DISPATCH NO HKH

Chief, WHD

DATE _ 17 April 1956

FROM 1 Chief #6 Station, Habana

GENERAL - Operational - KUTURE SUBJECT SPECIFIC - Arthur G. Vaivada

(a) HKH-W-1607, 30 March 1956 (b) HKH-W-1505, 28 December 1955

- Regarding reference (a) the Station concurs fully with the proposed promotion ı. of Arthur G. Vaivada and desires also at this time to bring to the attention of Headquarters the merits of granting Vaivada staff status either concurrently with the promotion or as soon thereafter as may prove feasible.
- .The agent himself has expressed a keen interest in acquiring such status, for a number of obvious reasons. As a contract agent, Vaivada has not been entitled to the standard step increases that accrue to regular GS employees . Koreover he has not had the benefit of recent legislative increases in basic salary rates, such that his salary, originally set 16 August 1954 at the then GS-9 level, is still \$5060.00 per annum. Perhaps of more importance than the foregoing considerations is the fact that this agent has been and is losing out in terms of the retirement, health insurance, and other more longterm advantages available to staff personnel. The agent has several times expressed to the case officer his concern, as a family man, over the fact that he is not receiving retirement credits with his years of service. Vaivada's expressed career interests lie in continued employment by KUBARK, more especially in the area of assignments in the field, and in view of his qualities of character and high level of performance for KURARK the Station has no hesitation in recommending to Headquarters that he be awarded the desired change in status.
- In view of the agent's present salary level it is recommended'that the promotion from his present grade be to the equivalent of a GS-10 at a per anmin salary of 5,915.00. If Headquarters concurs in the recommendation that the agent be granted staff officer status, the agent would move up to the GS-11 grade at that time.

Ross L. Crozier Apto. 779 San Jose, Costa Rica

Dear Mr. Crozier,

/EII

Apto 779 Sur Juse, Costa Rina May 31, 1954

The Pan-American Foundation, Inc. Box 3587, University Station, Gainesville, Florida, U.S.A.

Dear Mr. Wilgus,

As a student of economics with special emphasis on the Latin American areas, I wrote you in the letter dated 17 May for information about obtaining a scholarship through your organization for continuing my studies in economics at the University of Habana in Cuba. I should like to begin work there for the school year 1954-1955.

As to my qualifications, I have attended the School of Economics Sciences at the University of Costa Rica from 1949 through 1953. In all my previous courses I have done above average, as can be attested by the schools concerned.

My present desire is to continue my study of economics at the University of Habana for one year, or as long as it may be deemed necessary to obtain a Bachelor of Science degree in economics. I am also interested in the possibility of having the scholarship renewed at the end of the period, so that I may be able to begin graduate work in economics. Eccause I am a married man with two small children, I would like to know whether the scholarship granted would be sufficient to cover the cost of good and housing in addition to tuition, books, and the normal academic expenses, which I estimate to be about \$3000.00 annually.

As to my personal history, I am a United States citizen and shall be 32 years old in June. I have served in the United States Army and Air Force between 1940 and 1949, with the exception of an eight month period in 1945 and 1946. The areas in which I served are India and Burma in World War II, and Panama after 1946. Because of my long residence in Panama and Costa Rica I speak Spanish fluently, as does my wife who is of Costa Rican nationality. As mentioned before, I have two young children born in 1949 and 1951 respectively.

I_realize_the_above_information_may_be_insufficient_in_order to-determine_whether-I_qualify_for_a_scholarship,_and_I_should_be_glad_to_provide_any_additional_information that you may require. Please also send me whatever forms necessary for making formal application for a scholarship.

Sincerely yours,

Ross L. Crozier

As has already been reported, Arthur G. VAIVADA and dependents arrived in Sustemala City on 2 January 1954. The first of several contacts with him was successfully accomplished on the night of 4 January 1954. Subject currently is living temporarily in an apartment hotel; however, he has already rented a small, inconspicuous apartment located in a middle-class neighborhood. He has purchased a few pieces of inexpensive furniture for the apartment and intends moving his family to the premises within the immediate future. Subject's choice of neighborhoods in which to reside is bolieved excellent. The spartment is located in a fairly busy section of town, is on a busy street served by public buses which travel to all parts of the city and is of such modest appearance that it will attract no attention.

- 7. It should be noted, that Agent over a period of several contacts appeared to be very cooperative and his attitude was comendable. When he first learned that he had been denied entry he was somewhat chagrined since he appeared to be set on an attempt to do a good job in a "tight" area. He had not given up hope to obtain proper authorization and was willing to pursue the matter further since he felt over a period of time he would be allowed proper entry authority. He suggested several possibilities.
- 8. Agent also expressed a desire to go to Cuba or anywhere else the Agency felt he could be of best service to the Agency regardless of the difficulties within reason, which may have been imposed on him and his family.
- 9. In view of Agent's past successful record with this Agency, in view of his attitude, his future possibilities and his comparatively limited salary, it was suggested to that he might consider a raise in Agent's salary.

