by the Station for passing to local CACIB and USITT based in whole or in part on LIDDET provided material.

Further, the following BBS were based on LIDDET provided information:

EDS-7576	EDS-7745
EDS-7576	EDS-7757
EDS-7596	EDS-7758
EDS-7597	EDS-7602
EDS-7603	EDS-7623
EDS-7618	EDS-7626