OTHER FACTORS

Current operational restrictions on this agent presently prevent full exploitation of his potential.

COMMENTS

Due to financial pressure, explained in TRSA-1142, HUMANOID has recently undertaken a part time job

Subject is the most valuable agent available to this station and is believed capable of further developed ment in the event current operational restrictions are removed. He is conscientious, hard working, loyal, imginative, and amenable to supervision. In view of his interest in a long range career, a reply to the question posed in TRSA-1142 concerning career agent status would be appreciated. Subject has been aware of the recommended salary increase which has been pending for over ten months. Although he has not questioned the delay, it is obvious that his self-confidence and professional pride have been shaken somewhat by the lack of official recognition. We feel strongly that agent has earned a raise and that an increase at this time is not only justified but would be in the best interests of our present and future operations. PLEASE EXPEDITE ACTION ON THIS MATTER. 6 may 52 201-168881

3. The funding requirements for agent salaries were calculated (by the Headquarters case officer, _______ at a rate 8 to 1 (e.g., HUMANOID was to receive 1600.00 or \$200.00 per month).

4. However, the rate of exchange has fluctuated since the original funding estimates were made. The present rate is 6.63 to 1. Accordingly, the monthly pay scale for HUMANUID in U. S. currency would be approximately \$241.00 (or 1600.00). The pay scales of the other agents are similarly effected.

5. This situation was explained to the Budget office
extension 2017) and the Plans office I stated that
dollar expenditures would be in excess of the amounts provided in the
project if we were to continue payments to the agents at the
rates previously established. informed me that we could
nonetheless continue the present pay scale. He further advised
that budgetary adjustments could be made at a later date when it became
evident that the project allotment would definitely be exceeded due to
currency fluctuations. A project amendment is not then required at
this time. The station may be advised to continue payments
in the amounts shown in paragraph 2, above.

MEMORANDUM FOR FILE

23 October 1953

SUBJECT: BIRADIAL

On Wednesday. 1h October 1953 I met with subject at his apartment in
Alexandria, Virginia for the purpose of obtaining
his signature on the Travel voucher prevously submitted covering his travel
to Washington, D. C.
BIRADIAL indicated that the combination of his schooling
in the mornings and his covert training in the afternoons which
also keeps him busy during the weekend, is keeping him fully occupied.
Though he did not press the issue, he wondered whether it would be necessary
to continue his schooling He indicated he thought
he could handle any inquiries regarding his activities satisfactually. We
both decided however that, regardless of the hardship placed on him, he
should continue his schooling since any inquiries
could then be properly and legitimately backstopped. One of the difficulties
involved is the amount of daily travel between the University and his
residence.
Inasmuch as the distance involved plus the high rental cost factor (175.00 per month) present a few difficulties. This plus the fact that the
plausibility of a student paying such rent is somewhat questionable, BIRADIAN
indicated he might move to a more suitable location.
On 23 October 1953 he informed he was moving
as of this day for cover, convenience, and financial
considerations. He will advise of his new phone number if and when it is
available.

- 1. Transmitted herewith is the HUMANOID file, which, through a regrettable inadvertence, was not forwarded to your station scener. After perusal by your station, it is requested that the file be returned to Sin José for use in briefing the incoming Chief of Station on the over-all scope and ramifications of these activities formerly handled by subject which will be reassigned upon HUMANOID's departure.
- 2. In view of the fact that subject has sold his house and furniture and must effect delivery on 31 July 1953, and because a tentative departure date of 1 August 1953 has been set, your early attention to reference would be greatly appreciated.
- 3. The HUMANOID file will be returned to Suenos Aires for permonent retention after it has served the purpose set forth in Paragraph 1.

The San Jose Station was requested to forward subject's file for your perusal; we hope that you are now in receipt of this file.

A review of the Headquarters file indicates that HURANID is an aggressive, rather well qualified operative, who has enjoyed a good ressure of success and has exercised good judgment under operational stress. He desires a career with this Agency, and is devoted to the work.

discussed the question of covert training at Headquerters some time in late 1953 prior to going to Argentina. It is Headquerters' understanding that he would come to Meadquerters some time in late August or September for approximately two months covert training, after which he might be directed to await departure for Argentina until some time in aid-January 1955, in order not to arrive in the area

1. The following comments on reference are submitted for your information and files. It is to be noted that the headquarters reviewing officials have arrived at a number of the same conclusions that we have with regard to the security of the Project and the possible lines of action to be followed.

2. With regard to Paragraph 6 of reference, we feel that although the security risk of contact and communications between HUMANOID and HUMANOID-3 has not been removed, it has been reasonably minimized. After the closing of HUMANOID's in November, 1951, several meetings were carried out at night on park bonches while attempts were being made to locate a secure safehouse. This method was not satisfactory because of the impossibility of handling and discussing written materials, the brief time limit demanded, and the possibility of accidental recognition of one or the other. A number of meetings were held at the home of HUMANOID at night with

hazards here were aggravated by the fact that

lives in the neighborhood, the risks were deemed less serious than park meetings. A safe house was located in May, 1952, and was used for several meetings, but was compromised and abandoned when several acquaintances of HUMAHOID passed by and saw him unlocking the front door. Meetings were again held at the home of HUMAHOID on a staggered schedule while search for suitable safehouses continued. (At least ten apartments and offices were examined and rejected by HUMAHOID and the writer during this period.) A new safehouse was rented on 1 November, 1952, and is presently being used for meetings. However, both HUMAHOID and HUMAHOID-3 have agreed to abandon this place at the end of the month, because actual use has demonstrated security weaknesses in exit and entry. Another safe office is presently under investigation, and attempts have been made to limit the live contacts by brush meetings in darkened streets and use of

We are also actively searching for suitable two-way dead drop facilities in a further effort to minimize live contacts.

We feel confident that no Costa Mican officials are actively
attempting to identify higher elements in the net, control the
operation, or detect the nature of our intelligence interests.
4. In view of the devolopment of more intimate relations
between HUMANOID and and the latter's interest in whether
any record exists of his cooperation we
have obtained preliminary PRQ data from him and are presently con-
sidering the possibility of requesting clearance as a paid a ent.
This will be the subject of a future dispatch. Further indication of
the lack of detailed information on the part of the Costa Hican
authorities concerning this project is contained in ERSA-1272.
5. With regard to Paragraph 8 of reference dispatch,
we have long been concerned over the lack of additional and
the scope of responsibilities presently assigned to HUMANGID. We hope
to separate theoperations
in the near future. As previously reported, the possibility exists that
HUMANOID will depart Costa Rica some time during 1953. We have already
begun turning over the activity to When
clearance is obtained for and further observation is
completed, we contemplate turning HUMANOID-3 over to In
addition, we are gathering PRC data on additional potential
6. With regard to Paragraph 9 of reference, it is to be

SECRET STOPRITY LEFT SEATION

21 January 1953

MEMORANDUM FOR: Chief, WH Division

SUBJECT Humanoid

- 1. At the request of I met with Furancid on the occasion of his visit to Washington last November and made certain oral commitments on behalf of the Division. No commitment, however, was very specific and all were cleared with the Division in advance. My participation in the matter was, of course, owing to the fact that I had recruited Humanoid originally and enjoy his confidence.
- 2. Humanoid in the past has pursued his activities on behalf of this organization as somewhat of a profitable avocation. His performance, nonetheless, has been outstanding from the point of view of initiative, production and understanding of operational principles. He would now like to make it a career but lacks sufficient information upon which to base a decision and, being partially aware of the uncertainties involved, insists upon maintaining an alternate vocation. In pursuit of this latter objective, he plans to move to Buenos Aires in June or July of 1953 and establish himself there on a permanent basis. His inquiries were to ascertain what effect these plans would have upon his present and future relationship with this organization.
- I advised Humanoid to continue with his plans as outlined above, stipulating only that he remain in his present location until after and assured him that as a consequence of his past satisfactory service he would be micked up in Eueros Aires at a compensation at least equal to that which he is presently receiving.
- 4. I then explained that our participation in his move would necessarily have to be determined at a later date but requested him to keep us informed of his plans on a continuing basis, assuring him that it would do no harm to request such assistance as he might need. In this connection, I advised him to request formal training, which he has never had, implying that this would be granted, and suggested that a formal contract, future compensation, travel expense and so forth could best be negotiated here at that time.
- 5. I recommend, therefore, that Humanoid be brought to headquarters for a period of training and that a contract agent relationship containing the usual travel and allowance provisions be formalized at that time. Basic compensation should certainly consider his past record and proven reliability in addition to the initiative he has shown in laying on his Although his future assignment is none of my business, I

would point out that he has proven adept

and suggest that his talents would be creatly circumscribed

J. Project financial records in Headquerters are maintained in U. S. currency. Accordingly, DIR 16246 (OUT 50019) was expressed in delical units. Unfortunately, we were not sware of recent fluctuations in the rate of exchange when the message was sent and the excents quoted were not sufficient to maintain agent maleries on the previously established excle. This problem has been discussed with appropriate effices here as indicated in the attached memorandum for record which we believe to be self-emplanatory.

4. In the event that the current financial status of project HEMECID is not hereby clarified to your satisfaction, we will be happy to furnish any additional information that may be required.
